FLIERS BATTLED ALEUTIAN STORM TWENTY HOURS

Message to Tokyo States Moye and Allen Tossed Around Like a Leaf.

LAND PLANE UNDAMAGED.

Make Second Hop After Being Held Up By Gale for Seven Days.

TOKYO, Sept. 18. (AP) First details of what happened to Don Moyle and C. A. Allen, California fliers who were found on a Siberian Island this week nine days after they had taken off from Japan on a projected non-step trans-Pacific flight, were published to-day by the newspaper Asahi.

The fliers, who transmitted their story from their rescue ship, the Russian steamer Buriat to Tokyo via the Ochiishi wireless station at Nemuro, Japan, recounted their experiences after having the Japanese mainland at Cape Erimo, 110 miles from Samushiro, their takeoff point.

They were last sighted at Cape Erimo 70 minutes after taking off on September 7. Their story to Asai said weather conditions had been favorable until they neared the Aleutian island, where they encountered a gale.

Asahi quoted the fliers as saying their plane was tossed "up, down and aside like a leaf" by the Aleution storm.

20 Hour Battle

"For nearly twenty hours," they said, "we kept the lpane up only by almost superhuman efforts."

The dispatch said Moyle and Allen flew for 34 hours after leaving Samushiro beach (they had a fuel supply which they had estimated would last them about 47 hours) and managed to land on an uninhabited Aleutian Island without damaging the plane.

The storm, they said, continued to rage and for seven days they were unable to continue their flight. On the eighth day, the related, the weather improved and they took off from the Aleutian Island, flying in a northwesterly direction and landing near Miano Pilgino, Siberia.

"We went through a trying ordeal" said the fliers, but added that they were in good spirits. They said they planned to start for Seattle Saturday.

BOY IS DROWNED IN MILL POND

Everett Buchanan, Dummer Township, Drowned While Bathin gat Norwood.

UNABLE TO SWIM.

NORWOO, Sept. 18 (Examiner Correspondence). — Everett Buchanan, 12-year-old son of Mr. and Mrs. George Buchanan, Dummer Township, was drowned while in bathing at the Norwood Mill Pond at 11 o'clock this morning.

The little lad's home is about two miles north of Norwood, but he attended the Norwood Public School. School was let out early to-day on account of the school fair, and Everett, along with three of his chums, went to the Mill Pond to have a swim. They had only been in the water a few moments when the Buchanan boy, who could not swim, waded beyond his depth and went under. The other boys immediately gave the alarm and the body was recovered about fifteen minutes later. Dr. N. F. Sutton worked for a couple of hours on the body trying to bring back life.

DEMPSEY'S SUIT UP MONDAY

RENO, Nev., Sept. 18.—The divorce suit of Jack Dempsey was set today for next Monday at which time the former heavyweight boxing champion is expected to be granted a decree by default.

Estelle Taylor, Dempsey's wife failed to answer his divorce complaint within the thirty days allowed by law.

Program at "Ex" For Saturday

AFTERNOON

Judging of Horses in the following classes—Heavy Horse Specials, Light Delivery, Light Horse Specials, and Ponies.

Great Livestock Parade at 3.30 o'clock.

Full Program of Vaudeville Acts and Complete Rodeo Show in front of grand stand. Band concert and big card of Horse Racing.

EVENING

Long Program of Daring Vaudeville Acts and Complete Rodeo Show in front of grand stand. Band Concert, and Big Display of Fireworks.

RELIEF PROGRAM STARTED IN CITY

By Monday Morning 175 Men Will Be Working in Relief Program.

FOR MARRIED MEN.

Losing no time in setting the unemployed to work under the city's unemployment relief program that was endorsed to the extent of $120,000 on Monday by J. A. Ellis, secretary of the Ontario Unemployment Relief Committee, the Board of Works department added 70 more men to its gangs. Monday another 30 will be added, bringing the gangs up to a strength of more than 175.

In fact last Monday, before the city's program had been endorsed, one gang of 25 unemployed had started work in Ashburnham on the program passed by the City Council.

The work includes extensive paving and laying of curbs and aims at placing the utmost of total cost into the pockets of the unemployed. Four gangs are doing the work, which is so far confined chiefly to Ashburnham.

Of the number now at work, all are married men and most have children. About 500 married men are registered at City Engineer Parson's office as being unemployed, and the big problem facing the engineer's staff is to distribute the work to the men who need it most. All will get some work, but those with most dependents will get a larger share to aid them in their greater responsibilities.

Rev. W. Archer Dies Attending Synod

TORONTO, Ont., Sept. 18.—(CP)—Suffering a sudden heart attack, Rev. William Lawrence Archer, M. A., Rector of Stamford Anglican church succumbed today at Trinity House, St. George St. He had been attending the General Synod sessions here.

Born in London, Ont., in Sept. 1883, and a graduate of Trinity College in 1905, Mr. Archer secured his M. A. degree in 1906 and was ordained in 1907. He was inducted rector in the diocese of Niagara, serving latterly in Stamford. He served overseas for three years.

BIRTH CONTROL ADVOCATE URGES 2 YEAR MORATORIUM ON CHILDREN

Claims Infants Born in Depression Too Heavy Burden on Parents' Resources.

APPLIES TO WELL-TO-DO.

NEW YORK, N.Y., Sept. 18. (CP) Mrs. Margaret Sanger, birth control advocate to-day called for a two year moratorium on children, claiming infants born during the current depression were too heavy a burden on the resources of their parents.

No woman should have any more children this year or until the industrial situation has returned to normal," she said. "Every child that is born now will only add to the financial distress of the family, imperiling the health of the older children and adding a presumably ill-nourished and puny specimen of humanity to a world that is already overburdened with dependents.

"This moratorium should apply not only to the very poor, but also to the well-to-do Mrs Sanger continued. "This is a period of anxiety for the rich as well as the poor—perhaps of greater anxiety for them—as they are not so accustomed to financial insecurity. The poor have always a narrow margin between security and peril. They can endure the nervous strain of today better than some of those who actually have more money. Even in a well-to-do family a child would be better off not to be born just now, while the mother is anxious and nervous. I am perfectly sure that a nervous mother's condition is reflected in the child. There is no doubt about it."

200 Boys Are Wanted For Live Stock Parade

From 150-200 boys over fifteen years of age are required by the Exhibition Board directors to lead the stock parade and to carry banners on Saturday afternoon. Boys are asked to be at the Lock Street gates of the grounds at 2 o'clock, and all accepted for duty will be entitled to free admission and a ticket for the grandstand. William Knox, managing director of the Exhibition Board, will have charge of selection, and J. B. Milburn will make arrangements for the boys' tickets.

Market Closing On All Exchanges

WALL STREET.

NEW YORK, N.Y., Sept. 18. — (C.P.) —The Stock Market plunged to new depths to-day, but recovered a little from the lowest under short covering in the late dealings. Shares losing about 4 to 7 points included American Telephone, American Tobacco 'B', Santa Fe, American Can, and Eastman, but these issues all recovered a point or so from the lowest, as pressure lifted in the last hour. Union Pacific got down 9. General Motors lost 2, and U.S. Steel more than 3. The closing tone was weak. Sales were well over two and a half million shares.

Decline In Value Laid To Low Price of Canadian Wheat

Dominion Currency is at Lowest Level in Two Years on New York Foreign Exchanges According to Advices.

CANADIAN DEPARTMENT OF FINANCE OFFICIALS HAVE NO STATEMENT TO MAKE WHEN QUESTIONED

Decline on Wall Street Has Been Continuous for Almost a Week—Some Gains Recorded on Saturday.

NEW YORK, N..Y., September 18 (C.P.). — The Canadian dollar to-day sank to the lowest levels in two years on local foreign exchanges.

Shortly before noon the discount rate rose to 1¾ per cent. At three o'clock the rate was quoted at 1 11-16, one-half a cent lower than this morning's opening quotation.

Local banks with Canadian connections were somewhat loath to commit themselves in ascribing a reason for the fall in the price of Canadian funds, although in some circles it was laid to low prices which Canadian farmers are getting for wheat.

New York bankers took cognizance of reports from Ottawa last night that a Canadian bank shortly would ship a consignment of $1,000,000 in gold to a New York connection, but said they were unadvised locally of such a shipmentt.

The drop in the value of the Canadian dollar in United States currency has been almost continuous for a week. The only gains recorded during the movement were on Saturday, when the discount rate was quoted at ¾ of one per cent as against 15-16 the previous day, and on Monday, when the rate was quoted at ¾ of one per cent.

On Tuesday the rate was back at 15-16 and the following day it rose to 1 per cent, putting the value of the dollar at the lowest ebb since February, 1930.

Ottawa Silent

OTTAWA, Ont., Sept. 15 (C.P.)—No official statement was available to-day on the despatch from New York respecting the Canadian dollar. Officials of the Department of Finance had no statement to make.

OTTAWA, Ont., Sept. 18. —(By the Canadian Press.)—The shipment of gold, approximating a million dollars, which was to have reached New York to-day failed to get farther than Montreal, according to information obtained here. It will probably reach New York to-morrow.

The gold shipment is being made by the Canadian banks and not by the Department of Finace, it is explained here. It was sent from Ottawa to New York but was not taken beyond Montreal.

Departmental officials were not inclined to discuss the depreciation of Canadian currency in New York to-day.

KIWANIANS DINE WITH DIRECTORS OF EXHIBITION

Board is Complimented on High Standard of This Year's Fair.

VISITS EXHIBITS.

Increased Grants Are Expected by the Board from Government.

Members of Peterborough Industrial Exhibition Board and local Kiwanians, following established custom foregathered for luncheon today noon under the big white top of St. James Church Dining tent at exhibition park. Afterwards conducted tour of the numerous exhibits was undertaken, conducted by members of the fair board and Kiwanian J. B. Nelson, local agricultural representative.

President John I. Allen of the Kiwanis Club presided, and paid tribute to the fair directors and complimented them on having brought this year's exhibition to a higher standard of perfection.

His Worship Mayor Roland Denne president of the Fair Board in reply struck a characteristic note of optimism urging the gathering to "carry on". "In making this exhibition a success he said, "we are giving a stimulus to agriculture. Upon the success of the agriculturists, largely depends the prosperity of this city. Mr. Rothwell, Dominion Trade Commissioner who attended the fair this week and also the Hon. Mr. Kennedy, Provincial minister of agriculture, had promised said the Mayor, to obtain greatly increased grants for the Peterborough Exhibition. They were both amazed at the size of the show, and of the high quality of the numerous exhibits of livestock and agricultural produce". Mr. Rothwell had also said, that Peterborough Exhibition need not take second place to any other fair of its size in Canada.

It had been hoped to have the Trade Commissioner for the Commonwealth of Autralia as guest speaker, but he had prior engagements. Through a misunderstanding His Worship the Mayor of Toronto, had also failed to accept the invitation as speaker, while one of the horse judges who had also

TRUCK HITS CAR THREE INJURED

Transport Driver Held on Negligence Charge—Supposed to Have Fallen Asleep.

NEAR BELLEVILLE.

BELLEVILLE, Ont., Sept. 18. — (C.P.).—Edward Milford, Picton, is facing a charge of criminal negligence, resulting from a head-on collision between a transport truck, of which he was in charge, and a light touring car, six miles east of Belleville, early to-day. He appeared in Police Court and was remanded for one week. Misses Clara Houston and Jeanette Reid, of Shannonville, were seriously injured and are in Belleville Hospital, while the driver of the car, Franklin Smith, sustained severe bruises and shock. It is alleged that Milford fell asleep, his truck crossing over to the eastbound traffic lane, and did not awake in time to avert the crash. Provincial police investigated.

Found After Missing Over Week

PACIFIC FLIERS REPORTED SAFE IN ALEUTIAN ISLANDS. A report states that Cecil A. Allen (left) and Don Moyle (right), California fliers, missing more than a week after trans-Pacific flight attempt from Japan to Seattle, are safe in the Aleutian Islands. They left Tokyo on September 8, and all hope had been given up since September 10.

Girl Plays Gipsy; Wanders on Horse

BRANTFORD, Ont., Sept. 18 Isabel Shaw, a 15-year-old miss, has a well-developed case of Gipsy wanderlust. She was found asleep in the ditch on the highway. A sack of straw for her pillow. A horse upon which, using the straw sack as a saddle, she had come from Hamilton, was tethered nearby. The girl's parents and the owner of the horse were notfied.

5,563 ATTENDED "EX" THURSDAY

Attendance at the Peterborough Exhibition is 1,410 Ahead of 1930.

LOOK FOR RECORD.

Attendance at the Exhibition thus far is still leading last year by more than one thousand, but it will take a large increase on yesterday's attendance to-day and to-morrow to maintain that lead and climb up to a new record for the whole week.

Attendance.

	1930	1931
Monday	—	1 827
Tuesday	1.819	4.590
Wednesday	10 886	9 656
Thursday	7 521	5.563
Totals	20 226	21.636
Decrease on day		1.958
Increase to date		1.410

A year ago to-day 7.345 entered the turnstiles at the big Fair and on Saturday, the final day, more than 10,000 crowded the grounds.

Residents of Peterborough and district are faced with the responsibility of at least maintaining these attendance figures for the last two days last year during to-day and to-morrow if a new record in attendance is to be rung up. The Exhibition Board went confidently forward at the beginning of the year planning for larger exhibits with higher quality, increased and better attractions, and the effect of their efforts and toil can only have realization in a larger attendance.

Reports of every judge in every department of the Exhibition — live stock, agricultural products and flowers, etc—is the same: "Peterborough Exhibition never had a better show. The quality and number of exhibits passes anything previous in its history."

The big grounds are overflowing with everything of interest to farmer and city dweller. In front of the grand stand each afternoon and evening is a great program of daring vaudeville acts, the cream of vaudeville performers on the continent. Then added to this is the breath-taking rodeo show with bucking mustangs, wild steers skilled riders and ropers.

A finer collection of race horses

Two Aviatrixes After Continental Record

LOS ANGELES, Cal., Sept. 18—William Lancaster, flying partner of Mrs. M. Keith-Miller of Australia, has announced that the aviatrix and Mary Adams, New York actress, will seek to break the womens' transcontinental record of Ruth Nichols.

Lancaster last night said he had spent several weeks in preparation for the flight, and that Mrs. Keith-Miller was due here to-day by plane from New York. Miss Adams is in Los Angeles.

The plane to be used, he said, was capable of 230 miles an hour.

LAURIE NEILL PAYS PENALTY

Fort Francis Lumber Worker Walks to Scaffold Without Falter.

MURDERED HIS FATHER.

FORT FRANCES, Ont., Sept. 18 (CP)—Paying the supreme penalty of the law for the murder of his father, Laurie Neill was hanged at the local jail at 12 minutes past midnight to-day. The physician pronounced him dead 22 minutes later. Neill walked to the scaffold without a falter and showed no emotion during the preliminary proceedings of placing the noose about his neck and the black cap on his head.

The crime for which Neill paid with his life was committed nearly a year ago, December 30, 1930. According to the evidence at his trial he beat his father to death with an iron poker. Neill was 25 years old and was a lumber worker.

Intervention of the federal authorities on Monday cheated the local gallows cut of a second victim to-day. Atansz Usicki was to have been hanged at the same time as Neill for killing a woman and two children in Sutherland Township. He was given a reprieve until January 15 and in the meantime will have a new trial.

Autogiro To Visit Fair On Saturday

The only autogiro owned in Canada and the first to be used for commercial purposes, will be at the Peterborough Exhibition on Saturday.

The machine has attracted unusual attention throughout Canada, and was for a week one of the major attractions of the Toronto Exhibition. To-morrow it will fly over the Fair Grounds, and if possible make a landing in Exhibition Park. The machine is owned by the "British Consols," and it has crossed Canada twice, having been with the Trans-Canada Air Pageant from coast to coast.

Shute Is Leading P.G.A. Titleholders

PROVIDENCE, R.I., September 18 (C.P.). — Densmore Shute of Hudson, Ohio, to-day was one up on Billy Burke, open champion when they ended the first nine holes of their P.G.A. championship semi-final match. Burke's birdie deuce on the short eighth put him even but he immediately dropped back by taking an extra putt on the ninth.

Gene Sarazen, however, appeared to have his young rival, Tom Creavy of Albany, well under control for that two-time winner of this championship was one up at the turn.

Charlie Brewer Aids 110 To See Big Fair

Charles L. Brewer, of the Hudson-Essex Agency of this city has handed to The Examiner 20 adults, and 90 children's tickets of admission to the Exhibition Grounds to-morrow. These tickets are to be given through The Examiner to any adult or child, who through financial reasons has not been able to see the exhibition.

They will be given out at The Examiner office tomorrow.

First Grain Cargo Leaves Churchill

CHURCHILL, Man., Sept. 18 —(CP)—To the accompaniment of shrill blasts from its siren and cheers from those assembled along the harbor front the sturdy steamer Farnworth slipped anchor at 10:30 o'clock this morning and moved out of Hudson Bay carrying the initial shipment of prairie wheat for overseas port.

COL. EARCHMAN WINS 1ST PLACE IN LARGE CLASS

Horse Lovers Were Fully Catered to at Exhibition Yesterday.

COMPETITION KEEN.

Robert Grandy Replaced James McLean as Heavy Horse Judge.

Horse lovers were fully catered to at the Exhibition on Thursday afternoon, there being a remarkably fine turnout of entries in the carriage and roadster classes in the light horse section. Showing off their paces and action, sleek well-bred horses trotted on the track in front of the grandstand and judge, and in some instances completed the circuit of the track, drawing shining show buggies and presenting a pleasing spectacle sadly enough unfamiliar in this mechanical age.

Competition was keen and heavy, particularly so in the farmers' special, single mare or gelding class, which had eight entries. Colonel Earchman's horse and rig took first prize in this event, with W. J. Watson driving.

Most of the contestants in the carriage and roadster classes drove their own entries. The ladies made a particularly good showing, handling their reins with graceful skill. Mrs. Chandler handled her entry; Mrs. Byers and the Misses Kelly and Shaw also drove. The former for G. N. Graham and the latter for Mr. Jamieson, of Ida.

Miss Kelly also rode a mount in the saddle class and took it over the jumps after the judging was completed, while Allan B. Mann, of Bridgenorth, also riding his own entry, took second place.

F. D. Shaver, of Toronto, judged the light horse classes. In the heavy horse classes, James McLean, who commenced the judging on Wednesday, was replaced by Robert Grandy, of Brooklin, on account of sickness.

Mr. Grandy remarked on the quality of the entries in the heavy horse section, and said that the classes were much heavier this year, with some exceedingly good individuals.

Carriage horses: Mare or gelding, three years and under four, to be shown in harness with suitable

3 KIDNAPPERS SHOT TO DEATH

Fourth Badly Wounded as Gas Station Operator Cuts Loose With Pistol.

ONE VICTIM IS STEPSON.

ATLANTA, Tex., Sept. 18.—Three men were shot to death and a fourth was wounded dangerously near here last night by J. H. Boyd, 50 year old Louisiana gasoline station operator, who said they had lured him from his station and kidnapped him.

Officers identified the dead men as Hardy Luce, 45; Bill Fish, 34. Boyd's stepson and Earl Sullivan, 28. Physicians said they did not expect Bill Sullivan, brother of Earl Sullivan and brother-in-law of Fish, to live. All were filling station operators.

One pistol bullet fractured Boyd's right arm and another plowed a furrow across his chest.

J. A. MINGAY PASSES.

TORONTO, Ont., Sept. 18 (C.P.). —Following a short illness, the death occurred last night of John A. Mingay, general manager for Canada of the Ocean Accident and Guarantee Company, with which Mr. Mingay has been associated for the past 25 years. Deceased was 53 years of age.

BANKING HEADS ASK GOV'T KEEP POWER 2 YEARS

Officials Appeal to Premier in Orders to Avert Drop in Exchange.

Liberals Against Election.

Conviction Spreads That National Policy on Tariffs Must Be Formed.

LONDON, Sept. 18.—(AP)— Premier Ramsay Macdonald's National government was confronted today with a divergence of opinion about the dissolution of Parliament and a general election this fall.

Liberal members of the House of Commons in a meeting last night voiced unanimous opposition to the recall of the present ministry. Sir Herbert Samuel, Home Secretary, said it should not resign until it had executed its program to restore confidence in the pound sterling and stabilize the nation's finances.

Bankers Visit Premier

Sir Musgrave Harvey, deputy governor of the Bank of England, and several associates visited the premier while this meeting was in progress and it was reported that they discussed what they considered to be the danger of an appeal to the people at this time.

The Daily Mail, strong opponent of an early election, said that the bankers told Mr. Macdonald that the emergency government must remain in office at least two years in order to avert a disastrous drop in the exchange and asked him to issue a statement spiking rumors of an election.

"The affairs of the nation reached a position of extreme gravity Thursday," the paper said.

"It would appear on reports thus conveyed to the Government that the recent unrest in the fleet had a profound effect on British credit and that the time has come when all other considerations save those of national existence must be put aside."

National Tariff Policy

Discussion in Parliament lobbies and in the press showed an increasing conviction that a national policy on tariffs and other matters must be formulated and submitted to the electorate. Conservative were of the opinion that Mr. Macdohald was better fitted to make an appeal to the country than the parties but many Liberals and Laborites were opposed to such a view.

It was generally believed that the cabinet committee appointed to consider the question of the balance of trade and how to restore it had reported or was about to report and that its findings would materially influence the prime minister in his decision.

STOP BORROWING FOR DOLE FUND

Gov't to Boost Payments Along With Higher Sums From Workers and Employers.

LABORITES OPPOSED.

(By George Hambleton, C.P. Staff Writer.)

LONDON, Sept. 18 (C.P. Cable)—There is to be no more borrowing for the dole fund. Rt. Hon. Neville Chamberlain, Conservative, who is Minister of Health in the new Cabinet, was emphatic on this point when he detailed the unemployment insurance plans of the National Government in the House of Commons to-day. Formerly the dole fund was borrowing $5,000,000 a week from the Treasury.

The Government proposed to increase its ordinary payments to the dole fund, along with increased contributions from employed workers and employers, Rt. Hon. Mr. Chamberlain said. The benefits to unemployed would be reduced. But on the basis of three million unemployed, a figure which it is expected will be reached this winter, the unemployment fund would still show a deficiency next year, between revenue and expenditure, of $110,000,000.

This expected deficit, the Minister stated, would be met by a grant from current national revenues instead of continuing the practice of borrowing.

And from the Opposition benches F. W. Pethwick-Lawrence, former Financial Secretary to the Treasury, announced Labor's uncompromising hostility to the proposals. He asserted the National Government's economy scheme was "Panic legislation of incomprehensible illogicality." By reducing purchasing power it would only increase unemployment, he added.

SATURDAY A FINAL DAY OF FUN FOR THE LITTLE FOLKS EXHIBITION

LAST BIG HOLIDAY OF THE SUMMER FOR THE CHILDREN. Admission, ONLY 5c ALL RIDES AND SHOWS 5c FOR CHILDREN

PROBLEM OF PRIMATE ELECTION LIKELY TO BE HELD UNTIL 1934

Synod Passes Modified Proposal Urging Economy in Colleges.

NEW PROPOSALS COMING.

TORONTO, Ont. Sept. 18 (CP) Confronted with the problem of the election of a new primate, the General Synod of the Church of England in Canada to-day began its fifth day's session in Toronto. The Lower House of the Synod last Tuesday failed by the votes of three Maritime clerics, to give unanimous assent to a motion which would have changed the basis of constitution and set up legislation enabling the election to be taken out of the hands of the House of Bishops and turned over to the Synod.

This lack of unanimity means that completion of the process approved in principle, will have to be postponed until next assembly of the Synod in 1934, unless some other method of putting the plan through is discovered.

Reconsideration of the constitution-revising motion was voted Tuesday with the provision that when it came up again it should be accompanied by advice to the Lower House from a committee of diocesan chancellors on ecclesiastico-legal aspects of the problem.

To Bring Up Machinery

It was announced last night, however, that the House of Bishops would bring into this morning's session of the Lower House the proposed canon providing the Synodical election machinery and the report of the Bishops' committee on the whole election problem. Whether the enabling constitutional legislation will be brought up also this morning or left over until later appeared uncertain last night.

It is pointed out that the election of a new Primate has already been deferred, with the old system still effective. Since Archbishop Matheson resigned the Primacy a year ago. It was also suggested yesterday that if the election system were not revised completely at this assembly, the opportunity for a Synodical election might be lost for much more than the three years required for the slower ratification.

The recommendation of the Anglican National Commission regarding the theological colleges, endorsation of which blocked by representatives of the colleges on Wednesday, was approved in much modified form last night.

FIRE DESTROYS MILLS

PARRY SOUND, Ont., Sept. 17 (C.P.)—Early this morning, during an intense electrical storm, the saw and planing mills of H. J. Baldwin and Co., were destroyed by fire, when struck by lightning.

Girl Spots Rope; Fair in Uproar Over Snake Yarns

LONDON, Ont., Sept. 18. — (C.P.)—Rumor with her thousand tongues was busy for a space at the Western Fair yesterday. A large snake, she said, had escaped from one of the side-shows. Then the snake became larger. Then it became enormous. Later it bit someone.

What actually happened was that a nervous girl saw a short length of rope lying on the ground, screamed "Snake!" and went into hysterics.

ACTION LEADERS ARE PRISONERS

Five Dare Not Leave Vatican Because of Part in Recent Controversy.

TWO TO BE DISMISSED.

VATICAN CITY, September 18. (C.P.). — Five leaders of the Catholic Action organization are voluntary prisoners in the Vatican and do not dare leave Vatican City because of their participation in the recent Italo-Vatican controversy, it was learned to-day.

One of them is Count Della Torre, editor of Osservatore Romano, who has not left the Vatican since the dispute started almost four months ago. An Italian detective stands outside the gate leading to his editorial offices night and day, presumably to arrest him as soon as he sets foot beyond the papal confine..

Della Torre, together with the Jesuit Father Rosa, is slated for dismissal by the Pope as a concession to the Italian Government in recognition of settlement of the controversy. The other voluntary prisoners are an officer of the Palatine Guards, who is said to have furnished the Pope with information for his speech against the head of the Fascist University group, and former heads of Catholic Action connected with the defunct popular party..

The Automobile Club of France will offer a Nautical Grand Prize for races of mechanically propelled boats, the first to be held next summer.

Aimee's Husband Faces Lawsuit

$200,000 ASKED FOR BREACH OF PROMISE

Aimee Semple McPherson, Canadian-born Four Square evangelist of Los Angeles, is seen here with her new 235-pound baritone husband, David L. Hutton. Hardly had the echo of wedding bells died when hubby was served with papers for $200,000 breach promise suit filed by a nurse. "Ridiculous," they both called the action.

YOUNG WORKING TO AID JOBLESS

Heads Body Aiming to Stage National Relief Drive in October.

MILLIONS NEEDED.

WASHINGTON, D.C., Sept. 18.—(CP)—Owen D. Young turned his attention to-day to providing the hundreds of millions necessary to prevent distress next winter among the unemployed.

The New Yorker, author of the Young reparations plan and a possible Democratic presidential candidate in 1932, undertook the task as chairman of a committee in President Hoover's unemployment relief organization.

The committee was called to work out plans with Walter S. Gifford, national relief director for raising funds through local communities. It will not raise funds itself but will make a national appeal from October 19 to November 25 to aid organizations which have been urged to conduct all local drives be held during that period.

Many railway stations in France are to be abandoned.

57 Potatoes Are Found in a Hill

CAMPBELLFORD, Sept. 18 (By Examiner Staff Correspondent).—Another result of the extreme hot weather in the Campbellford district is to be evidenced by the large potato crop which is coming onto the market. John Roach of Campbellford knows all about this, for he received quite a surprise when digging his "spuds" to find that one hill contained no less than 57 potatoes. And to make sure that he was right on the number, Mr. Roach called his neighbor, W. Wood, to check up on the count.

CANADIAN BIRTH RATE UP IN U. S.

Census Shows Foreign Born White Population Up Fraction of Per Cent Since 1920.

FEWER IRISH, GERMANS.

WASHINGTON, D.C., Sept. 16—The foreign born white population of the United States has increased only eight-tenths of 1 per cent since 1920

Census bureau statisticians who computed this percentage increase by making an adjustment for a different method of figuring Mexicans, noted also a decided falling off of percentages from Ireland, Germany and Scandinavian countries, and a marked increase from Canada, Italy and Mexico

The number from Ireland was 11 per cent. less in 1930 than in 1920; from the three Scandinavian countries nearly 5 per cent. less; from Germany 4-6 per cent.

Those of Canadian birth increased by 14.4 per cent. of Italian by 11.2 per cent.; of Mexican by 12.9 per cent.; of Scottish by 39.2 per cent.

Among the 13,366,407 foreign-born, eight countries were represented by more than a half-million persons each. They were: Germany, 1,608,014; Italy 1,790,122; Canada, 1,278,421; Poland 1,268,583; Russia 1,153,624; Great Britain 808,672; Irish Free States 744,810; and Sweden 595,250.

GRAF ESSAYING ATLANTIC AGAIN

Making Second Trip In Three Weeks to Pernambuco, South America.

CARRIES 10 PASSENGERS.

FRIEDRICHSHAFEN, Germany, Sept. 18 (C.P.).—The Graf Zeppelin, leviathan of the Trans-Atlantic Airways, left early to-day for Pernambuco on her second non-stop cruise to South America within three weeks.

She took off at 1.15 a.m. (7.15 p.m. Eastern Standard Time, Thursday) and was sighted over Lyons, France, about four hours later, heading for Sainte Marie de Lamer. She was carrying ten passengers, including Harold Knight of New York, and James McVittie of Chicago, 265 pounds of mail and 2,000 pounds of provisions.

Captain Ernest Lehman was in command, pinch-hitting for Dr. Hugo Eckener, who was attending a conference at Innsbruck.

The Graf will wait five days in Pernambuco for return mail as she did on the last trip, starting August 29 and ending September 7.

A third cruise is planned for the middle of October.

Minard's Liniment Eases Sprains.

FIRE DESTROYS FLUKE PROPERTY

Blaze Originating From Spontaneous Combustion Destroys Barns and Crops.

IN FOXBORO DISTRICT.

BELLEVILLE, Sept. 18 — Mrs. Elizabeth, of Foxboro, suffered the loss of her barn, 105 by 40 feet, when fire originated from spontaneous combustion. Two hundred men were called to the scene, as it was feared that the fire would spread to nearby buildings and endanger the whole village. Part of the Belleville Fire Brigade was also called out. The loss will be extremely heavy as the season's crop of 750 bushels of grain, 40 loads of oats, and 75 tons of hay was totally destroyed. It is estimated that the loss will reach $10,000. The barn was the largest and finest in this part of the country. Insurance partly covered the loss. A large straw stack at the rear of the barn was also ignited.

SWIMMER LOST AT PORT HOPE

Ester Jane Clemesha, of Buffalo, is Drowned in Lake Ontario

100 YARDS FROM SHORE.

PORT HOPE, Sept. 18—Lake Ontario claimed its first life of the season here yesterday afternoon when Esther J. Clemesha, 17, daughter of Dr. J. C. Clemesha, prominent Buffalo physician and former Port Hope resident, was drowned. No inquest will be held, and funeral arrangements have not been completed.

Miss Clemesha and her sister Mary, 13 years old, were bathing at the local beach, which was virtually deserted. A fairly heavy sea was rolling and the two girls were swimming about 100 yards from shore. It is not definitely known whether the older girl suffered a weak spell or struck her head on the sharp rocks—all that is left of the western portion of the pier.

The younger girl valiantly endeavored to pull her sister to a pile of rocks, but the latter's weight was too great. Mary then swam to shore and summoned assistance. Captain Donald Matthews and H. Campbell, local fishermen, set out in a rowboat, and, after forty minutes of dragging, located the body, which had commenced to drift into shore. Resusciation efforts followed, but Dr. F. W. Diamond found life extinct. Miss Clemesha had been summering in Port Hope and was to have left for Buffalo Saturday, to attend school. Her father arrived in Port Hope only last night and reached the beach with his wife a few minutes after the tragedy and both were overcome.

CERMAK ORDERS VICE CLEAN-UP

Mayor Gives Police Force Ten Days to Carry Out Orders.

THREATENS SHAKE-UP.

CHICAGO, Ill., Sept. 18.—The Chicago police to-day were given ten days to make a complete clean-up of vice and gambling conditions.

An ultimatum was issued to them by Mayor Anton J. Cermak, who indicated that if there was not a satisfactory response to his demands within that period he would bring a drastic shakeup of the force, affecting every one from patrolmen to captains.

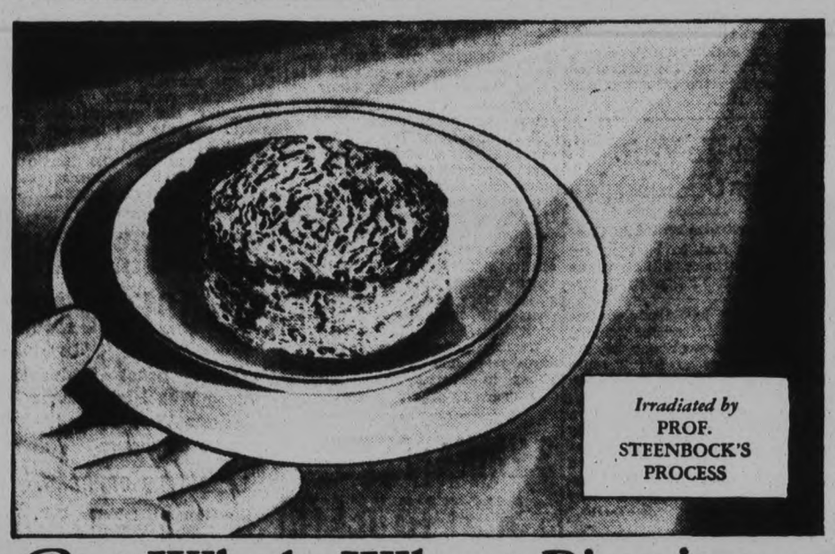
At the same time Acting Police Commissioner John Alcock issued a list of widely scattered vice resorts, with orders to district commanders to close them up at once.

Meanwhile alleged graft conditions described in a letter supposedly dictated by Mike "De Pike" Heitler, underworld character believed to have been slain near Barrington, Ill., last April, received official recognition. Alderman George Williston said he would ask the police committee of the city council to investigate.

Charles S. McDonald Passes Suddenly

TORONTO, Sept. 18—The Presbyterian Church in Canada loses one of its staunchest supporters in the death of Charles S. McDonald, who passed away unexpectedly at his home, 455 Oriole Parkway, yesterday, in his seventy-eighth year. He held the position of Chairman of the Board of Administration of the Presbyterian Church from the time of the Union until a year ago.

At the time of the Union he was one of the leading laymen to sign the protest against the action of the General Assembly with respect to the Union. Since that event he has devoted himself to the Presbyterian Church.



Irradiated by PROF. STEENBOCK'S PROCESS

Best Whole Wheat Biscuit you have *ever eaten* . . .

If you do not agree, we will refund the cost of the package to you

Every package of Muffets bears our printed guarantee, "If you do not agree this is the finest whole wheat biscuit you have ever eaten, we will refund the cost of the package to you."*

Muffets are plump whole wheat, cooked, and made into light biscuits by the distinctive Muffet process, baked in huge electric ovens and toasted through and through.

You can serve them straight from the package with milk or cream, or with fruit. Or heat, pour on hot milk and then, if you wish, add cream. Or, serve with toasted cheese.

Muffets contain the Sunshine Vitamin D. No other whole wheat biscuit has it. This is the vitamin everyone must have to make full use of body-building mineral in food.

Children need mineral every day for strong teeth and bones; adults to repair wastage.

HEALTH FACTS about Irradiated Muffets

1. *For Growth*—Contain protein in greater concentration than in ordinary refined cereals.
2. *For Bones and Teeth*—3 times as much phosphorus as in white flour; 20% more *calcium* than even in ordinary whole wheat bread.
3. *For Your Blood*—3 times as much iron as in cornmeal or rice.
4. *For Well-being*—Roughage, in the exact proportion intended by nature.
5. *Vitamins*—The new *sunshine vitamin D* that helps you use precious minerals in your food.

ADVERTISE IN THE DAILY EXAMINER

SPORT PROGRAM FAIR FEATURE

Belleville and Keene Girls to Clash — Campbellford Clerks Play Bethel.

HORSE RACING—MIDWAY.

CAMPBELLFORD, September 18 (Examiner Staff Corrsepondence).—More and better attractions is the slogan this year of the Seymour Agricultural Fall Fair which will be held at Campbellford on September 30 and October 1. And they are living up to this statement as a survey of the sports program shows.

In all there is offered $3,000 in prizes. In the three horse racing events there will be three classes with a total purse of $300, divided: A $125; B, $100; C, $75. The races will be mile heats divided 40, 30 20, and 10 per cent. C.N.T.A. rules to govern. All entrants must be members of the association. Stable and feed free on the grounds.

An added attraction this year will be the appearance on the grounds of a midway run by Harry Lottridge the well known midway king. This show is travelling on a circuit of fairs in this district.

Softball Game.

Special attention has been given this year to the ball games and T. J. Hopkins, chairman of the Sports Committee has arranged a fine series of softball games for the afternoon, October 1. Two champion men's teams will clash in an exhibition bout, Bethel and the Campbellford Clerks while one of the big drawing cards will be a game staged between the champion Belleville girls aggregation and the Keene hurlers, known throughout this part of the country as a premier outfit. It is expected that both Belleville and Keene will be up to full strength for this bout as these two section of the country seldom meet in this sport.

The fair this year will have an official opening accompanied with the ceremony generally attached to these affairs. There will be a parade of the Boy Scouts headed by the band of the Northumberland Regiment from Front and Bridge streets on October 1st at 1 p.m. Mayor J. M. Bygott performing the ceremony and welcoming the visitors at the grounds at 1.30 p.m. The Band will be conducted by Bandmaster W. Pearson and the Boy Scouts will be under the command of Scoutmaster M. Sergeant.

Obituary

MRS. STEPHEN WELLINGTON.

MADOC, September 18 (Examiner Correspondence). — On Saturday last, September 12, the many friends and neighbors of Mrs. Stephen Wellington were shocked to receive the sad news of her sudden and unexpected passing at the home of her daughter, Mrs. Lorne McConnell, Weston, Ontario.

The late Mrs. Wellington was born in Madoc Township on June 20, 1863, the daughter of William and Sarah Devolin. She was the last surviving member of a family of seven children. On November 16, 1881, she became the wife of Stephen Wellington, and came to Madoc Village to reside. Here she spent nearly all her married life, except for a few years in Deloro. During the past year she has been living with her daughter, Irene, in Weston, where she passed away after a very brief illness.

The late Mrs. Wellington was a woman of many splendid qualities, and was loved and respected by all who knew her. The funeral service was held from the home of her daughter, Mrs. Gordon Munro, Durham Street, Madoc, on Monday, September 14, at 2 o'clock p.m. Rev. G. W. Rivers, pastor of Trinity United Church, conducted the service, preaching a very comforting sermon from the text, "Weep not; she is not dead, but sleepeth," from Luke 8, 52. The pall-bearers were Messrs. William, John, and Robert Devolin, George West, J. Armstrong and C. Henderson. Interment was made in the family plot in Lakeview Cemetery. The floral tributes were beautiful, eloquent of the esteem in which she was held by her family and friends.

The following members of the family remain to mourn the loss of a dear and affectionate mother: Winno, Mrs. John Kinch, Thessalon; Emma, Mrs. Vernon Reid, Ompah; Fannie, Mrs. Gordon Munro, Madoc; and Irene, Mrs. Lorne McConnell, Weston. Three daughters and her husband predeceased her some years ago.

TRENT RIVER

A special meeting of the managing board of the United Church was held Tuesday night at the church to make final arrangements regarding he anniversary services and fowl supper.

Mrr. John Boyd, Mr. and Mrs. John Sedgwick and Miss Frances Sedgwick attended the Sherwin—Waldie wedding at Fenella on Wednesday. The bride (Miss Jessie Waldie) is a niece of Mrs. John Sedgwick and only daughter of Mr. and Mrs. Archibald Waldie at whose home the wedding took place.

A miscellaneous shower was tendered Mr. and Mrs. McQuaig (formerly Doris Robson) on Wednesday night at the home of Mr. and Mrs. John Ruttan.

Dr. R. Gawley returned Sunday to Chapleau after spending two weeks with Mrs. Gawley (formerly Debora Armstrong) and little son John expects to remain until the end of the month.

During the wind storm which was accompanied by heavy rain, Sunday night a large limb of an apple tree on John Sedgwick's lawn was torn off. The branch was heavy with fruit.

The young ladies' class of Sunday school are holding a social evening at the church on Friday. The Efficiency League will be withdrawn.

MORE SPECIALS FOR SEYMOUR FALL FAIR

Entries for Campbellford Event Coming in Fast in Many Classes.

CAMPBELLFORD, Sept. 18 (By Examiner Staff Correspondent). — Many additional special prizes have come to hand for the Seymour Agricultural Society Fair since the printing of the prize list. This event is being staged on September 30 and October 1.

The Rylstone Woman's Institute have given a first prize of $2.00 and a second of $1.00 for the best school lunch. For the best collection of home cooking made by a farmer's wife or daughter, consisting of a loaf of bread, six buns, six muffins and six baking powder biscuits. Will T. Allan has donated a prize of $2.00 In the poultry class. Mrs. Robert Innes has offered a first prize of $1.00 and a second of 50c for the best Afghan.

In the cheese class the Quebec firm of Dionne Co. manufacturers of dairy supplies at Belleville have offered three prizes, $5 $3 and $2 for the best white cheese exhibited at the Campbellford fair. This must be a special entry.

In connection with the entries for the fair Secretary J. N. Stone reports that larger numbers are coming in this year, individual entrants having more items. Two ladies have entered 141 exhibits apiece and another 138 exhibits. These include vegetables, fancy work, fine arts domestic science and flowers. Entries for cattle and horses are also large and from the present prospects a bumper fair is expected.

HOME TOWNERS

TIDBITS INTERESTING AND HUMOROUS FROM CAMPBELLFORD

In the absence of the pastor, Rev. R. C. Tait, who is on the sick list the preacher at both services at St. John's United Church on Sunday will be the Rev. A. McLauchlin, B.A., B.D. of Grafton. The services will be at the usual hours with Sunday School at 10 a.m.

At Christ Church (Anglican) the preacher for the day will be the Rev. Thomas McKim, M. A. of Colborne. Services will be at the usual hours. The Sunday School will open this Sunday in the Parish Hall at 2:30 p.m. and it is urged that all children of the congregation will attend.

At St. Andrew's Presbyterian church the Rev. J. C. Robinson will preach at morning and evening services which will be at the same hours. Sunday School and Bible Class will be at 2:30 in the afternoon. At both services special musical features will be given by the organist, W. A. Newcourt, L.C.C.M. At the morning service a soprano service will be rendered by Miss Hazel Atkinson.

At the Baptist Church the Rev. L. M. Smith will take for his sermon theme at morning service "The Light of Life" and in the evening "The Soul's Superlative." These services will be bright and interesting and a hearty invitation is extended to all to attend. In the evening Mr. Smith will sing. Services are at 11:15 and 7 o'clock with Church School at 10:30 a.m. On Wednesday evening at 8 p.m. the mid-week service will be held in the church and the church and Sunday School Rally Day will be on September 27, when a special program will be given.

"The Greatest Fact in History" will be the sermon subject of the Rev. Donald A. McKenzie at St. Andrew's Presbyterian Church, Burnbrae, at the Sunday morning service. To-night a congregational meeting will be held to arrange for the annual fowl supper. The Young People's Society will be on Monday evening.

On the Seymour United Church circuit services will be held at Zion at 11 a.m., Stephens at 3 p.m. and at Tabernacle at 7.30 p.m. The Rev. F. G. MacTavish will be the preacher at all services.

The L.O.L. church parade which was scheduled for October 4 at St. John's United Church has now been postponed from that day and the date left open. Announcement will be made of this function later.

Mrs. E. J. Birk returned on Wednesday from visiting friends in Toronto.

Mr. Constable of Oshawa was a visitor to town on Wednesday attending the box lacrosse game between the Tigers and Combines.

Mrs. S. J. Dolman is visiting in Toronto the guest of her daughter, Mrs. Dr. McCormick.

Mrs. C. C. Owen left on Wednesday to visit her daughters, Mrs. J. C. Birmingham at Trenton, Mrs. T. E. Bell at Bradford and Mrs. C. G. Ellis at Brantford.

Mr H. N. Carr and Mr. J. D. McEachern were business visitors to Toronto on Thursday.

Weighing only four ounces a ladder of aluminum is being shown in London.

The English team won the Aga Khan's Cup in the international military jumping contest at the Dublin, Irish Free State, horse show this year.

Cheese Patrons Meet At Beaver Factory

CAMPBELLFORD, Sept. 18 (By Examiner Staff Correspondent). — The last of the factory meetings staged by the Campbellford Cheesemakers' Association will be held at the Beaver Factory on the evening of September 24th, when W. V. Drewry, the association president, is arranging for a splendid program and guest speakers.

The chief speaker of the evening will be W. A. Fraser, M.P., of Trenton, who has consented to address the cheese patrons and makers Arrangements are under way to obtain other speakers of note in the cheese world.

These factory meetings during the present season have met with more than the usual success and have done much to straighten out many of the difficulties existing both on the part of the patrons and makers. The discussion of difficulties and the understanding of each others' problems has done much to advance the industry in this district and these factory meetings have helped to accomplish this

PARADE FEATURES LAKEFIELD FAIR

LAKEFIELD, Sept. 18.—(Examiner Correspondence).—An entirely new feature of the fair this year will be the parade which will begin at the Lakefield Inn, which is open to schools of the district, decorated motor cars, etc. and headed by the Band. The fair grounds will be the objective and there some very fine special attractions will be featured. There will be a prize for the oldest married couple on the grounds and also one for the latest married couple. Also there is a hundredweight of flour for the largest family all to be on the grounds. There will be an old-time fiddlers contest and a step dancing contest, also a singing contest for boys and girls.

In the evening the arrangeemnts have been concluded to bring a "talkie" to the village, the first to be given here and it will be a strong drawing card.

Harvest Festival.

The Harvest Festival of St. John's Church will be held on Thursday, September 24th, at 8 p.m., with Rev. E. C. Moore of Young's Point as the special preacher.

Weddings

LOGAN—HULSMAN.

MARMORA, September 18 (Examiner Correspondence). — A very pretty wedding was solemnized at the Sacred Heart Church, Marmora, on Monday, September 14, when Clementine Isobelle, daughter of Mr. and Mrs. Joseph Hulsman, of Marmora Township, was united in marriage to Charles Redmond, son of Mr. and Mrs. George Logan, of Shanick. Rev. Father J. J. Keeley officiated..

The bride was daintily gowned in a shadow blue canton crepe ensemble with shoes and hat to match and carried a bouquet of Ophelia roses, lily of the valley, and maidenhair fern. The bridesmaid was Miss Hattie Logan, sister of the groom. She was gowned in green ensemble with hat and shoes to match. Mr. Charles Hulsman, brother of the bride, acted as best man.

A dainty lunch was served at the home of the bride's parents and the remainder of the day was spent in games and sports until evening arrived, when a miscellaneous shower was tendered the happy young couple. They were the recipients of many useful presents.

O'NEILL—MURPHY

DOWNEYVILLE, Sept. 18 (Examiner Correspondence).—St. Mary's Church, Lindsay, was the scene of a pretty wedding on Monday morning at 9 o'clock, when Marie Murphy, daughter of Mr. and Mrs. Patrick Murphy, Fenelon Road, became the bride of John M. O'Neill, eldest son of Mr. and Mrs. Morgan O'Neill of Downeyville. Rt. Rev. Monseignor McColl performed the ceremony.

The bride entered the church on the arm of her father to the strains of a wedding march played by Miss Mary Crowley. The bride looked charming in a dress of pale pink lace and georgette, pink hat and shoes to match, carrying a bouquet of Ophelia roses.

She was assisted by the bridegroom's sister, Miss Marguerite O'Neill of Toronto, wearing a dress of pale blue net, blut hat trimmed with pink and pink shoes carrying a bouquet of Sweetheart roses.

The bridegroom was ably assisted by the bride's brother, Mr. Bazil Murphy. The ushers were Messrs. Gerard and Vincent Murphy.

During the Mass and at the signing of the register Miss Mary Flurey rendered several solos. After the ceremony a wedding breakfast was served at the home of the bride's parents to the immediate families.

Later in the afternoon Mr. O'Neill and his bride left by motor for Toronto, Guelph, Windsor and other points.

The bride, wearing a blue satin suit with shoes, hat and purse to match. Her coat was also of blue with large fur collar of black seal.

On their return Mr. and Mrs. O'Neill will reside in Downeyville.

YOUTH GIVEN STIFF SENTENCE

LINDSAY, September 18 —Russell Stephenson, 18 years, from the vicinity of Minden, charged with a very serious offence on Hella Meim, a Finnish woman, on May 23, before Mr. Justice Kelley was found guilty last night, and was sentenced to 12 years in Portsmouth Penitentiary..

The case occupied the Court from 1.35 on Wednesday to about 6 o'clock last night, when the jury brought in a verdict of guilty. J. M. Simpson of Napanee was Crown counsel, assisted by J. E. Anderson, County Crown Attorney. W. Eric Stewart of Lindsay, assisted by T. J. Carley of Fenelon Falls, defended the accused.

William Ireland and Donald Hogg, who were with Stephenson on the night of the offence, had been left off on suspended sentence at the preliminary hearing.

5,563 ATTENDED

(Continued from Page 1)

has never previously graced the local track, and each afternoon they are stepping out and giving the crowds neck-and-neck races.

With continued good weather the confidences of the Exhibition's officials in going on to better things should not be allowed to lag, but be strengthened by a greater attendance at the Exhibition which will lead to a record fitting the quality of the great Fair

Fuller B. Greenleese Drowned At Montreal

News was received in Peterborough to-day of the accidental drowning in Montreal of Fuller B. Greenleese, who is well known in the city. Mrs. Greenleese was formerly Helen Hall, daughter of the late Sheriff James Hall, and was concluding a vacation at Stoney Lake when word was received of the sad fatality in Montreal.

From meagre reports that are available it appears that Mr. Greenleese, who was Quebec manager of the Hewitt Manufacturing Company, had driven his automobile on Tuesday evening to the Montreal docks to see a customer who was taking the Quebec boat. In driving away again it appears that in the darkness he misjudged the distance of the water, and one or two eye-witnesses saw the car plunge into the St. Lawrence. The next day the car was recovered and identified, but the body of Mr. Greenleese has not as yet been located.

Mr. Greenleese is survived by his wife and one daughter Nancy, and his mother in Toronto.

Further announcement is expected..

COBOURG PRESBY TERIAL MEETS IN BALTIMOR E UNITED CHURCH

Reports on Various Activities Read by Different Representatives.

APPEAL FOR AID

FENELLA, Sept. 18 (Examiner Correspondence).—The sixth annual meeting of the Western section of Cobourg Presbyterial of the Women's Missionary Society of the United Church of Canada convened in Baltimore United Church on September 11, when Mrs. Fred Ford, of Camborne, vice-president, was in charge.

The morning session opened with devotional exercises, led by Mrs. H. Skitch, Mrs. Thompson and Mrs. H. Climo, of the Cobourg Auxiliary. Mrs. A. G. Mann, of Baltimore, extended a cordial welcome to the delegates and members, to which Mrs. Caldwell of Garden Hill very graciously responded. Miss Hazel Cannon, of Cobourg, was appointed secretary-treasurer for the day. Mrs. Frank Lane of Canton, Mrs. A. Nill of Fenella, and Mrs. H. Bell of Bethesda South, were appointed a courtesy committee. Mrs. J. T. Field, Cobourg, the treasurer, gave a brief report and made an appeal to the local societies to make a systematic effort to raise their allocation sending in remittances regularly each quarter. The sum of $4,020 has been sent in to the Branch Treasurer with more than $8,000 still needed.

Miss Luella Rorke, of Japan, was introduced to the audience at this period, and she received an enthusiastic ovation.

The presidents or their representatives from Baltimore, Bethesda Southe, Cambourne, Canton, Centreton, Cobourg, Coldsprings, Elizabethville, Garden Hill, Grafton, Millbrook, Plainville, Port Hope, Roseneath, Vernonville, Welcome and Wicklow answered the roll call with brief reports of activities of their respective societies, as did the officers of Circles and Bands of Bethel Grove, Baltimore, Millbrook, Bethesda "Sunrise" and "Sunset," Cambourne, Coudsprings, Canton, Centreton, Cobourg, Grafton, Millbrook, Roseneath, Welcome, Port Hope and Garden Hill.

Following this, Mrs. E. Guillet of Cobourg and Mrs. R. W. Duffin of Cobourg spoke a few words. In the absence of Mrs. Tanton of Cobourg, Literature Secretary Miss Henwood of Port Hope gave an earnest talk on the great possibilities of the literature.

Afternoon Session

The afternoon session opened with devotional exercises led by Mrs. A. McLaughlin and Mrs. G. Immel of the Grafton Auxiliary. Mrs. R. J. Grey of Garden Hill gave a talk on "The W.M.S. and Youth." Mrs. Massey of Port Hope contributed a solo, "The Old Rugged Cross." Mrs. J. G. Waite of Vernonville, supply secretary, reported five bales received and gave information as to forwarding supplies.

Miss Luella Rorke of Japan addressed the meeting and following her address the session went into group conferences, Mrs. F. Lane, convenor, read the report of the Courtesy Committee, and the session closed with devotional exercises led by Mrs. Mears.

More than two hundred delegates and members of the Western Section were in attendance.

FARM PROPERTY COMPLETE LOSS

Fire Destroys Home and Barn of Alfred Little Who Resides Near Warsaw.

A DOUBLE ALARM.

WARSAW, September 18 (Examiner Correspondence). — On Thursday afternoon fire broke out at the home of Alfred Little about four miles east of Warsaw, in the upstairs of the back kitchen below the chimney, it being first discovered by Mrs. Little, who was alone except for the baby.

Immediately Mrs. Little 'phoned for help and threshing and corn-cutting gangs within five miles responded and by means of water and cutting away part of the partition, succeeded in extinguishing the fire.

Mr. Little was in the woods at the time and did not arrive at the scene of the fire until it had been extinguished. However, he kept watch until after 9.30, and seeing no signs of life, he retired. About 11 p.m. Mrs. Little was awakened by a cow bawling and seeing a bright light, called to her husband, and it was found that both the house and barn were on fire.

Again a call was sent out for help. The children were taken from the burning house and rushing to the barn the horses were released. Elias Thompson took his truck to the factory and securing a number of milk cans, filled them with water and rushed back to the scene of the fire.

Some Furniture Saved.

Everything in the house was destroyed except bedding of one bed and a few pieces of furniture, including a stove. The log barn with the season's crop was completely destroyed. Another barn, with iron roof, was saved by the efforts of the men, who threw water on the walls. Some insurance is carried.

The house was well plastered, and it is supposed that fire had been smouldering behind the plaster, and breaking out through the outer wall, was fanned by the wind, and it being in the direction of the barn, it, too, caught fire, with disastrous results.

IDENTIFIED!

YOU CAN TELL YOUR FAVORITE ANTHRACITE *BEFORE* YOU BURN IT!

The blue color mark is like the sterling mark on silver. It identifies the finest hard coal that has ever been brought above ground. "blue coal" is colored at the mine with a harmless coloring that does not affect the coal in any way.

Now, for the first time since coal was burned you can buy coal with your eyes wide open. You're no longer in the dark about its burning qualities, economy, and fuel efficiency - - - because today all coal is not black, 'blue coal' is here, trade-marked for your protection.

This standard D.L.&W. Scranton Anthracite (hard coal)---the finest quality fuel---known to Canadian householders for more than 50 years---is now colored with a harmless blue tint.

You can tell 'blue coal' from all others at a glance. You can't go wrong, it's positively guaranteed. No other coal can be colored 'blue'. You get exactly what you ordered when you say 'blue coal'; the same unvarying quality, as you get in other identified products from toothpaste to automobiles.

'Phone your order now for 'blue coal' and get guaranteed winter comfort.

FRIDAY, SEPTEMBER 18, 1931

SPLENDID CO-OPERATION.

The splendid spirit of co-operation shown by the Canadian General Electric Company in acting upon the request of Mayor Denne that work on the new golf course and recreation grounds to be established by the company should be started at once as a means of assisting to take care of the local unemployed will be generally appreciated.

The immediate commencement of work upon this project, which the company had not intended to undertake this year will give employment at least until winter sets in to some fifty men and to a considerable extent will better local conditions so far as the unemployment situation is concerned.

To Mayor Denne, who saw the possibility of providing work on this scheme at a period when it was most needed and who lost no time in bringing the matter before the company and to the Canadian General Electric officials, who were quick to realise the reasonableness of the request and to act upon it, credit for the opening out of this work must be given.

Similar co-operation from others who are in a position to provide even temporary jobs for some of the local unemployed would do a great deal to solve the problem of taking care of those at present without work.

TAX REDUCTION.

Pointing out that if the Ontario Government is not alert, M. F. Hepburn, the new Liberal provincial leader, will beat it over the line with a policy of tax reduction, the Border Cities Star argues with much truth that there is every need for a material cutting down of Government expenditure.

Undoubtedly, as every rural reader of The Examiner knows, the farmers of the Province whose income has been so sadly depleted in the last two years are having a difficult task in paying their taxes, while urban residents are suffering a similar experience.

For this condition the expenditures of the Ontario Government and the tendency of that Government to pass much of the burden on to the municipalities must take the blame.

It is true that a great deal of the expenditure has been occasioned by popular demand; the public is much more ready to urge Government undertakings than it is to pay the bills when they come in.

Nevertheless the country is feeling the pinch of heavy taxation, and there is no doubt that if the Government does not correctly diagnose public opinion and act accordingly, the people will be in a receptive mood to hear Mr. Hepburn's tax reduction program.

And if the Liberal leader produces concrete proposals showing just how he would go about slashing governmental expenditures he will not have much difficulty in winning a large measure of popular support.

A CALGARY WARNING.

The fact that a Calgary man who, in spite of the fact that he had a savings bank account of $1,500, sought and accepted relief work in that city was brought into police court and charged with obtaining city relief under false pretenses should carry its element of warning for other people elsewhere who may be guilty of similar practices.

There was no penalty imposed; the Calgary case for the prosecution was unable to show that any false statements had been made by the accused in applying for work, but the incident will serve a useful purpose in calling attention to the need of a close scrutiny of applicants who seek relief.

There are other places besides Calgary where those who are in no real need of help will take advantage of relief schemes unless the authorities are on their guard, and it might be well to have it clearly understood that people who have bank accounts or other assets and who disguise that fact when seeking assistance run the chance of being charged with obtaining relief under false pretences.

Anxiety that no deserving case should go unassisted should not result in a laxity that lets the unscrupulous exploit relief measures in the interest of their own pocket-books.

The majority of appeals for jobs are legitimate—the rest should be dealt with as any other impostors would be.

MAKE IT A RECORD.

To-morrow brings the Peterborough Industrial Exhibition to a close for another year, and the final day should prove the biggest of the week in both attendance and program interest.

The patronage accorded this year's Exhibition has been most gratifying in view of the general economic conditions and the fact that other exhibitions have experienced material reductions in receipts.

To-morrow, with a program crowded with interesting features, should produce a new record and establish the financial success of this year's Exhibition.

Too much cannot be said of the undaunted optimism of the Exhibition management in staging the biggest fair in the history of the organization in a year when other institutions have been inclined to trim their sails.

With a spirit that would not admit the possibility of failure, the directors planned and carried out an Exhibition that is on a larger general scale than that of any other year.

The results have more than justified that attitude.

The attendance, the record number of exhibits and the general satisfaction of Exhibition patrons are proof that the courage and enterprise of the Exhibition Board's policy have vindicated themselves.

A record crowd to-morrow would be a fitting climax to a splendid week.

THE NATIONAL HARBORS

The Dominion Government is to be congratulated on securing the services of Sir Alexander Gibb, G.B.E., noted British engineer and authority on harbor development and administration, to survey the national ports of Canada and report upon problems of administration and plans for future growth. The Bennett administration has given some thought to the advisability of change in the management of those harbors which are completely under the control of the Ottawa Government. At the present time each of the harbors is under a separate commission, the members of which are political appointees liable to replacement with a change of Government. In order that Canada's harbors should be developed according to a definite and co-ordinating plan, the Government, it is said, has felt that a board of a more permanent nature should be appointed to control harbor policy and ensure the best of plans and policies for all of the country's seaports. It was felt, however, that the opinion of a highly qualified authority should be obtained before any radical changes were made and, as a result, Sir Alexander Gibb has been examining at first hand conditions in Canada's harbors from Victoria to Halifax.

In placing harbor development upon a permanent, well-planned basis instead of the rather haphazard way in which the various ports have independently managed to reach their present prominence, the Government would indeed render a real service to the country. As one of the world's leading maritime and commercial nations, Canada's well-being and development depends in no little measure upon the adequacy and efficiency of her harbor facilities. As it is, we have ports to be proud of, but there is no reason why Canada should not go even farther and make her harbors models in modern equipment, efficient management, and well planned development which encourage increased trade rather than wait to be forced into action by new volume.—Brantford Expositor

JOHN BULL AND UNCLE SAM.

Vastly different are the fiscal notions of different nations. Last week Philip Snowden stood in the British House, told of a national deficit of $370,000,000, summoned Britons to pay him 25 per cent. of their incomes to prevent an even larger one. Last week, at almost the identical hour, President Hoover took a different way to meet a similar crisis. The United States, last year, piled up a deficit of $903,000,000. Last week the 1932 deficit rolled up during the first two months of the fiscal year amounted to $396,000,000, compared to $240,000,000 during the same period last year. If the July-August rate of spending was maintained, it meant that the United States Treasury would be more than $2,000,000,000 in the red next June 30. Treasury officials, hoping for economies, "guessed" that the deficit would be at least $1,500,000,000.

But the United States, facing this colossal deficit, isn't increasing taxes. Its income tax is but a drop in the British pail; it has no sales tax; has few nuisance taxes. Yet, despite this, it is not calling upon its people to pay more, is borrowing instead. Secretary Mellon, a fiscal monarch whom depression has toppled from his throne, went into the market for an $800,000,000 bond issue to mature in 24 years, and for $300,000,000 worth of one-year Treasury certificates. The bonds are to pay 3 per cent., lowest rate since the war, the certificates to pay a little over 1 per cent. The result, of course, will be to add about $28,000,000 to the Treasury's fixed charges in the coming years.

The extraordinary feature of this financing is that the United States Government is poor, apparently, amid fabulous riches. Last week the gold supply of the United States stood at $4,998,000,000, an all-time record, and representing almost one-half of the world's gold stock ($11,262,000,000). Yet, with one-half of all the world's gold in its coffers, the Republic has over 6,000,000 people unemployed; has its soup-kitchens; must borrow to pay its way. Strange, truly, is modern finance.

Why the United States prefers borrowing to more taxation is not clear. President Hoover, speaking with press correspondents, admitted there would be a bigger deficit next year, said the country couldn't keep on going more and more into debt. Perhaps he is hoping for a return of that prosperity which, almost two years ago, he saw "just around the corner." Perhaps it is because he thinks higher taxation might only make business worse.

Meanwhile an agitation has begun for the imposition of a sales tax. The Hearst press has been taking it up, pointing to Canada, incidentally, to prove that it has merit. Perhaps by the time another year rolls round Mr. Hoover will become a convert. And a country which did a $50,000,000,000 retail trade last year ought to be a fruitful field for a sales tax; not to speak of what even a pale imitation of the British income tax would get from United States millionaires.—Ottawa Journal.

EDITORIAL NOTES AND COMMENT.

Give the Peterborough Industrial Exhibition a record last day's attendance to-morrow.

Wheat prices are developing an upward tendency. A continuance of the movement would mean a great deal to Canada.

And now Ottawa is after a slice of the money John Aird, Jr., secured from the Beauharnois Co. and the Hydro Commission. Publicity proved a poor friend to Mr. Aird.

Don't miss the agricultural exhibits at Peterborough's Industrial Exhibition. They alone are worth a visit to the big fair.

Detroit's latest gangster killing was quite up to the Chicago or the New York standard. These affairs are all the same, inasmuch as the victims are never given the slightest chance to defend themselves.

Women swimmers finished the Exhibition marathon in the following order, according to racial origin: French, German, Irish, Irish, German, English, Irish. The Scots were busy taking tickets.—Toronto Globe.

Jackie Dare, girl parachute expert, is said to have more than 100 jumps to her credit. Almost any pedestrian can beat that record.—Toronto Telegram.

Why not bring the huge German flying boat DO-X to Toronto? Nothing is too big for the Canadian National Exhibition.—Toronto Mail and Empire.

(Continued from yesterday.)

She left her car on Charles street in the long fringe of automobiles that edged the Common and Public Garden. Here daily all sorts and varieties of cars awaited the return of their owners, who had come into town from the suburbs and left their vehicles here, much in the same fashion as their ancestors hitched their horses and buggies ito the long rail fence that often surrounds village Greens.

After parking her car, Fabia cut across the grassy stretched of the Common, thick with early-fallen leaves and scampering squirrels stepping over the low-wire fences as if she was tramping in the country regardless of paths and barriers. Her destination was the State House. She had no idea where one went to obtain justice for a wrong unpunished, but she had never forgotten her grandmother's words long ago when she had called the State House dome a lighthouse in the fog—law and order keeping us safe—guiding the way. Now perhaps it would guide the way for her.

A kind old man, who seemed to be some sort of official, appeared from a room at the right as Fabia stood uncertainly in the corridor, just inside the door. He explained that the automobile registrations were no longer kept in the State House.

He went into an elaborate description of the easiest rout to Registration Headquarters, and was so kindly disposed that Fabia ventured to ask him what he would consider the best course for her to follow in the case of a driver running over a valuable dog and not stopping. The old man said he believed a lawyer would be of use.

"Of course," she had agreed, flushing. She ought to have thought of that before. But who? What lawyer? But first she would obtain the name and address of Thad's murderer.

Fabia had no difficulty in obtaining the information she desired at Registration Headquarters. No sooner had she done so than but one thought possessed her—to follow up the scent without delay. The name and address was Daniel Regan, 21 Nebraska street, Revere, Massachusetts. Revere was not far away. She could make it easily in half an hour. She was about to throw in the clutch when she heard her name spoken.

"It is Miss Vale, isn't it?"

The convertible top of Fabia's car was thrown back. She looked up.

"Yes, it is." Who was it anyhow? Somebody she'd met last night probably. But not a college boy. Older. Glasses. Very good-looking as he stood there, replacing his hat that had exposed for an instant temples with light hair slightly receding.

"I was at your party last night, I" smiled.

Fabia observed him closely. "I'm afraid I don't remember you she confessed with no thought of being anything but honest.

"Oh, you wouldn't. I was just one of the older ones your mother invited for dinner. I cut in only twice for fear you might notice from my dancing I belonged to another generation.

"What is your name?" asked Fabia, with artless directness.

Haverford," he replied as artlessly.

"Oh, yes! Morris Haverford. You sent me the net roses and larkspur in a blue basket." She could see the description now in June's vertical handwriting, in pencil under the engraved name on a calling-card, almost as thin as parchment paper. She could also see other remarks June had facetiously added.

"Well, of all amazing things!" exclaimed Morris Haverford, his smile deepening. He had selected those flowers and basket himself. "How did you remember?"

Fabia replied with sudden courage. "I learned it by heart with dozens of others."

He burst into a laugh. She was delightful.

"Did you learn every one's?"

"No. But your flowers came early. I opened the box myself. I know exactly who you are now."

She recalled perfectly the circumstances of the arrival of hisflowers.Her mother and June had both been present. "Remember, he's one of the Haverfords, Fabia," her mother had said. "It was very kind of him to send such lovely flowers, for he's a bachelor and a brother, who's a senior at Harvard, and simply everything over there," June added, and she had jotted down on his card, "One of the Haverfords. Clever young lawyer. Peach of a brother at Harvard."

"Well," demanded Mr. Haverford very much amused, "Who am I, then?"

"Well—first—you're one of the Haverfords—"

"You're right there—I'm one of four brothers."

"And second, one of the brothers is a senior at Harvard."

"And he gave you quite a rush last night."

"Did he? I didn't know it. I didn't know he was there. And third, you're a lawyer."

"Did you memorize professions, too?"

Fabia ignored this. "I'm looking for a lawyer," she announced. What a surprising girl she was!

"Looking for a lawyer?" he repeated, rather dazed. "What for?"

"I've a case for him. It's lucky I ran across you this morning. Perhaps you will recommend some one for me."

"What is the matter with myself?"

"Oh, probably you wouldn't care to take my sort of case."

"I'd take any sort of case for you."

"It's about a dog."

"I'd take any sort of case for you."

"Would you really? I'd be ever so grateful. A man ran over my dog yesterday with his automobile, and left him dying on the side of the road. I want the best lawyer I can find to al me punish him. Will you really help me?"

"Of course I will, if your people approve. Are you sure your choice of a legal adviser would be theirs?"

"Oh, they mustn't know. My father and mother both think it's better do drop the matter. I don't know how expensive lawyers are, but I can manage a hundred dollars out of my allowance, I think, without its being noticed."

"Oh, we'll fix that al right."

"When and where do I meet you to give you the details? This is my first experience with lawyers. I don't know how it's done." She knew however, that it was not done at a chance meeting on the street. Once, years ago, she had been reprimanded for asking the family doctor to look into her throat when he and his wife had been invited for dinner.

Mr. Haverford took a small book from out of his pocket and consulted it. "How's to-morrow at two, at my office?"

"All right. I have a luncheon at one-thirty at the Country Club, but I'll cut that."

"Oh, no. We'll make it another day."

"No. I don't want to go to the luncheon, anyway. I don't want to do anything till I punish the man who killed Thad. I'll be at your office at two."

"Well, here's my business card."

She took the card and read it out, "Carter, Morgan, Henshaw, and Haverford," then, glancing up at him, she said brightly, one of the oldest and most distinguished law-firms in Boston. "It's card. I never would have remembered all those names. I suppose you're the Haverford on the list."

He nodded.

"Well, good-bye," he said, and they shook hands. "I do hope I've got a case, and we win."

"So do I," he replied earnestly.

(To be continued)

Lakefield

Mr. S. T. Leggott of Belleville was in the village on Tuesday.

Mr. and Mrs. G. G. Connell were in Peterborough on Tuesday.

Mr. and Mrs. John Sanderson and Miss Ione were in Peterborough on Tuesday attending the Exhibition.

Mr. and Mrs. L. J. Walton have returned to Toronto after a short stay at Stoney Lake.

Miss Daubig was in Peterborough on Tuesday last.

Miss Elsie Ogilive spent a few days at the lake with friends.

Master Gordon Jull of Brooklyn was the week-end guest of Mrs. Kidd.

Mr. Walter Madill attended the Peterborough Fair on Tuesday.

Mr. and Mrs. C. E. Strickland were in the village from McCracken's Landing on Wednesday.

Mr. A. H. Clark was in Peterborough on Tuesday evening attending the Exhibition.

Miss Hazel Crawford of Toronto was in the village last week visiting her parents, Mr. and Mrs. F. C. Crawford.

CATTLE, GRAIN, PRODUCE

TORONTO LIVESTOCK

TORONTO, Sept. 18—Receipts at the Union Stock Yards yesterday were: Six cattle, six calves, 36 hogs, 146 sheep and lambs.

There were 700 stale cattle for sale when the market opened and movement was not sufficiently active to make prices worth quoting. The killers offered are all plain quality and aroused no interest on the part of buyers. It looks as though the bulk of the holdover will be left to carry over the week-end. There are some inquiries for some good butcher cattle, but none are offered.

A few choice calves sold steady at $8.50 to $9 a cwt. Lamb prices are steady at $7 a cwt., for good ewes and wethers, and $5 a cwt. for bucks and culls. No sheep offered.

Bids on hogs are down another 25 cents a cwt. at $5 a cwt. f.o.b., and $5.75 a cwt., w.o.c., for bacon. A settlement is likely to be made at this prices.

Quotations:

Heavy beef steers	$6.00 to $6.75
Heifers, choice	6.75 6.00
do. fair to good	5.25 5.50
do. common	4.00 5.00
But. steers, choice	6.00 6.25
do. fair to good	5.75 6.00
do. common	4.00 5.00
Butcher cows, good	3.50 3.75
do. medium	3.25 3.50
Canners and cutters	1.00 2.50
But. bulls, good-choice	3.00 3.75
do. Bolognas	2.00 2.50
Baby Beef	8.00 8.50
Feeders, good	4.50 5.00
Stockers	3.50 4.75
Springers	30.00 70.00
Calves, good and choice	8.00 8.50
do. medium	6.00 7.50
do. grassers	3.00 4.00
Lambs, choice	7.25
do. culls	5.25 5.50
do. bucks	5.25 5.50
Sheep	1.00 3.00
Hogs, bacon, f.o.b.	5.00 5.50
do. w.o.c. 75c above f.o.b.	
do. selects, $1 per hog premium.	
do. butchers, $1 per hog discount.	

TORONTO PRODUCE

TORONTO, Sept. 18—Prices to country shippers for ungraded eggs, delivered, cases returned, were reduced 1c per dozen yesterday by leading buyers. The reason given was that receipts were far too heavy for the consumptive demand. The changes in quotations affected extras and firsts only, seconds being quoted steady or at the old level. Shippers were offered 24c for extras, 21c for firsts, and 15c for seconds. Brokers were offering graded eggs at lower levels than on Wednesday also, extras being lower at 27c, while firsts were 24c and seconds 16 to 17c. The market was not nearly so active as last week, and unless production eases somewhat or a sudden cold spell develops prices are likely to go lower. Retailers were quoted steady prices, but will probably benefit some when the cheaper eggs arrive. They were offered extras in cartons at 31c, extras loose at 29c, firsts loose at 26c, and seconds loose at 19c.

Poultry

The new poultry price lists showed several changes. The heavier weights of spring chickens were quoted 1c per pound higher, while the lighter weights were steady to lower. Broilers were steady to easier, the heavier weights being down 1c per pound, though the weights required were changed. There were no changes in prices quoted for hens, live weight, but the figures for dressed weight were up 1c per pound. Ducklings were about steady, the only change being in the quotation for 5-pound and over birds, live weight, which were down 1c per pound.

Butter

There was a moderate trade in butter, and prices were steady at 20¾c to 21c for No. 1 solids, and 19¾c to 20c for No. 2. At Montreal creamery solids have been selling on a basis of 1c lower than at Toronto.

Cream

Cream prices were unchanged. Buyers were quoting 21c for special, 20c for No. 1, and 17c for No. 2, f.o.b. country points.

Cheese

There was a fair demand for cheese, and new large colored, paraffined, Government graded was quoted at 11¼c to 11½c, twins at 11¼c to 11¾c, and triplets at 11¾c to 12c.

MONTREAL PRODUCE.

MONTREAL, Sept. 18. — Cheese prices advanced and egg quotations were slightly lower, while butter and potato prices held steady on the produce and dairy market here yesterday.

Carlot prices of eggs were mainly unchanged, the only price change being the decline of one to two cents in seconds at 17 to 18 cents. Extras were quoted at 30 cents, and firsts at 24 to 25 cents a dozen. B. C. extras were 32 cents a dozen. Quotations to retailers were unchanged and receipts were 1,229 cases.

Eastern townships No 1 pasteurized butter in carlots, was unchanged at 19¾ to 20 cents a pound. To retailers solids were 22 cents, and prints 23 cents a pound. Receipts were 141 boxes.

New Montreal potatoes, per 80 pound bag, were 50 cents, and New Brunswick potatoes were 50 to 70 cents per 80 pound bag.

CHICAGO GRAIN.

CHICAGO, Sept. 18.—Disturbed anew by an oscillating stock market and faced by fresh low-record prices for cotton, grain averaged lower yesterday, especially corn. Relative steadiness at times was imported to wheat wing to an active exoprt demand for wheat from North America, with Europe estimated to have bought more than 1,000,000 bushels this side of the Atlantic. Black Sea shipments of wheat, however, included Russian exports of 5,040,000 bushels, were heavy for the week, more than double those of a year ago.

Wheat closed irregular at ⅛ cent decline to ¼ cent advance, corn ¼—1⅝ down, oats unchanged to ¼ higher, and provisions showing 2 cents setback.

LIVERPOOL QUOTATIONS

LIVERPOOL, Sept. 18 (A.P.)—Closing wheat spot: No. 1 Manitobas 73⅞c

No. 2. Manitobas 70¾c.
No. 3 Manitoba 65¾c.
Hams long cut 12 to 16 lbs., 91s.
Short cut 12 to 14 lbs. 82s.
Extra skinned 90s.
Picnics 5 to 8 lbs. 51s 6d.
Bacon-cumberland cut 32 to 40 lbs. 69s 6d.
Canadian Wiltshires 94s.
Clear bellies 14 to 20 lbs. 52s 6d.
Long clear middies 28 to 35 lb. 63s.

Rosin-types "F" and "G" 11s 6d.
Turpentine, spirits 51s 6d.

WINNIPEG GRAIN

WINNIPEG, September 18. — Adverse weather conditions, with consequent interruptions to threshing operations in the Prairie West, and reports of frost in some areas, tended to hold wheat prices fractionally lower here yesterday. Values at the close were ⅝c to ¾c lower than Wednesday's finish.

October closed at 52⅝c, down ¾c; December eased ½ to 53⅛c to 53¼c, while May declined ⅝c to 57⅛c.

The market was without feature, and held fairly steady until closing hour. Buying interest was limited, but the small amoun of hedges seemed to be well absorbed. A small export trade was worked.

Broomhall yesterday reported that while Russion news is conflicting, it nevertheless considers that serious damage to crops is authentic, confirming the practical withdrawal of spring wheat. There has been further big rejection of Argentine wheat as being inferior to contract, according to the report, all of which rather points to North American being the chief source of supply until more of the Southern crops come in.

Reports of Continental port stocks were reported by Broomhall on September 15 at 6,488,000, compared with 7,468,000 on August 1.

IN DAYS GONE BY

Items Taken From Old Fyles of The Examiner

SEPT. 18, 1921

The 21st Battalion re-union takes place this evening in the G.W.V.A. Hall.....Yesterday's paid attendance to the Exhibition was 8,409.... Crowds of women are going to see the current picture at the Allen, "The Foolish Matrons".....Hugo Stinnes, German manufacturer and financier, is rated many times a billionaire, having made his money in the war.....Feldstar Glass, Ltd., an American company, will erect a factory soon in Oshawa.

SEPT. 18, 1911

A large barn belonging to John Blakely, South Monaghan, was totally destroyed by fire yesterday afternoon.....John Head, formerly of this city, was killed in Medicine Hat recently.....W. A. Edwards, who at one time owned the Crystal Theatre here, has purchased an up-to-date blacksmith shop.....J. J. Turner & Sons have booked a superior line of play, for the Grand Opera House this winter.....J. R. Stratton's fine horses, which have taken prizes in Toronto, Montreal and Ottawa, were shown at the Exhibition yesterday.

SEPT. 18, 1901

A new ruling of the Boys' Club states that no boy under twelve may join the Y.M.C.A.....An anti-cigarette club has been organized in town by the Women's Christian Temperance Union.....Five thousand troops were reviewed on the Plains of Abraham by the Duke of York yesterday.....President Roosevelt's life has been threatened since he took office, following the assassination of President McKinley.....Thomas Henry, aged 89 and one of the town's oldest and most respected citizens, died last night.

RYLSTONE

Messrs. Lindsay Finch and Miss R. Finch spent a few days of this week with their sister, Mrs. Frank Sheppard of Peterborough.

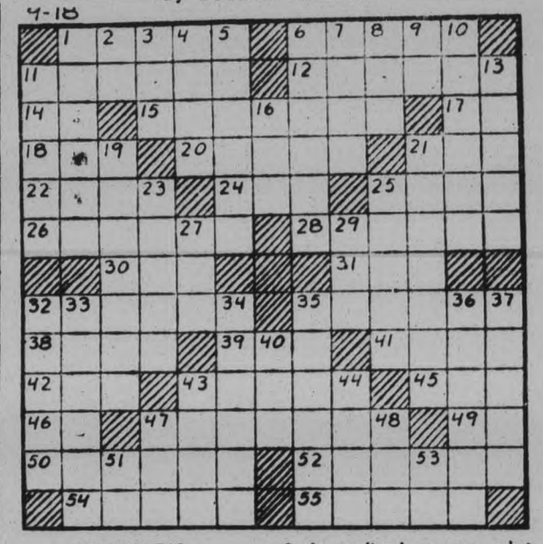
Miss Irene Stephens, of Campbellford was the guest of Miss Evelyn Barnett on Monday.

Mr. William Crosse, his mother and Mrs. Crosse, of Havelock, and Mr. and Mrs. John Duncan, of Campbellford, and Mrs. James Stewart were Sunday guests of Mr. and Mrs. John Stewart.

Miss Winnie Spencer and her friend, Miss Sarles, of Stirling spent Sunday with her parents, Mr. and Mrs. Herbert Spencer.

Today's Cross-Word Puzzle

By EUGENE SHEFFER



HORIZONTAL.

1—What was the name given to Hugh, the first king of the third line of French kings?
6—What American minister to England from 1861 to 1868 was one of the arbitrators of the Alabama claims?
11—Who was the first Danish king of England?
12—What city of Italy is built on 72 small islands connected by 400 bridges?
14—Avenue (abbr.)
15—Of what division of Italy were Dante and Raphael natives?
17—Exists.
18—Child's napkin.
20—What country mines more sulphur than any other?
21—Able.
22—Rowing implements.
24—Province in Ecuador.
25—The waters of what lake flow into Lake Ontario by the Niagara River?
26—Saw for perforating the skull.
28—What king who joined the Greek expedition against Troy was noted as a wise counselor?
30—Japanese copper coin.
31—Mother of Peer Gynt.
32—In what Italian City is the great theater, La Scala?
35—What city was first built by Emperor Charlemagne in 788?
38—Famous Persian poet.
39—Observe.
41—Pit for green fodder.
42—Greek letter.
43—Stalk of grain.
45—Posed for a portrait.
46—Correlative of either.
47—Implement.
49—Symbol for tellurium.
50—Sense.
52—Bartered.
54—Trample under foot.
55—Conduit.

VERTICAL.

1—Prepared and salted roe of the sturgeon.
2—Indefinite article.
3—Lay aside.
4—Case for small articles.
5—French silver coin of the XVI Century.
6—In medieval romance, what ocean island was described as "not far on this side of the terrestrial paradise"?
7—Gainsay.
8—Some.
9—Note of the musical scale.
10—What Roman general is thought to be the one who warned Caesar of the Catiline conspiracy?
11—Who discovered the continent of North America?
13—Chemical compound.
16—Vehicle.
19—In what German city is which great fairs were held before the War was more wool sold than any other German city?
21—What Greek goddess was identified with the Roman Diana?
23—Weapon with a long shaft.
25—Worms.
27—Girl's name.
29—Sense organ.
32—That which imparts motion.
33—In Turkey, a hospice.
34—Next to Antwerp, what is the principal port of Belgium?
35—Wild animals.
36—Click beetle.
37—Celebrated.
40—Sea eagle.
43—Portico walled at the back.
44—Slender rod of metal.
47—Utilize.
48—Binding rule.
51—Adjective suffix: pertaining to.
53—Prefix: down.

SHARP DECLINE AT NEW YORK

Several Issues Receive Setbacks Although Trading is in Moderate Volume.

BONDS UNSETTLED.

NEW YORK, N.Y., Sept. 18 (C.P.)—Wall Street quickly lapsed back into its habitual state of despondence to-day, as the late upturn in share prices yesterday proved merely another gesture.

Stocks fell back abruptly and bonds were unsettled by fresh weakness of the foreign issues. In foreign exchanges, most of the leading currencies were well supported, but the Canadian dollar slumped to an extreme discount of 1¾ cents, the lowest in two years.

The decline in shares was one of the most sweeping of recent weeks, although selling was in only moderate volume. Price averages dipped to new lows for the two-year bear movement.

Issues off about 3 to 6 points included American Can, American Telephone, Allied Chemical, American Tobacco "B," McKeesport, Air Reduction, Dupont, Consolidated Gas, Eastman, Southern Pacific, Santa Fe, Union Pacific and others. General Motors lost only a fraction, but General Electric sold down nearly 2.

The reports of last night's conference of representatives of the Bank of England with Prime Minister MacDonald, together with the unsettlement of foreign securities markets, were bearish influences in this market. Bankers with Montreal connections said the British situation may have had something to do with the pressure against the Canadian dollar, but explained that in fact it had no important bearing on Canadian finances. Low grain prices have been Canada's chief burden.

Livestock-Produce Quotations

FRUITS AND VEGETABLES

TORONTO, Ont., Sept. 18 (C.P.)—Wholesale prices on Canadian fruits and vegetables as reported to the Canadian Press by White & Co., are as follows:—

Pears, 6-qt. basket, 20c to 25c; Plums, 6-qt. basket, 15c to 20c; Peaches, 6-qt. basket, 25c to 35c; Cucumbers, 11-qt. basket, 15c; tomatoes, 11-qt. basket, 12½c to 28c; Beets, 11-qt. basket, 15c; Carrots, 11-qt. basket, 20c; Wax Beans, 11-qt. basket, 25c to 30c; Apples, 6-qt. basket, 15c to 18c; Canteloupe, 16-qt. basket, 20c to 30c; Blueberries, per basket, $1.25 to $1.75; Cabbages, dozen, 40c; Apples, bushel, 60c to $1.

BUFFALO LIVE STOCK.

EAST BUFFALO, N.Y., September 18 (C.P.)—Hogs, 2,500; active to all interests; strong to 10 over Thursday's close; bulk desirable 180 to 200 lbs. $6.10; few loads 200-240 lbs., 6.15 and 6.20; 160-170 lbs., 5.75-6.00; 130-160 lbs., 5.70-5.85.

Cattle, 300; plain grass steers and cows predominating; generally steady; short fed heifers, 7.25; grass steers, 5.50.

Calves, 375; vealers active; steady to 51c over Thursday's uneven decline and good to choice, 10.00-10.50.

Sheep, 1,500; lambs active, firm, good to choice largely 7.50.

TORONTO PRODUCE.

TORONTO, Ont., September 18 (C.P.). — The United Farmers' Co-operative Company to-day supplied the Canadian Press with the following quotations on produce delivered at Toronto:

Eggs, extras, dozen, 25c.
Eggs, firsts, dozen, 21c.
Cream, churning, No. 1, lb., 20c.
Creamery butter, No. 1, solids, lb., 21¼c.
Potatoes, No. 1, in bags, 35c-40c.

CHICAGO GRAIN

CHICAGO Ill., Sept. 18. (CP)—Grains advanced early to-day after an initial sag that was associated with Liverpool wheat quotations going lower than expected, and with pressure of Argentine offerings aboard. Speculative buying, however, developed on the declines here, with nearby deliveries in demand on the part of previous sellers. Opening unchanged to ⅜ cent lower, Chicago wheat afterward scored gains all around. Corn also started unchanged to ⅜ off and later showed a general advance.

Transient Stabbed In 'Jungle' Fight

BROCKVILLE, Ont., Sept. 18 — With a serious wound in his back, penetrating the left lung, inflicted by a knife or other sharp instrument, Frederick Coulson, a transient of unknown address, is a patient in General Hospital, following an altercation which took place in the "Jungle" alongside the tracks on the C.N.R. west of the town.

George Gates, aged 35, Toronto, is in jail here on remand for a week on a charge of assault resulting in the injury to Coulson.

DECLINES IN LEAD STOCKS AT MONTREAL

Brazilian Registers 1 1-8 Point Decline at Noon Hour Trading.

TRADING SPREADS.

MONTREAL, Que. Sept. 18. (CP) Leading issues sold off to lend further uneasiness to the Montreal market this morning. Losses were small, however and trading was spread over a wide range of stocks.

Brazilian failed to show any strength, reacting fractionally at the opening and increasing the downward movement to a loss of 1⅛ at noon, selling at 12¼. Nickel yielded ½ at 10 and Montreal Power dropped a full point at 39 despite encouraging reports of increased earnings for the past eight months.

B.C. Power "A" also dropped, moving down ½ to 30 in the face of a favorable annual report. Shawinigan was off ½ at 34. Quebec power advanced slightly, selling at 30½ at noon for a gain of ½. Power Corporation was off ¼ at 37¾. Dominion Bridge lost ¼ at 27½ and Cockshutt Plow yielded ½ at 3¾. oHllinger Mines held an early drop of 10 cents at $5.95. Textile, Steel of Canada, Canadian Pacific, Canadian Car common and preferred, Gypsum and National Breweries all held unchanged. Canada Cement common gained ¼ at 6, McColl Frontenac was up ⅝ at 11½ and National Steel Car advanced ½ to 13½.

FOUR CHARGED WITH MASSACRE

Victims Slain Over Alcohol Price Cutting Prosecutor Claims.

THREE ACTUAL SLAYERS.

DETROIT, Mich., Sept. 18—Raymond Bernstein, Irving Milberg, Harry Kywell and Harry Fleischer, all members of the Purple gang, were charged by Prosecutor Harry S. Toy to-day with the massacre of three gangsters in a Collingwood Avenue apartment Wednesday.

The prosecutor said Lebovitz, Sutker and Paul owed Bernstein for 100 gallons of alcohol, which they had secured to dilute so as to undersell the alcohol distributed by the Purple gang. An addition motive for the triple slaying given by the prosecutor was the importation of Chicago gunmen to Detroit by Lebovitz and his confederates to extort money from blind pig operators and bookmakers.

Toy said Bernstein was the owner and driver of the automobile in which the four slayers escaped Wednesday. The other men were named by Toy as the actual slayers, who went by appointment to the apartment on Collingwood Avenue which Lebovitz had rented as a base for alcohol cutting.

Bernstein has been regarded by the police as one of the leaders of the Purple gang. He has been arrested several times, but never has been convicted on a serious charge.

ADMITS HUBBY LEFT IN WATER

Officer Testifies Mrs. Collings Smiled as She Told Him Details of Murder.

VICTIM WAS FLOATING.

HUNTINGTON, N.Y., Sept. 18.—Mrs. Benjamin P. Collings said in her first story to police that she left the Collings' cruiser Penguin with two men in a canoe while her husband, beaten and bound hand and foot, could still be seen floating in the water, it was testified at the inquest to-day.

This testimony was given by Police Sergeant Robert Forest, who was first to question Mrs. Collings. He said she greeted him with a smile and told her story of two men boarding the boat and throwing her husband over the side. Then they took her away.

"Was your husband visible at that time?" he said he asked her.

"Yes," he said she replied. "He was floating in the water near the bow of the boat."

Forest said Mrs. Collings told him that the men had promised her that if she kept quiet nothing would happen to her.

If you buy out of town, and I buy out of town, and all our neighbors buy out of town, what in thunder will become of our town? Ever think about it?

Almost Duellist

Challenged to a duel by Count Hans Czernin, whom he had thrashed for getting familiar with his fiancee Captain C. L. Lincoln (above) of London, England, as the challenged party, had the choice of weapons and decided to fight with machine guns in the air. But when the Captain's acceptance of his call to combat reached the ferocious Count the latter took the next boat home.

MARKET CLOSING ON EXCHANGES

(Continued from Page 1)

TORONTO EXCHANGE

TORONTO, Ont., Sept. 18.—A long list of new low prices were to be seen on Toronto Stock Exchange today as the market underwent one of the most drastic revisions of prices since the reaction of early last summer.

Stocks broke fractions to as much as six points and volume became much heavier as the downward trend continued without interruption.

Included among those stocks which made new lows were most of the utilities. Brazilian slumped approximately 1½ points, selling under 12. Inter. Utilities "A," Bell Telephone, off more than 2 points, Montreal Power, Power Corporation, B.C. Power "A" reached record lows. Steel of Canada, Distillers Seagram, Consolidated Smelters were others to go under their June lows. The latter dropped 6 points.

Such pivotal issues as Nickel, Noranda, the Oils, Dominion Stores, Loblaw "A," Walkers were down fractions, most of them just scraping their old lows.

TORONTO STANDARD

TORONTO, Ont., Sept. 18.—Despite another late upturn similar to that experienced yesterday, price changes on the Standard Stock and Mining Exchange market to-day practically all took the form of recessions, with losses in some of the specialties assuming important proportions.

Both Noranda and Nickel were soft spots, former closing off nearly a point and the latter down 20 following a recovery under shortcovering in the final trading. Hudson Bay dropped another 20, Falconbridge was down 10, and other base metals were inactive.

Among the golds, McIntyre fell 70, Dome 30, Lake Shore 15, and Eldorado, Wright-Hargreaves and Hollinger 5 apiece. Moss, a strong spot the past week, lost 10 in a sharp decline. Ventures was down 6 and San Antonio, Bidgood and Sylvanite dropped 3 each. Moffatt-Hall continued under pressure and closed with a 2-cent loss. Ribago and Kirkland Townsite were slightly firmer.

Oils were a quiet group, Chemical Research, off 5, showing the only significant change.

KIWANIANS DINE

(Continued from Page 1)

promised to speak, had been taken ill.

A splendid program of native music and dancing was provided by the Hawaiian octette, who are appearing with Sheesley's Shows.

Lloyd Newhall and his dog Fritz also provided an original number. Fritz a familiar figure to fair patrons, with his large hat, and horn rimmed spectacles created great interest by smoking a cigarette. He also did many other tricks.

Among the visitors today was Dr. John B. Hoffman of Pitcairn, Pennsylvania Kiwanis Club, who motored down from his summer home at Bobcaygeon. V. F. Chilton, the Kiwanis Club's newest member was also introduced. He has succeeded G. Wells Fraser as manager of the Bank of Nova Scotia here.

Vote To Reform Dole Gives Gov't 64 Margin

LONDON, Sept. 18 (C. P. Cable) The National Government received a majority of 64 (sixty four) votes in the House of Commons this afternoon, on the proposals to reform the "dole".

The vote was one the financial resolution which necessarily precede the bill cutting unemployment benefits by about ten percent., and calling for increased contributions to the fund by workers employer and the state. The bill itself will be considered on Monday.

The Quaker prizes are offered to stimulate interest in home baking in this district, and to show what can be done with Quaker flour.

TORCH MURDER IS ATTEMPTED

Pastor's Wife is Hurled Down Cellar With Lighted Paper.

POLICE PROBING.

NEWARK, N. Y., Sept. 18.—Terrified residents on the Hamlet of East Palmyra today called on District Attorney Charles B. Frasser and informed him of an attempt by an unknown assaultant to burn alive Mrs. Henry Koert, 32, wife of the pastor of the East Palmyra Reformed church.

State police also were notified and Sergeant Fred N. Sponable of the sub-station here began an investigation.

Mrs. Koert was attacked last Tuesday, police were informed, by a man who called at her back door. She was knocked down, dragged to an outer cellar way and thrown down the steps. Burning newspaper, according to the report of Sergeant Sponable were tossed after her.

Neighbors found her a short time later, her face and body badly bruised and burned and her hair singed. Her condition was reported fair.

Which will be the first league club to total 1,000 goals since the war? Aston Villa and Bradford start on the same mark with 949, and Manchester City comes next with 944. Plymouth are well ahead in the points race with 643, Huddersfield being next with 599, Bradford 570, and Millwall 565.

Bolt Hits Tent; Five Are Killed

WASHINGTON COURT HOUSE, Ohio, Sept. 18.— One person was killed, five were injured seriously and 45 were stunned when lightning struck a tent in which a fish fry was being held last night at Brown's Chapel, 4 miles south-east of Clarksburg in Ross County.

Willard Ater, 50, caretaker of the chapel, was killed instantly.

TWO ARE SHOT IN JAIL BREAK

Prisoners Blow Off Lock, Rush Gates Beefore Guards Arrive.

FOURTEEN ESCAPE.

WILMINGTON, Del., September 18 (C.P.). — A guard and prisoner were shot to-day in a jailbreak at the Newcastle County Workhouse which resulted in the escape of 4 prisoners. Both men will recover, physicians said. Prison officials said the break was evidently the result of a carefully planned plot.

The guard, Anthony Hayden, was taken to the Wilmington Hospital with a bullet wound through his abdomen. Clarence Cole, the prisoner, was shot in the shoulder and leg being cared for in the workhouse.

The escape was effected through the blowing off with an explosive of the lock on a door leading from the workshop to the recreation yard. The explosion occurred when 300 prisoners in the shop were about to go to the dining-hall.

Making their way through the door after the explosion the prisoners rushed into the yard and forced a guard at the gate to open it.

A riot call was sent to Wilmington and brought City and State Police with riot guns and rifles. Soon after their arrival the disturbance was quelled and the prisoners turned to their quarters.

YOUNG IRISH LAIRD GREETED BY TENANTS

Marquis of Dufferin and Ava Receives Presents From Many

Dublin: A striking demonstration of the popularity of the Marquis and Marchioness of Dufferin and Ava took place recently, when the tenants of the estate attended a welcome-home ball at Clandeboye, and took advantage of the occasion to make handsome presents to the marquis.

It was intended twelve months ago to pay this tribute to his lordship on the occasion of his marriage, but owing to the lamented and tragic death of the late marquis, the ceremony was postponed, and the other night it was gracefully performed in the presence of about 350 guests.

The ballroom, with its perfect dancing floor was profusely decorated with flags and bunting. At the interval, shortly before midnight, Mr. John Moffett (the oldest tenant), on behalf of the tenants, handed to the marquis a pair of solid silver goblets, and Mr. Archibald Lockhart presented him with a solid silver Celtic salver on behalf of the employees.

The marquis, who was accompanied by the marchioness and Lady Veronica Blackwood, returned thanks for the gifts and extended a hearty welcome to all those present.

MORE FINANCIAL TROUBLE COMING

League Financial Experts Claim Crisis Likely to Spread Suddenly.

ASK FOR EXTRA FUNDS.

GENEVA, Sept. 18 (C.P.)—The financial committee of the League of Nations reported to the Assembly to-day that the world's financial crisis is unprecedented and "may well become gradually or suddenly more acute and more widespread."

This warning of a group of eminent financial experts was made the basis for an appeal for a larger appropriation to meet additional financial emergencies which may arise in the league this year and in 1932.

Sir Arthur Salter, British delegate, who for ten years has been director of the League's economic organizations, also emphasized the urgency of the financial crisis. He told the economic committee that the financial problem was the most important in international life.

Tariff systems and particularly unequal treaties, he charged, are chiefly responsible for the present fiscal troubles of the world.

The doctrine of Free Trade propounded by the world economic conference of 1927 remains unchallenged in the opinion of the British expert. This doctrine is not discredited by the fact that the world since then has grown steadily worse economically," he declared. "The medicine was good but the sick world did not take it."

HEIRESS GIVEN 10 DAYS IN JAIL

Tells Judge He is Greater Criminal Than Any Ever Before His Bar.

MUST PAY $250 FINE.

DETROIT, Mich. Sept. 18 (C.P.). —An heiress to a $10,000,000 estate was sentenced to ten days in the county jail and fined $250 for contempt of court by Circuit Judge Homer Ferguson to-day.

The heiress, Miss Bertha A. Stott, one of the children of the late David Stott, Detroit flour miller and real estate operator, was charged with contempt August 27 when, while listening to an opinion being read by Judge Ferguson, she accused the judge of being "a greater criminal than any that ever stood before your bar." Judge Ferguson's opinion ordered the dissolution of the Stott Realty Company.

Immediately after the episode Miss Stott fled to Canada, but she re-appeared voluntarily in court to-day.

DIED IN HOUSEBOAT

Recluse Of English Coast Had Lived Alone For Many Years

Police who forced an entry to the cabin of the houseboat Dawn at Leigh-on-Sea found the owner, Horace Harcourt-Dixon, a retired lieutenant-commander, lying dead.

The alarm was raised by occupants of an adjoining boat, who saw through the cabin window the officer lying motionless.

He had lived for years almost as a recluse in his houseboat, doing all his own cleaning and cooking.

ROTHWELL URGES FARMERS TO ADOPT BETTER METHODS

In Quest of Honor With J. Wilson at Agricultural Society Banquet.

EXHIBITION PRAISED.

MARMORA Sept. 18. (Examiner Correspondence) To take the place of the banquet which had been arranged by Marmora Agricultural Society in connection with Marmora Women's Institute in honor of Hon Robert Weir a public meeting was held at the Town Hall on Wednesday evening at which helpful speeches were given by Mr. G. B. Rothwell Commissioner of Live Stock for Canada and Mr. J. Wilson, Agricultural representative resident at Stirling.

The chair was taken by G. B. Airhart, president of the Society. In a brief speech Mr Airhart explained the absence of the Minister of Agriculture and introduced Mr. Rothwell as the first speaker.

Commissioner's Address

The Commissioner said that he felt sorry that the distinguished visitor who had been expected could not come to Marmora. He himself had been connected with the Departmemnt of Agriculture for many years and had come to the conclusion that for one dealing with agricultural matters it was a good thing to be a farmer and to live on a farm. Mr. Rothwell reiterated his statement of the nbon hour that Canada had the two greatest fairs and that she was the most showminded country in the world. Later on in his speech, he remarked: "No government, party or organization can do anything to alleviate the condition we are in. Two things hit us low prices and markets." The markets outside of Canada he said were the problem. Canadian prices are on a higher scale than any other country producing the same commodities. People are inclined to think our troubles are purely agricultural but when other industries become active, then the agricultural will come back into its own. It is hard to name a solution for the question of taxation.

Paying Now

In the period of prosperity, we had asked for good roads and improvements of all kinds and we asked for better education on the top. Some things we were thereby forced to take which we did not ask for and we are paying for them now. Nature has her own way of taking things in hand in times of depression. Prices are not permanent. With regard to taxation there is no relief in sight. Instead liabilities are increasing every minute. It is a frailty of human weakness that we like to blame our troubles on something over which we have no control. Are we doing all the things we can upon the thing we can control—our farms? A lot of things we knew forty years ago we are not doing to-day. We have been talking about the better methods. Some have been using them but some have not. We should do the things we know. One thing more the speaker said. He had noticed despite the depression that everywhere there had been better live stock shown. But there was one thing he did not like. There were not many horses being shown at the fairs. In the rebuilding of farming in the better soil cultivation the horses should be thought of He predicted there would soon be a wild scurry back for horses. Mr. Rothwell's speech was much appreciated for its frankness and clearness of vision.

Praise for Exhibitors

Mr. Wilson, agricultural representative asked to offer constructive criticism upon the Fair said that rather than do that he would commend those who took part in the fair to make it the success it was. He expressed thanks for the co-operation given him in the arrangement of school fairs. He lauded the efficiency of the local fair workers. He thought, however, all small fairs might pay a little more attention to their junior work.

After a vote of thanks had been ably extended the two speakers by H W. Sabine, seconded by Irwin McCoy the chairman, made a few supplementary remarks after which the audience dispersed with the singing of the National Anthem.

SPRINGVILLE W.M.S. LADIES PACK BALE

Miss H. Whittington Gives Fine Article on Christian Stewardship.

(Examiner Correspondence)

SPRINGVILLE, Sept. 17—Springville W. M S. and all ladies of the church who have the interest of the suffering west at heart will be busy during the coming days gathering together clothing and materials suitable to be made into warm garment for those in the western provinces whose needs will be great this winter. At the regular monthly meeting of the W. M. S., a committee was appointed to organize the efforts of the ladies.

Mrs S H. Moyer, president of the auxiliary read a letter from Mrs Brown urging the necessity of reading and prayer.

Miss J. Schaffer was appointed to the office of secretary of the society during the absence of Mrs. M Johnston Owing to the conflicting dates of the next W. M. S. meeting and the Provincial Plowing Match the date of the meeting was changed to fall on Oct. 8 (the second Thursday of the month.)

Plans were discussed for the Thank-Offering and a motion was carried to the effect that it be held early in October and that Rev. Mr. Sutcliffe of Murray Street church, Peterborough be asked to preach for the service. Special music to be provided by outside talent.

The supplies for the bale were itemized and the purchasing of the necessary articles of clothing left in the hands of the supply secretaries. An interesting program was given by Miss H. Whittington who read a splendid article on Christian stewardship Mrs. A. Hunter continued her study of the Japanese, dealing this month with the Christian Mission Schools of Japan and Mrs. Wm. Whitfield who gave a reading about the west and the new Canadians.

The holiday season is now over for another year and the ladies are rallying back to their work in the W. M. S. twelve being present at the September meeting.

Your Telephone is like Time

—as commonplace—as certain —and as valuable

Time costs nothing and is worth anything, for time is life.

Your telephone is like time. It is, in fact, time itself for it is the great time-saver of modern living. The few cents a day it costs are no measure of its value. It is worth whatever time is worth.

Whether you use your telephone to arrange a deal, to greet a friend, to meet an emergency or to call the grocer, it adds to your days, makes life easier and safer.

The value of your telephone, like the value of time, is the use you make of it. This value is constantly growing with the telephone's ever-widening circle of communication and with greater and greater efficiency of service.

Your telephone is always ready. It is so simple and so dependable that it has become as ordinary as the ticking of a clock — as valuable as time!

Best Seller

New Low Price *Eatonia* Value, Pr. **$1.25**

Its new low price—to say nothing of its brand new shades—will endear this beautiful full-fashioned hose to every thrifty-minded woman.

GRENADINE—the ultra sheer, permanently dull finished chiffon is the ideal choice for evening.

SERVICE CHIFFON—slightly heavier but delightfully sheer—the favorite for daytime wear.

Both the above weights have silk-faced foot, double silk hem, picot finished and slim panel heels.

SERVICE WEIGHT is built for durability, but is quite the equal in chic of the sheerer qualities. Has a double hem and extra spliced foot of mercerized cotton

The Shades For Fall

Rose Taupe — Mayfair
Matinee — Gunmetal
Bahama — Squirrel
Brownleaf

—Main Floor C.D.S

Obituary

JOHN JOSEPH YOUNG

ENNISMORE, Sept. 17 (Examiner Correspondence)—The funeral of the late John Joseph Young, son of Mr. Frank Young, took place on Wednesday morning from his home to St. Martin's Church and burial was made in St. Martin's cemetery. The funeral mass was sung by Rev. Father McAuley. Pall-bearers were four schoolmates: Ray Killen, Joseph Sullivan, Mark Kennedy and John Collins.

MRS. FRANK McCARTHY

LINDSAY, Sept. 18.—(Examiner Correspondence).—The remains of the late Mrs. Frank McCarthy, daughter of the late Sir William Mackenzie, were laid to rest in the Roman Catholic cemetery at Kirkfield this week. The deceased, who was a resident of Toronto, is survived by her husband, one son, one brother and five sisters, one of whom is the Countess de Lesseps.

WARSAW.

A car took fire and burned on the road near Mr. B. Rae's house on Monday afternoon.

ACHES

There's scarcely an ache or pain that Aspirin will not relieve *promptly*. It can't remove the cause, but it *will* relieve the pain! Headaches. Backaches. Neuritis and neuralgia. Yes, and even rheumatism. Read proven directions for many important uses. Genuine Aspirin can't depress the heart. Look for the Bayer cross:

SOCIETIES HOLD FIRST MEETING

St. Paul's Y. P. S. at Stirling Holds Initial Autumn Meeting.

(Examiner Correspondence.)

STIRLING, September 18. — On Monday evening the first meeting of St. Paul's Y.P.S. was held in the church parlors, when the president, Harry Hulin, was in charge of the program.

Mrs. Raymond Chambers delighted the audience with a patriotic solo, "Hail, King George." Rev. E. Rowland gave a short talk on the "Value of a Young People's Organization," urging the members to train for leadership.

Morris Bell gave a delightful banjo solo accompanied at the piano by Mrs. E. Rowland. Donalda Richardson put on the Author Contest, prepared by Miss Mildred Richardson.

St. Andrew's Guild.

An organization meeting was held on Monday evening for the coming year, the officers being as follows:

President, Mrs. Harper Rollins; 1st Vice-President, Arthur Duncan, (Musical); 2nd Vice-President, Mrs. R. W. Meiklejohn, (Literary); Third Vice-President, Mrs. William Anderson, (Devotional); Fourth Vice-President, Mrs. L. Smith, (Missionary); Treasurer, Mrs. R. H. Williams; Secretary, Ray Williams; Press Secretary, Mrs. A. Murduff; Pianist, Charles Allen.

Splendid Papers Given.

"Times and Objects of our Guild" was given by Allen F. Meiklejohn.

The word guild is by no means of recent origin. Its history goes back beyond Norman times, and is derived from an old word meaning to pay.

The members of a Guild took an oath on admission, paid a fee and made a small contribution toward a common fund.

Those in sickness or need, also the aged, were helped in this way.

"A strong spirit of fraternal co-operation existed, a Christian brotherhood, with a mixture of worldly and religious ideals, the support of the body and the salvation of the soul. In the early history of the church it seemed to be a man's organization. We had a minister, elders, managers, precentor and a S. S. Superintendent.

The women, feeling a need of self-expression, started the W.M.S., the Ladies' Aid and the Mission Band for the little tots.

The Devotional and Missionary evenings are beautiful and instructive, while the literary and musical develops oratory and musical talents.

Young people develop in public speaking.

Presentation.

Lorne Anderson, who is leaving to attend the Peterborough Normal, was presented by the S. S. of St. Andrew's with a fountain pen and pencil on Monday evening.

Miss Winnie Ward, who enters Kingston general hospital, to train for a nurse, was presented by the Sunday school and Guild with a wrist watch.

HAVELOCK CONTINUATION SCHOOL PUPILS FORCED TO DOUBLE UP

School Board's Mistake in Estimating Teachers' Salaries, Costs Them $200.

CADET CORPS RAPPED.

(Examiner Correspondence)

HAVELOCK, Sept. 18.—The regular meeting of the local school board was held in the school here Thursday evening with a full board in attendance. Chairman Squires presided.

Principal G. F. Coates was present and reported that there were more pupils attending the Continuation school than ever before and that nine seats were needed to take care of the extra scholars. He said they could manage to get along, but that considerable more moving had to be done in order to work in all the periods. If the inspector would allow them to double up as they had been doing since the commencement, it would be quite alright with him and his assistant. Since the board have had a great deal of extra expense already this year, they will wait until later to buy the seats. Mr. Coates also reported that some chemicals were needed for the labratory.

Robert Buchanan the caretaker reported that the new lavatory system had been working very satisfactorily and the children were taking better care of them than they had at first. The novelty of the system having worn off, everything was running smoothly. One of the drinking fountains in the hall upstairs was leaking but this would be repaired with little or no trouble.

A great deal of correspondence was read, the more important of which follows. A letter from the Trance Mfg. Company re material to re-surface the floors of the new lavatories. The property committee has been given charge of the work and are having the floors laid next month. A letter from Inspector Hogue stated that he would be in town later this year but would not be able to upset his plans to attend the proposed special meeting between the board and teachers in regard to the poor showing at the June examinations. It is thought this matter is settled for the time being, nothing having been done so far that would seem to indicate any change in the present teaching staff of the school. At the June meeting one trustee was in favor of having all the teachers hand in their resignations, with a chance to apply again. But the majority were not in favor of this plan and the staff remained unchanged.

When the results of the lower and middle shool departmental examinations came out, there was considerable talk about new teachhers for the Continuation school. The Board had a special meeting and decided that things would remain as they had been as far as the teachers were concerned. Many of the ratepayers were looking forward to this meeting to see what action the board intended taking and will be surprised to learn that the matter was settled at a special meeting.

A letter from Hornsby & Allan, architects of Peterborough dealt with the depth of the well and the pump they had specified for use in the school well. A letter from the Department of Education dealt with the new system for granting standing of the year's work providing the pupils obtain 66 per cent and the teachers are satisfied; they are not required to try the departmental examinations.

Mistake Costs $200

A mistake of two cents in estimating the amount of the teachers salaries in proportion to the county equivalent cost the local board more than $200.00. Where the teachers salaries are half the county equivalent the grant is 50 per cent. Despite the small bonuses that the board paid in order to obtain increased grants, they were just two cents short of being the required amount.

A great deal of correspondence was read in connection with this matter, both with the department and Mr. Copp, I.P.S. The board has tried very hard to get the larger grant but it looks as though they will lose, and all for the sake of two cents. As it is, a cheque for the public school grant was received for $3,206.88 and was ordered to be deposited in the bank.

A letter from the Cadet Services of Canada gave the report of the last cadet inspection. The work of the instructor was satisfactory but the boys lacked interest and the drill was not as good as usual and he said that the majority of parents show lack of interest in the cadet corps and since it is not compulsory to take the cadet drill, many drop out before the inspection. The corps is made up of smaller boys and so get their share of shooting for the year then drop out or make little attempt to make the inspection as successful as the older boys did in previous years. The corps up until this year always boasted of a fine shooting team and carried off Dominion shooting honours in 1930.

Tile To Be Sold

The board had a few tile left over from the building that took place during the summer and set the prices for these as follows: 10 inch tile, $1.50; 8 inch tile, $1; 12 inch tile $2; 18 inch tile $2.50. The clerk was ordered to send out bills for some of the tile that had already been sold, using the new prices.

The following accounts were passed: G. L. Chiles, electric wiring $6; Frank Parcels, work on school, $2.10; Neil Sarginson, painting, $34.61; Carman Emery, work on school, $9.00; A. C. Denike, stationary, $12.65; F. E. Post, refund on tile and making door, $6.00; Robt. Buchanan, supplies, $3.66; F. J. Squires, cleaning supplies, etc., $3.75. On motion of trustees Smith and Crawford the accounts were passed as read.

On motion of Post and Ketchen it was decided to purchase a load of crushed rock to fill in the holes left by the excavation work, where the drains crossed the roads. The property committee will also see about the load of rocks which the council said blocked a culvert on Ottawa street.

The board spent a great deal of time naming over different men who might be able to handle the job of laying the new floor in the basement. It will take three men, two days to do the work and a representative will be on hand the first day to see that it is started right and that the men in charge are skilled in this kind of work. It was left for the property committee who will have the work done during teachers convention.

The secretary will write the Utilities Mfg. Co. and see how much they will allow them for the pump and tank that is not required under the new plans. Since the water in the reservoir is good drinking water, the pump purchased for the school well is not needed and the board is endeavouring to get their money out of it. The board then adjourned to meet on the third Thursday of October or at the call of the chair.

The regular meeting of Belmont Women's Institute was held in the township hall on Thursday afternoon, Sept. 17 when there was a goodly attendance of the membership. The president, Mrs. Will Smith occupied the chair. The roll call was "My One Superstition" and some very amusing superstitions were enumerated. One was "Buy a broom in May, you sweep your luck away". Another was "It is unlucky to have a black cat cross your path." Still another was "Do not walk under a ladder."

A number of communications were read. The chief business in hand was making arrangements for the refreshment booth at the school fair which will be held at the Havelock Park on Sept 22. Light refreshments, and home baking will be sold at this booth, also homemade candy.

An effort is being made by the members of this branch to have a branch formed at Cordova. A meeting will be held at the hall there on Friday, Sept. 25 for the purpose of organizing. Members of Belmont Institute will be present to explain the work and assist in the organization.

The business being concluded there was a short time devoted to community singing. Mrs. (Rev.) Wilson gave an interesting travel talk based on a recent trip. This was followed by a piano solo by Miss Mary Anderson, which was much enjoyed. More community singing and the National Anthem brought the meeting to a close. A social half hour while a dainty lunch was served by the hostesses for the day brought the afternoon to a close. Hostesses were: Mesdames W. Anderson, J. A. Sexsmith, I. Deline and Miss Mary Anderson.

BIG BASS TAKEN AT ROUND LAKE

Specimen of Small Mouthed Variety Tips Scales at 6 Pounds 2 Ounces.

IN PRIZE WINNING CLASS.

HAVELOCK, Sept. 18—(Examiner Correspondence.) — The small mouthed black bass that was caught by Arthur Parker a year ago and won the Examiner's fishing rod for that class was duplicated on Wednesday when Wilbert Ashbridge of Belmont Lake, caught a fish that weighed six pounds, two ounces, was 21 inches long and measured 17 inches around the girth. These are the same as Parker's fish and when the two were placed side by side in J. A. C. Allan's hardware store yesterday their similarity was remarkable.

Parker caught his fish in Round Lake just a year ago, but a day sooner than Ashbridge, who secured his fine fish in Belmont Lake. He has caught several large bass this season ad they all put up a great fight. Caught just a day too late for the Daily Star's contest, it leads the entries for J. A. C. Allan's fishing rod.

This goes to prove conclusively that those who said the waters in this district were "fished out" of game fish are all wrong. T P. Lancaster, M.L.A., has secured several thousand fingerlings during the past two years which should insure good fishing for several years.

Horses Ruin Wheat Farmer Takes Team

RUMSEY, Alta., September 17.—(C.P.) — As the farmers of the west combat the onslaught of the grasshoppers, H. Sauve, farmer of Rumsey, gave thanks that a plague of wild horses only ocurs once in many years. He awoke one morning to find that a band of horses, 130 in number, were cavorting wildly over a field of wheat, completely wrecking the stand.

The horses, being herded from the Bassano district to Grande Prairie, caused damage amounting to $70, it was figured, when they ran away and tore through Sauve's grain. Everything was settled, however, when Sauve closed the account by selecting a team of the animals as his own.

Peterboro' Exhibition Prize Winners

Garden Vegetables

Red carrots—1, Daniel Hayward, 12 Anson St.; 2, C. Kitney; 3, Fred McMahon, Millbrook.

Eleven-quart basket, red carrots—1, Thos. McGowan, R.R. 3, Peterborough; 2, Fred McMahon; 3, Bert Arnott, Crawford's Grove.

Onions, yellow Danvers—1, Bert Arnott; 2, Fred Stenson, Jr., R.R. 3, Peterborough; 3, Fred McMahon

Onions, red—1, Fred McMahon; 2, David Jordan; 3, Bert Arnott.

Onions, white—1, D. Jordan; 2, C. Kitney & Sons; 3, Wm. Whitfield, R.R. 5, Peterborough.

Onions, Prizetaker—1, Bert Arnott; 2, D. Jordan.

Rope of red onions, 3 ft.—1, F. McMahon; 2, Bert Arnott.

Rope of yellow onions—1, F. McMahon; 2, B. Arnott; 3, Bruce Johnston.

Rope of mixed onions—1, F. McMahon; 2, D. Jordan; 3, B. Arnott

Pickling onions—1, B. Arnott; 2 Mrs. C. VanAllen, Peterborough; 3, C. Kitney & Sons.

Blood beet turnips—1, Wm. Whitfield; 2, C. J. Hancock, R.R. 2, Peterborough; 3, C. Kitney & Sons.

Parsnips—1, T. McGowan; 2, J. M. Lowes, R.R. 6, Peterborough; 3, F. McMahon.

Swede turnips—J. M. Lowes; 2, Bert Arnott; 3, F. Stenson, Jr.

White corn—1, Thos. Sellers, R.R. 1, Zephyr, Ont.; 2, W. G. Werry, Bowmanville; 3, J. L. Cryderman, Bowmahville.

Corn, yellow—1, Mrs. J. M. Armstrong, Fraserville; 2, F. Savigny, R.R. 11, Peterborough; 3, Lorne Bagshaw, R.R. 2, Uxbridge.

Red tomatoes—1, D. Jordan; 2, Mrs. J. M. Armstrong; 3, F. Stenson.

Basket, red tomatoes—1, L. Stenson; 2, Mrs. J. M. Armstrong; 3, Mrs. E. A. Bogue, Lakefield.

Twelve peppers—1, Mrs. C. VanAllen; 2, C. Kitney & Sons; 3, D. Hayword.

Basket green peppers—1, Mrs. C. VanAllen; 2, C. Kitney & Sons; 3, F. McMahon.

Basket red peppers—1, D. Hayword; 2, D. Jordan; 3, Mrs. C. VanAllen.

Green cucumbers for slicing—1, J. M. Lowes; 2, Mrs. V. VanAllen; 3, O. Stewart, R.R. 11, Peterborough

Ripe cucumbers—1, G. Savingy; 2, C. Kitney & Sons; 3, Mrs. J. M. Armstrong.

Gherkins—1, J. M. Lowes.

Citrons, red-seeded—1, W. Whitfield; 2, D. Hayword; 3, L. Bagshaw.

Citrons, green-seeded—1, F. Stenson; 2, D. Hayword; 3, J. M. Lowes.

Hubbard, squash, golden—1, J. A. Carl, Fraserville; 2, W. Whitfield; 3, Thos. Sellers.

Hubard squash, green—1, J. A. Carl; 2, C. Kitney & Sons; 3, Mrs. C. VanAllen.

Squash, any other variety—1, C. Kitney & Sons.

Vegetable marrow—1, B. Arnott; 2, J. Howland, 269 Burnham St.; 3, G. Savigny.

Celery, yellow—1, C. Kitney & Sons.

Cabbage, Danish ballhead—1, D. Hayword; 2, F. McMahon; 3, Mrs. C. VanAllen.

Cabage, Savoy—1, J. M. Lowes; 2, Mrs. C. VanAllen; 3, T. McGowan.

Winter cabbage, A.O.V.—1, T. McGowan

Cabbage A.O.V.—D. Hayword; 2, Mrs. C. VanAllen.

Pickling beets—1, T. McGowan; 2, Mrs C. VanAllen; 3, Mrs. R. Waterman, 590 Lock St., Peterborough.

Cauliflower—1, C. Kitney & Sons; 2, F. McMahon; 3, Mrs. L. Sutton, Fraserville.

Lettuce—1, B. Arnott; 2, C. Kitney & Sons; 3, J. A. Carl.

Yellow beans in pods—1, J. M. Lowes.

Pie pumpkins—1, M. Johnston, R.R. 5, Peterborough; 2, R. Byers, Burketon; 3, C. Kitney & Sons.

Special Gardeners' Exhibit.

Best three bushels of potatoes, named—1, C. Kitney & Sons; 2, Bruce Johnston.

Best twelve roots celery—1, C. Kitney & Sons.

Best twelve heads cauliflower—1, Kitney & Sons; 2, F. McMahon; 3, Bruce Johnston.

Six 11-quart baskets of tomatoes—1, J. M. Lowes; 2, C. Kitney & Sons; 3, Bert Arnott.

Best six 11-quart baskets of onions—1, C. Kitney & Sons; 2, F. McMahon; 3, B. Arnott.

Gunn's special for best bushel of potatoes—1, L. Stenson; 2, G. Savigny; 3, S. M. Comrie, R.R. 8, Peterborough.

Fruit

Collection of export apples, six each kind—1, J. L. Cryderman, Bowmanville; 2, W. G. Werry Bowmanville; 3, Edward Rowe, Northumberland.

Collection of dessert apples—1, Ed. Rowe; 2, J. L. Cryderman; 3, C. J. Hancock, Smith.

Collection cooking apples—1, J. L. Cryderman; 2, C. J. Hancock; 3, W. G. Werry.

Twelve Northern Spies—1, Ed Rowe; 2, L. Colocutt, R.R. 5, Bowmanville; 3, W. J. Werry.

Greenings—1, L. Collocutt; 2, W. J. Werry; 3, Ed. Rowe.

Greenings—1, C. J. Hancock; 2, S. M. Comrie, Otonabee; 3, J. L. Cryderman.

Baldwins—1, J. L. Cryderman; 2, W. G. Werry; 3, L. Collocutt.

King of Tomkins county—1, W. G. Werry; 2, F. McMahon, Millbrook; 3, J. R. Savigny, R.R. 11, Peterborough.

Ben Davis—1, W. G. Werry; 2, J. L. Cryderman; 3, H. Dawson, R.R. 11, Peterborough.

Roxbury Russett—1, W. G. Werry.

Golden Russett—1, C. J. Hancock; 2, E. Rowe; 3, W. G. Werry.

Pewaukees—1, C. J. Hancock; 2, J. R. Savigny; 3, J. L. Cryderman.

Wealthies—1, L. Collocutt; 2, J. L. Cryderman; 3, J. R. Savigny.

Duchess—1, C. J. Hancock; 2, W. G. Werry; 3, H. Jamieson, Cavan.

Talman Sweet — 1, F. Eason, Otonabee; 2, J. L. Cryderman; 3, Ed. Rowe.

Gravenstein—1, W. G. Werry; 2, L. Colocutt.

Yellow Transparent—1, C. J. Hancock.

Pippins—1, W. J. Werry; 2, J. L. Cryderman.

Baxters—1, J. L. Cryderman; 2, W. G. Werry; 3, L. Collocutt.

Alexanders—1, C. J. Hancock; 2 W. G. Werry; 3, Fred Zason.

McIntosh Reds—1, W. G. Werry; 2, S. D. Carver, N. Monaghan; 3, J. R. Savigny.

Blenheims—1, W. G. Werry; 2, Fred Stenson, Jr., R.R. 3, Peterborough; 3, J. L. Cryderman.

St. Lawrence—1, Harold Dawson; 2, L. Colloctut; 3, W. G. Werry.

Snow Apples—7, L. Collocutt; 2, W. G. Werry; 3, J. R. Savigny.

Starks—1, J. L. Cryderman; 2, L. Colocutt; 3, W. G. Werry.

Culverts—1, W. G. Werry; 2, C. J. Hancock; 3, J. R. Savigny.

Wolf River—1, H. Jamieson; 2, J R. Savigny; 3, H. Jamieson.

Any other variety—1, C. J. Hancock; 2, L. Collocutt; 3, J. R. Savigny.

Crabapples—1 C. J. Hancock; 2 O. Stewart, R.R. 11, Peterborough; 3 F. Stenson.

Bartlett Pears—1, H. Dawson; 2, J. L. Cryderman; 3, J. R. Savigny.

Flemish Beauty Pears—1, J. R Savigny; 2, W. G. Werry; 3, F. Stenson.

Clapps Favorite Pears—1, J. L. Cryderman; 2, E. Rowe.

Box winter apples—1, W. G. Werry; 2, Ed. Rowe; 3, L. Collocutt.

Box fall apples—1, W. G. Werry, 2, L. Collocutt; 3, E. Rowe.

Box dessert apples—1 W. G. Werry; 2, E. Rowe; 3, Ernest Roeborough, R.R. 4.

Roots And Potatoes

Agricultural Products

Swede turnips for feeding—1, Fred Eason, Keene; 2, R. J. McKnight, Millbrook; 3, S. Comrie.

Turnips for feeding—1, T. McGowan; 2, W. L. White, R.R. 3, Peterborough; 3, F. Eason.

Mangolds—1, J. A. Carrol; 2, H. Archer; 3, Mrs. L. Sutton, Fraserville.

Intermediate Mangolds—1, S. M. Comrie; 2, F. Eason; 3, J. A. Carrol.

Globe Mangolds—1, J. A. Carrol; 2, Mrs. Fred Cann, 543 Harvey; 3, Field Squash—1, J. A. Carrol; 2, T. Sellers.

Commercial potatoes—1, T. Sellers; 2, J. A. Carrol; 3, T. McGowan.

Largest potatoes, any variety—1, J. A. Carrol; 2, Mrs. J. M Armstrong; 3, A. Humphries.

Grain And Seed

Best bushel of fall wheat, white—1, Thomas Sellers, R.R. 1, Zephyr; 2, G. N. Graham, Udore; 3, I. H. Smith, Ida, R.R. 1.

Best bushel of fall wheat, red—Frank Savigny, R.R. 11, Peterborough; 2, A. Humphries and Son, R.R. 3, Hastings; 3, G. H. Mark and Son, Little Britain.

Best bushel of spring wheat, bearded—1, G. N. Graham; 2, J. L. Cryderman, R.R. 4, Bowmanville; 3, J. A. Carrol, Fraserville.

Best bushel of spring wheat, bald—1, A. Humphries and Son; 2, G. N. Graham; 3, J. L. Cryderman.

Best bushel of field peas, large—1, G. N. Graham; 2, A. Humphries and Son; 3, Ursile Brown, R.R. 3, Millbrook.

Best bushel of field peas, small—1, A. Humphries and son; 2, L. Beavis, R.R. 3, Norwood; 3, Mrs. Lloyd Sutton, Fraserville.

Best bushel of fancy peas—C. J. Hancock, J. L. Cryderman, J. L. Carrol.

Best bushel of barley, six rowed—1, J. L. Cryderman; 2, T. Sellers, R.R. 1, Zephyr; 3, G. N. Graham.

Best bushel of barley, two rowed—1, J. L. Cryderman; 2, J. L. Carrol; 3, G. N. Graham.

Oats, early—1, U. Brown, R.R. 3, Millbrook; 2, T. Sellers; 3, G. N. Graham.

Oats, late—1, U. Brown; 2, T. Sellers; 3, G. N. Graham.

Rye—1, U. Brown; 2, G. N. Graham; 3, A. Humphries and Son.

Buckwheat—1, U. Brown 2, C. J. Hancock, Smith; 3, A. Humphries.

Timothy seed—1, U. Brown; 2, G. N. Graham; 3, T. Sellers.

Red Clover—1, A. Humphries; 2, H. Fowler, R.R. 2, Peterborough; 3, Gordon Mann and Son, Smith.

Alsike clover—1, C. J. Hancock; 2, Deyell Bros., Omemee; 3, U. Brown.

Sweet clover—1, T. Sellers; 2, Gordon Mann and Son; 3, G. N. Graham.

Alfalfa—1, T. Sellers; 2, Gordon Mann; 3, L. Beavis.

Beans, small—1, A. Humphries; 2, J. M. Lowes, R.R. 6, Peterborough; 3, C. J. Hancock.

Beans, A.O.V.—1, U Brown; 2, J. M. Armstrong, Fraserville; G. Savigny.

Flax seed—1, Gordon Mann; 2, G. N. Graham.

Ensilage Corn—1, Harold Archer, R.R. 2, Peterborough; 2, Lorne Bagshaw, Uxbridge; 3, W. A. Roseborough, R.R. 4, Peterborough.

Flint corn, yellow—1, Lorne Bagshaw.

Best bushel of oats and sheaf eight inches in diameter by competitor in Field Crop Competition—1, Gordon Mann and Sons; R. J. Tully, Peterborough.

Sheaf of Fall Wheat—1, R. J McKnight, Millbrook; 2, S. M. Comrie, Otonabee; 3, Wesley Wilson Omemee.

Sheaf of Spring Wheat—1, J. A Carrol; 2, U. Brown; 3, H. Jamieson, Cavan.

One sheaf of Oats—1, J. A. Carrol; 2, Sam Comrie; 3, T. McGowan, R.R. 3, Peterborough.

One sheaf of Barley—1, C. J. Hancock; 2, S. M. Comrie; 3, L Bagshaw.

Sheaf of Timothy—1, J. L. Moncrief, Ida; 2, U. Brown.

Gunns' Special, best sheaf of Oats—S. M. Comrie.

FAREWELL PARTY TENDERED COUPLE

Mr. and Mrs. Roy Atkins Honored by Members of Young Men's Club.

STIRLING, Sept. 17—(Examiner Correspondence).—Mr. and Mrs Ray Atkins were guests of honor on Monday evening at an entertainment staged by the Young Men's Club prior to their departure for their new home in Windsor.

A dance was held in the Community Hall, with the Trundy Troubadours furnishing the music.

Those present were Mr. and Mrs. Ray Atkin, Mr. and Mrs. Dobbie, Mr and Mrs. Binsted, Mr. and Mrs. Martin, Mr. and Mrs. Rollins Mr. and Mrs. Whitehead, Mr. and Mrs. Williams Mr. and Mrs. Mecklejohn, Mr. and Mrs. Belshaw, Mr and Mrs. Carleton, Mr and Mrs. Moase, Mr. and Mrs Murrouff, Mr and Mrs. Wilson, Mr. and Mrs. Wright, Mr. and Mrs. Carleton, Mr and Mrs. Potts, Mr. and Mrs. McGuire, the Misses Burch, Dezart Conley, Haggerty, Bailey, and Messrs. Clinton McGee, Ivan Martin, Tom Ward, Harold Way, William Jones and Jerry Clute.

An electric clock was presented to Mr. and Mrs. Atkin by the club Mr. Atkins responding, and thanking the members for their gifts. Short addresses were given by A. E Dobbie, Joseph Wilson, P. McGuire and Harold Martin.

Civil service employes of Dublin, Irish Free State, are holding protest meetings against the proposed reduction of the cost-of-living bonus.

Minard's Liniment for Stomach Cramp.

Hereford Cattle Prize-Winners

Co R E Birdsall and Son of Asphodel township made a splendid showing at the Exhibition with their Hereford cattle against strong competition from outside this district.

Other breeders in the "white face" cattle ring were Lorne L Bagshaw of Uxbridge, J. Acton of Sunderland, D. L. Cornish of Orono, E. A Rosevear of Cobourg, and Allan R. Linton of Cobourg.

The Birdsall herd carried off seven first prizes, four seconds, two thirds and two fourths, including the champion female in the Hereford class. This was a decidedly satisfactory share of the honors in a field that demand high quality to win.

The awards were as follows:

Hereford Cattle.

Bull, 3 years and over—1 and 3, Lorne L. Bagshaw, Uxbridge; 2, J. Acton, Sunderland.

Bull, 2 years—1, R. E. Birdsall and Son of Birdsall Station; 2, J. Acton.

Bull, yearling—1, R. E. Birdsall and Son; L. Bagshaw; 3, L. L. Cornish, Orono.

Bull calf, senior—1, R. E. Birdsall & Son; 2 and 3, E. A. Rosevear, R.R. 4, Cobourg.

Bull calf, junior—1 and 2, J. Acton; D. L. Cornish.

Cow, 3 years and over, in milk—1 and 4, R. E. Birdsall & Son; 2, J. Acton; 3, E. A. Rosevear.

Cow, 3 years and over in calf—1, R. E Birdsall & Son; 2, J. Acton; 3, E. A. Rosevear; 4, L. Bagshaw.

Heifer, 2 years—1, J. Acton; 2 and 4, R. E. Birdsall & Son; 3, L. Bagshaw.

Heifer, yearling—1, J. Acton; 2, E. A. Rosevear; 3, L. Bagshaw; 4, D. L. Cornish.

Heifer calf, senior—1, L. Bagshaw; 2, R. E. Birdsall & Son; 3 D. L. Cornish; 4, J. Acton.

Heifer calf, junior—1 and 2, L. Bagshaw; 3, Allan R. Linton, R.R. 6, Cobourg; 4, J. Acton.

Senior herd, bull and 3 females owned by exhibitor—1, J. Acton; 2, R. E. Birdsall & Son; 3, L. Bagshaw.

Junior herd—1, J. Acton; 2, L. Bagshaw; 3, R. E. Birdsall & Son; 4, E. A. Rosevear.

Best 2 animals, progeny of one cow—1, J. Acton; 2, L. Bagshaw; 3, J. Acton; 4, E. A. Rosevear.

Herd of one male and three females, any age, open to exhibitors from Peterborough county and the townships of Cavan, Emily and South Monaghan—1, 2 and 3, R. E. Birdsall & Son.

Champion male—1, L. Bagshaw; 2, J. Acton.

Champion female—1, R. E. Birdsall & Son; 2, J. Acton.

Aberdeen-Angus Cattle

Bull, 3 years and over—1, Edwards Bros., Watford, Ont.; 2, B. Blackburn, Uxbridge.

Bull, 2 years—1, B. Blackburn.

Bull, yearling—1, James Black, North Monaghan; 2 and 3, B. Blackburn.

Bull calf, senior—1, Edwards Bros; 2 and 3, B. Blackburn.

Bull calf, junior—1, James Black; 2, B. Blackburn.

Cow, 3 years and over in milk—1 B. Blackburn; 2 and 4, J. Beck; 3, Edwards Bros.

Cow, 3 years and over in calf, not milking—1, Edwards Bros; 2 and 3 B. Blackburn.

Heifer, 2 years—1, Edwards Bros; 2, B. Blackburn; 3, J. Beck.

Heifer, yearling—1 and 2, Edwards Bros; 3, B. Blackburn.

Heifer calf, senior—1, Edwards Bros; 2 and 4, B. Blackburn; 3, J. Beck.

Heifer calfs junior—1, Edwards Bros.; 2, A. B. Mann, Bridgenorth; 3, J. Beck.

Senior herd—1, Edwards Bros; 2, B. Blackburn.

Junior herd—1, Edwards Bros; 2, B. Blackburn; 3, J. Beck.

Best two animals, progeny of 1 cow—1, Edwards Bros; 2 and 3, B. Blackburn; 4, J. Beck.

Champion male—Edwards Bros.

Champion female—Edwards Bros.

Market Cattle.

Steer or heifer, senior yearling—1, Amos and Black; 2, Bowles Bros., Cavan; 3, J. Beck.

Steer or heifer, junior yearling—1, Amos and Black; 2, Bowles Bros., Cavan; 3, J. Beck.

Steer or heifer, junior yearling—1, W. E. Parker & Sons, Watford; 2, R. E. Birdsall & Son; 3, Deyell Bros., Omemee.

Steer or heifer, senior calf—1, W. E. Parker & Sons; 2, Amos & Black; 3, J. Acton.

Steer or heifer, junior calf—1, W. E Parker & Sons; 2, V. R. Hunter, Cavan; 3, Amos and Black.

Steer or heifer any age, open to Peterborough county and the townships of Emily, Cavan and South Monaghan—1, R. E. Birdsall & Son; 2, Bowles Bros.; 3, Deyel Bros.

Two baby beeves, over 6 months, under 1 year—1, W. E. Parker & Sons; 2, Amos and Black.

Champion fat steer—1, R. E. Birdsall & Son; 2, W. E. Parker & Sons.

Beef Cattle Specials

Champion bull, any age, open to all beef classes—Amos and Black.

Champion female, any age, open to all beef classes—Edwards Brothers.

So Listless... What's the Matter?

A Despondent Young Girl

SHE looks despondent, listless. Young girls budding into womanhood often get quiet, wistful and they should be watched.

During this "trying time" every young girl needs the helpful benefit of a strengthening medicine like Lydia E. Pinkham's Vegetable Compound.

Mother, won't you give your daughter the Vegetable Compound? Records show that it helps 98 out of every 100 women who use it. Ask your druggist for a bottle of the liquid or the convenient tablets.

Lydia E. Pinkham's VEGETABLE COMPOUND

Best herd of beef cattle, number and cattle to be considered (Bank of Montreal Cup)—W. E. Parker & Sons.

Junior herd, 1 bull under 2 years; 2 heifers 1 year old; and 2 heifer calves open to all beef breeds (Walter M. Lowney, Montreal, Cup)—Amos and Black.

Baby beef, 6 months and under 1 year, open to Peterborough county and the townships of Cavan, Emily and South Monaghan—1, R. E. Birdsall & Son; 2, Bowles Bros.

Best registered bull of beef breeds p'aced through the assistance of the Livestock Improvement Association and open to Peterborough county only—1, Wm. Elmhirst & Sons, Otonabee ($15 donated by E. A. Peck, M.P.); 2, D. H. MacFarlane, Otonabee.

Best pure bred heifer of beef classes under one year—W. E. Parker & Sons.

again! PHILCO Startles the World... A BRAND NEW RADIO at an utterly amazing price!

COMPLETE WITH 5 TUBES..! $75

PHILCO T.R.F. LOWBOY

As startling in performance as it is in value. Handsome full sized mahogany cabinet, worthy of a place in any home. Same tube and condenser equipment as in Baby Grand. Genuine Dynamic Speaker. Price complete with tubes $75.00

AGAIN Philco outstrips all competition! Shatters all precedents of quality, value and performance in this new Tuned Radio Frequency receiver. Just as in Philco Superheterodyne, this Philco T. R. F. radio offers you incomparably more for your money than any other set at anywhere near this price. In it are incorporated some of radio's most important recent developments such as Pentode and Screen Grid tubes, which mean that in performance it actually excels last year's Baby Grand!

If your budget limits you to a radio in this price class, or if you want an *extra* radio for your bedroom or den, you can't afford to take chances—Buy a Philco!

READ THIS DESCRIPTION

1. Priced complete with FIVE (5) tubes, including new Pentode Power tube and using THREE tuning condensers.
2. Genuine Electro-Dynamic Speaker, giving remarkably pure clarity of tone.
3. Genuine Mahogany cabinet of graceful design and unusual beauty.
4. All-around performance that actually surpasses last year's Baby Grand—the world's greatest seller in 1930.
5. And remember, the name PHILCO—meaning Philco quality—is your absolute assurance of satisfaction.
6. More radio—more tubes—more power—more performance, and finer quality than have ever before been offered at anywhere near such remarkable prices.
7. The lowest priced radio sets in the world that give satisfactory performance.

Now see your Philco Dealer—you will be surprised to find how little per month it costs to buy one of these remarkable sets.

LEAGUE ASSEMBLY PAVES WAY FOR DISARMAMENT MEETING

Preparation of Favorable Political Atmosphere Rather Than Technical Details is Task

12TH ASSEMBLY.

GENEVA, September 17. — (C.P.) The Twelfth Assembly of the League of Nations opened its session September 7th, under the shadow of the world's economic crisis, and its political repercussions and, notably its effect on the ference.

The skeleton draft for a Disarmamen. Convention has been before the governments for some time and several countries have already replied to the request for full information on the state of their armaments to help in preparing the general conference, which is to begin Feb. 2 next year and is expected to last for several months. The Assembly will not be directly concerned with the technical preparations for disarmament, but more with preparing a favorable political atmosphere.

Further Steps.

It will have to consider two further steps in the organization of peace—namely, the amendment of the Covenant so as to rule out entirely the right of resort to war, and the draft General Convention to strengthen the Means for Preventing War. Both these matters came up for discussion at the last Assembly, but were found not ripe for decision and were therefore referred back to the government or to an expert committee to prepare an improved text in the light of the objections raised to the first draft. The amendment of the Covenant was undertaken on the initiative of the British Government, which pointed out that most of the members of the League had now undertaken under the Briand-Kellogg Pact, never to resort to war, and that it was therefore desirable to make a corresponding change in the Covenant. The draft submitted to the last assembly and the amendments proposed by the Assembly Committee have since been circulated to governments, and this draft with the discussions of the assembly and the comments of governments upon the matter will form the basis for the Twelfth Assembly's deliberation. The General Convention to strengthen the means for preventing war is intended to pledge the signatories beforehand to accept any measures laid down by the League Council for the preservation of peace while a dispute is being considered.

At the last Assembly it was found impossible to reconcile the points of view that had led to alternative texts on some of the principle articles in the draft convention, but a compromise on all these points has since been reached in an expert committee, and the new text submitted to the Twelfth Assembly is one that carries with it the agreement of all the experts on the committee and represents a compromise between the points of view that were in conflict at the last Assembly.

The work of the Communications and Transit Organization on the unification of buoyage and lighting of coasts, the unification of river law, the convention on signals for road traffic, and taxation of motor cars, calendar reform, the unification and improvement of air traffic communications, etc., will be reviewed by the Assembly, which will also have to consider the progress of the plan of co-operation between China and the League in the national reconstruction of that country in the domains of health, education, communications and transit, and economics and finance.

The success of the Conference on the limitation of the manufacture of Drugs and the comprehensive and drastic provisions of the Convention adopted by this Conference, mark a new era in the League's attempts to grapple with the evil of narcotic drugs, and will together with the quiry into opium smoking in the Far East, form the basis for its discussions of the whole subject.

The Health organization has been active in every continent, and its work—in particular its co-operation with China and South American countries, the results of its enquiry into the treatment of syphilis, the European Conference on Rural Hygiene, and the study of the principles and methods employed in the prevention of leprosy—will come up for consideration.

Praises Famous Vegetable Pills For Indigestion

"Having been troubled with Indigestion and Sick Headaches for several months, I was recommended to try your famous Pills. After the first dose I was made aware of their very real tonic value."—Miss M. Croydon.

Dr. Carter's Little Liver Pills are no ordinary laxative. They are *all vegetable* and have a very definite, valuable tonic action upon the liver . . . exactly what you need to end Constipation, Acidity, Biliousness, Headaches, Poor Complexion, etc. All druggists, 25c & 75c red pkg.

NATIONAL GOV'T IN NEW ZEALAND

Co-operative Ministry Plans Immediate Action to Stabilize Finance.

FOLLOW BRITISH EXAMPLE.

WELLINGTON, New Zealand, Sept. 18 (C.P. Cable, via Reuters). —New Zealand's political leaders are following Great Britain's example during the economic emergency and are forming a National Government.

The Co-operative Government will take immediate action to stabilize the Dominion's finance.

And the parallel goes further, in that the Laborites, who have 19 seats in a house of 80 members, are strongly objecting to the postponement of the general election that had been scheduled for next month, and are lining up into an independent opposition.

The United Party, headed by Prime Minister G. W. Forbes, has 29 members in the House. The Reform Party, led by former Prime Minister J. G. Coates, has 28 members. The two parties, with the support of four Independents, are effecting a temporary coalition which will give the National Government an overwhelming majority in the house.

Question To Gandhi Fails To Get Answer

LONDON, Sept. 18. (C. and A.P. Cable) — Mahatma Gandhi failed to answer a question put to him in the federal structures committee of the Indian Round Table to-day.

N. M. Hoshi, one of the members representing Indian Labor, asked Mr. Gandhi if the views he expressed yesterday on the projected Indian legislature were Mr. Gandhi's own views or those of the Indian Nationalist Congress. Mr. Hoshi added that to his knowledge the Nationalist Congress had never discussed anything except whether India should be independent of Great Britain.

Lord Sankey, chairman of the committee, remarked to Mr. Hoshi that he was sure the Mahatma would be willing to reply sometime in the future.

Recovers From Crash Injuries

MAKES FIRST APPEARANCE SINCE WILD RIDE

Seemingly completely recovered from the effects of his wild and mysterious dash from the United States to Canada in which he was seriously injured when his motor car crashed, Mr. Perkins Bull, famous barrister, entertained at a garden party on which occasion an all-Canadian library was presented to his son. Mr. Michael Bull, and his recent bride by Premier Henry of Ontario. The above picture shows Mr. and Mrs. W. Perkins Bull.

MISSAL ROUSES KEEN DEBATES

Matrimonial Canon on Marriage of Divorced Persons Also Stirs Churchmen.

CHANGES PROPOSED.

DENVER, Colo., Sept. 18.—Two controversial subjects were before the general convention of the Protestant Episcopal Church to-day as members of the House of Bishops, House of Deputies and Woman's Auxiliary delegates met in joint session.

The Matrimonial Canon regarding the marriage of divorced persons, which has stirred comment from both Liberals and Conservatives, has been joined by the American Missal, Mass book, as a subject for debate between the so-called high and low churchmen.

The American Missal has been independently printed and circulated among members of the church. Opponents assert it would lead the church into Romanism if generally used. Advocates deny this and say the Missal is set forth as a supplement to, not a substitute for the Book of Common Prayer.

The House of Deputies has in committee a resolution by O. S. Seymour of Long Island, which calls for a definition of a legal certificate on the Book of Common Prayer.

Delegates prepared for a vote on proposed changes in the Matrimonial Canon, with a plan advanced by the Rt. Rev. Charles Fiske, Bishop of Central New York, finding some favor.

Bishop Fiske advocates the establishment of an ecclesiastical court in each diocese and missionary district to act in all marital cases and to consider questioning of annulment of marriage. His proposal does not permit remarriage of divorced persons by a priest of the church under any circumstances.

Oshawa Man Passes

George Hezzlewood, for many years a secretary for General Motors and a distinguished and popular citizen of Oshawa, who died suddenly Saturday evening.

Big Western Sawmill Is Closed By Strike

NEW WESTMINSTER, B.C., Sept. 18 (C.P.).—The Canadian Western Lumber Company's big sawmill on the Fraser River was closed indefinitely yesterday, following a strike for an increase of ten per cent. in wages and disturbances by alleged agitators from Vancouver.

Picketing was maintained to-day by the strikers and orders have been issued to the New Westminster police to be on hand during the day in the event of a further demonstration.

Henry J. Mackin, managing director, stated that no effort would be made by the company to re-open the plant. He said that recently the mill had been operating on short time and the plant was only kept open to aid in alleviating unemployment.

Nets of the fishing ship Lavinia were attacked by a huge whale off Lowestoft, England, and $2,500 damage done to them.

China and Japan purchased more cotton from the United States in the last fiscal year than in the preceding 12 months.

Feminine Celebrities In The Spotlight

CONSTANCE BENNETT REFUSES ANSWER

(1) Constance Bennett, screen actress, on her arrival in New York after several weeks abroad, was asked if she was to be married to the Marquis de la Falaise de la Coudray, who is awaiting a final divorce decree from Gloria Swanson. Miss Bennett replied that her losses at Monet Carlo were heavier than she cared to have them. Reporters concluded she did not care to discuss the engagement. The Marquis was also a passenger on the liner. (2) Just two of the 3,000 pigeons released at Los Angeles. After the coronation of the Queen of La Fiesta de Los Angeles celebration of the city's 150th anniversary, perched prettily on the hat and shoulder of Miss Beverly Crane. (3) The Grand Prix d'Elegance for 1931 was won at Paris by Suzy Vernon with this chic creation. The jacket is in white "peau d'ange trimmed with silver fox. The dress is black satin.

Best-Known British Singers Are Booked

LONDON, Sept. 18 (C.P.). — Most of the best known British opera singers and an all-British orchestra, chorus and ballet, are to appear in the six weeks' season of opera which will open at Covent Garden on September 14. This will be the first season to be given in London by the Covent Garden English Company, although this company has been playing for two years in the principal cities of England and Scotland.

The repertoire consists of 13 operas, including five works to be performed for the first time by the English company—"The Bartered Bride," "The Wreckers," "The Valkyrie," "Parsifal," and "Carmen." The other operas to be given are La Boheme, Madame Butterfly, Tosca, The Barber of Seville, Die Fledermaus, Aida, Lohengrin, and the Mastersingers.

The conductors will be Adrian Boult, John Barbirolli, and Frederick Hay, and the producer, Chas. Moor, who has been the producer in recent International seasons. This season will serve to introduce to opera several young orchestral players of great promise who have been discovered in various colleges.

After the season at Covent Garden the company will leave for an eight weeks' tour of the provinces, during which seasons will be given at Glasgow, Edinburgh, Liverpool and Birmingham.

Exhibition Board Fails In Court Case

His Honour Judge O'Connor heard the case of Miss Pearl Welch, daughter of E. N. Welch, against the Peterborough Industrial Exhibition and E. S. Burrow. He gave judgment for the plaintiff for $386.00 and costs.

Last year at the Exhibition Miss Welch was walking along the midway and a man operating a mallet and striking a spring to raise a weight, in doing so, struck Miss Welch and broke off two of her teeth, with the result that she suffered permanent injury.

V. J. McElderry, K.C., appeared for the Peterborough Industrial Exhibition and Hon. G. N. Gordon, K.C., appeared for the plaintiff.

Giant Jet Of Steam Halts Blazing Well

BUFFALO, N.Y., Sept. 17.—The 40-foot flame which danced for several days above a gas well near Silver Creek, has been snuffed out with a jet of steam, and the well has been capped.

The well, flowing at the rate of more than nine million cubic feet daily, caught fire while it was being cased. Steam equipment was quickly assembled and a jet of steam under terrific pressure was directed at the mouth of the well, literally holding back the flames until the well was capped late yesterday.

WILSON'S FLY PADS REALLY KILL

One pad kills flies all day and every day for 2 or 3 weeks. 3 pads in each packet. No spraying, no stickiness, no bad odor. Ask your Druggist, Grocery or General Store.

10 CENTS PER PACKET

Mr. George Coleman, Junior, will be heard over Station CFCA, Toronto, to-night (Friday) at 8:45 instead of 9.45 as announced last evening.

That Body of Yours

By James W. Barton, M.D

LEFT-HANDED CHILDREN

When I was a youngster at school I can remember that the teacher in one class tried to get one of my school mates (who was left handed) to try and write with the right hand. She thought left handedness was a defect. In the next room above he was allowed to write with his left hand. This teacher thought left handedness was a normal condition.

I have often wondered since which of these teachers was right, but it was just recently that I found out.

Dr. Ralph Haefner of Columbia University has settled this question as to whether or not the left handed child is less bright than the right handed child. Long severe tests were made to try and find out the relation between "handedness" and intelligence, and whether it would b worth while by systematic training, to turn naturally left handed children into right handed ones.

For this purpose sixty-eight pairs of representative children were selected from the school's total enrolment of eleven hundred. One of each pair was left handed, the other right handed, and each of the in sex, age, standing in school and in general all round conditions.

What did they find?

That left handed children are in every way normal. They are interested in as many games as the right handed children; they are equally bright, think equally fast, make decisions as quickly and are just as much concerned with their school problems, and their personal appearances, as are right handed children.

Now, it cannot be denied that speech disorders, such as stammering and stuttering are found more often in left-handed children than in those who are right handed, but Dr. Haefner says that this is not due to the fact that they are left handed but to the fact that teachers and parents are really responsible for this because of their efforts to make the youngster do things right handed. This scolding, correcting and punishing of left handed youngsters to try and make them do things right handed, so affects the youngster's nervous system that stammering and stuttering may result.

I know this information should be of help to parents and teachers and to the youngsters themselves as it proves that they are normal in every way and just as bright as right handed youngsters.

FASHION SERVICE

Darling youthful chic for all-day occasions is expressed in this simple frock of printed crepe silk.

The softened touch of the bodice is interesting.

The unusually clever shaping of the skirt in deep diagonal lines at the front, produces a decidedly slimming effect.

To copy it exactly takes but 3¼ yards of 39-inch material for the medium size.

Style No. 3032 is designed for sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

It's delightfully dainty and pretty in eyelet batiste in pale blue shade.

Pale pink washable crepe, yellow linen and light green shantung printed in yellow dots are lovely schemes for this model.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred). Price of pattern 15 cents.

Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book 15 cents.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

Many times I have been asked the question, "What does it mean to be a competent homemaker?"

• • • • • • •

Perhaps you, too, have been asked the question and you could not just answer the question without thinking it over.

• • • • • • •

Then after thinking it over, you found that since there is no actual standard for classifying competency in homemaking, the question could be put in another way, "What really constitutes competency in a homemaker."

• • • • • • •

In a housekeeper the ability to run a house efficiently, with sufficient expenditude to insure the best result without waste or extravangance, to have well-balanced meals served on time, and to attend capably to the business of running the establishment in all its many branches—this is good summing up of competency.

• • • • • • •

To be a competent homemaker, implies so much more than this that difficulty of definition arises.

• • • • • • •

There is a psychological element which enters in, whether the woman realizes this or not. Every fine homemaker has the mental welfare of her family to care for.

• • • • • • •

It is she who must understand that worry means eventual illness, and be able, or at least do everything within her power, to run worry away.

• • • • • • •

This may be through actual prevention of causes for worry, or it may be to bring cheer into the lives of those whom she longs to relieve of burdensome weights of anxiety.

• • • • • • •

As a homemaker, she must be able to understand her children; to enter into the spirit of their play and their fun, as well as to care for their physical well-being.

• • • • • • •

She has to be skilful nurse, companion and guide, one who invites confidence without encroaching on rightful mental privacy.

• • • • • • •

To be a competent housekeepr is a fine thing, but to be a competent homemaker is one of the highest occupations that woman may have. To be successful homemaker requires the skill of a housekeeper plus the ability to make a home with an atmosphere of comfort and happiness.

Marmora

Mr. Albert McKenzie returned from Glace Bay, Nova Scotia, Monday, where he was suddenly called 8 days previous owing to the death of his brother, Mr. James McKenzie.

Mr. and Mrs. Fred Wannamaker and daughters Viola and Luella, of Holloway spent Sunday with Mr. and Mrs. James Shaw.

Mr. and Mrs. Forrest Dennis, of Campbellford, spent Wednesday in town.

Mr. and Mrs. W. Forsyth and family of Havelock renewed acquaintances here on Wednesday.

Mr. and Mrs. J. O'Neill and Messrs. W. J. Cottrell, J. Hegadoren and J. Cross attended Peterborough Exhibition on Tuesday evening.

Mr. and Mrs. N. A. Kilpatrick and daughter Irene spent Sunday with Mr. and Mrs. S. Kilpatrick at Ivanhoe.

Mr. and Mrs. Lawlor Shannon, of Sudbury are visiting the former's parents, Mr. and Mrs. Hugh Shannon.

Mr. W. Henderson, of Glanmire visited Mr. and Mrs. Manley Lavender on Wednesday.

Mr. J. Harstone, of Madoc, was in town on Wednesday.

Mr. and Mrs. W. Ploughman, of Campbellford, former residents, called on old friends on Wednesday.

Mr. J. W. Pearce, of Belleville visited his daughter, Mrs. F. N. Marett on Wednesday.

Mr. and Mrs. Robert Bonter and Mr. and Mrs. Charles Bailey spent Tuesday in Peterborough.

The ladies of Marmora Women's Institute again operated a refreshment booth at Marmora Fair with very successful results.

ANNUAL SERVICES HELD AT RYLSTONE

Rev. Dr. Watts, of Kingston, is Special Speaker for Occasion.

PETHERICK'S CORNERS, Sept. 18 (Examiner Correspondence)—The Sunday evening service at Zion was withdrawn and most of the congregation took the opportunity to visit Rylstone on the occasion of the anniversary services there. The Rev. Dr. Watts of Kingston was the preacher for the day and his address on "The Parable of the Good Samaritan" at the evening session was one well worth remembering. The Rylstone choir made a splendid contribution to the day's success with excellent musical numbers.

Tea Meeting

On Monday evening the church was well filled again for the old-fashioned tea meeting. The younger members of the congregation acted as waiters and kept the crowd well supplied with a variety of good things to eat.

The program following was of a high order Rev. H. A. Bunt, minister of the charge, acted as chairman in a very happy manner. The choir supplied the opening number. Selections of Hawaiian music by Mr. Case, of Wellman's received much applause. The Dracup sisters, as usual, delighted the audience with their splendid vocal numbers. Messrs. Henson and Lucy, of Campbellford were good both in duet and solo selections. Mr. E. C. Dolman acted as accompanist. Miss Hazel McKenzie gave a splendid reading and encore. Miss Evelyn Barnum, violin, and Miss Irene Stephens, organ were heard in two fine numbers.

Rev. T. G. MacTavish, of the Seymour charge gave a short address on "Things That Wreck a Church," which was well received.

At a firemen's wedding at Aylesbury, England, recently, the couple left the church under and arch of axes and rode on a fire engine to the reception.

List Of Winners At Douro Social

DOURO, Sept. 18 (Examiner Correspondence)—The grand drawing of prizes in connection with the social held at St. Joseph's Parish at Douro on September 7, was held on Tuesday evening at 8.30 when the churn was turned by P. G. Towns, chairman of the committee, while little Eileen Ayotte drew the lucky tickets.

Prizewinners were as follows: $10 in gold, James Collins, Indian River; $5 in gold, Richard Richards, Indian River; 1 cwt. flour, John Cavanagh, Indian River; $5 in gold, Timothy Kennedy, R.R. 4, Lakefield; 1 cwt. sugar, F. Kearney, Sr., 496 Mar street, Peterborough; $5 in gold, Mrs Joseph Gloos, 334½ Water street, Peterborough; $5 in gold, John Cavanagh, Indian River; half ton of coal, Mrs. Francis Sullivan, R.R. 1, Douro; $5 in gold, Teresa Ryan, R.R. 1, Douro; $5 in gold, G. S. Condon, R.R. 4, Lakefield; 97 piece dinner set of dishes, Mrs. Joseph Allen, R.R. 2, Indian River.

Father And Child Feared Kidnapped

BARRIE, Sept. 18.—The mysterious disappearance Tuesday morning of Ruby Hamilton while en route to school has been solved so far as the police are concerned.

In a telephone conversation with Mrs. Ridge, mother of the girl, at Torrance last night, local headquarters of the provincial police was informed that Mrs. Ridge had received a letter from her former husband, J. J. Hamilton, father of the 13 year old girl, that he had taken the child.

The letter, the police stated, was written from Port Hope. Mr. Hamilton, Mrs. Ridge stated, was at one time a resident of Windsor and Peterborough, and it is believed he also has the custody of the other two children, a girl and a boy, for whom no court order has ever been obtained.

Plane Beats Death

Death and science staged a race the other day and science has apparently won. Mrs. Andrew Nelson (above) was dying in a Chicago hospital, a victim of the dread Addison's disease. A rare serum, known as cortin, was rushed by special aeroplane from Buffalo and Mrs. Nelson is said to stand a good chance to recover.

SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an imported dress—lost color so completely that it was not wearable. A friend who had admired it asked me why I wasn't wearing it any more. On hearing the reason, she advised dyeing it and recommended Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost just 15c—the price of one package of Diamond Dyes..

"I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer, but I never have a failure with Diamond Dyes They seem to be made so they always go on smoothly and evenly. They never spot, streak or run; and friends never know the things I dye with Diamond Dyes are redyed at all!" Mrs. R. F., Quebec.

THE RHYMING OPTIMIST

By Alice Michaelis

THE POET'S LOVE

For me the sea may lose its lure
Some day; that wide expanse
May lie before me, yet I'll pass
Without a look or glance

I may forget the clasp of hands
That once held Heaven for me
I may forget the touch of lips
That brought me ecstasy.

This living is so strange a thing
That it may part us, far;
Though now I hold that life for me
Blooms only where you are.

But never, until time be done,
Will this one gladness go,
This joy of weaving singing words
Of lilting measures flow.

The rest may pass, the lesser joys
That time can only lend;
But words are every poet's dower
To cherish to the end.

TRIO OF COLORS FOUND IN FLAG BIBLICAL ORIGIN

Mrs. Harold Dunford Addresses Members of Local Council of Women.

Tribute To Mrs. Edwards

Very few people, possibly, know that the trio of colors used in the Union Jack have a Biblical origin. In the ancient temples of the Old Law, the little table that bore the shewbread, placed before the ark of the covenant, bore a cloth of blue, scarlet and white.

The red coloring stands for zeal and fervency, the white for purity and cleanliness of life, the blue for royalty, devotion, fidelity, justice and truth

These and many more interesting facts about the national emblem were told to members of the Local Council of Women yesterday afternoon, by Mrs. Harold E. Dunford, speaking on "The Flag of the Empire."

Tribute to Mrs. Edwards

The memory of the late Mrs. Edwards, president of the Local Council for several years, rested like a benison over the meeting yesterday. Mrs. F. H. Dearborn, presiding, spoke tenderly of the memory of the late president, whose sincerity, kindliness and love of peace led the Council through pleasant ways during her tenure of office. Mrs. Dunford told of Mrs. Edwards' admonition to her: "The work must go on," when discussing the affairs of the Council. And Mrs. Law read a letter received from the late president this year, from her summer home in Newboro, hoping to be in condition to resume the reins of office this month. The members stood for a few moments of silent prayer, before the meeting opened, in memory of their late leader.

Mrs. Dearborn will act as president of the Local Council during the four months remaining until the next annual meeting. Miss Walton has accepted the convenorship of Films and Printed Matter for the same term, succeeding Mrs. N. D. Seaton, who moved away a short time ago. The convenorship of the Child Welfare committee, left vacant by the resignation of Miss Amy Wood, will be left unfilled until the annual meeting.

Mrs. E. Wand reported that only 16 of the 35 affiliated societies have as yet paid their annual fees. In order to raise money to pay outstanding accounts, it was decided to sponsor another moving picture, arrangements to be made by a committee composed of Mrs. M. Henry, Mrs. F. H. Dearborn, Mrss. E. Wand and Mrs. B. Law.

After hearing the remarks of one of the members, with regard to a married woman in a neighboring district taking a position as teacher while enjoying comfortable circumstances at home, the Council decided to express a sentiment deploring such a course, while unmarried teachers are in need of employment.

The Flag of the Empire

Mrs. Dunford opened her very interesting little talk on the Flag of the Empire, by alluding to some of the circumstances surrounding the inclusion in it of the crosses of St. George, St. Andrew and St. Patrick, emblems of the three great sections of Britain.

In 1274, the red cross of St. George, patron saint of England, was placed on the surcoats or jacks of the soldiers of England, and the raising of one of these at the bow of a boat led to the naming of the emblem as a "jack." In 987, one of the ancient kings of Scotland dreamt, on the eve of a battle, that the white cross of St. Andrew, superimposed against a blue sky, appeared to him as a sign of forthcoming victory, while the Celtic cross of the patron of Erin has a like ancient and symbolical meaning.

Mrs. Dunford spoke of the manner in which the flag is treated and gave her listeners a tiny sermon by relating the speech that might be made by the flag, if it could talk and could protest against being hung by the heels or the head and displayed so often upside down, making it a signal of distress rather than a symbol of rejoicing. The flag, she said, should never be allowed to touch the ground or the deck of a ship; it should not be dragged in the water or in the dust nor used as a drape or tablecloth. When the colors are on parade, passers-by should stop and stand at attention and people within doors should rise.

Grasp the flag in the left hand, at the top, and drape the folds towards the right, and the emblem will then be in the right position said the speaker.

A very appreciative vote of thanks for an informative and interesting talk, was moved by Mrs. E. Wand and seconded by Mrs. G. Nelson.

Ennismore

Among those from a distance who attended the funeral of the late John Joseph Young were Mr. and Mrs. James Kearney, Mr. J. J. Duffus, Mr. R. Carson, of Peterborough; Mr. and Mrs. William Young and daughter Angelica, Mrs. F. Hogan, Messrs. Michael, Leo and Thomas Whibbs, of Douro; Mr. and Mrs. G. Whibbs o. Indian River and Mr. D. O'Leary, of Downeyville.

Mr. Edgar Kearns attended the Toronto Exhibition on Saturday.

Mr. Jerry Sheedy is visiting Mr. and Mrs. C. Milheron of Toronto.

Mr. and Mrs. Frank Cavanagh spent Sunday with the latter's mother Mrs. E. Herlihy, of Downeyville.

Mrs. J. Nelson left on Wednesday for two weeks' visit with friends in Detroit.

Mrs. F. Kearns, of Toronto spent a few days recently with Mr. and Mrs. P. McAuliffe.

UNDER THE GOVT'S EYE.

NEW YORK, N.Y., Sept. 18 (C.P.)—The operation of an outlaw radio sending station communicating daily with Russian code has been under Federal and police investigation for six months, it was learned to-day.

Police said the station was located in mid-Manhattan, but moved when authorities learned its location. It was permitted to continue operation in its new place, the code messages being copied and it is understood decoded.

Express package service has just been inaugurated by Italian railways.

It *can't* be "just like Kotex"

Kotex protects *health* as well as comfort

PLEASE don't ever think a sanitary pad is "just like Kotex" because it looks the same. You need more than surface resemblance.

You need the purity of Kotex. Your health requires its hygienic safety. Its care in making. Kotex is machine packed and hygienically sealed in dust-proof packages.

No sanitary protection that fails to meet these standards should ever be considered. You know Kotex is safe. You know hospitals use it.

Be Assured

This assurance of safety is beyond price. Don't give it up for the sake of a few pennies, when this saving means you must take some questionable substitute of whose makers you know nothing. Kotex assures every comfort.

Wear on Either Side...
1. Can be worn on either side with equal comfort. No embarrassment. Inconspicuous.
2. Kotex is soft... Even the gauze is specially treated to make it amazingly soft.
3. The Kotex absorbent is the identical material used by surgeons in Canada's leading hospitals.
4. Disposable, instantly, completely.

Amazing softness, that *lasts*. Scientific shaping, for comfort and inconspicuous lines. Easy disposability.

HE BORROWED A GUN TO USE AT WEDDING

Irishman Wanted Fireworks, But the Law Made Him Pay

Major Gorman, district-inspector, prosecuted Charles M'Farland, Leardin, at Omagh petty sessions for having in his possession a single-barrel breech-loading gun without a permit, and also for giving the loan of the gun to John Knox, Leardin, who had no authority to carry it. Knox was also prosecuted for having the gun in his possession without a permit.

The defendant, M'Farland, said he was a member of the "B" special constabulary and formerly had a permit for the gun, but it had lapsed.

Knox said he borrowed the gun from M'Farland on the occasion of the marriage of his sister-in-law, and had used it in connection with the wedding celebrations.

The court fined M'Farland 5s in each case and Knox 10s

The New Facial that Lifts and "Youthifies"
IN A DAY
Marchford Magnesia Takes Years from your Age in 24 Hours

Magnesia Masque embodies the scientific application of the newer knowledge of Magnesia. Applied at bedtime tonight according to the simple directions which accompany every bottle, it sinks almost instantly pore-deep into the skin, absorbing hidden impurities, acids and surplus oil. Dead scaly cuticle is also softened and absorbed. You massage gently with the finger tips for a few minutes and then rinse off—first with warm water then with cold.

In the morning you will be surprised to find how smooth and soft your face feels under your fingers. Again apply Magnesia Masque and massage gently for about three minutes, rinsing as before. You now have a perfect powder foundation upon which you may rely for the day. After the usual bedtime treatment that night, search your mirror for the tired lines and tell-tale wrinkles that worried you 24 hours before. You'll be surprised! Your face will look younger—years younger. Drooping lines will have lifted owing to the tightening effect which is one of the marvels of Magnesia Masque.

Continue its use regularly and blackheads, conspicuous pores, dead dry scales, oily shine, undue redness and all such flaws and blemishes gradually disappear, leaving a young healthy glowing skin with the color and charm of natural youth.

Try it To-night. Local Druggists can supply you. It is not expensive.

Keene Takes 16-5 Decision From Brintons

VISITORS HIT FOR 16 CLOUTS IN FIRST GAME

While Mary McCarthy Holds Opponents to Two Scattered Singles.

GIVEN GOOD SUPPORT.

Grace McCarthy and Verne Dickson Are Sluggers of the Game.

Keene's slugging softball aggregation wallopped their way to a decisive victory over the Brinton Girls last night at the East City Bowl when they uncorked one of the cleverest performances of the season to win a 16-5 verdict in the first game of the play-offs in the Girls' City and District Softball League before a noisy crowd of rooters who will see the two teams in action again on Saturday afternoon.

The visitors, whose never say die attitude has pulled them out of the cellar in the second half to a berth in the play-offs seem to be still riding the wave of enthusiasm which has characterized every one of their recent performances, and the battle last night certainly indicated that they have the edge in the play-offs. Mary McCarthy on the rubber zipped them across like a big leaguer and the best her opponents could secure was two scratchy singles. She fanned three and issued seven free trips while her teammates played heads-up ball during the greater part of the game.

Several Errors.

The Brintons to all appearances were up against one of those "off" periods as several of their most reliable fielders made some glaring errors on fairly easy chances and their pitcher, Marjorie Self, whose clever pitching sent the Sixth Line into the discard in the first half seemed no mystery to the Keenesters who plunked out sixteen solid clouts including a homer and two doubles. Olive Prest pitched the first innings and a half for the Carpetmakers and managed splendidly. She was yanked as soon as the regular arrived and finished the game at short stop.

Grace McCarthy led the visitors with the club, securing four singles in as many times up while Verna Dickson was next in line with a perfect home run and a single. Helen Nelson and Marjorie Brown each chalked up a single and a double while the latter staged the only double play of the game when she nabbed a grounder to tag a runner and cut the batter off at first.

NEWARK BEARS VIRTUALLY OUT

Drop All Chance of Gaining International Flag by Losing to Keys 9-4

HOMER FOR COHEN.

NEWARK, N.J., Sept. 18.—The Newark Bears were virtually eliminated from the International League race here yesterday afternoon, as they dropped a 9 to 4 tilt to the Reading Keys, to fall a game and a half behind the leaders, with only three games to go.

Newark now has to win all three games while Rochester loses the same number in order to lead the league. Two Rochester defeats in four remaining games while Newark won three would see the teams tied.

Manager Mamaux used four pitchers, including himself, to-day in a futile attempt to stop the hard-hitting Keys, while Charlie Willis went the route for the visitors, allowing twelve hits which he kept scattered. Andy Cohen drove in all Newark's runs with a homer and a single, the long blow coming in the sixth with two on base.

CHARITY SOCCER MATCH SATURDAY AFTERNOON

Scotsmen and Canadian General Meet in Semi-final of the Phelan Cup.

Saturday's soccer bill is an important charity match between the Caledonians and the Canadian General in the semi-final of the Father Phelan Charity Cup, which is considered one of the best pieces of silverware in possession of the P. and D. F. A. Kick-off is scheduled for 2.30 prompt. Referee J. C. Russell. Linesmen—D. McGregor and H. Harrington. Both teams are requested to supply a ball for the encounter. The game will be played on King Edward Park and all players must be at the pavilion no later than two o'clock.

All finances collected are handed over to the charitable institutions at the end of the season. Last year a creditable sum was handed over to the St. Vincent Orphanage and Children's Aid.

Caledonia team will be as follows: C. Griffin, goal; T. Craig and J. Campbell, full-backs; T. Reid, W. Robb and G. Blowers, halves; G. Clark, W. McCracken, W. Rankin, A. McPhate and J. Billingsley, forwards. Reserves, I. McPhate and S. Agnes.

Wrestling Last Night.

NEW YORK—Herb. Freeman, 220 New York, threw Fred Caroni, Italy 15:29; Gino Garibaldi, 211, Italy, threw Richard Stahl, 210, Germany 24:38; Sammy Stein 200 Newark, N.J., drew with Sandor Setabo, 204, Hungary (30 minute limit).

YANKEES GAIN SECOND PLACE; TIE SENATORS

Ruth Hits 41st and 42nd Homers as New Yorkers Win 17-0, 6-1.

PHILLIES BEAT REDS.

Bill Walker Holds Cardinals to Allow Giants 7-2 Victory.

(By Gayle Talbot, Associated Press Sports Writer.)

The Boston Red Sox, both individually and collectively, are giving the home town fans something to talk about in the waning days of the 1931 campaign. First, they pulled out of the American League cellar two days ago, and then, yesterday, one of their number set up a brand new record for two-baggers in a season.

When Earl Webb, crack right fielder, hit his 65th double off Jablonowski of Cleveland in the second half of a double-header, he passed the all-time mark of 64 set in 1926 by George Burns, Cleveland first baseman. He had tied the former record in the first game.

In his successful effort to pass Burns' great mark, Webb has been a two-base specialist in recent weeks, stretching every possible hit to the middle cushion and going past that bag for nothing less than a home run. He has made only three triples all season, but has 14 home runs to his credit.

Webb's first double of the day helped the Sox beat Cleveland 9 to 2, in the opener, but his record-breaker could not avert a 2 to 1 defeat in the nightcap. Johnny Hodapp's single in the ninth with the bases full gave the Indians the winning run off Milt Gaston. Jablonowski kept seven Boston hits widely scattered.

The New York Yankees and the Washington Senators meanwhile became involved in a hot fight for second place in the American League, the Yanks climbing into a tie for the coveted position by beating St. Louis twice while Washington was dropping its opener to Detroit.

Charlie Ruffing and Bill Dickey co-starred to give the Yanks a 17 to 0 victory in their first game, Ruffing allowing nine well spaced hits and Dickey leading the offence with a pair of home runs that drove in seven. Vernon Gomez, rookie left hander, yielded only three hits in the nightcap, and this time Babe Ruth parked a pair, his 41st and 42nd of the year, to give the Yankees a 6 to 1 victory.

Art Herring pitched Detroit to a 3 to 1 win over the Senators, blanking them until the ninth inning. Jonathan Stone socked a home run for the Tigers. Rain held the Chicago White Sox idle at Philadelphia.

Chicago and Brooklyn locked horns in the day's feature bout in the National league, the Cubs finally pushing across the winning run in the last of the ninth after the Robins had scored twice to tie it in their half. The score was 4 to 3 and gave the Hornsbymen their eight straight victory. Danny Taylor's single drove in the deciding run off Thurston.

The veteran Tom Zachary allowed only five hits as the Boston Braves downed Pittsburgh, 1 to 0, in the first game of a twin bill, but the Pirates came back to take the second, 4 to 2, behind Glenn Spencer. Bill Harris, Pirate recruit, was handed his first defeat in three starts in the opener he has allowed only two runs in 27 innings.

No less a star than Paul Derringer was knocked from the hill as the New York Giants inaugurated their final series at St. Louis with a 7 to 2 victory. Mel Ott supplied the money punch in the fifth inning, his 29th homerun of the year with two on base. Bill Walker went the distance for the Giants, holding the league champions to six hits.

The Phils broke a 10-game losing streak when they beat Cincinnati, 8 to 3. Les Mallon led the attack on three Red pitchers with three singles.

INDOOR LOOP IS ORGANIZED

Two Sections Intermediate and Senior Will Make Up Lakefield League.

PLAY IN ARENA.

LAKEFIELD, Sept. 18—(Examiner Correspondence).—There will be a game of softball played in the rink on Friday evening of this week with no admission charge whatever. The Cubs and the Business Men will play one of their famous games which always rouses keen local interest. The game will begin at 7.30.

The Softball League will open on Friday, September 25th, with an intermediate and senior game played each night. Five teams have entered the former, Lakefield Cubs, Lakefield Business Men, Warsaw, Selwyn and Bridgenorth.

Five Peterborough teams constitute the senior section, Sugar Bowl, City Service, Deck's, Canucks and Dominion Woollens.

There will be a silver cup for each section donated by the Athletic Association of the Canada Cement Co. who are sponsoring the league as they did last season.

YESTERDAY'S STARS

Babe Ruth, Bill Dickey, Yankees—Two homers apiece in double victory over Browns, former bringing the season's total to 42, the latter driving in seven of 17 runs in the first game.

Tom Zachary, Braves, and Glen Spencer, Pirates — Zachary outpitched Bill Harris, giving five hits to win the opener 1-0. Spencer gave Pittsburgh even break by winning the second game 4-2.

Jonathan Stone, Tigers — Hit a home run with one on to provide the winning margin in 3-1 victory over the Senators.

Bill Walker, Giants — Held the Cards to six hits to win 6-2.

Earl Webb, Red Sox, and Pete Abolonowski, Indians — Webb set a new major league mark of 65 doubles with one in each game against Cleveland; Jablonowski outpitched Milt Gaston in second game to give the Indians an even break.

Les Mallon, Phillies — made three hits to lead in 8-3 victory over the Reds.

Danny Daylor, Cubs — Singled in ninth to drive in English with the run that beat Brooklyn 4-3.

ROWE'S ENTRY COPS VICTORY IN 2.27 CLASS

St. Charles and Marion Direct Rank Second and Third in Same Race.

CLOSELY CONTESTED.

Two "Set-backs" Handed Out By Judges in the Second Race.

Fast heats featured the two harness-horse races run off at the Exhibition yesterday afternoon. With a fast track and fair weather, a large crowd remained in the stands until the final heat was over, and the winners announced.

Beeton Grattan, owned by Earl Rowe, took first money in the 2.27 class, and A. L. Chamber's horse, Lou Ganot won the 2.18 pace. Six hundred dollars was divided by the four winners in each class, and every heat was keenly contested. The 2.18 race, in particular was marked by neck-and-neck finishes, and twice the winner of a heat was set back by the judges for fouling.

Starting the 2.27 pace, Beeton Grattan edged out Lou Bennett's Port Hope entry, St. Charles, with Goldie Patch showing and Marion Direct finishing fourth. In the second heat, the same horse came in ahead and Marion Direct moved up to finish next. Goldie Patch was again third and the Bowmanville pacer, Bert Abdell was fourth. The final heat was run by seven horses, Frisco May being scratched. Beeton Grattan took this one also, and St. Charles placed. Goldie Patch was third and Art Johnston's Amardale was fourth.

Beeton Grattan took first money, St. Charles was next, Marion Direct was third and Goldie Patch was fourth. Good time was made in the heats, the first especially. It was 2.17½, with the second one run off in 2.20¼ and the final one being 2.19¼.

Closely Contested.

Six started in the second race, the 2.18 class, with Dick Sunday being scratched after the third heat. Lou Ganot, owned by A. L. Chambers of Milton, was well out in front for the first, with Bud Wenger, the R. Walsh Hastings' entry next. Jim Akey's Furie Mildred finished third, and Merry Direct, owned by W. Peacock of Lakefield, was fourth.

In the second heat, the winner, Lou Ganot, was set back by the judges for cutting in on Merry Direct at the three-quarter mark. This gave the heat to Bud Wenger, with C. Fife's Keenedale second, Dick Sunday third and Furie Mildred fourth.

The third heat resulted in the setting back of another horse, Bud Wenger this time for carrying Lou Ganot over toward the fence in the stretch. Lou Ganot was given first place, Keenedale second, Furie Mildred third and Dick Sunday fourth.

Takes The Lead.

The fourth and final heat saw them get away to a good start and cover the first half bunched. Then Lou Ganot moved up to come down in front again, with Keenedale right behind, Furie Mildred next and Merry Direct fourth.

The winners on the race were Lou Ganot first, Bud Wenger second, Keenedale third and Furie Mildred fourth. The time, which was exceptionally fast in the second and third heat was 2.14, 2.11¼, 2.11½ and 2.14.

This is how they finished. In the 2.27 class:

Beeton Grattan, Earl Rowe of Newton Robinson	1	1	1
St. Charles, Lou Bennett of Port Hope	2	5	2
Marion Direct, E. Redman of Peterborough	4	2	7
Goldie Patch, Herb McNeil of Janetville	3	3	3
Bert Abdell, Mr. Hicks of Bowmanville	6	4	5
Cacus Star, A. Elmhurst of Indian River	5	6	5
Amardale, Art Johnston of Peterborough	7	7	4

In the 2.18 class:

Lou Ganot, A. L. Chambers of Milton	1	6	1
Bud Wenger, R. Walsh of Hastings	2	1	6
Keenedale, C. Fife of Peterborough	3	4	3
Furie Mildred, Jim Akey of Peterborough	3	4	3
Merry Direct, W. Peacock of Lakefield	4	5	5

THE TURF

BELMONT PARK, L.I., N.Y.

First race—Tancred, Brown Admiral, Gigantic.
Second race — Drapeau, Creek Huffy.
Third race — Faireno, Pompeius, Cambal.
Fourth race — Billy Blake, Minus One, Boris.
Fifth race—Snapback, The Crane, Stimulator.
Sixth race — Pilate, Single Star, The Heathen.

LINCOLN FIELDS, CHICAGO, ILL.

First race — Shaker Lady, Marlen, Seina.
Second race— Sultor, Don Alvaro, Thomas Seth.
Third race — Dolly's Baby, Puppet, Annitas.
Fourth race — Kinchen, Sister Mary, Seguro.
Fifth race — Flying Cherokee, Stop Gap, Roy.

THORNCLIFFE PARK, TORONTO, ONT.

First race — Jalper, Dais, Little Turkey.
Second race — Roseman, Royal Festival, McCrimmon.
Third race — Saints' Fancy, Tea Gown, Abduction.
Fourth race—Refiner, Milestone, Brave Allanzo.
Fifth race — French Lass, Solace, Bud Broom.
Sixth race — Schooner, Black Cloud, Voltear.
Seventh race — Homelike, Nick Cullop, Marcella.

Norwood-Maroons Play On Saturday

CAMPBELLFORD, September 18 (Examiner Staff Correspondence).—An exhibition game of box lacrosse will be staged in the Norwood Arena on Saturday evening between the Campbellford outfit and the Combines. This game should draw a large crowd, as both teams know the game and will put up a fine display of lacrosse. It is expected that a schedule of the Inter-County Box Lacrosse League will soon be drawn up. This league at present consists of Norwood Combines, Madoc, Campbellford Tigers, and the Campbellford Marcons.

"Young" Terry Wins From Jackie Fields

NEW YORK, N.Y., Sept. 18—(C.P.)—Jackie Fields of Los Angeles has run into a serious setback right at the start of his projected campaign to add the middleweight championship to the welterweight title he once held and "Young" Terry, the husky youngster from Trenton, N.J., is one step nearer title contendership in the same class.

Facing Terry in his first bout since he broke a hand last January, Fields took an artistic walloping for seven rounds at Madison Square Garden last night and only a late rally kept him from being completely overwhelmed. Scaling 150 pounds, Fields was outweighed 3½ pounds.

CARTER REPORTS ON QUEEN'S GRID

Star Kicking Half Features Drill With Foot and Arm Work.

KINGSTON, Sept. 18.—Arrival of Howard Carter, premier kicking half back of the Intercollegiate, featured the workout of the Queen's rugby squad at the Richardson Stadium yesterday afternoon, along with several other Tri-color stars, and the briskest practice of the season was held.

Carter reported only slightly overweight, and lost no time getting into uniform. The star booter soon showed the railbirds he can kick as well as he ever did, while his throwing of the ball was good. Bob Ralph and Bill Glass, outside wings, arrived yesterday from Hamilton, and immediately got into the moleskins. Both boys are out to grab the regular position vacated by "Oot" Gourley and Art Dediana, and will put up a hard battle for the places.

"Barney" Reist, who subbed at flying wing, showed up yesterday, and immediately showed he is apparently in mid-season form. Others to report were H. T. Davoud, a brother of Paul Davour, star halfback of the R.M.C., Intermediate Dominion champions, and Albert Micks, a husky second-year student.

OFFICERS ELECTED FOR CARPET LOOP

Some of Rules Changed at Annual Meeting of Carpet Ball League.

The annual meeting of the City Carpet Ball League, held at the W.O.W. Hall, was well attended and the enthusiasm displayed by all present indicates a big winter ahead in this sport. After the minutes and the financial reports were read, it was found the league had broken even last year.

W. Dummitt occupied the chair during the election of officers. C. W. Wiggins was for the fourth year elected president; F. Parsons, vice-president, and G. Groombridge again secretary-treasurer.

The following were elected on the Appeal and Finance Committee: W. Harrington of St. George's; H. Lucas of All Saints; C. Wood of the S.O.E.; W. Dimmitt of the W.O.W.; F. Mason of the A.O.F.; F. Roberts of the Moose; and A. Jackson of the Caledonians.

A few rules were changed, the chief of these being: First, that at the end of the 10th frame, if teams are tied, one point shall be taken by each team. Second, That all carpets be regulation side, 32 feet over all, 26 feet from kitty to kitty. Third, That teams shall consists of four or five men; no team playing scheduled games will be allowed to use less than three; four men constitute a rink.

Wednesday night, Sept. 23, was decided as the night on which applications for membership are to be handed in. All teams desiring to enter are requested to give names and addresses of members of the team and the club represented at the W.O.W. hall at eight o'clock. A vote of thanks was extended for the use of the Woodmen's Hall.

CANADIENS CLIMB BY BEATING LEAFS

Near Second Place Maroons in Professional Box Lacrosse.

MONTREAL, Sept. 18 (C.P.)—Montreal Canadiens jumped back into serious contention for second place in the International Professional Lacrosse League last night by defeating the league-leading Toronto Maple Leafs, 6 goals to 4. Canadiens are now two points behind the second place Montreal Maroons but have a game in hand over their local rivals.

British Films Good In Australia's View

LONDON, September 18.—(C.P.) British films are higher in popularity in Australia at present than ever before, according to the Melbourne correspondent of The Times, who states that British producers have captured an important part of the Australian market. Whether they retain it will depend very largely on whatever efforts they may be making now to develop a technique of the sound film akin to that which is being shaped in the United States and on the continent of Europe.

English companies have had to overcome prejudice which for a time seemed to be insuperable. By skill in light comedy and several happy accidents they have reached a position in which their films command the longest of the "long runs" at the best theatres. But competitors are active. British producers will have to bestir themselves if they are to keep what they have gained.

As recently as two years ago the announcement that a film was British was sufficient to keep people out of Australian picture theatres. English silent films had become notorious for bad lighting, crude settings and poor photography. Popular taste, which is by no means exacting, rebelled. Distributors of English films were probably hindered rather than helped by appeals to patriotic sentiment. Those people who went to see British films felt that they were performing a necessary but painful duty. English films, however, seldom reached the better theatres.

With the coming of talking films and the announcement that the British film industry was being reorganized, both in its methods of production in England and its system of distribution in Australia picture-goers were willing to concede producers another chance. Even the English "Talkies" were slow in coming. As it proved, that was fortunate. By the time the first British films were shown audiences had become bored by the "backstage" films which Hollywood was then making with such monotonous regularity, and the American accent had lost its novelty and was beginning to pall. A contrast was welcomed both by exhibitors and by audiences. Happily the first films fulfilled expectations. The system of distribution has been reorganized and British films are being given publicity in which for many years they were lacking.

Major League Leaders

(Including games of Sept. 17.)

AMERICAN LEAGUE.

Batting — Simmons, Athletics .381; Ruth, Yankees .375.

Runs — Gehrig, Yankees 155; Ruth, Yankees 139.

Runs Batted In—Gehrig, Yankees 174; Ruth, Yankees 149.

Hits—Gehrig, Yankees 200; Averill, Indians 194.

Doubles—Webb, Red Sox 200; Alexander, Tigers 44.

Triples—Johnson, Tigers 19; Reynolds and Blue White Sox 14.

Home Runs—Gehrig, Yankees 44; Ruth, Yankees 42.

Triples— Terry, Giants 20; Herman, Robins 16.

Home Runs— Klein, Phillies 31; Ott, Giants 29.

Stolen Bases— Frisch, Cardinals 27; Martin, Cardinals 17.

Pitching—Haines, Cardinals, won 11, lost 3; Derringer, Cardinals won 17, lost 7.

YANKS WILL SPEND A MILLION TO GET PHILADEPHIA STARS

Quaker City, With No Sunday Baseball, Cannot Pay High Salaries.

MACK IS SILENT.

By FRANK TURBYVILLE

BALTIMORE, Sept. 18 (Special to The Examiner)—Baseball fans of Philadelphia may soon be suffering from the after-effects of last winter's legislation.

For last winter's legislation failed to pass a Sunday baseball law and as a result, it is feared that the Quaker city will no longer be able to hold some of the game's greatest stars.

Pennant-Hungry.

The Cubs and Giants of the National League, and the Yankees of the American, are so pennant-hungry that a million dollars is available to the owners of the big league clubs in Philadelphia if they will part with the contracts of some of their biggest stars.

The Cubs are believed to have the inside track already in the purchase of Chuck Klein. A sum of money sufficient to lessen the unemployment situation in a fair-sized city will be passed on to the Phillies, it is believed. And in addition Hack Wilson may be thrown in for good measure.

The Phils can't pay Chuck a salary in keeping with his deeds, and besides, the offers of the Cubs and Giants are very alluring.

No doubt, the amount of cash available for Klein's purchase is huge—enough to provide a fine year's dividend. Then, too, the owners of the Phils will be gambling with the chance that Hack Wilson may stage a comeback next year. And if Hack could stage a complete comeback, the fans of Philadelphia wouldn't even miss Klein.

Right now however, Klein is being paid about one-third of what Wilson is being paid. And on performance it should be just the other way around.

Had Hack earned his $35,000 this year the Cubs might be out in front instead of the Cards.

Add Klein to either the Cubs or the Giants and they would be in a fine position to win next year.

Guessing About A's

Klein's departure from Philadelphia seems almost certain. But in the case of the A's Connie Mack has them guessing.

The writer has right along contended that Mack would not tear down but would build even more securely with added talent. However, the writer's opinion in this case seems to be a minority opinion. Big league baseball men in great numbers believed that Mack will dispose of a few of his stars.

If this is done it will be done some time after this year's world series games are history. And if it is done you are likely to miss seeing it in front, for it will be big news and commanding a big head.

If Mack does some dismantling who will go? His greatest stars are Simmons, Cochrane, Grove and Earnshaw. The season of 1931 hasn't been a Jimmy Foxx year, but Jimmy is quite a valuable piece of property, just the same.

These are the five men who would command the biggest part of a million dollars.

Next to them Haas, perhaps, would be in demand. Then Walberg.

There would be no exciting bidding for the rest of the veterans. Dykes, Boley, Bishop and Miller are stars, but are getting along in years and have been a bit brittle this season.

And the youngsters of the A's do not stand out above the youngsters of other big league clubs.

May Buy Shires

If Mack tears down he must replace the parts with new ball players and he hasn't been doing any great amount of buying. That one point does not lend strength to the assumption that he will sell his big men.

He might sell Bishop and Boley and use Williams and McNair in their place. He might sell Dykes and put Foxx on third, and then buy Art Shires for first and confirm that rumor.

If he sold Grove and Earnshaw and depended on his remaining pitchers with what he might pick up over the winter, he'd have perhaps the weakest pitching staff in the league.

But maybe he wouldn't worry about the future, if he decides to sell. Maybe he would step down and let someone else rebuild. That probably would be the best thing to do in such circumstances. If he sells out now, he probably won't last long enough to see another great club built up and patronage restored. For the fans certainly will quit his club if it is stripped of its stars. It is not their fault that Sunday baseball is illegal in Pennsylvania.

Manchester United have not startled the world with important captures during the close season, but the final practice revealed that they have made one distinct capture in Mann, a nippy outside-left from Grantham. If he gets what his display merits, Mann will walk into the league team to the exclusion of Hopkinson. Mann had a spell with Derby County, who, however, happened to be very well off for wing men, and a big recommendation is that he is happy on either flank.

Minard's Liniment Grows Hair.

Marvin Hart Will Be Buried Sunday

LOUISVILLE, Ky., Sept. 18. (CP) Funeral services for Marvin Hart, 55, claimant of the heavyweight boxing championship of the world, who died at his home in Fern Creek, a Louisville suburb, yesterday, have been set for Sunday afternoon.

Hart who defeated Jack Root, Reno, Nev., July 3, 1903, for what he claimed was the world heavyweight title, died after an illness of nine months. He was fifty-five years old day before yesterday.

Physicians said death was caused by high blood pressure and complications. His condition became grave several weeks ago and he had been unconscious several days before his death.

NEW RIFLE CLUB FORMED IN CITY

Percy Blade Elected President of the Peterborough Rifle Club.

PLAN PRIZE SHOOTS.

At a meeting held last night the Peterborough Rifle Club was formed, and Percy Blade, florist, was elected as president. Fowl and other prize shoots will be held throughout the winter, and target practice may be indulged in at any time. A small club house will be erected soon on J. McManus' property, seven miles from Peterborough.

Some twenty-five men have already joined this new club, and any person desirous of becoming a member may do so by applying to any member of the committee.

Officers elected are as follows: Secretary, D Clement, 177 Adeline street; Treasurer, J. Gillespie; Committee, P. Blade, W. A. Zeihr, James McGrath, T. H. Ashby

Softball Final On Saturday Afternoon

The girls' softball game at the East City Bowl to-morrow will be started at 1.15, in order that it won't interfere with the afternoon's entertainment at the Exhibition. It should be over by 2.30, giving fans time to get down to the Ex. for the vaudeville acts and the horse racing.

It is the second game of the play-offs between Keene and Brintons, with the country lasses one game up. The series for the league championship, is best three out of five games and the third contest is scheduled for 5.15 Monday evening. Both teams will be on hand early to-morrow afternoon, and the game will start at 1.15 sharp.

MERMAID QUEEN.

Did you ever stop to figure out that most of these Marathon swimming champions come of Teuton stock? Vierkoetter, Martha Norelius, and this year Margaret Ravior, among many. The breed seems to provide the tremendous endurance required for the body-and-soul-wracking competition of these long distance swims. Miss Ravior, who is one of the finest girls you could want to meet, drank during her training occasional glasses of ale, another old Teutonic custom. Incidentally she and George Young are linked by gossip as a possible swimming team for life. They both deny it naturally, but even that Broadway sage, Walter Winchell, reports it. Don't misunderstand me, but when I say that George would be getting a nice girl, I mean nice girl.

Gar Wood And Betty Carstairs

"SILVER FOX" WILLING TO RACE IN ENGLAND

Gar Wood and Miss Marion Carstairs, together in New York city when they talked over the recent incident at Detroit in which Gar Wood was represented as having deliberately enticed Kaye Don to be disqualified in the international races. Gar Wood again denied the incident and characterized it as a "misunderstanding." Miss Carstairs also denied any unsportsmanlike conduct on the part of Gar Wood. It is reported Wood has expressed himself willing to race Don in English waters.

SPORTS — Day by Day

SOCCER, BASEBALL, GOLFING
AQUATIC, SOFTBALL, TRACK

CASUAL COMMENT

Well Keene stepped out and grabbed themselves the first win in the girls' softball playoffs at the Bowl last night by the slightly onesided score of 16 to 5. Good hurling and man-sized clouting did the trick, M. McCarthy holding the erstwhile Brinton sluggers to just two....count 'em....singles, meanwhile her teammates slapping out only sixteen clouts.

• • • • • • •

They'll be a hard crew to stop now, but we wouldn't like to do any predicting yet, as those gals from the south end are liable to win three in a row. It's a funny game, with nothing being in the bag until the final out. The next battle will be Saturday afternoon at the Bowl, and there will likely be a real crowd for that one.

• • • • • • •

Verna Dickson does considerable rowing when she isn't playing ball, and the result is apparent when she leans the bat on one. She hoisted a clean homer to deep left in the third with one aboard. Grace McCarthy had four hits in as many trips to the plate to lead her team with the willow.

• • • • • • •

Beatrice Curtis, Brintons' leftfielder, went right smart in covering her territory, roping in five flies, some of them running catches. It was a nice evening's effort compared with some loose playing by the Carpetmakers' inner defence.

• • • • • • •

The crowd collected early for the game and they seemed to be mostly pulling for Keene, which is rather unusual with the Brintons being the local team. Maybe they like the scrappy country lasses for their uphill victories that put them in the finals.

• • • • • • •

With a stiff workout under their belts, Kinsmen Bantams are all set for their final game with Maple Leafs on Saturday. They'll play aat three o'clock at Stevenson Park, and with one win apiece in the series, this last game will be a close one, whichever way it goes.

• • • • • • •

The horse races at the Ex. are drawing big crowds, showing the "sport of kings" has plenty of followers here. Some pretty fast heats were run off yesterday on a lightning track, and several of the finishes had the crowd yelling plenty hard.

• • • • • • •

The Foster Athletic Club has signed a new trainer and coach combined. He is Jerry Coughlin, well-known Peterborough man in the sporting line, having handled several O.H.A. teams here, and the trainer of the H.N.S. Boxing Club when that club had some of the best scrappers in town in its gym.

• • • • • • •

Jerry is an old professional hockey player—and not so very old either—having played on two Stanley Cup teams before he quit the ice game. He will coach the Foster Juniors this winter, and the baseball team next summer, in the meantime handling the boxers in the fall and winter...

• • • • • • •

The F.A.A.C. is lucky in getting the services of a sportsman of Jerry's experience, as he is about the best one in town as an all-round coach for a club like this. He will be down there at seven this evening to look the boxers over and get a line on his material and the equipment necessary to get going right.

• • • • • • •

We understand the club is thinking of staging an amateur show within the next month, and after the workout this evening, a meeting of the executive will be called. All the officers and the boxers will likely be on hand this evening just to see what's doing, and to meet their new trainer.

FIGHTS LAST NIGHT

NEW YORK—Young Terry Trenton, N.J., outpointed Jackie Fields Los Angeles (10); Paulie Walker, Trenton, N.J., knocked out Vincent Hambrigh, Cincinnati (1); My Sullvian, St. Paul and Solly Kreiger, New York, drew (10).

MILWAUKEE — Angel Clivelle Porto Rico knocked out Tait Littman, Cudahy, Wis., (5); Gorillia Jones, Akron, O., stopped Clyde Chastain, Springfield, Mo., (6).

CHICAGO—Ray Trample Rockford, Ill., outpointed Joe Sharkey, Albion, Mich., (10).

MUNCIE, Ind.—Nick Ellenwood Ft. Wayne, Ind, outpointed Glenn Camp, Kewanee, Ill., (10).

FALL ATHLETICS OPEN AT R.M.C.

Freshmen Prospects in Rugby as Yet Indefinite—Soccer Started.

KINGSTON, Sept. 18 (Special to The Examiner).—Practises for rugby at the Royal Military College will start as soon as the weather is cool enough. An exhibition game with the Senior Intercollegiate team of McGill University will be played in Montreal on October 3. Freshmen prospects are as yet indefinite, and no idea of the players available can be formed until practices start. R.M.C. will enter a team in the Intercollegiate Golf meet, which is being held at the Cataraqui Golf and Country Club course this year. The golfers at the college are coached by Major R. L. Fortt.

Professor W. Ogle, a new appointee, will coach the soccer team which has already started practice. The College will probably enter a team in the City League as usual, and the Cadet team should provide strong opposition. There will also be a cadet tennis team entered in the Intercollegiate Tennis Meet, which will be played off at Queen's University courts on Oct. 22, 23 and 24.

Bowling Notes

Two or three evenings play will complete the play in the club doubles schedule at the Peterborough Lawn Bowling Club. Although it is getting late in the season the greens are almost as well filled these nights as during the height of the season, it being necessary to use both greens practically every night. The games played last evening resulted as follows:

G. Cairns won from G. East; J. Sedgewick won from R. Hendry; W. Wood won from G. Coleman, Sr; R. J. Martin won from K. Sloane; G. Coleman, Jr. won from G. Hutchinson; C Taylor won from A. Brown; P. Sexsmith won from E. R. Disney; J. Harrison won from B. Loftus.

In addition to the foregoing games, the following games were won by default: E M. Wall from C. Seymour; Nelson Routley from J. MacDonald; R. Dyer from A. Barton.

The regular Friday night tournament will be played this evening.

Help Wanted

FOR THOSE LITTLE ODD JOBS - - - ?

Those little odd repair jobs that pop up around the home or office—the ones you "intend to fix myself" but somehow never find the time. Why not use the Help Wanted column of this newspaper's Want-Ad pages.

Here is a Want-Ad classification that will find just the repairman you'll need to put an A No. 1 finish to those little odd jobs.

Use the Help Wanted Column of the Examiner Want Ads.

STUBTAIL KEEPS HIS APPETITE

(By Thornton W. Burgess)

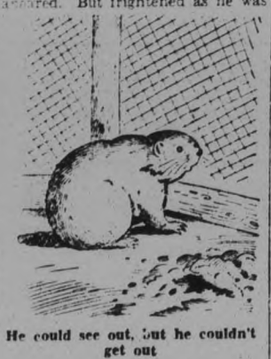
The world is never wholly black
To one who keeps his appetite
—Stubtail

Stubtail the Mountain Beaver was a prisoner. Yes, sir, he was a prisoner. There was no doubt about it. All unsuspecting, he had walked right into a trap that Farmer Brown's Boy had set for him. He never had had any experience with traps, for none had ever been set on that particular mountain slope where he had always lived. You see, Stubtail's fur is of little value to man, so no one ever had bothered to try to catch him. He had been a little suspicious of that queer wire thing, but it had seem to be so harmless and the food inside had been so tempting that he had hardly hesitated at all about entering it. Then there had been a sharp snap and a wire door had closed.

At the sound Stubtail had started back, but had promptly bumped his nose against the wire door. He couldn't understand it at all. He could see out, but he couldn't get out. He tried and tried. He used his sharp teeth on those wires which looked like thin sticks that it would be mere play to bite through. It was one of the greatest surprises of his whole life when he found that he couldn't bite them and merely hurt his teeth. Then he became frantic and struggled until he was exhausted.

After her first fright Mrs. Stubtail timidly aproached and she, too, tried to bite through those hateful wires. Of course, it was useless. She remained close by all night, trying to comfort him, but with the coming of daylight, sadly she left him and sought the safety of home under ground. So she was not on hand when Farmer Brown's Boy arrived and triumphantly picked up the trap and Stubtail and carried them off to camp. Only when she peeped out later in the day to see if Stubtail was still there did she know that he had disappeared; how he couldn't even guess.

So, while little Mrs. Stubtail mourned for him and was frightened by the mystery of his disappearance and feared to put foot outside even when the blessed darkness came again, Stubtail was having the strangest adventure of his whole life. Naturally he was very timid, but this does not mean that he was a coward. No, indeed. Timid folk are sometimes the bravest when it comes to real courage. Stubtail thought he had been frightened before, but all previous frights were as nothing compared with the fright he got when Farmer Brown's Boy appeared. But frightened as he was



He could see out, but he couldn't get out

he showed a brave front.

"I won't let him know I am afraid. No, sir, I won't," he kept saying to himself, and ground his teeth and growled and snapped at Farmer Brown's Boy and tried to look very fierce. He tried to make the latter afraid and in doing so hide his own fear.

"You plucky little rascal!" exclaimed Farmer Brown's Boy as Stubtail tried to bite him. "I've been told that you are one of the most timid animals in the mountains and here you are trying to make me believe that you are fierce and unfraid. Now stop your growling and biting, for you don't fool me a bit. I'm not going to hurt you, and by and by I'll take you back home and let you go again. I just want to get acquainted. How about a bite to eat?"

Of course, Stubtail didn't understand a word of this, but he did understand the meaning of food when he saw it, and there wasn't the least thing in the world the matter with his appetite.

"It is hard to fight on an empty stomach," thought Stubtail. "Food means strength. My, that looks good. It is bad enough to be scared but to be scared and hungry too is worse."

Without any hesitation he reached out and took what Farmer Brown's Boy offered him and two minutes later was eating as freely and with as much enjoyment as if he were back home with Mrs. Stubtail.

What To-day Means To You

"VIRGO"

If September 18th is your birthday, the best hours for you on this date are from 10.15 a.m. to 12.30 p.m., from 3 p.m. to 4.45 p.m., and from 9 p.m. to 11 p.m. The danger hours are from 1 p.m. to 2.45 p.m., and from 6 p.m. to 8 p.m.

The planetary configuration of September 18th indicates an opportunity for travel and advancement of business interests, although there is some danger of underhand dealing on the part of associates to be aprehended. A revival of old friendships is denoted; social activities promise success.

Children born on this September 18th will be studious, industrious and painstaking. As they develop, these early tendencies will be accentuated, and an exceptional degree of good fortune is assured them, unless, before making good, they get tied up in love entanglements, of which there is a strong indication.

You, if born on September 18th, have a peculiar temperament, and one that is difficult to comprehend or diagnose. Your methods are not frank and open. You work very much in secret, and are never happier than when engaged in some intrigue. There is nothing dishonest about your actions. What, however, another can obtain by above-board means, you only secure by secretive and baffling ways. You are always afraid to let your left hand know what your right hand does.

You are a fatalist, and, no matter what happens, find consolation in the belief that it cannot be helped. You forget that, as Luculus says, "we are our own Fates: our own acts are our doomsmen." You crave power, not that which brings you notoriety, but that which enables you to "pull wires" in secret.

Your nature is not a very kind one. You are inclined to be hard and cold and this militates against you, especially in social circles. Notwithstanding—or because of—the sternness of your character, you are loyal and sincere to those whom you favor. Your ambition is liable to become a tyrannical master, and make of you a megalomaniac. In the home, you will never find real happiness unless you are "It"—with a capital I. You will never be willing to act as a partner; you must be the whole show.

POST TRANSFER BEING DELAYED

Mounties Stay at Bache in Far North Hoping to Find Scientist Kreuger.

LOST SINCE MARCH 1930.

SYDNEY, N.S., September 18 (C.P.). — Because the authorities feel there is still a faint hope of finding alive the German scientist Kreuger, missing since the spring of 1930 in the wilds of Axel Heiberg Land, they have deferred for another year the proposed transfer of the Royal Canadian Mounted Police post from Bache Peninsula to Crag Harbor, according to word brought back by the steamship Beothic, which arrived from the north to-day.

In 1929 Kreuger left Robertson Bay, North Greenland, tracing certain geological formations which occur in Scotland, and which he believed extended through Greenland and over into the Canadian archipelago. He had one Eskimo and one Greenlander with him, and from the police post at Bache, which he left in March, 1930, he was accompanied by two Bache natives who turned back after 150 miles, at a place called Depot Point.

They reported that Kreuger was then in poor health and had already encountered difficulties which had made it necessary to eat some sled dogs, but he persisted in keeping on.

The search will continue for another year and the Bache post will be occupied by Corporal Stalworth, and Constables Peter Hamilton and John Munro of the R.C.M.P.

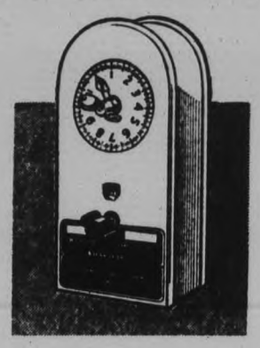
It's the Time Clock that gives you Leisure...


but..... it's GAS that gives you Economical Cooking

THRIFTY women now cook with gas, the economical fuel. It costs less than any other fuel and gives a faster, more dependable cooking heat. But it's not only gas, the fuel, that makes cooking economical; the range itself is built for cooking at unusually low cost. The insulated walls of the oven prevent heat escaping to make the kitchen uncomfortable, and they enable you to use *all* the heat in cooking richer flavored food.

1931 gas ranges have *every* modern cooking convenience. Do you know that you can now buy a gas range with a time clock that will turn the gas on and off while you are out of the kitchen? In addition to the clock and insulated oven you can have a thermostat, automatic lighter and concealed manifold. Stop in at our store or your local dealer's and see these new features. Ask about the easy monthly budget plan.

HOLSTEIN CLASS HAS 12 ENTRIES

Twelve Yearling Heifers Entered Alone in One Section of Cattle.

BRETHEN IS JUDGE.

Judging of the dairy cattle at the Exhibition continued Friday morning in the Jerseys and Ayrshire classes with large entries in both.

Arthur Brethen of Norwood was judge of the Holsteins on Thursday. The competitive feature of this class may be illustrated by the fact that there were twelve entries in the yearling heifer group. The breeders were James Seymour and Son of Cavan township; D. Murphy and Sons of Lindsay; Joseph and Fred Mann of Smith. W. A. Anderson of Otonabee; S. M. Comrie of Otonabee; Chas. E. Moore of Smith; Harold Archer of Smith; Ralph Scott of Smith.

Ralph Scott and Harold Archer are members of the Holstein Heifer Club.

The awards were as follows:

Holstein-Fresian Cattle

Bull, 3 yrs. old and over—1 D Murphy & Sons, Lindsay; 2 Jas. Seymour & Sons; 3, Jos. and Fred Mann, R.R. 4, Peterborough; 4, C E. Moore.

Bull 2 yrs.—1, W. A. Anderson Otonabee.

Bull 1 yr.—1, Sam Comrie, Otonabee; 2, Jas. Seymour & Sons; 3 C. E. Moore; 4, C. E. Moore.

Bull calf, senior—1, C. E. Moore, 2, D. Murphy & Sons; 3 Jas. Seymour & Sons; 4, Harold Archer, R.R. 2, Peterborough.

Bull calf jr.—1, D. Murphy & Sons; 2 and 3, W. A. Anderson; 4, D. Murphy & Sons.

Cow 3 years and over, in milk—1, D. Murphy & Sons; 2. C. E. Moore; 3, Jos. and Fred Mann.

Cow, 3 yrs. and over—1 and 2, D. Murphy & Sons; 3, Sam Comrie; 4, J. and F. Mann.

Heifer, 2 yrs. and under 3—1 and 2, W. A Anderson; 3 Jas. Seymour & Sons; 4 D. Murphy & Sons.

Heifer, 1 yr. and under 2—1 and 3, D. Murphy & Sons; 2, Jas. Seymour & Sons; 4, Ralph Scott, Smith township

Heifer calf, sr.—1, D. Murphy & Sons; 2 3 and 4, Jas. Seymour & Sons.

Heifer calf, jr.—1, D. Murphy & Sons; 2, C. E. Moore; 3, Harold Archer, Smith; 4, Jas. Seymour & Sons.

Senior herd—1, D. Murphy & Sons; 2, Jas. Seymour & Sons; 3, J. and F. Mann; 4 W. A. Anderson.

Junior herd—1, D. Murphy & Sons; 2, Jas. Seymour & Sons; 3, D. Murphy & Sons; 4, C. E. Moore.

Best 2 animals, progeny of 1 cow 1, W. A. Anderson; 2 and 4, Jas. Seymour & Sons; 3, C. E. Moore.

Herd of 1 male and 3 females, open to county and Cavan, Emily and S. Monaghan—1. Jas. Seymour & Sons; 2, J. and F. Mann; 3 James Seymour & Sons; 4, S. M. Comrie.

Champion male—D. Murphy & Sons.

Champion female—D. Murphy & Sons.

The winners in the Peterborough County Holstein Heifer Club competition were announced this morning by J. B. Nelson, district representative of the Ontario Department of Agriculture.

This club was formed several years ago when a group of boys who are specially interested in the Holstein cattle all bought two year old heifers. In addition to this basic stock they now have yearlings and calves. The competition was confined to this Club, and is sponsored by the Exhibition Board, the Peterborough Holstein Breeders' Club, and also the provincial and federal departments of Agriculture. Most of the members are youths of Smith township with a few from Cavan and Otonabee.

The awards were as follows: Foundation or replacement cows: 1, Ralph Scott; 2, Gordon McGregor; 3, Ed. Bulmmer; 4, Don. Moore; 5 Carman Seymour (Cavan). Creditable awards: Gordon Stalker, Earl Petrie; Lloyd Stinson and George Middleton.

Yearling heifers—1, Ralph Scott; 2, Don Moore; 3, Ed. Bulmer; 4, Carman Seymour. Creditable awards: Lloyd Stinson; Geo. Middleton; Gordon McGregor.

Heifer calves—1, Gordon Stalker; 2, Carman Seymour; 3 G. Middleton; 4, D. Moore.

Bull calves—1, Don Moore; 2, Ed. Bulmer

Junior Stockmen's awards—1, Don Moore; 2, R. Scott; 3, G. Stalker; 4, Ed. Bulmer; 5, Elwood Dunford. Creditable awards: Gordon McGregor; G. Middleton; C. Seymour; Lloyd Stinson; Earl Petrie.

LIBERAL POLICY DISCUSSED BY PARTY AT SASKATCHEWAN

Far-reaching Farm Aid Moves Promised in Official Platform.

THREE STEPS PLANNED

REGINA, Sask., September 18.—(C. P.) — Substantial assistance for debt-ridden and weather-harrassed farmers is a prominent plank in the platform on which Saskatchewan's dethroned Liberals plan to seek a return to power. Resolutions passed at the summer convention, and just issued in official form, include resolutions on land tenure and weather-crop insurance, which are far-reaching in scope.

If and when the Liberals who ruled Saskatchewan until their overthrow at the polls in 1929, are sent back into control of the province's government, they promise to "make a complete survey of the relations prevailing between the creditor and debtor with a view to readjusting indebtedness both with regard to principal and interest in such a manner as to assure the debtor farmers the opportunity to meet their indebtedness."

In view of the serious crop situation in Saskatchewan, and the low price for grain, particular interest centres on the stand taken by the Liberal party, which commands the largest group in the Legislature. Attitude of the various political groups in the province are the focus of pronounced attention, although Premier J. T. M. Anderson, Conservative head of the Co-operative government, has stated that no election will be held until 1933 at least.

Three steps must be taken while the proposed creditor-debtor survey is pending, according to the aproved Liberal resolution. These are:

(1) To keep municipal and provincial taxes down to the minimum essential to provide those services which lessen the cost of producing and marketing the products of the farm;

(2) To secure for the farmers of Saskatchewan interest rates as low as those which can be obtained in eastern Canada; and

(3) To set up and perpetuate an organization which understands agricultural needs and possibilities, and has the confidence of the creditors as well as the debtors and which shall be given the power to arrange final equitable adjustments under which their financial difficulties can be met without dispossessing the present owner.

Powers accorded the debt commissioner under the Debt Adjustment Act in Saskatchewan are not wide enough, according to opinions expressed at the convention of Liberals. The approved resolution would extend his influence as far as to give the commissioner or commissioners "power to arrange final equitable adjustments as between debtor and creditor."

Actuaries and statisticians of a number of insurance companies are understood to be giving serious consideration to another resolution regarding crop insurance, passed by the convention. The Liberal party, which confirmed James G. Gardiner as leader at its summer meet, is believed to be prepared to make a crop-insurance plan a government affair, if returned to power.

The official resolution on the matter stated: "The Liberal party pledges itself, as soon as it is returned to power, to appoint a special committee to fully investigate the feasibility of a system of crop or weather insurance applicable to the needs of the farming industry of this province, which will look toward reimbursing our farmers for the cost of producing their yearly output."

Sheffield Wednesday's efforts to raise sufficient money to compensate their unfortunate half-back, William Marsden, whose injury in Berlin has put him out of the game, are bearing rich fruit. The football league management committee have sent a donation of £100. There is a widespread opinion that the Football Association, in whose service the playe met with his injury, dealt none too generously with him.

Burnley now realize that their international full-back, McCluggage, does not intend to play for them at the term, offered him, and they are keen to dispose of him at a fee of £1,000. McCluggage is, meanwhile, playing with Dundalk, but would jump at the chance to get back to English football.

Timetable Changes Effective Sunday, Sept. 27

Important changes in passenger train schedules will be made on September 27th.

TARZAN AND THE JEWELS OF OPAR NO. 83

(Metropolitan Newspaper Service) By Edgar Rice Burroughs

Copyright, 1930, by Edgar Rice Burroughs, Inc. All rights reserved.

At last Jane summoned courage to undertake the ordeal of continuing her journey through the jungle. Descending from the tree, she set out in a southerly direction, hoping to come by chance upon a roving band of the Waziri huntsmen. The day was half spent when there broke unexpectedly upon her startled ears the sound of a rifle shot not far ahead of her. As she paused to listen, the first shot was followed by another and another and another. What could it mean? She dared not advance nearer to see.

After listening for several minutes, she became convinced that no more than two or three rifles were engaged in the fight. As the shots ceased, she heard two men calling to each other in loud tones. Then there was a long silence which was finally broken by the stealthy padding of footfalls on the trail ahead of her. Then a man appeared in view backing toward her, a rifle ready in his hands, his eyes directed in careful watchfulness along the way that he had come. And almost instantly Jane Clayton recognised the man.

It was "M. Jules Frecoult" who so recently had been a guest in her home. She was on the point of calling to him in glad relief when she saw him leap aside and hide beside the trail. Scarcely had he done so than the figure of a white-robed Arab crept silently along the trail in pursuit. From her hiding place, Jane Clayton could see both men plainly. She recognised Achmet Zek as the leader of the band of ruffians who had raided her home and made her a prisoner. And she saw "Frecoult," the supposed friend and ally, raise his gun.

He took careful aim at the Arab. Her heart stood still and every power of her soul was directed upon a prayer for the accuracy of his aim. Achmet Zek paused in the middle of the trail. His tall figure presented a perfect target to the perfidious assassin. There was a sharp report, a puff of smoke and Achmet Zek pitched forward, face down, upon the ground. As Werper stepped out from the bush, he was startled by a glad cry from above him and was astounded as a woman dropped from a tree and toward him.

YOU CAN HAVE A BAD FIRE INDOORS

It isn't necessary to have your house burn in order to have an expensive blaze. You can have a hot fire in your furnace without anything burning but the fuel inside.

Take a quick inventory of your perishable household possessions and see how much money they represent.

Then protect yourself against their possible loss by fire by taking out ADEQUATE Fire Insurance on them.

This Insurance is very moderate in cost.

EXPLANATION IS BEING ORDERED

No Doctors Involved in Compensation Swindle to be Fired Without Hearing.

CHARGES REFUTED

TORONTO, Ont., Sept. 18. —(C.P.) — "The Workmen's Compensation Board has no intention of suspending the 20 doctors involved in the recently revealed compensation swindle until each doctor has appeared before the Board and has had opportunity to explain," declared Victor Sinclair, chairman of the Board.

Refuting charges that the Workmen's Compensation Board's factory inspection "had fallen down and that the Board was passing the buck" to the doctor, Mr. Sinclair said the Board did not employ factory inspectors.

"Factory inspectors are employed by the Government and the Accident Prevention Association," he said. The factories have been continually complaining they are subjected to two inspections but certainly our Board has nothing to do with it. The duties of this Board are to collect monies and to award compensation to injured workmen.

Mr. Sinclair stated that only one doctor had been "black-balled" by his Board for illegal practices during the last few years. He would not comment on what would happen if the 20 doctors involved in this case could not explain their actions.

Obituary

MRS. G. ALBERT TURNER

The funeral of the late Hetty F. Bennett, beloved wife of G. Albert Turner of Toronto, who died in Whitby on Wednesday will be held in Peterborough Saturday, September 19th at 2.30 Standard Time. It will be from the home of Mrs. G. W. Mulligan, 804 George Street, with interment in Little Lake cemetery.

MRS. HERBERT GREENHALGH.

The death occurred early this morning of Mrs. Herbert Greenhalgh, 100½ Stewart Street, in her 68th year. She was born in England, and had resided here about 20 years. Mrs. Greenhalgh is survived by five daughters: Mrs. G. Briggs of South Africa, Mrs. E. Jones of Toronto, Mrs. C. Scholey, Mrs. T. Littlefair and Mrs. F. Hopkins of Peterborough.

The funeral will take place on Saturday at 3.30 p.m. from her late residence, 100½ Stewart Street, to the Little Lake Cemetery. Rev. E. A. Moorehouse will conduct the services.

CROWN MISS PETERBORO

Saturday night's grand stand program will include the final stage of the "Miss Peterboro" contest and the "Baby Welfare Show" at 7.30 p.m. The crowning of "Miss Peterboro" with the announcement of the winner of this contest will add an attractive local feature that has been creating increasing interest as the Exhibition approaches the concluding day. Honors will also be paid to the Baby King and Baby Queen.

Exhibition Notes

Harold Young, Murray street, heard the St. Hilda band twenty time during its Toronto and Peterborough engagements. He heard eighteen programs of their Toronto concerts; and added two more to his list on Monday and Tuesday evenings.

Reg Turner undertook to guess the weight of operator of the scale in front of the secretary's office Thursday afternoon. His estimate was less than a pound off the correct weight, and on the strength of that performance he decided to take on the job himself. Two ladies volunteered out of the crowd that quickly gathered around him, but he was away out on both their weights, and retired. And just for that Mr. Turner handed out two of the biggest boxes of chocolates he could find in the operator's box.

G. A. Gillespie judged the dairy exhibits, and Walter Oke the vegetables.

Wm. Knox was not the only absentee with illness among the Exhibition officials. James McLean of Richmond Hill, judge of the heavy horses, was taken ill Tuesday night, and was unable to resume his duties Wednesday. An emergency call was sent through to Robert Grandy of Brooklin to complete the work.

H. D. Smith, of Ancaster, judge of the beef cattle, was also on the sick list Tuesday night and part of Wednesday but was able to carry on Thursday. Mr. Smith paid the Peterborough Exhibition a fine tribute in regard to the number and quality of the beef cattle.

William Steinkrauss, a director of the "Ex.," was taken ill Tuesday, but was out again Thursday afternoon.

Many compliments have been paid to Harry Beatty of the Utilities Commission for the attractive and efficient lighting of the grounds and buildings.

Coal Miners' Strike At Estevan Holds

ESTEVAN, Sask., Sept 18. — Charges of inadequate police protection while strike-breaking was being attempted, and of mounted policemen being withdrawn from "danger zones" at crucial moments, stood to-day following complete failure of further negotiations to end the strike deadlock here.

The strike is still on, the conference held last night between mine operators and strikers proved futile. Strikers refused point blank to negotiate with the operators unless their union was recognized. The operators would not comply with this demand, maintaining their stand of "no affiliation with red organizations."

Politics Are Taboo Laval's Berlin Trip

PARIS, Sept. 18.—(A.P.)— Premier Laval and Foreign Minister Briand will concentrate on economic matters to the exclusion of political problems when they visit German officials in Berlin next Saturday, it was learned to-day from the highest official sources.

Their return visit of courtesy, the first time that French statesmen will have gone to Germany in an official capacity since the formation of the third republic, is stimulating interest throughout Europe as to the possibility of developing a real entente between France and Germany.

Duffus Purchases New Funeral Coach

A new side-service funeral coach has been purchased by J. J. Duffus, rounding out their complete new undertaking equipment. The coach is the most up-to-date type obtainable; a combination of Nipissing blue and black paint job, the interior trimmed with blue plush, and with a full length mahogany table. The new coach is equipped with 100 horsepower, straight eight motor capable of negotiating with ease extreme road conditions.

Half the 180,000 Southwark England, Diocese Roman Catholics attend church regularly every Sunday, according to a recent census.

Hire Noted Detective In Collings Mystery

NEW YORK, N. Y., Sept. 18 — District Attorney Alexander G Blue, of Suffolk County, is to refer the death of Benjamin P. Collings and yacht pirates to a grand jury in hope of obtaining indictments against the slayers.

"I now have a clear picture of what happened on the Penguin and after the events on the Penguin were over, he said, adding that he had information he did not care to reveal. He announced that Felix De Martini, private detective, and one time an ace of the New York police, had been retained as his special investigator.

Martini figured prominently in the Halls-Mills murder trial as a defense investigator.

Stolen Speed Boat Returned To Owner

GODERICH, Ont., Sept. 18 (C.P.) —Provincial Police here have been notified from Marine City, Mich., that the $4,000 speed boat "Crisscraft," stolen from that harbor two weeks ago, has been returned to its owner, Arthur Hertz.

The owner wrote that the valuable boat was brought back by Newton Mister, of Goderich, who explained that he had been loaned the craft by a third party, had accepted in good faith, and on reading in the newspapers that it was stolen, took prompt measures to return it.

COMMON ACTION BECOMES VITAL TO MEET CRISIS

Strike on Atlantic Fleet Brings Home in Britain Realities of Sacrifice.

WHOLE WORLD SUFFERS.

Secret of Collapse is Believed to Lie in Bad Distribution of Gold.

Copyright 1931, by C. P.

LONDON, Sept. 19.—(By George Hambleton, C. P. Staff Correspondent, who contributes the first of a series of weekly cabled reviews of the world economic situation).

Over the troubled field of Europe the belief is growing that only by common action can the common industrial crisis be met. The world is tightening its belt.

In Britain, the "strike" in the Atlantic fleet has brought home to the man in the street the realities of sacrifice. More unemployment threatens further demands on a balanced budget. (It is estimated that despite the dole reform, the dole fund will show a deficiency of a hundred million dollars next year. In common with the National government, the great English municipalities are deferring expenditures on public works. A reduction of $1,250,000 in the $5,000,000 allowed annually under the Colonial Development Act is expected to curtail colonial schemes.

Other Nations Hit

Three important United States railroad companies either pass or reduce their dividends. Holland, with a budget deficit of between twenty and thirty million dollars, is increasing her tariff and spreading the great reclamation of the Zuyder Zee over a greater number of years. Findland is reducing civil servants' salaries, (in this following Britain Australia, New Zealand and some others). Germany, her August imports at the lowest point since the war, shows an increased favorable balance of trade and the value of Soviet orders placed in Germany is now stated to be $250,000,000. But Prussia, largest of the German states, is under an emergency decree entrenching public services. The government of northern Ireland is bringing unemployment benefits down to the new British level.

One Bright Spot

The success of the Canadian National Railway's $50,000,000 loan in New York and the declaration of Senator Gideon Robertson, Canadian Minister of Labor, of his belief the national depression in Canada is passing, touch relieving notes in a picture of world depression.

And high authorities are coming to the conclusion the problem will not be settled until the great nations tackle the problem of accumulated gold. Rt. Hon. Winston Churchill, who was responsible for Britain's return to the gold standard after the Great War, pressed this view in the House of Commons this week. Rt. Hon. William Graham, Labor's former President of the Board of Trade—who is poles apart from Mr. Churchill on tariffs—echoes Mr. Churchill's plea.

The man in the street, struck by a blizzard which he only dimly understands, ploughs his way through the gold standard labyrinth in search of the cause. The collapse of prices of goods, the world over, has been stimulated in some cases by excessive production. But the increased production, it is claimed, is not sufficient to explain the fall in prices, the rapidity of which exceeds the collapse that followed the Napoleonic wars.

The Secret.

The secret, it is asserted, lies in bad distribution of gold. The United States and France, the two countries which benefitted most by war debts and reparations, have accumulated gold on a scale without parallel. At present the two hold about two-thirds of the world's gold, and the accumulation grows. Thus—so the argument runs—the free gold supply is reduced. It is therefore dear, bringing down the world prices of goods.

The Macmillan committee appointed by the British Treasury,

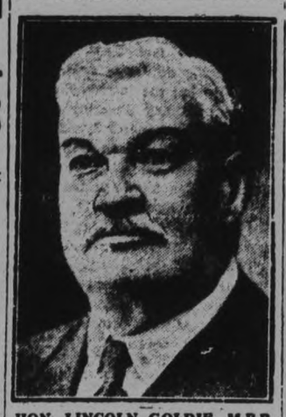
(Turn to Page 8, Please)

Chinese Demand Hostilities Cease, Japanese Retire

NANKING, China, Sept. 19.—(AP).—Foreign Minister C. T. Wang today dispatched a note demanding immediate cessation of hostilities in Mukden on the part of Japanese troops and immediate withdrawal of all Japanese troops to their original positions.

The note was given to Japanese Minister Shigemitsu for transmission to Tokyo.

Ex-Minister Passes



HON. LINCOLN GOLDIE, M.P.P. for South Wellington and former Provincial Secretary for Ontario in the government of ex-premier Ferguson who died in Guelph Hospital early this morning.

HORRORS TOLD OF HURRICANE

Survivor Tells of Seeing Church Full of Children Collapse.

LIVING BURN WITH DEAD.

NEW ORLEANS, Sept. 19. (CP)—Tales of Horror and destruction wrought by the hurricane that swept Belize, British Honduras, ten days ago were related here to-day by a little company of the survivors who arrived aboard the steamer, Parismina.

Among those who told their stories of the stricken region were Mrs. Althea Hargreaves of Chicago, wife of a steamship company manager of Belize and by John M. Staub, of New Orleans, two of the more than a score of refugees who left to escape the peril of disease and distress.

The Hargreaves and Staub were among a score of persons in the Hotel International during the storm.

They told of standing by helpless in their perilous grand stand and watching the destruction of the small piling dwellings by wind and water.

Most of the persons killed were blacks, Mr. Hargreaves said. The estimate was 3,000 persons dead, but there was no way of telling how many died.

In burning the debris to check pestilence, she said authorities found so many persons had been buried alive that in some places funeral fires had to be quenched for fear of burning living persons.

Staub said the roof was blown off the hotel in the first blast of the wind but the walls substantially constructed held partly through the second and harder blow, although it became partly submerged.

At 2 p.m. said Stub, just as the first blow came up the bell in St Mary's Church on one side of the hotel was calling the children of the town to special services. The children were streaming into the church as the first wind struck.

The church filled with youngsters, survived the first blow though the steeple was toppled off. But the second wind demolished the buildings, burying the children under the wreckage.

He said the suburb of Mesapotamia was wiped out and its 500 inhabitants killed.

PLOWING MATCH PROBABLY DRAW 75,000 PEOPLE

J. Lockie Wilson Announces Prize List Will Be Heavier This Year.

PLANS NEAR COMPLETION.

Largest Demonstration of Its Kind in the World Says Mr. Wilson.

Arrangements for the next big event in Peterborough and district were practically concluded last evening, when the local committee in charge of arrangements for the International Plowing Match and Farm Machinery Demonstration met at the Duffus Bowling Academy under the chairmanship of J. J. Duffus.

J. Lockie Wilson, managing director Ontario Plowmen's Association expressed himself as delighted with the manner in which plans had gone ahead for the big four day event, commencing on October 13. He congratulated the local committee and brought them the assurance that the prize list would be heavy—much heavier than it was at Stratford last year.

Giving some small idea of the enormous attraction which this International event has for the agriculturists, business and professional men, and manufacturers Mr Wilson stated that as a conservative estimate at least 75,000 people would attend the show. Given fine weather, he even thought that the number would reach 100,000.

Grant Increased

He explained that the Government have this year increased the grant for the match from $300 to $500. The amount was still small, he thought. "Where does the money come from for the prizes we offer" he asked, proceeding to pay tribute to the numerous and generous friends of the Association who were coming forward with handsome donations. These donors were, he said, alive to the fact that the farmer "is behind the gun" that the prosperity of everyone depends upon the prosperity of the farmer.

"The International Plowing Match and Farm Machinery Demonstration" was he said the largest demonstration of its kind in the world, and is staged in different sections of Ontario every year. The leading manufacturers of all types of farm machinery hold a prominent place at the demonstration where farmers have a splendid opportuni-

(Turn to Page 2, Please)

BODY FOUND IN HARBOR.

attend.

SARNIA, Ont., Sept. 19.— Word was received here at noon to-day that the body of James Mulligan, missing St. Thomas business man, has been found in the harbor at Kincardine. No details were given. Mulligan is a brother-in-law of Mrs. D. W. Collins, city.

STEAMER AGROUND

SEATTLE, Wash., Sept. 19.—(AP)—The Seattle harbor radio said the Norwegian motorship Bonneville went ashore on Miami reef in Stuart channel near Chemainus, B.C., early today. The station reported it was not advised as to the reason for the grounding, nor were weather conditions made known

300 ON SPEEDING C. P. EXPRESS HAVE CLOSE CALL FROM DEATH

Freight Crew Detects Rail Spikes Removed in Time to Flash Back Warning.

AT HUMBER STATION.

TORONTO, Ont., Sat. 19.—(CP)—Three hundred people speeding eastward on a C.P.R express from Vancouver narrowly escaped a catastrophe this morning when quick action from a railroad engineer is believed to have frustrated an attempt to wreck a train at Humber Station, six miles from Bolton, where rail spikes and an angle bar were found to have been removed. A slow train passing over the faulty joint first detected the criminal attempt and word was flashed back to the express, stopping it in time to prevent loss of many human lives.

ORDERED TO DISARM

SEUL, Korea, Sept. 19.—(AP)—The Chinese gunboat Chinghai, anchored at the mouth of the Yalu River, was ordered to disarm today and the crew handed over all arms and ammunition, including twelve machine-guns, to Japanese forces.

Scotland Beats Ireland 3 to 1

GLASGOW, Scotland, Sept. 19.—(CP)— Scotland defeated Ireland by three goals to one in an internationaysoccer match at Ibrox Park. The game opened the series of international matches played annual between England, Wales, Ireland and Scotland.

Henry Ford's Edict Opposed By Farmers

FARAGA, Mich.,—(CP) — Henry Ford's no garden, no work edict, recently issued to family men employed in his automobile plants, is meeting with opposition from outside sources.

Farmers throughout the upper peninsula of Michigan began raising a storm of protest yesterday, claiming enforcement of the order would impoverish them.

Chinese Routed In Bloody Clash Waged for Hours

Several Hundred Casualties Lost by Chinese During Fighting as Japanese Start Hostilities in Reprisal for Destruction of Part of Manchurian Railway.

SUBURB OF CAPTURED CITY, BOMBED, IS IN FLAMES; AVIATION FIELD AND ARSENAL FALL TO INVADERS

Nanking Officials Astounded at Action— Japanese Cabinet in Extraordinary Session Moves to Localize Trouble —More Troops, Planes, Warships Held Ready.

TOKYO, September 19 (C.P.). — Japanese troops seized the walled city of Mukden, capital of Manchuria, to-day after a bloody clash with Chinese soldiers.

The clash, growing out of trouble which has been brewing for several weeks between the Nationalists of the two countries in Manchuria, Korea and elsewhere, precipitated military and naval activity in Japan.

Peitaying, a suburb of Mukden, was the scene of the principal fighting. A Japanese War Department communique here said the fighting started when Chinese troops attempted to destroy a bridge of the South Manchurian Railway there.

The railway, which is controlled by the Japanese Government, traverses Chinese territory, but operates in a treatyy zone protected by Japanese troops.

Chinese Open Attack.

Japanese reports said about 200 Chinese first atacked Japanese soldiers at Peitaying late on Friday night. Repulsed, the Chinese returned with reinforcements and severe fighting ensued. The Chinese were driven off. Later fighting was reported from other places around Mukden.

Additional despatches told of how Chinese police were cleared from the treaty zone and all Japanese Nationals called into the protected area. Japanese reinforcements were ordered concentrated at Mukden, and Japanese troops were sent into the Chinese section there to protect National interests. Subsequent reports said the Japanese had seized the city.

SUBURB AFLAME

TOKYO, Sept. 19.—(AP).—Rengo News Agency dispatches this afternoon said Japanese troops had captured an arsenal and the army aviation field at Mukden and that Peitaying, a Mukden suburb, had been destroyed by artillery fire and was aflame.

The dispatches said the Japanese artillery attack on Peitaying caused several hundred casualties among Chinese tropos and that the Japanese had taken 450 prisoners at the flying field.

Japanese casualties included wounds to a lieutenant and three soldiers

Rengo said it had learned that naval vessels were to be dispatched from the Sasebo base at Kyushu Island to assist the military if necessary, that ship commanders had been ordered to prepare for emergency calls and that railroad officials were asked to be in readiness to offer their services for troop movement.

Special dispatches and Rengo reports from Mukden said several Japanese battalions were ordered to

Third Purple Gang Member Is Arrested

DETROIT, Mich., September 19 (C.P.). — Irving Milberg, third of the men wanted for the triple murder here on Thursday, was arrested early to-day. With him were taken six others, accused of Purple Gang affiliations, but only Eddie Fletcher and Abe Axler were held.

Milberg's arrest leaves only Harry Fleisher of the four accused of the murder by Prosecutor Harry S. Toy at liberty.

Nightwatch Killed; Burglars Suspected

MONTREAL, Que., Sept. 19 Coming on duty this morning the day watchman at the Castle Building on St Catherine street in the heart of the shopping district of the city, found his colleague on the night watch, John Jarvis, dead with two bullet wounds in his head. Jarvis' body was lying in a corridor on the eighth floor and a collection of burglar's tools was strewn on the floor near him. Jarvis was a veteran of the Great War and 60 years of age. He was the father of Ernest Jarvis, one of the best-known paddlers in Montreal, who has held the Dominion championship.

6,691 ATTENDED FAIR ON FRIDAY

Attendance is Slightly Ahead of 1930—Down 654 Yesterday.

TOTAL TO DATE 28,327.

As the Exhibition swung into its final day it still maintained a slight lead in attendance over last year. However, the difference is less than 1,000 and it remains for to-day to maintain that lead and put the big fair over the top to a new attendance record.

Attendance	1930	1931
Monday	....	1,827
Tuesday	1,819	4,590
Wednesday	10,886	9,656
Thursday	7,521	5,563
Friday	7,345	6,691
Totals	27,571	28,327
Decrease on day		654
Increase to date		756
Grandstand attendance		11,293

There will be a full program of vaudeville acts and a complete performance of the big rodeo show tonight. Added to this will be the long-awaited crowning of Miss Peterborough and the selection of the two finest babies in the city.

A band concert and a final display of fireworks will complete the show for 1931.

NINETEEN HELD FOR SABOTAGE

Arrests Come After Weeks of Probing Power Line Dynamitings.

Mostly Former Employees.

MONTREAL, Que., Sept. 19.—(C. P.)—City and private detectives arrested 19 persons, mostly former employees of the Montreal Light, Heat and Power Consolidated on sabotage charges. The arrests took place throughout the night, police visiting numerous homes to take their prisoners. The coup was the result of weeks of careful investigation of acts of sabotage against company trans formers, power lines and towers during and after the recent strike of linesmen.

Power line towers were dynamited and toppled to earth, transformers were damaged and the electric power in various parts of the city cut off at various times. Transmission lines of the Shawinigan Water and Power Company were also affected by the sabotage. Nine men were arrested on similar charges during and after the strike.

Fire Destroys Barn At Crawford's Grove

A fire of unknown origin late last night totally destroyed a large barn near Crawford's Grove owned by Herbert Do ig. The fire went unnoticed until the flames almost enveloped the building. Neighbors gathered to assist but they were powerless to combat the roaring blaze.

With great risk a valuable tractor was removed from the flaming barn, but all else, including valuable farm machinery, was destroyed. Four thousand bushel crates stored in the barn added speed to the work of the flames.

The owner placed his loss at nearly $3.00, part of which is covered by insurance.

LINCOLN GOLDIE ILL SHORT TIME TAKEN BY DEATH

Resigned Last Spring as Provincial Secretary in Ferguson Cabinet.

ELECTED IN 1923.

Held Many High Positions in Business World—in 68th Year.

GUELPH, Ont., Sept. 19.—Hon. Lincoln Goldie, former Provincial Secretary in the Cabinet of Howard Ferguson, died at the Guelph General Hospital early this morning.

Although Mr. Goldie had been confined to his home for the past few days, it was not until yesterday that his condition became alarming.

Mr. Goldie was suffering from a serious kidney ailment and had spent some time in hospital following his resignation from the Ferguson Cabinet in September, 1930.

Hon. Lincoln Goldie was born in Guelph, Ont., on Nov. 11, 1864. He was educated at the Guelph Public and High Schools. Entering his father's business shortly after having terminated his studies, Mr. Goldie later became managed of the Goldie Co., Ltd., flour millers, at Guelph, from which position he retired in 1918.

Elected in 1923

A Conservative, Mr. Goldie was first elected as representative of South Wellington in the general elections of 1923 and on July 9 of the same year, was appointed to the post of Provincial Secretary. He was re-elected at the general elections of 1926 and 1929; he retained his seat in the Legislature after his resignation from the Cabinet.

Mr. Goldie was also president of the Gore District Fire Insurance Co. He was a director of the Canada Wheat Board from 1919 to 1921 and a member of the Grain Inquiry Commission in 1921. He also belonged to the Toronto Board of Trade and Chamber of Commerce.

Mr. Goldie is survived by his widow, nee Estella Bricker, of Waterloo, Ont., and two children, James and Margaret.

NO DISTURBANCE AMONG SEAMEN

Men of Endeavor Asked to Put Their Grievances in Writing.

PROTEST WAGE CUT.

LONDON, Sept. 19 (A.P.) — Sailors of Great Britain's Atlantic Fleet were privileged to-day to submit their grievances over wage reductions to the various base commanders who will meet Monday to recommend adjustments to the Admiralty.

The commander of the Endeavor at Sheerness lined his company up on deck yesterday and told them if they had any complaints, to put them in writing and submit them to the master-at-arms for transfer to higher authorities.

The men were in a jovial mood and apparently were willing to wait for the decision of the Admiralty on their protests. They were given week-end shore leave as usual and no incidents of a disorderly nature were reported.

The cruiser Durban, en route from Sheerness to Brazil to become the flagship of the newly-formed South American squadron, was called into Portsmouth so that her crew might be represented at the Admiralty's investigation. The cruiser York and some destroyers have arrived at Sheerness from Invergordon, Scotland, scene of the recent agitation.

As the men trooped ashore in the home ports, all hands denied that there has been anything approaching mutinous behavior in the fleet.

Before they left their ships they were given forms on which to enter full details of pay and allowances and the cost of maintaining their homes. On Monday the forms will be handed into the official committees of inquiry.

Potatoes Priced At 50 Cents Bag

Potatoes were still down to the low level of 50 cents a bag on the farmers' market this morning. Tomatoes were very cheap also, one vendor offering four large baskets for half a dollar to anyone who would give him the four bits.

Butter was 25 cents a pound, eggs 22 to 25 cents a dozen, chickens 22 to 30 cents a pound, and ducks 30 cents a pound. Cucumbers were 20 cents a basket and red peppers 30 and 40 cents a dozen. Pears in large baskets were 40 cents. Squash sold at 10 to 20 cents apiece, and watermelons at 25 and 30 cents.

Wins High Honors

Considerable musical fame has been added to Peterborough by Dorothy Cunningham. Only eight years old, this little girl won the highest honors in Canada when she recently tried the Primary Violin Examination in Toronto of the Canadian College of Music. Dorothy obtained 91 per cent for her outstanding performance. Examinations were conducted from coast to coast. Mr. and Mrs. George Cunningham, of Frank street, are her parents, and she is a pupil of Roy Rome.

MARMORA LAD DIES OF WOUNDS FROM OWN GUN

Unconscious, James Rice Lies 2 Hours in Bog While Chum Seeks Aid.

HUNTING AT CROW LAKE.

Youth Recovers Consciousness, Directs Rescue—Dies at Hospital Door.

Mortally wounded early this morning while duck shooting in a marsh on Moulder's Island, Crow Lake, James Rice, 17-year-old son of J. A. Rice of Deloro, died at 2.15 this afternoon just as he was being carried into Nicholls Hospital.

For more than two hours the lad had lain, bleeding profusely from a gaping wound in his side, before his chum, Ford Woodhouse, of Marmora, who had first run away in fright and alarm, returned with friends and rescued him.

Displaying the utmost nerve and bravery, although his life was fast ebbing away, young Rice quietly told those who had come to rescue him where to take him. Following his low-toned, gasping instructions he was carried from the marsh, rushed to Marmora, and then to the local hospital.

The two lads were shooting ducks and he brought down a bag. They were wading out into the water to pick up the dead birds, when in clambering over a log, it is claimed, Rice's shotgun was accidentally dis-

(Turn to Page 5)

CLAUSES MISSED IN DRAFT CANON

One of Most Important Was Section Defining Duties of Primate.

HOUSE SURPRISED.

TORONTO, Ot., Sept. 19.—(CP)—The Lower ouse of the Anglican General Synod, meeting here today, was surprised to learn that the draft canon approved yesterday, which provides a new method of election for the primate of all Canada, was lacking in several important clauses due to a clerical error.

Appearing before the Lower ouse clergy and lay representatives, Rt Rev. John Farthing, Bishop of Montreal, explained how one draft of the canon prepared by a committee of the bishops had been mislaid in Montreal and another substituted for it.

The latter was approved by the bishops and presented to the Lower House yesterday, where it was also approved with several amendments.

The most important omission in the "wrong draft" said Bishop Farthing, was a section defining the duties of the primate.

LLOYD GEORGE MYSTERY MAN OF GREAT CRISIS

"Sphinx of Churt" Sits at Country Home Watching, Biding His Time.

MUM ON VIEWS.

Ministry Facing Three Alternative Courses With Move Indefinite.

(By George Hambleton, C. P. Staff Writer.)

LONDON, Sept. 19.—(C.P. Cable)—Rt. Hon. David Lloyd George, Liberal leader, has become the mystery man of the British crisis.

In Parliamentary lobbies opinion ebbs and flows like a restless tide. One hour dissolution of Parliament is imminent, with the National Government appealing to the country on a national program; the next, a general election slips into the background. Members are excited one moment over another rumor of the flight from the pound; then the hubbub is stilled with a reassuring word from the "city."

And through it all Lloyd George, the one man usually read with a pungent epigram, the man who forged to the front in the war days, says nothing. "The Sphinx of Churt," one writer calls him, as he sits at his country home in Churt, Surrey, watching and waiting, biding his time.

Disappeared in July.

As the result of a serious operation Lloyd George disappeared from the parliamentary scene just before the summer recess, which started July 21. He is now convalescing. Sir Herbert Samuel, Acting Liberal Leader, and Lord Reading, who are Liberalism's representatives in the National Cabinet, are both emphatic that throughout the party negotiations which led to the National Government's formation, Lloyd George was consulted and had approved every step. His son and daughter both vote in the House of Commons with the Government.

But throughout all the clamor of the last fortnight Lloyd George has remained significantly silent. Correspondents wait dutifully at Liberal meetings in the hope of picking up a message from "LL.G" but no message comes—or at any rate, none is made public. Nothing arrives that is more reliable than rumors of his views that conflict, reports even of his condition that do not agree.

Three possible courses lie before Prime Minister MacDonald when the new National Government has completed the task for which it was formed — stabilizing finances. They are:

(1) The course orginally indicated, a return to the old party allegiances.

(2) Continuance in office with the policy of protection.

(3) Dissolution of Parliament, general elections at the end of October with the National Government appealing to the country as a new national party on a program of national reconstruction, including tariffs.

First Rejected

The first course has been generally rejected. The second would involve resignation from the Government of Sir Herbert Samuel and other Liberal free traders; possibly also of that staunch free trader Rt. Hon. Philip Snowden, Chancellor of the Exchequer. These would necessitate reconstitution of the Government.

To the third course Liberals are opposed. The Free Trade Liberals see in early dissolution another "coupon election' like that of 1918, which would complete the collapse of the Liberal party and usher in a regime of protection to which they are opposed.

And as the pawns are moved at Westminster, the players ponder what the mystery man of Churt will do when he returns. The party changes have strengthened his hand—till the electorate speaks. He holds the balance of power in the Commons even more than before. A Liberal frade trade revolt might easily defeat the Government. But again, that would mean the dissolution the Liberals do not want.

Automobiles Crash; Two Slightly Hurt

Two persons received minor injuries in a motor accident near the corner of Park and McGill streets at 10.30 last night, when a car driven south on Park street by F. W. Gamble, 321 Rogers street, met in collision with a car driven north by J. G. Dodson, Howden avenue.

Mrs. Gamble riding with her husband received a cut on her forehead from flying glass and Marjorie Dodson in the other car was cut about the chin.

Both cars were damaged along the left front running boards, and much glass was broken.

MR. AND MRS. A. BONNEY OBSERVE FORTY YEARS OF MARRIED LIFE

Sixty Relatives Gather at Home of Campbellford Couple to Make Presentations.

Married at Norwood 1891.

(By Examiner Staff Correspondent)

CAMPBELLFORD, Sept. 19. — Honoring the fortieth anniversary of their wedding sixty relatives of Mr. and Mrs. Albert Bonney gathered at their home at Campbellford on September 16th and participated in an evening which was filled with good wishes for the happy pair and featured by two presentations and an address. Hale and hearty and carrying their years with youthful grace Mr. and Mrs. Bonney welcomed their guests although unaware of their visit and responded graciously to the many good wishes extended to them.

A beautiful floor lamp and address were presented to the hosts by Miss Helen Runnells of Dartford and Mrs. William Warner of Dartford, niece of Mr. and Mrs. Bonney presented them with a beautifully decorated three layer wedding cake made by herself.

Mr. Bonney responded to the gifts thanking those who so thoughtfully remembered them on their anniversary and expressed his great pleasure at having so many of the relatives together again for the first time in many years. Many cards and letters were also read from those who were unable to attend congratulating Mr. and Mrs. Bonney on reaching this milestone of their married lives. Guests present came from Kincaird, Sask., Toronto, Warkworth, Hoard's, Hastings and Campbellford.

Musical Program

An impromptu program of music consisting of solos, duets and quartets were rendered by members of the gathering as well as humorous recitations.

Mr. and Mrs. Bonney, who came to Campbellford from Percy Township in 1916 to reside, were married on September 16, 1891, at Norwood by the Rev. W. Buchanan, Methodist circuit minister. Mr. Bonney was born in East Percy Township on Jnue 26, 1861, the son of the late Mr. and Mrs. Thomas Bonney, who came to Canada in 1857 from County Cornwall, England. At the age of five he moved from the east of the towwnship to Oak Hills, where he lived until coming to Campbellford, farming the same land for fifty years.

Mrs. Bonney was also born in Percy Township on February 10, 1869, the daughter of the late Mr. and Mrs. Alfred Francis Varcoe, who were, like Mr. Bonney's parents, from County Cornwall, England.

Mr. and Mrs. Bonney have excellent health and live on the outskirts of Campbellford on two acres of land where they have built for themselves a delightful little home in which to enjoy the evening of their lives. With the love of the farm still in their hearts they have not altogether forsaken it, and enjoy a pleasant life among ideal surroundings and amid the spiritual circle of their church, St. John's United, where they are regular attendants.

Czechoslovakia now has more than 10,000 co-operative organisations.

Further Decline In Canadian Dollar

NEW YORK, N.Y., September (C.P.). — The Canadian dollar fell off ¼ of one per cent. as foreign exchange markets opened this morning. The discount was quoted at 1 13-16 as against 1 11-16 at the close yesterday.

FIRE DESTROYS BARN AND CROP

Harry C. Bedford of Seymour Township Suffers Heavy Property Loss.

INTERNAL COMBUSTION.

CAMPBELLFORD, September 19 (Examiner Staff Correspondence).—Fire thought to have been caused by internal combustion completely destroyed the barn and outbuildings on the farm of Harry C. Bedford, on the 7th Line of Seymour Township early on Friday morning, causing a total loss of this season's crop, the wheat of which had already been threshed.

The fire was first noticed by a passing motorist at about 3.30 a.m., who awakened the sleeping family and gave the alarm. The blaze at that time had reached the stage where the house was threatened, but the quick response of neighbors who formed a bucket brigade averted this catastrophe. Although no figure has been placed upon the total loss it will be heavy, as this year's crop was cut from 250 acres and only the main building covered by insurance. Horses and cattle in the barn were saved.

GANDHI VISITS LONDON'S POOR

Six Scotland Yard Men Required to Keep Order as Crowds Gather.

ASKS MANY QUESTIONS.

LONDON, Sept. 19.—(A.P.)—Mahatma Gandhi, one of the few members of the Indian Round Table Conference remaining in the city over the week-end, paid a surprise visit to-day to London's East End poor.

He mingled with the poorest asking many questions of the people he met about their mode of life. So great were the crowds he attracted that six men from Scotland Yard were brought down to maintain order.

"You're better off than some of the starving people in India," the Mahatma told one widow who lives with six children in a two-room flat. "At least you have food and clothing and a roof over your head. Many of our people have not those things."

Canadian Buffalo On The Northern Trail

START LONG TREK TO LARGER QUARTERS

Far from being an almost extinct species, the Canadian buffalo, under the careful guidance of the government, have so multiplied that new quarters must be found for them. Experiments have been successfully carried out by the authorities in an endeavour to find a hardy cattle beast for the northern plains. By crossing the buffalo with domestic cattle, a very satisfactory breed has resulted. Above (at left) is a close-up of Canadian buffalo. At right a herd is shown at the government reserve.

LINDSAY COURT DOCKET HEAVY

Warant Issued for J. Stephenson on Charge of Interfering With Witness.

FINES HANDED OUT.

LINDSAY, September 19 (Examiner Correspondence)—Police Magistrate Jordan yesterday issued a warrant for the arrest of John Stephenson, a resident of Simcoe County, and brother of Russell Stephenson, of Minden, who received a twelve year sentence on Thursday for a serious crime. The former is charged with unlawfully attempting to obstruct the cause of justice by interfering with a witness in an attempt to have him give false evidence. It was also brought to the attention of County Crown Attorney Anderson that accused was attempting to talk with members of the jury.

Wilfrid McDonald, who resides near Victoria Road, was Friday charged before Police Magistrate Jordan with stealing license plates and a car top from an automombile. The accused pleaded guilty to the charge, and was remanded for sentence until Sept. 20.

Bert Godfrey, of Lindsay, and formerly of Wilberforce, was fined $117 yesterday on a charge of having liquor illegally. He purchased a gallon of wine and stored it in his brother's house.

J. Burton, of Scarboro, appeared before Police Magistrate Bick, of Cannington, charged with reckless driving on the town line between Brock and Mariposa. Accused ran into a drove of cows, the property of H. Reeds, and broke one of the animal's legs. He recompensed the owner to the amount of $65, in addition to court fine and costs, amounting to $32.60.

PERMIT TAKE-OFF

TOKYO, Sept. 19 (C.P.)—The Japanese Bureau of Communications to-day issued a permit to Clyde Pangborn and Hugh Herndon, United States fliers, to take their airplane from here to Samushiro Beach preparatory for a take-off on an attempted non-stop flight to Seattle.

Sues Aimee's Hubby

Myrtle St. Pierre of Los Angeles, who has filed breach of promise suit against D. L. Hutton, Aimee McPherson's new husband, to whom she was married in an aeroplane ceremony recently.

BRITISH PAPERS FINED FOR AIR PHOTOGRAPHS

Took "Shots" From Aeroplane of Demolished Explosive Factory

Wareham, Eng.—Fines of £100 and £125, respectively, with 25 guineas costs in each case, were recently imposed at Wareham (Dorset) county petty sessions on the London Express Newspapers Ltd. and the Daily Sketch and Sunday Graphic Ltd.

The case was a sequel to the explosion at the Royal Naval cordite factory at Holton Heath on June 23, when the nitrating house was destroyed and ten men lost their lives. Aerial photographs were taken of the scene of the disaster, and it was in respect of these that the papers were summoned on three counts.

(1) Causing to be taken from aircraft photographs of part of a certain prohibited area. (2) As the hirers of aircraft causing photographs to be taken from it by a person unknown; and (3) flying at an altitude of less than 6,000 feet.

Mr. G. J. Ball, on behalf of the director of public prosecutions, said the offence was considered to be one of some gravity and seriousness. The facts disclosed in evidence might have been the subject of another and much more serious charge under another act, and the present proceedings were in no way a bar to consideration of that aspect of the case. A cordite factory was a particularly dangerous place for aircraft to fly over because a crash might be disastrous.

In announcing the fines the bench had decided to impose on the other defendants, the chairman said they made the distinction because the Daily Sketch had "forced" their pilot to act as he did by telling him they had permission to take photographs when they had not.

Norwood

NORWOOD, Sept. 18 (Examiner Correspondence).—The first meeting for the fall of the Baptist Women's Missionary Circle was held at the home of Mrs. Walter Hubble, Hastings. The vice-president, Mrs. Rutter, occupied the chair. The Scripture lessons were read by Mrs. Gerow and Mrs. W. Baker. Mrs. Downing and Mrs. Rorabeck led in prayer. Mrs. J. Stevens gave a reading entitled "Sorrows of India." A solo was contributed by Mrs. William Hubble, "He'll Never Forget to Keep Me."

The topic was given in a most interesting and instructive manner by Mrs. Walter Hubble on "Pioneering in Bolivia."

The hostess served lunch and a very pleasant social time was spent.

A vote of thanks was tendered Mrs. Hubble for her kind hospitality.

There were 24 present, and the collection amounted to over ten dollars.

STUDY OLD RECORDS

Historians of Aberdeen Will Examine Ruins of Lochindorb Castle

Dr. Douglas Simpson, Aberdeen, the noted archaeologist, and Mr. H. B. Mackintosh, Elgin, have been making a detailed examination of the ruins of Lochindorb Castle (Morayshire), which stands on an island in the loch of that name, and which was the stronghold of the "Wolfe of Badenoch," the destroyer of Elgin Cathedral. A considerable number of historical documents of the reign of Edward I. have recently been discovered in the archives, London, dealing with Lochindorb, so that the researches of Dr. Simpson and Mr. Mackintosh, when made public, should prove of much interest.

MISS PETERBORO TO BE CROWNED SATURDAY NIGHT

Prizes Will Be Awarded in Front of Grand Stand at 7.30.

MAYOR MAKE AWARDS.

With the crowning of the Baby King and Queen of the Fair, the announcing of "Miss Peterborough," her ladies in waiting, the awarding of all baby prizes, the final drawing for the twenty dollars in gold, and the final presentation of the five acts in front of the grand stand, the Peterborough Industrial Exhibition of 1931 will go down in history as the finest Exhibition ever held in this section of Canada. His Worship Mayor Roland Denne will award all prizes.

The awarding of contest prizes will start at 7.30 p.m. sharp. Mothers and Miss Peterborough candidates are requested to be in the grand stand not later than that hour, for with the big special program, time is limited. Persons who have won on the drawing and have not received their prizes may secure the same at The Examiner Office. The winner for Thursday night and the only one who has not claimed his prize to date is Ronald Reeves, Box 335, Campbellford, Ont., ticket No. E685.

Mothers of prize winning babies who are not present when prizes are awarded to-night, may secure their prizes also at The Examiner Office.

The following health charts may be secured at The Examiner Office: Shirley M. Orde, Dolly Lewis, Gwendoline Bradbury, Mary Milburn, Clara L. Driver, Alberta Ryan, David S. Robertson, Joseph T. Shaughnessy, Gary Jones, Barnard F. Monaghan, Jr., Reginald O. Kelly, Desmond H. Brown, the Chapman Twins, Raymond Wall, Donald Jones, Frank T. J. Reeve, Jack Forbes, Wallace J. Hill, John David Grylls, Elwood Graham, Donald K. Anderson, Andrew J. Kyle, Robert Boyle, Douglas Stenner, Kenneth Youngs, Eldon C. I. Northey, Bobbie Currie, George H. Douglas, Barry Shaughnessy, Harry J. Duke, Jr., Lionel Henwood, Gerald Henwood, Esther Armstrong, Dorothy Allen, Patricia McCarthy, Yvonne A. Naples, Muriel M. Davies, uth Hawley, Margaret B. Rhodes, Shirley Marie Asling. These charts may be secured any time starting Monday.

Record Rainfall Apsley District

APSLEY, September 19 (Examiner Correspondence).—During the early hours of Thursday morning no less than 2.43 inches of rain fell, constituting a record, according to the official weather reports of Apsley. On Tuesday morning during a thunderstorm, Alfred Davis' house at Lasswade was struck by lightning, the bolt passing down the chimney and into the cellar, but not doing much damage The outbuildings were struck in four places, and a 300-pound hog killed

Find Cobourg Woman Injured By Roadside

COBOURG, Sept. 19.—Found unconscious beside the road at the north end of Division Street by Traffic Officer Grant, Mrs. Fred Murie was taken to her home where Dr. Richards attended her. She has no recollection of any accident. It is supposed she was run down by a hit and run motorist in crossing the street. She is badly bruised and cut, but no serious developments are looked for.

PRIMATIAL SEE SUBJECT TO STIR LENGTHY DEBATE

Revised Canon Provides Election of Primate by Whole Synod.

STUDY MISSION WORK.

Steps Taken to Revive Old Committee on Church Union.

TORONTO, Ont., Sept. 19.—(CP)—A lengthy debate is expected today following the introduction of a motion yesterday directing a committee of the General Synod of the Church of England in Canada to confer on the subject of the establishment of a fixed primatial see which will automatically become the headquarters of the primates upon their election.

There is a possibility, however, that the debate will direct representation on the committee from the ecclesiastical province of Rupert's Land, covering the prairie provinces, with a view possibly to selecting a primatial see in that territory.

After three days of uncertainty regarding the problem the General Synod yesterday put through its Lower House, in slightly amended form, the draft of a canon or by-law, which, when given final effect, will provide for the election of the church's primate by the synod as a whole instead of by the House of Bishops as heretofore.

Dissatisfaction

At the conclusion of yesterday's session some dissatisfaction was expressed over leaving so much power still in the hands of the bishops and Professor J. F. Day of Vancouver, proposed establishment of an electoral college drawn from members of the church as a whole and composed of equal members of bishops, clergy and laity. This was rejected, however, after it was pointed out that the bishops had already gone far toward meeting the wishes of the Lower House for a synodical election and that, after all, the bishops were in a position to know the capacities of nominees and the needs of the church to be met.

Further consideration of the report of the Anglican National Commission was given by the two houses of the Synod in joint session last night. Pleas for a consecrated laity were made by several speakers, one speaker declared bluntly the church was "out of touch with the outside world," and that there was "too much church and not enough Christianity."

Revive Old Work

Steps to revive the activities of an old committee of Church Union were taken in implementing another recommendation of the Nation Commission.

A recommendation "That the whole missionary work throughout Canada be recognised and presented as a unit and that division of diocese into missionary and self sufforting, cease," was passed. This did not mean, it was explained, that diocesan mission funds would be abolished, but that the central office would be given a comprehensive review of missionary effort throughout the country.

Recommendations dealing with the need for a closer relationship between clergy and laity and the more intensive organization of laymen were under consideration when the house adjourned.

PLOWING MATCH

(Continued from Page 1)

ty of sizing up the working of the different makes of machines which operate side by side.

E. A. Peck, M.P., honorary member of the committee also voiced a few words of congratulation on the splendid work which the committee have so far performed, and also paid tribute to the energy and resourcefulness of Mr. Duffus in having been successful in securing the match for Peterborough.

"It is a splendid thing, not only for the city, but for the farmers in general. It will be a means of bringing the farmers and manufacturers into closer touch and a means of promoting a more friendly sympathy between the rural dwellers and city people."

Move Fair Date Back

For the past sixty years Norwood Fair has been held in October at a period which conflicts with the dates set apart for the International Plowing event. It has been changed this year for the reason that the dates are synchronous, and a resolution of thanks to the fair board carried unanimously.

Resolutions of condolence were passed expressing to Frank P. O'Connor the sympathy of the committee in his recent bereavement, and also to the executors of the estate of the late George Pepper, both generous patrons of the Association.

Among the numerous prizes, that of Hon. Senator Maguire, a native of Otonabee Township, provides for $5.00 cash for the best team from each township in the County of Peterborough.

Mr. McKay the newly appointed manager of the George street branch of the Bank of Montreal was present at the meeting and brought with him a fine silver trophy presented by the Bank in the International contest.

Among the numerous committeemen present were J. B. Nelson, secretary; H. B. Cowan, chairman Publicity Committee; C. Cummings, chairman Tractor Committee;. J. Gillespie, chairman Teams Committee; V. J. Eastwood, treasurer and William Knox, member of the Horse Committee.

PIPE TESTED *by a* RURAL MAIL COURIER

15c. and 20c. packages —also in ½-pound screw-top tins.

"As a Mail Courier who smokes a lot, I always carry Turret pipe tobacco on my rounds; and when I stop, as like as not, the farmer comes out with his pipe and enjoys a fill of this good tobacco. At first, some of them imagined it was a very expensive brand and were astonished when I told them how little it costs. They all buy and smoke Turret pipe tobacco now, because it is 'a tobacco with a difference'—Enough said!"

REV. ALLAN WARMLY WELCOMED BY CONGREGATION OF NEW CHARGE

...rcourt Road Presbyterian ...rch Auditorium is Crowded for Occasion.

PRESENTATION MADE.

A crowded auditorium, with a platform beautifully banked with flowers, glorious music by a select choir, entertaining and inspiring addresses, interesting presetnations, and delicious refreshments served by a group of charming waitresses, marked the reception and public welcome given to the Rev. Wm. and Mrs. Allan and family by the Dovercourt Road Presbyterian Church, Toronto on Wednesday of this week.

Thomas Kerr, M.D., occupied the chair and gave a very interesting outline of the history of this church. He then called upon the Rev. W. Hardy Andrews, M.A., who had been interim-moderator during the vacancy. Mr. Andrews, in an address which sparkled with humor, said that he felt very happy regarding the future of Dovercourt Road Church under the pastoral care of Mr. AAllan. The Church, he continued, was practically at the very centre of the city, and presented great possibilities for a preacher of Mr. Allan's type.

First Meeting

Dr. John Gibson Inkster, minister of Knox Church, was the next speaker and claimed the honor of having introduced Mr. Allan to Toronto eight years ago. He told how he had been at Stony Brook Convention in the United States and had heard the new minister of Dovercourt speak every morning for a week and deciding to get him for special services in Knox Church, Toronto." Mr. Allen agreed to come; and on the second Sunday of the special services the crowd at night was so great that the doors of Knox Church had to be closed twenty minutes before time for starting the service. Then Dr. Inkster outlined his future meetings in other churches in Toronto—and predicted a still more glorious future for Dovercourt Road Church.

Mr. Thomas Arbuthnot spoke for the Session and congregation relating some of the steps which led to the settlement of Mr. Allan as the successor of Dr. Dale, and promising the undivided support of all the boards and the entire membership. The treasurer of the church, Mr. A. E. Alison, then presented the Rev. W. Hardy Andrews, M.A., with a cheque as an expression of the congregation's gratitude for the great help he had given in getting the Rev. W. Allan as minister.

Roses for Mrs. AlAlan

At this juncture a large basket of beautiful roses was presented to Mrs. Allan by a member of "the youngest set." In his reply to the welcome given, Mr. Allan thanked the lady who, at the beginning of proceedings, had given him a lovely sprig of white heather which she had just brought from Scotland for the occasion. He took it as a token of "good luck" and an expression of that same general goodwill which permeated" this magnificent gathering to-night." "I was happy in Peterborough, where I had made a host of friends, both within and without the congregation of St. Paul's—and I can assure you that it was not easy to pull up stakes and say farewell; but this welcome and reception to Mrs. Allan and family and myself is a compensation which helps to lessen the pain of parting with that closer contact with my Peterborough friends. May God give us times of unprecedented blessing."

Mr. Allan said that he was greatly complimented and cheered by the fact that he had never yet had a service at Dovercourt without having some Peterborough friends present.

Duties

NO man has any more duties to do than he has time to do well. God assigns all duties, and all time and all strength for the doing of duties; God expects good work from all His children; and God never expects more than is reasonable.

Therefore, when we think that we have not time enough to do all our duties, as well as we ought, we are either wasting our time, or borrowing trouble, or trying to do what we ought to let alone. The honey-bee has a heavy burden of work to do, and only limited time to do it in; but he gets it done, and well done; and he gives no evidence of worrying over it. We ought to do at least as well.

Views of Life

LIFE is not a scramble for wealth, not an effort to occupy the best positions. Life is the enjoyment of the beauty that is in the world, and the employment of the powers and faculties of the Spirit. Life is finding the meaning of God in the world and the uses of one's own powers. The finest view of life is to look upon it as the experience of an immortal spirit on its travels. It is the part of wisdom when on a journey not to look forward to its end with too great eagerness, but to interest oneself in the progress of the journey. The present only is ours.—K. C. Anderson.

A Child

AS a little silver circular ripple, set in motion by a falling pebble, expands from its inch of radius to the whole compass of the pool, so there is not a child—not an infant Moses—placed, however softly, in his bulrush ark upon the sea of time, whose existence does not stir a ripple, gyrating outward and on, until it shall have moved across and spanned the whole ocean of God's eternity, stirring even the river of life, and the fountains at which His angels drink.—Elihu Burritt.

Old Age

THE affection of old age is one of the greatest consolations of humanity. I have often thought what a melancholy world this would be without children, and what an inhuman world without the aged.—Coleridge.

Prayer

PRAYER is the peace of our spirit, the stillness of our thoughts the evenness of recollection, the seat of meditation, the rest of our cares and the calm of our tempest.

What of the Future?

THE dangers of this country are not industrial, economic or from foreign entanglements, but rather moral and spiritual. We may gain and advance and meet with successes in every field of endeavour, but we must be assured that we are fitted and trained to profit and use, and not abuse them.

We have much to say these days about self-expression on the part of our youth. More nearly is it the truth to say they express their environment, the leadership of the men with whom they are surrounded. If their elders are indifferent to the claims of religion, youth is indifferent; if men are slothful, they are slothful; if their leaders are materialistic, youth becomes materialistic and probably intensifies the faults which they copy. It is equally true that if leaders among men devote themselves to the cultivation of the spiritual life, youth will do the same. We sometimes speak of the bad habits as though they alone were catching. Good habits are just as contagious.

The indifference of parents to the matter of religious training in the homes and to the strengthening of the moral character of the youth, rests upon us, and it is a large and weighty responsibility.

It is becoming increasingly clear that education is no guarantee against moral delinquency. The breaking down of time-honored conventions, the abdication of parents of their high moral responsibility, the greater laxity in the habits and practices of social usage, the wider liberty accorded our youth, coupled with their growing sense of independence, all these conspire to emphasize the need of a moral effective religious training.

The biggest job in the world does not lie in the field of legislation. It is not the making of laws. The biggest job is not the manufacture of steel, not the erecting of colossal buildings. The biggest job is not in extending transportation lines which reach from sea to sea, nor is it in the mammoth seagoing ships which cross the trackless ocean. The biggest job to-day—and all else will ultimately fail, if we do not realize and remedy the situation—is making character and developing personality. Personality that carries with it knowledge together with responsibility, and he who carries knowledge with responsibility has moral courage born of moral character. That man, or woman, who through education, culture and refinement becomes an efficient, capable and useful citizen, has a background, a strongly directed, impelled, controlled and inspired force — namely, a strong and stable personality.

Graces have their inevitable influences as well as vices; health is contagious as well as disease.—Selected.

You must give truth time.—Carnegie Simpson.

Using Our Money

IT is quite out of the question for any person to determine just how another should spend his money; how much he will devote to his home and its furnishings; how much to personal adornment, and so on. But it is surely a sin for anyone to spend on mere luxury when so many of his brothers and sisters are without food and shelter. God will hold everyone of us to a strict accounting for the use we make of the means He has put into our hands. How can we justify ourselves if we use our money for mere adornment, which ministers only to pride, and suffer Gods poor to die for want of the necessities of life? That was a fine reply of Eveillon, canon of Angers, who said to one that expressed surprise because the churchman's rooms were uncarpeted: "When I enter my house in the winter time the floors do not tell me that they are cold; but the poor who are trembling at my gate tell me that they want clothes."

Always Something

THERE is always something better
Than the things we have attained,
Something to which we are debtor
Finer than the object gained;
And the road lies onward still
To perfection's distant hill.

There is always something greater
Than the greatest things we seek,
Which elude the proud, but later
Heaven bestows the meek;
For the things most truly great
For the simple-hearted wait.

There is always something higher
Than the love that we have known,
Something of diviner fire
Known to love and love alone.
And if life would be complete,
We must find that friendship sweet
—A.B.C.

Failure

MANY men fail in life from want, as they are too ready to suppose, of those great occasions wherein they might have shown their trustworthiness and their integrity. But all such persons should remember—that in order to try whether a vessel may be leaky, we first prove it with water before we trust it with wine. The more minute, trivial, and we might say vernacular opportunities of being just and upright, are constantly occurring to everyone; and it is an unimpeachable character in these lesser things that almost invariably prepares and produces those very opportunities of greater advancement, and of higher confidence, which turn out so rich in a harvest, but which alone are permitted to reap who have previously sown.—Bolton.

There's a Reason

WHEN young people do outstanding work in the positions they occupy, the onlooker is interested to know the reason. Sometimes it is ambition The young fellow determined to rise to the top knows he must make his mark from the start. Sometimes, although rarely, it is apprehension. There are young people filling their positions adequately because they have a dread of losing their jobs. Sometimes it is competition. There are workers who will not be surpassed by a fellow-worker, no matter how much it costs.

Some of these reasons are better than others, but the best of all is this, that young people do the best work of which they are capable because they cannot retain their self-respect and do anything else. Such young people may have their own ambitions; they may have pride in doing as well as another, but these are not their dominating motives. The real reason for their superior work is that their consciences will not let them be satisfied with giving second-rate service.—Young People's Weekly.

Life and Wealth

RICHES are intended for the comfort of life and not life for the purpose of hoarding riches. I asked a wise man, saying: "Who is the fortunate man and who the unfortunate?" He said: "That man was fortunate who spent and gave away and that unfortunate who died and left behind. Pray not for that good-for-nothing man who did nothing, for he passed his life in hoarding riches and did not spend them."

St. Paul's
Presbyterian Church
W. H. Chenhall, R.C.O., Organist.

MINISTER:

Rev. A. T. BARR
B.D., Ph.D., Brantford, Ont.

MORNING SUBJECT:
"SALVATION AND THE POPULAR MIND."

EVENING SUBJECT:
"WHEELS AND WINGS."

MEMBERS are reminded of the Meeting of the Congregation to be held at the Close of the Evening Service. The purpose of this Meeting is to decide what steps shall be taken in the Calling of a Minister.

THE SACRAMENT of the Lord's Supper will be observed at the Morning Service on SUNDAY, September 27. Preparatory Service on Wednesday, September 23, at 7.30 p.m.

THE SUNDAY SCHOOL will meet in all its Departments at 3.00 p.m. A large attendance is looked for in anticipation of the Rally Day Services.

Jottings

A DAY.

IF, invisible ourselves, we could follow a single human being through a single day of his life, and know all the secret thoughts and hopes and anxieties, his prayers and tears and good resolves, his passionate delights and struggles against temptations, we should have poetry enough to fill a volume.—Henry W. Longfellow.

• • •

THRIFT OF TIME.

Do believe me when I tell you that thrift of time will repay you in after life with the usury of profit going beyond your most sanguine dreams, and the waste of time will make you dwindle alike in intellect and in moral stature beneath your darkest reckoning.—W. E. Gladstone.

• • •

TO-DAY.

Not to-morrow, but to-day, calls for the best that is in us. Life is made up of daily performances. The nobler, sweeter and purer our activities the better for ourselves and for others.

• • •

SERVICE.

So long as we love we serve; so long as we are loved by others I would almost say that we are indispensable; and no man is useless while he has a friend.—Robert Louis Stevenson.

• • •

A COMMONPLACE TRUTH.

To restore a commonplace truth to its first uncommon lustre, you need only translate it into action. But to do this you must have reflected on its truth.—S. T. Coleridge.

• • •

EQUALITY.

We shall be equal at the last.
Be classed according to life's natural ranks:
Fathers, sons, brothers, friends—
Not rich, nor wise, nor gifted.

• • •

A CHEERFUL FRIEND.

A cheerful friend is like a sunny day, which sheds its brightness on all around.—Sir John Lubbock.

Wish at Bedtime

SLEEP sweetly in your quiet room,
As though beside you there
Your mother lingered in the gloom
To stoop and smooth your hair.
Your limbs are faint with weariness,
Your singing heart is numb;
May sleep your heavy eyes caress
Until the dawn shall come.

Sleep sweetly in your quiet room!
May childhood's fairies pause
To weave upon a golden loom
Their dreams of magic gauze.
May peace come dropping down to heal
A soul where woes abound;
And through the long night may you feel
The love that wraps you 'round!

Staying our thoughts upon God restores order and order brings calm and buoyancy.—Coffin.

• • •

Perfect love casteth out fear.—Bible.

Failure

FAILURE can't master you unless you are going to give up without an effort. Yield no concessions to failure. Ignore it. Never let a little failure slow you up. Face it fearlessly. Dare it to do its worst. It will let you alone

In a way, failure is a benefit. There would be very little improvement without it. If you fail to make a sale you are prompted to ask yourself: "What was wrong there? I should have made a sale to that man. Why didn't I?" Progress comes mostly through failures Experience comes chiefly through making mistakes and then learning to avoid them. You become a better salesman through studying failures to make sales.

Failures and opposition develop strength. An athlete does not develop strength by taking a leisurely pleasant walk. He takes a brisk walk or run up hills and over rough places, bringing his muscles into contact with opposition. He develops strength by making a vigorous effort. Success in selling would be of no value if it came without effort.

Don't let a few failures discourage you. Some of them you couldn't help. The others should teach you how to do better next time. Profit by them.

Justice is truth in action.—Disraeli.

Books

A good book is a lasting companion. Truths, which have taken years to glean, are therein at once freely, carefully communicated. We enjoy communion with the mind, though not with the person of the writer. Thus the humblest man may surround himself by the wisest and best spirits of past and present ages. No one can be solitary who possesses a book; he owns a friend that will instruct him in moments of leisure, or of necessity. It is only necessary to turn open the leaves and the fountain at once gives forth its streams. You may seek most costly furniture for your homes, fanciful ornaments for your mantel-pieces and rich carpets for your floors; but, after the absolute necessaries for a home, give me the books as at once the cheapest and certainly the most useful and abiding embellishment.

Even to the purest among devoted souls, God's will may for a time remain obscure and inscrutable.—McFadyen.

• • •

All the different kinds of prayers offered by other men are offered by Jesus—all except confession —McFadyen.

ANGLICAN

ST. JOHN'S CHURCH
Rev R. C. Blagrave, D.D. Rector
Rev. E R. James
8.30 a.m.—Holy Communion
11.00 a.m.—The Bishop of Ottawa.

SATURDAY, SEPTEMBER 19, 1931

POLICE ADMINISTRATION.

From time to time there have been suggestions made in Ontario that the present method of administering police departments by an independent commission should be done away in favor of an elected commission.

Fortunately, these efforts were unable to attain much momentum and were soon dropped.

The present agitation in Halifax against the police being under the control of municipal politicians shows how fortunate it is that in Ontario that doubtful policy does not apply, and city police forces are free to do their duty, unhampered by interference from municipal authorities, who might be more anxious about winning their next election than they are in seeing that the law is fairly and efficiently administered.

The Ontario system is not perfect by any means, but, as the Brantford Expositor points out, "it is infinitely superior to the method prevailing in the United States and some Canadian points, which places the chief of police and his men at the mercy of civic politicians, the best of whom never forget that election day comes around regularly."

If Halifax is looking for something better in the direction of police administration we would respectfully suggest that the Maritime city study the Ontario system as a businesslike way of dealing with a matter of great importance.

RELIEF AND GASOLINE.

From Niagara Falls it is announced that of 500 men who applied for relief work in that city the other morning 25 came in automobiles.

Their applications were promptly rejected, and they are to be officially notified that until their license markers are turned in they will not be considered eligible for jobs under the relief scheme.

There may be some people who will think the Niagara Falls attitude rather harsh, but there is surely something incongruous in men who ask to be given relief work continuing to drive round in motor cars.

Gasoline and relief jobs should not be mixed.

People who more or less cheerfully submit to extra taxation to provide work for others who are less fortunate draw the line at having to pay somebody else's motoring expenses.

Nobody blames a man for buying a motor car when times were good and he was working steadily, but if the reversed conditions have left it necessary for him now to seek relief work, he should realize that the sensible thing for him to do is to quit running his automobile.

Buying gasoline is inconsistent with accepting employment for which his fellow-citizens have to pay in the form of municipal and Government taxes.

THE FINANCE PORTFOLIO.

There are rumors from Ottawa that Hon. E. N. Rhodes, former Premier of Nova Scotia and the present Minister of Fisheries, is to become Finance Minister in the Federal Cabinet.

There will be general approval if Mr. Bennett should relinquish the Finance portfolio in favor of somebody, whether his successor be Mr. Rhodes or some other politician.

It has been clearly demonstrated that it is impossible for the Premier of Canada to discharge the onerous duties of that exalted position and have any time left to do justice to such an important portfolio as that of Finance.

Mr. Bennet has, it is true, a great capacity for working hard and long; his ability in that respect and the reserve store of energy he evidently has at his command have amazed those who have watched the daily routine of the Prime Minister.

But even his willingness and ability are not enough to allow Mr. Bennett to accomplish miracles; he was busy with his budget up to the last hour before it was presented, and the vast number of changes he had to make later on carried its own evidence of the fact that careful consideration of many of the budget proposals had not been possible.

If Mr. Bennett realizes his limitations and names his successor in the near future, he will be doing what the people of Canada, regardless of their political beliefs, will view as the commonsense thing.

YOUR LAST CHANCE.

With the closing performance of the Peterborough Exhibition scheduled for to-night and several special features reserved for the final program, there promises to be an unusually large last night attendance.

A record patronage will be most acceptable to the directors, both because of the financial assistance it will provide and because it will indicate unmistakably that this year's Exhibition has met with the approval of the citizens.

After all, attendance is the only yardstick by which the management is able to measure its program and thus be in a position to plan for the next Exhibition.

It is not usually difficult to induce people to visit the Exhibition once, but that does not mean a great deal when they go back three or four times in the week, however, the directors can say with confidence that their efforts have been entirely successful and their program has been generally endorsed.

Most people, The Examiner is sure, are of the opinion that for all-round excellence this year's Exhibition has set a new standard and is deserving of a record-breaking attendance.

It is your fair—and you can do your part to bring about a new mark by giving yourself the enjoyment of a final visit to the Exhibition grounds to-night

DOLE PARALYSIS.

In one of the outlying counties of England a farm laborer had been out of work for many months and had been living on the dole. He went to his doctor one day, and when he had received the required treatment he said: "Doctor, do you know, I had an offer of work some days ago which would have given me 5 shillings more a week than I am getting from the dole, but after giving it thorough reflection, I preferred to remain independent."

This amusing story is told in an Atlantic Monthly article, "Medicine and Statesmanship," by Lord Dawson, of Penn, physician of King George V. To American taste it has a quaint and foreign flavor. The notion that the willing acceptance of a dole can be thought of as a trait of independence goes against the grain of instinctive American feeling. The anecdote is illustrative of one of the greatest dangers of the dole—its insidious working as a kind of creeping paralysis of manly self-helpfulness. Willingness to take something for nothing, indeed an eagerness to get it, is a rather widespread weakness of "human nature," not confined, it is true, to the "working classes;" but the very fact that it is not peculiar or unique is all the greater reason for looking with deep suspicion upon any proposal that may tend to regularize and apparently justify escape from just responsibilities.

There are cases, of course, in which aid may be accepted from others without dishonor. Childhood, old age, sickness, accident, ill-adjustments of economic affairs for which personal responsibility is not clear, all give rise to reasonable claims of the individual upon the group. There are persons whose sense of "independence"—strangely different from that of the farm laborer of the English story—revolts at the thought of outside support even in such circumstances. They may not always be wise, but their spirit surely is more admirable than that of this British farm laborer.—St. Catharines Standard.

THE JIMMIE WHO LUNCHED WITH RAMSAY.

With Miss Ishbel MacDonald on his right and Lady Van Sittart on his left, New York's Jimmie Walker on Monday sat down to luncheon at 10 Downing Street. And while the author of "Will You Love Me in December as You Do in May" was sipping his coffee in such charming and distinguished company, a legislative committee in New York was deciding that immediately he returns home Jimmie will be summoned before it to tell how his trip to Europe came to be arranged for by one David Maier, a former convict, who, incidentally, took passage on the same boat.

It is a curious story. Some years ago, when a New York gambler named Herman Rosenthal was shot down before the Hotel Metropole, an indignant city launched an inquiry into police-protected vice. One of the witnesses called was a plump little 40-year-old German named David Maier. He had been a brothel keeper. During the investigation he had offered a hostile witness $50 to pervert his testimony. In March, 1914, David Maier went to trial for bribery. On the witness stand he was asked and answered these questions:

Q.—You have been in the disorderly house business how many years?

A.—Twelve or 14.

Q.—And you were convicted of running a disorderly house?

A.—I was.

Q.—What was your sentence?

A.—I was fined $150.

A jury convicted David Maier on the bribery charge. He was sent to Sing Sing where he served two and one-half years.

Two weeks ago the legislative committee, which, under Attorney Samuel Seabury, is investigating graft charges in New York, wanted to question ex-Convict Maier, now grown rich and politically important, about a certain city pier lease. But the one-time brothel-keeper was not to be found; not until the newspapers discovered that he was cavorting over Europe with its distinguished songster mayor.

Seabury investigators discovered that David Maier had sailed on the Bremen with Mayor Walker last month, had occupied an A deck cabin close to his. They also found that he had been given free passage, presumably for booking the Walker party on a German line. The mayor's passage had been paid for, apparently, but not by the mayor so far as accountants could find.

When Mayor Walker reached Paris and took a suite at the Hotel Crillon, correspondents flocked in to ask him about his travelling companion. Unabashed, the mayor declared: "Dave Maier is a true friend of mine. There's the little Dutchman. Get a good look at him."

Maier stepped up beside the mayor for inspection. Continued Mayor Walker: "He organized the Steuben Society and is president of it. A million people in my town have honored him on more than one occasion and think that he's a distinguished citizen. I'm not disowning him as a friend because the Seabury committee is after him. I never go back on my friends."

Perhaps Lady Van Sittart, sipping coffee with Jimmie was blissfully unaware of the character of Jimmie's friends. Yet perhaps she knew. It's a caution what one may get away with, in the matter of luncheons, if one happens to hold a position like the mayoralty of New York.—Ottawa Journal.

EDITORIAL NOTES AND COMMENT.

There is still time to boost the Exhibition attendance. See the big fair to-night.

London reports that a band of chicken thieves is using carbon monoxide gas in its activities. Up-to-date fellows, those Middlesex poultry thieves.

Manitoba's Government is giving municipalities a larger share of the revenue from land taxes. In this Province the Government increases the municipalities' share of the expenditure.

One gleam of hope is offered in Ottawa trade statistics. Canada's unfavorable trade balance is rapidly being reduced.

Kitchener's mayor objects to the small unemployment relief program authorized for his city. Certainly the Government does not appear as anxious as the municipalities to take care of the unemployed adequately.

Even Sault Ste. Marie reports a "jungle" in which the transient unemployed are living. But how do they protect themselves against the Algoma wolves?

Marathon swimmers should get a prize for their ability to achieve bounding good health.—Toronto Globe.

(Continued from yesterday.)

INSTALMENT 10

It was mid-afternoon before Fabia located Nebraska street. It was a new street. It must have been a swamp once, she concluded, when finally she turned her car into it. It had all the appearances of made land, and made chiefly of rubbish. There were still indications of bottles and tin cans. It was bordered by clumps of burdock and beach grass. There were no definite sidewalks. There were only four houses on the street. They were all exactly alike—brown-shingled, of the bungalow type—each with a single-door garage attached.

Number 21 proved to be the last house on the right. When she pressed the electric bell, the loudness of the response startled her. It was accompanied almost instantly by the excited barking of a dog (so Thad's murderer owned a dog himself, did he?)

Fabia rang the bell three times, to the increasing agitation of the dog. She went around to the back door finally, and knocked, pounded even, but with no result, except to throw the dog into a state of hysteria. She went around to the front door again and stood considering. Her common sense told her she had better go home and leave all the details to Mr. Haverford.

But there was something in Fabia that protested against defeat. No! She would not go home yet! She would sit down on the front steps and wait a while.

At the end of half an hour she was rewarded by the approach of a woman in the distance—a short, fat, round woman, who, as she drew nearer, Fabia discovered, appeared father and rounder because of a large, open-mesh string-bag which she carried, filled with many bulging bundles. Fabia stood up and awaited her arrival with an air of great dignity and an expression of hostility upon her face.

But the woman was unaware of both the dignity and hostility. She almost ran up the porch-steps, held out a short, fat arm to Fabia, and panted, "How do you do!" her face covered with a net-work of genial wrinkles. "I'm sorry no one was home. I been in town shopping. I declare, listen to that dog! Be quiet, Bud! Be quiet! He's just about crazy if he's left alone. Are you one of the Girl Scout Leaders?"

"No, I'm not," Fabia hastened to reply. "Are you Mrs. Daniel Regan?"

The woman had turned toward the door with her key now. "Yes, that's me," she replied, turning around. "I know what you are now," her smile was arch and playful. "And I'm real glad I got home before you went. You're one of the young ladies on the Neighborhood Committee down at our church, and I'm on your calling list."

"No, no, I am not," again Fabia hastened to deny. "I'm—I'm here on business."

"Oh, business! Well, that's interesting. I'll just get my bundle; and then you come in and tell me about it."

"I'll get them," said Fabia, her training working quicker than her judgment. She had come to make trouble for this woman.

"That's real sweet of you," said the woman. "Lands! Listen to that dog. Be still, Buddie. Be still"—and she turned and unlocked the door.

The sitting room was furnished with a three-piece set of stuffed parlor furniture, consisting of a huge sofa covered with plum-colored figured plush and two armchairs to match, very thick in the arms and back; an oak morris chair with leather cushions; a red mahogany center table with curved legs; a combination desk and bookcase; an upright piano; a radio; several smoking stands; a pipe rack; a Boston fern and a rubber plant. Fabia sat down on the edge of the morris chair and gazed about her with wondering eyes. Through a wide opening opposite she could see the dining room. There was a table in the middle, all set evidently for the next meal. A very large piece of cheesecloth had been spread over it to protect the dishes from dust. There was a couch in the dining room, with a raised headpiece; a roll-top desk (Fabia had never seen one before); a sewing machine, and a canary bird in a round cage.

When Mrs. Regan reappeared, the dog was dangling from under an arm. Evidently she had not glanced into the mirror since removing her hat. Her hair—white as Grandmother Vale's—was very untidy. She had very red cheeks. They were covered with a network of dark red veins—like a red-veined begonia leaf, thought Fabia, when you hold it up to the light.

"Now," she said pleasantly, "I can talk a little while. What you got to sell, dearie?"

"I've nothing to sell. Will you husband be home soon? It's your husband I've come to see."

"He ought to. He's a foreman down in the big brick yard you must have passed on your way here. While we're waiting, let's have some tea. All I had for my dinner was a cup o' coffee and a sandwich at a Waldorf."

Fabia had had nothing for her lunch, but she shook her head emphatically. "No, I don't care for any tea, than you." Of all things she must not accept hospitality from this woman.

"Well, I'm going to have a cup. You can come out in the kitchen and watch me. I got to get things started fo supper, too. Your home around here?"

"Not very far away. I'll sit here if you don't mind."

"Suit yourself, dearie. I'll bring the tea in—and perhaps I can tempt you with a bit of cake—or something. I don't see many people. I just get sick for people sometimes. I don't like living down here very well. We used to live in the city—but the doctor said my little boy Jimmie might pick up if I'd take him every day and give him sun-gaths on the sand. But it was too late. We didn't move back afterwards, because it's so convenient to Daniel's work—and he does love his patch of garden. He's got a real nice garden in the back. You'll excuse me, dearie, won't you?" She stood up. Come, Buddie, we'll start some tea.

Daniel Regan arrived before the tea was ready. It was dusk when from the front window of the bungalow Fabia saw an automobile draw up. It was the automobile that had killed Thad! It bore the incriminating number. It was a touring car, of some old make with which she was not familiar. Its top was raised and its side curtains lowered.

From out of the back seat she saw the figure of a man emerge, in loose shapeless clothes and a visor cap. He carried a box in one hand—a lunch box evidently. He placed it on the running board and then extricated a bicycle from the back of the car. He entered through the kitchen. Fabia heard another vociferous greeting from the dog.

"Good evening," he said a moment later in a big, hearty voice.

Fabia stood up.

"Good evening."

"What can I do for you?" he inquired, as if in the habit of granting favors.

He was a very tall man and very powerful-looking. His hair was black and thick, and grew with a sort of virulence and flowing grace. There were a few white hairs in it, as evenly distributed as if set in separately—like the white hairs in imitation pointed fox. He had very heavy eyebrows, and the lower part of his face looked sooty. In appearance Daniel Regan was all his name suggested to Fabia. But she was not afraid of him.

"Is this your name and address and the number of your car," she inquired, with all the hauteur she had inherited and acquired, and she handed him a piece of paper.

The man took it in a hand covered with long black curling hairs.

"It sure is," he replied pleasantly. "Where'd you get it?"

"At Registration Headquarters."

"Well, that's interesting."

Fabia ignored this comment. "Last night at six o'clock," she said, "or possibly a little after, you ran over a dog, Mr. Reegan, with your automobile and didn't stop. It was my dog. He has died since. I have come to tell you I have put the case into the hands of the best lawyer I can find."

"Look here, Miss, will you say that over again, and slower,"

Fabia, standing a little straighter, and even with more hauteur, repeated her last speech.

"Why, Daniel, what's she saying?" suddenly burst out Mrs. Regan from somewhere in the rear. "What's she talking about?"

"He ran over my dog, Mrs. Reegan, and left him dying on the side of the road last night at six o'clock."

"Why, he didn't any such thing. He was here, setting right in that morris chair, smoking his pipe, last night at six o'clock."

"Be still, Lizzie," Mr. Reegan flung back at his wife quietly. "It was night before last I was setting here smokin' my pipe."

"Why, Daniel Reegan—"

"You keep out of this, Lizzie," he ordered. Then to Fabia, "You can run over a dog in the dark and never know it."

"Oh, you knew it, Mr. Reegan! You slowed down, you remember. That's how I got your number."

"Well, that's interesting. Say, let's you and me set down and you tell me just where and how all this happened."

"My lawyer will tell you that. I came just to tell you a man can't do a thing like that and get off scot-free."

"My, but you got a lot of spunk! Now, you say it was about six o'clock last night. Just what part of town was it? I was all over last night."

Before Fabia could answer, the front door swung open. A young man entered—a tall young man—a tall dark young man—a tall, dark, familiar young man.

At first Fabia could not believe her eyes. It had been so dark in the laundry. Was this really the young doctor, or did he just resemble him? She stared at him speechless. He stared back, also speechless, his hand still on the knob of the door.

"This is my son, Miss. Come in, Dan. This young lady says I ran over her dog last night and killed him when I was out with the car about six o'clock. You remember I was out with the car, Dan."

"Thanks, dad," said the young man shortly, crisply, tossing his hat upon a chair, "but this is my affair. I know this young lady. I'd like to talk to her alone, please."

"Why, Danny," sputtered Mrs. Reegan, "you don't mean to say that you—"

"Please, mother."

"Look, here, son," put in Mr. Reegan "don't be a fool. Let me talk to the young lady—seeing how it's my car and I ran over the dog, and your time so important and all. Let me—"

"I know what I'm about, dad. Please go, both of you," he interrupted with the same commanding manner Fabia had observed last night. Apparently this young man was used to being obeyed, even by his parents.

"Well, well, have it your own way," shrugged Mr. Reegan, pimlying he had faith it was probably a wise way. "Come on, mother, we'll go." Mr. and Mrs. Regan turned and left Fabia alone with their son.

(To be continued)

News of Our Own Village

The agricultural society's fall fair has been held here all this week, and they ain't been much else going on in these parts, owing to the same.

The carnival what played at the fall fair this week advertized 11 rides, but the villagers was took for more than that, our scribe learns

T. L. Kennedy, of Toronto, west of us, who is the boss of Geo. Henry's Dept. of Agriculture, dropped in Wed. to see the fair, and et at Graham's Hotel with some of the lads from the agricultural society.

Doc. Fricker, of Toronto, west of here, gave a concert on the new organ in the Main St. United Church Mon. nite. Doc. can sure manipulate the stops and such.

The Packing Co. threw a party Wed. nite for the young farmers attending the fall fair, and a good time was had by all and sundry. These get-togethers is in the interest of bigger and better hogs, your scribe is informed.

A brass band from England, well to the eastward, dished out the music at the village fair Mon. and Tues., and folks is sorry the lads didn't decide to settle down here so they could hear tunes like that every week. Come again, boys, say we.

The electric works is starting to build its new golf course, but they ain't no hurry about ordering plus 4's as the grounds ain't likely to be ready for a while yet, if then.

The village ambulance brigade was on duty at the fall fair this week, but couldn't do nothing for the folks whose pocketbooks was operated on along the midway.

Rolly Denne, our worthy mayor, will be back in town Mon. after spending the week at the fair grounds, just south of here.

Business as usual is the slowgan for next week, although the village merchants is hoping it will be better than that.

IN DAYS GONE BY

Items Taken From Old Fyles of The Examiner

SEPT. 19, 1921.

Sergeant Reid has been promoted to Inspector of the local police department. Six farmers, charged with unlawfully failing to make returns of their 1919 incomes, were fined $50 in court this morning..... Bread prices were cut to 20c a loaf by Peterborough bakers to-day..... Yesterday's attendance brought the total to 24,674 admissions to the Exhibition, making an increase of 1626 over last year.

SEPT. 19, 1911.

An exciting runaway from the Market Square up Charlotte street to the G.T.R. station, occurred yesterday when a team took fright, but little damage resulted..... Premier Stolypin, of Russia, was killed yesterday by assassins, who were captured..... A fire at the gas works yesterday when a team took fright, Fire Department after a hard battle..... Several Hamilton runners have requested entry blanks for The Examiner's Thanksgiving Day road race..... A reunion for all local Scottish residents, will be held on September 22nd, in Knox Church.

SEPT. 19, 1901.

Lord Strathcona will be host to the Duke and the Duchess of Cornwall on their short stay in Montreal..... Mrs. Kendry was elected president at the Woman's Christian Temperance Union's annual meeting last night..... To-day has been declared a day of mourning through out Canada, with flags at half-mast, in sympathy with the Americans loss of their President by an assassin's bullet..... The Royal Canadian Humane Association will recognize the heroic work of Mr. Z. LaPlante, of this city, who rescued two boys from drowning in Little Lake.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them inserted.

THE MIDWAY

The Editor The Evening Examiner,

Dear Sir.—You have naturally been boosting your Ex. and giving it the highest possible praise. Why not forget about the wonderful ex- [illegible] ed at once, and then leading him into giving more and more until sometimes he parts with all he has. No, dear reader, I didn't lose a cent and have no personal axe to grind.

The general public may say that people should know better but just watch these men(?) work and learn how smooth they are. And how fast. To see their system go in via George street gate and turn to your left. Go up half way through the midway and on your right hand you will see a man giving away, apparently, pens. Of course you are greeted with the usual "Come on over. Get your free souvenir, etc.; as soon as you step up to the booth you are jammed in by two or more young fellows who seem interested also, but who in reality are part of the hold-up. The souvenir disappears somehow and the head [illegible] gets you to loan him a dollar for change or any other excuse. Next you are invited to turn over an open box under which are some numbered blocks and you are joyfully informed you have won some thing you didn't know you were playing for. He gets two dollars for change next time and so it goes until it is just a question of when will you wake up to the fact that a bunch of skunks are taking you for your roll.

It is a disgrace and a black mark for your city that such things are allowed to operate. Talk about the old time shell game which is banned. Men lost up to $25 there today, but they were carefully picked as suckers by the gang. They took one old fellow, who was so old that someone really should have been with him. Possibly it was his pension that was gone before he was aware of it.

Yours truly,
Peter Brite

Voice of the People

FARMERS AND ROAD TAXATION

To the Editor of The Examiner.

Sir,—I have just paid a visit to the Peterborough Industrial Exhibition, and there I found Government men telling farmers how he should grade hogs, test cows' milk, drain land, have sanitary stables, and everything in connection with runing a farm. But I did not see anyone there offering a solution which would aid the farmer in meeting his heavy tax bills let alone interest on his mortgage, or his hired help, which the Government tells him he must pay a certain wage.

My view of the farmer's situation is that as the roads were built by our fathers and we farmers, they should be maintained by a gasoline tax. Then every man who uses the road would be paying for what value he was getting. The farmer does not use roads with wagon or buggy like he formerly did. If he has hauling to be done, he hires a truck for two reasons—first, roads are too hard and he is unable to keep tires on his wagon; second, the roads are not safe for he is hooted off by people who are not paying taxes.

My taxes this year are more than $500, and I have a car that has run 7,000 miles in a year and a half. I was looking at another man's speedometer the other day, on a car that was new last fall, and it registered 25,000 miles, and he does not pay one cent of taxes, nor has he ever. Why do the County Councils not go to the government and refuse to pay any more money for roads, then Mr. Henry would be forced to tax the man who uses the roads for their maintenance and building.

The gentleman who addressed a local service club in Peterborough this year who said the farmer was in a rut if he was not making money, apparently does not understand conditions. I wonder if he is of the same opinion now?

G. W. FIFE.

RADIO IN BED!

British Manufacturers Produce A Pillow Receiver At Low Cost

A pillow in which is concealed a loud-speaker will be one of the novelties of the National Radio Exhibition, which will be held at Olympia from Sept. 18 to 26.

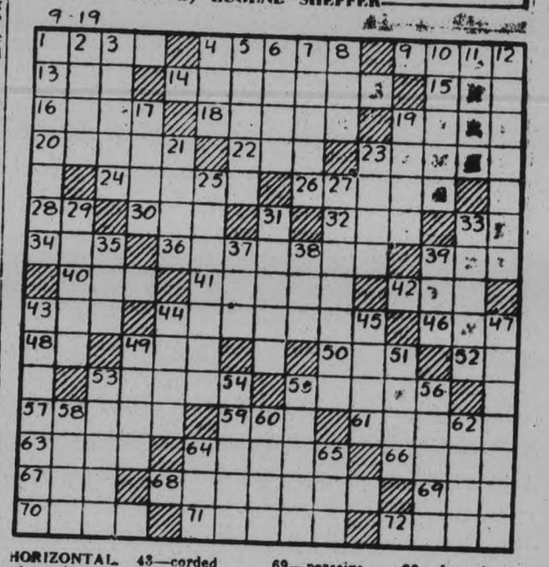
The possessor of this radio pillow can rest his head in comfort on it while the music is playing.

Another new departure will be a set for hikers, weighing only 12 lbs. complete with headphones and two valves specially mounted to prevent breakage, and fitting snugly into the haversack.

Today's Cross-Word Puzzle

By EUGENE SHEFFER

9-19



HORIZONTAL.

1—make a hole in
4—one of the leaves of a corolla
9—ship's company
13—period preceding event
14—a director
15—to row
16—one of two equal parts
18—marked for omission
19—part with unintentionally
20—watchful
22—adult males
23—a flower (pl.)
24—a dressmaking fabric
26—something that gives unusual pleasure
28—expression of inquiry
30—bond
32—shade tree
33—that man
34—turf
36—reward in excess
39—food-fish
40—by way of
41—made mistake
42—to interdict
43—corded fabric
44—bigger
46—by
48—either
49—existed
50—a rodent
52—you
53—causes to change place
55—in activity
57—swarming
59—fate
61—flush with confidence
63—a spike or prong
64—flavor
66—told falsehood
67—culmination
68—a source of income
69—perceive
70—writing table
71—doctrine
72—shuts in

VERTICAL.

1—comports oneself
2—roughly elliptical
3—lease again
4—cushion
5—foe
6—narrative
7—dogs
8—conducted
10—perch upon
11—alleviate
12—forced away
17—worry
19—a kind of soil
21—set of three
23—depend
25—turned backward
27—text-books
29—linger about
31—to dress
33—a secretion of bees
35—plunge momentarily into liquid
37—before
38—cherished
39—to crown
43—turned on an axis
44—bestowed gratuitously
45—degree of value
47—withdraws
49—entwined into a texture
51—money-drawer
53—pays attention to
54—serf
55—makes amends for
56—elevate
58—cover inside surface of
60—baking chamber
62—a pound
64—place
65—track worn by wheel

Herewith is the solution to yesterday's Puzzle:

New Lows Established On Canadian Exchanges

VIOLENT DECLINES WITNESSED ON CANADIAN STOCK EXCHANGES DURING PAST WEEK'S TRADING

Brazilian Traction and Noranda Among the Issues to Suffer Setbacks.

POOR BUSINESS NEWS.

Smelters Breaks $12 in a Week to $55—Oil Stocks Are Inactive.

By THOMAS C. THOMPSON

TORONTO, Ont., Sept. 19.—(CP)—New low prices for the year or longer were commonplace on Canadian stock exchanges this week, when all varieties of stocks passed through the most violent decline witnessed in recent months.

The recession was gradual until Friday, but the cumulative effect of persistent selling destroyed much of the confidence of traders who then rushed into an already demoralized market to liquidate their holdings before the week end. There was a disconcerting drop in Brazilian Traction, Smelters, Noranda, and other representative shares lef. little reason for cheerfulness as the week drew to a close. Oils were quiet, but they too declined in price, while Canadian Power and utility issues reached new low levels for the bear market, and even gold stocks dropped sharply on the mining market.

Unfavorable News.

Added to a stock market situation that has become disheartening to say the least, was an influx of unfavorable business news. The pound sterling developed new weakness. The Canadian dollar was quoted at more than 1½ per cent discount at New York.

Copper metal broke to a new all-time record low price, and there was the usual batch of dividend reductions and omissions. True, the outlook for the wheat market assumed a more hopeful aspect, with the prospect of a lighter crop and higher prices for Canadian grain, but this was offset in large measure by further declines in a number of other commodities.

Attacks against the New York leaders completed the rather depressing background of the Canadian market. Aside from a spectacular drop of $300 a share in bids for the stock of Sun Life Assurance of Canada on the over-the-counter market, there were a few declines that compared in size with losses among New York issues. In the case of Sun Life, quoted at $650 against $950 a few days ago, officials of the company announced that there was no particular significance in the precipitous decline except that it was in sympathy with the general market mood of the moment. Canadian-listed issues did not, however, indulge in such breath-taking financial acrobatics.

Brazilian Traction's drop to $11 from $14 last week was accompanied by heavier liquidation of the stock in Montreal and Toronto. Nothing in the week's news had a new or unfavorable bearing on the company's position and the decline in the stock was due, it was thought, largely to liquidation by tired investment holders.

Break in Smelters

Equally disconcerting was the sharp break in Smelters to $64 and closing on Friday at $65 the shares were no less than $12 below last week's figure. C.P.R. at $17⅛ is only a small fratcion below its price of a week ago. Ford of Canada "A" finally reacted to selling and declined from 17¼ to 16. Walkers at 4¼ compares with 4⅞ last week, while Massey Harris at 3¼ is still hovering around its low price for the year.

International Nickel maintained its position of leadership in trading volume, but remained within a price range of 11¼ and 9⅝. The shares at their preesnt quotation of 9⅞ are more than a point below last week's closing price.

The copper metal situation also reflected itself in heavy liquidation of Noranda and an accompanying decline in the price to $16.80, compared with $18.75 a week ago. Other base metals shares gave way on the Standard Stock and Mining Exchange while the gold shares, including Dome, Hollinger, Lake Shore, Teck-Hughes, Wright-Hargreaves and McIntyre, also reflected the selling pressure at the close of the week.

Oils Are Inactive

Oils were not numbered among the active market leaders and their price changes were not of major importance. International Pete at 10¼ compares with a price of 11¾ last week, Imperial Oil has declined from 12⅞ to 11⅝, and British American Oil at 10¼ compares with 11 last week.

Power and utility shares including Power Corporation, Shawinigan and Montreal Power held the centre of Montreal traders. Power Corporation entered new low ground for the year at 36½ and Shawinigan also broke through its previous resistance level at Montreal when it sold at 32¾, but it subsequently recovered to 33, a net loss of approximately $4.50 for the week. Montreal Power broke to a new low of 38 against 42¾ a week ago, while Bell Telephone at 125 established a new low price for the year and a $7 decline for the week.

Liquidation of bank stocks was a fature of the closing session and losses ranging as high as $6 a share were shown by some members of the group.

San Salvador will tax postal cards to raise funds for a new post office.

Dollar Slumps To 97½ Cents

NEW YORK, Set. 19.—(CP)—The Canadian dollar was quoted at a discount of 2½ er cent in closing transactions on local foreign exchange markets today.

This discount was 13-16 higher than the rate quoted at the close yesterday, and brought the value of the dollar locally down to 97½ cents, only half a cent higher than the low recor d of 97 established in November 1929.

29,000 SHARES CHANGE HANDS

Heavy Liquidation Continues During Morning Session on Toronto Exchange.

LOSSES GENERAL.

TORONTO, Ont., Sept. 19 (C.P.)—The wave of liquidation which swept over Toronto Stock Exchange Friday, carrying the average of prices down to a new low level at 44 continued to pour into the market this morning, and values were carried still further downstream. It was the heaviest Saturday session in months and sales amounted to more than 29,000 shares, which exceeded the day's turnover for the full five-hour session.

Bell Telephone was again a chief target for the bears, being forced down 3 points to 123, a new record low. Brazilian set a new low at 10⅝ before firming slightly to 11 and better. Montreal Power made a new bottom price at 38, Steel of Canada a new low at 21½, down approximately 2¼ points from last night.

Page-Hersey Tubes lost a point, selling down to 71¼, its lowest on the current movement. International Nickel for a time met with support at its old low of 9⅛, then broke through that level to establish a new low at 9⅛. Noranda was off fractionally. Smelters made a conspicuous move by gaining a point over last night's close. Walkers at 4, Distillers at 7 were both at new lows.

Oils eased fractionally, foods were weaker and individual industrial stocks went lower again, though losses in such instances were not as severe as Friday.

GRAIN STORAGE OFFERED FREE

Hon. R. J. Manion Announces Wheat Must Be Delivered at Churchill Before November.

SPEED 1932 SHIPPING.

WINNIPEG, Sept. 19. (CP) Grain may be stored in the elevator at Churchill, Manitoba, during the Winter to permit of early shipment when navigation on Hudson Bay opens next Summer, Hon. R. J. Manion, minister of railways and canals, intimated on his arrival here yesterday.

Full of enthusiasm over the completion of Canada's new ocean port in the north, Dr. Manion and his party arrived here from Churchill after attending the loading of the first two grain boats. Immediately on his arrival the minister received word that the first of the boats, the Farnworth had sailed yesterday morning with 277,000 bushels of wheat.

"I have been discussing with my officers the possibility of storing, without charge, some grain in Churchill elevator this coming Winter' said Dr. Manion, "and if we are offered up to 1,000,000 bushels to be delivered to Churchill before Nov. 1 we will arrange to store it free until July 1 next.

"The reason the time must be limited to Nov. 1 is that by the middle of October our complete staff at Churchill, including the elevator staff is being withdrawn until next season, and naturally we do not wish to add to our already heavy expense by having to keep the elevator staff on beyond Nov. 1."

Accompanying Dr. Manion was Hon. T. G. Murphy, minister of the interior. Hon. Hobert Rogers, and Arthur Merriam, Premier Bennett's private secretary.

Interlisted Mines Suffer Setbacks

TORONTO, Ont., September 19 (C.P.). — The bear element came back to the fray with renewed vigor on the opening of the Standard Stock and Mining Exchange today. Interlisted stocks displayed overnight losses that were increased as the session progressed and broad declines appeared among both higher and lower priced golds. A stiffer tone around the end of the first hour failed to improve the list and the closing tone was particularly soft.

BRITISH BOY MARINERS SAIL INTO ZEEBRUGGE

(1) Sir Austen Chamberlain, complete with monocle and snugly rolled umbrella, is seen arriving at 10 Downing St. with Sir Philip Cunliffe-Lister for a meeting of the new National cabinet. (2) Foundations of the Old Ship Inn at Winchelsea were recently undermined by an especially boisterous high tide which also forced 500 bungalow-dwellers to flee from the Sussex coast. (3) Manned by 21 boy mariners, under command of four seasoned officers, the two-masted schooner Maisie Graham has been cruising the channel and North Sea, paying visits to Zeebrugge, Ostend and other ports. The trip is part of the lads' training for merchant marine service. (4) One of the youngsters at the schooner's wheel, bringing her into Zeebrugge under the guidance of an officer.

N. Y. LOSSES LESS SEVERE

Slump in London Securities Attributed to Financial Unsettlement at Amsterdam.

HEAVY SELLING.

NEW YORK, N.Y., Sept. 19.—(C. P.) — Securities markets flopped again to-day, but the fall in stocks was broken by extensive bear repurchases, and losses were less severe than yesterday's.

Pressure against sterling exchange and British money was again unsettling. Speculators were anxious to sell sterling short, but were discouraged by leading banks. Much of the slump in London securities and in sterling exchange was attributed to financial unsettlement in Amsterdam, and the selling by the Dutch of the British securities.

Domestic affairs failed to account for the large-scale selling in New York, and brokers were inclined to regard much of it as due to unreasoning hysteria. Furthermore, there was again active selling in this market from abroad. Stock sales for the two hour session were well over 2,000,000 shares.

From the steel trade it was reported that output in the Youngstown area next week will be around 39 per cent. of capacity, but there had been little hope that the recent sudden bulge to 41 per cent would be fully maintained.

The stock market showed signs hour, but selling appeared in large volume toward the close, and the of rallying for a time in the first new high speed ticker did not print the final transaction until 12 minutes after the close.

American Telephone was again a weak spot, dropping 3 points, and closing within less than a point of its low. Rails held up fariy well, and such issues as New York Central, Pennsylvania and Union Pacific finished about unchanged. New Haven, however, lost nearly 3, and Southern Pacific lost 1¼. Norfolk and Western, in which the market is rather thin, lost 7 points.

FARMERS AIDING STRIKING MINERS

1,400 Unemployed to Take Field if Strike-breaking Attempted.

ESTEVAN, Sask., Sept. 19—(CP)—While coal operators of the Bienfait coal fields were in conference with the provincial cabinet in Regina, discussing ways and means of ending the 11day strike here, Martin J. Forkin, acting secretary of the Miners' Union, made the announcement last night that he had received definite assurance 1,400 unemployed men would come to Estevan if strike-breaking were attempted.

At a massed meeting of the strikers held at Bienfait, statements were made by officials of the Miners' Union that the United Farmers of Canada and the Farmers Unity League of Saskatchewan were shipping food stuffs to the striking miners.

Obituary

SAMUEL R. LEGGOTT

Samuel Richard Leggott, aged 76 years, passed away in Nicholls hospital this afternoon after an illness of two months. He was a well known resident of Lakefield having lived there for the past thirty-one years.

He was born in Rochester, son of the late Mr. and Mrs. Samuel Leggott, and for years was a superintendent of the Hydro Electric Commission and formerly a member of the Toronto Police Department.

Surviving are his wife, of Lakefield; one daughter, Henrietta, of Lakefield and two sons, Samuel Leggott, of Belleville and William of Oshawa.

Funeral will be held Monday afternoon. Private service at the home 2:45 p.m., and public service from St. John's Anglican Church at 3 o'clock. Interment in Lakefield cemetery.

TOM CREAVY LEADING

PROVIDENCE, R.I., Sept. 19.—(CP).—Tom Creavy, young Albany, N.Y., golf professional, today was two up on Densmore Shute of Hudson, Ohio, when they completed the ninth hole of their 36-hole P.G.A. championship match here at Wannamoisett.

WELSH PEAK CLAIMS ANOTHER MAN'S LIFE

Climber Was Overcome by Heart Trouble

Cader Idris has once again been the scene of a climbing tragedy.

A visitor, Mr. A. M. Lickfold, aged 54, of independent means, living at Sypress villas, Ash, Aldershot, was found dead at Foxes Path, near the summit.

He was staying with his aged mother at Barmouth, and on Wednesday started to climb the mountain. He was seen at the summit, but as he had not returned at a late hour a Manchester visitor proceeded up the mountain and found Mr. Lickford dead on the path.

At the inquest at Dolgelley a verdict of "death from heart failure" was returned.

BRIDEGROOM VANISHED

An hour before his wedding James Driver of Coalville, disappeared at Ibstock (Leicestershire). He was to have married Miss Elsie Burton, and an hour before the ceremony he called at her house. She has not seen him since.

NEW WOMEN'S HOSTEL FOR LONDON'S POOR

Salvation Army Provides Huge Home for Hapless Females

London.—An old London county council school in French Street, Whitechapel, E., has been bought by the Salvation Army, and is being converted into a great new hostel for homeless women. The total cost of the scheme will be £37,000. Of this amount £11,500 has already been subscribed, among the donations being an anonymous gift of £5,000.

When the new hostel opens in December it will be one of the most up-to-date places of the kind in the world, providing accommodation for 250 women.

Most of the beds will be in large dormitories, but a woman with a baby will be able to get a separate room to herself with a cot for the child, for a shilling a night.

Fire broke out recently in the Old Carron Inn of Falkirk, one of the historic landmarks of Stirlingshire. Burns scratched a poem on one of its windows.

W.M. GROUPS VISIT SOCIETY IN MADOC

MADOC, Sept. 19. (Examiner Correspondence).—The W.M.S. of Trinity United Church Madoc, entertained members of the W.M.S. of Queensborough, Hazzard's, Cooper, Eldorado, and Ivanhoe at their parlors in the United Church on Thursday afternoon, September 17. The rooms were beautifully decorated with lovely fall flowers, and the many small tables were adorned with vases of roses, and with the snowy tablecloths, silver and glasses made a very gay appearance.

The program was chiefly furnished by the guests. Opening devotional exercises were conducted by Mrs. S. Ashley, President of Madoc Branch. Mrs. F. Dafoe gave an inspiring address on prayer, urging that necessity on the members for the furthering of their Missionary work. Mrs. Howard gave an interesting reading entitled "Lizzie Johnston's Quilt" which was followed by a discussion by the members of Cooper Branch on Home and Foreign Missions ,those presenting the claims of Home Missions being Mrs. Ferguson and Mrs. Wyatt, while Foreign Missons were presented by Mrs. Moore and Mrs. Harris. After singing of "Take Time to be Holy" Mrs. Hinchcliffe of Eldorado read Mrs. Fred Comerford's report of the Branch Convention recently held in Peterborough, which was most interesting, instructive and inspiring.

Mrs. Keene of Queensboro gave an excellent paper on "New Testament Missionaries" after which Mrs Melvin King sang a solo, "I Love to Think of Jesus", the pianist being Mrs. A. Wyatt. Mrs. George Harris of Hazzard's gave a short talk on "The Miracle Songs of Jesus" dealing with the Poet of Nazareth as His life was spent—in the home village—in the school—in the shop—in the neighbour's homes—by the sea—and on Calvary.

Mrs. Lovelace of Ivanhoe read a paper prepared by Mrs. John Clements on "Our Obligations" 'dealing with these from the standards of Look, pray, give, go. After singing "I am Thine, O Lord", the closing prayer was offered by Mrs. G. W. Rivers. A pleasant time was spent socially over the tea-cups and the dainty lunch served by the home members.

These gatherings of the W.M.S of the district will do much to further the friendships between the members of the different branches who otherwise seldom have the chance to spend a social hour together. A hearty vote of thanks and appreciation was tendered by the visitors to the hostesses of the day.

Becoming entangled in the oars of the Eton crew, a swan spoiled an exciting finish in the annual eight-oar race between Eton and Windsor near Windsor, England.

LEAD ISSUES HOLD STEADY

Although General Tone is Weak on Montreal Exchange This Morning.

DOMINION GLASS DROPS.

MONTREAL, Que., Sept. 19—(CP)—Stocks sold off on a wide front on the Montreal Stock Exchange today in one of the busies; Saturday sessions of the year. Though key issues were fairly steady, the remainder of the list was definitely lower at the close of the short session and many new lows were recorded.

The biggest drop of the morning was in Dominion Glass, which sold at 82 for a loss of 8 points under the previous board lot sale, establishing a new low mark. Canadian Pacific Railway slipped ½ to a new low at 16½. Nickel dropped ¾, closing at 9⅛, a new low. B. C. Power "B" was under pressure and registered a loss of 2 points at a new low of 26. Steel of Canada sold off 2 points to 22. Canadian Car preferred was off to a new low mark at 14¾, off ¼, and General Steel Wares slipped ⅝ to a new low at 1⅜. Smelters broke sharply to 65, which was 5½ points below yesterday's close.

It was a new low figure for that stock, though several odd lots at 65 appeared yesterday.

SMALLER ACREAGE FOR FALL WHEAT

Long Dry Spell Makes it Hard for Farmers to Get Land in Condition.

(Examiner Correspondence)

BAILIEBORO, Sept. 19.—No relief has yet been given to the parched lands and pastures through rain. Fruits and vegetables in the district for the past week have been cooking under the burning sun.

Owing to the long, continued dry spell there will not be nearly as large an acreage of fall wheat sowed this fall. Farmers are unable to get their soil in a proper conditions for seeding. It is estimated there will only be two thirds the acreage sowed.

There are a number of farmers who partly through the dry weather and partly on account of the price of wheat, have decided not to sow any wheat this fall. The potatoe crop is fair and is now ready to dig.

Perhaps the greatest drawback of the long continued dry spell, is the water shortage in the district. Many of the wells and springs have dried and farmers are already forced to haul water for their stock. This makes a most serious condition, for when the wells have dried up so early it is scarcely likely that they will replenish until the spring freshets arrive, and it makes a lot of hard slavery for farmers to haul water as far as four to six miles, as many do.

India's 1931 wheat crop is estimated at 9,302,000 tons.

Twenty-two vessels, nearly all Diesel equipped, were launched in Japan in the first six months of this year.

WHEAT SUPPLY SHOWS DECLINE

Production Figures for Year's Crop in Northern Hemisphere Likely to Show Decrease.

PRESSURE IN CORN.

(By John P. Boughan, Associated Press Market Editor.)

CHICAGO, Ill., Sept. 19.— It is popular among a good many grain traders just now to buy wheat and at the same time sell corn. Chief among the reasons given is that latest official figures suggest the world's available supply of wheat for 1931-32 will be 200,000,000 bushels less than the previous season's total. A further motive assigned is apparent certainty that but a small part of this country's 1931 corn crop could hereafter be injured by frost.

Compared with a week ago, wheat this morning ranged from 1 3-8 cents setback to 1 cent advance, with corn showing ½-1¼ decline, oats ¼ off to 7-8 up, and provisions unchanged to 40 cents down.

Wheat production figures for the northern hemisphere, Chicago experts assert, seem far more likely to show a decline than an increase as compared with the indicated total at the present time. Furthermore, on account of low prices, signs point to abnormal disappearance of wheat, and it is noted that despite all European efforts to curtail consumption the disappearance of wheat during the 1930-31 season was the largest ever known. Feeding of wheat to livestock in the United States is generally regarded as heavier than last year although in the 1930-31 season the domestic disappearance was about 100,000,000 bushels above normal.

Holding Reduction.

One big factor to which attention has not heretofore been strongly directed is the limited amount of old wheat that European countries have carried over from the previous season, a total reported here as showing reduction of 50,000,000 bushels or more, compared with 1930-1931. It is declared to have been last season's large reserve that permitted European importers to struggle through as well as they did. Meanwhile, advices are current that the great bulk of France's wheat crop is underweight, and that considerable of Germany's crop is unfit for milling.

A prevalent idea that corn is to return to its normal discount as compared with wheat signifies that corn is figured at 55 to 65 per cent. of the price of wheat. The number of cattle on feed is generally expected to be smaller than last year but producers show signs of increasing operations in hogs. Oats prices reflect the lightest crop in many years.

Trent River

The young ladies class of the United Church Sunday School under supervision of Mrs. George Van Volkenberg held a social evening Friday in the dining hall of the church. The regular league meeting was cancelled for this week.

The public school teacher, R. W. Umphrey has been preparing his pupils for the annual rural school fair to be held by Seymour school Fair Association at Campbellford Tuesday, September 22.

Mrs. Henry Wood received word of the death of her brother-in-law, James Best, at his home, Pt. Haney, B.C., at the age of 84 years.

Mr and Mrs. Albert Sanders of Wellington were recent visitors with the latter's sister, Mrs. Henry Wood.

Mrs. T. F. Ward and Mrs. Harry Mann attended Seymour West Women's Institute held at the home of Mrs. John Armstrong, "Hillview Farm" Thursday afternoon.

Mr and Mrs. A. W. C. Goodman have closed their cottage and returned to Toronto.

Mr. Harry Seaborne has had an addition built to his residence.

Messrs. Leo Swalb and Edward Steiner left Thursday morning for Cleveland, Ohio, after spending two weeks, guests at "Maple Inn", Cook cottage.

John A. Carlyle, grand-nephew of Thomas Carlyle and well known agricultural lecturer, died recently at Arbroath, Scotland.

IT PAYS TO ADVERTISE

THE FIRST AUTOGIRO EVER TO FLY OVER CITY

This autogiro plane, the newest freak of the aviation world, arrived in Peterborough at noon today and delighted thousands with its strange appearance and stranger antics as he flew over the exhibition grounds. The plane is the first commercially owned autogiro in Canada and is owned by the Macdonald Tobacco Company makers of Turret Cigarettes. Its Captain Godfrey Dean, well known air mail pilot, flew it from Toronto and is its pilot.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them inserted.

THE CITY BEAUTIFUL

Dear Sir:—

On behalf of my Sister who has now reached the shores of old England I would like to answer in appreciation, of the letter written by I.B.D. My sister certainly had a wonderful time in Canada from stepping off the liner at quaint Quebec to stepping on again at Montreal.

Yes, she has seen some of the beauties of Devon and so have I, but only as a tourist, which is very different to being received as a guest into the homes of the people and being taken leisurely round all the beauty spots. Standing at Joseph Schriven's grave on the Pengelly farm one can go back with the mind's eye to some tiny Churchyard in Devon, all that is missing is the little church with its peal of bells chiming through the evening air, and the drive into Curve Lake Reservation reminds one of the river Tamur with its twists and turns and its wild beauty, and one of the bluffs at Scarborough Heights is like Tintagel (in miniature) towering high above the water, one could almost imagine King Arthur and his Knights were inside.

There are many beautiful spots right here, in and around Peterborough, some that cannot be surpassed.

One who was also a Guest.

SAFETY IN NUMBERS

To The Editor of The Examiner,

Dear Editor,—Allow me space to give the people of our city a warning, That they may profit by my mistake." Visiting the Exhibition I was accosted by one of the men at a stand, who was running a game of "Lucky Numbers" and unlucky ones on clothes pegs. He offered me a trial "free" just to show how the game was played. Without any thought, I took the free trial, never thinking about being defrauded. The truth of the matter is, I lost a few dollars before it dawned on me that I was playing a losing game, and paid for my free trial. "Of course the laugh, is on me" There are two games of this kind, "Clothes Pegs" and "Dice," each have numbers marked on them. There is also a board with numbers, green to red to win, black you lose. You pick out a peg with a stick, or you throw the dice out of the box. There is the offer: You give me a dollar. I'll give you five dollars if you have the lucky number. If you are as simple as me, you will give your dollar. It's a black number, No! No! You don't lose! Pick out another peg. Of course, you wan to be a good sport. "Yes" and you pick out a peg. Now look here. There is other five dollars and your own dollar, that makes eleven dollars. Now you give me a dollar. That will make it twelve, if that peg is a lucky number. You cannot "win" any less than twelve dollars. No, no, you can't lose until you walk away. Take, my tip and don't go too near those games. Now I give here some of the "Lucky Numbers" have a good look at them, 14, 9 18, 17 16. Now some of the black ones, 71, 6 81, 41, 91. These numbers are marked on one side of the "Clothes pegs." It is the same with the dice. I was not the only simpleton who fell. You have six numbers out of nine with which you can make many combinations they are: 1, 4, 6, 7, 8, 9, reverse your paper and look at them. Write a combination on a peg, that is the lucky number, now turn the head to your left, unlucky number. It matter not who you speak to in authority. You cannot get your money back. I spoke to one of the Exhibition committee, one of the men about town. He told me plain, the law allows it, you should not have played. I spoke to one of our policemen, he told me to get away and not cause a disturbance. So take this warning, you cannot win, there is no game of chance or gamble, as the numbers are placed the game constitutes a fraud, and it is detrimental to the Exhibition also to the real showman; yet nobody can do anything for you. So therefore don't be like me.

Yours truly,
Done Again.

MARMORA LAD DIES OF WOUNDS

(Continued from Page 1)

charged. The full charge plowed into his side. He fell unconscious into the bog.

Frightened, his chum, Woodhouse, lifted up his head, shouted to him and pleaded with him to speak. Frantically young Woodhouse raced away from the spot for friends, believing his chum was dead.

For miles he ran for help. Hours later he led a party of men back. Rice was still breathing. Later he regained consciousness and he told the party how to carry him and where to take him.

Rice's father is an electrician at the Deloro Cement Plant, while the father of Woodhouse is a C.N.R. section foreman at Marmora.

Dr. Alger, coroner of Marmora will order an inquest.

GRAIN PRICES BREAK.

CHICAGO, Ill., Sept. 19 — Persistent crumbling of securities led to sharp breaks in grain prices late to-day. Stop loss selling developed both in wheat and corn with wheat down to almost the lowest level this season, and corn at new bottom records.

Peterboro' Exhibition Prize Winners

JERSEY CATTLE PRIZE WINNERS

District breeders scored high in the Jersey class at the Exhibition as shown by the judge's report which concluded at dark Friday eevning.

John T. Drope of Roseneath scored high with six first prizes, four seconds, two thirds and one fourth.

Sam S. Staples of Cavan won two firsts, three seconds, five third and three fourths; and Garnet Kerr of Campbellford carried off a first, one second, two thirds and four fourths.

The breeders in this class were J. T. Drope, W. Duffy of Newmarket, S. S. Staples of Cavan, A. B. Mann, Smith; Garnet Kerr of Campbellford; F. C. H. Bent and Sons, Omemee, and A. J. Mark and Sons, Oakwood.

The judge in this class was H. W. Graham of Kemptville. Among the Drope herd's awards were the first money for senior Jersey herd; the champion male in this class and also the champion bull of the dairy breeds.

Three judges agreed on the dairy male championship. They were Arthur Brethen of Norwood, who judged the Holstein class; M. Begg of Moose Creek, Stormont county, judge of the Ayrshire class; and Mr. Graham, judge of the Jerseys. The three bulls in the rings were J. T. Drope's Jersey; Gordon Mann and Son's Aryshire, and the Holstein entry owned by D. Murphy and Son of Lindsay.

The decision was given to the Drope Jersey after a lengthy consideration of the entire group.

S. S. Staples won the ribbon for the champion female of the dairy breeds; his cow also taking first prize in the class of females three years and over in calf.

An interesting incident of the championship competition was the fact that Jack Drope's winner was shown in the ring by W. Duffy of Newmarket, a breeder of Jerseys who made his first entry at the Peterborough Exhibition this week.

The judging of the Jerseys resulted as follows:—

DAIRY CATTLE, JERSEYS

Bull, 3 years old and over—1, J. T. Drope, R.R. No. 1, Hastings; 2, W. Duffy, Newmarket; 3, Garnet Kerr, Campbellford.

Bull, 2 years—1, F. C. H. Bent and Son, Omemee; 2, Garnet Kerr; 3, A. J. Mark & Sons, R.R. No. 2, Oakwood; 4, S. S. Staples, Ida.

Bull, yearling—1, J. T. Drope; 2, S. S. Staples; 3 and 4, W. Duffy; 5, A. B. Mann, R.R. No. 4, Peterborough.

Bull calf, senior—1, J. T. Drope; 2, S. S. Staples; 3, W. Duffy; 4, Garnet Kerr.

Bull calf, junior—1, W. Duffy; 2, S. S. Staples; 3, A. B. Mann; 4, W. Duffy.

Cow, 3 years and over, in milk—1, J. T. Drope; 2 and 3, W. Duffy; 4, S. S. Staples; 5, G. Kerr; 6, A. J. Mark & Son.

Cow, 3 years and over, in calf, not milking—1, S. S. Staples; 2 and 4, W. Duffy; 3, J. T. Drope.

Heifer, 2 years and under 3—1 and 4, W. Duffy; 2 and 3, J. T. Drope.

Heifer, 1 year and under 2.—1, W. Duffy; 2, J. T. Drope; 3, S. S. Staples; 4, W. Duffy.

Senior heifer calf—1 and 4, G. Kerr; 2, F. C. H. Bent & Son, Omemee; 3, S. S. Staples.

Junior heifer calf—1, F. C. H. Bent & Son; 2 and 4, J. T. Drope; 3, S. S. Staples.

Senior herd, bull and 3 females, all to be owned by exhibitor.—1, J. T. Drope; 2, W. Duffy; 3, S. S. Staples; 4, G. Kerr.

Junior herd, bull and 3 females, all to be owned by exhibitor.—1, W. Duffy; 2, J. T. Drope; 3, S. S. Staples; 4, G. Kerr.

Best two animals, progeny of one cow—1 and 2, W. Duffy; G. Kerr; 4, S. S. Staples.

Herd of 1 male and 3 females, any age, open to exhibitors from the County of Peterborough and townships of Cavan, Emily and South Monaghan only—1, S. S. Staples; 2, A. B. Mann; 3, S. S. Staples.

Champion Male (ribbon).—J. T. Drope.

Champion Female (ribbon)—1, S. S. Staples; 2, W. Duffy; 3 and 4, J. T. Drope; 5, G. Kerr.

DAIRY CATTLE, SPECIALS

Champion bull, dairy breed, any age, and open to all dairy classes, $10.00 cash donated by the Bank of Toronto, Peterborough—J. T. Drope, Hastings.

Eczema Hemorrhoids Irritations

Because it does positively relieve the itching almost as soon as applied and effects a healthful healing of the skin, Dr. Chase's Ointment is a most satisfactory treatment for Eczema, Hemorrhoids or Piles and all Irritations of the skin. Fifty years of success.

In box or tube.

Dr. Chase's OINTMENT

World's Feminine Speed Champion

By travelling at the rate of 200 miles an hour, Maude Taite of Springfield, Mass., can claim to be the world's fastest woman pilot. Whether she has a possible rival in Maude Adams, at right, remains to be seen, for Miss Adams is just learning the game, after having left a leading-lady role on the New York stage to take up flying as a career. She is now in California where she is being instructed by Captain William Lancaster of London-Australia flight fame.

SHEEP, LONG WOOL.

Cotswolds.

Ram, 2 shears and over—1 and 2, G. H. Mark & Son, Little Britain; 3, J. W. Balson & Sons, Hampton.

Shearling ram—1 and 2, G. H. Mark & Son.

Ram, lamb—1 and 2, G. H. Mark; 3, J. W. Balson.

Ewe, two shears and over—1 and 3, G. H. Mark; 2 and 4, J. W. Balson.

Ewe lamb—1, 2 and 4, G. H. Mark; 3, J. W. Balson.

Flock, one ram, one ewe lamb, one shearling ewe, one ewe, two shears and over—1 and 2, G. H. Mark & Son; 3 and 4, J. W. Balson.

Best ram—G. H. Mark.

Best ewe—G. H. Mark.

Leicesters.

Ram, 2 shears and over—1, W. Clarkson & Sons, Weston; 2, Thos. Beatty, R.R. 6, Peterborough.

Shearling ram—1, W. Clarkson; 2, John Cullis, Oakwood; 3, T. Beatty.

Ram lamb—1 and 3, W. Clarkson; 2, J. Cullis; 4, T. Beatty.

Ewe, two shears and over—1, W. Clarkson; 2 and 3, J. Cullis; 4, T. Beatty.

Shearling ewe—1 and 2, W. Clarkson; 3 and 4, J. Cullis.

Ewe lamb—1 and 2, W. Clarkson; 3, J. Cullis; 4, T. Beatty.

Flock—1, W. Clarkson; 2 and 3, J. Cullis; 4, T. Beatty.

Best ram—W. Clarkson.

Best ewe—W. Clarkson.

Lincolns.

Ram, 2 shears and over—W. J. Gardhouse, Thistletown; 2, J. W. Balson & Sons.

Shearling ram — 1, W. J. Gardhouse; 2, Stuart Hall, Little Britain.

Ram lamb—1, and 2, W. J. Gardhouse; 3, S. Hall.

Ewe, 2 shears and over—1 and 3, W. J. Gardhouse; 2, S. Hall; 4, J. W. Balson.

GREAT RACING MARE DIES OF OLD AGE

Pretty Polly Created Great Sensation When She Started to Race

Dublin.—Pretty Polly, one of the most famous of racehorses has died where she was born at the Eyrefield Lodge stud farm in Co. Kildare, Ireland. She was 30 years of age.

Twenty-seven years ago, she was the idol of the public and loved by her owner, the late Major Eustace Loder, and her trainer, the late Peter Purcell Gilpin.

All her victories, which included the One Thousand Guineas, the Oaks and the St. Leger, were won in effortless style.

Her debut as a two-year-old at Sandown Park created a sensation, for she won, pulling up, by ten lengths, and had seemed to be only cantering.

When she won the St. Leger she was still unbeaten, and had never had a whip put across her or been touched by a spur.

Danny Maher, the famous American jockey, once said of her: "She's not a mare at all, but something unnatural."

Her popularity with the public owed something to her charming manners, as well as to her racing achievements.

No more docile animal ever went on to a course.

One morning she got loose on Newmarket Heath and mounted a narrow bank of soil, flanked on either side by a wicked-looking harrow. There were visions of the laceration of £30,000 worth of horseflesh, but when the stable boys called to her, she came down safely, picking her way, as if afraid to injure her dainty shoes.

She was not a success at the stud. Only four of her offsprings won races, and their combined total in stake money was £3,707.

HAVE YOU BOUGHT YOUR "PRODUCED-IN-CANADA EXHIBITION" TICKETS

TO BE HELD OCTOBER 12 TO 17, IN THE ARMOURIES?

If not, the following young ladies would appreciate selling same to you:

Miss Gladys Zeihr	80 Victoria Ave., Tel. 1860-W

SAIL or STEAM?

AN OLD SEA CAPTAIN once side, "Any windjammer can ride out a storm with the hatches battened down and the sails clewed up; but it takes a STEAMSHIP to ride out a dead calm."

Too many business men to-day are trying to meet a dead calm with hurricane-warning tactics. Huddling below decks, they clewed up their advertising appropriations with stout ropes of prejudce, battened down the the matches on their better judgment. One of these days they'll come on deck and wonder why they're so far from shore.

The steamship captain doesn't wait for trade winds to blow him into the Port of Profits. He musters those trade winds with the driving power of LIVE STEAM . .. piles fuel under his advertising boilers . . . starts his craft towards Profits and usually reaches port before the old-fashioned skippers have spread their sails for an occasional buyng breeze.

Becalmed on a glassy sea to-day, business will eventually be favored by that buying breeze. But why wait for it? The powerful engines of NEWSPAPER ADVERTISING are ready and waiting to stir up the unruffled expanse of buyer-indifference. And fuel is cheap. . . much cheaper than marking time while some wiser navigator gets to port ahead of you.

HYDRO ORDERS MORE POWER

Eastern Ontario Demands Necessitate Delivery at Once.

TAKE 6,000 HORSE POWER.

BELLEVILLE, Sept. 19.—In order to provide sufficient electrical supplies to meet the increased demands of the municipalities in the Eastern Ontario system, the Ontario Hydro-Electric Commission at its board meeting decided to authorize the anticipation of its contract requirements with the Gatineau Power Company by taking 6,000 horsepower at once instead of on October 1.

Announcement to this effect was made by Hon. J. R. Cooke, chairman of the board. Due to the increased load in 1931 and the low water conditions existing on the Trent power system, the commission found that its present capacities and contracts were insufficient to meet the demands, Hon. Mr. Cooke stated.

The chairman commented on the fact that it had been found necessary to take additional power to prevent a shortage.

"Up to the present year," continued Mr. Cooke, "the commission has taken delivery of 18,000 horsepower, and to-day's authorization brings this amount up to 24,000 horsepower. The availability of this power has averted a possible shortage in this district as a resultant loss to industry, similar to that experienced a few years ago by the district on the Trent power system."

The estimate made by Hydro engineers of the probable annual increase in power needed by the eastern districts came very close to the actual increase. In purchasing power, the commission looked for an annual increase of 6,000 horsepower based on expert calculation. The fact that this figure has been exceeded is due partly to the low waters of the Trent power system, which, while not without precedent, upsets the estimates of the engineers sufficiently to make an earlier delivery of power advisable.

CHAUTAUQUA PLAY DRAWS BIG CROWD

MARMORA, Sept. 19—(Examiner Correspondence).—A packed hall greeted the Canadian Players at Marmora on Friday evening when in opening the local Chautauqua festival, they admirably presented the three-act comedy, "Mrs. Plimpton's Husband" and a tensely dramatic sketch, "The Valiant."

The sketch composes the audience so that it enjoys to the full the hilarious comedy which follows. Harold Needham in ideal manner impersonates Warden Holt and none could be more suited to the role of James Dyke, the prisoner, than Dave Yeddeau, who plays it. The parts of "Sister Daly" and "The Girl" are realistically taken by Gladys Hansen and Betty McCracken respectively. "Mrs. Plimpton's Husband" is a true to life play. Mrs. Plimpton is of the dominant type, out campaigning and lecturing while the husband stays at home and does the dusting. Their careers receive a jolt when Dorothy, their only daughter, arrives home from college with a husband who has modern ideas. Having had her heart set on Dorothy having a brilliant career, Mrs. Plimpton is quite upset over the sudden turn of affairs. The son-in-law however gets working and with father imbibing his ideas, everything ends satisfactorily for each in the whole disturbed family.

The cast is as follows:

Mr. Plimpton—Harold Needham.
Bob Clayton—Dave Yeddeau.
Mrs. Plimpton—Betty McCracken.
Dorothy Plimpton—Gladys Hansen.

All the parts were excellently sustained and a veritable wave of laughter was provoked in the large audience throughout the presentation.

The Chautauqua artists are appearing in Marmora between performance given at Bobcaygeon and Elmvale.

DOURO TOWNSHIP TAX RATES SET

John Garvey Appointed as Collector for 1931 by Council.

DOURO, Sept. 18.—The members of Douro Council met on Monday, when, on motion, by-law 1019 was passed, authorizing the levying of the following rates: General county rate, 7.10 mills; House of Refuge, .59; county schools, 3.54; Provincial Highway, 3.36 mills; County Highway, 3.54 mills; current bridge, 1.18 mills; Provincial Highway, third debenture, .45 mills; plowing match, .11 mills; old age pensions, mothers' allowance and indigents, 2.37 mills; total county rates, 22.24 mills, which is a total of 4.34 mills higher than the 1930 rates.

By-law 1021 was passed, authorizing the levying of the following rates as a township tax of 1.8 mills, and 4 mills as township road tax.

By-law 1022 was passed, appointing John Garvey collector of rates for 1931, at a salary of $100.

The following accounts were ordered paid: P. G. Towns, provisions to Fraser family, $5.93; J. Murray, weed inspector, $20, and $9 car hire; Lakefield Fair, grant, $25; grant to county plowing match, $10.

The Council adjourned to meet at the Town Hall on September 24, at 8 p.m.

NORWOOD COUNCIL

Members Hold Short Session Passing Accounts, Two By-laws.

NORWOOD, Sept. 19 (Examiner Correspondence). — The Norwood Council met on Monday evening, with Reeve Montgomery in the chair and all members present.

The following accounts were presented: I. Puffer, August salary, $65; meals and lodging for stranger, $1.30; 200 feet plank at $30 per M., $6; paint and rope for flag pole, $6.75; Wm. Gerow, 8 hours' labor at 30c per hour, $2.40; R. J. Steele, 160 feet plank at $25 per M, $4; Walter Rodgers, 10 hours' grading, $5; H.-E. Power Commission, hall lights, $6.38; F. J. Stewart, gas for grader, 12 gal., $3.12; Havelock Standard, printing, $73.55; Norwood Register, printing, $73.55; Royal Bank, collection taxes 1930, $28.45; Sam Wildman, 28 yds. gravel at 55c, $15.40; Provincial Treasurer, 5 marriage licenses, $20; Roy Longhurst, service at Davis fire $2, service at Burgess fire $1, service at J. Buck's fire $4, repairs to fire engine $1.80; E. Cuthbertson, service at Davis fire, $1.50; R. E. Barrie, service at Davis fire, $1.50; Stan. McMillan, service at Davis fire, $1.50; Jack Stewart, at Davis fire, $1.50; Earl Hamblin, service at Davis fire, $1.50.

Moved by Councillor Brown, seconded by Councillor Parcels, that the accounts as read be paid. Carried.

By-law No. 565, fixing Public and High School rates, was put through its several readings and ordered to be signed and sealed.

By-law No. 566, fixing county village and debenture rate was put through its several readings and ordered signed and sealed.

Council adjourned.

Chautauqua Opened In Marmora Friday

MARMORA, Sept. 19. (Examiner Correspondence). — Marmora's Fall Chautauqua festival commenced on Friday evening with the Canadian Players presenting "Mrs. Plimpton's Husband." The afternoon of the second day the Petrie Artists and Miss Neville Johns make a welcome return visit. The latter's afternoon lecture on this occasion deals with New Zealand and is entitled "Under the Southern Cross." On Monday the Lucille Elmore Revue Company give two programs with Dr. Elwood T Bailey giving his popular lecture "All Aboard" in the evening. On Tuesday afternoon Sue Hastings' Marionettes present "Peter Rabbit" and in the evening the festival ends with "Old Crusty Takes the Air". Broadway's comedy drama presented by the Peerless Players. Mrs. G. Roy Carscadden, the local director has been working hard for the welfare of the festival since her arrival a week ago and The Examiner was informed on Thursday evening that the ticket selling campaign had met with a fair amount of success. Two rows of streamers strung across Forsyth Street daintily augmented the fine quality of advertising done by the Canadian Chautaugus.

Obituary

CHARLES PORTEOUS.

BETHANY, Sept. 19 (Examiner Correspondence). — The funeral of the late Charles Porteous, whose death occurred suddenly at his home on Glengarry Road, was held on Tuesday afternoon at 2.30, and burial was made at Fallis' Cemetery, Manvers. The service at the house was conducted by the Rev. Mr. Fierheller, with a public service at St. Paul's Church.

Pall-bearers were six nephews.

The late Mr. Porteous suffered from heart trouble, which confined him to his room for several months, sometime ago, but he had been apparently enjoying very fair health lately.

The late Mr. Porteous, who was in his 67th year, was of a very pleasant and kindly disposition, and was widely known, having been formerly an enthusiastic baseball fan and hockey player. On Labor Day he accompanied a party to the baseball tournament at Manilla and appeared in very good health.

He was an Anglican in religion. About three years ago, the late Mr. Porteous sold out and moved to his present home in Bethany.

The late Mr. Porteous is survived by three brothers and one sister, besides his sorrowing wife, who was formerly Mrs. D. Wood, of Millbrook, Robert of Kinmount, William of Nestleton and John of town, and Mrs. Taylor of Chicago. Another sister, Mrs. Stonewall, predeceased him about three weeks ago.

MARJORIE FLOSSIE HAIG

Th funeral of the late Marjorie Flossie Haig, whose death occurred at Nicholls Hospital, in her 20th year, after an illness of about two weeks, was held from her late residence, 527 George street, on Monday; the service being conducted by Adjutant Falle. Burial was made in the family plot at Campbellford.

The late Marjorie Haig, who had a bright and cheerful disposition was loved by all who knew her, and during the service, Mrs. Sutherland, her Sunday school teacher, spoke of her sterling character, and Mrs Heron sang very sweetly, "My Home is in Heaven."

The floral tributes were large and beautiful, showing the high esteem in which the late Miss Haig was held.

She leaves to mourn her loss besides her sorrowing parents, three brothers, Gerald, Harold and Austin; one sister and one brother having predeceased her ten years ago.

Among those from out of town who attended the funeral were: Mr Johnston, Mrs. Bradbrook and Donald and Wilfrd Stewart, of Windsor; Mrs. Tuttle and Mrs Moran, of Brockport and Rochester; George Moran of Rochester; Miss Alice Cooney, of Toronto; Misses Blanche and Hattie Taylor, of Beamsville; Mr. and Mrs. W. Kemp of Madoc; Mr. and Mrs. Ray Thompson and Mr. and Mrs. Peter McKenzie, of Campbellford; Mr. and Mrs. J. White and son George; Mr. and Mrs. George McKenzie and daughter Hazel, of Colborne, and Mr. and Mrs. Perry McKenzie, of Campbellford.

HOME TOWNERS

TIDBITS INTERESTING AND HUMOROUS FROM CAMPBELLFORD

Sabbath services on Sunday at the Free Methodist Church will be conducted by Mrs. L. Findlay and Mrs. E. Snyder, pastors. There will be Sunday School at 10 a.m., preaching at 11 a.m., a song service at 7.15 p.m. and preaching at 7.30 p.m. On Tuesday evening there will be a prayer meeting at eight o'clock and on Friday at eight o'clock a class meeting. All are invited to attend.

Mr. and Mrs. A. L. Riendeau and family have returned to their home in town after spending the summer at their cottage at Trent Bridge. Mr. Riendeau is much improved in health and although not taking any active part in business for the present is able to be around.

After spending their vacation at the Hoover cottage at Bradley Bay Mr. and Mrs. Thomas Church have returned to their home in London. Mr. and Mrs. S. White of Peterborough visited relatives and friends in town on Thursday.

Mr. and Mrs. S. J. Abernethy are on a visit to Guelph, the guest of their son, Mr. Russell Abernethy.

Major J. M. Bygott was a business visitor to Cobourg on Thursday.

Mr. Franklin Linton left this week to continue his studies at Pickering College, Toronto.

An appeal is being sent out by the W. A. of Christ Church for any article of clothing as contributions to the poverty stricken people of the west. These must be sent to the Parish Hall on Monday afternoon between the hours of 3.30 and 5.30 p.m. Mrs. J. P. Archer, president of the W.A. is handling the arrangements.

CHINESE ROUTED

(Continued from Page 6.)

Mukden and from Seoul came a report that a Japanese air squadron was moving from Pinghang to Shingishu, on the Korean border, 125 miles from Mukden.

Several incidents have disturbed Chinese and Japanese relations recently. One of these was the execution in Manchuria July 27 of a Japanese army captain, Shintaro Nakamura, and three companions on a map-making expedition which Japan asserted had been authorized by the Chinese Government. Another was attacks by Chinese on Korean irrigation workers in Manchuria.

More Cities Occupied

SHANGHAI, Sept. 19 (A.P.)—Authoritative reports received from Teintsin to-day said Japanese troops had occupied the city of Newchwang and that train service between Tientsin and Mukden had been suspended.

Two trains of Japanese troops arrived at Newchwang this morning and proceeded up the Chinese railway to Kowpangtse, on the Peking-Mukden Railway. En route the Japanese occupied each station, disarming the railway guards.

Japanese warships appeared in the river off Newchwang.

Seek to Localize Affair

TOKYO, Sept. 19 (A.P.)—The Japanese Cabinet in an extraordinary session to-day decided to take the utmost measures to localize hostilities in Manchuria.

The Foreign Office was understood to have dispatched instructions to the Japanese Consul General in the Manchurian capital directing him to treat the matter as a "local" issue and also to attempt to prevent it spreading. The Minister of War was said to have issued the same orders to the commander of the Kwantung army there.

Nanking Surprised

(By Glenn Babb)

NANKING, China, Sept. 19 (AP)—Surprise bordering on consternation swept official circles in the Chinese Capital to-day upon receipt of press reports that Chinese and Japanese troops had clashed at Mukden.

Lacking official confirmation, Chinese leaders withheld definite comment.

C. T. Wang, Foreign Minister, said in the absence of official reports he was able only to hope that the affair was strictly local and would not develop into an international issue or lead to a break in relations with Japan.

Although Chang Hsueh-Liang, Governor of Manchuria and Vice-Chairman of the executive department of the Nationalist Government, received reports at Peiping of the Mukden affair, but thus far has failed to relay the information to Nanking.

Hence the Nationalist Government has not officially learned whether the trouble was a purely local military clash or premeditated occupation of the Manchurian capital by Japanese forces.

Spain will spend nearly $30,000,000 on public works in the next three years.

CATTLE, GRAIN, PRODUCE

TORONTO PRODUCE

TORONTO, Sept. 19.—Trading was slow and prices were steady all week on the local butter market. Buyers were not taking on any extra supplies and seemed content to purchase for immediate requirements only. Brokers were offering No. 1 creamery solids 20¾c to 21c and No. 2 at 19¾c to 20c.

Cheese

The cheese market showed a stronger tone, and local brokers were able to do business at prices ½c to ½c higher than previously. New large was offered 11¼c to 11½c, twins at 11½c to 11¾c and triplets at 11¾c to 12c. Retailers were quoted new makes at the steady prices of 13c for large, 13¼c for twins and 13½c for triplets.

Cream

Cream buyers lowered their prices 1c per pound fat this week and explained that they could not do business above 20c for No. 1 unless the butter market strengthened. They quoted 21c for special, 20c for No. 1 and 17c for No. 2, f.o.b. country points.

Eggs

At the first of the week prices for eggs were higher and brokers found ready buyers, but about the middle of the week the demand weakened and receipts were too heavy, which resulted in lower levels. On Monday graded eggs were commanding 28c for extras, 24c for firsts and 17c for seconds, and on Thursday and at the close of the week the range was 27c for extras, 23c for firsts and 16c to 17c for seconds, graded and in free used cases. Prices to country shippers were also reduced during the latter days of the week. They were quoted 1c less at 24c for extras, 21c for firsts and 15c for seconds, delivered, ungraded, cases returned. Retailers were asked to pay steady prices at 31c for extras in cartons, 29c for extras loose, 26c for firsts loose and 19c for seconds loose.

MONTREAL PRODUCE

MONTREAL, Sept. 19.—The only price change yesterday on the Montreal produce and dairy market was on second-quality eggs, which gained 1 per cent dozen.

Eastern Townships No. 1 pasteurized butter, in carlots, was quoted at 19; to 20 cents, and to retailers solids were 22 cents and prints 23 cents a pound. Receipts were 2,259 boxes.

Ontario cheese was 12 to 12½ cents and Quebec cheese was quoted at 11¾ to 12¼ cents a pound. Receipts were 8,856 boxes.

The only price change of the day was in the egg market. Ontario or Prairie second, in carlots, gained 1 cent to 18 cents. Extras and firsts were unchanged at 30 and 24 to 25 cents a dozen, respectively. British Columbia extras was 32 cents a dozen. Quotations to retailers were unchanged and receipts were 592 cases.

Montreal potatoes, per 80-pound bag, were 50 cents, and New Brunswick potatoes, per 80-pound bag, were 50 to 70 cents.

CHICAGO GRAIN

CHICAGO, Sept. 19.—Stubborn rear-guard fighting saved the grain markets yesterday from any general retreat as a result of bearish action of securities. Deferred deliveries both of wheat and corn succumbed to pessimism engendered by sharp breaks in stocks, but speculative buying of September grain contracts for more distant months served to put relative firmness into cereals. Enlarged shipping demand for corn was in evidence, and there were advices that importing countries were paying good premiums for high grade wheat, a kind difficult to obtain the next three and a half months except in North America.

Corn Closes Irregular.

Wheat closed nervous, unchanged to 1⅛ cents lower, corn at ½ decline to ¾ advance, oats unchanged to ⅝ off, and provisions unchanged to 20 cents down.

Fortified by "spreading" transactions, September wheat gained on December, and at one stage rose to the best figure since Aug. 15. Comparative strength of September was associated with purchases of 230,000 bushels of cash corn, and with vessel charters taken for 400,000 bushels of corn to go east from Chicago. Meanwhile, holders of deferred deliveries of wheat and corn resisted as best they could the influence of extreme weakness of stocks, and kept cereal prices temporarily from more than fractional declines.

WINNIPEG GRAIN.

WINNIPEG, September 19.—Influenced by bearish foreign reports telling of heavy Russian wheat shipments through the Black Sea, the wheat market closed fractionally lower here yesterday. Prices at the close eased ⅝c on all three futures.

October closed at 52c, December at 52⅝c, while May finished at 56⅜c to 56½c.

The market was a dull and featureless affair throughout. Opening ⅜c to ¾c lower, it was content to idle along until the closing gong ended trading for the day.

Outside news was very mixed in character and rather more bearish than it had been for the past few days.

In the cash section No. 3 Northern traded at fractionally better spreads. Coarse grain interest was negligible.

Futures:

Wheat—	Open	High	Low	Close	Prev. Close
Oct.	.52⅜	.52¾	.52	.52	.52⅝
Dec	.53	.53¼	.52⅝	.52¾	.53¼
May	.57	.57⅛	.56⅜	.56⅝	.57⅛
Oats—					
Oct.	.27⅛	.27¾	.27⅜	.27¼	.27½
Dec	.27⅝	.27⅝	.27¼	.27⅜	.27⅝
May	.29⅞	.30¼	.29⅞	.30	.30

COMMON ACTION BECOMES VITAL

(Continued from Page 1)

cites these as among the outstanding causes of the maldistribution of gold and the instability of postwar finance:

(1) The burden of war debts.

(2) The entry of the United States into the group of chief creditors countries has caused dispersion of the initiative and responsibility in leadership of international finance.

(3) Many loans incurred since the war have been for non-productive purposes, such as advancing budgets or to support exchanges.

(4) The perils of the war, the post-war period of unfortunate currency experience in many countries, has led to a greatly increased preference for liquid assets compared to long term securities.

(5) The movements of gold have ceased of late to have what used to be considered their "normal" effect on the domestic credit policy of certain countries, notably France and the United States.

Taxpayers in Fog.

And while the expert talks learnedly of the gold standard the average taxpayers are wondering where they are going to be hit next. They are thinking more of immediate expedients.

The British movement toward tariffs as a national remedy continues. The Conservatives urge protection as part of their established policy. Many Laborites are ready to accept revenue tariffs as an alternative to economy cuts. The Liberals are more divided. But although opinion is in a constant state of flux it is thought unlikely the present government will be prepared to take the risk of submitting a formal tariff proposal to Parliament without first consolidating its position in a general election. Switched Liberal free trade votes in a 'snap' division would leave the National Government perilously near the brink.

Bethany

The Young People's Association of the United Church held a weiner roast at McKinnon's Pond on Wednesday evening, when a pleasant social evening was spent.

Mr. Lloyd Kennedy exhibited at the Peterborough Industrial Exhibition.

Mr. Roy Fern is substituting for Mr. Kennedy this week.

Mr. and Mrs A. Driver were visitors to Peterborough on Tuesday when they attended the Industrial Exhibition.

Miss Doris Driver left on Monday to take up residence in Peterborough, where she will attend the Normal School.

Mr. and Mrs. F. C. Dawe were business visitors to Peterborough on Monday.

Born—On Tuesday, September 22, to Mr. and Mrs. Cecil Argue, twin daughters. The death occurred on Tuesday of one of the infants, and burial was made at Fallis Line Cemetery, Manvers.

Mr. and Mrs. John Porter, of Trenton, spent a couple of days at the home of Mrs. C. Porteous, and attended the funeral of the late Mr. Porteous on Tuesday afternoon.

Miss Florence Freeman, of Lindsay, is the guest of her sister, Mrs. James Whiteside, this week.

On Wednesday evening, while scraping a dish with a sharp knife, Mrs. James Whiteside had the misfortune to sever a vein in her wrist. Dr. J. J. Hamilton dressed the wound.

Mrs. Davidson is a guest of her cousin, Mrs. Cecil Argue, for a few days.

Messrs. Will Mills and Norman Brown, who have been employed on the C.P.R. section, left on Wednesday morning to take a position with the company at Bobcaygeon.

More than 12,000,000 tons of coal are awaiting shipment from mine pitheads o. the Ruhr.

John Devlin and John O'Connell were fined recently in Strabane, Ireland, court for playing football in the street, the judge declaring the practice was becoming intolerable and that men engaging in such boys' sport should be ashamed of themselves

Boxer Politician

If you are a boxing fan, you will doubtless remember the gentleman above. He is Ted "Kid" Lewis, a former welterweight champion, who is now seeking fresh honors in the field o politics. Lewis joined Sir Oswald Mosley's new party in England and is giving lessons to members so they can protect speakers at campaigning time. He will seek election to Parliament as representative of a London constituency.

Visiting America

Affectionately remembered by the theatre goers of a few years ago as Kitty Gordon, the Hon. Mrs. Henry Beresford is shown above on her arrival in New York for a visit. Mrs. Beresford spent the summer at her English estate.

The Beaver

The following is a prize essay, which was written by Frank Maycock, 457 Elm street, in the Beaver Essay Contest, conducted by W. J. Hamilton, furrier, 163 Charlotte street:

One hundred years ago the beaver was found in all parts of temperate North America where food and water was available. To-day he has been driven to remote and secluded districts. They are extinct in the United States, and are plentiful in Canada in protected districts only.

Sluggish streams, whose banks are well wooded, with poplar and willow are his favorite haunts. There he builds a dam, ingeniously constructed of sticks, stones, roots, sod and mud, which are made high and strong to hold back a large body of water.

Since his abode is in the water, he must have some protection against the water. God has given the little lumberjack a very close and oily fur to kep the water from touching the skin.

When the dam is completed he begins the construction of a lodge. This is made of sticks cemented together with mud, over which a number of loose poles are placed. It is usually eight or ten feet across at the base and several feet in height. In this structure is a chamber, the entrance to which is two or three feet below the water level.

There are many proper fallacies regarding his tree-felling powers. Marvellous skill is displayed by the beaver. By means of his powerful chisel-like teeth he cuts the grain of the wood and often removes chips as large as those that fall from the axe of the woodman.

His favorite food is the bark of the poplar and birtch with a diet of marsh grass during the opening season. In the autumn food is stored up. Trees are felled and trunks and branches are cut into suitable lengths and brought to the lodge. This is piled loosely near the lodge. One end is always secured in the mud so that any rise in the water level will not float it away.

Next to man, the otter is his most feared enemy, but the wolverine, the lynx, the wolf and the bear make any land excursions by the beaver extremely perilous.

The trade in beaver skins was the magnet which attracted to our shores the daring adventurers of the old world. Eager Colonists followed, and the foundations of a great Empire were laid. It is, therefore fitting that Canadians should have chosen the beaver as the emblem of our country.

A new device in Europe, an "electric finger," instantly detects any variation in the thickness of paper, parchment or woven material, and is said to pick out weak spots in airplane fabric or reveal forgeries of checks by comparing their thickness with that of the originals.

HIGHWAY WORK IS APPROVED

N. A. McColl Notified Deputy Minister Has Completed Arrangements for Road Grading.

LOCAL LABOR TO BE USED.

CAMPBELLFORD, Sept. 19. (By Examiner Staff Correspondent). — After many efforts on the part of N. Alex MacColl, Campbellford vice-president of the Northumberland Liberal-Conservative Association and Mayor J. M. Bygott with Deputy Reeve MacColl as town council representatives, the work on the Campbellford portion of Highway 30, will commence immediately with an expenditure of $10,000. The Raynor Construction Company will have charge of this work which will be all grading and will employ all local labor.

Mr. MacColl, who has been working through F. J. McArthur, M.P.P., for the continuance of work on this road received word from the latter that R. M. Smith deputy minister of public highways was completing arrangements for the work.

In part the letter sent to Mr. McArthur reads: "We are to-day completing arrangements with the George Raynor Construction Company to permit the grading of a section of the road south of Campbellford, the understanding being that he will employ local labor. The County has asked us to extend payment of Ten Thousand Dollars." (signed) R. M. Smith, Deputy Minister.

SHOWER IS HELD IN TRENT RIVER

Mr. and Mrs. Donald McQuaig Are Honored By Friends—Receive Many Gifts.

TRENT RIVER, Sept. 19 (Examiner Correspondence)—An interesting event took place on Wednesday night at the residence of Mr. and Mrs. John A. Ruttan being the occasion of a miscellaneous shower tendered Mr. and Mrs. Donald McQuaig of Toronto (the latter formerly Doris Robson of Trent River, daughter of Mr. and Mrs. Bert Robson) who were united in marriage about four weeks ago. The bride was a valued member of Trent River United Church choir and quartette and her services were greatly appreciated.

The shower was arranged by members of the congregation and there was an attendance of about sixty friends and neighbors.

The evening was spent in community singing and several numbers from the quartette, Mr. and Mrs. Bert Robson, Mrs. Donald McQuaig and Mr. Rufus Redden which was well received and called forth much applause. Mr. and Mrs. McQuaig were called to the dining room to receive the gifts which were packed in a large decorated clothes basket and carried into the room by Messrs. Rufus Redden and Harold Vanvolkenburg. The groom unwrapped each parcel while the bride read out the names of the givers, and the large table was laden with pretty and useful gifts for which Mr. McQuaig made an appropriate speech and the gathering joined in singing, "For they are jolly good fellows." Sndwiches, tea and cake was served by the ladies and a very happy few hours broke up at midnight.

Mr. and Mrs. McQuaig arrived the afternoon of the event and after spending over night at the home of the latter's parents, Mr. and Mrs. Bert Robson, left early the following morning accompanied by the good wishes of a large circle of friends. The following attending the shower from outside points were: Messrs. Thompson McQuaig, Ted McQuaig, Misses Gertrude and May Robson of Marmora; Clifford Bonar of Blairton; Miss Marguerite Dafoe and brother Earl of Victoria and Mr. Don Buchanan of Old Havelock.

Ships under construction in France during the summer numbered 212, compared with 186 a year ago.

recently at Yattendon, England.

Floodlighting of famed Durham Cathedra' during the Faraday centenary in England had to be abandoned at the last moment after all arrangements had been made because the $5,000 necessary could not be raised.

WOMEN'S INSTITUTE WEEKLY COLUMN

A goodly thing it is to meet
In Friendship's circle bright.
Where nothing stains the pleasure sweet
Or dims the radiant light.
No unkind word our lips shall pass.
No envy sour the mind.
But each shall seek the common weal,
The good of all mankind.

WARSAW.

The topic for the last institute meeting was, "Common Sense in the Sick Room." Just little things that all should remember when dealing with anyone sick, mentally or physically. Among the points were that perfect health meant a sound mind, accompanied by a perfect circulation of pure blood in a sound organism. Any departure from any one of these or any combination of them constituted illness of some sort.

No matter how little seems wrong it may be the beginning of serious trouble. Therefore, unless you are absolutely sure of the trouble being only slight, a cut finger or bilious attack, following too rich food or some such attack, call your doctor and do as he directs. Give yourself, your patient and your doctor a chance.

Give nourishment regularly; have it appear dainty. If very weak, let patient drink through a bent tube or straw, or a drinking cup, but the tube is better, and do not forget that even holding that is very tiring to many. Do not hurry the patient taking nourishment; it may cause or aggrevate indigestion. The mouth should be cleansed before and after nourishment. Almost any mouth wash will do; a few drops of myrrh in a cup of water is good or a little lemon juice and glycerine in water—anything—only keep the mouth clean, both for comfort and health.

In giving medicine, be very particular to be regular, and be careful about the amount. The doctor will usually tell what he expects the prescribed drug to do. Notice the effect, as the effect of drugs often varies. It may act too powerfully; if so reduce the dose if you canot report before time for another.

Notice any differences or changes in patient at any time, or in any way—breathing, color, restlessness, position. It may mean much.

Remember a sick person is never normal. Do not tell them so, but just remember and act accordingly. Never, never, never, on any condition or under any circumstances, lie to a patient. He knows just as well as you do whether or not you are lying and will act upon that knowledge. The most delirious or the most insane patient (except perhaps an epileptic maniac) realizes it, and is often perfectly capable of defeating your subterfuge by cunning. Putting off may succeed. You do not need to explain everything, nor pay attention to all they say, and if they take a wrong meaning it is their own fault, and they will realize it.

Any sick person's mind must be at ease. Keep troublesome details from them as much as possible. If there are troubles in the home, endeavor to let the patient know the brightest side.

Never force, but by gentle, firm determination, get your own way. Of course, know you are right and the patient will soon recognize it. Once in a great while, with an hysterical patient who is working himself into a bad condition in spite of all you can do, a few sharp words may bring him to his senses and he will be off to sleep in a few minutes.

Sleep is perhaps nature's greatest restorative, so if a patient is getting a much needed sleep never waken, except in extreme cases where either medication or nourishment is absolutely necessary.

If one cannot go to sleep, some hot milk with a dash of pepper or the hot—not boiled—milk itself may aid in bringing sleep. See that patient is as physically comfortable as possible—bed is smooth, pillow in right place, no annoying light, all eliminations attended to. If somewhat nervous, gently stroke the forehead on both sides, beginning at the middle, out over the temples and straight out through the hair on the scalp. Very often this will produce sleep in about fifteen or twenty minutes if kept up steadily. Sometimes gently pushing the eyelids down and suggesting sleep while holding the hand gently over the eyes will induce sleep. If you try these methods, see that the hands are very flexible and dry; often a very little powder on hands may be necessary. Suggestion is extremely useful in sickness, and the actual ability to put others to sleep may easily be acquired. One who has a lot of electricity, whose hair will crackle while being combed and show a blue light when combed in dark and whose woollen underwear will crackle when being on something ironed, can do more with rubbing than can others. Rubbing the legs and feet often produces sleep. Then when you get the patient asleep, let him sleep, and watch how he sleeps. If he becomes restless and likely to waken before he should, see that there is no physical discomfort, and perhaps a little stroking of the forehead and a few almost crooning words may keep him asleep.

Of course, there are times when a sedative or a narcotic is necessary, but give only by doctor's direction. These drugs rightly used are great blessings.

To raise a patient in bed, place one arm under head and shoulders, and with other hand remove pillow; then place one arm under shoulders, another under hips; have patent put arms around your neck and he can easily be raised without pain to you or himself; then replace pillow and see bed is comfortable.

MILLBROOK.

The problems connected with the present unemployment situation were discussed at a recent institute gathering, a visiting secretary urging that all women's organizations should organize on a war-time basis and knit socks, make pyjamas, quilts, etc., just as they did in the war years.

"These unemployed men who are tramping about looking for work, or even for just shelter and a meal overnight, then on again the next day, as so many were doing last winter, will need socks," she said, "and probably the men in the northern construction camps will require socks and other things also. Why should we not have central supply bureaus from which such supplies may be obtained, the institutes at least doing their share in seeing that the stock is kept up to standard?"

The idea was fully conned over by the gathering, and finally decision reached to hold sewing meetings during the weeks ahead, find out just what will be the requirements of the situation so far as the women could meet the situation, and then the members would be ready to do their share for the general good. This decision, the secretary declared, would be duplicated many times over by the institutes of the Province in the fall and winter months, "for our women never fail to rise to any situation thrust upon them, and their response to any call of real need is always adequate, prompt and complete."

The matter of searching wardrobes for garments that could be spared, mended and made fit for use was also stressed, constructive ideas being given for making warm underwear for children from the skirt part of worn woollen vests, when tops are too shabby for further wear; cutting the worn feet out of stockings and by stitching and a bit of shaping contriving a stocking for little boys and girls. "There is need now for using our ingenuity in devising ways and means of utilizing every bit of material of any kind we may have at our disposal, and we must save in the food line, too, for these are critical days, and if everyone will give and do what they can the situation will be fully met."

"Do you know why some people stay young?" questioned the speaker. "It is because they are always up and doing, tackling new enterprises, studying new problems, reading new books, doing their share in meeting the day's need—just making of life one grand adventure, with a readiness to forget themselves in a desire to help others, and simply failing to leave themselves time to grow old. Try it, and you will find out for yourselves that the grumpy, self-centred folk are the ones who are aging, because they lose courage, they think first of their own ease and welfare, the interest and the zest goes out of life and they become 'put'—a back number, left behind in this busy age that demands the best of every one of us."

BETTER BRAN FLAKES

better at night

FOR the children's supper, for your own enjoyment late in the evening, eat Kellogg's PEP Bran Flakes.

Crisp, sun-brown, full of whole-wheat nourishment. With just enough extra bran to be mildly laxative. No wonder they're called better bran flakes.

At your grocer's in the red-and-green package. Made by Kellogg in London, Ont.

Kellogg's PEP BRAN FLAKES

Suits For Milady's Autumn Wardrobe

TWEEDS WILL BE POPULAR

(1) Fitted lines, with three-button side fastening and melon sleeves, make this tweed suit a little different from the ordinary run. (2) The fashionable tweed again, this time in a sports ensemble. Note the unusual neck finish, the zipper closing and deep pockets on the tunic, which is fashioned of chamois. (3) When a more dressy suit is required nothing could be more suitable or becoming than a transparent velvet suit such as this one. Black lynx adds to the beauty of the outfit and the side closing is effected by means of a soft bow of the velvet.

Peterboro' Exhibition Prize Winners

Poultry

One of the largest entry lists of poultry and water fowl in the entire history of the Peterborough Industrial Exhibition was entered this year, presenting Judge A. W. Tyson with a hard task in placing. R. M. Brown of Peterborough with 216 entries held the record for the largest individual exhibit, while Alaric White had the largest entry in any one class with Plymouth Barred Rocks.

Taste steak THIS way

Steak tastes good at any time—but add some H.P. Sauce and just see how *extra* delicious it becomes. The rich, fruity, piquant H.P. flavor brings out the "tastiness" of every kind of meat and fish as well as of bacon, eggs and cheese.

HP SAUCE

The Sauce of Healthy Appetite

CORSET FABRICS NICELY COLORED

Young and Old Require Support of Well Cut Foundation Garments.

LIGHTER IN WEIGHT.

Highlights in the corset department show improved models stressing the fact the larger woman may wear a smaller waisted garment with comfort.

The secret lies in clever designing and many reinforcements are provided in strategic ways, and not alone for the stouter figure in this style of garment advocated. It is, in fact, recommended for almost every type.

For Younger Set

Foundation garments, must produce a small waistline, slim hip outline, and inner pads boned lightly or substantially according to the requirements.

The average figure requires corseting of some sort, and woe to the woman who neglects to train her superfluous curves because some day or other she is bound to wake up to the fact that the cut of her jib is a sorry one indeed.

Corseting the junior is accepted as a necessity in some form or other, and young things must be educated to understand that her foundation garment is an important item in her wardrobe.

Fabrics this season are even more attractive in designing and color than heretofore, and weaves, although retaining their sturdiness are lighter in weight. Silk-like textures, batistes and satins are effectively handled in combination with lace. White will be worn, more especially in the evening, to accompany the white evening frock.

Elastic is an important factor and its application reveals a new cunning on the part of designers. Brassiers are even more carefully fitted than perhaps any other item in the lingeries wardrobe; although small affairs, they are highly important and have to deal with health as well as appearance. Net, satin, heavy crepe, etc., lace and batiste are the mediums used for the modern brassieres.

BETHANY.

Mr. Roy Carlton and his bride returned to Bethany on Sunday and have taken up temporary residence at the home of Mrs. J. McKinley.

Among those from a distance who attended the funeral of the late Charles Porteous were Mr. and Mrs. D. Greenlaw of Port Hope, Mr. and Mrs. Frank Galbraith and Mr. and Mrs. John Porter of Trenton, Mr. and Mrs. Joseph Hickson of Lindsay and Mrs. E. Veale of St. Catharines.

PAINS

No matter how severe, you can always have immediate relief!

BAYER

Aspirin always stops pain quickly. It does it without any ill effects. Harmless to the heart: harmless to anybody. But it always brings relief. Why suffer?

ASPIRIN

NEIGHBORLY NOTES

Please Phone Items to 1000 or 1001

Mr. and Mrs. Robert Harris and family and Mrs. James Reardon, of Marmora, were in town this week for the Exhibition.

• • •

Mr. and Mrs. W. Belleghem have closed their cottage at Chemong Park for the summer season.

• • •

The Rev. Dr. R. C. Blagrave is home from the Synod meetings in Toronto and will return early on Monday morning.

• • •

Miss Kay McDonald returned this week from Kingston, where she completed her training as dietitian, in the General Hospital. She will remain some time with her parents the Rev. and Mrs. W. McDonald, King street.

• • •

Mr. J. W Steinkrauss is celebrating a birthday to-day.

• • •

Mr. and Mrs. W. R. Morris have returned to the city after spending the past two weeks at Stoney Lake.

• • •

Miss Mary Elliott and Miss Minnie Higgins were in charge of the excellent exhibit of Women's Work this year at the Exhibition. They were assisted by Mrs. E. E. Cox.

• • •

Mrs. Eliza S. Mitchell of College street, one of the senior residents of the city, celebrates a birthday anniversary to-day.

• • •

A two-ball mixed foursome was one of the interesting events of this week at the golf links. Cups given for prizes were donated by the president, Mr. H. A. Morrow, and were won by Mrs. J. A. Aylmer and Mr. Robert Abbott, who had the best net score and also the best gross score. Other prize winners were Mrs. O. Degraw and Mr. G. Monkman, Mrs. J. F. Strickland and Dr. C. C. Cragg, Miss Daisy Davidson and Mr. Ross Thornton, Mrs. C. B. Westbrook and Mr. F. C. Webber, and Mrs. F. C. Webber and Mr. W. F. Huycke. Arrangements for tea were in charge of Mrs. H. A. Morrow and Mrs. R. Abbott presided at the tea table.

• • •

Miss Doris Driver of Bethany is attending the Peterborough Normal School.

• • •

A number of members of the Peterborough Chapter, No. 161, O.E.S., motored to Belleville last night and put on a floral service for the Belleville chapter of the Order of the Eastern Star. Later, a pleasant social evening was enjoyed, with dancing and dainty refreshments served by the ladies of the Belleville chapter.

• • •

An engagement just announced in Calgary which has a local interest, is that of Hildegarde Mary, daughter of Mrs. Langfeldt and the late Rev. Dr. E. A. Langfeldt, to Mr. J. Howe MacDonald, son of Mr. and Mrs. J. L. MacDonald of Campbellton, N.B., the marriage to take place early in October.

• • •

Miss Eva McConnell of Norwood is attending the Normal School here, this year.

• • •

A number of ladies from the Peterborough Lawn Bowling Club were in Cobourg yesterday for a tournament with lady bowlers there. Mixed rinks from Peterborough, Cobourg, Oshawa and Port Hope, competed in the contests, with Mrs. McLeod of Cobourg skipping the first prize rink; Mrs. E. Delong of Peterborough the second prize winning rink, and Mrs. W. Hepburn of Peterborough as skip of the third winner. The ladies were received by Mrs. McKinnon, president of the Cobourg club, and were entertained after the games at cards and refreshments. Among those playing were Mesdames W. H. Darcy, C. Perry, J. N. Bacon, Deyman, W. Ashbury, Hope, E. Delong, M. Bredin, W. Hepburn, C. Williamson, Wood, McIlmoyle, Petrie, J. Welsh, C. Wright, W. Northrop. They were accompanied by Mrs. G. A. Borland, Miss Berenice Bacon and Miss May Perry.

• • •

In the account of the banquet given in connection with the Junior Farmers' meeting at the Canadian Legion Hall, the name of Miss Helen Staples, who gave an interesting reading, was inadvertently omitted.

• • •

Mrs. K. S. Wightman, Robinson street, entertained at bridge last evening in honor of her guest, Miss Marjorie Williams of Toronto.

FASHION SERVICE

Daintiness has this little crepe silk print frock—and much charm! It has the modish flared sleeves and becoming draped bodice.

And it's cut on slenderizing lines with its curved seaming through the flat hipline.

A black and white crepe silk print made the original.

Style No. 2997 may be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust. The 36-inch size requires 3¼ yard of 39-inch material with ¾ yard of 35-inch contrasting.

Fashioned of any soft summery material such as chiffon voile prints, chiffon print and batiste prints, this model is lovely.

Price of pattern 15 cents.

Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book 15 cents.

FALL ACTIVITIES PROGRAM OUTLINED

St. Paul's Ladies' Aid Executive Holds October Meetingq.

A full program of Fall activities has been laid out by the Executive Committee of St. Paul's Ladies Aid for consideration by the members at their October meeting.

The special features include a flower tea to be held on October 8 and the annual sale of homemade Christmas cake in November with a Christmas cheer tea in December.

The flower tea will be held in the home of one of the members and the proceeds will be utilized to provide flowers for the sick and shut-ins. A novel feature in connection with the sale of Christmas cake in November will be the operation of a country store. The stock-in-trade of this store, which will be held in the Sunday School hall, will consist of vegetables, canned fruit and pickles with homemade cooking contributed by the country members. A proposal to issue a cookbook composed of favorite recipes supplies by the women members of the congregation will be discussed at the October meeting to be held on Friday, October 2.

The first Fall meeting of the Executive was held on Tuesday, September 15 at the home of Mrs. John Anderson. Sherbrooke street and after the close of the meeting, dainty refreshments were served by the hostess assised by Mrs. Alfred McKeown.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

SINCE WALL-HANGINGS are in such high favor, it is interesting to note how some of them are made so that the home decorator can, herself, fashion various kinds.

• • • • • •

One of the smartest of these hangings employed by one expert decorator consists of motifs cut from figured textiles forming elements in the scheme of the room furnishings.

• • • • • •

Only these motifs can be used which are sufficiently large and perfect to be appliqued to a plain background of generous proportions and form a complete ornament of sufficient interest to lend decoration to the panel.

• • • • • •

This decorator not only uses rich and rare brocades wrought in many colors, but also gay chintz, hand blocked linen and cretonne motifs.

• • • • • •

The first are appliqued onto backgrounds of satin or velvet. The others are against plain textiles of their same kind, natural-colored linen, or other flat toned linens of brighter hues which accent the notes desired in a color scheme of a room.

• • • • • •

There are two ways of making these applique panels. One is to cut close to the outlines of the motif to be appliqued and glue the entire figure onto the tightly stretched background textile.

• • • • • •

This is a quick and good method provided the worker is deft enough not to let any suggestion of the glue get on the background left exposed after.

• • • • • •

The motif must be absolutely correctly centered on the background. For this reason, it is advisable to mark the background in enough places when the cutout motif is correctly placed upon it, so that these marks form outlines into which the motif is fitted again when it has its background covered with glue.

• • • • • •

Or the whole motif can be lightly outlined by tracing around it on the background and the portion of the background inside the outline be brushed with glue and the motif be fitted into place while the glue is still wet enough to hold it in position.

• • • • • •

Another method is to cut out the motif allowing for small seam, to turn back when the ornament is hemmed down to the background. This is the classic style of applique.

• • • • • •

The background, unless very heavy, is lined to supply body. Whether lined or not, the edge is finished with gimp, gold preferably.

• • • • • •

The motifs best for these decorative wall panels are large floral and fruit designs of the French, Italian and Spanish patterned goods. Occasionally there are motifs with animals and birds which can be transferred to panels as described.

• • • • • •

A charming scheme for the living room is to have the motif for the panel cut from the same material as the window draperies. Or in a bedroom the spread and accessories can be of glazed chintz, linen or cretonne with a panel to match.

St. Andrew's W.M.S. Will Aid in Relief

The first Fall meeting of the W.M.S. of St. Andrew's United Church was held on Tuesday afternoon when a letter was read, dealing with the serious distress in the West and it was decided to call a special meeting to discuss the situation.

After the business session, Miss Craw's group took charge of the meeting when a Bible reading and an interesting talk on the necessity of Prayer was given by Mrs. Harstone. A short session of prayer was conducted by Miss Ferguson and Mrs. Evans following which Mrs. Porteous spoke on kindergarten work in Africa. Stores from Japan re the Upward Trail were told by Miss Craw who also spoke of the way the women of Vancouver welcome the homecoming Missionaries and cheer the outgoing ones.

AN ANCIENT CAMP

Excavations by Mr. E. Nash Williams, keeper of archaeology in the national museum of Wales, have revealed a camp of the ancient Britons in Llanellen Wood, between the Roman settlements of Caerleon, Monmouthshire, and Caerwent.

The main camp, elliptical in shape, is 750 feet long and 400 feet wide and encloses an area of 5 1-2 acres. An annex connected with the main camp by a narrow defile is 2 1-2 acres in extent. The camp is enclosed by a series of deep ditches.

The date of the construction is believed to be almost 200 B.C.

MOTHER OF SIXTEEN FIGHTS FOR HER GIRL

Welsh Woman Travels to London to Help Her Erring Child

Mrs. Burrows, of Brook St., Williamstown, Rhondda valley, Wales, the mother of sixteen children, heard that one of her daughters had been accused of theft in London. She made the journey by coach, travelling all night.

The daughter, Phyllis, aged twenty-three, was charged at the Marylebone police court with stealing articles worth £4 belonging to her employer.

Mrs. Burrows, pleading for her daughter, urged that she was the only one out of the sixteen who had brought her trouble.

The magistrate, Mr. Bingley, on the understanding that Mrs. Burrows took her back to Wales, placed the girl on probation.

China now has 56 talkie theatres.

English Baronet On The Dole

Holder of one of the oldest baronetcies in Great Britain, Sir Charles Burnett Buckworth-Herne-Soame, who lives with his wife at Coalbrookdale, Shropshire, is "on the dole." He signed on at the Ironbridge employment exchange for the first time last week in the name of C. Soame. Sir Charles is the surviving son of Sir Charles Buckworth-Herne-Soame, a well-known solicitor, who died last week, and is descended from Sir John, the first baronet, who was High Sheriff of London in 1704. The picture shows Sir Charles with his wife, in the garden of their little cottage.

That Body of Yours

By James W. Barton, M.D

CAUSE OF MIGRAINE — ONE-SIDED HEADACHE.

Many people are interested in the experiment in a western university where a determined effort is being made to try and find out the cause of migraine, that distressing one-sided headache which affiicts a great number of people

It has always been my thought that hard mental work or emotional disturbance so upsets the brain that it fails to send impulses to the digestive tract to keep things moving; the liver gets congested, the bile in the gall bladder thickens and doesn't flow freely, and that this combination of mental fatigue and sluggish liver caused the symptoms.

Dr. R. S. Ahrens believes that the cause of migraine lies essentially in the emotional life of the individual which in turn affects the stomach. He reminds us that attention has always been directed toward the stomach as the cause of sick headaches and rightly so; however, the cause does not lie in faulty organs, but in the faulty use of normal organs.

And, as we think about it, we realize that sufferers from migraine do not suffer from it all the time, but have periods, sometimse long periods, during which they are absolutely free from any digestive disturbance. If anything were wrong with the stomach or intestine there would be trouble practically all the time.

Dr. Neil C. Stevens of Cornell Clinic believes that the tendency to migraine is inherited and that its cause will be found to be a disturbance in the endocrine or ductless glands of the body. As the first attacks of migraine usually come on when the girl is developing into a woman, and the boy into a man, this looks reasonable enough. The fact that they do not always start at this time must, however, be remembered.

In the meantime while research workers are endeavoring to locate the cause of migraine, sufferers should try and avoid attacks by not overdoing themselves mentally or emotionally, not eating when tired, trying to get periods of relaxation every day, and keep the intestines active by exercise, or if necessary by mild laxatives.

Lying on the right side for not less than fifteen minutes before lunch, and before the evening meal, has proven helpful. The body not only gets rested, but any food lying in the stomach from previous meal gets emptied into the small intestine leaving stomach ready for the next meal.

A Crazy Stunt

Betty Fox, 23, is shown descending from a Battle Creek, Mich., flagpole, after perching there until she had established a new record of 126 hours. After setting the new mark she went to sleep in a show window of a main street store in front of a large crowd of spectators, who cheered lustily every time she opened her eyes—and promptly went to sleep again.

THE RHYMING OPTIMIST

By Alice Michaelis

With No Regrets.

Leave them alone,
The days now dead
The dreams now flown,
The words now said.

For never through
All time will they
Come back anew,
Not dream, nor day.

Leave them, and know
So it must be;
All rivers flow
Unto the sea.

You can not one
Small word recall;
The past is done.
Then leave it all.

Ah, who would sigh
That the sun sets?
Then say good-bye
!With no regrets!

MARRIED FIVE TIMES

Mr. Thomas Francis Hammond, of Angle House, Hebden, Upper Wharfedale, a retired grocer, recently married at Skipton registry office for the fifth time. He is eighty-six.

His bride, Miss Annie Elizabeth Beadle, aged fifty, was his nurse during an illness.

A Bristol boy of 16, who blamed moving pictures for his theft of a bicycle, was ordered to keep away from cinemas for a year.

THINK SITE OF THE CONTINENT ATLANTIS OFF AFRICAN COAST

Answer to Riddle or Mythical Land May Come From U.S. Institution.

PROBLEMS ARE MANY.

Woods Hole, Mass., Sept. 22. — An answer to the riddle of the mythical "lost" continent Atlantis may come from the laboratories of the new Woods Hole Oceanographic Institution, into whose sea craft and laboratories the public had just been allowed to peep.

In discussing the question of ocean depths and whether these have been changed materially through the ages, scientists at the institutions revealed that the vanished continent Atlantis, if it existed, is probably buried in the Atlantic, off the coast of Africa beneath no more than ten inches of sediment, at the ocean's bottom.

If beneath the sediment now overlying the supposed site of Atlantis, is found soil of a character existing on dry land, it may thus be concluded that this land was elevated 27,000 years ago. It also might show what kind of land it was, its climate, whether it was a true continent based on the granite foundation, or whether it was volcanic, like the Azores, or if it was of coral construction.

From long rows of test tubes and glass jars containing sea sediment, strange fish, plankton (tiny sea life), from temperature records, soundings, and other data gathered by two seagoing craft, the Asterias and the Atlantis, will come the answers to many strange problems.

Henry B. Bigelow, professor of Zoology at Harvard University, is director, and among other members of the staff is Sir Hubert Wilkins, the explorer.

Among the problems the institution will seek to solve during its forthcoming years of research is included the question, What keeps such great ocean currents as the Gulf Stream flowing? And if it is proved that these currents have the pronounced effect on climate that some theorists maintain, it may become possible to forecast weather conditions in some parts of the world far in advance.

Biological problems fall within the institution's scope, just as the strange life story of the eel which travels thousands of miles to a point somewhere south of Bermuda to breed, and die. Their young find their way back to the rivers of Europe and America and follow the puzzling life cycle of their parents.

Another field of research is included in the question: What mysteries of life do the tremendous ocean depths hold? Are there, the scientists ask, huge fish-like whales in those cold ink-dark depths where the enormous pressures would crush the life out of man

TOURIST LABEL CRAZE EXTENDS TO BOTTLES

American Travellers in Europe Collect Evidence of Slaked Thirsts

London.—Americans smitten with the label craze have aroused amused interest along the European tourist trail this summer. Most of them are looked upon as first visitors to the old world because the seasoned American traveller, like his English counterpart, resents having his trunks and suitcases plastered with steamship and hotel labels. The hotels have been quick to profit by this quest for baggage decorations, and many have got out new and highly colorful labels to advertise themselves.

But the label quest has also taken on an alcoholic aspect. To make the folks back home envious, many wine drinkers in the tourist army have had the labels steamed off the bottles when they have been emptied and inclosed them in letters to relatives and friends. To leave no doubt that the wines have been consumed, headwaiters are requested to put the place and date of consumption on the labels. A few of the hardiest of this denomination of label seekers have even arrived at London hotels with suitcases gaily festooned with this evidence of festive occasions on the continent.

ATTENTION, GIRLS!

When Miss Mollie Frances Staples, of Sandycroft, Orpington, Kent, was married the other day at Orpington the bridegroom, Mr. Guy Stedman Chapman, of Park Hill Rd., Croydon, placed on her finger two rings, one platinum and the other diamonds and platinum, in addition to a diamond wedding ring.

FILM STAR'S WEDDING

Miss Madeleine Carroll, the British film star, was recently married to Captain Philip Astley of Brimsop Court, Hertfordshire, at Como, Italy. Miss Carroll was a school teacher at Hove before starting her film career four years ago. She is a graduate of Birmingham University.

WHERE TRAFFIC LIGHTS ARE ALWAYS GREEN

DO YOUR shopping in this newspaper. Read the advertising! It is a sort of private super-highway between your home and important stores and factories.

In your favorite easy-chair you can pass in a twinkling as many "stop" signals as might be found between the shops of Fifth Avenue and the canneries in California's Great Valley.

Latest fashions . . . vital foods . . . indispensable luxuries are all displayed in these advertisements. Many of their producers and purveyors have names familiar in every corner of the country. Others of them are folks you personally know or frequently patronize. All are helping you to choose the good things of life at your leisure.

Advertising is read with profit that can be measured in shopping time saved, in dollars and cents saved. No aching feet, weary legs, or fruitless search, for those who go this way. It is the quickest way, and the straightest, to every market.

Here are the advertisements. Know the pleasure and the worth of such shopping right now!

For 41 years RHEUMATISM made her life a torture

From the time she was 13 Mrs. Henry Poole, Bindon, Sask., had this painful disease. Today she had rheumatic fever. A year ago she couldn't walk. Then she sent for a box of T-R-C's. "By the time I had taken 4 boxes the Rheumatism had gone out of my hand and foot," she writes. "I have never taken anything which has given me such great relief."

Pain and Stiffness vanish when you use T-R-C's. There are no harmful drugs in them. T-R-C's give you quick and safe relief by actually entering your blood stream and helping drive out poisons located there. Wonderful for Sciatica (stabbing hip pain), Neuralgia, Neuritis, Lumbago (Lame Back). 50c and $1 at your dealer's.

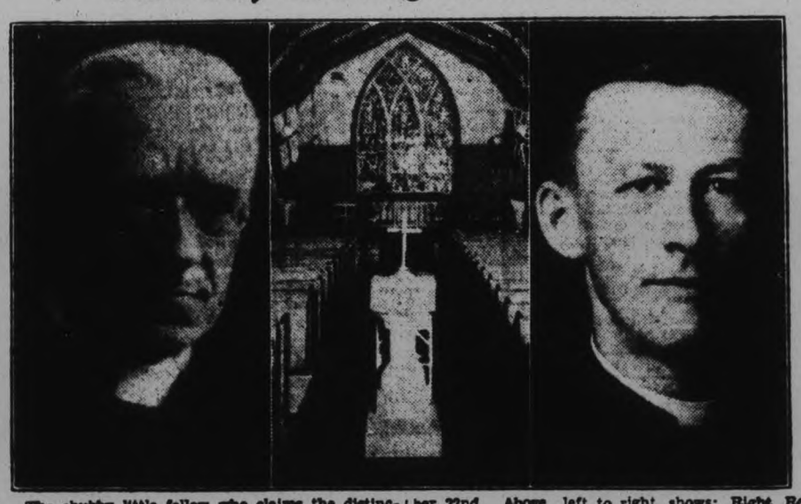
Where Baby Bessborough Will Be Christened



The chubby little fellow who claims the distinction of being the second baby ever to be born at Rideau Hall, the official residence of the Governor-General of Canada, will be christened at St. Bartholomew's Anglican Church, Ottawa, on Tuesday, September 22nd. Above, left to right, shows: Right Rev. J. C. Roper, Bishop of Ottawa, who will conduct the christening ceremony; the font in the little church where the ceremony will be performed; and Rev. J. H. Dixon, Rector of St. Bartholomew's Church, who will officiate with His Lordship the Bishop of Ottawa.

Grattan Peter Wins From Black Mack in Extra Heat

DEAD-HEAT IN THIRD FEATURES 2.22 CLASS

Grattan Peters and Black Mack Provide Action in Trotting Horse Races.

CLOSE FINISHES.

A dead heat, with Black Mack and Grattan Peters coming under the wire together and making a fourth heat necessary, enlivened the 2.22 class of the harness-horse races at the Exhibition yesterday afternoon. A large crowd again watched some close finishes on the fast track, with Grattan Bars, Jr., owned by V. Rountree of Weston, and Grattan Peters, belonging to Dr. Pierce of Oil Springs, taking first prizes in the two three-hundred-dollar purses.

In the first heat of the 2.15 pace, Grattan Bars romped home ahead of Lady Isobel, owned by Earl Rowe of Newton Robinson. H. Morrison's Toronto entry, Alayne, was third and Charley Schooley's Lou Grattan fouth. Three horses, Joe McGregor, Grattan Scott and Tillie the Great were scratched before the race.

They finished the same way the second heat, but it was close all the way around and right to the finish. In the final heat, Grattan Bars again won by a wide margin, Lady Isobel was second all by herself, Lou Grattan moved up to finish third, and Alayne was fourth. The race went to Grattan Bars, with Lady Isobel next, Alayne taking third money and Lou Grattan fourth.

In the 2.22 class, Grattan Peters nosed in ahead of Vernon McKinney Jr., Herb Payne's Toronto pacer, in the first heat, with Black Mack owned by W. Fanning of Lindsay, right there. They were all bunched at the end, and Ester Mary G, Lou Bennett's horse got fourth place just ahead of Art Johnston's Amdexter. Five horses, Marion Direct, The Partisan, Grattan Scott, Tillie the Great and Grattan Bars Jr., were all scratched.

Dead Heat Features.

The horses finished the second heat in the same positions, with J. Chapman driving a nice race to bring Grattan Peters down in front. The third heat caused some excitement, as Black Mack and Grattan Peters pounded down the stretch neck and neck to go under the wire together. The crowd, as usual, made an uproar when the judges' decision was announced, half of them pulling for one horse and the rest yelling the name of the other. Vernon McKinney, Jr., was third, Ester Mary G fourth, and Amdexter fifth.

Another heat was run off, and there was no argument, as Grattan Peters finished nearly a length ahead of Black Mack, with Vernon McKinney, Jr., third, Amdexter in fourth position and Ester Mary G next. Grattan Peters took first money, Black Mack second, Vernon McKinney Jr. third and Ester Mary G. fourth.

This is how they finished in the 2.15 class:

Grattan Bars, V. Rountree of Weston	1	1	1
Lady Isobel, Earl Rowe of Newton Robinson	2	2	2
Alayne, H. Morrison of Toronto	3	3	4
Lou Grattan, Charles Schooley of Peterborough	4	4	3

Time of heats: 2.14½, 2.14, and 2.14.

In the 2.22 class:

Grattan Peters, Dr. Pierce of Oil Springs	1	1	1
Black Mack, W. Fanning of Lindsay	3	3	1
Vernon McKinney Jr., H. Payne of Toronto	2	2	3
Ester Mary G, Lou Bennett of Port Hope	4	4	4
Amdexter, Art Johnston of Peterborough	5	5	5

Time of heats: 2.17¼, 2.18, 2.16 and 2.18.

Wrestling Last Night.

Philadelphia.—Jim Londos, St. Louis, threw Ray Steele, Glendale, Calif., 48.49 (one fall); Rudy Dusek, Omaha, defeated George Zaharias, Colorado (decision); Frank Spears, New York, three Bill Nelson, St. Louis (11.33). All heavyweights.

Toronto—Ed Don George, 222, Buffalo, defeated George Zarynoff, 195, Ukrania (two of three falls), Zarynoff 29.23; George 10.28 and 9.04. Joe Malcewicz, 198, Utica, N.Y., deefated George McLeon, 200, Nebraska (decision).

Wings Defeat Leafs to Virtually Clinch Title

Inside Sportin' Dope--By A. Wise Cracker

Mister Sporting Editor:

Well, Mac, I oughta be entitled to chortle a little I-told-you-so stuff seeing this week my 2 choices for the big league titles sailed safely into harbor. Both the A's and the St. Louis Cards is in, and they won't be much pep in the majors now until the world's serious. You remember that when I picked the Mackmen and the chain store lads from St. Louis to grab the honors, I also named the Athaletics to cop the serious, and I'm going to stick to that. Right now Mister Mack's boys is more or less crippled, but when the battle opens at the end of the month the A's will probably line up most of their regulars out there and look about the same as they done a year ago. Anyway, I'm counting on the pitching of Mister Grove and Mister Earnshaw to turn the trick against the best the Cards have to offer. It may be a tight serious, but the A's will come through, Mac, more for Mister Mack.

Locally, Mac, the bottom has pretty near dropped outa the sport world. The only excitement since my last was the wrassling and box fight show staged by Mister C. Hallat at the local ice palace last Fri. The card mighta been better, Mac, if the Athaletic Commission had of sent a referee what knew more about the mat racket. This bird was O.K. for boxing, but not so hot in the other stuff, and the result was, he give Mister Alex. Kasaboski a fall when the other grunter's shoulders was still in the air, and what promised to be a whirlwind finish was a flop. This Mister Hart looked like about the fastest exponent of the rough-and-tumble we'd seen around these parts, and it was tough on him and the fans wher Mister Referee pulled his boner. As it turned out no boxing referee was needed, for the boxing end of the card. All that was required was any bird with education enough to count up to 10, for Mister Jack Dane ended the boxing bout in a hurry by following Mister Jack Kearns' well-known instructions, "Pull up your socks and smack the big bum over." and sending Rough House Nelson to sleep with one wallop.

Local fans would like to see this guy Dane tossed in against a good man. He seems to have the old socko, and the boys round town are anxious to see him in action against somebody who knows what it's all about.

Nothing more I can think of.

Sportfully yours,
A. WISE CRACKER.

GEORGE DEFEATS COUNT ZARYNOFF

Russian Heavyweight Loses Final Two Falls After Winning First.

IN TORONTO BOUT.

TORONTO, Sept. 19.—Once again Count George Zarynoff, speedy Russian heavyweight, proved his ability to extend the champions and near champions when he scored the first fall of a three-fall bout to Ed ("Don") George, former world's titleholder, only to lose the last two falls and the bout. Zarynoff, apparently none the worse for wear and injuries in recent bouts in which he has been incapacitated, was as agile and bewilderingly tricky as usual, and gave George more than a few anxious moments before the latter eventually ended proceedings. As against other good wrestlers here, Zarynoff appeared to possess an uncanny faculty of anticipating George's movements and turning them to his own advantage.

The wrestling became spectacular at times; on other occasions George wary of being tricked, went about his work cautiously and left it to Zarynoff to take the initiative and supply the bulk of the action. Popular in former bouts here, George found that situation reversed last evening, the fans being solidly in favor of the smaler Zarynoff. They booed George at each opportunity and cheered Zarynoff's every move although the match was cleanly contested and hardly calculated to arouse such a partisan feeling. Several times George further aroused the antagonism of the spectators by crawling under the ropes to escape from dangerous-looking holds.

Not quite fifty minutes elapsed before George won the bout. Zarnyoff, amid deafening cheers, took the first fall in 29.33, but George came back to take the second in 10.28 and 9.04.

NEWARK WINS SLUGFEST 9-5

Bears Score Seven Runs in Sixth Inning to Win Easily from Baltimore.

ROYALS BLANK HERD.

NEWARK, N.J., Sept. 19.—A terrific bombardment on three pitchers, netting them seven runs in the sixth inning enabled the Newark Bears to defeat the Baltimore Orioles yesterday in the first of a closing series of three games.

The score was 9 to 5.

McAfee started in the box for the Bears, but was forced to give way to Myles Thomas in the sixth, when the Orioles scored one run on two singles and two bases on balls.

In the sixth the Bears pounded Tauscher Smyth and Hopkins for seven hits, which, with an error and a base on balls, netted seven runs.

Regan's home run in the ninth accounted for two runs for the Birds.

ROYAL BLANK BISONS

MONTREAL, Sept. 19.—The Royals won their eighth straight game yesterday when John Pomoroski blanked the Buffalo Bisons 8-0 in the opener of a four-game series that will close the International League season here. It was Pomoroski's eighteenth victory and third shutout of the 1931 campaign. Chatham led the Royal attack with three singles and a triple, while Malay also clouted two doubles. Carnegie got a triple and a single for the Bisons. Schoof went the route for the visitors and was touched for 13 hits. The game was played in the fast time of one hour and twenty minutes, a season's record here.

Few Ducks Bagged On Opening Morning

BAILIEBORO, Sept. 19 (Examiner Correspondence) — Duck hunting season opened on Tuesday and as usual there were many more hunters than ducks.

There were few ducks shot and it is generally considered that the weather will have to become cooler before the wild ducks will be plentiful at Rice Lake.

During the summer several fine flocks of harvest duck have been sighted, but the wise birds seem to have sought refuge in seclusion from hunters.

GROVE HURLS 30TH VICTORY FOR ATHLETICS

Philadelphia Star Sets New Southpaw Record for American League.

SENATORS WIN IN 12TH.

Herman and O'Doul Shine as Brooklyn Robins Cop 3-2 Victory.

By GAYLE TALBOT
AP Sports Writer

It's been a poor day this week when the major leagues have not provided some sort of excitement. In the short space of four days, both pennants have been clinched beyond further argument and two American League stars have set new all-time individual player records.

Robert Moses Grove, great southpaw of the champion Philadelphia Athletics, became the second record breaker in two days yesterday when he pitched his 30th victory of the year at the expense of the Chicago White Sox, 3 to 1. Earl Webb of Boston had broken the all-time mark for two-baggers the previous day.

Grove is the first southpaw in the history of the American League to achieve 30 triumphs in a single season and the first in either league to accomplish the feat in the current century. The last major league pitcher to reach Grove's present mark was Jim Bagby, a righthander, who scored 31 victories for Cleveland in 1920.

If he does not pitch another game, Grove's present record of 30 wins and but three defeats for a winning percentage of .909 will establish a new big league mark in that respect. The Athletics' ace possibly has set a record that will stand for all time.

In posting No. 30, Grove allowed the White Sox only five hits and struck out six, running his strikeout total to 165 for the year. His closest rival, George Earnshaw, has whiffed 146. Grove's single off Urban Faber in the third inning started a two-run rally that provided his margin of victory.

Washington and New York remained in a dealock for second place in the American League as both won their games. The Senators had to go 12 innings to nose out Detroit, 4 to 3, Heinie Manush scoring the winning run when Earl Whitehill unloosed a wild pitch. It was tough on the Detroit hurler, as he had allowed only eight hits while his mates had made 11 off Marberry.

The Yankees looked like the Yankees of old for the second straight day as they slaughtered the St. Louis Browns, 14 to 4. Babe Ruth supplied the highlight with a towering home run, his 43rd of the year, leaving him only one behind his teammate, Lou Gehrig.

The rejuvenated Boston Red Sox captured two games from the Cleveland Indians, 6 to 1 and 6 to 4. Jack Russell set the Indians down with five hits in the first and Hod Lisenbee subdued them in the second game, despite two home runs by Earl Averill that accounted for all of Cleveland's runs.

Chicago Hafey scored all the way from first base on Pepper Martin's single in the ninth inning as the St. Louis Cardinals squared their series with the Giants, 4 to 3. Mel Ott, Giant outfielder, was knocked unconscious by one of Burleigh Grimes' fast balls in the fifth inning. While his skull was not fractured, he will be in the hospital several days.

Air-tight pitching by the rookie, Van Mungo, and Babe Herman's timely hitting enabled Brooklyn to break the Chicago Cubs' eight-game winning streak, 3 to 2. Herman's 18th home run and his single drove in all the Robins' runs off Charlie Root.

Boston and Pittsburgh divided a double bill. Ed Brandt, Braves' southpaw, stopped the Pirates, 6 to 2, in the first game for his 18th win of the year. Heine Meine of the Pirates also chalked up No. 18 when he won the nightcap, 4 to 1. Pie Traynor, Pittsburgh captain, hit a home run and three singles in the second game.

Philadelphia and Cincinnati were not scheduled.

MARMORA

Mr. Frank McFarland is a patient in Belleville General Hospital.

Mrs. James Clark of Queensboro is visiting her mother, Mrs. D. McCoy.

Born—On Wednesday, September 16, to Mr. and Mrs. Ross Loveless, a daughter.

Mr. and Mrs. Earl O'Connor visited Belleville on Friday.

Barber and Donald, the reserve backs, were also big figures in Chelsea's initial victory. The latter is a versatile player who once adorned the half-back line of Partrick Thistle before going to America for a short spell with a clubmate.

Bowling Club Play For Gift Trophies

CAMPBELLFORD, Sept. 19 (By Examiner Staff Correspondent).—Special prizes donated by Messrs. Batty, McMillan, Stevens and Ryan of the Port Hope Bowling Club sent to the Campbellford Club in token of their appreciation of the hospitality extended them by the local players were contested for on the local green yesterday; the rink skipped by C. P. Shepherd winning the trophies. Keen competition was shown by the rinks, who played extremely fine games. The prizes were four silver trays.

The winning rinks was composed of C. P. Shepherd, skip; C. W. Palliser, Mrs. W. Wiggins and Mrs. A. G. Thompson. The standing of the first four rinks was as follows: Shepherd's, plus 30; Archer's, plus 28; Glover's, plus 26; O'Reilly's, plus 25.

Wesley Campbell Sent Up For Trial

ALLISTON, Sept. 19. — Wesley Campbell, 52 years old, was committed for trial yesterday on a charge of murdering his father, William Campbell, 88 years old, retired farmer, of Alliston, whose body was found in his home here Sept. 3. Campbell appeared for trial before Magistrate W. A. Hogg after an inquest into his father's death. Injuries received from some person or persons unknown caused the aged man's death, a jury under Dr. J. D. Cunningham, the Coroner, found. The accused man was not put in the box at the preliminary hearing. A plea of not guilty was entered.

Preston received a setback when representatives met M. Best, the forward from Falls River club, U.S.A., at the landing stage. Best went over at the invitation of Manager Seed, of Clapton Orient, and remained true to him.

Runs—Klein, Phillies 120; Terry, Giants 116.

Runs batted in—Klein, Phillies 115; Ott, Giants 110.

Hits—L. Waner, Pirates 206; Terry, Giants 203.

Doubles—Adams, Cardinals 45; Herman, Robins 43.

Triples—Terry, Giants 240; Herman, Robins 19.

Home runs—Klein, Phillies 31; Ott, Giants 29.

Pitching—Haines, Cardinals, won 11, lost 3; Derringer, Cardinals, won 17, lost 7.

Chelsea have some fine reserve players. At short notice they called on one Woodley, a goalkeeper, to play his first match against Middlesborough in the opening game. He never made a mistake.

Former Weakens in Sixth Innings and Allows Six Counters.

BY SCORES 6-1, 7-4.

ROCHESTER, N.Y., September 19 — Rochester is sure of at least a tie for the International League pennant as a result of its double victory over the Leafs here yesterday afternoon. The scores were 6-1 and 7-4.

Johnny Allen, ace of the Leafs staff, handcuffed the Red Wings for the first seven innings of the opener, but was nicked for six runs in the eighth. It was a ding-dong battle until this juncture with the Leafs holding a 1 to 0 edge.

Puccinelli started the fireworks by cracking a triple off the centre field fence. The blow seemed to rattle Allen, for he passed the next batter, and three singles followed in a row. A hit batsman and two more singles accounted for the six runs.

Toronto scored in the seventh when McHenry reached first on Delker's error. He rode home when Novak crashed a screeching double to left. This was the only time the Leafs threatened off the the delivery of Carman Hill.

Glen Leibhardt faced Ray Moss in the nightcap, but the former was no puzzle to the Red Wings. He was nicked for four runs in the second after two were out. In the seventh the Wings sewed the game up by scoring three more tallies with the aid of wild throws by Stack and Walker.

Toronto tossed a scare into the champions in the last frame, when Walker crashed a home run to deep left field scoring Morehart and Burke ahead of him.

WESTERN UNIVERSITY LOOMS AS STRONG CONTENDERS THIS YEAR

Tri-color Takes Immediate Action in Preparing for Autumn Campaign.

VARSITY WEAKER

(By Jack Hambleton)

TORONTO, Ont., Sept. 22. (Canadian Press).—The boys and girls who—according to the story books—wear coonskin coats and all that sort of thing are becoming enthusiastic as usual about the coming rugby season. From McGill, Varity, Queen's and Western comes the word that all the spectacular features of intercollegiate football are listed again this year—and then some. For this year, of course the forward pass will add a little more color, a little more pep, and a little more excitement to the already over-excited college loop.

This year with the forward pass looming as a possible threat and adding to the tricky plays in which the colleges specialize, promises to add still further to the delights of college rugby. For it is a threat, and a powerful one. Even more than in the big outside-college loops the toss will soar overhead. And the triple-threat man who kicks, runs and throws with equal facility may now enter the headlines, just as much as the man who kicks alone. To the linemen too will go much of the glory, for without protection the thrower will be just as helpless as the kicker who sees the

The recently innovated forward the opposition onslaught.

Tri-Color Takes Action

So far as the Tri-Color is concerned, last season's champions are wasting no time, and Kingston may again be the home of the Intercollegiate championship, although there is plenty of opposition in sight. Howard Carter, premier kicking halfback, has been attending practice regularly and is already in tip-top shape. He still retains his kicking ability, but in addition has developed a useful throw that should make him even more valuable. Ralph and Glass, outside wings, are in action too, and are fighting for the positions left vacant by Gourley and Dediana. In addition to Carter, Gilmore, Davis, Day and McNichol lined up on the half line, Caldwell may not play this year. He is awaiting to hear the result of the supplementary examinations, and several others are hanging back from the same cause.

Western, which last year boasted of the strongest line in Intercollegiate rugby, may rank considerably higher than they did last year. Coach Joe Breen has a lot of good material and he himself is an expert at whipping players into shape. McLachlan, who captained last year's squad, with Kewpie Kennedy, have been going great guns in practice. And then of course, there are Ward, Gugino, Stull and Paterson all available. But in addition to this imposing list, Breen has Brown, Quigley, Bryant, Tweedie and others. Johnny Duncan, former Windsor star, has already turned out, and among the new material Jack Sohnarr is a likely quarterback. The Mustangs have improved steadily since they first entered the big league, and with any kind of break this year should be well up among the leaders.

Good Varsity Turnout

Just in case anyone might think interest locally is dying down, it may be pointed out that 80 players appeared on Varsity gridiron when training began. And University of Toronto promises to be well up at the end of the season. A great deal of their hope is based on Jack Sinclair, outstanding kicker, who in three games last year scored every point. Sinclair has not yet turned out but there seems to be no lack of optimism at Varsity as to his intentions. He will be here, Coach Hobbs says, and while Toronto has lost some valuable men through graduation, they still have Galloway, Keith, Bennett, Dewar, Fitzpatrick, Henderson, Wood, Jim Sinclair, Ferguson, Peacock and Twaites, with a strong probability that Elson, Scott, Witzel and Art Snider will be out later. But besides the regulars, there are dozens of others who are trying to make that Varsity team.

The battle cry of "What's the matter with old McGill" is as likely to be heard at the end of the season as it is every year. Despite rather pessimistic reports from Montreal the knowing are watching the eastern squad. "Shag" Shaugnessy is coach again and Shag knows his football as well as anyone ever did. Captain Don Young, D'Arcy Doherty and Sammy Granger arrived in Montreal a little late last week, but they are in uniform. If anything, Shag needs a kicker and he may have just that in Lyall Laishley, of Ottawa. And then a chap named Oaken, who hails from Southern California, looks like a useful man for McGill. He can run, and he can throw, both very handy achievements. Bert McGillivray has returned to the school after an absence of some time and will take up a post-graduate course in Arts—well mixed with football. Norm Smyth, who ran wild on end runs in 1929 and 1928, is in action, although nursing a sprained ankle. And so, from present indications, it looks like a rather large year in intercollegiate circles. The usual crowds will struggle for tickets; there will be the usual snake dances of victory; the usual purloining of goal posts; and all that sort of thing; one thing certain, when the season opens on October 10 with Queen's at Varsity and McGill at Western, four well matched and well drilled teamswill be in action—and the forward pass will probably play a big part in the day's celebrations.

Bowling Notes

The Peterborough exhibition apparently attracted some of the members of the Peterborough Lawn Bowling Club last evening as the attendance at the usual Friday night tournament was hardly as large as usual. A number of rinks were on hand and an evening of interesting bowling resulted. The four winning rinks were as follows:

T. McDonald, skip; H. Wood, R. Best, R. Brown.

Dr. Allen, skip; G. Sorensen, C. Williamson, L. Brown.

B. Chesler, skip; J. Bennett, A. Grant, H. Bennewith.

G. Hutchinson, skip; R. Markin, P. Hopero, M. Breckenridge.

Singles Competition

There promises to be a lot of keen competition in the championship singles events, play in which is expected to start next Tuesday. Last evening 46 entries had been received. Entries close tonight. The draw will be made immediately and posted in the Club House. This will be a straight elimination event, each player dropping out as soon as defeated. There will not be any set number of ends to be played as which ever player secures 21 points first, regardless of the number of ends, will be the winner.

Farmers as Guests

An invitation has been extended to a number of farmers living near the city to compete in some friendly games next Thursday evening. Vivian Milburn, of Smith Township, and Harold Quinn, of Douro Towship, are organizing the rinks so the competition will partake of an inter-township nature. There are a considerable number of keen horse shoe pitchers among the farmers living near the city, all of whom should make good lawn bowlers as the qualities required in horse shoe pitching are much the same as those that bring success in lawn bowling. These include judgment of weight, in the matter of delivering the horse shoe or the bowl. Any farmers in these two townships who would like to compete are invited to hand in their names to either Mr. Milburn or Mr. Quinn.

Ladies Tournament

The women members of the Lawn Bowling Club will hold a ladies invitation tournament next Friday afternoon when three 8-end games will be played. Women members of the clubs at Cobourg, Port Hope, Norwood, Lindsay and other adjacent points have been invited to compete. The games will be largely of a social nature. There will be no entry fees. The club will put up the prizes.

CASUAL COMMENT

The third game of the final playoffs for the championship of the Girls' Softball League will take place Monday evening at the Bowl at 5:15 o'clock, with Keene being the home team. The crowds are getting bigger and bigger all the time, and this is their last week to see the games, as a winner will be declared before the end.

• • • • • • •

Regardless of how today's contest goes, Brintons will have to get to work in a hurry or the cup will go out of the city the very first year. Those Keene maidens aren't fooling, they mean business and certainly had it all over the green-sweatered damsels like a tent in the first game.

• • • • • • •

And we'd like to suggest that it's hardly the thing for the fans, men in particular, to make personal remarks to the players. Any amount of shouting is okay, but the girls are playing for their own enjoyment and the entertainment of the fans, and they quite naturally object to insulting remarks while they're on the field.

• • • • • • •

The meeting of All Saints' Athletic Club is called for Monday evening at eight o'clock in the club rooms A good turnout is hoped for to get started on the fall and winter activities of the A.S.A.A.

• • • • • • •

Did those race trackers boo the judges in yesterday's 2:22 race They did and then some! It was in the third heat, and two ponies galloped under the wire simultaneously. The judges called it a draw, and half the fans yelled one hoss's name, and half hollered the other one, while all got together finally and booed heartily.

• • • • • • •

Of course the judges are looking down over the wire and should know how they finished, but try and tell that to those railbirds.

• • • • • • •

It seems funny, but the senior section of the Lakefield Softball League which will operate this fall at the rink, is made up of five Peterborough teams. The Canada Cement Company, sponsors of the loop, are putting up a classy silver mug for the winner.

• • • • • • •

The schedule opens next Friday night, with a doubleheader being staged two or three evenings a week. It'll be a good thing for gas stations here, as the five teams will be motoring up there regularly. The Lakefield fans go for their indoor softball in a big way, and the teams expect full houses for most of the games.

• • • • • • •

Percy Harrison is running the City Service team, and George Dormer will handle the Sugar Bowl outfit, winners of the City League here this summer. Our guess is that these two will be somewhere within a stone's throw of the play-offs around the windup of the schedule.

• • • • • • •

Canucks, of the South-end Softball League, Dominion Woollens, and Bert Deck's crew are the other three entries. The latter team is composed of a bunch of East City players who had considerable success throughout the summer playing exhibition tilts with some of the best in the city.

• • • • • • •

Too bad we couldn't have run a fall loop here, as there were a dozen promised entries to choose from, including those now playing in Lakefield. However, no suitable place could be obtained for the games, and the idea had to be junked.

• • • • • • •

The lacrossers will hold workouts from time to time just to keep in the pink for their tussle with Kingston in the Limestone City on Thanksgiving Day. It will be an exhibition game, winding up the season for the intermediate exponents of the gutted stick game.

BOXER BEATEN BY LARRY GAINS CLAIMS HONORS

But Charlie Smith's Right to Title is Disdained by Board.

'PEG BOY BEATEN.

By T. S. ANDREWS

TORONTO, Sept. 19 (Special to The Examiner)—The naming of contenders in the various divisions of boxing is interesting sometimes, but there are times when interest lags, especially when the fans think their favorites are not fairly treated.

Just now there is a howl among the fans as regards the placing of Jack Sharkey next to Max Schmeling, the German world's champion, with Mickey Walker, who defeated Sharkey, fifth. Both Tommy Loughran and Ernie Schaaf are placed ahead of Walker, although Charley Retzlaff, who was recently beaten by Joe Sykra, is named among the contenders.

The same condition exists in England as regards the heavyweight class. When the commission there decided that Phil Scott was not a representative champion of England, and advised him to vacate the heavyweight throne, Charlie Smith, considered one of the best heavies among a poor lot in the merry Isles, claimed the title.

Now Harry Williams a real sporting man of London, offers a purse of $5,000 o. which $2,500 shall go to the winner, for a tournament among the best eight heavies in England. That is $4,500 more than Billy Madden, now dead, offered when he started a tourney in London from which the late Charlie Mitchell was developed.

Mr. Smith refuses to enter the tourney unless he is given a chance to meet the winner of the elimination only, and Mr. Williams promptly told him to go chase himself.

Not only the heavies, but the middleweights as well are having their troubles. The tourney in Milwaukee to try and select a successor to Mickey Walker, retired, is going on, but some of the best middles are not entered.

Dave Shade declined to enter, claiming that he should not be asked to go through a lot of men he has beaten or outclasses, but the National Boxing Association, which is sponsoring the tourney, says that Mr. Shade will not be permitted to meet the winner. That lets Dave out unless he goes to New York, Pennsylvania or California.

It was supposed that the prelims of the tourney would be run off first and then the winners brought in for the semi-finals. However, the committee drawing the pairs decided that Littman, who was a winner on the first show, and Angel Cleville, winner on the second round, should meet soon in the windup of the show and thus give the promoters a chance.

Frankie Battaglia, the favorite, was counted out of the tourney when Cleville stopped him in 30 seconds a week ago. Battaglia has protested the stopping of the bout by the referee, but it is not likely the commission will let him come back into the tournament. It would be much better, at that, to see Battaglia fighting his way again than some of the middles who are still in the running.

Just why England should send two men—Harvey and Hood—when Harvey holds the championship there, is hard to tell. Hood is really a welterweight, although he scaled 152 when he recently fought Vince Dundee.

FIGHTS LAST NIGHT

CHICAGO—Baxter Calmes, Wichita, Kas., outpointed Mickey McFarland, Denver (10).

WILMINGTON, Del.—Sid Lampe, Baltimore, and Johnny Lucas, Camden N.J., drew (8).

MIAMI, Fla.—Billy Schell, Columbus, Ga., outpointed "Tiger" Johnny Cline, Fresno, Cal., (10).

ST. PAUL, Minn.—Prince Saunders, Chicago, stopped Roger Bernard, Flint, Mich (2); Frank Battaglia, Winnipeg, knocked out Billy Light, St. Paul (7).

GREAT ARTIST'S SON TAKES TO PRIZE RING

Son of Augustus John Makes Debut as Boxer

London.—It is rather a far cry from Chelsea to Croydon, but faithful members of the art colony made a pilgrimage there the other night, when Teddy John, the son of Augustus John, the famous painter, made a successful debut as a professional boxer against Ted Giles, a local battler.

The artist parent was unable to be at the ringside as promised, but the art students of both sexes saw their student colleague win in eight rounds.

John's cropped black hair, small beady eyes, high cheek bones and firm chin suggested neither the fighting man nor the artist, but his stern expression reflected an agreeable sincerity in the ring.

A quick stubborn left warned an opponent on whose thickened features the noble art for many days had wreaked its bitter will.

Giles is not an Adonis of the magic square, and, while one of his clumsy swings caused John's nose to bleed in an early round ,the painter-fighter cut his rival's right eye with a neat hook later on.

Then the face of the Croydon man bore what might be called in art circles a Turneresque aspect.

Perhaps it was this point of view that influenced the referee, for at the end of the eighth round he stopped the fight and declared the local "pug" a loser.

John seemed to regard this as a fortuitous verdict and making some protest to the official, was rather loth to leave the ring.

READ THE WANT ADS.

THREE TRUMP CARDS

THREE TRUMP CARDS

St. Louis Cardinals, with the fans of the west almost solidly behind them, are out to demonstrate this year they can upset the Philadelphia Athletics' apple-cart, despite their defeat in the big series last year. The Cards comprise a powerful squad, and the experts give them every hope of success. We were talking the other day to Vince Barton, the Edmonton-Toronto boy who is making good with the Chicago Cubs, and it is his opinion that the Athletics will fail miserably if Grove and Earnshaw do not deliver. This will hardly be likely, but don't forget that Gabby Street has a mighty fine crew of pitchers himself. We don't forget in a hurry that remarkable exhibition staged in 1930 by "Wild Bill" Hallahan, and if 'Sunny Jim Bottomley breaks the jinx Grove seems to hold over him, then it may be just too bad for Quaker Town.

C.R.U. Rulings Are Discussed By Coaches

TORONTO, Sept. 19.—The no-decision, annual tussle of the combined forces of referees and coaches v. the Canadian Rugby Union rules, was waged last night at the King Edward Hotel in the annual rules meeting of the O.R.F.U. While Billy Hughes of the Hamilton Big Four team hurled vociferous attacks and led the clan in the assault on the rules, there was nothing definite done to indicate an upheaval that the debate warranted.

However, it might be said that the session was one of the most useful that has been held by the Ontario Union in years. The C.R.U. rules commission, that will meet this morning to clarify any misty ideas anent the rules, will have more on its hands than was originally intended. Billy Foulds of Toronto and Bob Isbister of Hamilton, who are both members of the C.R.U. rules commission, answered the many queries of the coaches and referees and gave interpretations.

bulwarks before him melt away from pass to the Canadian game received a gruelling and several of the rules that left room for ambiguity will be aired at to-day's meeting, and the findings from last night will be discussed. A bulletin outlining the C.R.U. meeting will be issued to all the clubs

Mr. John DeGruchy, in the capacity of head of the O.R.F.U., presided and his closing remarks requesting the teams to employ the rules as given and not as they might be possibly construed contained a message that, if taken, will assist the game considerably.

Condition Is Grave Following Accident

STRATFORD, Ont., Sept. 19. — (CP)—Mrs. V. Shinbein, well known resident of Kurtzville, lies in Listowel hospital in a grave condition suffering from a dislocation of the spine as the result of an auto accident yesterday on No. 30 Huron County road, about two miles from Clifford. Latest reports from the hospital at Listowel are to the effect that Mrs. Shinbein, although she is conscious, is almost totally paralyzed and chances for recovery are slight.

Wilf Kirkham, the Stoke City centre-forward, was the first serious casualty of the season. A fractured left leg was the lot of the school-master leader, so that Stoke City's centre-forward problem now becomes more acute.

BURGESS BEDTIME STORIES

STUBTAIL'S CHANGE OF MIND

Pity one who cannot change,
And all his ideas rearrange.
—Stubtail.

Stubtail the Mountain Beaver, who was not a Beaver at all, was telling Mrs. Stubtail all about it. She was sitting snuggled close to him, as if thus to make sure that he was really there. It was almost too good to be true, this having him back, for she hadn't expected to ever see him again.

"It is hard to believe that that terrible two-legged creature really brought you back and let you go," said she, snuggling a little closer.

"Who said that two-legged creature was terrible. He wasn't terrible at all, replied Stubtail.

"You must have changed your mind,' retorted Mrs. Stubtail. "You called him terrible the first time you saw him, and he hadn't done anything to you then."

"I have changed my mind," was Stubtail's prompt response. "It is a narrow mind that never changes. I thought he was terrible the first time I saw him, but I was mistaken and I am willing to admit it and don't care who knows it."

"Just the same, I think he is terrible," retorted Mrs. Stubtail with a little shiver. All those two-legged creatures are terrible."

"He isn't," retorted Stubtail obstinately. "If he were he would have killed me when he found me in that thing I got caught in." (He meant the wire trap Farmer Brown's Boy had set for him.) "Instead of that, he gave me the nicest things to eat and then he brought me back to you. Do you call that terrible?"

"No-o," confessed Mrs. Stubtail reluctantly.

"All the time he took the greatest care to see that I was not hurt in any way," continued Stubtail, "and tried to see that I wasn't frightened."

"But you were frightened. You know you were!" cried Mrs. Stubtail triumphantly.

"At first I was," admitted Stubtail. "Any one would have been. I guess some folks would have died of fright."

"I'm sure I would have," interrupted Mrs. Stubtail and shivered again.

"But it didn't take me long to find out that he intended no harm," continued Stubtail, "and then I wasn't afraid of him at all."

"How brave you are," murmured Mrs. Stubtail admiringly.

Stubtail swelled a little at this. You know, most people like to be thought brave. "Of course," said she, I showed him that I wasn't afraid of him. When he brought me food I took it right from his hand, and that showed him."

"I have changed my mind," was Stubtail's prompt response

"I don't see how you dared do that. That was the bravest thing I ever heard of," said Mrs. Stubtail in such a tone of admiration that Stubtail puffed himself out a little more.

"Yes," he continued, "I took it right from his hand and ate it, just as if he wasn't anywhere about. That showed him that I wasn't afraid of him."

"Was it good food?" asked Mrs. Stubtail.

Stubtail smacked his lips. "The best I ever ate," he confessed.

"What was it?" demanded Mrs. Stubtail enviously.

"I don't know," confessed Stubtail. "That is, I don't know what some of it was. There were some of the things we have here, but there were other things I never saw before. My, but they were good!" He smacked his lips again at the memory of the vegetables that Farmer Brown's Boy had given him. Of course he never had tasted fresh vegetables of any kind before. That mountain was far from any gardens.

"I wish he would bring some here to us,' sighed Mrs. Stubtail, little suspecting that her wish would be gratified the very next day. "Just the same, I shall always think those two-legged creatures are terrible," she added a bit defiantly.

So, thought Stubtail out of his experience had learned that admitting error in judgment is one way of gaining in wisdom, Mrs. Stubtail obstinately stuck to her opinion.

(Copyright, 1931, T. W. Burgess)

Quick Relief for Women

Women need not endure periodic pains and headaches. They can spare themselves this suffering by taking ZUTOO TABLETS. Mrs. Allen Wright, of Fulford, who was relieved in 30 minutes of severe pain and headache, wrote saying: "Every woman in the land should know about ZUTOO TABLETS and what they will do." Just try the tablets and know for yourself how quickly they stop the pain.

TREASURER'S SALE OF LANDS FOR TAXES

COUNTY OF PETERBOROUGH

To Wit:

BY VIRTUE OF A WARRANT made under the hand of the Warden and Seal of the County of Peterborough, and to me directed, bearing date the 10th day of July, in the year of our Lord, One Thousand Nine Hundred and Thirty-One, I am commanded under the authority of the Statutes in that behalf, to levy on the lands hereinafter mentioned and described, for the arrears of taxes due thereon, with the costs as hereinafter specified, as directed by the said Act. Therefore to give notice that unless the said arrears and costs are sooner paid I will proceed to sell by public auction at the Court House, in the City of Peterborough, on the 10th day of November, 1931, at the hour of ten o'clock in the forenoon, the said lands or so much thereof as may be necessary for the taxes, and all lawful charges incurred, in and about such sales, and the collection of the taxes.

ED. M. ELLIOTT,
County Treasurer.

Court House, Peterborough,
July 10, 1931.

Millbrook

Miss Phyllis Kidd is spending the week in Peterborough the guest of her uncle and aunt, Mr. and Mrs. J. O. Fife.

Mrs. (Dr.) E. L. Burnham is visiting her son and his wife, Mr. and Mrs. F. W Burnham, this week at Peterborough.

Mr. and Mrs. G. F. Harrington are enjoying the annual C.P.R. ticket agents excursion this week, the trip being by boat through the new Welland Canal, and on to Windsor and home by the northern lake route.

The local Agricultural Society has issued this week its annual prize list for the fall fair, which will be held on Thursday and Friday, October 1 and 2, with the promise of being "Bigger and better; three thousand dollars in prizes; and with many new attractions." R. O. Larmer is president, and J. N. McGill secretary-treasurer.

Dr. F. C. Neal, of Peterborough was in the village on Wednesday assisting Dr. H. A. Turner with a slight operation necessary for Mrs. (Rev.) William Simpson, whose many friends will regret to learn that she is still seriously ill at the rectory.

The parsonage committee of the Ladies' Association of Saint Andrew's Church have been busy with many improvements at the parsonage this week, the large living-room and reception hall adjoining having been freshly papered, and the space round the rugs, into which the carpet has been made, newly grained. Volunteer labor on the part not only of the committee but also of other helpers, including some of the men, has made the rapid accomplishment of the work a possibility. A new chesterfield suite, replacing the two couches formerly in these rooms, adds greatly to the attractiveness and comfort of the furnishings.

Dr. and Mrs. Turner, and Miss M. B. Turner, B.A., were among the many from this vicinity who motored to Peterborough on Tuesday evening for the purpose of hearing the famous St. Hilda's band at the Exhibition grounds.

Among the many children entered in the contest recently conducted by the Roy Studio, Peterborough, those from Millbrook included Bobby Gray, son of Mr. and Mrs. Frank Gray; Esther Armstrong, daughter of Mrs. H. R. Armstrong; and Barbara May, daughter of Mr. and Mrs. Alex Harkness.

The Presbyterian manse has been completely renovated and redecorated within recent weeks, previous to the moving in of the new minister for the charge of Millbrook and Centreville, Rev. H. R. Williams, with his wife and their three sons, who came here from Mt. Brydges, in Western Ontario. An electric motor installed in the cellar for the purpose of forcing the water automatically upstairs is among the many improvements made to the property.

Rev. H. R. Ragg, rector of All Saints' Church, Winnipeg, will be the special preacher in the parish of Cavan on Sunday, September 20, the service in Saint Thomas' Church Millbrook, being at 3 p.m., the change of time being made to allow Christ Church, Bailieboro, to hold its annual Harvest Thanksgiving service in the evening at 7.30 p.m. Trinity Church, the Marsh, will also observe its Harvest Thanksgiving service on Sunday at 11 a.m., Rev. Mr. Ragg preaching at all three appointments.

What To-day Means To You

"VIRGO"

If September 19th is your birthday, the best hours for you on this date are from 11 a.m. to 1.15 p.m., and from 4 p.m. to 7.05 p.m. The danger periods are from 8.15 a.m. to 9.45 a.m., from 2 p.m. to 3.20 p.m., and from 9 p.m. to 10.45 p.m.

Unexpected turns in the current of events will bring various surprises on September 19th, according to the Signs Both employers and employees will benefit, and their good fortune, whatever it may be, will come suddenly. Research writers, inventors and those whose business is unusual, are promised all sorts of good things.

Children born on this September 19th will be faithful to duty, adaptable to environment, loyal to friends and enthusiastic in their work. Given normal health conditions—and these will need watching—they are bound to be sucessful, both materially and morally.

You, if born on September 19th, are careful and cautious—so much so, in fact, that your career, whatever it may be, is liable to be rewarded by your inability to take advantage quickly of opportunities when they present themselves. Impulsiveness is to be deprecated. Excessive deliberation, on the other hand, has serious drawbacks. Even when you have reached a decision, you always show hesitancy in putting into execution, and are mentally assailed by innumerable doubts and hypothetical "ifs."

Your integrity is unquestioned, and when only right or wrong is involved, no time is wasted by you in meditation. You make up your mind instanteously, and it is only when expediency is the issue that you are in doubt. You are very conscientious and painstaking, punctual and punctilious. In your habits—and you are a creature of custom—you are fussy, and more disposed to worry over details than essentials. Your disposition is an amiable one, although you are extremely sensitive and unduly jealous. You are slow to anger, and quick to forgive.

You love your home, and, if a woman, devote a great deal of energy and thought to making it happy and pleasant. Sometimes, your excessive diligence in this respect brings about a result contrary to that for which you have striven.

"VIRGO"

If September 20th is your birthday, the best hours for you on this date are from 9 a.m. to 11.10 a.m., from 2.30 p.m. to 4.10 p.m. and from 8 p.m. to 10.25 p.m. The danger hours are from noon to 1.45 p.m. and from 5.15 p.m. to 7.20 p.m.

The planetary aspects of September 20th are especially favorable for relaxation and recreation Many, especially the younger ones, will fall into Cupid's toils and, in the majority of instances, will have no reason to regret it. The more experienced and disillusioned will also have their share of good things.

A child born on this September 20th will be endowed with personal magnetism and force of character that will enable it to become a leader. It will be capable of concentrated effort, trustworthy and clean-minded, and, in addition, possess a truly affectionate disposition.

You, if born on September 20th, are full of ambition and a desire for sucess. When it comes, however, to the point of sacrificing comfort or pleasure for the sake of realizing your hopes, you fall by the wayside. So long as you allow yourself to wish for advancement, merely to feel that you are so important as to desire it more than the next one, you will find that the world has for you only kicks, and none of its prizes.

It cannot be gainsaid that you are intelligent. You are not, however, intellectual. You have a wide knowledge of a superficial character about lots of things but you have a fundamental knowledge of none. You are a quick and voracious reader, and are blessed with a good memory. You are not lacking in charm and personal attractiveness, and are extremely popular with the opposite sex—too much so for your own good.

If a woman, you are inclined to be frivolous and pleasure-loving. When, however, "Mr. Right" materializes, the chances are all in favor of your becoming a good wife and mother. If a man, you are variable in your attachments, and disposed to be spoilt by too much flattery and attention. The right mate, however, as well as the obligation that marriage implies, will in all probability bring about a complete metamorphosis in your life. Neither man nor woman, born on September 20th, will attain any material or spiritual success, so long as they lead care-free and irresponsible lives.

Trent River

A shower passed over here on Wednesday night, accompanied by vivid lightning and heavy thunder.

A number of residents are suffering from the prevailing epidemic of severe colds.

The West Seymour Women's Institute met Thursday afternoon at the home of Mrs. John Armstrong, "Hillview Farm."

Mr. and Mrs. W. C. Dafoe and son Harold, of Belleville, were recent visitors with Mr. and Mrs. Isaac Lawson.

City Treasurer's Sale of Lands for Arrears of Taxes

Corporation of The City of Peterborough

TO WIT:

By virtue of a warrant issued under the hand of the Mayor and the seal of the Corporation of the City of Peterborough, bearing date the 29th. day of July, 1931, and to me directed, commanding me to levy upon the several parcels of land hereinafter described for arrears of taxes due thereon, together with all lawful costs and charges in connection therewith. I hereby give notice that unless the said arrears of taxes and costs be sooner paid, I shall, pursuant to the provisions of the Assessment Act, at the City Council Chamber, in the City of Peterborough, on Tuesday, the 10th. day of November, 1931, at the hour of ten o'clock in the forenoon, proceed to sell, by public auction, the said lands or so much thereof as may be necessary to discharge such arrears of taxes and all lawful costs and charges in connection with such sale.

TALKING OF SPEED—

A new world's record is to be established by the Great Western Railway in September, when the Cheltenham flyer express will cover the 77 miles from Swindon to London in 67 minutes.

The train will travel at an average speed of nearly 70 m.p.h. and will thereby provide the fastest scheduled "start-to-stop" service in the world.

For part of the journey the Cheltenham flyer will travel at a speed of from 80 to 85 m.p.h., but the system of automatic train control, which has recently been installed on the Great Western system, will remove all element of danger from travel at so high a speed.

SPLENDID NEW SCHOOL OPENED AT BANGOR

Growth of City Has Been Very Rapid Since 1927

Belfast, Ireland:—The Marchioness of Londonderry, D.B.E., recently opened the splendid new public elementary school in Bangor, which was constructed at a cost, including site, £43,800.

The mayor of Bangor, Councillor Walter Malcolm, presided over a large gathering of townspeople and visitors.

Lady Londonderry, expressing regret at the unavoidable absence of the Marquis of Londonderry, said he had been called to London on urgent business.

The chairman, alluding to the rapid expansion of Bangor, said that since 1921 the population of the borough had increased by 5,000, and 1,200 new dwellings had been built and occupied.

Those present included the Right Hon. J. M. Andrews, D.L., M.P., minister of labor.

ANCHOR LINE WAGES CUT

Glasgow employees of the Anchor Line have received notice to terminate their engagements on the last day of September, with the option of engaging the next day on certain conditions, including reduced salaries.

Several hundred of the shore staff are affected, and the reductions will extend to the personnel of the ships.

CANADIAN BUFFALO START TREK TO NEW QUARTERS IN THE NORTH

Far From Being Extinct, Buffalo Herds Too Large for National Park.

BREED NEW CATTLE.

(By James Montagnes.)
(Special to The Examiner. Copyright, 1931.)

EDMONTON, Alta., September 19. —The buffalo migration is on. The Athabasca River, that mighty stream of Canada's northland that wanders through the province of Alberta and then empties into Lake Athabasca near the 60th parallel of latitude, is carrying northwards the flat-bottomed boats, with their load of live buffalces. Two thousand young buffaloes, who have grazed on the ranges of Wainwright Park in Alberta, have been branded with a W, and sent by train and boat north, ever northward to that new park which has been set aside for the growing of thousands of buffaloes, Wood Buffalo Park, along the boundary of Alberta and the Northwest Territories, and under the jurisdiction of the latter.

No one could have foreseen that within so few years of the almost complete disappearance of the bison from the North American Continent would it be necessary to ship these animals from an 100,000 acre area in droves of several thousand to a new area, 10,000 square miles in extent. There are now so many of these animals that millions will be roaming the north'and again, if they are left to breed as at present.

The Wainwright Park is not large enough. Its acres and acres of pasturage, guarded by cowpunchers, rangers, and Mounted Policemen, will not hold all the buffaloes that are born there. So for some years the Canadian Government has been shipping north annually several thousand two and three year old bisons, and slaughtering about as many older ones for the restaurants of the continent. Buffalo steaks are not uncommon at certain seasons of the year in the Canadian West, even in the restaurants across the line in the United States. High-powered rifles held by expert marksmen, kill off the animals with one shot. Buffalo coats and robes are again making their appearance in Canada.

Indian Legend.

Legend has it that the buffalo owes its present existence to a quarrel between two Indians, father and son-in-law, in 1873. The son-in-law left the paternal tepee, fled northward to Saskatchewan from his home at Flathead Reservation, Montana. But his longing for home was too much. He decided to return. On his way he found a small herd of the fast-disappearing buffalo. He sorted out four calves. These he led home. They brought him once more in the family circle, for the father-in-law was happy with Hunting Dog's gift. The four calves grew and bred under the care of the priests at St. Ignatius mission. Soon there was a small herd, too big for the priests or the Indians to handle. Came Pablo, a Mexican half-breed, and bought ten of the animals for $250 each. He led them home, where he bred them till they became the herd which he sold to the Canadian Government at a price per head similar to what he paid for the first ten. The United States government did not want them, for he offered them in 1909. Canada took them and now has the greatest buffalo herds in the world.

Breed New Cattle.

But it is not enough to just preserve these animals. Modern civilization must find some use for everything. So Canada has decided that the buffalo will help breed a range of cattle which will be able to stay out on the prairies all the year round, winter or summer.

Experiments to produce a domesticated type of grazing animal in which there should be a strong strain of buffalo blood, have been maintained since the first year that Canada began its buffalo preservation scheme. It was desired that as settlements were pushed farther north, the settler should have no worry about his cattle being out in the open all winter, not only feeding themselves, but knowing as the buffalo does, how to come through a snowstorm with safety. In these first experiments, the buffalo was crossed directly with various domesticated breeds. The resultant losses were far too heavy, and little real progress was made until the yak, an animal from far away Thibet, was brought in as an intermediary. This beast seemed to be the zoological link between the buffalo and domestic cattle. As soon as a product is obtainable from this triple ancestry the effort is made to breed out the yak blood. The cattalo produced in the latter experiments promise well. They have good coats, excellent flesh, and seem to be fine grazers.

The buffalo has been the Indians' staple food. From it he made his pemmican to be used on the trail. The white man also found the buffalo a valuable animal; its meat was good and its fur warm. Then the buffalo vanished, slaughtered by red and white alike. Now the animal which typifies this continent is back again, and it will play a large part in the growing cattle business of the Dominion.

COLORS SOFT IN MEN'S HATS

Brims Are a Trifle Wider and Crowns a Little Deeper

SOFT HATS POPULAR.

Aside from brims being a trifle wider and crowns an iota deeper little variation is seen in the shape of hats in local men's hat shops. A change however is noticed in the shade, the designers have gone far beyond the confines of primary colors, which were so prominent a decade ago, and have developed very rich "off-tones" that offer a greater chance for attaining matching or blending effects with the suits, topcoats and other outsanding units in a man's grooming.

Two Outstanding Shapes

The two outstanding shapes are the snap-brim with tilting and dipping to the individuals taste and jauntiness and the Homburg shape for the more conservative dresser.

Derbies seen locally show slight change in proportion of crown to brim. Derbies in grey are struggling hard for recognition but are still scarce enough.

Caps are being patterned largely in tweeds and cheviots for fall and winter wear. They are still made in two outsanding models, the one-piece full fashioned cap and the 8-piece fitting cap with the former more preferred for general sport use and traveling.

TARZAN AND THE JEWELS OF OPAR NO. 84

By Edgar Rice Burroughs

(Metropolitan Newspaper Service)

Though her clothes were rumpled and her hair dishevelled, Albert Werper realized that he never before had looked upon such a vision of loveliness as that which Lady Greystoke presented in the relief and joy which she felt in coming so unexpectedly upon a friend and rescuer when hope had seemed so far away. If the Belgian had entertained any doubt as to the woman's knowledge of his past in the perfidious attack upon her home and herself, it was quickly dissipated by the genuine friendliness of her greeting.

She told him quickly of all that had befallen her since he had departed from her home. As she spoke of the death of her husband she wept softly. Werper pretended to well-simulated sympathy. "That devil there," and he pointed toward the body of Achmet Zek, "is responsible for it all." Then he spoke of how the Waziri were slain or scattered and said that the Arabs occupied the plain about her former home so that there was no escape in that direction. "Our only hope lies in traveling northward," he continued.

"Perhaps we can reach the camp of the raiders before the knowledge of Achmet Zek's death reaches those that are left, and then we may bargain for an escort northward. It is our only hope, Lady Greystoke, and you must place your entire faith in me if we are to succeed." Unsuspicious of the man's true character, Jane Clayton saw nothing peculiar in his did she give a thought as to his friendship with the Arabs. So she grasped with alacrity the seeming hope for safety which he proffered her.

Before they set out Werper searched the Arab's body. To his consternation there was no sign of the pouch of jewels on it. Then he searched all along the trail but found nothing. Puzzled, disappointed and angry, he at last returned to the girl and together they set out toward the hostile camp where she lately had been a prisoner. It was late in the afternoon of the second day before they reached their destination, and as they paused upon the edge of the clearing before the walled gates, Werper turned and spoke to Lady Greystoke.

If you buy out of town, and I buy out of town, and all our neighbors buy out of town, what in thunder will become of our town? Ever think about it?

CHURCHMEN IN SECRET SESSION

Discuss Lambeth Conference Decisions on Birth Control, Divorce, Marriage.

BISHOP FURSE PRESENT.

DENVER, Colo., Sept. 19.—A secret meeting of the House of Bishops held the attention of the general convention of the Protestant Episcopal Church to-day.

The session, called to consider the action of the Lambeth Conference in England "on certain subjects" was expected to bring out a discussion of questions regarding birth control, divorce and marriage.

The rules of the House of Bishops were waived to permit the attendance of the Rt. Rev. Michael Bolton Furse, Lord Bishop of St. Alban's, England, an ardent foe of birth control.

Bishop Irving Peake Johnson of Colorado, in urging the secret session, termed the action of the Lambeth Conference "on certain subjects" embarrassing to him and to certain other American Bishops.

Speculate on Rift

Delegates speculated over the possibility of an open controversy between the English Church and the Protestant Episcopal Church of the United States on the question of birth control.

It was intimated that many United States Bishops, outnumbered at the Lambeth Conference, feel they were put in a false light through their attendance at the meeting which voted in favor of the exercise of birth control in certain instances.

Just what action the House of Bishops would take was a matter of speculation, but some convention leaders believe a plan may be evolved for a union between the United States Church and that element of the British Church led by Bishop Furse.

At the same time, church Liberals prepared to oppose the stand of Conservatives, whose views were outlined by Bishop Furse in his address opening the convention.

SOCCER MEETING MONDAY EVENING

A Special meeting of the P. and D. F. A. will be held on Monday evening at 8 o'clock.

KNIGHT OF ROAD PASSES IN CITY

Daniel Barr, Young Scottish Immigrant, Dies After 8 Weeks' Illness.

TOOK SICK IN JUNGLE.

Removed from the local "Jungle" to hospital eight weeks ago Daniel Barr, an exservice man of the Imperial Army and a wandering Knight of the Road, died this morning of typhoid fever.

Somewhere on his travels Barr picked up the germs of the dreaded disease and his weakened body was unable to fight back to health despite every aid of medical science that was tendered the lonely wanderer.

Barr was born in Scotland and had served in France in the war. How long ago he left home to try his luck in Canada no one knows In his pocket was a Toronto address where it is thought he had boarded before he became unemployed and just another drifter.

No arrangements have yet been made for his burial, but Captain James Abraham, of the Canadian Legion, ordered the removal of the body to a local undertaking parlor

Flying Lindberghs Arrive at Nanking

NANKING, China, September 19 (C.P.). — Colonel and Mrs. Charles A. Lindbergh arrived here to-day for a four-day stay, but because the Colonel was not satisfied with the place officials had picked for him to land, Nanking's reception was somewhat delayed.

The Lindberghs made the 800-mile flight from Fukuoka, Japan, in about seven and one-half hours.

Y.W. Sports Events Closely Contested

Sports hour at the Y.W.C.A. Swimming Pool last evening was well attended. Keen inteerst is being taken by both junior and senior members in trying to cut their own records in the speed tests.

Mary Kingsbury held honors in senior speed and also the racers' back stroke.

Leone Comstock held honors in junior speed with Peggy Edwards first in the racers' back stroke

Frederick Fowler held honors in both speed and racers' back stroke in the babies' group.

Fancy diving, senior, Mary Kingsbury; junior, Leone Comstock, and babies, Lily Long.

Sports hour will be held next Thursday evening instead of Friday, and Saturday morning classes will meet Thursday afternoon, as Miss Littlefield will be attending special physical directors conference in St. Catharines.

Swimmers were reminded at the swimming meet of the coming fall rally and high tea October 2. Tickets for the high tea are now on sale. The rally program which is free starts at 7 p.m. and includes, swimimng exhibition, archery and badminton contests and gymnasium drills and relay races in which all girls may compete. Miss Estelle Amaron, a Y.W.C.A. secretary and physical director from Burma, will be guest speaker. All swimmers were invited to come and bring their friends. Junior rally will be October 3.

An announcement in connection with winter swimimng was made. The pool will be kept open if sufficient girls secure winter tickets. Register now. Price $1.00 per month.

IN MEMORIAM.

BUGG. — In loving memory of Robert Bugg, who departed this life September 19, 1929.
Our family circle has been broken,
A link gone from our chain;
But though we're parted for a while
We know we'll meet again.
—Ever remembered by Wife and Family.

IN MEMORIAM.

BRUNDRETT.— In loving memory of a dear husband and father, James Herbert, who passed away Sept. 19th, 1922:
Nine years have passed, our hearts still sore,
As time goes on we miss him more,
His welcome smile, his loving face,
No one on earth can fill his place.
—Sadly Missed By Wife, Daughter and Son-in-law.

Announcement
We beg to most respectfully announce to the general public that our Funeral Coach and complete new equipment has arrived and that from now on we will be always open, rendering 24 hour courteous, dignified, reverent funeral service.

Woman Being Held On Charge of Murder

NEW LONDON, Conn., Sept. 19.—(CP)—Franklin Louis Swieg, 25, chief yeoman aboard the coast guard destroyer Tucker here was shot and fatally wounded by Mrs. Bertha Fischer, 28, this morning when, according to Mrs. Fischer, Swieg go into her house through a kitche window. Swieg died within a half hour at the house.

Mrs. Fischer, whose husband is Wayne L. Fisher, first class motor machinist, in the coast guard service at Baltimore, was held on a charge of murder pending a finding by Coroner Edward G. McKay who began his inquest within a few hours.

GREAT BRITAIN QUITS GOLD STANDARD

HOUSE CROWDED AS CHANCELLOR BRINGS IN BILL

Dramatic Story of Raid on English Sterling Told by Snowden.

PRINCE ATTENDS.

Henderson Indicates There Would Be No Captious Opposition to Measure.

(By George Hambleton—C.P. Staff Writer).

LONDON, Sept. 21.—The crippled figure of Rt. Hon. Philip Snowden again leaned over the brass-bound box on the table in the House of Commons this afternoon. In tense silence, he asked leave to introduce the bill which temporarily suspends the gold standard for Great Britain.

It was a dramatic sequel to his "axe and tax" budget which sought by such heroic measures to arrest the flight from the pound. And the House was again crowded to the doors. Members thronged the gangways and grouped just behind the mystic line of the bar.

Prince Attends.

In the Peers' gallery sat the Prince of Wales, the French Ambassador on his right. The Prince was a close and attentive listener throughout the latter part of the question hour and the speeches of Mr. Snowden and Rt. Hon. Arthur Henderson, Leader of the Labor Opposition.

Mr. Henderson, who spoke after Mr. Snowden, indicated there would be no captious opposition to the bill.

The afternoon opened quietly. It warmed up during the question period with repeated ironical supplementary queries from Laborites. Over and over the Laborites questioned what was now going to be done. They would not only suffer a cut of ten per cent. in the benefits but would be further hit by a profitable increase in the cost of living due to suspension of the gold standard.

Laborites' Offer

But the Opposition leader himself was indeed frank that if the Government satisfactorily answered certain questions the Laborites would not oppose the suspending bill. One of the questions he put was whether the Government in-

NO FEAR OF WAR CHINESE SAYS

Japan is Too Greedy, Still Wants More of China, Declares Willie Hum.

INTERNAL STRIFE.

A sugar bowl and a salt shaker fought for supremacy of China atop the long marble counter in a George Street Cafe this morning, as Willie Hum, well-read and widely travelled Chinese, tried to explain to The Examiner the current of momentous happenings in the Land of the Dragon.

"Japan is too greedy," commented Hum. "Not satisfied with what she has in China, she wants more."

"No, there won't be a war," he stated in answer to a question. "China is too upset already."

It was then that Willie picked up the sugar bowl and salt shaker and paraded them along the shiny marble counter. They wheeled, advanced, clashed and retreated to clash again. The salt shaker represented the War Lord of Manchuria's army and the sugar bowl the Southern or National Army.

"They fight each other all time. Each not interested in China, but only what he can get for himself," said Willie rather sadly.

The salt shaker was pushed up beside the sugar bowl and side by side they paraded down the counter. "That's what they'll have to do if they want to fight Japan," said Willie. "Join together. But they won't do that. No, there won't be any war between Japan and China."

The Weather

This is one of the two seasons of the year when the days and nights are equal. At one time it was generally believed that storms were more frequent at this season than at any other time and hence were called equinoctial storms. Science, however, has proved that in the case of this belief, like many others formerly held there is "nothing in it." The rainfall of Saturday night and Sunday night gave a total of 1.17 and including that of Wednesday night (.31) a total of 1.48. The month's total is now 2.37. —W.Pa.—

Persian Kitty Left Stranded on Island

KINGSTON, Sept. 21 (Special to The Examiner).—An orange Persian cat, belonging to Miss Grace Meikle, daughter of Dr. and Mrs. Meikle, Morrisburg, left Out-of-Sight Island, in the St. Lawrence River, where the Meikles were camping some weeks ago. It could not be located up to the time the campers left, but last week Mrs. M. J. King, living on the main shore, heard the cries of pussy on the Island and went to her rescue. She found the cat very thin, and was of the opinion she had been there about a week. Dr. Meikle motored from Morrisburg and took her home.

UNITED STATES FEELS NO ALARM

Treasury Officials Confident Britain Will Extricate Herself from Crisis.

INEVITABLE STEP.

WASHINGTON, D.C., Sept. 21 (A.P.)—The belief was held generally in the Capitol to-day that no adverse reaction of major proportions would be felt in the United States as a result of Great Britain's suspension of the gold standard.

With high officials of the nation's financial divisions out of the city when word of the Bank of England's action was received, the view was held in Treasury Department circles that the step was an an "inevitable" one already discounted largely last week in liquidating on American exchanges.

Confidence was expressed by Treasury officials that Great Britain would extricate herself quickly from the confusion.

In support of the belief that the reaction in this country would not be of major proportions, it was pointed out that recent huge credits extended Great Britain by the Federal Reserve System and private banking concerns are repayable specifically, in gold dollars. Likewise British dollar bonds held in this country are redeemable in large majority in gold dollars, both as to payment of interest and principal. The amount of discounted bills held in the United States was held insignificantly.

SIX KILLED, 18 WOUNDED.

MEXICO CITY, Sept. 21.—(A.P.)—Six persons are known to have been killed and 18 wounded in fights in various parts of the State of Vera Cruz yesterday in connection with state wide municipal elections.

WOMEN SEEKING HIGHER OFFICES IN THE CHURCH

J. M. McWhinney Proposes Seven be Added to Synod's Executive Council.

LEGALITY QUESTIONED.

Proposer Indicates Plan Would Make Them Eligible for Other Boards.

TORONTO, Ont., Sept. 21. (CP) The General Synod of the Church of England in Canada was again called on to-day to give women representation in the higher councils of the church.

J. M. McWhinney of Toronto proposed that seven women, representing the Dominion Board of the Women's Auxiliary, should be added to the membership of the Executive Council of the General Synod women were already acting as members of the missionary society Board. The new proposal would make them eligible for other boards he indicated.

Several delegates questioned the legality of appointing women to the Executive Council when no women are eligible for membership of the General Synod. Last week the Synod defeated a proposal of F. H. Ginsborne, K.C., of Ottawa, to admit women to that body. This step would require an amendment to the basis of constitution.

Left to Committee

Mr. McWhinney's resolution was referred to a committee for further consideration. It will have to be endorsed by both the House of Bishop's and the Lower House of the General Synod before becoming effective.

Reporting for a special committee on the question, Rev. Principal W. H. Vance of Vancouver proposed the establishment of a lectureship as a memorial to Most Rev. S. P. Matheson, Winnipeg, Rupert's Land, who recently retired from office as Archbishop of Rupertsland and Primate of all Canada. The project was endorsed by the Lower House of the General Synod, on the understanding that $10,000 will be raised by the executive council.

SINGLE TAX ADVOCATE DIES

NEW YORK, Sept. 21. (CP) — James Roger Brown, President of the Manhattan Single Tax Club, died in his sixty-eighth year last night. He was born in Mount Forest, Ontario, August 15, 1863, and came to New York in 1886.

Brown became closely identified with the single tax movement under Henry George in 1886 and for the rest of his life was devoted to that cause.

LOUISE DE CARLONIS ACCLAIMED MISS PETERBOROGH AT EXHIBITION

Roy Longmuir of Havelock, Dorothy Dewdney, Baby King and Queen.

AWARDS ANNOUNCED

Providing a fitting climax to the closing stages of Peterborough Industrial Exhibition, 1931, the winners in the Miss Peterborough and Greater Ontario Baby Show contests were declared on Saturday night before a large crowd who occupied the grandstand.

Louise De Carlonis was acclaimed as Miss Peterborough, while regal honors in the baby kingdom of greater Ontario were won by Roy O. Longmuir, of Havelock, and Dorothy Dewdney, 485 Park street, Peterborough.

H. E. Wilson, contest director, who was introduced by Dick Lush, was, during the course of the proceedings, the recipient of a handsome gold cigarette case, the gift of the candidates in the Miss Peterborough contest.

Prizes for the contests, numbering some 93 in all, were presented by His Worship Mayor Roland M. Denne, president of the Fair Board, and by James Matthews, manager of the Sunshine Dairy.

With few exceptions, most of the candidates for "Miss Peterborough" honors, along with proud parents and their babies, were gathered on the platform in front of the grandstand, surrounding the table which displayed the trophies and prizes.

The proceedings commenced with the drawing for the winner of the $20 gold piece by little Pete Purvis, resulting in the stub of a ticket held by D. Sullivan, 130 Sophia street, city.

Following the introduction of Mr. Wilson by Dick Lush, Mayor Denne was introduced and announced the baby contest winners. As the names were announced parents were requested to bring their babies to

Passengers Escape When Car Overturns

CAMPBELLFORD, Sept. 21. — (Examiner Correspondence.)— William Smith, his wife and three children and Miss Sarah Nevin, all of Campbellford, had a miraculous escape from serious injury as their car hurtled into the ditch and overturned twice while returning home from Peterborough late Sunday night.

Smith missed a turn on the road past Westwood, ran into the bank and overturned twice in the ditch. The car was badly wrecked.

The whole party was badly shaken up but Mr. Smith was the only one to suffer actual injury. He had two ribs broken. The party received first aid in a neighboring farm house.

FIRE DESTROYS FARM PROPERTY

Fred Richardson Loses Year's Crops, Some Machinery and Livestock.

THRESHERS AT WORK.

STIRLING, Sept. 21 (Examiner Correspondence). — Fire, breaking out on Saturday about 11 a.m. while threshers were at work completely destroyed the barn of Fred. Richardson, together with the summer's crop, some machinery and nine pigs.

The fire broke out in the cow stable, and in spite of the valiant efforts of those who had gathered, the building was completely destroyed, as was the pig pen where the pigs were housed.

Three Ocean Fliers Given Up as Dead Rescued by Ship After Floating Week

HALIFAX, N. S., Sept. 21.—(CP)—Two German fliers and a Portuguese sportsman, given up for dead a week ago, are alive and well, aboard the Norwegian motorship Belmoira, according to messages reaching Halifax late this afternoon.

The three, Wily Rody, Christian Johanssen and Fernando da Costa Viega, set out on Sunday, September 14, on a flight from Lisbon to New York. Twice they were sighted on their trip west, once at the Azores and later by the steamer Pennland, 80 miles off Cape Race, Newfoundland.

They were all but forgotten when this morning the Norwegian motorship broadcast a wireless message to say that wreckage of a plane had been sighted 45.26 north, 54.31 west, which is about eighty miles off Cape Pine, a dangerous section of the Newfoundland Coast.

PRIZE WINNING STOCK PARADE FINEST DISPLAY OF ANIMALS IN THE HISTORY OF EXHIBITION

Livestock Parade is Seen By Crowded Grandstand on Saturday Afternoon.

MANY NEW EXHIBITORS.

Satisfactory Feature Number of District Exhibitors in the Parade.

The livestock parade at the Exhibition Saturday afternoon presented to the crowd that filled the grandstand an impressive idea of the number and quality of the stock that was exhibited at Peterborough this year. It included heavy and light horses, beef and dairy cattle, and a display of sheep shown on a truck consisting of the champion rams in the various classes.

Some of the exhibitors made their first entry in the show ring; others were veterans of many competitions, and one of them has been exhibiting at Peterborough since the days when the Fair was held at Central Park. He was Col. R. E. Birdsall of Asphodel township, who has shown here almost continuously since those almost forgotten days. In recent years he and his son Col. Everett Birdsall have been exhibiting together as R. E. Birdsall and Son. It is doubtful if any of those long years gave "Dick" Birdsall more satisfaction than last week's contest in which his fine herd of Hereford cattle won a big share of the honors against strong and numerous competition.

Praises Directors

Col. Birdsall remarked to The Examiner that the Peterborough directors deserved unstinted credit for the manifest progress of the Exhibition this year. He was especially impressed with the parade, and then humorously remarked, "Peterborough is almost as good as Norwood now." Col. Birdsall is one of the foremost promoters of the East Peterborough Fair, but his long experience with the Peterborough Exhibition through its lean years up to its recent success has established a personal interest and relationship that give special force and significance to his compliments to the local directors.

A satisfactory feature of the parade was the number of district exhibitors in line with the prize winners from their herds, and the best of the horses. As usual there was quite a number of cattle breeders from a distance, but the four counties of Northumberland, Durham, Victoria and Peterborough were splendidly represented. Among the local breeders whose herds shared in the prize money were the following:

From Northumberland — Alex Hume & Son; Allan Linton; Garnet Kerr; John T. Drope; E. A. Rosevear.

From Durham — D. L. Cornish; Jas. Seymour and Son; S. S. Staples; Bowles Bros.

From Victoria — D. Murphy & Son; John A. Bent; Fred Bent; A. J. Mark; H. Deyell.

From Peterborough — Gordon Mann & Sons; R. E. Birdsall & Son; Chas. E. Moore and Sons; Allen B. Mann; Sam Comrie; W. A. Anderson; Thos. Kerr Wm. H. Elmhurst E. Rosborough; Gordon Kidd; F. J. Scollard.

From South Monaghan—J. Whittingdon & Sons.

From Ontario county—W. Bailey; Jas. Acton; B. Blackburn; Lorne Bagshaw.

Other counties were also represented in the cattle classes, including W. Duffy of Newmarket; W. E. Parker & Sons and Edwards Brothers of Watford; Amos and Black of Moffat.

These breeders are exclusive of the farmers who showed horses and sheep, and in the horse classes Durham county was outstanding with a fine showing from Cavan township.

Each herd of cattle was identified by signs, and also introduced from the amplifier in front of the

TWO CANADIAN GOLFERS RETAIN LEAD POSITIONS

Ada Mackenzie and Mrs. C. S. Eddis Shoot 90 and 88 Scores.

IN QUALIFYING ROUND.

Former Plays Poor Game in Incoming Holes of First Day's Play.

COUNTRY CLUB, Williamsville, N.Y., Sept. 21.— (By the Canadian Press.)— The two Canadian entrants, Ada Mackenzie and Mrs. Charles S. Eddis, both from Toronto, shot a 90 and an 88 respectively to-day in the qualifying round of the United States' womens' golf championship being played over the country club of Buffalo.

After being out in 42, Miss Mackenzie played the incoming holes poorly, needing 48. Her driver was not behaving and she was having more than a fair share of trouble with the traps.

Mrs. Eddis was going along nicely until the 13th hole where she had her first of four sixes on the second half. Mrs. Eddis putted badly for that segment.

Qualifying round summaries follow:

Mrs. Leo, Federman, New York, 44-46—90. Bernice Wall, Oshkosh, Wis., 45-44—89. Ada Mackenzie, Toronto, Ont., 42-48—90. Frances Williams, Lehigh, Pa., 43-44—87. Mrs. Norman S Goldberg, Long Branch, N. J. No card. Mrs. Charles Eddis, Toronto 42-46—88. Marion D. M. Wanakah, N. Y., 48-46—94. Mrs. R. E. Winger, Fort Worth, Texas, 49-47—96. Honor Bright, Niagara Falls, N. Y., 47-49—96. Mrs. Leona Pressler, San Gabrielon, Calif., 45-43—88. Mrs. M. T. Lake, Flushing, N. Y., 44-46—90.

Mrs. Roy Green, Culver City, Cal., 44-46—90. Peggy Wattles, Buffalo, N.Y., 47-45—92. Marion Fisher, Tuckahoe N. Y., 48-47—95. Mrs. Helen P. Corson, Philadelphia, Pa. 45-44—89. Market Closing On All Exchanges

WALL STREET

NEW YORK, Sept. 21—The stock market turned dull in the later trading today, but held most of the 1 to 8 point gains made on heavy short covering that followed an early decline. Rails rallied vigorously, falling back slightly toward the close. Reading's extreme gain of 25⅛, reduced several points, stood

(Turn to Page 5)

BRITISH PRESS PRAISES GOV'T ON ITS ACTION

Daily Mail States Gold Standard Suspension is Blessing to Industry.

ALMOST RUINED COUNTRY.

Export Trade Have Time to Grow—Express; Benefit World—Times.

LONDON, Sept. 21 (C. P. Cable) Announcement of the temporary suspension of the Gold Standard Act, which it is understood will be for six months, has been well received by the British Press. Several newspapers appear to share the view of the late William Jennings Bryan, famous United States Democrat, that the Gold Standard was crucifying humanity."

The chorus of approval is led by the daily mail which refers to the annoucement as "welcome news" and says "the temporary suspension of the gold tandard (which may prove in effect complete suspension) will be a blessing to British industry. The gold standard cost us tens of millions and almost ruined us. Now it is gone we may breathe more freely."

Export Trade Will Grow

The Daily Express, equally enthusiastic, says, "nothing more heartening has happened in years. Now our export trade will have a chance to grow." The Daily Herald describes the Government's step as a wise and salutary one while the Times comments, "The Government's decision is wise and will insure to benefit not only this country but the whole world."

Some newspapers declare the Government's step obviates temporarily the possibility of an early general election against which Lloyd George throws his influence in a message in which he says, "If the nation remains steady and united we shall pull through all right. Our resources are quite adequate to meet the situation but a factional fight among ourselves at this juncture would be unpatriotic lunacy." He asserts the mere threat of an election precipiated the crisis but "British commonsense if given a chance will find a way out."

Meanwhile the Prince of Wales who intended to go to Balmoral decided to remain in London after a visit to Chequers where he lunched with Prime Minister Ramsay MacDonald. In the course of a long conversation the Primier fully explained the situation to the Prince.

Gold Standard; What It Is

(By the Associated Press).

The gold standard of exchange is normally in use by virtually every civilized nation of the world. It is predicated on the fact that paper money of a country's bank of issue is redeemable in gold on demand.

The suspension of gold payments in Great Britain means that the Bank of England is not bound now under an Act of Parliament of 1925 to buy gold bullion of stipulated standards for three pounds, 17 shillings, 10½ pence per troy ounce. This in effect has resulted in the British pound sterling being equivalent normally to $4.86 5-8.

In the foreign exchange market recently, with the pound sterling available below its gold parity, in relation to other currencies, it has been profitable for banks to acquire sterling pounds in the market, convert them into gold at parity, and then convert the gold into other currencies by exporting the gold.

The pound sterling was pegged in New York during the war at $4.76. It reached this artificial height by means of securities sale of dollars held by British citizens.

In 1919, it was decided to remove the support, and the sterling dropped, until finally in 1919 it hit a new low of $3.19.

The gold standard has been adopted by most every country since the war.

Montreal Terminal Work May Be Halted

OTTAWA, Ont., Sept. 20. (CP)—While no official statement has been made, rumours in the capital are that work on the $50,000,000 Canadian National Terminal in Montreal may be stopped shortly. Recently, the engineers were asked to make an official report in the matter. This report is now under consideration, it is said, with the possibility of the work being suspended.

The German satire "Elizabeth of England," is to be presented in London.

Exchanges Shut Pending Action By Parliament

Discount Rate Jumps From 4½ Per Cent to Six—Parliament to be Asked to Pass Enabling Legislation at One Sitting To-day.

BANKS WILL BE OPEN FOR ORDINARY BUSINESS, PREMIER EMPHASIZES ACTION ONLY TEMPORARY.

Unprecedented Withdrawals of Gold for Foreign Accounts Brings Action About—Situation Most Critical Since Days of Great War.

LONDON, September 21 (C.P.). — Abandoning the gold standard, raising the Bank of England discount rate to 6 per cent. and closing all stock exchanges, Great Britain wrestled to-day with the most critical situation since the Great War.

Brought back from his country home at Chequers by the Prince of Wales, Premier Ramsay MacDonald hastily convened a Cabinet meeting last night, and it was decided that the Gold Redemption Act of 1925 should be suspended to halt alarming withdrawals of gold by foreign investors.

Parliament is expected to pass the enabling legislation to-day, after which it will go to the King in Scotland for his approval.

The bank rate was raised from 4½ per cent., a figure which was set in July. It has not been up to 6 per cent. since October 31, 1929. The highest it has been since the war was 7 per cent. and the highest during the war period was 10 per cent.

Exchanges Closed.

Pending action by Parliament, it was decided to close the London Exchange and those throughout the country to hold the market stable during the transition. It was emphasized that banks would be open as usual and that business would continue on a normal basis.

Premier MacDonald issued a statement calling attention to the fact that more than $1,000,000,000 had been withdrawn from the London market since the middle of July, and that about $850,000,000 had been withdrawn in Saturday's half-day of trading. He emphasized that his action was only temporary and that the nation's enormous resources would save the day if the public co-operated.

"His Majesty's Government have arrived at their decision with the greatest reluctance," he said, "but during the last ten days the international financial markets have become demoralized and have been liquidating their sterling assets regardless of their intrinsic worth. In the circumstances there was no alternative but to protect the financial position of this country by the only means at our disposal."

The suspended section of the Gold Standard Act compelled the Bank of England to sell gold in bars for £3 17s 10½d per troy ounce.

The section read as follows:

"The Bank of England shall be bound to sell to any person who makes demands in that behalf at the head office of the bank during office hours of the bank, and pay the

BRITISH CONSOLS AUTOGIRO SEEN AT EXHIBITION

First Autogiro Owned in Canada Viewed By Thousands.

LANDS ON GROUNDS.

Can Rise Almost Vertically at Speed of 1,500 Feet Per Minute.

Necks were craned and eyes intently upturned by the thousands of people attending the Peterborough Exhibition Saturday afternoon as they were treated to their first sight of an autogiro plane, that strange and most wonderful development in aviation.

Like a huge spider the autogiro slowly circled above the exhibition grounds. Sometimes it hung almost motionless as though suspended in the air with its large fins revolving slowly.

Peterborough citizens owe Saturday's opportunity of seeing an autogiro at first hand to the Macdonald Tobacco Company, makers of the famed "British Consols" cigarettes. The autogiro is owned by the makers of "British Consols" and was flown here for the main purpose of allowing local citizens to view this newest invention, which threatens to almost revolutionize aviation.

Crossed Canada Twice

It is a famous craft is this "British Consols" autogiro having crossed Canada twice and done much to make the Canadian public air conscious. It was one of the main attractions with the recent historic Trans-Canada Air Pageant and has aroused the keen interest of all who have seen it in action.

Carrying the name "British Consols" proudly on its hull, the autogiro coasted above the thousands at the exhibition and then gently came to rest right inside the race course enclosure on the grounds. Its arrival was greeted with shouts from all sides and Captain Godfrey Dean, its pilot, was given a rousing cheer when he stepped down from it. Captain Dean had flown the autogiro from Orangeville.

The pilot is one of those modest Englishmen who have little to say about themselves, but he was ready to speak about his special pride the "British Consols" machine. He stated that the autogiro has cost the Macdonald Tobacco Company $21,-

Innoculate Children In Schools Thursday

Annual innoculation against diphtheria conducted by the Board of Education in the public schools of the city is to be held on Thursday, September 24 starting at the Central School at 10:00 a.m. Dr. A. V. MacPherson will be in charge and parents who have children who are under the school age are asked to bring them to the schools on Thursday when they will receive a free innoculation. Three innoculations in all at three weeks intervals will be conducted by Dr. MacPherson. Since the Board started this practice amost 4,000 children have been innoculated. The following is the schedule which Dr Macpherson will follow: Central School, 10.00 a.m.; Queen Mary, 10.30; Prince of Wales, 10.45; King Edward, 1.45 p.m.; South Central, 2.15; Queen Alexandra, 2.30; King George 2.45.

HOOVER ASKS LEGION TO AID

Warns Members Against Risk of Increasing Federal Expenditures.

DEFICIT LOOMING.

OLYMPIA ARENA, Detroit, Mich. Sept. 21. (CP) — President Hoover to-day called upon the American Legion to enlist in a peace-time fight for Government economy designed to lead the world out of the slough depression.

Solemnly warning the annual convention of the Legionnaires against the "grave risks" of increasing federal expenditures either through further veterans or other legislation.

The president pointed out the treasury was faced with another large deficit, that income taxes had declined 50 per cent since the period of prosperity and that the United States was carrying at the same time a "high and necessary extra burden" of public works in aid of the unemployed, of aids to agriculture and of increased benefits to veterans.

TENSION GROWS BETWEEN GOVT'S OF CHINA, JAPAN

Japanese Rush Troops to Chientao as Rioting Breaks Out.

POPULATION ENDANGERED.

Situation at Mukden Quiet—China Awaits Reply to Notes.

TOKYO, Sept. 21 (A.P.)—Tension between the Governments of China and Japan increased to-day with the movement of Japanese troops to combat rioting reported in press dispatches to have broken out at Chientao, Manchuria, and to strengthen the garrison at Mukden.

A Rengo News Agency dispatch from Dairen said one mixed brigade of Japanese troops in Korea which had been concentrating at Shingshu on the Korean-Manchurian border, had started for Mukden this morning.

Other dispatches said Japanese troops started from Ranan, Korea, following riots in which Chinese threw bombs and burned the Chientao railway station, police station, several schools and government buildings.

Tense Situation

The situation, described as tense in messages to the Tokyo War Office, was one of the subjects of an extraordinary session of the Japanese Cabinet. The Korean and Japanese populace of Chientao was asserted to be endanggered.

Chientao has a population of half a million, 300,000 of which are Koreans, 1,800 Japanese and the rest Chinese.

The situation in South Central Manchuria, particularly at Mukden, the centre of fighting between Japanese and Chinese troops last Friday, was comparatively quiet.

Although Rengo News Agency dispatches said the southern section of the Chinese Eastern Railway between Kwanchengse and Ichienpu had been destroyed by Chinese soldiers, there were no reports of actual conflict between the military of Japan and China.

Japan was expected to reply to-day to Chinese notes of protest over occupation by Japanese troops of Manchurian territory, demanding immediate evacuation of all territory now occupied and restoration of conditions as they were before Friday's clashes.

NEW BUS LINE TO BELLEVILLE

Campbellford - Belleville Bus Line Starts Running To-day —Two Routes Taken.

OPERATED BY C. D. BEATTIE

CAMPBELLFORD, Sept. 21 (By Examiner Staff Correspondent).—Another bus line running out of Campbellford goes into operation to-day with the initial run of the Beattie coach line between that point and Belleville. With two round trips a day this service will fill a need that has been felt necessary since the cutting of the train service on the Petrborough-Belleville road.

The morning run will take the Wooler-Trenton route to Belleville, while the afternoon bus will go via Stirling, thus covering two complete terrtiories. Local passengers cannot be carried between Stirling and Belleville and Trenton and Belleville, as these portions of the road are already franchised.

This service will connect with two C.N.R. and two C.P.R. main line trains and also with four front line buses running between Toronto and Kingston, thus giving good connections with any point desired.

Commencing this schedule a seven-passenger car will be run. All trips scheduled on Eastern standard time, except morning trips to Belleville, which will be run on daylight saving time during the period of D.S.T. at Toronto. On Sundays the afternoon scheduled only will be adhered to.

First Canadian-Owned Autogiro Visits City

British Consols" the first Canadian owned autogiro was seen by over 10,000 people at The Exhibition on Saturday. The autogiro is owned by the Macdonald Tobacco Company and is named after their famous brand of cigarettes "British Consols".

GOLD STANDARD ABANDONMENT HOPEFUL EVENT—J. P. MORGAN

Financier Claims Step is Second Stage Necessary by National Gov't.

BREAKS INTERVIEW RULE

(By Dewitt Mackenzie. Copyright 1931, by the Associated Press. Chief of London Bureal, A.P.)

LONDON, September 21.—J. P. Morgan to-day expressed to the Associated Press optimism regarding the situation arising from Great Britain's sensational abandonment of the gold standard. He said it was a "hopeful and not a discouraging event."

Mr. Morgan made this statement in reply to a question from a correspondent who sought him out in his private office not far from the Bank of England.

"This step seems to me to be the second necessary stage in the work of the National Government, first being the balancing of the Budget," Mr Morgan said.

"The completion of the Government's work will be the restoration of trade in this country."

"This being the case," Mr. Morgan continued, "it seems to me a hopeful and not a discouraging event and one which brings the great work of the Government much nearer to accomplishment."

In receiving the Associated correspondent Mr. Morgan broke an almost ironclad rule never to grant newspaper interviews. His father observed the same rule before him.

But once the distinguished banker decided to talk, no one could have been more cordial. He discussed the situation for almost an hour and while it is not permitted to quote him any further than above it may be said that in the entire discussion he did not express any pessimism.

And he added a word of fine tribute for the character and stability of the English people.

SHORT SELLING IS PROHIBITED

New York Exchange Governing Board Issues Statement as Market Opens.

CAUSE DEMORALIZATION.

NEW YORK, Sept. 21. (CP) The New York Stock Exchange governing board issued a notice prohibiting short selling just before the market opened to-day.

Just before the opening time the Stock Exchange ticker printed a notice saying the Exchange would open as usual but that the governing committee in view of the grave and serious emergency created by the suspension of gold payments in England at a meeting held early this morning resolved that in its opinion short selling during the present emergency would tend to bring out a condition of demoralization in which prices would not fairly reflect market values and therefore would violate the provisions of section 4 of article 17 of the constitution of the exchange.

The statement which was signed by Richard Whitney, President of the Stock Exchange said:

"In previous times of emergency and stress the governing committee always has had the loyal support and sincere co-operation of its members and it is confident that a similar attitude will be maintained at this time.

"The committee on business conduct will require all members to report, in detail, daily beginning to-day, all short positions carried and for whose account."

The New York Curb Exchange announced a few minutes before the opening that it would conduct business as usual to-day.

Car Runs Down Pair Man Instantly Killed

BRANTFORD, Ont., Sept. 21.—(C. P.)— Failing to see a couple walking on the St. George road, Thomas Wilson, St. George, motoring to the village, struck the pair. Charles Hellett, Swansea, was almost instantly killed and his wife injured and brought to hospital here. It is expected she will recover.

The car at the time was rounding a bend in the road.

The driver did not see the pair until too late to avert a crash.

LINDBERGHS SURVEY FLOOD AREAS.

NANKING, China, Sept. 21.—(A. P.)—Volunteering their services to the Chinese government for flood relief work, Colonel and Mrs. Charles A. Lindbergh took off here at 7.45 a.m. to-day (6.45 p.m. Sunday, Eastern Standard Time) for a survey flight over the inundated section of northern Kiangsu province, some 500 miles from Nanking.

Goat Electrocuted While Tied To Fence

ST. THOMAS, September 21.—A billy goat tethered by a chain to a wire fence on Woodward Avenue, at the eastern limits of the city, was instantly killed when a power wire carrying 13,000 volts fell across the fence after lightning had felled a post. The incident occurred during a severe electrical and rain storm in this district at 5 o'clock yesterday morning. Hydro linemen worked for an hour repairing the damage.

BUSINESS GOES AHEAD AS USUAL

No Attempts Made to Withdraw Funds From Banks After Govt's Action.

FOREIGN EXCHANGE QUIET

LONDON, Sept. 21—(AP)—Great Britain took the Government's emergency measures in her strike today and business was carried on "as usual" with no attempts to withdraw funds from banks.

Posting of the bare notice "Bank rate six per cent" at the Bank of England was the only outward sign of the momentous decisions to suspend the gold standard, increase the discount rate and close stock exchanges for a day.

Orders were given inside the various banks not to issue drafts abroad in accordance with last night's notification but no action was taken in connection with interest on deposits or charges on loans. These automatically were altered with the change in the official minimum but because the advanced bank rate is a temporary measure it is possible that no alterations will be made.

The Foreign Exchange Market, usually busy on Monday mornings, is not making quotations for the present. It was not known whether there would be any restrictions placed on dealing in foreign exchanges and until this question is cleared up no quotations are being issued.

Grandmother's Day Held By Institute

WARKWORTH, Sept. 21 (Examiner Correspondence)—One of the finest Institute meetings was held at Mrs. William Shaw's on Wednesday afternoon with about sixty members and friends in attendance.

This meeting was set apart for Grandmother's day. About twenty grandmothers, old and young were present and a great deal of the program was contributed by them.

Mrs. Gummer and Mrs. Spinkle as convenors put on the following program. A splendid paper on "Pioneer Days" was given by one of the older members. This was followed by a chorus given by all the grandmothers entitled, "When You and I Were Young Maggie." Mrs. Palmateer gave a reading. Two contests were enjoyed, and a treat of old-fashioned candy and an old-fashioned lunch was served. A social half hour talking over old times brought to a close a pleasant afternoon.

District Notes

The Women's Institute donated $2 to the county fair and gave a prize of 50 cents to all the schools competing in the Strathcona exercises at the rural school fair on Thursday afternoon.

Mr. Jack Cawood, of Baltimore, is visiting at the home of Mr. and Mrs. Robert Walker.

Mr. and Mrs. Harper spent Wednesday with friends in Penella.

Canadian Dollar Sinks to 97 Cents

NEW YORK, N.Y., Sept. 21.—(By the Canadian Press.)—The Canadian Dollar sank to 97 cents on local foreign exchange markets to-day. Traders, however, pointed out this rate was nominal, as no business was reported early this morning

39,233 ATTEND PETERBORO "EX"

Increase Was Almost 1,000 Over Last Year—Grandstand Down.

10,906 ON SATURDAY.

Giving another example of Peterborough's financial strength despite depression, the 1931 Peterborough Industrial Exhibition topped last year's Exhibition all along the line. Attendance for the six days of the big fair swelled to a total of 39,233. This is an increase of 986 over last year's splendid showing and is a close challenge to the all-time record of 40,901 set in the golden days of 1927. In 1928 the attendance was 34,383, while in 1929 the Fair was rained out, and the attendance dropped to 23,947.

10,906 on Saturday.

Saturday did its full share to boost the attendance and maintain the slight gain in the opening two days, 10,906 clicking through the turnstiles for a new single-day record.

Old Sol was on duty the whole week, and the sunny skies and the warm weather drew many from far distances to the attractions of the Exhibition. Last year, too, the Exhibition enjoyed perfect weather, but previous to that there had been thirteen years when on at least one day Jupiter Pluvius had turned in his act.

Every department of the Fair shattered all previous records. Livestock exhibits numbered a 33 per cent. increase over all previous exhibition and the quality of the animals also reached new heights. The buildings housed the finest examples of Canadian agricultural products.

Mayor Denne, chairman of the Exhibition Board, on behalf of the Directors, asked The Examiner today to thank the public for their co-operation.

"We have had this year the best agricultural exhibition we have ever had," stated Mayor Denne, "and the attendance gives us renewed confidence to go on improving the fair. The manner in which the people from the country and the city helped us as exhibitors and spectators has encouraged us to greater efforts for 1932."

Peterborough received a great compliment in the report of Provincial Constable David Silvester, who with Provincial Constable Warren and a corps of city police, was on duty continuously at the exhibition. "There was not a single arrest made on the grounds," reported Constable Silvester. There was no sign of drunkenness or misbehaviour of any kind."

Cut-In Motorist Is Cause Of Crash

COOKSVILLE, Sept. 21. — When her car turned into the ditch, snapping off a telephone pole a mile west of Cooksville yesterday afternoon, Lucy Doyle, St. Alban's Street, Toronto, received a broken right arm and cuts and bruises. She was forced into the ditch, she claimed, by a cut-in motorist. She was attended by Dr. W. H. Godfrey and then taken to St. Joseph's Hospital. Traffic Officer Ted Kyle investigated.

Six Ton Meteor Near French Village

PARIS, Sept. 21. — A meteor weighing more than six tons exploded near Vitry-le-Francois, according to a report to the French Academy of Sciences.

It is thought the phenomenon took place several weeks ago, but it was discovered only when M Lagalle, Mayor of the small town of Poix, visited his fields near Vitry-le-Francois. He found them strewn with small hard stones, somewhat like shell fragments, over an area of 20,000 square yards.

FARMER LOSES SEASON'S CROP

Neil Porter and John Scully Suffer Heavy Fire Losses on Sunday Morning.

NO INSURANCE ON CROP.

DOWNEYVILLE, Sept. 21. (Examiner Correspondence). — John Scully, a farmer of this district, suffered a heavy loss early Sunday morning when a quantity of his season's crop was destroyed by fire. Mr. Scully had rented a farm one mile west of Downeyville and owned by Neil Porter of Lindsay which he cropped this year and stored the grain in the barn. Fire, believed to have been caused by prowlers sleeping in the barn, started yesterday morning and the building, together with its contents, was left a total loss. No insurance was carried on the crop.

The Misses Ruth and Grace Thurston and Aileen Robinson, of Bobcaygeon, spent a pleasant week with friends in Peterborough.

• • •

In Kingston on Saturday morning, in St. Joseph's Chapel of the Hotel Dieu Hospital, His Excellency, the Most Rev. M. J. O'Brien, titular Archbishop of Kingston, officiated at a ceremony of investiture and profession. Sister Mary McDonald of Chesterville took the holy habit; Sister Vera Callaghan of Corbyville pronounced her temporary vows and Sister Theresa Baker of Madoc pronounced her final vows. Assisting at the ceremony were the Rev. S. Lasage and Rev. G. T. Martin.

• • •

Mrs. Eric Phillips of Oshawa (formerly Miss McLaughlin) will be in the city tomorrow to play in the games of the city and district field day to be conducted by the ladies of the Peterborough Golf Club. Mrs. Phillips is one of Ontario's outstanding lady golfers.

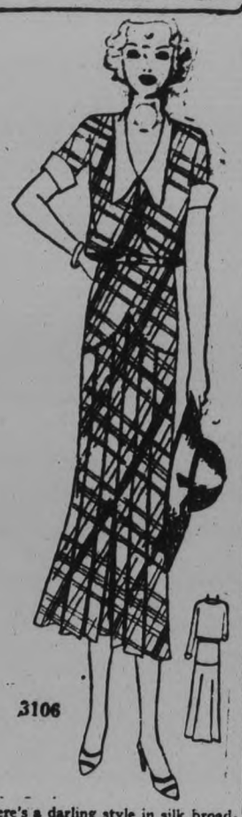
• • •

Two of the most interesting exhibits in the Women's Work section at the Exhibition this year were made by workers of widely different ages. Mrs. Robert Waterman of 590 Lock Street, who is seventy-five years old, made a lovely quilt which took first prise, while a spread that attracted much favorable comment was the work of Jimmy Turner, a fifteen-year-old boy residing at 247 Hunter Street West. It was plain in material,

THE MISTAKE OF A FAMOUS DOCTOR

Dr. Robert G. Jackson's paternal grandfather, father and eleven paternal uncles and aunts, and his own brother and sister, all died of heart disease. At 50 the great Sir Wm. Osler gave the doctor himself only four months to live, dying from heart disease and "general breakdown." He'd lived five years on the ground floor, unable to climb stairs. Four years after Osler gave him up he climbed the fifty storeys in Washington's Monument, up and down, and was not even tired. All as a result of changed living habits—chiefly a change from civilization's disease-causing acid foods to alkali-forming Roman Meal. His 438-page book, "HOW TO BE ALWAYS WELL," tells the entire story—shows how anyone may be always well, by natural means. Remit $3.00 by P.O. order for a copy, or write for descriptive literature to ROBT. G. JACKSON, M.D., 502 Vine Ave., Toronto 9, Ont., or write for his free booklet, "HOW TO KEEP WELL," and sample of Roman Meal and the new alkaline beverage. "Kofy-sub."

FASHION SERVICE



3106

Here's a darling style in silk broadcloth in white ground printed in yacht blue. It tubs so splendidly and wears for ever and a day. And it's so fresh and chic, and so entirely youthful and sportive.

'Neath the wee bolero jacket, the dress is held by simple shoulder straps. And don't you love the arrangement of the grouped plaits at the front, so neat and slimming?

A cotton would also be lovely for this model.

Then again, pastel crepe tub silk, shantung, crepe silk, linen, eyelet batiste and chiffon prints are very effective.

Style No. 3106 may be had in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust. Size 16 requires 3⅛ yards of 39-inch material with ¼ yard of 35-inch contrasting.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred). Price of pattern 15 cents.

Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book 15 cents.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

The woman who goes through her wardrobe at the change of seasons finds some dresses which are not wearable, and the question is what to do with them.

• • • • • • •

In the days of our forebears there seems to have been so definite a delight in transforming such garments into rugs that, before they were badly worn some must have been made into needed floor-coverings. Today this same purpose is as good as then.

• • • • • • •

To be sure frocks are not so voluminous, and not so much matching goods is available from modern dresses. But to balance this, women have more dresses than they use to consider needed.

• • • • • • •

The amount of rags, therefore, to be transformed into rugs, does not vary materially.

• • • • • • •

The woman who would put this practical use of dressing up her floor with rugs from old frocks, has many crafts to choose from in the process.

• • • • • • •

If she delights in knitting, there are excellent ways of using this craft. If she prefers crocheting, beautiful rugs can be fashioned in this work.

• • • • • • •

Neither of these crafts require any equipment other than knitting or crocheting needles. Hooked rugs require both hook and a frame to insure straight and perfect shaped rugs.

• • • • • • •

Knit tile rugs are recommended for hallways for bath rooms and for runners. The size is easily made to suit any floor space. In deep rich colors the rug can be used in the main rooms of colorful houses, country places and rooms in plain style of furnishings.

• • • • • • •

Light and dark squares for a centre tiling surrounded with a plain border band of the dark tone, makes an excellent bedroom rug when the colors carry out the scheme in the room.

• • • • • • •

If one prefers, the same rug plan can be developed in crochet rugs. The craft work differs but not the design of the rug. Squares can be done in crochet, or knitting, and sewed together, or the work can be done in strips of alternate squares.

• • • • • • •

A crocheted rug can be made in one piece, but it is easier to handle strips than the entire rug when it becomes sizeable. Knit rugs are always done in sections, the one exception being the circular or cartwheel knit rug.

• • • • • • •

The squares do not have to be identical in color for the light or dark squares but they must supply contrast one to the other. If rugs are made from frocks such a variableness would be natural, but if the worker prefers she can dye material to insure uniformity.

having factory cotton as a basis, but the needlework was beautifully done, in applied pattern of a conventionalized tulip design. Another entry in th rag rug mat section was exceptionally interesting and quite unique. A circular mat made by Mrs. Robert Manley, of Rutherford Avenue, was contrived of tiny discs of cloth strung on twine. The edges of the discs formed the upper surface of the mat, which was a matter of much interest to every lady attending the Fair.

SCOUT NEWS

1ST (ST. JOHN'S) TROOP

Flag break at 7.15 p.m. Friday last called the 1st St. Johns' Troop together for its weekly meeting. Scoutmaster Johnson was in charge assisted by A.S.M. Turner and Fred Ford.

The organization of the troop for the coming season has not as yet been completed but it is expected that it will be by next Friday.

The Scoutmaster has called a meeting of the Court of Honor for Monday evening at 7 o'clock at his home on Rubidge street. All members of the Court are urged to attend.

The Best Remedy For Bad Backache

"Several times I have had severe pains in my back," writes Mrs. N. Yearwood, R.R. No. 3, Madoc, Ont. "Three or four doses of Dodd's Kidney Pills always help me at once. That is my only remedy for a Backache. Nine times out of ten your Backache is caused through faulty Kidneys and Dodd's Kidney Pills are a wonderful Kidney remedy."

Dodd's Kidney Pills have become a household remedy all over the world, because people have tried them and been more than satisfied with the results.

Dodd's Kidney Pills

That Body of Yours

By James W. Barton, M.D

CURING STAMMERING.

It is certainly very pleasing to see the rapid strides being made in curing 'stammering.' One of my early recollections is of the brightest pupil in the class being a victim of the stammering habit.

The idea underlying treatment in the past was that the stammerer had some defect of the tongue or mouth which made it difficult to pronounce certain words or use certain letters of the alphabet and this accounted for the fact that he would 'writhe in his chair, hold his breath, jerk his head or struggle to speak.'

Dr. C. S. Bluemel, Denver, Colorado, who has studied 'stammering' for a number of years, is of the opinion that the organs of speech — mouth, teeth, lips, tongue — have nothing to do with causing stammering. That stammering is an impediment or blocking of thought, not a blocking of the speech.

He thinks that the idea, the vision of the word in the brain, seems to drop out of the stammerer's mind or consciousness for the time being, and as he can't see the word with the brain's eye, he just can't say or use that word.

It is this effort to try and bring the word back to his consciousness that causes him to do all sorts of things with his face and body to make the word come to him so that he can say it.

Dr. Bluemel says that if ten men, working with hammers, happen to strike their thumbs the whole ten will do something different. One will look at his thumb; one will stick his thumb in his mouth, one will fling the hammer to the ground; one will whistle; one will faint and so forth. They all struck their thumbs but they reacted differently.

Similarly with stammerers as they try to get the vision of the word.

What about treatment?

The first step is for the stammerer not to struggle to say the word, but just to let his mind tell his mouth the word to say; that is, to 'think' the word first, before he tries to say it. By giving up this struggle to say the word his mind works better in finding it for him, because he is calm and quiet.

In class work the group read together; then the pupils are required to read singly, but at any hint of stammering the group joins in and carries the stammerer past his thought block. The pupil is taken gradually from easy to more difficult situations and aided instantly when stammering appears. Dr. Bluemel's method of curing stammering is certainly worth trying.

U.S. Relief Outlay To Be Over Billion

WASHINGTON, D.C., September 21 ((C.P.). — Federal expenditures in aid to unemployment since the depression began are expected by the White House to total more than $1,550,000,000 by the end of next June.

Using tabulations of the Commerce Department's Public Construction Division, the White House placed drought and unemployment relief outlays at $452,301,000 in 1930 and $787,587,000 in 1931.

DOROTHY DIX says

"Wives... keep Charming at the Breakfast Table!"

Advice to Women of PETERBOROUGH

IT is after you have settled down to the everyday business of being a wife that the real test of your allure and your ingenuity comes.

It begins at the breakfast table. Somewhere in HIS heart is built a romantic image against which he is constantly comparing the real you who are sitting opposite. You are very lovely in his picture of you . . . dainty, COLOURFUL.

And as long as you . . . the real you . . . come fairly close to that romantic image, your home is safe, your happiness secure.

MEN LOVE COLOUR

So I say . . . Keep charming at the breakfast table.

I need not say dainty, for you will be that, but, girls, do **take pains to choose colourful, gay frocks for your home wear—for remember, men love colour.**

And then—just as important—keep them unfaded, charming as new, for with the loss of vibrant colour, there is a corresponding loss in the lovely charm that the dress brings.

You may say—"But how can I do this when these frocks must be washed time after time? Washing takes away colour-charm, sooner or later leaves them faded, drab-looking."

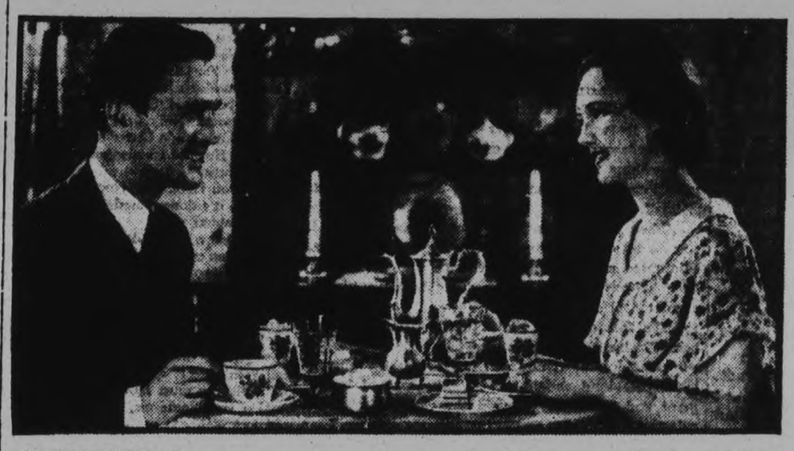
To this I reply that it is true that just ordinary "good" soaps do take out some of the colour along with the dirt. But this will never be the case if you wash them always in Lux.

Lux is made especially to keep delicate colours vibrantly alive; to preserve the soft, dainty texture of sheer fabrics. Any colour or fabric safe in water alone is just as safe in Lux.

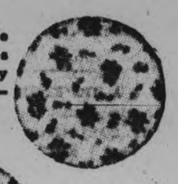
KEEP YOUR HOME CHARMING, TOO

It is important, too, that your home should always seem dainty and charming to your husband.

Keep the glamour of fresh lovely colour not only in your clothes, but in everything about the house . . . the dainty curtains in your "breakfast nook," pretty table linens, cushions and draperies in your living room. **Here, too, Lux is invaluable in retaining colour charm to the full.** DOROTHY DIX.



"THE REAL TEST of your allure—and ingenuity—comes after the honeymoon. Look your charming best even at the breakfast table, so that 'his' picture of you is always colourful and lovely"!



(Right) Sample washed 10 times in ordinary "good" soap—faded, dulled.

(Left) Luxed 10 times—colour unfaded and "live," charming as new.

If it's safe in water, it's safe in

LUX

Favorite Recipes.

GRAPE CHUTNEY

1 quart of green grapes (seeded)
¾ cupful of seeded raisins
2 cupfuls of pared chopped apples
1 cupful of chopped celery
1 teaspoonful of ground ginger
1 teaspoonful of dry mustard
Paprika
Vinegar
2 cupfuls of brown sugar
1 tablespoonful of salt.

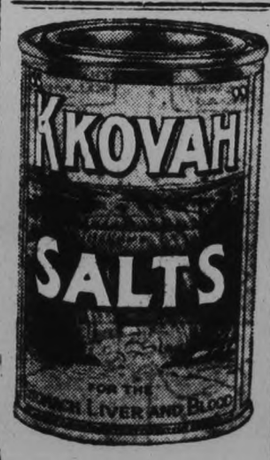
Mix the fruit and celery with the ginger and mustard and add a sprinkling of paprika. Cover with vinegar and let stand over night. Then add the sugar and salt, mix and let stand for an hour or two. Simmer slowly for 4 hours, turn into hot sterilized jars and seal while hot. (Tested by The Chatelaine Institute).

GRAPE CRAB-APPLE PRESERVE

To each two pounds of grapes use one pound of crab-apples. Stew the grapes and the crab-apples until soft, then pass through a sieve. To each pint of pulp add one cupful of sugar and one-half teaspoonful of cinnamon, if liked. Simmer slowly until of the right consistency for preserve or jam.

GREEN GRAPE JELLY

Pick the grapes when just beginning to turn. Pick them over, wash and remove stems; put into preserving kettle. Heat to boiling point, mash and boil thirty minutes. Strain through a coarse strainer, then allow juice to drop through a double thickness of cheesecloth or a jelly bag. Measure, bring to boiling point and boil five minutes; add an equal measure of heated sugar, boil two minutes, skim and pour into glasses. Place in a sunny window and let stand twenty-four hours. Cover and keep in a cool, dry place.



"Tummy" Ache?

Take two teaspoonfuls of Kkovah Salts in a glass of water. Its gently laxative qualities will quickly carry away the disturbing gases. Get a 20c or 50c tin from your druggist or grocer and try it.

NIGHT CLASSES.

Enrollment for the night school classes of the Peterborough Collegiate Institute and Vocational School takes place this week, and everything points to the largest attendance on record.

More classes than before are listed, and other courses will be added if there should be a sufficient demand for them.

In industrial arts there will be classes in auto mechanics, aviation, building construction, blue print reading, draughting, electricity, machine designing, machine shop practice, shop mathematics, industrial physics and chemistry, wood working and English for new Canadians, while the household arts classes offer cooking, sewing, millinery and artistic design, and the commercial section, bookkeeping, stenography, typewriting and penmanship, plain and ornamental lettering and illuminating.

All these classes are free, for while an initial fee of $2.00 is required, this will be returned to all those who attend 80 per cent. of the classes.

The night school offers a splendid opportunity for ambitious young workers who want to equip themselves better for life's battle, and it is gratifying to feel that so far as Peterborough is concerned the opening is being taken advantage of splendidly.

A BIG RADIO INVESTMENT.

Although economic depression had set in last year and many thousands were unemployed, the slump evidently had little effect upon the radio industry, judging from a report just issued by the Dominion Bureau of Statistics.

In view of general conditions in 1930, it is somewhat surprising to learn that the people of Canada invested $22,776,200 in radio receiving sets, numbering some 223,226 machines, last year, and that the number of licenses issued throughout the country was 43 per cent. higher than that registered in 1929, a boom year.

Altogether, last year there were 559,116 radio licenses issued in Canada.

According to the report, Ontario is the greatest market in Canada for the radio industry, for 46 per cent. of the 223,228 new sets sold last year were disposed of in this Province, while Quebec buyers accounted for 27 per cent. more.

These figures are eloquent as to the extent of the hold radio has obtained on the people of the Dominion, and there is no indication that the saturation point has been reached.

As a matter of fact, the larger number of new models and the lower prices now available would seem to justify the prediction that another record may be reached this year.

LINCOLN GOLDIE PASSES.

The death of Hon. Lincoln Goldie, former Provincial Secretary of Ontario, removes from public life one whose name had become well known in the Province despite the fact that he did not enter prominently into politics until he was almost sixty years old.

Mr. Goldie, widely known in his home community of Guelph as a manufacturer, had as a matter of fact retired from business when he was persuaded to become the Conservative candidate South Wellington in 1923.

His victory then was followed by his appointment as Provincial Secretary, a Cabinet position he held until his resignation because of ill-health a year ago.

The former Provincial Secretary was held in the highest regard by his colleagues as an administrator of the most conscientious type; he was not a prominent figure in the House or on the platform, but it has been said of him that few Cabinet Ministers in the Province were more closely in touch with the business of their departments than was Mr. Goldie, who quickly mastered the details of his important position and administered the department in the business-like manner that might have been expected of a man of his business training.

He was personally popular, not only among members of the House, but also among civil servants who were under his jurisdiction, and the news of his death brought general regret.

THE LIVESTOCK PARADE.

Agriculture came into its own so far as the public generally was concerned at the Peterborough Industrial Exhibition on Saturday when the prize-winning horses and cattle were paraded before the grandstand.

It was the greatest procession of high-class livestock that has ever been seen in this part of Ontario, and the interest of Exhibition visitors kindled by the striking spectacle was increased as J. B. Nelson, agricultural representative, gave details as to the various exhibits and their owners.

The parade was convincing evidence that the Peterborough Industrial Exhibition is doing a wonderful work in encouraging the development of better quality stock in this section of the Province.

When it is realized that livestock entries at the local Exhibition totalled 1,200, an increase of one-third over the large total of last year, it is possible to appreciate the fact that agriculture still remains the foundation upon which Peterborough's big fair is firmly built.

A few years ago a four-figure livestock total for the Industrial Exhibition would have seemed beyond the bounds of possibility, but 1931 produced 1,200 entries, many new exhibitors, and an indication that a large amount of new accommodation will be needed to take care of livestock exhibits in other years.

Fools rush in where angels fear to tread, depending upon four-wheel brakes to save them.—Galt Reporter.

FARMERS AND COST-ACCOUNTING

The Mail and Empire is impressed with the possibilities of cost-accounting for Ontario farmers. There are plenty of places where such knowledge is available, but our Toronto contemporary thinks a serious error has been made by farmers in not availing themselves of the practical application of such a method.

Pointing out that cost-accounting is the foundation of industry, the claim is advanced that the system would do the same for the farmer as it has accomplished for the manufacturer. The Toronto paper puts it this way:

"With such records before him, the farmer, especially on Ontario's mixed production farms, could decide in what direction to retrench, in what direction to expand. Farmers who to-day slave away their working lives for a living and a small surplus might conceivably become specialists in their best-paying lines and retire at a comparatively early age. It has already been done, in fact; and the younger generation of Ontario farmers are tending more and more to specialization — guided by their more expert knowledge of costs and the profits that in all cases are conditioned by costs."

We doubt if a system of cost finding on a farm will do all that the Mail and Empire claims for it. Twenty years ago it had its advocates and there were many then who were ready to go ahead and try it. We do not believe that there are as many keeping their records on farms to-day as there were at that time.

The Mail and Empire believes it would show the farmer what crops were unprofitable. Right now and for some months past it has not been necessary to keep books to establish that point because there is no profit in nearly all farm lines to-day. A farmer keeping books to establish something which is as plain as can be would simply be employing added effort to prove something which he already knows.

* * * *

There is quite a difference between books on a farm and in a manufacturing concern, and that difference is not difficult to see. Here is the situation:

A manufacturer keeps cost records so that he will know exactly what his output means in expenditure. He will take plenty of trouble to see that his records are well kept, and he will make certain that nothing is missed. Cost-accounting under such conditions has become a highly-developed business in itself.

When the manufacturer knows these costs he is able to intelligently name his selling price. He has eliminated a good deal of chance and speculation from his business, and by so doing he saves himself a great deal of danger.

The farmer is in a different position. We can best illustrate by taking the case of a bushel of wheat. He can put down in his records the amount which the land should pay to take care of investment and taxes; he will add the cost of fertilizing, cultivation, seeding, harvesting and threshing. Then he can tell to an hour how much labor has been invested. Then when he is ready to part with his wheat the farmer could do a little totalling up and find exactly what it had cost him. Suppose we put the figure at 80 cents and on top of that place 20 cents as a profit for the farmer. He is as much entitled to add a reasonable profit as a manufacturer or any other man who carries on business.

* * * *

Very well. Armed with the results or his cost-finding system the farmer loads up his bags of grain and starts off for the town where he does business. He probably goes to the man who buys grain.

He enters the office and intimates that he has a load of wheat for sale, and also adds the interesting information that the price is $1 per bushel. If it becomes necessary to prove his statements he can produce his cost-sheets and show that he is asking a fair and reasonable price.

The grain merchant may be impressed, but he will not be convinced. He may open one or two of the sacks and run the wheat between his fingers, or he may only pinch the sack from the outside. Then he will pick up a bit of yellow paper, a copy of a telegram which gives him the price of wheat for the day, and it may be 45 cents for what the farmer asks $1.

It is right here that the difference between cost-accounting in a factory and a farm comes to the front.

The manufacturer has been able to use his system of cost-accounting to guide him in fixing the price at which his output will be sold.

The farmer can keep books and he can also know his selling price, but when he goes to the market he finds that he is powerless to name that. Some other person has done it for him, and the figure may be and generally is, away under the farmer's cost of production.—Stratford Beacon-Herald.

EDITORIAL NOTES AND COMMENT.

And now Central Ontario will get ready for the big plowing match.

Economic conditions did not prevent Peterborough's Industrial Exhibition from scoring an outstanding success.

Lefty Grove of the Philadelphia Athletics has been voted the most valuable man to his team in major league baseball this year. The left-hander is worthy of a place in baseball's hall of fame.

Mahatma Gandhi continues to grab his place in the calcium light. Talkie stars are green with envy at the publicity the gentleman of the loin cloth is securing.

Canadians are taking out more life insurance and they are putting more money in the saving banks. Curiously enough, as the Ottawa Journal remarks, the people who are doing these things are just as loud as any in talking about hard times.

Dr. Stephen Leacock, renowned humorist, was in a motor accident and found it no joke.—Brantford Expositor.

An average man is never satisfied until after he has called some other man a fool to his face at least once.—Detroit News.

Gar. Wood now says he was misunderstood. It is gratifying to note that he does not say he was misquoted.—Oshawa Times.

(Continued from Saturday)

INSTALMENT 11

With no word to Fabia, who was still standing staring and speechless, the young doctor closed the double doors into the dining-room, then, coming up to Fabia he said, "How did you find out where I lived?"

"I didn't know it was where you lived. I had no idea it was your father who killed Thad."

"It wasn't my father. Will you please sit down and let me explain?" Again that gentle, elder-brother tone which he had used last night just after Thad had died

"I'd rather stand."

"Well, all right. But will you listen?"

She shrugged. "Oh I'll listen," she conceded.

"It was I who ran over your dog."

"Your father just said——"

"Oh, dad was simply trying to shield me. He thinks my work is so important. It's his car, registered under his name, but he lends it to me. In fact, he bought it to lend to me."

"Oh, you ran over Thad!" she said slowly, looking him up and down.

"Yes."

"And didn't stop—"

"And didn't stop, and I knew I'd probably done for the poor little chap, too. But listen, I had had a hurry-call from my chief—the surgeon whom I assist. I couldn't stop for any dog. But I came back later and inquired of the policeman on duty at the square if he'd heard of any accident to a dog. Then I went straight to your house. That was about ten o'clock, I guess. When I found there was a party going on, I ran in town to my room, changed into some different clothes, and came back. You know the rest."

Fabia listened to this account with hostility. She did not wish to find Thad's murderer innocent of the crime. She had been hurt. She wanted to hurt.

"That sounds very well," she replied, "But I think you'd better tell it to my lawyer. How do I know you're telling me the truth?"

"Oh, you think I'm lying, do you?"

"Well, it's done sometimes. I know nothing about you."

"You know I'm a doctor and might have had an emergency call."

"I know you said you are a doctor."

"Well—call up my chief and find out if I'm lying or not. There's a telephone here. I'll give you his number.

"How am I to know you haven't arranged all this with this person you call your chief?"

"Well, you must think I'm a rotter!"

"Do you blame me, after what you did last night?"

"What do you mean?"

"Have you forgotten?"

"You mean—kissing you?"

"If you call it that. I call it insulting me."

"Don't you know why I did it?"

"Why?"

"Why, your teeth were chattering. I did it to pull you out of a nervous collapse. You asked me to."

"I asked you to!"

"You asked me to help you."

"You said you were a doctor, and I asked you to help me professionally."

"Well, that's what I did. It stopped the chattering didn't it?"

"Oh," she gasped, "it was a professional kiss. A kiss, I asked for. A kiss you didn't want to give! I see!" She paused a moment and swallowed in an attempt to keep her voice steady.

"I didn't say I didn't want to kiss you."

"You implied it. How much do you charge for your professional kisses?" she asked. "I should like to settle for it immediately." She opened her shopping-bag. "Are two tens enough?" And she laid two bills upon the table.

Young Dan Regan went up to her close. "Please don't take it like that."

"You insulted me as much as I supposed a man could when you kissed me last night," she went on, "but you've insulted me more now. Oh," she broke off, looking around the stuffy, overcrowded room with a shudder, "let me get out of this place quick. Let me get away from a man like you—from a doctor like you, who kisses girls professionally."

"Stop talking to me like that," commanded young Dan Regan, "and take your money back. Here it is. Take it back. Do you hear?"

"I certainly will not take it back."

"You certainly will," he said, and grasped hold of her wrists.

"Let go of me."

"I won't let you go of you" he replied, the blood of all his fighting ancestors stirring in his veins.

With a swift skillful little twist he did something to Fabia's wrists that was terribly painful. The bag fell upon the floor. He leaned, opened it, crammed the bills in it, closed it—all with one hand, for his other still held Fabia prisoner. He put the bag back into her free hand.

"There!" he said, looking straight into her eyes. "There!"—and took hold of both her shoulders as if he were about to shake her.

Fabia had never been so enraged in her life.

"Take your hands off my shoulders!" she commanded.

It was not a propitious moment to command anything of Dan Regan. Instinctively he tightened his grasp, and, as he became aware of the shoulders struggling, stirring beneath his hands, something else beside the fighting spirit of his ancestors flashed unexpectedly alive within him. He had been thinking of this girl all day, in imagination feeling the soft shaft of her body in his arms, and now here she was, in reality, almost in his arms, flaying, him with insults, offering him money, accusing him of not wanting to kiss her when all day long—Suddenly he felt her hands trying to pull his away from her shoulders. It was as irresistible in his present mood as a challenge. He put his arms around her, swung her off her feet as he had last night, and, leaning over her, he said, "Now, I'm going to kiss you simply because I want to."

Last night she had fought him at the end of his embrace. Now the order was reversed. Her struggling suddenly ceased, and she became as inert as if she had fainted. It frightened him in spite of his profession. How little he knew about women, after all! Very carefully he drew her back upon her feet. Thank Heaven she could stand! Supporting herself against the table with one hand, she covered her face with the other, and stood there perfectly motionless. He stared at her, his heart pounding, he didn't know for how long.

"For Heaven's sake, please speak," he said at last.

But she didn't, nor move a muscle—just stood there with bowed head, one hand still covering her eyes.

"I don't know why I did that," he murmured; "I must have been mad."

Finally she said, but still not moving, "I'd like to go."

"Yes, of course you would." He was all elder-brother gentleness now. He opened the door into the hall. "Look at me, please."

But she didn't.

He followed her to her car. She acted dazed, stunned. The doctor in him didn't like it.

"I can't let you go like this." He put his hand on the door of her car as she reached to open it. "There's too much traffic. It's so dark. Please let me go with you a little way."

"No! No!"

"I won't touch you. I want speak to you. I won't look at you. I promise."

"No! Just leave me—— Oh, please, just leave me!"

There was anguish in her voice.

"All right! I won't come. Don't be afraid," he assured her, and opened the door of the car.

She got in, closed the door, put on the lights, started the engine, threw in the clutch, not once looking at Dan Regan, who stood close by, his hand upon the closed door of the car.

Again Fabia's return home was waited with anxiety. It was a quarter after seven before she arrived. Her father appeared on the threshold of the library when Fabia entered the hall.

"What does this mean? Where have you been?"

"Father, do I have to tell always where I've been?"

"As long as you reside in my house you do, and enjoy meals at my table. Dinner is served at seven o'clock in this house. Where have you been?"

"I don't know. Just out. Just riding around. I left word I was going. Mother understood."

"No, she didn't. She has no idea where you are. She's upstairs now, telephoning, trying to find out. You have no right to worry your mother in this fashion. If we have made a mistake in giving you a car to run alone, it can be remedied. I've been extremely anxious about you myself, and am delaying my dinner on your account. It is the height of selfishness on your part to cause your parents unnecessary anxiety. Why didn't you telephone? Are you aware you are due at a dinner-party in town at eight O'clock, and that you absolutely failed to keep an engagement this afternoon?"

"I told mother I couldn't go to that tea."

"Why couldn't you go to it? Have you no sense of responsibility?"

(To be continued)

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them inserted.

CHEMONG BRIDGE

To the Editor, Examiner.

I have followed closely the discussion pertaining to the rebuilding of the Chemong Bridge, which, in the main, I am heartily in accord, particularly the suggestion that it be approached without political bias.

For a generation there has been great need for this structure as a result of which many citizens have staked their all. To abandon it at this or any other time would spell disaster for them.

The rebuilding of this structure means everything to the citizens of Ennismore, a great number in Harvey and many in Emily Township, the uncertainty of which has reduced the price of their farm lands and homes to such an extent as to cause financial embarrassment.

At present, under the relief plan, many things are being done which would not be dreamed of under normal conditions. Consequently, it is most reasonable that every effort should be put forth to obviate distress and give employment, none requiring it more, through no fault of their own, than those engaged in agriculture.

The rebuilding of this structure also materially effects the township of Smith and the village of Lakefield, in addition, more than we are able to realize, the City of Peterborough.

It should be the determination of every citizen to do everything possible to make Peterborough an increasingly greater shopping centre. Not only would this bridge continue to do much in this regard, but it would assure a better home market for stock, fowl, milk, butter, cheese, and all products of the soil.

Moreover, it would have a very stimulating effect on our already large tourist trade, so beneficial to those engaged in business, hotels, restaurants in Peterborough, and as well, summer resorts throughout the whole community and adjacent territory, including farmers and gardeners.

Having regard to the fact that all classes of citizens, without exception, in this whole central district would benefit to a greater or lesser degree, and that the government is lavishly spending money in other parts of the country of which we are paying our share and getting little in return, it behooves us to put forth every effort to get our rights and at the same time promote a much needed project which can be realized at a nominal cost and at the same time give the relief so absolutely necessary during the coming months.

With these thoughts in view, I am taking the liberty of writing the Reeve of Ennismore suggesting that he convene a meeting of the reeves of the townships of Harvey, Emily and Smith with a view to naming a date for a large public meeting either in Ennismore Town Hall or the City of Peterborough, to which would be invited all the municipal officers of the county, city and adjacent municipalities, to devise ways and means of placing this vitally important question before those who are responsible federally, provincially and municipally.

A large deputation such as would be necessary, would entail a great expense, consequently, I would suggest that every means possible be urged to have the ministers visit the location of proposed new bridge, at once, so that work might be started to assist those who are unemployed and give the farmers of the adjacent townships an opportunity to earn something to help meet their present almost impossible burdens.

Faithfully,
J. J. DUFFUS.

Louise Sexsmith and Dorothy Hoard Winners in Oratorical Contest.

QUALITY IN ENTRIES

MILLBROOK, Sept. 21 (Examiner Correspondence)—David Fallis, four year old son of Mr. and Mrs. Lavergne Fallis, and a pupil at S.S. No. 10, Fallis Line, Miss Jean L. Burnhan, teacher, won all hearts at the fair on Friday when he took part in the massed physical culture excercises, with the pupils of all the schools in the district participating, obeying the commands given by Lieutenant B. B. Dawson, with promptness and correctness each time.

The local branch of the Women's Institute had a booth on the grounds the afternoon of the fair, and did a flourishing business in soft drinks, ice cream, etc., among the officers in charge being the president, Mrs. W. H. Armstrong; the vice-president, Mrs. J. L. Byam; Mrs. T. G. Harkness, Mrs. Garside, Mrs. T. H. Aiken, Mrs. H. J. Armstrong, Mrs. G. Fallis and several others.

Allen Browne, of Cork school, Miss Ruth Staples teacher, won rounds of applause from the grandstand when he played two or three mouth-organ solos as a special feature of the fair program, following the competition in public speaking.

E. A. Summers, Agricultural representative, to encourage the introduction of musical instruction in the schools of East Durham, said he would endeavor to have pupils from E. E. Snyder's inspectorate sing at each school fair in this section next fall. Musical instruction, with excellent results, has been a feature of the schools in the inspectorate mentioned for some years past.

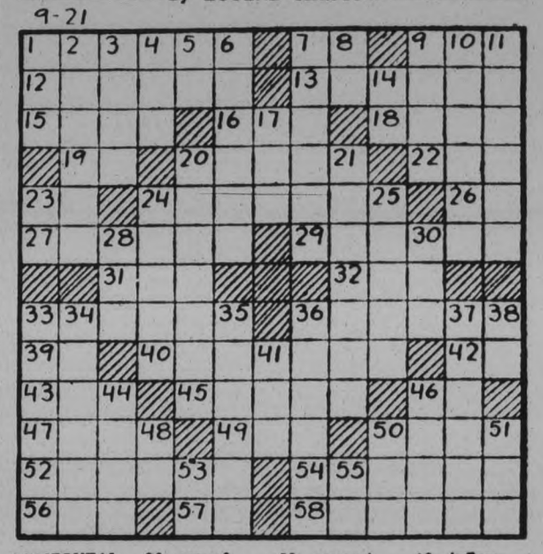
Educational talks on poultry, and on vegetables and fruits, showing why a certain type of entries receive prizes, while others are rejected, were given by Clarence Allen and by Gordon Ashton, following the judging in the various classes on Friday.

Since every school in South Cavan was represented in the parade and physical culture on Friday, the set of bird pictures promised by the Department, will be sent to the respective teachers in the near future for use in the school rooms.

Today's Cross-Word Puzzle

By EUGENE SHEFFER

9-21



HORIZONTAL.

1—lyric form having but two repeated rimes
7—symbol for copper
9—on behalf of
12—small area
13—inducing sleep
15—strong wine
16—extinct bird
18—journey
19—maiden loved by Zeus
20—in various card games, an extra hand
.22—letter of the Greek alphabet.
23—hypnothetic force
24—old-time stringed instrument
26—part of "to be"
27—piece of wood for punishing children
29—most recent
31—sick
32—mend with stitches
33—narrow strip or shred
36—son of Pelops and king of Mycenae
39—printer's measure
40—scourges
42—behold!
43—throat, gullet or jaws
45—ride at a fast pace
46—law degree (abbr.)
47—colored portion of the eye
49—inclosure for animals
50—repeat
52—shipworm
54—have a sudden, sharp pain
56—inflamed swelling of the eyelid.
57—preposition
58—composition for six voices

VERTICAL.

1—smart blow
2—alloy resembling gold in color
3—Roman tyrant
4—small point
5—Hebrew name for God
6—pertaining to the gull family
7—protective covering produced by animals
8—above
9—price of a person's transportation
10—inflammation of the ear
11—feast
14—pronoun
17—peculiar
20—flounders
21—extorted by violence
23—pertaining to
24—rounded enlargement of one end of a part
25—wide-mouthed pitchers
28—prominent ridge in cloth
30—female of the sheep
33—refrains from enforcing
34—in Turkey, a hospice
35—Japan
36—authoritive representatives
37—amount a vessel of liquor lacks of being full
38—therefore
41—born
44—sinewy
46—crooked
48—symbol for selenium
50—mingle
51—permit
52—make
55—pronoun

BRITISH POUND AT NEW LOW

Declines to $3.75 Before Rallying to $4.35 in Foreign Exchange Market.

FOR CABLE TRANSFERS.

NEW YORK, Sept. 21.—Fluctuating widely, the British pound sterling dipped to a new low for the present decade of $3.75 for cable transfers before rallying to around $4.35 in the foreign exchange market here to-day.

The sudden suspension of the gold standard by Great Britain demoralized the foreign exchange market and bankers experienced difficulty in establishing a market price for foreign currencies and in only a few instances were rates more than nominal. Only six foreign currencies were generally quoted.

The Italian lira sagged 2 cents, Spanish peseta was off 10 points and the French franc and Swiss franc were unchanged.

MARKET CLOSING ON EXCHANGES

(Continued from Page 1)

out. Atchison, Union Pacific, New York Central, Baltimore and Ohio and Pennsylvania were up 2 to 6. U. S. Steel, Westinghouse, Eastman, American Can and Proctor and Gamble showed gains of 2 to 5. American Telephone, Woolworth, North American, Sears Roebuck and American Tobacco "B" were somewhat heavy, but remained well above the morning lows. Sales approximated 4,500,000 shares.

STANDARD EXCHANGE

TORONTO, Ont., Sept. 21 (C.P.) —Prices on the Standard Stock and Mining Exchange market dropped in early trading to the minimum established by the directors—Saturday's minimum quotations—and maintained those levels for the balance of the session to-day. A fair amount of business was done in a few issues, but the major portion of the list remained quiet.

International Nickel strengthened with the noon upturn in New York, closing up 25 from the minimum at $9.50. Other interlisted stocks displayed firmness. Majority of stocks on the close were offered at the minimum prices with no bids. The reason for this was self evident, but it created some nervousness on the part of traders.

Date of cancellation of the "pegged price" ruling is uncertain, but it was learned at the Exchange that it would hold for to-morrow at least.

TORONTO EXCHANGE.

TORONTO, Sept. 21.—(C.P.) — Toronto stock exchange market to-day closed unchanged from the final level of Saturday last. The committee ,by its ruling prior to the opening this morning that no transactions should be made to-day at prices below the level of Saturday's close, effectively pegged the market. The committee was meeting again to-night to determine whether the rule should be kept in force and while no official decision has as yet been announced it is expected that the order will remain in force for at least another day or so.

Transactions were confined to a limited number of stocks, in which investors were willing to make commitments at present levels. There was very little bidding and orders were executed quietly. In some stocks, such as Walkers, the sellers at $4 a share were so numerous that the exchange kept a "book" for the convenience of the members.

Bell Telephone sold at 123, C.P.R. at 16¾, Montreal Power at 38¼, Steel of Canada at 21¾, Imperial Oil at 11, International Nickel at 9¼, Walkers at 4, Canada Bud at 10, Distillers Seagram at 7 were all unchanged. Brazilian sold at 10⅝ at the close, Ford of Canada at 15½, Page-Hersey Tubes at 69¼, B.A. Oil at 9⅞, International Petroleum at 10.

CHINA APPEALS TO LEAGUE

GENEVA, Sept. 21. (CP)—Alfred Sze, Chinese Minister at London, called at the League of Nations Secretariat to-day to present China's appeal to the League for intervention in the Sino-Japanese troubles in Manchuria.

QUIET TRADING THIS FORENOON ON TORONTO STOCK EXCHANGES

Trading Picks Up Towards Noon Following Advance at New York.

BRAZILIAN ACTIVE.

TORONTO, Ont., Sept. 21 (C.P.) —Action by the executive committee of the Toronto and Montreal Stock Exchanges in pegging prices at last Saturday's minimum quotations greatly cramped the style of the bear party in to-day's market operations. The result was very quiet trading with transactions in only a few issues. The Toronto Standard Mining Exchange followed the lead of the larger exchanges and restricted trading to Saturday's lowest figures and this discouraged trading in the larger mining issues which are listed on the New York boards.

When prices began to rise in New York after the opening burst of selling, Canadian traders became more courageous and trading picked up towards noon. Brazilian was an outstanding actor in Toronto and Montreal and sold above Saturday's minimum level all forenoon, while other issues were going at the lowest permissible figures. There was a big turnover of Nickel at 9.25 even when the same stock was selling on the New York board around 8.50. Shortly after noon Nickel was changing hands at 10 on the New York board. Noranda did not come back so rapidly and only one transaction was recorded on the Toronto board up till noon. This was at Saturday's minimum of 15.75.

Oils were out of favor and trading was light at minimum prices. British American was selling below $10.

SOME DECLINES IN N.Y. TRADING

Prices of Principal Issues Break $2 to $6 Under Pressure.

LATER TRADE FIRM.

NEW YORK, Sept. 21 (C.P.). — The weight of the London financial crisis fell largely on the New York Stock Exchange to-day, but that leading world market acquitted itself well in absorbing the huge volume of selling orders dumped into brokerage offices over the week-end.

Prices of principal issues broke $2 to $6 under the pressure. However, shorts, instead of adding to the confusion and thus possibly creating a demoralized condition, made extensive repurchases against sales made during the severe September decline.

To guard against a critical situation, the exchange governing committee before the opening, through Richard Whitney, president, announced that the rule against short sales had been invoked. Selling came with a rush when the big gong above the exchange floor rang at its usual hour of 10 a.m., but the decline was cushioned by the retreat of the shorts and prices rallied by the end of the first hour.

Liquidation, coming in part from abroad where the London, Berlin and Amsterdam markets were closed, piled up huge offerings against the opening. So strong was the urge to sell that transfers in the first half hours swelled to 1,100,000 shares the largest volume for that period since June 17, 1930.

There was not, however, anything comparable to the demoralization that characterized those tumultuous days nearly two years ago when the big bull market collapsed, nor did the early sales bulk as large as the turnover witnessed in some previous bad breaks since October, 1929.

The women's national golf championship of the United States has taken on the aspect of an internation affair since the entrance of Enid Wilson (above), British champion. Miss Wilson will prove a hardy opponen for Glenna Collett Vare, who is ambitious to win the title for the fourth consecutive time.

Civil War Veteran

SERVED UNDER GEN. GRANT

Probably Canada's last surviving link with the American civil war of 1861, Howard Williams, 90-year-old resident of Toronto, is still hale and hearty, and recalls vividly the spirit of '61. Enlisting as a private he was later given a commission by Gen. Alexander.

BRITISH PEOPLE REMAIN STEADY

Sir S. Hoare States Indian Rupee to be Maintained on Sterling Basis.

MOVE TO CONFIDENCE.

(By George Hambleton, C.P. Staff Writer)

LONDON, Sept. 21 (C.P. Cable). —"The British people will remain steady as a rock," declared Sir Samuel Hoare, Secretary of State for India in the National Government in the course of a statement to the Indian Round Table to-day in which he announced the Government would maintain the Indian rupee on a sterling basis.

Asserting that nervousness on the part of persons abroad who were ignorant of the true position of Great Britain had caused the crisis which has resulted in temporary abandonment of the gold standard, Sir Samuel added:—

"The case must be viewed in its true proportions. At a moment when almost every other country in the world is faced with a large deficit, Britain is balancing her budget, the most crushing burdens have been willingly shouldered by the taxpayer; drastic retrenchments are being made in all possible directions. Unemployment finance has been overhauled and borrowing for this purpose has ended.

"The basis for stability has thus been laid. The foundations necessary for full restoration of confidence have, I believe, been firmly secured. His Majesty's Government is convinced that at this moment the British people will remain setady as a rock and that they will show their faith in their own currency by standing by it in the knowledge the whole effort of the Government will be directed towards restoration of stability."

Fractional Losses In Chicago Grain

CHICAGO, Ill., Sept. 21. (CP)— Grain steadied at fractional losses to-day after swooping to new low levels for the year. Under heavy trading, wheat futures at Chicago dropped soon after the opening as much as 3½ to ⅝ cents, but recovered wthin an hour to from ½ to ⅞ cents below Saturday's close. Corn deferred deliveries, after an extreme drop of 2⅛ cents, recovered to from ⅛ to ⅝ cents loss. Oats and rye were as much as ⅝ cent higher after an hour's trading.

MISS BONDFIELD ILL

TUNBRIDGE, London, Sept. 21. (AP)—Miss Margaret Bondfield, former Minister of Labor in the Laborite Government, was seriously ill to-day in a nursing home at Tunbridge Wells as a result of the strain of recent political activities.

Canadian Dollar Lowest in Years

NEW YORK, Sept. 21.—(By the Canadian Press.) — The Canadian Dollar dropped to a nominal value of 93.65 cents on foreign markets at the close to-day. This was the lowest rate at which the Dollar had been quoted in many years.

Foreign exchange brokers, however, said there was practically no call for Canadian funds, and some banks went as far as to refuse quotations on the Canadian Dollar.

Conditions Are Bad In Northern Manitoba

WINNIPEG, Man., Sept. 21.—(C.P.— Unemployment conditions in Northern Manitoba are worse now than they were a year ago, said Premier John Bracken upon his arrival from The Pas. But a relief program in The Pas district has been approved and should mitigate the situation somewhat. Road building and a program of sewage and water installation would employ a good number of men, he said.

HOUSE CROWDED

(Continued from Page 1)

tended to take steps to prevent the exploitation of wholesale and retail prices.

Mr. Snowden was understood to nod his head in assent.

Mr. Henderson then asked what machinery was proposed for this purpose, but this question remained to be answered in the debate later.

"That," said Mr. Henderson in reference to his offer not to oppose the bill, "is our contribution to a united front."

Mr. Snowden and Mr. Henderson alike were emphatic there was no need for panic. But Mr. Henderson held, speaking of the expenditure cuts, that as the Government's program had not succeeded in attaining its object the economy cuts should be withdrawn.

Loud Laborite cheering greeted this statement.

Dramatic Story

The opening of Mr. Snowden's speech was delayed for a time by Labor backbenchers who continually arose to points of order. Then Mr. Snowden's prefacing sentences were broken by Laborite interruptions. But, as in slow and at times almost hesitating phrase, he told the dramatic story of the raid on English sterling, the House sat silent.

The Chancellor explained how the great credits established in New York and Paris to protect sterling were almost gone. The French and United States Governments had been asked for further credits. The replies of both were friendly, but offered no prospect of further assistance on a scale that was necessary. The drain of gold and credits continued.

Then, "with appalling suddenness," came the crisis. The Bank of England in a letter sent jointly to Prime Minister MacDonald and Mr. Snowden, said the only course left open was suspension of the gold standard. Mr. Snowden admitted it was an "extreme step," but the Government had no alternative.

No Solution Found.

Mr. Snowden told of the flow of gold to the United States and France, how these countries now held about three-quarters of the world's gold, largely sterilized in their vaults. The British Government persistently represented to the great central banks they should endeavor to find some solution of this unequal distribution of the world's gold. But they were unable to find a remedy.

"So far as we are concerned," Mr. Snowden went on, "we will willingly call a conference for this purpose, but it was made abundantly clear to us tha any such proposal would be unwelcome to the other Powers. Therefore, the conference would be foredoomed to failure."

Yet the British Gvernment would lose no opportunity of pressing the urgency of steps to secure better distribution of the world's gold, the Chancellor declared.

Man Is Found Dead At Home Of Sister

John Hayes, who worked until Saturday last on the farm of his uncle, Jack Hayes, in Otonabee township, was found dead in bed on Sunday morning at the home of his sister, Mrs. Frank Guerin of 256 Lake street, city.

The young man who was thirty-one years of age, went to bed on Saturday evening apaprently in his usual health. Coroner Dr. T. W. H. Young, who investigated, came to the conclusion that the young man died from natural causes and that an inquest will not be necessary. Besides his sister he leaves a brother, Joseph, of Windsor, Ontario.

Funeral arrangements are not yet complete and will be announced later.

Ohio And Indiana Feel 'Quake Shock

CLEVELAND, Ohio, Sept. 21. — More than a doezn cities and towns in portions of Ohio and Indiana were severely shaken last night by subterranean tremors, the most pronounced in this section since 1811, when the entire Ohio River valley was affected.

Although attended by intense excitement among householders, the quake did comparatively little damage and caused no loss of life.

TRADES CONGRESS OPENS

VANCOUVER, B.C., Sept. 21 (C.P.)—With more than 200 delegates in attendance from all parts of Canada, and more due to arrive during the day, sessions of the 47th annual convention of the Trades and Labor Congress of Canada got underway here to-day, with Tom Moore, President, presiding. The opening session was devoted to addresses of welcome by Labor, Civic and Government leaders.

ROTARY HEARS JAMES DUTTON

Story of Bread and Its Manufacture Told to Rotary Club.

DIFFERENT PROCESSES.

The story of bread and its manufacture, covering the progress of the staple from a product of the simple peasant's hearth to a major commodity in the money markets of the world, was unfolded before the Rotary Club by James Dutton of Stock's Bread, at luncheon to-day.

Science has played no small part in perfecting the manufacture of bread, Mr. Dutton said. The earliest method of making the product called for the mixing of potato, a small portion of flour and yeast. This mixture was allowed to stand and ferment, then some more flour and a quantity of salt were added. That constituted all that went into bread in the early days of baking, Mr. Dutton said.

No machinery entered into the early manufacturing processes, he continued. The bakers literally used their hands and feet in mixing and preparing the doughs. In this process the dough was put in bags and the mixers trod them with their feet and worked the best they could with their hands.

"A later development was the "straight dough method" in the production of bread " Mr. Dutton related. "By this method all the ingredients were mixed at once into a dough and allowed to stand. Then the dough was conveyed through weighing and moulding machines to the ovens. This method was followed by the "no time dough method" in which the dough was mixed and passed continuously through the mechanical processes to the finished loaf, without allowing the dough to stand.

"Although the 'no time' method has its advantages in allowing quick production we have come back to the time method. Circumstances are different now than they were before, however. Where before we were uncertain as to the effects of various ingredients such as malt, sugar, salt and yeast, we now have accurate knowledge."

Turning to the subject of wheat, Mr. Dutton declared that Canadian Number 1 Northern wheat has no peer in the world. "The wheat of each country of the world has its own distinct characteristics. But we have a wheat grown in this country equal to any in the world. It will produce a flour of the very highest grade attainable."

Vitamin "D"

Mr. Dutton referred to placing of vitamin "D" in bread as the latest evidence of science's hand in the baking of bread.

At the conclusion of the address a motion picture telling the story of the Stock's Bread Company in this city, was exhibited It revealed in a series of graphic scenes the extent to which modern machinery and efficiency has come into the manufacture of a product that is almost as old as human history.

Plane in Crashing Ignites 2 Houses

NEW YORK, Sept. 21 (C.P.). —Peter J. Brady, president of the Federation Bank, was killed to-day when the airplane of James Goodwin Hall, en route to Detroit, crashed between two houses in Staten Island.

Hall escaped in a parachute drop. The two houses were set afire by the plane, and a woman was burned to death.

Truck Srikes Car One Badly Damaged

John Faux of Douro is held responsible for a bad motor crash which occurred on Armour road early Saturday evening in which Faux's truck and a car driven by Frank Daniels, 250 Charlotte street, suffered heavy damage.

Daniels was driving south on Armour road when he observed Faux's truck approaching on its wrong side. At the last moment, to avert a head-on collision, Daniels swung to the left, but at that instant Faux steered his car over to the right. The cars crashed.

Health Association

It is only to be expected that sickness and disease will always be prevalent to a certain degree in Peterborough. It is perhaps only natural that it should be found more frequently in homes where vitality is low owing to a lack of nourishing food and proper clothing. When sickness enters such homes as it often does, there is only one thing they can do and that is to turn to the Health Association, who never yet has failed them.

It may be one of the little ones who is taken ill, it may be one of the parents, it makes no difference the call for assistance goes in and within a short time the car of the Association's nurse is at the door, what would they do without this aid? Case after case could be cited, story after pitiful story could be told, of the humble homes that have been entered, of the little lives that have been saved, of the breadwinners of the family restored to health, so that they were once more able to take up life's battle.

There has been naturally mire cases than usual this summer, many who never before asked the Association's aid have been compelled to do so for the first time. There will be even more in the months ahead, they never yet have been refused, we trust that this Winter they shall not call in vain. It depends wholly upon the readers of this article whether the calls can be answered or not. The Association is nearly self supporting, only a thousand dollars are needed.

Please send your contributions to The Examiner or the Bank of Montreal. The following contributions are gratefully acknowledged:

CHINA PROTESTS HER INVASION

Feeling Runs High in Nanking. With Mass Meetings and Parades Held.

LEAGUE APPEALED TO.

NANKING, Sept. 21. — (AP) — China cried out today against the Japanese occupation of Southern Manchuria.

In Nanking feeling against Japan was running high. Mass meetings were largely attended, students paraded the streets with banners decrying the occupation and the government designated next Wednesday as "Humiliation Day."

Although official reports said Japanese troops had evacuated Kwanghengtse, near Changchun, the terminus of the South Manchurian Railway, other important cities of Manchuria remained in the military grip of the Japanese.

Representatives of Chinese news agencies and newspapers, in the name of the nation's press, cabled the League of Nations urging intervention in Manchuria, where "wanton invasion of this peace loving la abiding people showed utter disregard of the Washington Treaty and the Kellogg Pact."

BLAST WRECKS WELLAND HOME

Walls Are Shot Apart and Flames Leap 100 Feet in Air.

FAMILY ABSENT.

WELLAND, Ont., Sept. 21. (CP) The home of Tony Paul, Crowland Avenue, was blasted early this morning by a gas explosion, the cause of which is unknown, and the north wall was sent crashing against the home of Mr. and Mrs. Lafayette Chambers, while the south side wall fell against the lower part of the house occupied by John Kinsella and family. Flames shot 100 feet in the air. The loss is stated to be $3,500. The Paul family were away in Buffalo at the time it was reported.

The Welland fire brigade prevented the flames from spreading.

GROUNDED SHIP FREED

VICTORIA, B.C., Sept. 21 (C.P.) —The Norwegian motorship Bonneville, which went aground on Miami Reef, in Stuart Channel, Saturday, was floated yesterday and towed to Esquimalt by the steamer Salvage King. She will be surveyed to ascertain the full extent of damage sustained.

MINERS GO ON STRIKE

GLACE BAY, N.S., Sept. 21. — Because their demand for dismissal of an assistant overman was not met immediately by company officials, hundreds of miners went on strike at Sydney mines this morning and Florence Colliery is idle.

I've smoked in Egypt, India, Elsewhere,
Belgium, France, and along the blinkin' Rhine.
I've smoked Egyptian, Turkish, Russian—
A ruddy league of nations in the smoking line.
But one smoke's cool as Greenland's icy mountains,
Smooth and refreshing—and it's just my style,
And when the corporals chase and sergeants chivvy
I just light up a Buckingham and smile, smile, smile.

*78,000,000 more Buckinghams sold every year

*325,000 more Packages sold every month

Smoke Buckingham — and Smile

* The figures given are based on the average increased sales of Buckingham Cigarettes during the past five years.

PETRIE COMPANY WELL RECEIVED AT CHAUTAUQUA

Dedicate Hymn in Program to Marmora Boy Who Died Saturday.

VISIT TO NEW ZEALAND

MARMORA, Sept. 21 (Examiner Correspondence)—The well known musical organization "The Herbert Petrie Company" presented afternoon and evening programs at Marmora on Saturday, the second day of the Chautauqua festival. In the afternoon a delightful musical prelude was furnished by them to the lecture of Miss Constance Neville-Johns who besides being a colortura soprano is also a gifted lecturer. Quartettes in brass, saxaphones and voice, feature solo numbers on many instruments, readings and comedy numbers were presented by the company with artistic skill.

Miss Neville-Johns entitled her lecture, "The paradise of the Pacific" her subject being New Zealand. In pleasing voice she narrated the discovery of that country and described many of its features, scenic splendors and Maori customs. Its population of one and a half millions is stretched over territory a little larger than the British Isles and is 94 per cent. British, 5 per cent Maori and 1 per cent other nationalities.

Miss Nevill-Johns took her hearers on an imaginary trip from Vancouver by the motor ship "Aorangi" named after the highest mountain in New Zealand. "Aorangi" is the Maori word for "Light of heaven." Honolulu and the Fiji Islands were briefly described and then the features of South Island were touched upon. The lecture told of the moose imported from Canada, the chamois which first made its appearance in New Zealand when an Austrian emperor sent a present of a few of these animals to the Governor, the rainbow trout which weigh about 15 or 16 pounds and the giant sword fish of 700 pounds or more which are caught on a fish line whose dead weight is 70 pounds.

Concerning the latter, she mentioned that fishermen have known to have been pulled thirty miles before the fish tired out. Then the fiords, wheat plains and thriving big white sheep received mention. Miss Neville-Johns who is an Australian by birth discovered on her visit to New Zealand that the children there possess "a magnificent physique" as she describes it. She discovered too that this was due to the work of baby welfare carried on there as initiated by Dr. Triby King.

The wonders of North Island were also picturesquely described by the lecturer. Wellington, the capital, is a beautiful city set on the side of a hill and is laid out in terraces. The wonderful caves of the island with th. glow worm grotto, and the geysers were mentioned and to conclude her entrancing subject, Miss Neville-Johns sang a Maori song.

Miss Georgina Kouri attired in Maori costume assisted the leoturer to illustrate much of Maori custom.

In the evening Miss Neville-Johns endeared herself to the splendid audience by her beautiful rendition of vocal gems.

Also in the evening before the first half of the program closed, the Petrie Company played, "The Holy City," dedicating it to the memory of Jimmy Rice, whose sad death occurred in the afternoon and Mrs. Carscadden, the local director announced that there would be no afternoon program on Monday but both afternoon and evening programs would be blended into one evening program starting at 7 p.m., one hour earlier.

Peterboro' Exhibition Prize Winners

Heavy Horses

Heavy Draft Horses, non- registered. Pair mares or geldings, and wagon—1, Elmer Windrem, Ida; 2, Jas. E. Whittington and Son, S. Monaghan; 3, H. Halligan, Campbellcroft; 4, Fred Eaton, Keene.

Ayrshire Cattle

Five Ayrshire breeders of this district completed for the prizes in this class at the Exhibition. They were Gordon Mann and Son of Bridgenorth; Alex Hume and Son of Seymour township; T. R. Kerr of Norwood; Gordon Kidd and Ernest Rosborough.

Gordon Mann and Son won first prizes for both the senior and junior herds; and also had the champion male in the class; while the champion female was in the Hume herd.

The results were as follows:

AYRSHIRES

Bull 3 years old and over—1, Gordon G. Mann and Son, Bridgenorth; 2, Ernest Rosborough, R.R. 4, Peterborough; 3, T. R. Kerr, Norwood.

Bull, 2 years—1, Alex Hume and Son, Campbellford.

Bull yearling—1, Gordon Kidd, Lakefield; 2, G. Mann and Son; 3, T. Kerr.

Bull calf, senior—1, G. Mann and Son; 2, Ernest Rosborough; 3, T. Kerr.

Bull calf, junior—1, Ernest Rosborough; 2, Gordon Mann and Son; 3 and 4, Alex Hume and Son; 5 Gordon Mann; 6, Alex Hume.

Cow, 4 years and over, in milk—1, 3, 5 and 6, Alex Hume and Son; 2, 4 and 7 G. Mann and Son.

Cow, 3 years and under 4 years in milk—1, Ed Rosborough; 2, G. Mann and Son.

Cow, 3 years and over, not milking—1, G. Mann and Son; 2, E. Rosborough; 3, 4 and 5, Alex Hume.

Heifer, 2 years and under 3, in milk—1, 2 and 4, Alex Hume; 3, G. Mann and Son.

Heifer, 2 years and under 3, not in milk—1, and 2, Alex Hume; 3, C. Kidd; 4, T. Kerr; 5, G. Mann and Son.

Heifer yearling—1, 2 and 3, Alex Hume; 4, T. Kerr.

Heifer calf, senior—1, and 5, G. Mann and Son; 2, 4 and 6, Alex Hume; 3 E. Rosborough.

Heifer calf, junior—1 and 3, G Mann and Son; 2, T. Kidd; 4, Alex Hume.

Senior herd, bull and 3 females, owned by exhibitor—1, G. Mann and Son; 2, Alex Hume and Son; 3, E. Rosborough; 4 T. Kerr.

Junior herd, bull and 3 females, owned by exhibitor—1, G. Mann and Son; 2 and 4, Alex Hume and Son; 3, E. Rosborough.

Best two animals, progeny of one cow—1, Alex Hume; 2 and 4, E Rosborough; 3 G. Mann and Son.

Herd of one male and three females, any age, open to exhibitors of Peterborough County and townships of Cavan, Emily and S. Monaghan—1 and 3, G. Mann and Son; 2, E Rosborough; 4, T. Kerr.

Champion male—G. Mann and Son.

Champion female—1, Alex Hume; 2, G. Mann and Son; 3 E. Rosborough.

R.O.P. Division—1, 3 and 4, Alex Hume; 2, G. Mann and Son.

To Every Business Woman $50 a Month for Life!

Every woman who is earning her own living should provide a surplus so that she may secure independence in later life. The need . . . the ambition, to enjoy retirement free from want and dependence means that a woman must save and invest wisely during her earning years.

Advancing age and declining earning power will hold no terrors for you if you make certain of the following:

Every month of every year a Confederation Life Association Cheque in the mail for a definite, non-fluctuating amount.

A monthly income as long as you live, free from risk of investment loss and unaffected by business or any other conditions.

A guaranteed, continuous income banishing all thought of future care . . . all worry, all fear, all chance of being in that dependent class which is now the lot of so many women in later life.

The Confederation Life plan is the safest, surest plan for building a permanent income. You can face the future with serene confidence if you decide *NOW* not to leave the matter to chance, but to avail yourself of the certainty provided by a monthly cheque for $50. Mail the coupon *NOW* for full information.

Confederation Life Association
Toronto, Canada

Without obligation, send me full information of your plan to provide "$50 a Month . . . to Every Business Woman."

grandstand. This detail added a personal touch which must have been appreciated by the people who are sincerely interested in the progress of the agricultural section of this district.

Among the directors who assisted in arranging the parade were William Knox, J. B. Nelson, Thos. Graham, Vivian Milburn, Herb. McFarlane, Thos. McIndoo, J. O. Ball, Harvey Webber, C. H. Westlake, Frank Savigny, Alex Huston and others.

They had more than 400 head of cattle to select from and also to marshall into line, and most imposing livestock parade and Peterborough Exhibition has ever presented. It afforded the most substantial sign of progress which every visitor, director and breeder could individually witness and appreciate.

Business Goes

(Continued from Page 1)

the continent but no business was being done as dealers and banks in those centers are waiting to see what happens in the way of restrictions here.

With the doors of the Stock Exchange closed the members gathered in Throgmorton Street to discuss the Government's steps and the general consensus was favorable. Details of settlement were being conducted and the exchange settling room was open for checking Saturday's transactions.

The House of Lords was called to meet in special session this afternoon because of the Government's decision to put its measures through all stages of legislation today. It was due to meet at 4.15 p.m. (11 a.m. E.S.T.)

Obituary

MRS. NANCY S. BOWEN.

MADOC, Sept. 21.— (Examiner Correspondence.)—The funeral of the late Mrs. Nancy S. Ellis Bowen, widow of the late David R. Bowen, was held from her late residence, Nelson street, Madoc, on Saturday, September 19th, where service conducted by her pastor, Rev. G. W. Rivers, was held at 2 o'clock. Burial was made in the family plot at Lakeview cemetery.

The late Mrs. Bowen had suffered greatly and led a very retired life for many years. Her husband predeceased here several years ago. She passed away on Thursday, September 17th, aged 76 years.

She leaves to mourn the loss of a devoted mother, one daughter, Stella, Mrs. Cole, of Listowel, and one son, Fred, at home, also one grandson.

The funeral services were attended by many of her old neighbors and friends. Her pastor chose as as his text, "How long shall thy journey be?" Nehemiah, 2:6. Taking life as a journey, Rev. Mr. Rivers showed that no one can know what is the length of their journey, for it may be years, or it may be only days, or for a very few hours therefore all should prepare. He spoke of life as a voyage where all need a guide—the Bible; they need a compass, the conscience; an anchor the Christian's hope; and a pilot, the Saviour. Comforting words ewere spoken to the mourners, and old favorite hymns were sung. "Jesus, Lover of My Soul" and "Abide With Me," Mrs. R. C Fair being the organist.

Old friends acted as bearers, and beautiful flowers from many friends were over and around the casket.

British Consols

(Continued from Page 1)

000 and that it was the first commercially owned autogiro in Canada.

It is powered with a Wright whirlwind motor and under fair conditions has a forward speed of 120 miles per hour. It has a one-head propeller.

Rise 1500 Feet Per Minute

The fins or rotor, those, huge spider-like arms that revolve above the plane must attain a speed of 120 revolutions per minute before the machines lifts itself from the ground. Then with only a slight run and few of the dangers and manoeuvres of an ordinary plane it rises into the air, almost vertically, at a speed of 1,500 feet a minute.

Pointing to the "British Consols" autogiro, Captain Dean stated that it was the highest development of Juan de la Cierva's epochal invention. Cierva's made his first successful flight with an autogiro in 1923, but since then it has seen many improvements.

It is a heavier-than-air machine and supports itself in the air by the rotary movements of its supporting surfaces or blades—these are the fins—thereby introducing into flying a characteristic hitherto impossible of accomplishment.

It is capable of a vertical descent at a velocity slower than a man descends in a parachute. Its flight is perfectly staple without oscillation or swinging from side to side. It can land within its own shadow, that is it doesn't need to run along the ground when landing, and there is little if any shock.

Eighty per cent of its lift is on the rotor and only 20 per cent on the short wings, which are upturned strangely at the ends. The wings are of little importance to the autogiro, the main thing being the rotor and in descending 100 per cent of the pressure is one the rotor.

Practically Fool Proof

The "British Consols" autogiro is practically fool proof and this is its being contribution to aviation and it is aircraft of this type which will likely make future flying popular as motoring is today.

After spending several hours at the exhibition grounds Captain Dean took off and flew to Millburn's field on the Chemong Road. He had planned several flights on Sunday but the fog prevented any flying.

He flew to Barrie today where the public there will have an opport unity of seeing the autogiro doing its strange flying feats.

such crisp-ness!

snap! crackle! pop!

RICE KRISPIES just crackle in milk or cream. They're crisp rice. Bubbles of wonderful flavor. Nothing like them anywhere!

Have Rice Krispies for breakfast, lunch, the children's supper. Try them with fruits and honey added. Make delicious macaroons. At grocers. Made by Kellogg in London, Ontario.

purchase price in any legal tender, gold bullion at the price of 3 pounds 17 shillings and 10½ pence per ounce troy of gold of the standard of fineness prescribed for gold coin by the Coinage Act of 1870, but only in the form of bars containing approximately 400 ounces of fine gold.

King Keeps in Touch

Chancellor Philip Snowden will broadcast to-night an explanation of the gold situation. The King has been in constant touch with Mr. MacDonald and he is understood to have been assured that his return to London will not be necessary. The Prince of Wales has temporarily cancelled his plans to go to Balmoral to see his father.

The summoning of an international conference to arrange for better distribution of gold and to place international trade on a better footing was predicted by the press in commenting on the Government's action.

The papers expressed the belief that British trade gradually would revive under the suspension, that main industries would be stimulated and that unemployment figures would drop and that stock values would improve.

The public was abjured in the newspapers to keep cool and to avoid extremist views of the situation and was assured that vast stores of food and raw material in the country should inspire confidence. Thi view was stressed by Rt. Hon. Arthur Henderon, leader of the Labor Opposition in Parliament, who wrote in The Herald:

"The situation calls for confidence, not despair—for steadiness, not panic. The fundamental strength of the nation is unimpaired and if we remain calm and resolute we shall more speedily surmount the difficulties."

Frequent emphasis was laid by the papers on the effect of what was described as hoarding of gold in the United States and France but it was attributed mostly to circumstances rather than to deliberate intention. The Express said in this connection: "America couldn't help it because the balance was so heavily in her favor as a consequence of the immense sums owing her a result of the war, but France went gold mad."

PARIS EXCHANGE SHUT.

PARIS, Sept. 21.—(A.P.) — No official currency quotations were made to-day and the official Exchange Market did not open.

VIENNA, Sept. 21.—(A.P.)—The Austrian Government at the conclusion of a cabinet meeting today ordered the National Bank and other institutions not to sell foreign exchange. The purchase by private individuals of foregin currency, warrants or drafts also were forbidden.

The stock market was closed.

COPENHAGEN, Denmark, Sept. 21.—(A.P.)— The stock exchange did not open to-day as a consequence of Great Britain's suspension of the gold redemption of sterling.

BOMBAY, India, Sept. 21.—(A.P.) —The Bombay Stock Exchange was closed to-day as a result of the abandoning of the gold standard in Great Britiain.

OSLO, Norway, Sept. 21.—(A.P.)— Quotation of the pound sterling was suspended here to-day

HEADACHES

Needless pains like headaches are quickly relieved by Aspirin tablets as millions of people know. And no matter how suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Read the proven directions for pain, headaches, neuralgia, etc.

Louise De Carlonis is Miss Peterboro

(Continued from Page 1)

the platform. Rain, which commenced to fall early, somewhat marred the proceedings, which were rushed to a conclusion in the later stages.

Congratulates Parents.

In the course of a few remarks, Mr. Wilson stated that in the eighteen years he has been conducting baby welfare contests he had seldom seen a healthier or prettier group of babies than those entered in the present contest. Fathers and mothers were to be congratulated.

Mayor Denne thanked Mr. Wilson for the co-operation he had given the Fair Board in making the Exhibition a success, and he congratulated the winners and losers of both contests for the part they had played.

The Baby King and Baby Queen were awarded silver loving cups, bank accounts of five dollars each, and also a ten-dollar gold piece each, the latter award being made by James Matthews of the Sunshine Dairy.

Louise De Carlonis as Miss Peterborough was awarded a handsome silver cup and diamond ring; Marcelle Garvey, who came second, was presented with a silver cup and dresser set, while Blanche Platt, third, received a wrist watch and silver cup. Louise Yeotes was fourth and was the winner of a handsome pendant. Each of the other contestants in the Miss Peterborough competition was given a necklace.

The full list of prize winners is as follows:

Baby King—Roy C. Longmuir, age 44 months, of Havelock, 29,600 votes.

Baby Queen—Dorothy Dewdney, 26½ months, 485 Park street, 31,900 votes.

Miss Peterborough — Louise De Carlonis, 37,651 votes; 1st lady in waiting, Marcelle Garvey, 34,100 votes; 2nd lady in waiting, Blanche Platt, 33,634 votes; 3rd lady in waiting, Sophia Yeotes, 33,500 votes.

Winners of Baby Parade.

Raymond Wall, Ronald C. Palmer, Jean Knott, Jacq. Robertson, Clayton P. Nolan, Wallace J. Hill, Joseph J. Reako, Roy H. Hotston, Helen B. Chartren, Barbara Vincent, Joan P. Hillier, John A. Cross, Jean L. Jackson, June Bailey, Robert Woodhouse, Norma J. Blackwell, Mary E. Mason, Shirley J. Buller, Harry S. Lambert, G. Doug. Morrison. All the foregoing received loving cup awards.

Health Prize Winners.

Male—A Class: Albert Missen, 1st; Roy H. Hobson, 2nd; Harry V. Berisford, 2nd; Edward M. Chambers, 3rd; James Fawcett, 3rd; Robert Woodhouse, 3rd. B Class: Gerald Fowler, 1st; Thomas G. Hillis, 2nd; Gerald R. J. Kennedy, 2nd; Arnold G. Johnson, 3nd; Wallace J. Hill, 2nd; Stanley G. J. Holston, 3rd; Reginald O. Kelly, 3rd; James M. Millar, 2nd. Class C: Ronald Gilmour, 1st; Roy Russell, 2nd; Lawrence H. Williams, 2nd; Donald Powell, 2nd; James Henry Rose, 2nd; Stewart Hall, 3rd; Raymond Rigby, 3rd. D Class: Clayton P. Nolan, 1st; Roy C. Longmuir, 2nd; Douglas Stenner, 3rd. E Class: William F. Lucano, 1st; Harry S. Lambert, 2nd; Glenn Northey, 3rd. All firsts were awarded silver loving cups Seconds and thirds were awarded ribbons.

Health winners, female—A Class: Barbara Gelling, 1st; Betty Barry, 2nd; Marlen M. Cullen, 3rd; Irene M. Lackie, 3rd; Mary Milburn, 3rd. B Class: Shirley M. Buller, 1st; Joyce B. Cowan, 2nd; Shirley M. Orde, 2nd; Patricia Harris, 2nd; Winifred Land, 3rd; Shirley Mowry, 3rd. C Class: Jean R. Johnson, 1st; Beatrice Kay, 2nd; Norma J. Blackwell, 2nd; Margaret Rhodes, 2nd; Dorothy Dewdney, 3rd. D Class: Betty Monaghan, 1st; Emily M. Fredenburg, 2nd; Mary Heffernan, 3rd; Barbara Weatherstone, 3rd; Barbara Dodds, 3rd. E Class: Viola B. Crouter, 1st; Clara L. Driver, 2nd. All firsts were awarded silver loving cups. Seconds and thirds were awarded ribbons.

TWO OPERATIONS AT 71

A Splendid Recovery

BECAUSE KRUSCHEN HAD KEPT HER BLOOD CLEAN

Within 16 days of being operated on for appendicitis and tonsilitis, this woman was back in her own home. And she is over 71 years of age! When they told her the reason for her remarkable recovery—clean blood—she knew what it was that had helped her. She remembered the daily dose of Kruschen which she had taken for many years. And she knew that one of the things that Kruschen did with absolute thoroughness, was to keep the bloodstream free from impurities. She wrote this soon after her return home:—"I am an old woman over 71. I have taken Kruschen Salts for a number of years, and find they keep me fit and well. I had operations last May for tonsilitis and appendicitis. I was only away a fortnight and two days—which is a very quick recovery for an old woman, I reckon. Clean blood was the reason for it, they told me—and I give Kruschen Salts the credit for that. I recommend them wherever I go."—E. R.

The six salts in Kruschen persuade the organs of elimination—liver, kidneys and bowels—to function as they should—often for the first time in their lives. Instead of being clogged, the intestines are clean and clear. Instead of liver and kidneys being sluggish, they are active and efficient. Now, healthy blood goes coursing through the veins—carrying health and strength and energy to every part of the body.

And Kruschen's gentle but positive action is more than merely purifying—it has a direct tonic effect upon your blood, too, and through your bloodstream upon every fibre of your body—fills you with a bracing sense of energetic fitness.

Kruschen Salts is obtainable at all Drug Stores at 45c. and 75c. per bottle.

PILES ALL GONE

Without Salves or Cutting.

Itching, bleeding, protruding piles go quickly and don't come back if you remove the cause. Bad blood circulation in the hemorrhoidal veins causes piles by making the affected parts weak, flabby, almost dead. Salves and cutting fail because only an internal medicine can actually correct the cause of piles. Dr. J. S. Leonhardt discovered a real internal one remedy. After prescribing it for 1,000 patients with success in 960 cases, he named it HEM-ROID. McDermid & Jury, Bond's Drug Store says one bottle of HEM-ROID Tablets must end your Pile misery or money back.

HOME TOWNERS

TIDBITS INTERESTING AND HUMOROUS FROM CAMPBELLFORD

Cheese graded at the Campbellford station this week totaled 14 lots, 539 boxes. This is a decrease from last year, which registered 19 lots, 745 boxes for the same period.

Mr. Shier of Port Hope was a business visitor to town on Friday.

Miss Stella Kerr left for Toronto on Friday to visit friends.

Mr. and Mrs. H. B. Mason with Mr. and Mrs. Sills and children spent the week-end with Mr. and Mrs. Thomas Carswell at Madoc.

Major J. F. B. Belford of Cobrington was a visitor to town on Saturday.

Terribly Nervous

Ask Mrs. Margaret Gray of Midland What She Thinks of Dr. Williams' Pink Pills (tonic).

Was Made Completely Well.

"At the age of 20 years", writes Mrs. Margaret Gray, 48 Fifth St., Midland, Ont., "I was very anaemic and in a terribly nervous condition. I was advised by a friend to give Dr. Williams' Pink Pills a trial. I purchased six boxes and before I had finished them I was well. And I still keep a box on hand. Not only have I used them myself, but I have always given them to my growing daughters."

The iron and other elements in Dr. Williams' Pink Pills (tonic) increase the amount of haemoglobin, the oxygen-carrying agent in the blood and thus give new life to all the tissues.

The very same means to better health which has been a blessing to others is available for you too. Simply go to your drug store and get Dr. Williams' Pink Pills. 50 cents a package. Be sure to say "Dr. Williams'" so that the druggist will know exactly what you want.

Keene Defeats Brintons 16-15 in Second Game

TO-NIGHT'S BATTLE MAY DECIDE LOOP CHAMPIONS

Eighth Inning Rally Gives Keene 16-15 Victory Over the Brintons.

ERRORS PLENTIFUL.

Peterborough's hopes of a championship in the Girls' City and District Softball League dropped to the lowest level possible on Saturday afternoon, when the Keene maidens battled their way from a 13—9 count against them in the eighth inning to a 16—15 victory over the Brinton Girls to chalk up their second consecutive win in as many starts in the five game series for the trophy, thus getting a big edge on the locals, who must win the next game or hang up their uniforms.

The game was a positive disappointment to the Brinton rooters who saw their proteges play eight innings of fairly clever ball and practically cinch the decision with a six-run margin and then to go to pieces in the last frame and give the game to the invaders when Irene Nelson made the circuit on three errors to tally the winning counter. On the other hand, the performance of the Rurals in staging their garrison finish was very exhilarating to the large number of Keene residents who were on hand, and whose numbers were augmented by many local fans who are pulling for the visitors.

Heavy Slugging

Neat fielding and some extra heavy clouting which included two home runs by Verna Dickson and a double by Jean Nelson put the score 8—2 in favor of Keene at the end of the fifth, but in the sixth and seventh innings the Carpet-Makers pushed ten runs across to secure a comfortable margin which seemed enough to take the verdict as they added three more before the last, and were six runs up on the visitors when the latter came to bat in the final frame. Seven errors, a walk and four hits proved the undoing to the Brintons and when the Keen players countered the seventh run with only two out, the game terminated.

Box Score

Keene:	AB	R	H	PO	A	E

Summary

Left on bases—Keene, 10; Brintons, 9. Struck out—By McMcCarthy, 7; by Self, 2. Bases on balls—Off McCarthy, 7; off Self, 2. Home runs—Verna Dickson, 2, Madge MacFarlane. Three-base hits—Irene Sturgeon, Freda Pavy, Dot Millar. Two-base hits—Olive Prest, Jean Nelson. Passed balls—Keene, 2; Brintons, 2. Stolen bases—Keene, 1; Brintons, 1.

Umpires—Ted Lebarr at the plate; Russ. Kitchen on the bases.

Offers from Burnley, Barnsley and Darlington have been declined by Robert Talbot, the twenty-two-year old right back who was not retained by West Ham last season.

GUN CLUB SHOOT

LAKEFIELD, Sept., 21 (Examiner Correspondence). — The Bonarlaw Rifle Club paid their return visit to the Lakefield Rifle Association on Thursday last and took away the bacon in the shape of high score in a friendly shoot. Last year was Lakefield's victory and this year the stalwarts of Rawdon township scored, but the local team is optimistic of their chances in 1932 when all being well, the annual competition will again be a feature of the season's activities.

The following is the score:—

	—Yards.—			
	200	500	600	Total
F. Mack, Bonarlaw	23	25	22	70
P. Spence, Lake...	27	22	26	75
J Gardenier, Bonar.	26	28	25	79
W. Bickell, Lake..	25	16	25	66
W. Foley, Bonar...	23	27	18	68
J. H. Payne	23	25	24	72
R. Neyler	26	32	28	86
M. Duffus	26	26	25	77
W. A. Bateman ..	32	31	22	85
B. Denoh	22	25	27	74
Jack Wellman	25	26	24	75
Walter Trude	26	29	23	78

The total score for Lakefield was 442 and for Bonar Law was 463. The latter won by 21 shots.

NEWARK COPS 99TH VICTORY

Ike Boon Has Perfect Day at Bat as Bears Win From Orioles 6-2.

SKEETERS SPLIT.

NEWARK, Sept. 21.—The Newark Bears, erstwhile pennant contenders, closed their futile campaign here yesterday afternoon with their ninety-ninth victory of the season. The Orioles of Baltimore, third place in the standing, were beaten 6 to 2 when a rousing rally of four runs broke up a 2-2 tie in the eighth.

Ike Boone, it is believed, until definite official figures are learned, clinched the individual batting championship of the league by getting three safeties in three trips. West, Jordan and Barrett got two apiece.

	R	H	E
Baltimore .....000 000 200—2	12		1
Newark .....020 000 04x—6	13		1

Prim and Linton; Mangum and Hargreaves, April.

PESTS SPLIT BILL

READING, Sept. 21. — Reading drew the curtain on the International League here this afternoon by splitting a double bill with Jersey City, losing the first game 7 to 6, and copping the seven-inning nightcap by the same score.

	R	H	E
Jersey City ...310 002 100—7	11		2
Reading .....000 000 411—6	10		1

Miner and Outen; Griffin, O'Keefe, Mulroney and Legett, Krueger.

Second Game

	R	H	E
Jersey City .....010 122 0—6	9		0
Reading .....100 400 2—7	11		1

Smith, Deshong and Outen; Howard, Van Alstyne and Krueger.

RAIN HALTS GAME

MONTREAL, Sept 21.—An all-morning's rain ended the International League season locally, causing cancellation of yesterday's doubleheader with the Buffalo Bisons. The Royals thus finish in fourth place, with a total of 85 wins and 80 losses for a percentage of .515, while the Bisons ended up in eighth place, with 61 wins and 105 losses for a mark of .367.

Sunderland and Aston Villa have both been watching Hugh Mills the centre-forward of Bridgeton Waverley.

Albert Tirley, the Leek Alexandra outside-right, has, following a good display in a trial game, signed a professional form for West Bromwich.

THE PARTISAN AND LOU GANOT ARE DECLARED TRACK WINNERS IN SATURDAY'S TROTTING MEET

Fans Disappointed as Drivers Refuse to Continue Racing After Sunset.

CLOSE FINISHES.

N. Neeley's Entries From Sarnia Make a Good Showing in Double Events.

With the drivers refusing to race the final heats after sunset on Saturday, The Partisan, owned by J. T. Payette of Penetang, and A. L. Chambers' Milton horse, Lou Ganot, were declared the winners in the two harness-horse races that wound up the Exhibition. An unusually large crowd remained shivering in the grand stand until the final word from the judges, and many were disappointed. The drivers were within their rights, as there is a ruling which permits them to refuse to race after sunset.

Six hundred dollars was divided up among the first four horses in the 2.20 and the free-for-all races. The track was fast and the finishes close, especially in the second one. It was a fitting wind-up to the Exhibition races, and the judges, the timers, the racing committee, and Starter Art Blade all deserve credit for the fine entertainment.

In the first heat of the 2.20 pace, V. Rountree's Weston gelding, Grattan Scott, came down in front with N. Neeley's Sarnia mare Laura G. second. The Partisan was third, and Art. Johnson's Armadale fourth. Tillie the Great, owned by P. Dunsford, finished fifth, and Jim Akey's Dr Byron was sixth, and was scratched for the next heat. Three horses, Vernon McKinney, Jr., St. Charles, and Black Mack were scratched before the race.

The Partisan jogged in ahead to take the second heat, Grattan Scott was next, Laura G. third, Tillie the Great fourth, and Armadale fifth. The Partisan took the next one also, with Grattan Scott again second, Tillie the Great third, Laura G. fourth, and Armadale fifth. The latter was drawn for the final heat. Laura G. upset the dope by going under the wire first, with The Partisan trailing, Tillie the Great in third position, and Grattan Scott fourth. The heat winners would have raced it off, but the drivers objected, so the judges announced the winners from the summary with The Partisan taking first money, Grattan Scott second, Laura G. third, and Tillie the Great fourth.

Seven started in the free-for-all, but Charles Schooley's horse, Lou Grattan, was drawn after the second heat. An accident occurred before they could get away in the first, when Alayne and Lou Ganot collided, with the latter's bike being broken. It was changed quickly and they got off to a fine start.

Princess Audrey, owned by R. Scott of Toronto, nosed in ahead of Bud Grattan, J. T. Payette's Penetang horse. Lou Ganot was third, and Goldie Peters, owned by O. S. Neeley of Sarnia, was fourth. Keenedale, the Peterborough horse, belonging to C. Fife, got in ahead of Alayne, H. Morrison's Toronto mare, and Lou Grattan.

Princess Audrey was first again in the second heat, with the horses being bunched all the way around. Lou Ganot moved up into second place and Goldie Peters took fourth again. Keenedale was fifth, Alayne sixth, and Lou Grattan last. Lou Ganot pounded down in front in the third heat, beating Princess Audrey by a head, with Goldie Peters next, Bud Grattan fourth, and Keenedale and Alayne trailing. The latter was then drawn.

Lou Ganot took the next heat in easier fashion, Goldie Peters stepping out to get placed. Bud Grattan showing, Keenedale fourth, and Princess Audrey falling back to fifth position. The summary gave first money to Lou Ganot, second to Princess Audrey, third to Bud Grattan, and fourth to Goldie Peters.

The summary:

2.20 Class.

The Partisan, J. T. Payette, of Penetang	3	1	1	2
Grattan Scott, V. Rountree, of Weston	1	2	2	4
Laura G., N. Neeley, of Sarnia	2	3	4	1
Tillie the Great, P. Dunsford, of Peterborough ...	5	4	3	3

Time of heats — 2.14½, 2.15½, 2.14½, and 2.15¾.

Free-for-All Pace.

Lou Ganot, A. L. Chambers, of Milton	3	2	1	1
Princess Audrey, R. Scott, of Toronto	1	1	2	5
Bud Grattan, J. T. Payette, of Penetang	2	3	4	3
Goldie Peters, O. S. Neeley, of Sarnia	4	4	3	2
Keenedale, C. Fife, of Peterborough	5	5	5	4

Time of heats — 2.11¾, 2.13¾, 2.12¼, and 2.15.

FOUR HOME RUNS SOFTBALL TILT

Cubs Defeat Business Men 24-15 in Lakefield Exhibition Game.

FIRST INDOOR GAME

LAKEFIELD, Sept. 21—(Examiner Correspondence)—The first indoor game of softball of the season was played in the rink on Friday evening when two local teams played an exhibition game.

There were four home runs, which in themselves established a record, Sam Spence in the third, Garry O'Neill in the third and Robert Chittick in the fifth while Frank Payne achieved what has hitherto been called impossible in making a home run on a strike out.

The score was 24-15 for the Cubs over the Business Men.

The umpires were Wannamaker at the plate and Stenner at bases.

The line up was as follows:

Cubs—F. Madill, p; D. White, c; B. Wannamaker, 1b; R. Stewart, 2b; H. Morrison, 3b; V. Lancaster, S. Spence, ss; C Payne, rf; T. Chaplin, lf.

Business Men—E. Northey; E. Briant, c; C. Northey, 1b; H. Hamblin, 2b; J. Charlton, 3b; L. Sabatino, ss; G. O'Neill, rf; R. Moore, lf; R. Chittick, cf; F. Payne, sub.

Score by innings:

Cubs	3	0	6	1	1	1	1	x	—	24
Business Men	0	0	5	2	4	2	—	15

The league opens on Friday evening next and there will be games played each Tuesday and Friday evening till further notice.

RED WINGS WIN 4TH LOOP TITLE

Newark's Defeat on Saturday Clinches International Flag for Rochester.

LEAFS BEAT WINGS 9-5.

ROCHESTER, N.Y., September 21. — Rochester won its fourth consecutive International League pennant here on Saturday, despite a 9-to-5 setback at the hands of the Toronto Leafs. The Wings clinched the bunting when Baltimore defeated Newark, 3 to 2, eliminating the last club in the race that had a chance of tying the Red Wings for the flag.

Despite the fact that the Wings became four-time champions they were booed by a crowd of 10,000 for their sorry exhibition on Saturday. After the result of the Newark-Baltimore game had been announced, Wings began to play in a haphazard manner allowing Toronto to score six runs in the fourth inning.

Rochester pulled itself together and fought back, scoring three runs in its half of the fourth and two more in the seventh.

Rochester will now defend its title as "Little World" series champions in the annual minor league classic, which opens at St. Paul on September 30.

GALT ADVANCES, BEATING BEACHES

Toronto Nine Outhits Visitors But Fail to Connect Opportunely.

TORONTO, Sept. 21. — Beaches were eliminated from the O.B.A.A. Senior playoffs, on Saturday at Maple Leaf Stadium, when Galt Terriers defeated Tommy Garrett's team, 11 to 5. The win gave Galt the series in two straight games, and puts them in the semi-finals with the winners of St. George's vs. Bell Telephone series. Beaches outhit the winners 12 to 10, but the Terriers mixed their hits in with nine walks issued by Gibbons ad Roberts to socer the victory.

Beaches Big Inning.

Outside of the third, when they put over five runs on six hits, Beaches could not score on Kress, who did not issue .. base on balls.

Beaches gave the Terriers quite a battle up to the ninth, when the winners tallied five runs on four hits, a walk and an error to clinch the victory. Shewan was the most damaging hitter for Galt, with a triple and a double, which drove in three runs. Stewart, with three hits and Hoffman with two were Galt's other good hitters. Caplan and "Hank" Sinclair did most of the hitting for Beaches, each driving out three safe ones.

CLUBMEN DEFEAT LEAFS 10-5 IN THIRD GAME OF THE SERIES

Five Hits and 3 Errors Give Winners Seven Tallies in 7th Frame.

A spirited seventh innings rally which netted seven runs gave the Kinsmen Bantams the third and deciding game of the post-season series against the Maple Leafs at James Stevenson Park on Saturday afternoon, the final count being 10—5. These two teams who have been keen rivals since the start of the season had each copped one game and Saturday's battle was the crucial fixture, with the winners to get a banquet.

The Leafs had the game practically in the bag up till the seventh as they had been leading 4—2, and appeared to have a decisive edge both on the rubber and in the field, but in that frame the Kinsmen started a batting spree that accounted for five well-placed solid clouts which coupled with three errors chalked up sevent tallies, and for the balance of the game, Phelan the winning heaver had the Leafs eating out of his hand.

Lesurf, who started on the mound for the losers, was going great guns until the disastrous seventh, having fanned twelve of the opposition and being nicked for only three hits. In the seventh, with five runs across and only one out, Burton took over the heaving duties, and retired the side by the strike-out method after on hit and two more runs had been chalked up. The latter pitcher finished the game, being touched for three hits in all.

Plays Steady Game

Basil Phalen held down the pitching position for the Kinsmen, turning in a steady and effective game. In the early stages of the battle he breezed along without difficulty, keeping the hits well scattered. He nipped a possible rally in the bud in the fifth, when Starr, first batter, doubled, and Thorburn followed with a single and stole second to put two on and nobody down. Lesurf and Cacavelli, the next two Leafs, went out swinging, while Clarke made the third out when he popped a fly to the first sacker. In the seventh and eighth frames the losers failed to make the grade but three singles in the dying moments of the game sent one more runner across.

Mowry behind the bat for the winners with a badly injured right hand turned in a splendid performance, and besides holding the pitcher well he scooped in two high foul flies. McKinley, on third for the same aggregation, was a real threat with the willow, helping himself to two doubles and a triple in five chances. Lesurf with a hard hit triple and Eddie Starr with a nice double, led the Maple Leafs.

Box Score

Kinsmen:	AB	R	H	PO	A	E

C.G.E. ELEVEN BEATS CALEYS BY 6-1 COUNT

Winners Tally Five Goals Against Scots in Latter Half of Game.

FOR PHELAN CUP.

The Canadian General enters the final of the Father Phelan Charity Cup through the defeat of the Caledonians, on Saturday afternoon, by the score of six to one, before a good attendance.

Ben McMaster getting four of the six goals for his team and Darling and Quinn the others. Robb was the only marksman for the Scots.

Both goalkeepers were tested in the early stages with a barrage of shots from all angles. Twice Billingsley broke through to miss the mark by inches. Then the C.G.E. took the initiative to be in the proximity of the Scot goalie, who held them scoreless with his clever clearances. After Darling had beat the defense on the wing, he centered across to Lovatt, who failed to score.

The Scots' halves transferred the attack to the other end where Daynes frustrated the move of the eager forwards. McCracken went back again with ball in his possession to find Lewington penalized inside the dread area. Robb bulged the net with an unsavable penalty shot. The winners instituted a continued siege upon Griffin's charge, but found him breaking every attempt to gain the equalizer. No less than three times did he outwit the C.G.E. forwards after they had the open goal at their mercy. Perfect centres failed to baffle the Scots' custodian, who always arrived out of the scrimmage with the ball. Before the interval, the Caledonians visited the C.G.E. territory to test Daynes with rocket drives. McCracken's solo effort bringing the custodian to his knees for a fruitless flag kick. Play was in the Caleys' area when the first half ended. Caledonians, 1; Canadian General 0.

On resuming, play ran from end to end without anything tangible resulting. Then greater interest prevailed when the Canadian General overran the Scots in every department, to realize that Griffin was unbeatable. His brilliant stop of Quinn's drive at point blank rang took the heart out of his opponents. While he held them scoreless, the ruling of the referee caused a furore of appeals when a decision was given against him for carrying the ball too far. The custodian claiming that he had been kicked by an opponent. A penalty kick, instead of a free kick, was converted by Quinn to put the C.G.E. well in the lead. The score, no doubt, indicates the run of play when the Canadian General added four more to the count before the finish.

C.G.E., 6; Caledonians, 1.

Scorers—C.G.E., Ben McMaster (4); Quinn and Darling. Caledonians.—Robb.

Caledonians—C. Griffin, goal; T. Craig and J. Campbell, full backs; D. Best, W. Robb and J. McPhate, halves; G. Clark, W. McCracken, J. Billingsley, A. McPhate and W. Grant, forwards.

Canadian General.—J. Daynes, goal; J. Foster and E. Lewington, full backs; S. Clark, J. Stannard and R. Murphy, halves; J. Quinn, J. McMaster, B. McMaster, J. Lovatt and H. Darling, forwards.

Referee—H. Hotson. Linesmen—D. McGregor and W. Harrington.

CASUAL COMMENT

The third, and what may prove to be the final game in the girls' play-offs is billed for this p.m. at 5.15 it being Keene's home game. The Brintons will have to do some tall stepping to-night or it'll be all over as the Keenesters are trying to finish it up in a hurry, and we don't blame them with this rugby weather prevailing.

• • • • • • •

Somehow, it doesn't seem to us as if those Keene girls are that much better than the southenders. They didn't show it all year, and if the Brintons would just begin the airtight style that marked their play throughout the schedule, they could make that a real series yet. Well, they'll have to do it this evening, or wait until next year.

• • • • • • •

They had a good crowd at Saturday' game, and the fans had plenty to get all het up about, especially in that last frame, with the visitors coming from behind to win out by a lone marker. They take advantage of everything, and when the girls in green started throwing the old turnip around, it was just too bad.

• • • • • • •

Up until the last, the Brintons looked to have the game in the bag, what with fair twirling, steady hitting and good defensive work. But in softball things are liable to start happening any time, and they certainly did in the last inning. It was a great game to win, and a heart-breaker to lose.

• • • • • • •

The game at Stevenson Park afterward was a thriller too, with the Kinsmen Bantams winning the rubber game over Maple Leafs in a seventh-inning rally. The teams are pretty evenly matched and have staged some fine battles. Phelan pitched good ball for the Kinsmen, although Lesurf also went well until the bad seventh. There's a flock of coming baseball stars on those two outfits.

• • • • • • •

Some fine races were run off at the Exhibition, with those on Saturday being just about the best of the week. Both the 2.20 pace and the free-for-all would have gone five heats, only the drivers refused to race after sunset.

• • • • • • •

Several hundred people sat there in the cold long after the vaudeville acts were finished just to watch the horses, showing how this sport is regaining its popularity here. As one of the officials said, it wasn't so long ago when there wouldn't have been more than one-tenth remained.

• • • • • • •

Two thousand dollars in prizes was put up by the Exhibition Board and attracted some of the finest trotters and pacers in Ontario. And several of the oldest drivers were seen through the week, including Lou Bennett of Port Hope, who must be well over seventy—a grand old sport who has been guiding them around the turf most of his life.

• • • • • • •

We have been asked if Hart and Kasaboski will be seen here again in a wrestling match to decide just who is the best after the poor decision at the last show which gave the match to the latter. Accordinto definite word from Toronto they will meet here again on Monday, September 28, with a good sporting card.

• • • • • • •

It seems that the referee knew boxing, but had never handled wrestling before, which explains to some extent his giving the fall to Alex. when the other's shoulder blade was touching, but not the whole shoulder. It was a very unsatisfactory ending to a fine bout, as the crowd felt that Hart was the better man. Forbes will handle the next bout here.

ROBERT ABBOTT WINS 1ST PLACE IN FALL MEET

Peterborough Veteran Wins at Oshawa After Tie With Eric Russell.

TURNS PAR AT 70

OSHAWA, Sept. 21.—The precedent established last year of a veteran and youngster tying for first place in the Ontario Fall tournament was followed here on Saturday. In 1930, Phil Farley of Cedar Brook and R. M. Gray of Rosedale led the field and the former won the play-off. In this year's event, Bob Abbott of Peterborough and Eric Russell of Lakeview turned in par 70's but as Russell, one of the early finishers, had hurried back to his club to compete in the closing day's events he was not able to play off and first place was awarded to the Peterborough veteran.

Abbott's Strong Finish

Russell, who was among the early starters, was one under par going out and one over coming home for a par 70, and he held the lead until late in the afternoon when Abbot came home in 33 to card a 70.

Russell owed his position to some keen putting, dropping a number of long ones, and Abbott made a particularly strong finish. He was even with par for 15 holes but his tee shott on the short sixteenth rolled back off the ledge of the green into the river and he had to take a two stroke penalty. He made amends by canning birdie threes on each of the last two holes. Bill Thompson, who finished towards the end, made a great effort to bring about a three-cornered tie for the leadership but his chip shot rested at the lip of the cup and refused to drop, he making a 71. Par cards of the two leaders were:

Par	.....Out	445	443	444—36
	In	345	344	344—34—70
Abbott	....Out	464	443	444—37
	In	345	334	533—33—70
Russell	....Out	455	353	343—35
	In	255	444	353—35—70

One of the feature shots of the day was made at the 385 fifteenth hole when Fred Duffort of Cedar Brook secured an eagle two. His second shot to the green trickled back and finally lodged between the pin and the cup.

CUBS CLINCH THIRD PLACE IN NATIONAL

45,000 See Chicago Take Twin Decision From New York Giants.

BRAVES IN 7TH PLACE.

Gehrig Retains One Run Lead in Circuit Race With Bambino King.

(By Hugh S. Fullerton, Jr., Associated Press Sports Writer)

With the end of the major league season a week away and the two pennants firmly in the grasp of the Philadelphia Athletics and St. Louis Cardinals, there still are several places in the major league standings to be decided in the last seven days.

The National League is in a fairly settled condition with the first three places clinched but only about three of the American League clubs can be sure of where they will finish. The A's are safe at the top; the fourth place Cleveland Indians can move neither way and the Chicago White Sox are not likely to get out of the cellar. But second place is the source of some excitement, as the New York Yankees have staged a belated rush to win ten games in a row to grasp the post away from Washington, while at the top of the second division, Detroit and Boston are tied and St. Louis is only a half game behind.

Belated Rush

The Yanks' belated rush in one of the season's best winning streaks put New York ahead of Washington on Saturday and kept the McCarthymen there yesterday when each club won a double-header. Two second inning rallies, bringing five runs apiece, gave New York a pair of victories over the Cleveland Indians by scores of 7 to 1 and 10 to 4 and enable Babe Ruth and Lou Gehrig to continue their home run honors. Gehrig hit his 46th homer in the first rally, and Ruth clouted his 44th in the second game burst. Henry Johnson and Gordon Rhodes turned in a pair of good mound performances against a team which has lost nine of its last ten games.

Par Caraway of the Chicago White Sox was the victim of Washington's double victory. He pitched the final inning of the opener and was nicked for the run that gave the Senators a 4—3 victory, then relieved Garland for the last four frames of the second game and granted two runs in the seventh that cost him the game 6—4.

The teams that are trying to settle the question of fifth, sixth and seventh places all were idle. St. Louis and Boston had a doubleheader rained out while Detroit, with the Athletics, was not scheduled.

After clinching second place in the National League Saturday, the New York Giants turned around yesterday and dropped both games of a double-header to Chicago, allowing the Cubs to make sure of finishing no worse than third. Brooklyn took a 6 to 1 decision from the Cardinals, but the best the Robins can do now is to tie Chicago.

Heavy hitting and loose playing marked the Cub-Giant twin bill and each team had its share of both. Chicago hammered four pitchers for 20 hits in the opener to win 16 to 6, although Pat Malone allowed 14 safeties. In the second game, Warneke and Parmalee each had one bad inning, the second, in which the Cubs took a 5—4 lead and they held that margin to the finish, winning 7 to 6. Chicago made five errors in the second contest and New York four in the first.

Gabby Street Returns

An old familiar name appeared in yesterday's game among the many very new ones which have cropped in the last few weeks. Gabby Street, the Cardinal manager, who was a big league catcher almost too many years ago to mention, donned a mask for three innings to receive Sylvester Johnson's pitches. The battery was not as successful as Clark and Lopez for Robins.

The Cincinnati Reds sent the Boston Braves into seventh, behind the idle Phillies, by winning two games. Larry Benton allowed the Braves six hits to win the opener 5 to 2, while an eight-run rally in the seventh decided the second clash 14 to 5.

Major League Leaders

(Including games of Sept. 20.

AMERICAN LEAGUE.

Batting — Simmons, Athletics, .380; Ruth, Yankees .376.

Runs — Gehrig, Yankees 158; Ruth, Yankees 144

Runs Batted In—Gehrig, Yankees 178; Ruth, Yankees 155.

Hits—Gehrig, Yankees 204; Averill, Indians 201.

Doubles—Webb, Red Sox, 66; Alexander, Tigers 44.

Triples—Johnson, Tigers 19; Blue, White Sox 15.

Home Runs—Gehrig, Yankees 45; Ruth, Yankees 44.

Stolen Bases— Chapman, Yankees 61; Johnson, Tigers 33.

Pitching— Grove, Athletics won 30, lost 3; Marberry, Senators won 16, lost 4.

CARAWAY MAY SET LOOP MARK

Chicago White Sox Hurler Has Lost 25 Games This Season.

RECORD IS 26.

WASHINGTON, D. C., Sept. 21.—(AP)—Pat Caraway of the Chicago White Sox, is close to an American League pitching record although his club is last in the standing. When he was charged with both Chicago defeats here yesterday, Pat went into the records as the loser in 25 games this season. The American League record for losses is 26, made by John Townsend of Washington in 1904 and equalled by Bob Groom of the same team in 1909. The modern major league mark of 29 losses was made by Victor Willis of the Boston Braves in 1906. Despite his bad record, Caraway has not shunned the tough spots this season.

He has been about the busiest of White Sox relief hurlers although he has had trouble with his pitching arm all year and he has run into several events such as yesterday's defeats when he lost twice although he gave only four hits and one walk in 4 2-3 innings.

OLD LIGHTHOUSE GOES

London, Eng.—The Maplin lighthouse on the Maplin Sands, at the mouth of the Thames, is unsafe and is to be closed down pending investigation.

The keeper has left for the mainland and the stores were being removed yesterday.

The lighthouse was built in 1838 and a new superstructure or tower was built between 1875 and 1885. It rests on piles screwed into the sand, and owing to the movement of the sand some of the piles have been uncovered.

MARATHON TRIAL WON BY WEBSTER

Veteran Hamilton Distance Runner Lowers Course Record.

HAMILTON, Sept. 21 — Harold Webster, veteran marathoner and middle-distance star of the Hamilton Olympic Club, established himself as one of the foremost claimants for a place on the marathon team that will represent Canada at the 1932 Olympic games in Los Angeles, when he outdistanced a field of 67 starters to win the official Canadian Olympic marathon trial here on Saturday.

Webster not only deefated a stellar field by an undisputable margin, but he further proved his ability by lowering the course record by over three minutes, winning in 2 hours 37 minutes, and 46 seconds, as compared with the best previous time, 2 hours 41 minutes and 6 seconds, achieved last year by Johnny Cuthbert of Guelph.

The veteran campaigner, who on Sept. 1, won the six-mile championship of the Dominion in the Canadian title meet at Winnipeg, ran the race of his career to shake off all opponents, and went on to win strongly after the pacemaker and leader for nearly 19 miles, D. Komonen of Toronto, fell by the wayside, after cracking under his terrific pace.

The best piece of news the Middlesborough followers have heard for a long time is that Jock McKay, their smart inside-forward, is feeling no ill effects from the broken ankle bone he sustained toward the end of last season, and is as fit as ever he was. It was feared that when the accident befel him that Jock would be out of the game for a considerable time, but it is wonderful what a rest will do, and we shall probably see an improved Pease with his old partner in harness once more.

U. S. TOURNEY OPENS TO-DAY

Mrs. Glenna Collet Vare Defending Title Against 85 Contestants.

35TH ANNUAL PLAY.

BUFFALO COUNTRY CLUB, Williamsville, N. Y., Sept. 21.—(CP)—The 35th annual Women's United States golf championship began today over this par 81, 6,475 yard course, with Mrs. Glenna Collett Care, five times winner, defending her title against 85 contestants.

The course was drenched yesterday by a downpour of rain which abated for short intervals only, and as a consequence the 18 holes will play considerably longer than their actual yardage.

The first pair, Mrs. Leo Federman, of Glenoaks, L. I. and Bernice Wall of Oshkosh, Wis. teed off at 8 a.m. E.S.T. The rest of the field followed at five minute intervals with the defending champion and Helen Hicks of Hewlett, L. I. women's eastern and New York state champion, teeing off at the Bobby Jones hour of 9 a.m.

SAINTS DEFEAT LONDON 11 TO 3

Toronto Team Advances to Semi-finals in Senior O.B.A.A. Play-offs.

KITCHENER, Sept. 21.—London was eliminated from the O.B.A.A. senior race at Victoria Park Saturday afternoon when the Toronto St. George's handed them an 11 to 3 beating in the third and deciding game of their second round series. The Saints now go in the semi-finals. There was no doubt as to which was the better team, the winners having an advantage over their opponents in all departments of the game. Yarnell, after the first two innings, pitched fine ball, only two men getting past second base.

The game was something of a disappointment for the losers did not play the ball expected of them and the Saints, though they didn't do anything particularly wrong, did not show the brilliance expected, apart from the hitting of Britton and the fielding of "Dick" Green, the former Intercounty League player.

Schaaf Will Meet Tuffy Griffiths

NEW YORK, N. Y., Sept. 21. — (CP)—Ernie Schaaf, whose powerful punching has been making rival eastern heavyweights assume horizontal attitudes with dispatch, travels west this week to see what he can do with one Gerald Ambrose (Tuffy) Griffiths.

Schaaf, with a string of ten successive knockouts behind him, including two over Jimmy Maloney and one over Victorio Campolo, battles Griffiths in a ten rounder at the Chicago stadium Wednesday night. Griffiths himself once was regarded highly as a coming heavyweight but developed into a highly inconsistent performer after Jimmy Braddock knocked him out.

HAMILTON RELAY SETS NEW RECORD

Canadian Champions to the Fore in Jungletown Track Meet.

HAMILTON, Sept. 21.—With the establishment of a new Canadian record for the 400-yard relay as one of the outstanding high lights, the track and field meet held in conjunction with the official Olympic marathon trial at the Civic Stadium here on Saturday afternoon was one of those meets literally crammed with exceptional performances, and 4,000 fans, including the Hon George S. Henry, Prime Minister of Ontario, thrilled to the efforts of some 300 athletes, the cream of Ontario and many international stars of note.

Canadian champions again proved their worth with meritorious performances, but it remained for a team embracing two Dominion titleholders to annex the high light of the program, the sprint relay. Against Detroit, Windsor and Toronto teams of note, the quartet consisting of Ralph Adams, Billy Robinson, Earl Deacon and Bert Pearson, carrying the colors of the Hamilton Olympic Club, sped to victory in 42 9-10 seconds, to set a new standard.

It came as a big surprise to the Manchester United supporters to learn that the new captain was George McLachlan, the former Cardiff outside left, who was in the Welsh men's Cup winning attack in 1927. The surprise was not because George is unpopular; on the contrary, he is well liked; but he is of the unostentatious type. McLachlan now figures in the half-back line a position he got by accident. The Old Trafford club made all sorts of desperate experiments last season in an attempt to evade relegation, and one of them was to play "Mac" at left-half.

RETURN MATCH HERE SEPT. 28

Kasaboski and Hart Will Attempt to Settle Differences on the Mat.

FORBES AS THIRD MAN

Providing Promoter Charles Hallat is able to satisfy Frank Hart on two points, the "Flying Dutchman" will meet Alex Kasaboski in the much-desired return wrestling match at the Brock street rink next Monday night, Sept. 28, it was announced to-day. Hart has been clamoring for a return match ever since Referee Osborne committed the generally recognized blunder of giving a fall against the Dutchman in his epic struggle with Kasaboski.

But Hart will only wrestle on condition that Referee Jack Forbes is third man in the ring and Kasaboski scales no more than 172 pounds. Inasmuch as Forbes is refereeing in Toronto next Friday night, the match would have to be staged here on Monday night. As for the weight, Kasaboski claims the title at 175 pounds and does not see why he should have to make 172 pounds for the Dutchman.

It is hoped that these difficulties towards the rematching of the two will be overcome as the public has been clamoring for a return go and such a match would jam the local rink. Not in a long time will that bout be forgotten and although Kasaboski did really deserve the first fall, there were many who figured Hart would evenually win as he appeared to be lasting better than the Torontonian.

As for the fall Osborne gave Kasaboski that ended the match in the latter's favor, even Alex admits that the referee made a big mistake. Incidentally close observers pointed out that Osborne also made a big mistake in not counting when one of the wrestlers was hurled out of the ring. Wrestlers these days are counted out the same as boxers.

On several occasions Kasaboski was outside the ropes and had he been counted out as he should have been, Hart might have emerged victorious. However, everybody does admit that it was one of the most thrilling wrestling matches that could have been staged, that Hart received a tough break and that a return bout between these two would be an outstanding attraction.

It is sincerely hoped that the pair can be brought together as local fans do not want to see anybody else until Kasaboski and Hart settle their little squabble. And what a squabble it will be if they are brought together again.

London's Gay Lights Making New History

LONDON, Sept. 21. (C.P.)—Floodlighting in London in connection with the International Illumination Congress is going to be on a much-larger scale than at first intended and for a longer period, too. The special lighting was originally intended to last only a week from the opening of the Congress, September 1, but it has been decided to keep it going almost four week, between September 1 and 26. London an hour or so after sunset will be a city of light in which sightseers will view historic buildings and familiar thoroughfares in a setting never before rivalled. Picturesque as was the experimental illumination on the evening of July 21, the actual display will be much more impressive. In many cases the lighting will be three times as powerful as during the initial tests.

The flood-lighting will begin at 9 pm. and last until midnight, Sundays included. Among the buildings specially illuminated will be: Buckingham Palace, Houses of Parliament, Big Ben Tower, Westminster Abbey, Admiralty Arch, Nelson's Column, Victoria Memorial, Westminster Cathedral, Horse Guards Parade, National Gallery, Tower Bridge, and St. James' Park lake and flower beds.

Whitehall will become a "great white way," by the extension and amplification of its high pressure gas lighting, and the Victoria Embankment an attractive electric-lighted boulevard. Big Ben Tower will be illuminated on all four sides and should be visible from all round London. The Thames will become a highway of light, and fire-floats on the river will throw up lofty jets of water on which beams of varying colors will be projected.

Claims Leg Broken During Street Brawl

TORONTO, Sept. 21.—Charged with aggravated assault upon William McKnight, 2203 Gerrad Street East, on September 12, John McMillan, Gerrard Street East, was arrested Saturday night by Detective Geo. Young. McMillan is said by the police to have struck McKnight to the sidewalk, breaking his right leg.

INEXPENSIVE SATISFYING

BEDTIME STORY

THE STUBTAILS WORK HARD

(By Thornton W. Burgess)

Who wisely doth his future plan
Must feel he's doing all he can.
—Stubtail.

Stubtail the Mountain Beaver is not only industrious but he thinks ahead, and this is always a wise thing to do. He looks to his future as well as the present. In this he is like Happy Squirrel and his cousins. He is thrifty. He stores up food against the days when there may be none.

Now, when Happy Jack fills his storehouse with nuts and seeds, all he has to do is to collect them and pack them away, but Stubtail has to do more than this with his food; he has to prepare it so that it will not spoil. This is just what he and Mrs. Stubtail were doing now. They had found some plants of which they were very fond.

"We must get all we can of these," said Mrs. Stubtail as she picked up a neat little bundle, all the butts of the stems carefully laid together.

"Sure," replied Stubtail picking up an equally neat little bundle which he had cut. Then he followed Mrs. Stubtail back to the entrance of one of their tunnels. There was no conversation on the way back, for each had a mouthful. Arriving at the entrance, they put their bundles down and Mrs. Stubtail carefully arranged a little platform of sticks.

"Aren't you a bit fussy" asked Stubtail as he also made a platform, but with less care.

"Yes," replied Mrs. Stubtail, hunting for another stick, "and if you will take my advice you will be fussy too. That platform of yours isn't high enough. The ground is pretty damp here and you know that unless plants are properly cured they will not keep. They are too good to lose that way. It pays to be fussy about some things and this is one of them."

"Quite right, my dear. Quite right," replied Stubtail meekly, and went to look for more sticks to build his platform a little higher.

When the platforms were arranged to the satisfaction of Mrs. Stubtail the plants were spread on them and the Stubtails went back for more. When jolly, bright Mr. Sun came peeping through the branches the next morning he discovered those platforms of carefully cut plants and knew that they had been left there for him to dry out. So he shone his brightest and the plants wilted and then began to dry. Once or twice Mrs. Stubtail peeped out to see that all was

"We must get all we can of these," said Mrs. Stubtail

well. Once she came out and rearranged the plants so that those underneath would get the sun and dry properly.

With the coming of dusk the Stubtails were out and as busy as ever. The drying plants were carefully examined and turned for the next day's drying and then new platforms were prepared beside another entrance, and another supply of food cut and spread on these. So the Stubtails worked nights for themselves, and days jolly, bright Mr. Sun worked for them, and when on the third night they came out Mrs. Stubtail decided that the plants were dry enough to be stored.

"They'll do," said she. "I am afraid that if we leave them out any longer they may get wet and all our work be for nothing. We'll put these in the storeroom nearest our bedroom."

"Yes'm replied Stubtail, and gathered a mouthful of the dry plants, doing it neatly, with the butts all laid together. Through the long tunnel he carried them and carefully packed them away in the storeroom nearest the bedroom. Mrs. Stubtail followed with a bundle and Stubtail hurried back for another.

"Now, how about some fern roots?" asked Stubtail as the last little bundle was put in place.

"They are always good and I know where there are some splendid ones. Come on!" replied Mrs. Stubtail and led the way with Stubtail at her heels.

CATTLE, GRAIN AND PRODUCE

WINNIPEG GRAIN.

WINNIPEG, September 21.—Content to idle through the closing session of the week in its featureless way, the wheat market on Saturday closed at prices fractionally lower than Friday's close. Values at the finish were ¼c to ⅜c lower for the short session.

October closed at 51¾c, December at 52¼c, and May at 56¼c. Considerable export trade was reported, but no figures were available.

Broomhall reported Liverpool future markets lower at the opening in sympathy with North American closings on Friday, in spite of general frosts reported in the Argentine. A fair demand was indicated from European millers for Canadian wheat.

Western weather was reported unsettled, with possible showers over the week-end. This was taken as an indication of smaller deliveries and less hedging pressure early in the week.

Cash wheat and coarse grain trading was indifferent, with spreads easier.

Futures:

Wheat—	Open	High	Low	Close	Prev. Close
Oct.	.52¼	.52¼	.51⅛	.51⅝	.52
Dec.	.52⅞	.53	.52¼	.52¼	.52¼

May	.30	.30	.29½	.29⅝	.30

MONTREAL PRODUCE

MONTREAL, Sept. 21.—Cheese prices advanced and butter quotations were unchanged, while egg and potatoe prices were mainly steady on the produce and dairy market here last week. The only price change on Saturday was an advance in butter.

Eastern Townships No. 1 pasteurized butter, in carlots, gained an eighth of a cent at 19¾c to 20c a pound. To retailers, solids and prints were unchanged at 22c to 23c a pound, respectively. Last week's receipts were 15,500.

Ontario cheese was quoted at 12c to 12½c, and Quebec cheese was 11¾c to 12¼c a pound. Receipts for the week were 37,301 boxes.

Carlot prices of Ontario or Prairie eggs were unchanged, extras being quoted at 30c firsts at 24c to 25c, and seconds at 18c a dozen. B.C. extras were 32c a dozen. Quotations to retailers were unchanged, and receipts last week were 6,659 cases.

Montreal potatoes were 50c per 80-pound bag, and New Brunswick potatoes were quoted at 50c to 70c per 80-pound bag.

Others may try to follow but the Leader still Leads!

The reason is simply that "PEG TOP" has been first in quality in the 5c field for fifty years.

"PEG TOP" has always been the first to consider the pleasure of the smoker -- and first to protect its quality by sealing in moisture-proof CELLOPHANE.

What To-day Means To You

"VIRGO"

If September 21st is your birthday, the best hours for you on this date are from 10 a.m. to 11.50 a.m., from 3 p.m. to 5 p.m., and from 9 p.m. to 10.35 p.m. The danger hours are from 12.10 p.m. to 2.50 p.m. and from 7 p.m. to 8.45 p.m.

The planetary aspects of September 21st denote slightly favorable, but not important, influences. Things promise to run pretty smoothly, and those who have literary or artistic ambitions would do well to concentrate on their work. Married women are assured an exceptionally happy time in their home life.

Children born on this September 21st will have active minds, much originality, considerable pride, and an acute conscience. They will be on the level, affectionate and kind in the home, and their horoscope denotes not a spectacular, but a continuous, success, combined with much happiness and content.

You, if born on September 21st, have a subtle and versatile brain. You are, however, difficult to understand, and blow "hot and cold" almost at the same moment. You are quick mentally and rapid in thought. Whilst others are puzzling a way out of a difficulty, you have solved it. If you were not so changeable in purpose—and you rarely show continuity of method—your future would be a brilliant one.

As a social companion, you are delightful when the environment pleases you. When it does not, however, you can make yourself very disagreeable. In your heart, you persuade yourself that you are constant and faithful. Although strong, you are disposed to overtax your prowess by endeavoring to accomplish too much.

You have hosts of friends, and are kind-hearted and generous to those near you. Absence does not make the heart grow fonder in your case; "out of sight, out of mind" fits your attitude more aptly. You are highly strung and restless, and must be always on the move. You, owing to the uncertainty of your disposition and unreliability of your temperament, often abandon your ambition at the very moment of success, and see others reap the reward for which you have worked.

Weddings

GRAY—McQUILKIN

MILLBROOK, Sept. 21 (Examiner Correspondence) — A wedding of local interest took place at the rectory, Colborne, on Friday, September 11, when Rev. P. W. A. Roberts, formerly rector of the parish of Cavan, united in marriage Gladys only daughter of Mr. and Mrs. Harry McQuilkin, of Brighton, Ontario, to Maurice Gray, of Millbrook, second son of Mr. and Mrs. Wentworth Gray.

The bride wore a brown travel tweed suit, with matching accessories, and following the ceremony Mr. and Mrs. Gray left by motor for a short honeymoon at points east, on their return taking up their residence in Millbrook where Mr. Gray is the manager of the local branch of the Lindsay Creamery, and the Millbrook Coal Company.

CENTRETON

Miss M. Locknart was a visitor to Peterborough on Monday.

Mr. F. Richardson, of Toronto is spending a few days in the village.

Misses Iva Rogers and Hildred Nichol are attending Peterborough Norma. School this year.

Mr. A. Eddy is attending the University in Toronto.

The members of the Ladies' Aid held a business meeting in the S.S. Hall on Tuesday.

The members of the Y.P.S. held a splendid meeting on Tuesday evening when a humorous literary topic was given by Mrs. R. Curtis. Glen Morgan gave a mouthorgan selection. The young people are planning to hold a weiner roast on Tuesday, September 29.

The anniversary services of Centreton United Church are being held on October 4 with a fowl supper on October 6.

Mrs. William Score is spending a few days with relatives in Toronto.

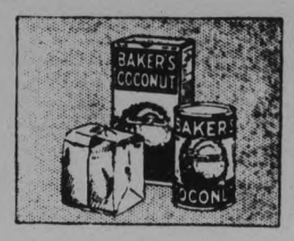
Mr. William Score is visiting his daughter, Mrs. W. Sherwin, of Cobourg.

"What will I make for dessert?"

HOW many times have you asked yourself this question? How many times have you hesitated for fear all your family won't like the dessert you have in mind?

But one thing you do know—*they all love coconut.* Its rich, tempting flavour adds delightful, new variety to even the simplest dishes.

And Baker's Coconut assures you always of the freshest, most full-flavoured coconut without any of the bother of shredding it yourself. It's made from fresh coconuts in Canada.



Three Styles: BAKER'S SOUTHERN STYLE. BAKER'S PREMIUM SHRED. BY THE POUND.

SHOUSE ISSUES HIS PLATFORM

Democrat Chairman Favors Prohibition Referendum, Light Wines, Beer.

LAUDS 5-DAY WEEK.

WASHINGTON, D.C., Sept. 21 (A.P.)—A Democratic platform declaring for light wines and beer and a prohibition referendum is favored by Jouett Shouse, chairman of the party's national executive committee.

Other legislation which he would have Democrats advocate in the coming session of Congress includes abolition of the Farm Board, tariff revisions, re-enactment of the Wagner Bill to establish employment officers nationally, the five-day week for Federal employees and opposition to the use of the injunction in Labor disputes.

Shouse's views, which he described as entirely personal, were published by the Woman's National Democratic Club in the Democratic Bulletin. The Bulletin has also asked other party leaders to submit their platform ideas.

Shouse said the party should pledge itself for a prohibition referendum by offering a substitute for the Eighteenth Amendment. Congress first would have to pass the substitute. Shouse held, however, in voting on it the members "need not voice personal endorsement" but could "merely state a willingness to offer the people the chance to pass judgment in the knowledge that unless and until ratified by three-quarters of the States, the substitute cannot be effective."

He urged immediate amendment of the Volstead Act to legalize light wines and beer, contending the beer tax alone would yield immense revenue and employment would be provided for "several hundred thousand idle men."

Longshoremen Seek Renewal Of Contract

NEW YORK, Sept. 21. (CP) The International Longshoremen's Association at a meeting attended by more than 200 delegates from 15 principal ports on the North Atlantic Coast to-day instructed its representatives to a conference with the steamship lines to be held later to-day to "go down and demand the renewal of the present agreement on October 1."

Joseph P. Ryan, President of the Association, said that under the scale the men were making an average of $15 a week.

More than 50,000 people landed or embarked at Douglas, Isle of Man, in one day recently.

Is One-Half Your Income Insured? » » »

YOU wouldn't care to live on less than one-half your present earnings, would you? Neither would you want your family to struggle along, alone, on any smaller amount.

That is why it is wise for you to insure that at least one-half of your income will continue. You can do it easily and economically by investing only a few dollars in Life Insurance.

For example, if your earnings are $44 a week—you should own Life Insurance sufficient to yield a weekly return of at least one-half that amount.

That would mean protection for your wife and family—or, if you live, provision for your own old age.

Consult any Life Insurance representative and he will advise you how you can insure one-half your income. You will find the outlay is very small compared to what it offers in peace of mind and security against the future.

Montreal Mart Open On Restricted Basis

MONTREAL, Que., Sept. 21. — (C.P.)—Prohibition of "short selling" was announced by the Board of Governors just before the Montreal Stock Exchange opened for business this morning on a restricted basis only. The board met at 9.15 and shortly before the opening at ten o'clock it was announced that trading would go on but with stock prices fixed at a minimum price, which would be not less than the price of last board lot sales. The move was announced as of a temporary nature to meet the situation caused by the partial suspension of the gold standard in Great Britain.

It was stated that the restrictions would not apply to Government bonds.

TARZAN AND THE JEWELS OF OPAR NO. 85

By Edgar Rice Burroughs

(Metropolitan Newspaper Service)

"I shall tell them," said Werper, "that I caught you after you escaped from the camp; took you to Achmet Zek, who directed me to bring you back. And I am to ride north with you at once and dispose of you at the most advantageous terms to a certain slave dealer." While this ruse struck the girl as rather an odd affair, still was she deceived by the apparent frankness of the Belgian. She realized that desperate situations required desperate handling. Though she trembled inwardly at again entering the vile village, she saw no better course.

So calling aloud to the gate tenders, Werper grasping Jane Clayton roughly by the arm, walked boldly across the clearing. The sentries saw with astonishment Werper's companion and admitted them. Once more she was bound and guards placed before her prison; but before Werper left her he whispered words of cheer into her ear. Early the next morning, after a sleepless night, two Arabs entered her tent. They unloosed her bonds, gave her a handful of dry bread and led her out into the faint light of dawn.

Here was awaiting "M. Frecoult" and a villainous lieutenant of Achmet Zek's. Lady Greystoke looked questioningly at "Frecoult" and at a moment when the Arab's attention was attracted in another direction the man leaned toward her and whispered that all was working out as he had planned. Soon after she was lifted to a horse's back and the party began to march north. "M. Frecoult" spoke with her seldom, but she understood that this was necessary to maintain the supposed fact that she was a prisoner.

But if he did not speak with her, the young woman was constantly in Werper's thoughts. A hundred times a day his eyes wandered in her direction and feasted themselves upon her charms of face and figure. Each hour his infatuation for her grew, until his desire to possess her gained almost the proportion of madness. And during these hot days of dreary marches another pair of eyes also greedily watched the fair prisoner; cunning eyes that peered from beneath the hood of a burnoose to gloat upon the beauty of Jane Clayton.

Slept Poorly, Weak

Toronto, Ont. —"About four months ago I felt miserable, was so weak I thought I would have to quit my work, but I had to carry on," said Mrs. Pearl Brant of 519 King St. E. "My nerves were so bad the least little thing would upset me—I would go all to pieces. I slept poorly at night and felt all tired out during the day. But, after taking three bottles of **Dr. Pierce's Favorite Prescription** all this miserable condition left me. I feel so well now I really enjoy living and working."

All druggists. Fluid or tablets.

Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial pkg.

The Association of Rural District Councils of Northern Ireland has asked the Ministry of Home Affairs to promote legislation which will empower rural councils to grant money for the repair of rural dwellings.

WONDERFUL FOR INDIGESTION!

CARD OF THANKS.
Frank Young and Family, of Ennismore, wish to thank all those who were so expressive of sympathy and who rendered any services during the recent sad bereavement of his little son John. He wishes to thank in a very special way Rev. Fr. McAuley, the attending doctors, nurses, and sisters of St. Joseph's Hospital, his friends and neighbors, those who contributed Mass cards, and the teacher and pupils of St. Mary's School, of which John was a pupil.

IN MEMORIAM.
FROST. — In loving memory of our dear father, Pte .Tom Frost, who died at Shorncliffe, England, September 21, 1916 (93rd Battalion).

In the bloom of life death claimed him,
In the prime of his manhood days;
None knew him but to love him,
None mentioned his name but with praise.

Sad are the days without you,
Though your memory brings you near;
Your smile and kindness lingers,
But oh, how we miss you, dad, dear.

—Son and Daughters, Arnold, Dorothy, and Alberta Frost.

TOKYO QUAKE TAKES 9 LIVES

Over 100 Injured and 20 Houses Are Destroyed in Saitama Prefecture.

WORST OF YEAR.

TOKYO, Sept. 21 (A.P.)—Toyko and other sections of Central Japan were shaken severely by an earthquake at 11.20 a.m. to-day, 9.20 p.m. Sunday eastern standard time. The first report of casualties said nine persons had been killed. More than 100 injured and twenty houses destroyed in Saitama Prefecture.

It was feared great damage was done in country to the north of the capital.

Saitama Prefecture, where the shock apparently centered, was believed to have suffered greatest. Telephone wires between Tokyo and Osaka, Nagoya and other cities, were broken.

Several fires broke out in Tokyo, but were extinguished quickly.

Experts of the Tokyo Central Observatory said the quake was the most severe of this year.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

TORONTO BRIGADE AT "EX."
Five men of the T.T.C. Division of the St. John's Ambulance Brigade (Overseas), Toronto, under Superintendent P. J. Leitch, came to Peterborough on Saturday and did duty along with members of the local division under Divisional Superintendent S. Berry at Exhibition Park. It will be recalled that the local men went to the Canadian National Exhibition to assist their colleagues, therefore the visit of the Toronto men was something in the nature of a return compliment.

PLAYGROUNDS EXHIBIT
One of the many interesting small exhibits at the Fair last week was that of the Playgrounds children. Nice examples of their skill were on view in the Women's Section, where a corner was devoted to the display of the handicraft of the boys and girls who attended the playgrounds this year and took time to do the pretty little embroidered bags and purses, the finely-stitched cardboard pieces like old-time samplers, the raffia teapot stands and the embroidered towels and aprons. Two cushions were especially good, one with a daintily embroidered design and the other with a Japanese water-carrier in black relief stitching on a plain ground.

TWIN APPLES FROM APSLEY
Twin apples are the latest freaks of nature to reach The Examiner office. They are from the orchard of R. H. Knox of Apsley, and are joined together on one stem.

Lacrosse Notes

The lacrosse players will hold a practise at the Exhibition Grounds this evening at 5:30 o'clock, and every player should be on hand.

BIRTH.
EVANS. — On Thursday, September 17, 1931, to Mr. and Mrs. R. Evans—a son.

WOODWARD. — On Sunday, September 20, 1931, To Mr. and Mrs. Harry Woodwardn (nee Stella Skinner), 626 Downie Street — a son (Roger Francis).

You will find many things in the Classified Ads. of The Examiner.

LARGE CONGREGATIONS HEAR REV. A. J. THOMAS OF TORONTO

Former Local Pastor Speaks at Both Services in George Street United Church.

SPLENDID ADDRESSES.

A very large congregation assembled at George Street United Church on Sunday for both services to welcome Rev. A. J. Thomas, B.A., a former pastor, but now of Howard Park Church, Toronto. Rev. Mr. Thomas conducted the post-dedication service of the new organ, pulpit and communion furniture and expressed the thanks of the congregation to the family of the late Mrs. David Allison, who had presented a beautiful silver flower basket in her memory. He referred feelingly to the great work done by these deceased members whose memory had been perpetuated, not only during his ministry but during their lifetime.

Taking as his text the 23rd Psalm, he spoke of it as the greatest song ever written. The psalm of all psalms, whose influence would continue through all ages. David probably wrote this during the latter part of his life as it shows maturity of though. Its influence can never be estimated. It comforts the dying; it is God's balm to weary spirits; it helps us to carry our cross. It quiets doubts and fears.

To understand this psalm we must realize how important a shepherd was at this time and how necessary it was to have a good shepherd. David thought of God on one side as the Lord and on the other side as the Shepherd. On one side all glorious and on the other side all gracious. He united these thoughts and said, "The Lord is my Shepherd." He knows all my wants. He had not the slightest doubt as to God's ability to be his Shepherd.

We ,this morning, believe that God will not in these trying and uncertain times, leave man neglected and uncared for, and that God will give humanity what they need.

In the words of our psalm—1st God satisfies not only our temporal but also our spiritual needs. To be under the Shepherd's care is to have satisfaction and real joy. 2nd, The Shepherd leads us in right paths. God wants us to walk in the paths of righteousness, and will guide us if we ask him. 3rd, Shepherd is present in dark hours. The sheep understood that the Shepherd was with them, and David no doubt thinking of earthly sorrows and troubles had the divine hope that God would lead him safely through. 4th, The Shepherd cares for his sheep, looking for poisonous things and watching for wild animals. This is what the Divine Shepherd does for us. He is really to heal and comfort, not forgetting one of his flock. 5th, Strain reveals the sublime climax of the thought that we are being led toward one place—our eternal home where we shall enjoy unspeakable satisfaction and grace. What a conception of God this psalm gives us. Can we take the truth of this song and apply it to our own life? If there was ever a time when we needed this comfort it is now. These are indeed critical times of uncertainty, chaos and testing. A day of terrible loss and heavy burdens. If ever people needed the assurance that God was our Shepherd it is today. Can you say this, the Lord is mine??? I trust you will have that assurance to-day, tomorrow and right down to the end.

At the evening service, Rev. Mr. Thomas took as his text, part of the 45th verse of Chapter 8 of St. Luke: "Who toucher Me."

Jesus said these words when he was on His way to heal Jarius' daughter, and the multitudes were pressing around Him. A poor distressed woman touched his garments, having faith that she would be made better. God said, "Daughter, be of good comfort; thy faith hath made thee whole," and immediately she was healed.

The speaker referred to the crowds that to-day are thronging around. They believe in Christ, but they have never really touched Him with the touch of faith; and in conclusion he asked "Are you satisfied to come to church, to sing, to talk of Christ, or have you touched Him? This is the supreme question of life."

The choir under the direction of D. Howat rendered fine music. A. V. Lillow and D. Carlisle taking solo parts in the morning service and Miss Dorothy Sagar rendering solos at both morning and evening services. Mr. Howat gave a short organ recital at the conclusion of the eevning service.

Day Of Atonement Celebrated In City

Today is a day of deep religious significance and fasting to the Jewish race throughout the world. It is the Day of Atonement, the climax of Jewish celebration of the Hebrew New Year, and all members of race in Peterborough closed their stores all day and joined in prayer and religious exercises.

The Day of Atonement dates back to the beginning of Hebrew history and is mentioned in the Book of Moses.

Services are being held all day in the local synagogue by two rabbis. Tomorrow things in the Hebrew world will return to normal.

LEGION BRANCH TAKING CARE OF BARR'S FUNERAL

Funeral of the Wandering Ex-Service Man Will be Held on Tuesday.

WOUNDED IN FRANCE.

Daniel Barr, lonely wandering ex-serviceman, who passed away in this city on Saturday morning, will be laid to rest in Little Lake Cemetery on Tuesday by his comrades of the Canadian Legion, British Empire Service League, Branch No. 52.

Arrangements were completed for the funeral to-day by Captain James Abraham, past president of the Legion. He successfully broadcast an SOS over CKGW last evening for Barr's sister, who is believed to reside at Thorold. The message was answered by a brother of the deceased veteran, who called Captain Abraham by 'phone at midnight and expressed his intention of coming to this city for his brother's funeral.

The service will be held at Belleghem's Funeral Home on Tuesday at 1.45, with Rev. Dr. C. V. McLean of St. Andrew's United Church, officiating.

Meanwhile the body is lying in simple state, shrouded with the Union Jack — the flag for which Barr fought in France while yet a lad with the Highland Light Infantry. His body bears the honored scars of battle—a gunshot wound, and the unmistakable signs of gas poisoning. Reposing on top of the is a wreath of Flanders poppies and evergreens, bearing the inscription, "Lest We Forget." It is a tribute from the officers and members of the local post of the Legion.

Impoverished in an unsuccessful search for employment, Barr drifted into this city eight weeks ago, making his home with other friendless wanderers in the "Jungle." Probably as a result of drinking impure water he was stricken with typhoid fever, and was removed to hospital by the city police. While in hospital his manly fortitude and courage won him the affection of the entire nursing staff. They describe him as "a patient sufferer."

A cable has been sent to the deceased man's mother, who resides in Glasgow, Scotland.

Weddings

SAUNDERS—WINSLADE
The wedding of William A. Saunders and Kate Winslade was conducted by Adjutant Falle of the Salvation Army on Saturday, Sept. 19. They were attended by Mrs. J. Shaw, Mrs. G. H. Young and Miss Mae Robinson. A banquet was served at Hooper's Restaurant following the ceremony, to the bride and bridegroom and their guests. Mr. and Mrs. Saunders are members of the local musical organization attached to the Temple Corps. They will reside on McDonnel street.

MASSEY-COOKE—JAMES
The marriage took place on Friday afternoon at St John's Church, of Helen, daughter of the Rev and Mrs. E. R. James, Peterborough to Captain Edwin Massey-Cooke of Peterborough, son of the late Dr. and Mrs. Massey of London England.

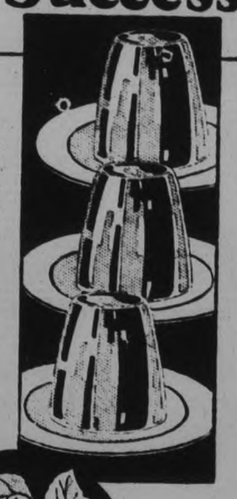
Owing to the illness of the Ven. Archdeacon Warren of Toronto who was invited to perform the ceremony, the officiating clergyman was the Rev. A. T Weir of Omemee. The Rev. Mr. Weir, who is a close friend of the bride's father, the Rev. Mr. James, now is rector of the parishes of Omemee and Emily, churches occupied by the Rev. Mr. James for nine years prior to his residence in Peterborough.

The bride, who was given in marriage by her brother, Mr. R. W James of Toronto, was charmingly attired in a gown of white georgette and lace, with a long veil She carried a bouquet of Ophelia roses and lily of the valley.

After the ceremony, Mr. and Mrs Massey-Cooke left on a motor trip and on their return, will reside in Peterborough.

People of German Switzerland, all of whom can speak high German, are complaining that they cannot understand the language spoken in talking pictures from Germany.

SPEED plus Sure Success



A VAST number of prize-winners use the Certo way for jam and jelly making. You need to take only 12 minutes from the time the fruit or fruit juice is put on to boil until it is serenely cooling in the glasses!

Here is the Secret
—Certo is fruit pectin—the natural jellying substance extracted from fruit.
—Certo jells the juice that would have boiled away by the old (long boil) method.
—Certo makes 30% more jam or jelly at less cost per jar.
—Certo saves ¾ the time. Saves the fruit flavour and colour.
—Certo enables you to bring new deliciousness to jams and jellies in endless variety from any fresh, dried or canned fruit or fruit juice *the whole year 'round.*

Look for the Certo recipe booklet under the label of every Certo bottle. Follow directions exactly and success is assured even with delicious varieties that *never before would jell.*

Should any problem of jam or jelly making perplex you, or should you desire any information whatsoever, write to the Domestic Science Department, General Foods Ltd., Cobourg, Ontario.

Made in Canada

REVISED PLANS FOR REST ROOM PASS COUNCIL

Cost of Work on New Rest Room to be Assumed by City Trust.

CITY COUNCIL MEETS.

Architect is Ordered to Proceed with the Specifications.

Revised plans for a public lavatory to be built on the market square were accepted by the city council at a special meeting last night, and W. R. L. Blackwell, architect, was instructed to proceed with the preparation of specifications.

The cost of the work will be assumed by the City Trust Commission. Mr. Vincent Eastwood, chairman of the Commission, assented to the Council's proposal that the construction be supervised by the City Trust, with the further understanding that the care of the public rest room shall be undertaken and paid for by the council.

A special committee composed of Aldermen Turner, Tuggey, Hamilton and Holland was appointed to consult with the City Trust Commission and Mr. Blackwell in the completion of the plans.

"This meeting was called to speed up the building of a public rest room," Mayor Denne stated. "We have been assured that the City Trust Commission will build it and turn it over to us. We are anxious to go ahead with the work to help provide employment, and we hope the Commission will do the work because City Engineer Parsons has been taken ill, and his assistant is so busy that he could not very well attend to it now."

Mr. Eastwood said: "The Commission is satisfied that the former motion providing for the expenditure of the money should be continued. If the work should cost a little more than you estimated we are disposed to help it through to

GUNMEN TAKEN AFTER ATTACK

Fire Five Shots Into Car in Vain Attempt to Kill Enemy.

CAPONE HENCHMEN.

CHICAGO, Ill. Sept. 22. (CP)—Two of three alleged gunmen who fired at least five shots into the tonneau of an automobile, intending, police said, to kill an enemy near Michigan Boulevard and Monroe Streets, were held to-day. Crowds in the streets were thrown into confusion by the shooting.

The pair, both henchmen of Alphonse Capone, were identified as James "Red" Forsythe and Sam Hunt. They were captured in an areaway behind the Goodman Theatre. Both had thrown away their pistols.

"We just ran to get away from the shooting" Hunt explained. "We're business men."

Forsythe was at one time suspected of the killing of Alfred J. Lingle, Tribune reporter who was slain only three blocks from yesterday's shooting.

Police Are Baffled In Hunt For Laborer

OTTAWA, Ont., Sept. 22.—Puzzled over the disappearance of Michael Kompo, Hungarian laborer, who has been missing from the construction camp where he worked since August 15, police continued their investigation to-day.

Many reports have reached the Provincial police from Fitzroy, where the camp is located, some indicating the belief that the laborer has been murdered, but all have been checked and prove merely rumor.

When he left camp, Kompo carried a large amount of cash, and also his pay cheque which has never been cashed.

F. B. Greenleese's Body Is Recovered

The body of Fuller B. Greenleese, 1440 Crescent street, Montreal, well known locally as an annual visitor to Stoney Lake, was recovered from the St. Lawrence river on Saturday. Interment took place in Montreal yesterday.

Mr. Greenlesse had seen a friend sail from the Quebec dock and was preparing to drive away when he backed his car over the wall into the river.

Large Sea-Serpent Chases Fisherman

OTTAWA, Sept. 22 (C.P.)—After remaining hidden in the depths of Lake Clear, ten miles west of Eganville and 100 miles west of Ottawa, for some forty years, what is described by old-timers at the lake as a "sea-serpent" has appeared once again. There is some doubt that the "serpent" is the same which old residents claim to have seen several score years ago, but it is the belief that it is at least a member of the same family. Mick Conlon, who has frequented the lake for nearly half a century, is the latest authority for the presence of the "sea-serpent" this year. Recently, while trolling in the vicinity of Cherry Island, Mr. Conlon was literally chased to shore by some hideous aquatic creature, which, he declares, was ten feet long and as thick as a man's thigh.

DOCTORS ORDER FEW DAYS' REST FOR MACDONALD

Premier, Pale and Tired, Leaves by Back Door to Avoid Crowds.

DESTINATION A SECRET.

Baldwin, Tory Chieftain, and President of Council, Steps Into Breach.

LONDON, Sept. 22 (A.P.)—Premier Ramsay MacDonald, who is suffering from fatigue and overstrain, left his Downing Street residence this afternoon for a few days' holiday in the country, which he is taking on medical advice.

The Premier who looked pale and tired, left his residence by a back door in order to avoid crowds in front of the house.

Destination a Secret

Greatest secrecy was maintained regarding his destination. One of Mr. MacDonald's secretaries pointed out that he has not had a Saturday or Sunday free from the cares of office and from telephone calls since the first week in July.

As soon as people know where the Prime Minister is, his rest automatically ends," the secretary said.

It is understood that Mr. MacDonald expects to remain away from London until next Monday should the financial and political situation permit.

Rt. Hon. Stanley Baldwin, Conservative Leader and Lord President of the Council, will act as Deputy Prime Minister during Mr. MacDonald's absence. Mr. Baldwin will preside at any Cabinet meetings that may be necessary.

NEW ZEALAND'S NATIONAL GOV'T IS CONSTITUTED

Ministry is Equally Representative of United and Reform Parties.

LABOR IN OPPOSITION.

House Adjourns 10 Days to Allow Time to Draw Up Plans.

WELLINGTON New Zealand, Sept 22. (C. P. Cable via Reuters) New Zealand's National Government was constituted to-day to deal with the Dominion's financial and economic troubles.

The new ministry, which is equally representative of the United Party which formed the last government, and of the reform party, will have a substantial majority in the House of Representatives, only the small Labor party being in opposition.

The ministry includes:

Prime Minister, External Affairs and Railways: Rt. Hon. G. W. Forbes, Leader of the United Party. Public Works, Transport, Unemployment: Rt. Hon. J. G. Coates, leader of the Reform Party.

Follows Britain's Lead

The Dominion is following Britain's lead throughout. The new cabinet shows a reduction of three members against the last one.

Prime Minister Forbes paid a warm tribute to the public-spirited action of Mr. Coates and his colleagues of the Reform party in joining with the United party leaders during the emergency. He appealed for the patience and forbearance of the people of the Dominion towards the new government.

The Labor party has 19 members in a house of 80, and is opposed to the formation of the National Government and also disappointed at the postponement of the general elections that were originally expected next month.

After the new ministry was announced to-day the house adjourned for ten days, presumably to enable the new ministry to draw up a complete plan for national rehabilitation.

Naval Wage Probe Report Wednesday

PORTSMOUTH, Eng., Sept. 22.—(C.P.)—The inquiry into hardships resulting from navy pay cuts was concluded to-day and a report probably will be made to the Board of the Admiralty to-morrow.

It is understood that Atlantic Fleet exercises, which were postponed as a result of the seamen's 'strike' at Invergordon, Scotland, may take place on a reduced scale off Portland.

Both Called Upon To Recall Troops In Disputed Area

Spokesmen for Two Nations Summoned by Council to Discuss Best Methods of Action Without Compromising Security of Life and Property.

DECISION MADE AS JAPANESE REPRESENTATIVE PROMISES COUNTRY READY TO ABIDE BY COVENANT

Russian Consul General at Harbin Claims Japanese Troops Hampering Train Service and Asks Tokyo What Action She is Taking to Rectify It.

BOT HCALLED ¾ ¾ ¾ ¾ ¾ ¾ ¾ ¾ ¾ Take 1

GENEVA, Switzerland, September 22 (C.P.). — The representatives of China and Japan at the League of Nations were called upon at a special session of the League Council to-day to withdraw the Japanese and Chinese troops now in the disputed Manchurian area.

The spokesmen for the two nations were summoned by the Council to meet with a Council Committee for the purpose of finding the best measure for withdrawing their troops without compromising the security of life and property.

This action was taken after Kenkichi Hoshizawa, Japanese representative, had promised that Japan would abide by the principles of the League Covenant and the Kellogg Pact, and would take all possible measures to achieve an amicable and just settlement.

The Council meeting broke up with the promise that it would be convened "as soon as possible" to act upon the recommendation of its committee and to hear the spokesmen of the two Powers.

Russia Protests

TOKYO, Sept. 22 (A.P.)—A Renzo News Agency dispatch from Harbin said to-day Russian Consul General Orlov there had sent a note drawing the attention of Japanese Consul General Ohashi that train service on the Chinese Eastern Railway was being hampered through the Japanese occupation of Kwanchengtse, Manchuria.

The Russian note asked what measure Japan proposed to rectify the situation.

Kwanchengtse is near Changchung, the northern terminus of the South Manchurian Railway, which is operated by the Japanese and which figured as the cause of the immediate trouble between China and Japan. The Chinese Eastern Railway, controlled jointly by the Russian and Chinese Governments, connect with the South Manchurian Railway at Changchun.

A run started to-day on the bank Atchchosen, at Harbin. Chinese and foreign depositors, frightened by bombing in Harbin and vicinity, withdrew their money quickly.

China Ready to Fight

NANKING, China, Sept. 22 (A.P.)—Addressing a mass meeting today, Chiang Kai-Shek, head of the Chinese Nationalist Government, said that if the League of Nations and Kellogg Pact signatories "fail to uphold justice" between China and Japan regarding Manchuria, "the Nationalist Government is prepared for a final and supreme struggle."

Reports previously were widely circulated both here and in Canton that peace was about to be made between the Nanking Government and the insurgent regime in South China in order that the nation might present a united front to "deal with Japan."

Japan Moves More Troops

SHANGHAI, Sept. 22 (A.P.)—A Japanese dispatch from Changchun, Manchuria, to-day said the Jap's Second Army Division had been ordered to proceed to Harbin on the plea of the Japanese Consul General there for protection against Chinese.

Second Division units along the Changchun-Kirin Railway were ordered to entrain for Harbin at once, it was said.

Chinese forces were asserted to have attacked Peitaying, the first point captured Saturday by the Japanese following outbreaks along the South Manchurian Railway.

WOULD MAKE CLOSER ROUTE TO THE STATES

Will Present Petition Requesting Bridge Over St. Lawrence River.

CLOSER TO KINGSTON.

Eastern Ontario Suffering Loss in Tourist Trade Through Indirect Route.

A petition seeking the construction of a bridge over the St. Lawrence river as close to Kingston as possible will be sent to the Federal and Provincial governments and circulated among the cities of eastern Ontario by the Peterborough Chamber of Commerce according to a recommendation of the Transportation Committee revealed to-day.

The interests of tourist traffic are behind the petition it was stated. Officials of the Transportation Committee believe that the eastern and central section of the Province are suffering the loss of much tourist traffic from the United States because of a lack of any direct traffic route into the central area across the St. Lawrence Waterway. Present entrance to Canada at any point between Montreal and Niagara must be gained by ferry.

Bridge Petition

The petition which will be circulated is as follows:

"Whereas the further development of motor traffic from United States to Eastern Ontario is retarded to a great extent by the fact that no means of entering Eastern Ontario other than by ferry exists at the present time.

"And whereas it is believed that it would be possible to materially increase the flow of tourist traffic to this part of Canada by means of a traffic bridge over the St. Lawrence River, augmenting the different ferry services at one point;

"Therefore, be it resolved that the Peterborough Chamber of Commerce petition the Federal Government and the Government of the Province of Ontario to seriously consider the practicability of a traffic bridge over the St. Lawrence River at a point as far westerly and in as close proximity to Kingston as would be practicable, it being felt that such a bridge so located would best serve the interests of the Province of Ontario particularly the district between Oshawa on the west and Brockville on the east."

The Transportation Committee is composed of F. D. Kerr, K.C. chairman; J. W. Anderson, J. Gillespie, V. S. Foster, W. F. Skitch, and F. G. Stinson.

Farmer Identifies Victim Of Amnesia

HAMILTON, Ont., Sept. 22 (C.P.)—The sufferer from amnesia who is confined to the General Hospital here was to-day identified as James Cullen, aged 32, formerly of this city and Guelph, and recently a concession employee at Crystal Beach.

Cullen was identified by George Stock, Waterdown farmer, who once employed the mystery man. It was learned by police that he had suffered an attack of loss of memory previously and had recovered.

Market Closing On All Exchanges

WALL STREET.

NEW YORK, Sept. 22.— Stocks moved in a narrow range in quiet trading to-day, closing with a steady tone without much variation from Monday's final prices. U. S Steel, American Telephone, General Electric and General Motors were little changed, while a number of rails together with Consolidated Gas, Westinghouse, Woolworth, Johns-Manville, American Can, Case and American Smelting advanced a point or so. Western

Proud Mother Welcomes Amy

Rightfully proud of her courageous daughter, Amy Johnson's mother (left), is shown greeting the famous British aviatrix at Croydon Airport, near London, upon the completion of Amy's flight from London to Tokyo and back. Miss Johnson is the first woman to complete such an aerial adventure.

SYNOD'S SOCIAL SERVICE REPORT IS CONSIDERED BY TWO HOUSES

Resolution Establishing a Fixed See for Primate Passes Lower House

HARRIS MOTION PASSES.

TORONTO, Ont., Sept. 22. (CP) With the question of synodical or episcopal election of the primate still unsettled, the twelfth triennial assembly of the Church of England general synod began the seventh day of its session here to-day with consideration of the report of the synod's council for social service.

Prior to the arrival of the House of Bishops to sit in joint session on the report, the lower house further implemented the move to establish a fixed primatial see by passing, without discussion, a previously introduced motion of Chancellor R V. Harris of Halifax.

The resolution called for appointment of a joint committee of both houses of the synod to inquire into all matters pertaining to the erection of the see and report to the next synod assembly three years from now. It will advise the next assembly as to the location of the proposed primatial see its form of synodical organizations and its relation to the general synod and the synod of the ecclesiastical province in which it may be situated.

Six Years Away Yet

Chancellor Harris frankly admitted that actual erection of the see would take another three years after submission of the committees report but declared that such an imortant matter should not be hurried until the fixed see is set up it will not be possible to elect primates from among the general body of the churches clergy, but it will have no bearing on the pressing present need for electing a primate, which will be done, under the old or the proposed new method at this session.

Chancellor Harris remarked that if the house wished to indicate what diocese it wished to embrace

BARN DESTROYED ON HOLDEN FARM

Barn at Fraserville Was Destroyed Early This Morning.

CAUSE UNKNOWN.

FRASERVILLE, Sept. 22 (Examiner Correspondence).—Robert Holden, a farmer of this district, suffered a heavy loss early this morning when his barn containing the season's crop was totally destroyed by fire.

The cause of the fire is unknown Holden first noticed it when he awoke at 5 o'clock. Although neighbors rallied to fight the flames, their efforts were powerless to prevent the barn's destruction. However the pigs and horses were saved.

Much valuable farm machinery was also destroyed. The loss will reach several thousands, of which a part is covered by insurance.

Last Hope Fades For Brockenshire

OTTAWA, Ont., Sept. 22.—C.P.)— The law will take its course in the case of John Brockenshire, sentenced to die in Toronto to-morrow morning.

Brockenshire was convicted for the murder of Constable Roy McQuillin, of the Toronto Police Department.

FOUR VESSELS LOST IN WEEK

Two Founder After Springing Leaks, Two Wrecked Off Newfoundland.

ALL CREWS SAVED.

ST. JOHN'S Nfld., Sept. 22. (CP) While three trans-Atlantic fliers defied the North Atlantic on the floating wreckage of their ill-fated plane, four vessels came to grief over the week-end, according to reports reaching here to-day.

S. Herbert Green, owned by Moultons of Burgeo, bound from Sydney with coal, was abandoned of Chaleur Bay on Sunday night after the crew had worked strenuously for four days in an unsuccessful effort to keep her afloat. The crew landed safely at Francois.

The schooner Bertha owned by Frederick Woodman of New Harbor bound from Labrador with fish, was abandoned on Sunday night off Cape Bonavista. The crew manned the pumps for thirty-six hours after the schooner sprang a leak. They reached Heart's Delight in their motor boat.

The auxiliary schooner Reginald Moulton, owned by Burezeo and Lapolle Company, employed in freighting, struck a rock early yesterday morning and was stranded near Seldom. The crew escaped and reported the vessel as a total wreck.

S.S. Home, arriving from the north, reported the schooner D. Elton, owned by Goodyear of Carmanville, a total loss at Lumsden, Bonavista Bay. The schooner was loaded with limestone from Cobbs Arm.

SIR LYNDER MASSEY IS ILL

TORONTO, Ont., Sept. 22. (CP) Sir Lynden Massey British legal authority, is ill at Atlantic City, N.J., according to word received here. The nature of his illness was not disclosed in the brief advice sent to Toronto for the purpose of canceling a speaking engagement Sir Lynden was to have filled in this city Thursday.

POLICEMAN IS KILLED

VERA CRUZ, Sept. 22. —(AP)—One policeman was killed and two were wounded in clashes during state elections yesterday.

HENRY MERRIAM MET HIS DEATH IN AN ACCIDENT

Inquest Held at Norwood Into Death of Young Railroad Workman.

RIDER TO VERDICT.

Witnesses Denied That There Was a Scuffle on the Caboose Platform

NORWOOD, Sept. 22. — (Examiner Staff Reporter). — A verdict that Henry Merriam was accidentally killed by jumping from a moving work train at the C.P.R. station here on September 11, was last night returned by a jury at the inquest conducted by Coroner Dr. H. G. Carleton

A rider to the verdict recommended that the railway companies be strongly urged to have notices placed on all work trains instructing workmen against jumping off moving trains.

Crown Attorney V. J. McElderry, K.C., questioned the witnesses, some fourteen in all. The deceased young man's father, the Rev. R. J. Merriam, who was accompanied by F. D. Kerr, K.C., as his legal adviser, gave evidence, advancing the theory from observations he had made following the accident that his son had been crowded off the platform steps of the caboose.

Mr. Merriam's competence to testify as an expert witness was challenged by George W. Thornton, representing the Canadian Pacific Railway Company.

No "Horse Play."

Suggestions that the men on the platform of the caboose, which included the conductor and brakeman, the deceased and two other employees had been indulging in "horse play," were discredited.

The only evidence of "fooling" was that given by Thomas Small, who stated that he and Merriam had a "little scuffle" over a cup of water in the caboose. They were just "fooling," he admitted, adding, "I bore him no grudge at all—we were the best of pals. The scuffling was entirely in fun." Witness left the caboose before Merriam attempted to jump off, and was sitting on a flat car when he saw the accident victim jump from the steps of the caboose. "He seemed to hang on, take three steps and then fall forward. I waved to the engineer to stop."

The jury were out one hour and a quarter considering their verdict. The jurymen were: W. H. Montgomery, foreman; Thomas M. Lumsden, George A. Hamblin, O. Buck, W. B. Parcels, W. A. Murphy, and William Hubble. Their verdict in full was as follows: "We, the jury empanelled to inquire into the death of Henry Merriam, after having carefully considered the evidence submitted, are unanimously agreed that he came to his death accidentally by jumping from a moving work train at the C.P.R. station in the village of Norwood on September 11, 1931.

"To prevent future accidents we are also agreed that the railway companies be strongly urged to have notices placed on all work trains instructing workmen against jumping off moving trains."

C.N. Freight Ditched On Allandale Line

NORTH BAY, Ont., Sept. 22. — (C.P.) — Running into a washout caused by heavy rainstorms near Katrine Station on the Allandale division of the C.N.R. caured the derailment of 14 cars of a north-bound freight train at 9.55 o'clock last night. No injuries were reported, but considerable damage was done to the train, although none of the cars derailed turned over.

Auxiliaries were despatched from North Bay and Allandale to clear the line, and although no definite word had been received at 11 a.m. to-day as when the line would be clear, seven of the 14 cars had been re-railed.

Economic Conference Date Is Not Settled

LONDON, Sept. 22.—(C. P. Cable) —The Imperial Economic Conference which was to have been held at Ottawa some weeks ago, but was postponed indefinitely, was the subject of a question in the House of Commons this afternoon.

Malcolm Macdonald, son of the Prime Minister and under-secretary for Dominions in the National Government, told the questioner he was not aware of any announcement by the Canadian Government as to when the conference would be held. Asked if any information was available, Mr. Macdonald replied "No, sir."

ONE-THIRD OF CITY'S UNEMPLOYED ARE NOW OBTAINING RELIEF WORK

If All Unemployed Were to Get Weekly Work Money Only Last Until December.

COUNCIL DOING ITS BEST.

One-third of the city's unemployed men as listed during the last two weeks in August are working.

More than a year after every man was assured of a job and was promised immediate relief from unemployment the majority of the men in Peterborough who have been unable to get work are still idle.

This is one of the facts in which many persons in this city are interested. It was announced by Ald Hamilton at last night's special meeting of the Council in reply to a question by Alderman Macdonald.

Three weeks ago yesterday the registration of the city's unemployed men was completed. In so far as the official records go their number was something less than five hundred in this city.

Next in the order of going about the business of reducing promises and program to payrolls, the Council submitted its projected plan of work to the Government officials, and came back with its total considerably diminished.

Spent by November 30.

If the City Council were to provide jobs for 500 unemployed men at $18.00 a week, the weekly pay cheques issued from the ratepayers' treasury would amount to $8 000 and by the end of November the city would have spent approximately $100,000, with the winter hardly begun.

That's another fact. At least, as

(Turn to Page 5, please)

Canada Will Shortly Take Over Royal Mint

OTTAWA, Ont., Sept. 22.—(C.P.)—Implementing legislation passed at the last session of Parliament, Canada will shortly take over the Royal mint here. For several weeks, officials of the Finance Department have been in touch with Canadian mines arranging for supplies of gold bullion to be used in the operation of the mint. While this action was not taken with a view to meeting an emergency situation, it is stated at the Department that its effect will probably be to strengthen the gold position here.

Send Excess Fruit To Needy In West

GALT, Ont., Sept. 22. (CP)— A. M. Edwards, M.P. for South Waterloo, in a letter sent to Senator G. D. Robertson, Minister of Labor, suggests that the excess of fruit and vegetables in Ontario be gathered at different points under the supervision of county agricultural representatives and shipped on refrigerator cars to be distributed to the needy in Western Canada, the farmer be paid a reasonable advance of the market prices for fruit and vegetables, which are unusually low.

He also suggests that the same principle could be carried out in the purchase of shoes, underwear, clothing, etc.

WAR GRAVES IN FLANDERS ARE CREDIT TO BRITISH GOVERNMENT

Nothing Could Make Them More Beautiful Declares W B. Horkins of Toronto.

Campbellford Rotary Guest.

CAMPBELLFORD, Sept. 22.—(By Examiner Staff Correspondent.)—"I was amazed, happy and comforted," declared W. B. Horkins, yesterday's guest speaker at the Campbellford Rotary Club luncheon, when I stood in that British war cemetery south of Albert on the Perronne road and saw the grave of my brother side by side with his Imperial comrades, and the care and beauty that was being taken by the British War Graves Commission to make the resting place of our heroes a veritable rose garden."

Mr. Horkins, who is a son of Mr. and Mrs. T. J. Horkins of Campbellford and a Toronto lawyer, gave a splendid description of a trip taken this year to the battlefields of Flanders with the primary motive of visiting the grave of his brother, the late Captain R. E. Horkins, M.D., R.A.M.C., who was killed in action at Combles on the Somme in 1916 while attached to the 77th Royal Field Artillery.

Describing his trip from Montreal on the S. S. Montcalm, the point of landing was Cherbourg, where the speaker said that he experienced some difficulty with the currency. From there to Paris was the first stage of his European tour, where three days were spent in viewing the capital of France. Then on to Amiens, where he wandered on the Lisle tour to Albert.

"Albert, Mr. Horkins said was springing up from its ruin, for from '14 to '18 it har been the centre of much of the fierce fighting, with the Somme battlefields so close. Here he found a guide in the person of Captain Cockrel, an Imperial army officer who has served in the district during the whole of the world war. Under this capable guide he visited the British cemetery on the Perronne road, where his brother rests after his labor." This he described as a beauty spot of the first water. Surrounded by a stone fence clad with English ivy, a large marble cross surmounts the graves, facing the entrance to the cemetery and inscribed, 'Silence; respect those who made it possible for you to live."

Veritable Rose Garden

The graves, which are uniform, each bear a monument and are green with grass and covered with flowers, prevalent among which are roses, making the sacred spot a veritable rose garden. Mr. Horkins stated that he had no difficulty in finding the resting place of his brother. In the center of the cemetery there is a vault in which reposes a book recording the name, address and location of every man buried there. There were only two Canadians in this cemetery, he said, one was his brother and the other the son of the Rev. Mr. Hamilton of Brockville, and although these two heroes are not laying side by side they were killed with the same shell.

"It was a credit to the Old Land," declared Mr. Horkins, and made him feel proud he was British, to see the way the graves of thos who died for their country were looked after," and he felt that if Canadians who had lost dear ones in the world struggle could see the respect paid to them and the care that is taken with their last resting places, they would be proud as he was proud.

The speaker pointed out that only expert and experienced men are placed in charge of this work. The British Government took the greatest care in mapping out and taking blue prints of each section of the line during the war where soldiers were buried, with the result that

STORMS IN WEST TAKE ONE LIFE

Two Tornadoes Sweep Iowa Doing $100,000 in Property Damage.

SEVERAL INJURED.

CHICAGO, Ills., Sept. 22 (C.P.).—Paths of damaged property marked the course of pre-autumnal wind storms that struck in widely separated sections of the heat-stricken middle-west. One man was killed and a few persons were injured. The storms struck both Iowa and Wisconsin.

Hugh Whitford, who resided two miles north of Milton Junction, Wis., was the man killed. He met death when he and his mother attempted to get into the basement of their home to escape the fury of the onrushing wind. His mother was injured. Four other persons near Milton Junction were known to have been injured. Considerable property damage was done.

Iowa was the scene of two tornadoes. One of them, which swept across ten farms between Ainsworth and Crawfordsville, ten miles southeast of Washington, in the southwestern part of the State, caused property damage estimated at $100,000. One woman was injured. Two wagon loads of school children were in the path of the storm, but the driver of one unloaded his group before the wind struck. The other took refuge in a shed which was uncroofed without harm to the children.

After lifting a heavy safe through the fanlight of a baker's shop in Covent Garden, England, and opening it in a field several miles away, thieves found only $15.

28 Bushels To Acre Average In Alberta

EDMONTON, Alta., Sept. 22 — Estimating a wheat average for this province of 16½ bushels per acre, a general crop report issued by the Alberta Wheat Pool places the Edmonton district above all sections with an average of 28 bushels to the acre.

A feature of the report is the striking increase in coarse grains throughout Alberta with oats almost treble the figure of three years ago. The barley increase is nearly doubled. The provinces wheat production is estimated at slightly under that of 1930 with an estimated return of more than 118,000,000 this year as compared with slightly less than 125,000,000 a year ago.

BLAST SHAKES POLICE STATION

Windows Broken and Telephone Operators on Duty Hurled From Chairs.

BOMBING SUSPECTED.

MONTREAL Que., Sept. 22. (CP) Windows were blown in at 2.15 o'clock this morning by what was believed the explosion of a bomb outside police headquarters in the City Hall annex building, Champ de Mars street. The force of the explosion was such that telephone operators on duty at the headquarters station were thrown from their chairs and windows of houses on the opposite side of the street were shattered.

Just prior to the explosion there was a slight hissing noise, followed by a tremendous roar. The building shook and detectives asleep in the guardroom on the second floor of the building were awakened. Officers and men rushed to the windows, but all that was visible was a thin cloud of smoke.

PROFITEERING WILL BE TABOO

Treasury Issues Order Prohibiting Purchase of Foreign Exchange.

PRICES KEPT DOWN.

LONDON, Sept. 22. (AP)—Regulations under an emergency powers act, such as were effected at the time of the British general strike in 1926, will be enforced to prevent profiteering in food and an unwarranted rise in general retail prices, it was authoritatively learned to-day.

The treasury issued an order prohibiting until further notice the purchase of foreign exchange or transfer of funds by British subjects except for financing normal trade requirements for contracts existing before Sept. 21.

The order also exempts reasonable travelling expenses or personal purchases.

PRISONER WOUNDED IN BELLEVILLE CELL

Attack Made on Transient With Razor Blade is Alleged.

BELLEVILLE, Sept. 22—James Cullen, in an intoxicated condition, according to the police, became disorderly and molested Salvation Army members while they were conducting a service, and Constable Evans arrested him. There were several transients at the station, of their own accord for shelter. The men were in a group in the cell-room. One of these lodgers, it is believed, let Cullen out of his cell to join them. It was not long before the desk sergeant heard a commotion, and when he and Chief Kidd entered the cell-room, they alleged, they found Cullen assaulting a transient, Mike Levine, 46 years old, of Kingston. Cullen, it is alleged, had slashed Devine on the back of one hand and had cut him behind the ear. The injuries were dressed by Dr. Cronk, and Devine was able to leave the station yesterday. Cullen was searched before being locked in the cell, but the police say he carried a razor in a flat leather bag, suspended around his neck by a light leather cord, which was undetected. In City Police Court yesterday, Cullen was remanded in custody for one week.

For Old Sores

Even of Long Standing

"I had four large ulcer sores as big as a half dollar for two years, and Peterson's Ointment has healed them all and I am very glad to let anyone know all about your Ointment From a true friend, George Hempstalk." West Haven, Conn.

Peterson's Ointment quickly ends chafing, pimples, itching skin or sore feet. 50 cents a big box—all druggists.

British Pound Is Lower At Opening

NEW YORK, Sept. 22 (C.P.)—The British pound which fluctuated widely in the foreign exchange market yesterday, was slightly lower at the opening to-day, and was quoted nominally at $4.11, off 21 cents from the previous close. The quotation is for cable transfers.

The French franc was slightly higher at 3.94 cents against 3.92 yesterday.

BILL ABOLISHING GOLD STANDARD NOW IN EFFECT

Is Passed By Commons, Lords, Given Approval of King.

SNOWDEN GOES ON AIR.

Press Reports Hint at Move to Draft Laborites Into Ministry.

LONDON, Sept. 22. (AP)—Rushed through Parliament in record time and signed by a Royal Commission, the British Government's emergency measure suspending the gold standard went into effect today for a period of six months. The stock exchange was closed for the second day.

The House of Commons passed it just before closing time last night in spite of half-hearted attacks by Labor back-benchers and the House of Lords required only two minutes to give it the necessary three readings. The commission acted for the King who is in Scotland.

There was no division of the final vote but the Government won majorities of about 100 on successive closure motions. Labor Members opposed the bill chiefly on the grounds that economy measures already adopted were unnecessary if gold payments were suspended.

Snowden Urges Confidence

Rt. Hon. Philip Snowden, Chancellor of the Exchequer, who sponsored the measure, went on the air to assure the nation that the fall in the pound sterling would be limited and to invoke its confidence in the Government's ability to weather the crisis.

The consequences of the suspension, he said, are bound to be disagreeable. In some ways they may be serious but they will not be catastrophic. The pound will not go the way of the (post-war) franc or mark.

The British budget is now the most secretly balanced budget in the world. There is no longer any risk of an internal inflation and there are no longer any grounds for distrusting the essential soundness of our financial position.

He expressed regret at the plight of some foreigners who still have money deposited here and will be able to take it back—if they wish to take it back—in depreciated pounds, and will therefore suffer a loss in terms of their own currencies. We deplore that loss and have done all we can to avert it.

No Cause for Alarm

But for the great majority of our people in Great Britain there is no cause for alarm or panic. I want to say most emphatically there is

(Turn to Page 7, Please)

SEEK TO JOIN NATIONALISTS

(Continued from Page 1)

Rengo News Agency reported a Japanese military plane was shot down by Chinese troops 12 miles north of Mukden.

Bombs thrown at the rear of the Harbin Japanese consulate failed to explode, Rengo despatches said, but one entrance of a branch of the bank of Koreu at Harbin was damaged by explosives, as was a section of a building housing a Japanese newspaper.

Japanese residents of Harbin, totalling about 4,000 were panic-stricken, although Chinese police patrolled the streets of the Japanese quarter.

The bombings were credited to Chinese Communists.

Important questions of Japanese policy in Manchuria were still undecided last night, when an extraordinary meeting of the cabinet broke up, but formal announcement was made of the despatch of more Japanese troops into Manchuria from Korea.

Call to League

GENEVA, Sept. 22 (A.P.)—China called on the Council of the League of Nations to-day to intervene directly in the occupation of Manchuria, and Japan replied that the incident should be settled by negotiation between the two powers.

Alfred Sze, Chinese Minister to London, asserted that Japanese soldiers had seized Manchurian cities without provocation and demanded that the Council force Japan to withdraw and pay reparations to China.

Kemkichi Yoshizawa, Japanese spokesman, denied that Japan's action had been without provocation on the part of the Chinese and cited the alleged attack on the South Manchurian Railway. He contended that restoration of the status quo was a question for negotiation between the two powers.

Recalls Rights

He recalled that Japan has rights in Manchuria guaranteed by numerous treaties and said that the Chinese had often been guilty of destructive acts. Japanese dead and wounded disproved Chinese claims to non-resistance, he said, and there were many evidences that the Chinese were seeking to deprive Japanese of their rights to Manchuria.

Chinese demands for reparations are incomprehensible since incident was due to Chinese troops, he continued. We will do nothing to aggravate the situation, which is based on a local incident.

Japan is not making war on the Chinese Republic. The affair should be settled by direct negotiation between the two Governments. Intervention by the League prematurely would further inflame public opinion in my country, which is already over excited.

Invitation To Laval Pleases French Press

PARIS, Sept. 22 (A.P.)—Premier Laval's tentative invitation to visit President Hoover in Washington was welcomed in the press to-day, and it was taken for granted that he would accept forthwith.

Expressing the general sentiment, the widely-read Petit Parisien said: "If no capital reason arising from his duties as head of the French Government retains him in Paris it seems very difficult for Pierre Laval to refuse to respond to the appeal, so flattering both for himself and his country, and to abstain from an interview which is likely to be so rich in consequence and of such national and international interest."

SPEND $8,000 ON SEWERAGE CONSTRUCTION ON RELIEF PLAN

Action Decided by Campbellford Council Providing No Objections Raised.

PREPARE WORK PLAN.

CAMPBELLFORD, Sept. 22. (By Examiner Staff Correspondent). — Providing no objections are raised by the ratepayers of the town approximately $8,000 will be expended this fall by the town of Campbellford for water and sewage work to be done in connection with the government unemployment relief scheme under the Local Improvement Act. This decision was reached last evening at a special meeting of the council held in the clerk's office with all members present Mayor J. M. Bygott presiding.

The council went into a lengthy discussion on the question of work to be done and the methods to be employed. The Clerk read a communication from J. A. Ellis, secretary of the relief fund stating that the same privileges would be given the municipalities this year as last, namely, that the government would bear fifty per cent of the cost of work under this scheme.

This was felt to be acceptable by the council and it was decided to undertake certain work in the town after the necessary procedure of advertising the work and the approval of the plans by the Railway Municipal Board, had been followed.

Bringing the matter to a head it was moved by Councillor F. Long and seconded by Councillor E. C. McKeel that a vote of two thirds of the council present declare that it is desirable that the construction of water and sewer mains and water mains be undertaken as they feel it is an improvement under the Local Improvement Act. This work will consist of a water main on Portage street, 1,500 feet, going north; a sewer and water main on Raglan street 266 feet, north from Sebastopol street to Mrs. Hollings' property; a water main extension south on Naseby street 1450 feet from Market street; a water main on the Havelock road from the corner of Church street to the corporation boundy and a sewer and water main on Front street from Mrs. Smith's, lot 13, to the trunk sewer on River street, 300 feet. This motion was carried unanimously.

Prepare Plans

Following this, the town engineer was instructed to prepare plans for insertion in the press and if not set aside these will be submitted to the Railway and Municipal Board for approval. This motion passed.

Deputy Reeve N. Alex MacColl reported regarding the work on Highway 30, stating that the Deputy Minister had approved the spending of $10,000 on the Campbellford section of this road, this money to be spent mostly on local labor. Arrangements were being completed with the Raynor Construction Company to commence this work shortly.

At the request of the chairman of the Board of Education, T. E. Hall, who addressed the council, Reeve N. J. Stone and Deputy Reeve MacColl were appointed delegates with the representatives from the Seymour Council to approach the Road Commission of the Counties Council requesting the keeping of the roads in the township open during the winter months to enable the school busses to run.

On th request of Mayor Bygott the Campbellford Branch No. 103 Canadian Legion was given the privilege of using the intersection of Front and Mill streets for its street fair on October 1.

The Water and Light Commission Board was also given the privilege of renting part of the old Town Hall as a place for the government meter tester to work in and also as a store for the commission. They reserved the right, however, to use part of the building as a polling booth.

The Road and Bridge Committee was given the power to act regarding two minor drain repairs, and a notice of claim against the town by John Nancarrow for damage to the person of his wife when she fell on the sidewalk on September 15 and injured herself, was referred to the representative of the Globe Indemnity Company.

Dollar Exchange Set at 92½ Cents

NEW YORK, Sept. 22 (C.P.)—The Canadian dollar lost ½ cent in initial transactions today on New York foreign exchange markets, reaching a new low for the present movement of 92½ cents.

BUILDING FALLS 2 BURIED ALIVE

Several Injured in Crash Occuring While Apartment Occupants Sleep.

BODIES RECOVERED.

PHILADELPHIA, Pa., Sept. 22.—Two men were buried alive and several other persons, who narrowly missed a similar fate, were injured early to-day when a two-storey twin apartment structure crashed into ruins at 4309-11 Walnut street.

The bodies of the dead, one of whom gave his life in attempting to save the other, were recovered five hours after the cave-in, which occurred at 1.30 while most of the residents of the apartments were asleep.

VICE-REGAL CHRISTENING SET FOR TO-DAY IN OTTAWA CHURCH

Over 400 Guests, Including Premier, Cabinet and Senate Are Invited.

SECOND SIMILAR OCCASION

OTTAWA, Ont., September 22 (C.P.). — In the little Church of St. Bartholomew, where Governors-General of Canada have worshipped since Confederation, and where the first Viceregal christening in Ottawa took place over fifty years ago, the infant son of the Governor-General of Canada and Lady Bessborough will be baptized this afternoon at four o'clock.

His Majesty the King, godfather of the child, will be represented by Rt. Hon. Sir Robert Borden, former Prime Minister of Canada. Lady Clark, wife of the British High Commissioner, will stand for Mrs Arthur James, of Cotton House, Rugby; Hon. Mrs. Lascelles, wife of the private secretary to His Excellency, for Mrs. Neville Flower, sister-in-law of Lord Bessborough; and Lord Duncannon, elder brother of the infant for Lord Stanley, eldest son of the Earl of Derby. The ceremony will be performed by His Lordship, the Rt. Rev. J. C. Roper, Bishop of Ottawa, and Rev. J. H. Dixon, rector of the church.

First Event in 1875.

The first and only other christening of a child of a Governor-General in Ottawa took place in the same church on April 11, 1875. Frederick Temple, fourth son of the Earl and Countess of Dufferin, and the second of their children to be born in Canada, was baptized there on that day.

The name selected for the infant who is five weeks and three days old to-day, is George St. Lawrence Neufize. George commemorates His Majesty, who expressed a desire to be godfather as soon as he heard of the child's birth; St. Lawrence was chosen by Their Excellencies because of a wish to bestow the child with a distinctly Canadian name, and the mighty St. Lawrence River flows past the city where he was born. Neufize is the family name of his mother, who was the daughter of Baron de Neufize of France.

Some four hundred guests, including Prime Minister R. B. Bennett, members of the Cabinet, the Senate, and of the House of Commons who are in Ottawa, and of the Diplomatic Corps, will be present at the ceremony.

Jack's Reno Divorce Nothing To Estelle

CHICAGO, Ills., Sept. 22 (C.P.)—Estelle Taylor maintains she is still Mrs. Jack Dempsey.

Although the former heavyweight fighter of the world obtained a divorce from her at Reno yesterday, she said she would not recognize it and accused Dempsey of poor sportsmanship.

Jack may feel very free at this moment, she said yesterday, but until the California courts, where we both maintain our residences, declare me free, I shall still call myself Mrs. Jack Dempsey.

Miss Mary James of Alliston was a guest at the wedding of her sister, Miss Helen James, and Captain Massey-Cooke.

• • •

Mr. H. Matthias Turton of Toronto, visiting organist at George Street United Church last night, was entertained, with the assisting artists on the program, by Mr. and Mrs. D. R. Howat, at their home last evening. Mr. Turton is a native of Leeds, England. He was organist and choirmaster of Christ Church, Armley (Leeds) from 1898 to 1902, and of St. Aidan's Church, Leeds, from 1902 to 1923. He was founder and conductor of the Leeds New Choral Society, 1902-1923. This society became one of the important choral bodies of the North of England, with a membership of 225. Mr. Turton also organized and conducted for some years an amateur orchestra of 75 players. At St. Aidan's Church, he instituted a series of organ recitals, the importance of which became widely recognized. In this series the great organ symphonies of Louis Vierne (three of whose composition appeared on last night's program) received their first performance in England. Mr. Turton came to Canada in 1923, and to Toronto (as organist at Walmer Road Baptist Church) in 1928.

• • •

Mr. William Roberts, the genial caretaker of The Examiner, who is ill at his home at the present time, is ecelebrating a birthday anniversary to-day.

• • •

Mr and Mrs. R. Perry and family, of St. Catharines, have returned to their home after spending two weeks' vacation with Mrs. Perry's mother, Mrs. R. McGill Hood of Aylmer Street.

Mr. Ernest Greene of Reydon Manor, Lakefield, has returned from New York City, where he attended the inauguration of the new official system of bridge. The convention was attended by over five hundred teachers of bridge, from all over the world. Mr. Greene and his partner from Washington finished third in the duplicate tournament.

• • •

Under the auspices of the Caledonian Club a successful whist drive was held last Friday in the Woodmen of the World Hall. Nine tables of cards were played, followed afterwards with a service of refreshments and a few dances. The lucky prize-winners were: Ladies, first Mrs. W. Petrie, second Mrs. A. Stevenson. Gents, first Mr. R. Graham, second Mr. R. Murphy. For next Friday the members are to hold a social evening.

No doubt you, as a homemaker, know that toast is one of the most tempting and appetizing ways of serving bread.

• • • • • • •

It is so easy to make good toast that it would seem that it should always be just right.

• • • • • • •

Yet, because it is so easy, it is apt to be slighted, and very little perfect toast is made. The one essential to making good toast is watchfulness.

• • • • • • •

It has to be turned and taken off the toaster at just the right second, or it will be underdone or burned.

• • • • • • •

One lad expressed it well when he said: "To make toast you put slices of bread on the toaster, and take them off and scrape and scrape and scrape them."

• • • • • • •

Those who have to scrape toast often will be glad to know of any easy way of doing it to restore it to the delicate brown it should have been.

• • • • • • •

Use a grater.

• • • • • • •

If the toast is made on the table, have a plate by the toaster, and a nice looking small grater on it. The grater will not make the particles fly about as does scraping with a knife, and an evener brown results.

• • • • • • •

This simple remedy restores the dainty look to toast if one fails to give the process the needed care and watchfulness.

• • • • • • •

A little aid in keeping bread from molding may prove as helpful to some other homemakers.

• • • • • • •

Hold the loaf over the flames from a gas or oil-burner cookstove. Dry out the crusts all round. This will seal in the moisture and the inside of the loaf will remain moist, while the outside will not mold easily.

• • • • • • •

Be sure not to keep the bread too long over the heat or the moisture will be drawn from the inside of the loaf. Keep turning the loaf while slightly searing it, for thus the crust will not be burnt, merely browned slightly more than it is before this process is used.

Indigestion Pains Tortured Me Years Entirely Gone Now

Feel 10 Years Younger Eat Anything. Thanks to "FRUIT-A-TIVES"

"I had been tortured with Indigestion, terrible Headaches, Dizzy spells and Constipation for years and could get no relief. Finally I took 'Fruit-a-tives' and all my troubles quickly disappeared. I feel 10 years younger and cannot express myself enough in recommending 'Fruit-a-tives'"—Mrs. A Lapointe, E Cornwall, Ont.

Thousands of Canadians praise "Fruit-a-tives" as quickest, surest relief from stomach pains, constipation, bilious headaches, dizziness, nervousness. Why? This famous Canadian doctor's discovery, combines 6 of the finest herbal tonics with a special secret extract of apples oranges, prunes and figs—Nature's own remedies to make and keep you well. No harmful drugs.

For new health, vigor quick, get "Fruit-a-tives" from druggist today. Results guaranteed or money promptly refunded.

BOARD DISCUSSES FUTURE ACTIVITIES

Sunday School Rally Planned for Friday, September 25th.

At a recent meeting of the Girls' Work Board of the city in the Y.W.C.A. Fall and Winter activities were discussed. Since all churches were not represented, it was decided to leave more definite arrangement for inter-church activities until a later meeting to see if other churches wished to have a share in the work.

The board is looking forward to a Girls' Council being formed in the near future as well as bringing to the city this winter several outstanding leaders in girls' work.

A rally for all girls attending any Sunday school was planned for Friday evening, Sept. 25. This rally to be held in the Y.W.C.A. and admission free. Reports from girls' camps will be given. There will be a sing-song, games and a good time for all.

On the last Wednesday of this month, there is to be another meeting of the Girls' Work Board when plans will be decided upon and it is hoped each Sunday school in the city will be represented at this meeting.

The Girls' Work Board is functioning in the interest of girls in the city and needs the support of the Sunday schools and churches.

Miss Brownshcombe, president of the board, presented the account from the local camp this summer. This account was adopted and a vote of thanks moved.

After a short social time, the meeting closed, but before closing Mrs. (Rev.) Daniels of Mark Street, was extended a hearty welcome to the Board.

NEIGHBORS TALK

"I am employed in a theatre and it is a problem to make ends meet, as I help support my mother and sisters. I like to dress well but haven't very much to spend on clothes. To give the appearance of variety to my slender wardrobe I change the color of a dress or stockings as soon as the things become faded. I always use Diamond Dyes for the work—using them as dyes for dresses and as tints for stockings. I have always gotten such perfect results that our neighbors talk about the great number of new things I have.

"I learned about Diamond Dyes from our wardrobe mistress. She says she has tried all the dyes on the market but none do such splendid work and are so easy to use as Diamond Dyes. I understand they are the worlds most popular dyes—and they deserve to be."

ORGAN RECITAL BY H. M. TURTON MOST PLEASING

Organist of Walmer Road Baptist Church, Toronto, Gives a Delightful Program.

MOST SUCCESSFUL.

(By Jeanette.)

The second organ recital in George Street United Church designed to demonstrate the powers of their new instrument to the people of the church and their friends, held last evening, was fully as successful as the first of the series, held last week. Last night, H. Matthias Turton, organist at Walmer Road Baptist Church in Toronto, played a pleasing recital that was at once grilliant and scholarly. Covering a wide range from the works of the classicists, Bach and Wagner, to the compositions of many of the moderns, the list of pieces chosen showed a strong liking for the music of the colorful and lightly dramatic French composers. Debussy, Bonnet, Louis Vierne, all had a place, selections by the two last-named being dedicated to Mr. Turton himself.

Possessed of a forceful and virile musicianship that displays itself equally well in soft-ton ', minor melodies and in brilliant, wonderful diapasons of majestic sound, Mr. Turton's music was at once scholarly and dashing. His first and last selections showed a decided flair for compositions that combine gorgeous outbursts of massive sound with a delicate and sure touch.

Assisting in the program were Mrs. Mars Westington, soprano, and Deane Miner, violinist, while their accompaniments were played by D. R. Howat.

Mrs. Westington sang very beautifully, in the powerful, soaring cadences of her fresh, vibrant voice, the favorite composition by Oley Speaks, "Morning," and returned at the close to acknowledge the renewed applause of her audience.

Mr. Miner gave a notable demonstration of his expert ability as a violinist in two numbers: an extraordinarily difficult selection, a Bach Sonata in G minor, played without accompaniment, that called for constant double-stopping and exacted a great deal from the memory, also Cesar Franck's Sonata Allegretto pocco mosso, with an outstanding thread of pure, fine, golden music on the E string. The cantabile quality of that temperamental member of the violin string family was outstanding in this selection, when one remembers the effect that thunderous weather like that of last evening has on these sensitive gut strings.

Organ Music.

From his opening number, Mr. Turton chose a composition by Basil Harwood that was just like its name of "Paean." In a bold, free vigorous treatment of music that had a swift commencement and a sudden finale, there was a triumphal outburst of smooth, exultant tone, with varied tempo and complex harmonies.

The concluding number on the program was that superb and unforgettable "Ride of the Valkyries" from Wagner's "Niebelungen Ring." This organ arrangement by Edwin H. Lemare, simulating the marvels of a hundred-piece orchestra, was a marvellous thing that brought the listeners, figuratively speaking, to a fired attention. Vivid, vital, almost overpowering in its grandeur of instrumentation, it simulated the ride of those mythical and warlike maidens of the North, who conduct the souls of heroes slain in battle to Valhalla and there minister to them. In it was the clash of the feet of those legendary mighty steeds, sweeping on through storm and thunder that pealed louder to a superb finale. It was marvellously played.

In between these outstanding numbers were the varied works of the moderns and also a Prelude and Fugue in A minor by Bach, the master organist. In it, a massive yet delicate theme mounted ever on and up with a thunderous undertone that subsided in a long finale.

An Introduction and Fugue in E flat, by William Russell, who died in the first years of the nineteenth century, was another earlier piece of work, which brought applause for its masterly handling of difficult forte passages.

Debussy's delicate and spontaneous melodies had a dual place on the program, in the murmurous daintiness of a Minuet and the recurrent minor phrasing of "Cortege."

Two brief morceaux of sweet tone were those of Bonnet and Louis Vierne, both dedicated to the player. They were entitled "Ariel," a lightly fantastic thing that was the outcome of a study of Shakespeare's "Tempest," and "Aubade," a delicate, impressionistic sketch of dawn-music.

Just as the brief sweetness of Palmgren's "Rococo" charmed Dr. Fricker's audience last week, so a bit by Manuel de Falla, a composer of the modern Spanish school, fascinated the listeners of last night. It was "Recit du Pecheur" (The Fisherman's Song) with sweet, echoing bells as a motif for its brief softness.

There was much applause for Stravinsky's "Ronde des Princesses" from the "Fire-Bird" Suite, dreamy, quiet music that softened to a long and peaceful finale, also for the duo of compositions by Louis Vierne. There were entitled "Allegro Risoluto," a strange thing with subterranean rumblings of mighty sound that mounted to a finely wrought melody in the upper range, and "Cantilene," a tone tapestry of varying color and mood.

As an encore to the playing of "The Ride of the Valkyries," Mr. Turton gave an extempore composition that wound finally through the resounding music of "O Canada" and ended with the strains of the National Anthem.

1,000 VOLTS PROVE FATAL.

KITCHENER, Ont., Sept. 22. — (C.P.)—For nearly five hours last night, doctors, firemen and police worked over Frank Bowan, local Public Utilities Commission employee, in an effort to resuscitate him after he had come in contact with a 1,000 volt charge while changing bulbs on a Park street post. But the battle was a losing one. At about 9.15 o'clock last night Bowman died.

The Bread with the *extra* Sunshine Vitamin-D *you need*

Made under license from and guaranteed by the PAEDIATRIC RESEARCH FOUNDATION

The Paediatric Research Foundation of Toronto has conferred upon the bakers of Vitos Bread the right to make Sunshine Vitamin-D available to the public in bread.

These scientists authorize the statement that one to two slices of Vitos Bread with each meal will give you the *extra* Sunshine Vitamin-D you need. The Paediatric Research Foundation declares:

"We assume the responsibility continuously to analyze the product to insure and guarantee that all such loaves made shall supply said vital food element (Sunshine Vitamin-D) to the degree that our research has proved to be adequate and efficacious."

In buying bread purporting to contain Sunshine Vitamin-D, make sure that it is made under license from and guaranteed by the Paediatric Research Foundation of Toronto.

VITAMIN-D, known as the Sunshine Vitamin, is a vital food element. Good health, proper growth, sound teeth and strong bones depend upon *plenty* of this food essential.

Until recently the only sources of Vitamin-D were the sun itself, artificial sun-lamps and medicines. For practically no foods contain Vitamin-D in useful quantities, although all the other vitamins are plentiful in the average diet.

Now modern science has perfected a process of incorporating this vital food element in bread—the staple food in every household.

Vitos Bread, made under license from and guaranteed by the Paediatric Research Foundation, now brings to your home the priceless benefit of Sunshine Vitamin-D.

Think what this means to your children!—shut out from outdoor sunshine with the opening of the schools.

Make sure your family—particularly the children—enjoy the health advantages of Vitos Bread. The Paediatric Research Foundation is authority for the statement that "One to two slices with each meal will give them the *extra* Sunshine Vitamin-D required".

TUESDAY SEPTEMBER 22, 1931

PROTECTING THE CHILDREN.

Attention is called to the fact that the annual campaign against diphtheria is being carried on in Peterborough this week, and that Dr. A. W. McPherson, the school medical officer of health, has made arrangements to innoculate school children and also youngsters of pre-school age against the once-dreaded disease that has been effectively brought under control by medical science.

Since Dr. McPherson began this work some years ago some 4,000 children have been protected against diphtheria, with such complete success that the city has escaped anything like an epidemic of the disease, and there have been no cases at all among those who received the immunizing treatment.

In the face of a record like that there should be no hesitation on the part of parents of young children in taking advantage of this week's campaign to protect their little ones agains a serious disease.

The treatment is provided without any charge and is available not only to children attending school who have not yet been immunized but to those not old enough to go to school.

The work of innoculation will commence on Thursday, and parents should consult the schedule which was published in last evening's Examiner.

Diphtheria can be completely stamped out by a general response to this opportunity.

THE HEALTH ASSOCIATION.

While a number of donations have been received by the Peterborough Health Association, the total contributed so far falls considerably short of the modest sum necessary to provide for the field activities of the organization during the year.

There probably has never been a time in the city's history when the work of such a body as the Health Association has been more needed than the present, and it is obvious that during the winter that lies ahead the calls for the assistance of the association will show a consistent increase.

Naturally when family incomes have been sadly reduced and in many cases have ceased to exist, sickness, always an economic loss, becomes decidedly more serious.

With no money to pay for the foods that invalids should have or for the nursing service that is often required, many a family would be in a most distressing plight were not the Health Association standing by ready to come to its assistance, not only with its nurse, but with milk and eggs and other nutriment.

No other agency is in such a position to supply instant service and when it is needed, and it would be a tragedy if some of the activities of the association had to be curtailed this winter because of lack of funds.

Your donation will be gratefully received.

MORE TAXATION.

There will be no cheering at the intimation from Hon. E. A. Dunlop, Provincial Treasurer, that new taxes for the people of Ontario are just around the corner.

Mr. Dunlop has not gone into details, except to declare that the present gasoline tax will not be increased, but he leaves no doubt of the intention of the Government to seek new avenues of taxation in order to keep pace with the mounting expenditures.

This prediction will occasion little joy throughout Ontario.

The pressure of taxation is so excessive at the present time that any hint of an increased burden is likely to seem like the last straw to a good many people, who are finding it almost impossible to carry the load.

Apparently faced with the alternative of slashing expenditures or increasing taxation, the Government has chosen the latter, and perhaps the people themselves are to blame for the choice, inasmuch as they are always more ready to demand additional services of their Governments than they are to urge that expenditures should be cut down.

Someone has said that until there are more deputations waiting upon the Government demanding that money be saved than there are delegations asking for new expenditures to be undertaken, there will be little hope of tax reductions.

The truth of that statement is seen in the announcement that Queen's Park is going out after fresh sources of revenue.

THE CRISIS IN BRITAIN.

It will be some time before it will be possible to gauge the effect of the abandonment of the gold standard by Great Britain, and to decide whether or not the approval with which the action of the Government was hailed by the British press was justified.

However, there does not seem any doubt of the fact that the National Government had no choice in the matter.

With gold being withdrawn in unheard of quantities for foreign accounts and the international financial markets demoralized, there was nothing left, as Premier MacDonald pointed out in his statement, but "to protect the financial position of this country by the only means at our disposal."

Admittedly, the crisis is the most serious the people of Britain have had to face since the Great War, and the suspension of the gold standard will cause repercussions throughout the world, but the British ability to remain calm when confronted by an emergency and the British way of surmounting all obstacles will see the thing through.

"If the nation remains steady and united we shall pull through all right," is Lloyd George's view of the situation, and it is typical of the British attitude generally.

A way out will be found unless all British tradition is to be shattered by this new crisis.

A BASKET OF POTATOES.

Consider the case of a six-quart basket of potatoes. A farmer laid them on the kitchen table and said the price would be 15 cents. He was anxious to get rid of what he had in the car because he had to drive about 12 miles to get home and there were a few things to attend to before he was through for the night.

They were good looking potatoes, too; they were clean as one could desire, thin-skinned and almost entirely free from blemish. And yet the return to the producer was 15 cents, and he also admitted that the basket cost him three cents. That brought his cash return down to 12 cents for a six-quart basket.

He had some other produce along, too, such as eggs and butter, but for the present let's look at this basket of potatoes.

In the spring the farmer had to get the ground ready; he had to cut his seed potatoes and plant them. After a bit we suppose he'd have to sprinkle the tops with paris green to kill the bugs, and then he'd have to use a horse-drawn contrivance or a hoe to hill them up. Then a few days back we suppose he dug them up, and had to provide baskets or sacks to hold them. On top of that he had to buy gas to make his car go, and we suppose his car uses oil and wears out tires just the same as any other car.

And yet all the cash he got was 15 cents for that nice looking basket of potatoes. By the time he charged all the expenses against the production of his potatoes he'd be out of pocket. He was actually bringing in his produce and selling it for less than it had cost him to produce it.

Something more to it. That farmer's buying power to-day is hedged about by his returns from that basket of potatoes. It is hedged about also by the low price he got for his butter and eggs. By the time he got home at night he wouldn't have much cash in his pocket—not nearly as much as he would at the prices paid a couple of years ago.

Not having as much, it stands to reason he couldn't spend as much. That fact is painfully apparent.

We talk a good deal about the farmer and his problems, but the thing seemed more naked and apparent when looking at that basket of potatoes for which the farmer got 15 cents, less 3 cents for the basket, less his cost of production and delivery, to say nothing of being paid for his work during the period of growth and production.

Perhaps you think your own line of business is not particularly brisk just now, and you may be able to show where it has fallen off considerably.

If you are inclined to feel too sorry with and for yourself, just consider for a moment that basket of potatoes.—Stratford Beacon-Herald.

THE CHILDREN OF THE JOBLESS.

An ancient Egyptian Pharaoh threw the first-born of Israel's tribe into the Nile in a search for Moses. Herod put the eldest sons of his subjects to the sword, hoping thus to kill the boy Jesus. In certain parts of China, they used to drown the girls, to keep down population.

Such atrocities cause a shudder of horror to-day. The modern civilized person is appalled at them. For to-day the race has learned that its immediate future depends on the children.

And yet to-day in the homes of North America's seven million unemployed and in the homes of the civilized world's fifteen to twenty million unemployed, young men and young women anxious to work are facing the world unfitted for competitive work. In many countries those young men and women have never secured work and at present prospects they never will secure work.

It is not so bad as that in Canada. But take the case—and there are thousands—of fathers who have been out of work for the last two years, whose children have entered the working age in that time. Has Canada considered them as she must consider them if she has an eye on to-morrow.

Have Canada's leaders evolved a national plan embracing the Peace River, the Beauharnois, the systematic promotion of the mines and farms and factories through production and market research? Will Canada's stop-gap methods of to-day serve the children of to-morrow? Is Canada, by a national advertising plan of a million or two million dollars a year, bringing in the extra hundred or two hundred million dollars a year that she could bring in tourist revenue, to the businesses and the payrolls of Canadian workmen and to the stomachs and the teaching of those workmen's children?

Canada, with half a million workers unemployed, must provide work for those men so that they in turn can feed their families. But it must be more than mere day-to-day jobs. It must be productive work on constructive projects. She has the natural advantages all on her side. She is potentially one of the world's greatest nations. There is no need for want, no need to force the children of her jobless forever into the legion of the unwanted.

Canada wants those children to take their place in the world's picture of progress, and she must prepare them for it. Throwing them into the Nile of physical and mental unfitness will not do it. Putting them to the sword of a hopeless handicap will not do it.

But national, common-sense planning WILL do it.—Vancouver Sun.

EDITORIAL NOTES AND COMMENT.

Another British crisis. But once more British courage and determination will win the day.

The second highest attendance in its history in a year of business and agricultural depression indicates the Peterborough Industrial Exhibition has firmly established itself in the good opinion of the people of Central Ontario.

Peterborough's relief work is under way. It should be a source of assistance to many who have been without jobs for some time.

Britain's abandonment of the gold standard may turn out to be a blessing in disguise. At all events it was inevitable.

It is worthy of note that it is the horse and not the motor car that continues to win the prizes at the fall fairs.

Plans are well advanced for next month's plowing matches, the greatest event of the kind this district has ever staged.

A woman may concede that other husbands are as good as hers, but no other can compare with her dentist.—Robert Quillen.

(Continued from yesterday.)

"Fabia! Fabia! Is that you Fabia?" June's voice calling from above.

"Yes. I'm here. I'm home."

"She's home, mother."

"You'd better go upstairs to your mother immediately," said her father.

Fabia met her mother at the top of the stairs. She recognized that expression of flushed self-control.

"I'm sorry, mother. I thought—"

"Never mind now. We must hurry. June you telephone the Boyntons that Fabia will be a little late."

"Isn't it possible—can't you telephone that I can't go to the dinner mother?"

"No, it isn't possible now, Fabia. Come to your room quickly."

"It doesn't seem as if I could get all dressed up and go to a dinner to-night, mother."

"I know. You must be very tired. You ought to have been resting to-day. We will see to it hereafter. I don't believe you had better go on to the dance after the dinner, but you can't disappoint a dinner hostess at this hour. June, please tell McKay to be at the front door at twenty minutes to eight o'clock. And tell him he is to call for Fabia at eleven and bring her home. Then go downstairs and start dinner with father. I'll be down as soon as possible."

INSTALMENT 12

At eight-twenty Fabia in a gown she had never worn before, with nothing over her shoulders but narrow straps of rhinestones, and cut so low in the back it had been necessary to perform an operation on her brassiere, at the eleventh hour, was standing in the Boynton's drawing-room feeling more exposed than ever in her life before. This dress was much lower than the silver one of last night. Fabia was used to abbreviated bathing suits, but it was different under a roof, in a drawing-room, surrounding by much fine needle-point, and a lot of strangers.

There were many mirrors in the Boynton drawing-room. Fabia saw bare arms and backs swarming around her on all sides. Whether the bare arms and backs were her own or not, she wasn't sure, but she felt as if all the nakedness in the room was hers, and that she must carry it off with no trace of self-consciousness. She did hope the eleventh-hour operation was holding well, and that the narrow rhinestone bands over her shoulders still concealed her brassiere-straps.

Fabia had not eaten anything since her breakfast. Her head ached slightly, and she was aware of a queer, light, floating feeling, as if she had slipped out of her body, which still remained on terra firma, and was above it, looking down. It seemed to her as if the reflection opposite her, which was undeniably hers, belonged to somebody she knew hardly better than the other girls around her, none of whom she could call by name.

Almost immediately after Fabia arrived, a butler appeared with a trayful of cocktail glasses filled to the brim. He offered the tray to Fabia first, as she stood nearest the door. Fabia had never been offered a trayful of cocktail glasses before. She hesitated. Her mother had told her she thought it would be better taste to refuse cocktails—anyway, for the time being, just out of school as she was, and in view of Grandmother Vale's attitude. But would it not be awkward if she were the only girl to-night to refuse? She took a glass, holding it gingerly as if it might explode. But she needn't have felt any hesitation. Several of the girls refused cocktails. Several of the boys, too. It was the same with the cigarettes. Fabia had never learned to manipulate a cigarette with confidence. She felt sure she couldn't manage it while holding a cock-tail glass. Her refusal of the cigarette, however, caused no embarrassment. Some smoked, some didn't. Cocktails and cigarettes were regarded casually, it appeared, by these young people.

Both Mr. and Mrs. Boynton received their daughter's guests (there were eighteen in all), but when the party moved on into the dining-room, Mr. and Mrs. Boynton disappeared.

Fabia had not drunk her cocktail. One swallow had been sufficient. It tasted exactly like all the cocktails she had ever sampled. Her father served cocktails when there were dinner guests in spite of Grandmother Vale's attitude, but he served them sparingly, and only because it seemed necessary as a convention. Fabia and June had often stolen into the deserted living-room after the guests had moved out to dinner, to find out what the stuff Grandmother Vale thought so wicked tasted like. Like paregoric, Fabia thought. She hated it. Like rosewater and glycerine, June said, and pretented to want more.

It was fortunate Fabia disliked the taste of cocktails, for she was ignorant of the effect of them on an empty stomach. A tall, blond boy, with a bad complexion, had finished Fabia's cocktail on top of two of his own. It made him very talkative. Fabia was glad of that. He sat on one side of her at the table, and she didn't have to make any effort at all. Just listen and laugh a little. His conversation was punctuated with "gee's," and "goshes," and his favorite adjectives were "nifty," "swell," and "rotten." He'd had a swell time a Fabia's dance. It was a nifty party. A knock-out. But say, did she go to the Pendleton dance last week in Hamilton? Gosh! Lousy! A perfect flop. And was she at tea this afternoon? No? Well be thankful. Rotten. All cluttered up with old women. He was going to cut out teas after this.

This young man, however, lasted only fifteen minutes. The girl on his other side—a girl with a laugh that was high and infectious—commanded his attention for the entire rest of the meal. This left Fabia stranded for one hour and twenty-five mintues with a big, dark, bovine-looking boy on her other side, with a perfect complexion, but unresourceful in conversation. In twenty minutes Fabia had exhausted all six of the subjects June had said were possibilities in a case of desperate necessity. Automobiles; he didn't drive one. Airplanes; he had never taken a flight. Dude-ranches; he'd never been west of Chicago. Athletic activities; he had a weak heart. Last summer's activities; tutoring at the "Widow's." Good shows lately seen; none.

She drank frequent sips of water to cover up her ill-at-easeness, and ate many nuts, hoping the others at the table were not observing her. Strange that this big harmless boy could reduce her to such a state of helplessness. She left resentful towards him.

The bovine boy became an entirely different creature in the drawing-room, however. To Fabia's chagrin, in the company of the girl with the infectious laugh, he was actually vivacious. They occupied a sofa together and she fed him bits of the soft filling of a chocolate-cream, which she dug out with the handle of an after-dinner coffee-spoon. She put a little on his cheek and made him get it with his tongue. It amused him terrifically. As Fabia observed them, she saw already the handwriting on the wall. She would never be a social success. Oh, why not avoid a long-drawn-out demonstration of her failure? How was she to endure a whole season of evenings such as this, to be followed by worse ordeals in a ballroom?

Fabia was observing the chocolate-cream operation from an armchair which she had selected when she had entered the drawing-room because it was remote. Suddenly she was conscious that one of the boys was approaching.

"You don't remember me," he said; "I thought Iwas making an impression at your dance last night, but evidently I didn't even make a dent. You've given me the icy stare all evening."

"I'm sorry," said Fabia. "What is your name?"

"Well, at least you're honest with me. So I'll be with you. Haverford is my name."

"Oh, really? How funny!"

"Why funny?"

"Because I've been talking about you to-day!"

"Oh, you're doing better now."

"I know now perfectly well that you danced with me last night more than once."

"And how did you discover that?"

"Somebody told me you did."

"Somebody told you I did! Say, that's good!"

Fabia flushed. How tactless she had been.

"I'm sorry," she said, and shrugged. Oh, if he would only go! If only McKay would come! The maids were beginning to set up card tables. Fabia stood up. Her chair was in the way.

"I suppose," said young Haverford, "you are engaged for supper to-night?"

Fabia gave him one of her rare smiles. How nice of him when she had just been so clumsy! "I'm sorry, but I'm not going to the dance."

"Why not?"

"My mother said I needn't to-night." She stopped. How childish to tell him that—as if she were still in the nursery.

"Don't you want to go?"

"No, I don't," she said bluntly. "I don't think I shall like the dances."

AN ENNISMORE REQUEST.

To the Editor of The Examiner.

Dear sir:

When so much money is being spent by the government on roads and other public works to provide employment at this time, surely the needs of a bridge across Chemong Lake would receive favorable attention. This subject has been mentioned often, and we have been living in hope that the government would build the permanent bridge which is so important a link between our township and the north country generally on the one hand and the city of Peterborough and the southern townships on the other. At the present time there are many farmers who would be glad of the work which a new bridge would provide. They would be engaged in drawing material for long fills which I think would be a large part of a new means of crossing the lake. This work could be done in the fall and winter when farmers are not busy, and at present prices the cost would be much lower than a few years ago when there was a strong agitation throughout the country for a new bridge.

The township of Ennismore has received the support of the county and city. We are a part of the county and our people desire to do their trading and business in Peterborough when they have done business for a hundred years. Surely we have waited patiently long enough for this improvement which is needed more today than ever. One reason is because the old bridge cannot last much longer, and another is that our farmers are faced with a lot of difficulties apart altogether from being cut off from the city and the rest of the county, which would mean a very long haul around the head of the lake and probably going to Omemee to ship produce and buy their goods there.

If the government would look carefully into this matter I think they would find the cost much lower than was estimated a few years ago. Labor is cheaper, and the filling of approaches and spans would cost a great deal less. And besides it would provide employment which would be a benefit to many people on both sides of the lake.

We are still hoping that in the plans for unemployment relief a new bridge to Ennismore will not be left out, and that justice will be done to a large section of the county that has always looked to Peterborough in matters of business and municipal relations ever since the first settlers came. This is a very serious problem to the north country, and I hope that in the plans for work which are now being considered a new Chemong bridge will be included. At least let us have it surveyed to find out what the cost would be today, and I think the rest would follow. I would like to ask our Member and the council of the city of Peterborough and friends generally throughout the county to help us in this request.

Yours sincerely, W
THOS. CAVANAGH (Reeve).
Ennismore, Sept. 19, 1931.

CATTLE, GRAIN AND PRODUCE

MONTREAL GRAIN

MONTREAL, Sept. 22.—The feature of the Montreal Produce and Dairy Market yesterday was the appearance of storage eggs for the first time this season.

Egg prices were mainly higher and butter quotations slightly lower while cheese and potato prices were unchanged.

Car-lot prices of fresh Ontario or prairie eggs were mainly unchanged, extras being steady at 30c, firsts up 1c at 25c and seconds unchanged at 18c a dozen. British Columbia extras in carlots gained 1c at 32c to 33c a dozen. To retailers, eggs in carton advanced 1c to 2c. Fresh specials gained 1c to 2c at 37c to 38c, while fresh extras, firsts and seconds were all up 1c at 34c to 35c, 29c to 30c and 23c to 24c a dozen, respectively. Storage extras were quoted at 33c, firsts at 28c and seconds at 23c to 24c a dozen. Receipts were 915 cases.

Eastern Townships No. 1 pasteurized butter, in car lots, lost ¼c at 19¾c to 20c a pound. To retailers, solids and prints were unchanged at 22c and 23c a pound, respectively.

Ontario cheese was unchanged at 12c to 12¼c a pound and Quebec cheese held steady at 11¾c to 12¼c a pound.

New Brunswick potatoes were 50c at 70c per 80-lb. bag while Quebec whites were quoted at 35c to 45c per 80-lb. bag.

CHICAGO GRAIN

CHICAGO, Sept. 22.—Great Britain's temporary abandonment of a gold basis for her money system forced a fall of 3¾c in Chicago wheat prices yesterday. Corn suffered a maximum break of 2¼c, with both the leading grains outdoing the season's previous bottom quotations. After one hour of flurried selling to stop losses, however, grains displayed notable power to rally with stocks and to respond to buying on the part of exports and millers.

Wheat closed nervous ⅝c to ¾c down; corn ⅝c to 1¼c off; oats unchanged to ⅝c higher, and provisions varying from 25c setback to a rise of 2c.

TORONTO LIVE STOCK.

TORONTO, September 22 (C.P.).—Cattle receipts, 2,611. Leftovers from last week totalled 1,100head. Early trading was slow on a plain quality supply of cattle. Some medium quality butchers sold steady at $5.00 to $5.75. Good butcher cows were $3.50 to $4.00. Choice fed calves sold at $8.00 to $8.50. Store cattle trade was very dull at the opening.

Steers up to 1,050 pounds, good and choice, $5.75 to $6.00, medium $5.00 to $5.75, common $3.00 to $4.75, steers over 1,050 pounds, good and choice $6.00 to $6.25, medium $5.00 to $5.75, common $4.00 to $5.00, heifers good and choice, $5.75 to $6.00, medium $5.00 to $5.50, common $3.00 to $4.75; fed calves, good and choice, $8.00 to $8.50, medium $6.50 to $7.50, good $3.50 to $4.00, medium $3.00 to $3.50, common $2.25 to $2.75; canners and cutters, $1.00 to $2.00 bulls, good, $3.00 to $3.75, common $1.50 to $28.50; stockers and feeder steers, good $4.50 to $5.00, common $3.25 to $4.25; milkers and springers $30.00 to $70.00.

Calf receipts, 429. Calves steady at $8.50 to $9.00 for choice vealers and $2.75 for grassers.

Good and choice veal $8.00 to $9.00. Common and medium, $4.50 to $7.50, grassers $2.75 to $3.50.

Hog receipts, 635. Hogs were unsettled. Packers were bidding $5.00 f.o.b. for bacon or $5.75 weighed off the car.

Sheep receipts, 1,769. Lambs opened $7.00 cwt. for good ewes and wethers. Bucks were selling at 5$ and culls $5.50. No sheep offered in the early sales.

Good ewe and wether lambs $7. Medium $6.50 to $6.75, bucks $5.00, culls $5.00 to $5.50; good light sheep culls $5.00 to $5.50; good light sheep $2.50 to $3.00, heavies $1.50 to $2.50, culls $1.00 to $1.50.

TORONTO PRODUCE.

TORONTO, Sept. 22.—Since the last warm spell trade in eggs on the local market has been poor and prices gradually easier. Yesterday graded eggs were offered by local brokers at new levels, as far as extras were concerned, the quotations being 26½c for extras, 23c for firsts, and 16c for seconds. Seconds were not favored very much either and were difficult to move, with the result that prices to country shippers on this grade were reduced 1c per dozen. Shippers were offered 24c for extras, 21c for firsts and 14c for seconds, delivered, ungraded, cases returned. Prices to retailers were steady at 31c for extras in cartons, 29c for extras loose, 29c for firsts loose and 19c for seconds loose.

Butter.

There was very little trade in butter on the local markets, buyers seemingly deciding to await developments in our own and the English markets. Brokers quoted steady prices at 20c to 21c for No. 1 creamery solids and 19¾c to 20c for No. 2. Retailers were offered prints at 23c for No. 1 and 22c for No. 2.

Cream.

Cream was quoted on a steady basis at 21c for special, 20c for No. 1 and 17c for No. 2, with latest reports showing these levels in effect in most parts in Ontario.

Cheese.

There was very little, if any, trade in ohees, but prices were quoted steady at 11¾c to 11½c for new large, 11½c to 11¾c for twins and 11¾c to 12c for triplets. Retailers were offered new makes at 13c for large, 13¼c for twins and 13½c for triplets.

WINNIPEG GRAIN.

WINNIPEG, September 22.—Liberal buying of wheat on the grain exchange here yesterday boosted values considerably. Prices at the close recorded gains of from 1⅜ to 1⅝ cents over Saturday's close.

October closed at 52½c, up 1¼c; December at 54c, was up 1¾c while May at 57⅜c was up ⅞c to 1⅜c.

Offerings were never very heavy and little hedging pressure appeared. Suspension of the gold standard by Great Britain appeared to do little more than create a conflicting of opinions at the outset of trading.

Considerable week-end trade was worked, but no figures were available. Broomhall reported unfavorable conditions in the Argentine, with fears of frost damage which would act as a retarding development. World shipments were given as 19,200,000 bushels against 15,995,000 last week and 12,233000 last year.

Trading in cash wheat and coarse grains was indifferent with spreads ruling from unchanged to a fraction higher.

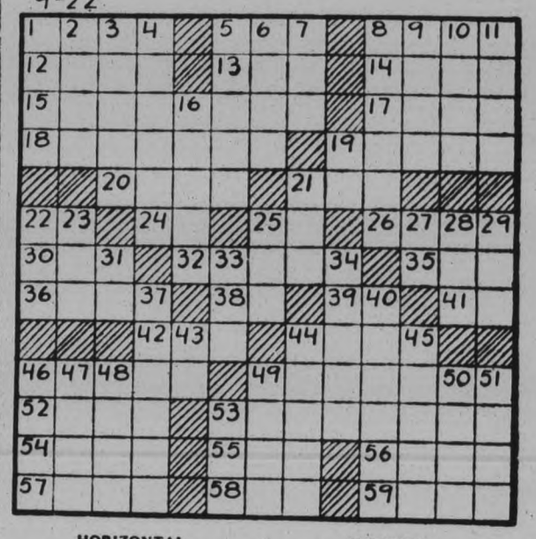
Today's Cross-Word Puzzle

By EUGENE SHEFFER

9-22



HORIZONTAL

1—Celestial body.
5—What famous Confederate general accepted the presidency of Washington and Lee College after the Civil War?
8—What celebrated French novelist, poet and dramatist wrote "Les Miserables"?
12—What is the name of the author of "The Prisoner of Zenda:" Anthony ———?
13—Row.
14—What famous English boy's school is located opposite Windsor on the Thames?
15—Mental longing.
17—Loyal.
18—What Arctic explorer recently came to grief in the mid-Atlantic when his submarine "Nautilus" broke down?
19—Annoying (colloq.)
20—Elongated fishes.
21—Spanish grandee.
22—Short name for a parent.
24—Prefix; down or away.
25—Exclamation.
26—What American producer has been noted for his revivals of the Gilbert and Sullivan light operas: Winthrop ———?
30—Period of geologic history.
32—Singes.
35—Greek letter.
36—Who piloted the "Winnie Mae" in its recent record-breaking flight around the world?
38—Printer's measure.
39—Police department (abbr.)
41—In law, an action.
42—On what river in Switzerland is Berne located?
44—Rich fertile soil.
46—What Australian navigator accompanied 36 Horizontal on his flight?
49—What Italian heavyweight boxer is notorious for the size of his hands and feet?
52—Give forth.
53—What was the name of the submarine that featured Jules Verne's story "20,000 Leagues Under the Sea"?
54—Near What Alaskan town is Solomon Beach, recently brought into prominence through the globe-girdling flight of 36 and 46 horizontal?
55—Wander.
56—Searched for.
57—Kept in view.
58—Beverage.
59—What German historical painter lived from 1798 to 1863: Heinrich Maria ———?

VERTICAL.

1—What celebrated English playwright recently spent his 75th birthday on a visit in Soviet Russia?
2—In India, a sun helmet.
3—What was the forbidden fruit of the Garden of Eden?
4—Sent out steam, vapor, etc.
5—Cuts of meat from the lumbar region.
6—Corrodes.
7—Prior.—
8—What city is the capital of Montana?
9—Shoshonean Indians.
10—Mammal of the genus Capra.
11—Solely.
16—Pieces of baked clay.
19—On what Italian river is Turin located?
21—June beetle.
22—Chart.
23—Past.
25—Who, according to tradition, is the ancestor of the ancient Egyptians?
27—Mountain (abbr.).
28—Spike of grain.
29—Bring legal action against.
31—Plural suffix.
33—Ever (poetic)
34—Mockery.
37—Made a kind of lace edging.
40—What language is spoken in the Faroe Islands?
43—Affirmative.
44—Who was the inspiration of Petrarch's sonnets?
45—Hand to hand combat.
46—In the Mendelian theory what is a hereditary unit factor called?
47—Chinese seaport near Foochow.
48—Finite duration.
49—Worry.
50—Regrets.
51—Requests.
53—Snare.

Herewith is the solution to yesterday's puzzle.

50 Relief Programs Are Given Approval

TORONTO, Sept. 22.—Fifty out of sixty programs for unemployment relief work for towns and villages were to-day approved by the special advisory committee on unemployment relief of the Ontario Cabinet, presided over by Hon W. D. Montieth, minister of Public Works and Labor. The programs approved have a total expenditure of about $3,500,000 which with the first list of $6,500,000, now brings the total to be spent to $10,000,000.

Construction of buildings is not included in any of the programs so it is assumed that the Government has laid down the policy that buildings are not to be proceeded with under this form of relief. Programs must now be approved by the Ontario and Federal cabinets.

CANADIAN ADVANCES.

BUFFALO COUNTRY CLUB, Williamsville, N.Y., Sept. 22 (C.P.).—Mrs. Charles Eddis, Toronto, one of the two Canadian entrants in the women's national golf championship, advanced into the second round to-day defeating Mrs. Arthur Harrison, Buffalo, 3 and 2, in the first round.

the grandstand last night were

TROPICAL LAND IS DISCOVERED

Vale Has Balmy Days With 50 Below Weather in Surrounding Country.

IN NORTHERN B. C.

EDMONTON, Sept. 22. — Back from a 1,000-mile trip to the mystery spot of Northern British Columbia, Dr. J. Norman Henry and party of Philadelphia, brought word here Saturday of having explored the "Tropical Valley," reports of which had lured the party to the remote region.

Any beliefs that the so-called "Tropical Valley" was mythical were exploded by Dr. Henry, who is a retired Philadelphia doctor and former college mate of Sir Henry Thornton, President of the Canadian National Railways.

For two days the party camped in the valley and experienced its tropical delights. They found it was three-quarters of a mile in length.

The valley is honeycombed with hot springs They bathed in the craters and springs, and found in some spots the water was too hot for human beings to stand.

"There were boiling springs all through the valley," Dr. Henry said on his return to Edmonton Saturday. "Even the ground was heated in many spots, and we were told by Indians that during a temperature of fifty below zero water does not freeze in the valley."

The party was disappointed in finding that a bag fire had swept through the valley and destroyed much of the plant life, specimens of which were desired for botanical purposes. Nevertheless some good samples were obtained.

Further Softness On Montreal List

MONTREAL, Que., September 22 (C.P.). — A few stocks showed further softness in quiet trading on the Montreal Stock Exchange this morning. The trading restriction of yesterday were lifted on certain stocks and a few of them suffered sligh losses in consequence.

Brazilian Traction sagged 1⅛ points to a new low at 9¾. Canadian Pacific Railway, local point of interest since the directors decided the dividend rate to-day, eased off ⅛ to establish a new low at 16¼.

Other issues on the list were steady at or about the minimum prices set by exchange ruling yesterday. Montreal Power was steady at 38.

Daily Whitby-Lindsay Train To Be Dropped

WHITBY, Sept. 22. — Effective Monday next, Sept. 28, a tri-weekly service will go into effect between Lindsay and Port Hope, the daily train on the Whitby-Lindsay line being discontinued. The tri-weekly train will, in all probability, be a mixed train. This is the curtailment in the north train service which has been threatened for some time and which recently was sanctioned by the Dominion Railway Board. It is believed that the new schedule will add to the business of the trucks giving a daily express and passenger service. Declining revenues on the line is given as the reason for the curtailment.

BANK RATE RAISED.

BOMBAY, India, September 22 (C.P.). — The Imperial bank rate of the Bank of Bombay was raised to-day from seven to eight per cent.

WAR VETERAN DROWNED

EDMONTON, Alta., Sept. 22. —(C P)—Clambering over the rail of the Dawson bridge and leaping into the water, a man identified as Q. J. Portern, world-war veteran was drowned.

FOREIGN BONDS REGAIN LOSSES

Stocks Fluctuate Uncertainly in Quiet Trading at New York To-day.

European Trade Brighter.

(By Claude A. Jaegger, Associated Press Financial Editor)

NEW YORK, Sept. 22. — Wall street financial markets regained their composure to-day.

Stocks fluctuated uncertaintly in quiet trading after a little flurry at the opening, and foreign bonds rebounded rather briskly, although domestic encountered some further liquidation.

More foreign currencies were quoted by foreign exchange dealers, although business remained highly restricted.

The improvement in the Paris bourse, and restricted resumption of trading at Amsterdam and Brussels, were encouraging, together with announcement that the London market would re-open to-morrow.

Some skepticism is expressed in Wall street over the prospect of any more redistributions of monetary gold supplies in the near future.

International Bankers recognize that the lodging of three-fifths of the world's monetary gold supply in France and the United States embarrasses the rest of the world, and would welcome any workable remedy.

MARKET CLOSING ON EXCHANGES

(Continued from Page 1)

Union rallied 7. Sales approximated 2,000,000 shares, less than half of yesterday's volume.

STANDARD EXCHANGE

TORONTO, Sept. 22 (C.P.)—Except among the small group of interlisted issues in which free trading was permitted by special order early to-day, prices on the Standard Stock and Mining Exchange market at the close to-day showed little change from last night's finals. Offered quotations dropped to the minimum levels and bids were scarce.

Adjustment of values to New York levels was evident in the interlisted group, Noranda leading the downward trend with a loss of $1.40. International Nickel managed to hold fairly well, showing only a comparatively small loss on end, but Dome and McIntyre were down $1 apiece and Imperial Oil dropped a similar amount.

Canusa Mining and Exploration was called for trading in the forenoon and held its opening spread of 20 to 23 in a firm manner. Rate of turnover for the cheaper stocks was considerably below that of yesterday.

Toronto Exchange

TORONTO, Sept. 22.—Inter-listed issues which were placed on the "free trading" list reacted during today's session on Toronto Stock Exchange and a number of them uncovered new lows. They reached their lows for the day in the early afternoon, steadied and were some higher at the close.

Brazilian which had sold down to 8¼ closed around 9 to 9¼. International Nickel sold as low as 9 but closed slightly above that figure. Noranda made its day's low at 11¼ and firmed slightly on end, though still showing a loss of more than 1 point from last night.

C. P. R. was steady around 16¼. Dominion Stores dropped 3 points to 16½ and Ford of Canada more than a point to 13¾. In the oil group, Imperial Oil and International Petroleum both had net losses of 1 point and at one time or another sold lower.

Walkers, B. A. Oil, Montreal Power, Distillers, Loblaw "A" and other stocks in which the minimum price still prevailed closed unchanged.

Cloudburst Causes Washouts In Vermont

ST. JOHNSBURY, Vt., Sept. 22 (C.P.).—A rain storm of cloudburst proportions struck Northern Vermont to-day, paralyzing traffic on the Canadian Pacific Railroad for more than three hours and causing heavy damage to highways and bridges.

The storm, which was accompanied by vivid flashes of purple lightning, caused washouts on the railroad at Orleans and Barton and lasted more than two hours. One of the worst washouts was 18 feet long and three feet deep.

Trains delayed by the storm were the "Red Wing" en route from Boston to Montreal and others on the Springfield to Quebec route.

W.C.T.U. PLANS CAMPAIGN

WASHINGTON, D.C., Sept. 22 — Twenty-five regional conferences from coast to coast are planned by the women's Christian Temperance Union "to take the prohibition message to every section of the United States in person"

In announcing the conference today, the organization said they would constitute "Advance work in the important months preceding the national conventions of the major political parties."

Business Continues Outside The Market

LONDON, September 22 (C.P.).—The second day of gold standard suspension found financial London slowly adjusting itself to the new conditions. With the Stock Exchange closed, dealers assembled in force in Throgmorton Street for a few operations in international securities, the committee having announced it has no objection to the members dealing outside the house.

Business was small and quotations on trans-Atlantic favorites showed a wide spread.

Brazil Traction was 10 to 12 against 11 on Saturday; Radio was 16.8 against 15.25; Nickels 10 to 11⅛ against; 10; Steels, 90 to 97, against 79 to 80; Hydros 10 to 13 against 11.

There still were no official rates in the exchange market, but the unofficial New York cable transfer rate was 4.15 to 4.20, Paris was 105 and Berlin 18½ to 19½.

KING'S DAUGHTERS HOLD SOCIAL EVE

Trent River Class Puts on Interesting Program Before Large Audience.

TRENT RIVER, Sept. 22 (Examiner Correspondence)—There was a large attendance at the United Church Friday night where an interesting program and social time was under the auspices of members of the King's Daughters class supervised by their teacher, Mrs. George Vanvolkenburg. The entertainment was held in the dining hall and the pastor, Rev. S. A. Kemp and Mrs. Kemp were present. Mr. Kemp was chairman for the following program: hymn, "All Hail the Power of Jesus Name"; chorus, "My Little Home in Tennessee," by sixteen members of the King's Daughters class, with Miss B. G. French accompanying on the organ; vocal duet, Mrs. T. Brown and daughter Mary, Take Back Your Gold," with Mrs. Harold Brown at the organ; reading, "Uncle Jerry's Automobile Ride" by Tom Haywood, this number was made up with local hits connected up with Uncle Jerry's sad experience with a car he ordered through the mail order catalogue; organ instrumental, "Gloaming," Miss Margaret Brown; solo, "Shepherd Divine," Mrs. Gordon Shearer, with B. G. French accompanying; vocal duet, Messrs. Hamilton and Learl Humphries (Norwood road) with Wesley Wildman at the organ, this number was heartily encored; reading "Half Mast," Miss Dorothy Waters; guitar selection, Wesley Wildman; reading, Bessie Inkster; solo, Miss Reta Longmuir with Mrs. Harold Brown as accompanist; reading, "The Inventor's Wife," Miss Ruby Dunham; vocal duet, Messrs. Gerald Chaplin and Tom Haywood with Mrs. T. V. Chaplin at the organ. It was regretted that the quartette was unable to appear on the program owing to the absence of one of the members. Rev. Mr. Kemp spoke on behalf of the girls' class, thanking all those who had assisted with the program. The girls' class provided the refreshments consisting of coffee, sandwiches and delicious cakes of many varieties. There was a small fee charged at the entrance and the sum of twelve dollars was realized.

RAILWAY SURGEONS MEET.

TORONTO, Ont., Sept. 22 (C.P.).—Sixty members of the Association of Railroad Chief Surgeons from many parts of Canada and the United States are assembled here in annual convention. The opening session Monday was given over entirely to a discussion of technical papers.

TWO SUSPECTS ARRESTED.

HUNTINGTON, N.Y., September 22 (C.P.). — District Attorney Alexander Blue announced to-day that two suspects in the buccaneer-like murder of Benjamin P. Collings had been placed under arrest at Wilmington.

FLIERS LAND FRIDAY.

S. S. STAVANGERFJORD, by radio to the Associated Press, Sept. 22—(A.P.)—Willy Rody, Christian Johanssen and Fernando Costa Viega, Trans-Atlantic airmen who were picked up off the Newfoundland coast by the motor ship Belmoira, were taken aboard this vessel to-day and will arrive in New York Friday afternoon.

TO BUILD SCENIC HIGHWAY

EDMONTON, Alta., Sept. 22. — Definite assurance that work is to start immediately on the scenic highway between Jasper and Banff has been given by Senator Gideon Robertson, federal minister of labor.

One thousand of Alberta's jobless army, half of them from Edmonton, will be employed on the road.

STEADIER AT $4.22.

NEW YORK, Sept. 22 (C.P.)—The pound sterling steadied around $4.22 on New York exchanges as banks closed this afternoon. This figure was 11 cents better than the opening and 10 cents lower than yesterday's closing quotations.

BOURSE RE-OPENS.

AMSTERDAM, Holland, September 22 (C.P.). — The Bourse reopened to-day after a one-day holiday caused by the financial situation in Great Britain.

LOUISE SEXSMITH WINS FIRST PLACE IN ORATORICAL CONTEST

Twentieth Annual Rural School Fair for South Cavan District is Huge Success.

QUALITY IN ENTRIES.

MILLBROOK, Sept. 22 (Examiner Correspondence)—Nature was in her kindliest mood on Friday, September 18, the weather being ideal for the twentieth annual Rural School Fair of South Cavan district, a unique feature being the fact that every one of the nine schools were represented in the parade which took place promptly at 1 p.m. before a well filled grandstand, at the Agricultural Park, Millbrook.

The program showed a decided change this year in the elimination of any judging of individual schools for drill, costume, singing, etc., all being grouped together in one grand march round the grounds, beginning with S.S. No. 1, the colorful effect being enchanced through the varying costumes worn by the pupils from the several sections

Physical culture excercises were also done in mass formation, under the capable direction of Lieutenant B. B. Dawson, principal of the local public school, and instructor of the Millbrook Cadet Corps, No. 403, repeated bursts of applause from the grandstand testifying to the delight of the spectators at the promptness and precision with which the various commands were obeyed.

E. A. Summers, agricultural representative for Durham, under whose supervision the various school fairs are held, expressed himself as being highly pleased with the way in which the scholars at all the fairs so far held have acquitted themselves in the somewhat severe test of doing their physical culture exercises as a unit, under one leader, for the initial time on the day of the fair itself. Colonel J. W. Odell, P.S.I., took a number of snap shots of the pupils while the exercises were in progress.

The next event before the grandstand was the judging of live stock, the winners being: colt, draft, Ross Armstrong, S.S. No. 8; calf, beef, 1, Isabel McCamus, S.S. No. 15; 2, John Elgar, S.S. No. 15; Calf, dairy heifer, 1, Fred Brown, S.S. No. 13; 2, Edna McKnight, S.S. No. 10.

The public speaking followed, at least nine pupils being entered, the judges through their spokesman, Rev. W. W. Jones, B.D., declaring the winners thus: 1, Louise Sexsmith; 2, Dorothy Hoad; 3, Ray Kennedy; 4, Wilma Armstrong; 5, Leatha Rowland; 6, Doris Gardiner.

The Durham county Rural School Fair staff this year has as members, in addition to Mr. Summers, Miss Amber Morton, secretary, Port Hope; Miss Hamilton, who judges the cooking, sewing, flowers, etc.; Messrs. James Brown, live stock; Gordon Ashton, vegetables and fruit and Clarence Allen, poultry.

Quality in Entries

Quality was well maintained in the exhibits in the main building, Millbrook senior room winning the special prize by the local branch of the Women's Institute for best collection of vegetables, and also of flowers; coming second was Fairview in both classes, while third and fourth in the flowers were Falls Line and Cedar Valley.

Outstanding in the flower exhibits were the zinnias, Isabel McCamus (15) having the premier award, and Leanora Davis (10-11) coming second. The homemade candy is always a toothsome array, the red ticket going to Marie Douglas (8); and the blue to Isabel McCamus (15). Marie also had first place for school lunch, and Vera Armstrong (14) second.

Notable in the sewing classes were the boys winning first and second place with a patch on grain sacks: 1, Fred Brown (13); 2, Allan Earle (14); while the examples of seven kinds of stitching by fourth class girls were exceptionally good: 1, Gladys Coyte (8); 2, Isabel McCamus (15).

Educative value attached to the collection of forest leaves, Audrey Keene (8) winning first, and Cora McInnis, also of S.S. No. 8, second. Willie Lackey, (12) had the best 'plan of school,' the blue ticket going to Marian Belch (10); in the poster class Florence Williamson and Audrey Keen, both of S.S. No. 8, were first and second; and in the drawing of ten common birds Marian Belch headed the list, and Louise Sexsmith came next.

Poultry Classes

In the poultry classes Beatrice McDowell carried off firsts for both cockerel and pullet in Barred Plymouth Rocks, Roddy Carveth coming second; in the White Leghorns Marjorie McDowell (10-11) had first for pullet and pen; Vera Armstrong (8) and Jean Gillis (8) coming second, respectively; Cameron Elson (8) was first for the cockerel and Dorothy Armstrong (8) second.

Addressing the spectators Mr. Simmons gave interesting facts regarding the work being accomplished by the seed-cleaning machine at the Department office in Port Hope, and promised a visit to various barns this fall with demonstrations on the elimination of smut and other practicel assistance. He also urged the introduction of singing in the schools in East Durham to match the fine work along this line in Colonel E. E. Snyder's inspectorate.

Colonel Odell also brought a message, mentioning among other things, the fact that sixty per cent of the schools in Inspectorate No. 2 now have sanitary conveniences equal to those of any town school, and this is but one evidence of the advance being made along all lines.

Schools Represented

The schools and teachers in the South Cavan district include: S.S. No. 6, Whitfields, Miss Francis Jones teacher; S.S. No. 10, Falls Line, Miss Jean L. Burnham; S.S. No. 10-11, Millbrook junior, Miss L. Orchard; Millbrook senior, principal B. B. Dawson; S.S. No. 12, Cedar Valle, Miss Gwen Hutchinson; S.S. No. 13, Zion, Miss Mary Wood; S.S. No. 14, Fairview, Miss Dorothy Hall; S.S. No. 15, Cork, Miss Ruth Staples; S.S. No. 19, Carmel, Miss L. Wiman.

Millbrock school, senior and junior won thirteen firsts, and so headed the list in points; while School Section 15 and 12 had each eight firsts, and 15 (Cork) had also ten seconds. The winners of the T. Eaton trophy and books will not be ready for publication until the list of school fairs for Durham is completed and the secretary has time to make careful compilation of points.

HARVEST SERVICE IN WARSAW CHURCH

Rev. Mr. Moore Speaks in St. Mark's Church—District News.

WARSAW, Sept. 22 (Examiner Correspondence) — Rev. Mr. Moore rector at Young's Point, preached in St. Mark's Church on Sunday afternoon at the harvest festival.

In the sermon, Mr. Moore mentioned the difficult, critical, dangerous times through which the world is passing, the abundance in most places, the low prices, the people out of jobs, the distress and despair, and conditions causing almost a disruption of economic conditions. Through no fault of their own, many cannot see daylight ahead. In it all what has the church to offer? God, religion is not a plaything but a reality. In facing difficulties, with God there is hope, joy, for the future.

Thomas Borland presided, Mrs. Milton Drain read the scripture lesson, Mrs. Munro, took the glad tidings subject, "Pioneers of yesterday and to-day." Mrs. McQuaig took the chapter from the study-book "China." At the Ladies' Aid meeting which followed the report of church decorating, was read, and some plans for future made. The anniversary quilt was exhibited.

At the executive meeting of Warsaw W.I. ladies were appointed convenors of various committees, and these ladies are to be responsible for a program bearing on their work, as follows, Oct., Mrs. A. McQuaig, relief; Nov., Mrs. Fred Crowe, League of Nations; Dec., a report of convention; January, Mrs. Thomas Cooper legislation; Feb., Mrs. D. Miller, health and education; March, Mrs. G. H. Crowe, agriculture; April, reports of standing committees; May, annual meeting.

Community Bill-Board

A community bill-board was mentioned and will be discussed at the meeting on October 8. It was decided not to send a special delegate to the convention, but to get the notes from the papers, and from any one who happened to attend, as usually there have been some who were in Toronto at that time and attended.

A meeting of the ladies of the executives of various women's organizations in the village was called on Saturday evening to discuss a community emergency. Owing to the storm, and the very busy season, no church was officially represented, though members of each church were present, so nothing could be actually decided.

SYNOD SOCIAL SERVICE REPORT

(Continued from Page 1)

the proposed see, the proceedings could be completed in three instead of six years, but the house was unwilling to arrogate to itself the responsibility.

Mr. Harris mentioned as possible areas the Diocese of Toronto, Brandon and Quebec.

Included in the report of the Social Service Council were exhaustive analysis and recommendations regarding unemployment, relief work and related social and industrial problems. The report also dealt vigorously with the question of gambling, under which head it listed the "moral and social evils incident to mercantile speculation" and manipulating stocks on margin.

The council also took up immigration and Empire settlement, and submitted to the Synod a resolution commending to the earnest prayers of all members of the Church the disarmament conference in Geneva in February.

The resolution also petitioned the Government at Ottawa to do all in its power to effect a "scheme of general reciprocal disarmament."

JELLICO IMPROVES SLOWLY.

AVTODON, Sept. 22. — (C. P. Cable.)—Admiral of the Fleet Earl Jellicoe, who is ill at his country seat on the Isle of Wight, was reported to-day to be progressing slowly and his physician is satisfied with his condition. Earl Jellicoe went immediately to bed after he reached England last Saturday, following his visit to Canada.

DOLLAR QUOTED 2 9-16 BELOW MONDAY'S CLOSE

Canadian Pound Sterling Fluctuates From Its Low Rate of $3.75 Yesterday

LIGHT GOLD SHIPMENT.

NEW YORK, Sept. 22 (C.P.). — Both the Canadian dollar and the pound sterling declined sharply today on local foreign exchange markets.

The Canadian dollar was quoted at 90 7-16 cents early this afternoon, 2 9-16 below yesterday's closing quotation, while the pound drooped to $4.21¼, 10½ cents lower than the previous close.

While the pound had rallied somewhat during its ups and downs from the low rate of $3.75, which it reached early yesterday, the dollar was at the low point for the present movement.

Exact figures were not available for comparison but banking officials here thought Canadian funds were at the lowest ebb since those years immediately succeeding the Great War, when the discount rate on the dollar was quoted at a maximum of about 17 per cent.

No definite reason could be assigned to the drop in value of Canadian funds in values of United States currency, although officials of the local branch of the Canadian Bank of Commerce suggested it was partly due to lack of gold shipments from Canada and sympathy with sterling.

Gold shipments reaching New York from Canada within a little more than a week have totalled only slightly above $2,000,000, and failed to check the downward movement of the dollar.

Canadian Bank of Commerce officials pointed out the comparative weakness of Canadian bonds here within recent days as probably having a possible lowering of confidence in Canadian funds.

No Word From Ottawa.

OTTAWA, Ont., Sept. 22 (C.P.).—Officials of the Department of Finance declined to comment this afternoon when informed that the Canadian dollar was being quoted at 90¼ in New York. No intimation was given of further gold shipments or other contemplated action.

Canadian

SLAIN BY BANDITS

Shot by two hold-up men when he refused to hand over the funds of a Los Angeles bond house, which he was about to deposit in the bank, Nathan Black, 19, son of Mr. and Mrs. Max Black, Toronto, died July 19, and was buried in Los Angeles. His killers were arrested.

STANDARD BRANDS SHOW EXPANSION

New Office Buildings Being Erected in Several Canadian Cities.

MONTREAL, Sept. 22 — Corwin Wickersham, president of Standard Brands Limited, has recently announced a program of expansion for the company that includes new office buildings in both Montreal and Halifax and new, larger premises in Edmonton and Saskatoon. He further states that this expansion is a direct result of the steady growth in popularity of all Standard Brands products since the merger of Fleischmann's Yeast, Chase & Sanborn, E. W. Gillett & Co. Limited, and Royal Baking Powder two years ago.

Bowling Notes

The uncertainties of lawn bowling are seldom better exemplified than they were last evening in several of the games played on the greens of the Peterborough Lawn Bowling Club. In the game between Chesler and Brown vs. Bennett and Williamson, Chesler's rink had practically all the play during the first 11 ends, the score then standing 16 to 5 in their favor. Bennett and Williamson then seemed to find themselves for they won the next six ends in succession with scores of 3, 2, 3, 3, 1, 3. This made 15 points that they scored without their opponents obtaining any, and brought the score at the end of the 17th end to 20 to 16 in their favor. On the final end Chesler's rink scored one point, the final score being 21 to 17 in favor of Bennett. Moral — never get discouraged in lawn bowling even when the score is heavily against you.

A somewhat similar incident took place in the game between J. T. Braund and J. E. Smith vs. C. Taylor and H. Northrop. In the first part of this game Braund and Smith played a fine game, the score at the end of the ninth end being 12 to 4 in their favor. Taylor and Northrop won the next four ends, bringing the score to 12 to 10 in favor of Braund. The next several ends were keenly fought. At the end of the 18th the score was 16 to 16. Taylor and Northrop scored one on the final end, winning the game by 17 to 16.

There was a keen game also between Fletcher and Dunsford vs. Coleman and S. Lowe. The score here was 13 to 13 at the end of the 17th. In the 18th end Coleman had four bowls shot. Fletcher moved the kitty back giving his side 2. Coleman tried to kill the end and by a lucky wick succeeded in doing so. Coleman's rink won the game by one point.

Results in the other doubles games played were as follows:

H. Freeman won from R. M. Glover; W. J. Cullen won from J. D. Fitzpatrick; Dr. Allen won from D. Smith; A. Ringer won from J. Penrose; A. Grant won from F. D. Smith; A. Ringer won from G. Giblett; G. Low won from J. Brown; J. J. Howden won from G. Sorenson; J. M. Mayneord won from H. Marlin by default.

Singles Competition

Play in the singles competition got under way last evening when two rinks played off their games in the preliminaries. G. East won from B. Rogers and Nelson Routly won from P. Sexsmith. Some 50 entries have been received for the singles competition and the draw has been made and posted in the Club House. Play in the preliminaries will start in earnest this evening and will be pushed through during the remainder of the week as rapidly as possible. This means that the finals should soon be reached as half the players will be eliminated after the first round is played, while three-quarters will have been put out when the second round is completed.

ONE-THIRD OF UNEMPLOYED

(Continued from Page 1)

an estimate, it comes so close to being a fact that it is practically correct. At the last meeing of he Council some of the aldermen urged that all the unemployed be called to work on city jobs as soon as possible instead of delaying their engagement until the colder weather sets in. The Council's policy throughout the summer has been to alternate groups of men every third week by reference to the registration cards.

The Council's problem is a difficult one. In the list of work it drafted for the coming months several small municipal buildings were included, but they were rejected by the Provincial authorities. If the unemployed men of the city cannot be given continuous work, either immediately or in the near future, it would be preferable to make an announcement to that effect, instead of encouraging hopes which have not yet been realized after long waiting, and which have been fulfilled only to the extent that one-third of the unemployed married men are actively engaged.

More Men Working Than Needed.

The Council's willingness to do its part in these relief schemes is indicated by a remark made by Alderman Hamilton that on the jobs now in progress there are more men working than would ordinarily be employed on them. In other words it has been so far no easy task to put 150 men to work.

How will the city authorities find the engaging of at least another 300 men if that promise of immediate work for every man is to be fulfilled?

In view of the delays which seem unavoidable and also of the restrictions as to the kind of work to be launched and the amount to be expended it would seem the better part of the city's unemployment relief policy to understate the facts or prospects rather than to kindle expectations which probably cannot be put into effect.

AT HALL'S TO-MORROW

Wednesday Bargain Day

Fine Wool Santoys - 79c

An attractive, medium weight fabric, equally useful for making into a pleasing autumn frock for mother or daughter. 36 to 38 inches wide. All colours.

27 in. Rayon Taffettas - 29c

Don't judge this fabric by its price. It looks well, wears well, comes in plain weave or pretty brocade, and in a range which covers every imaginable shade.

Yard Wide Flannelette - 18c

An old price but a new quality—a firm soft finished, striped flannelette in a well assorted range of exceptionally good looking designs in various stripes.

Full Fashioned Real Silk Hose 59c Pair

A FACTORY PURCHASE OF IRREGULARS—12 DOZEN ONLY

These are not seconds. Our factory examiners are exceedingly particular. Any stocking not up to standard in every way is not passed into the regular line. These are first rejects and only an expert could detect many of the defects. All sizes. Several good colours. On Sale Wednesday.

Woolcot Blankets

IN PRETTY PLAIDS

In making these the wool and cotton fibres are carded together to produce a strong, yet soft yarn. Made in various colours on white ground and sateen bound. .... EACH **$2.49**

52 x 52 Linen Cloths

WITH COLOURED BORDERS

Real Irish Linen Crash Breakfast or Luncheon Cloths. The body of the cloth is in the usual light creamy colour. Edges are ornamented with various colours. .. EACH **79c**

A Special Fall Sock Bargain 29c Pair

FOR MEN WHO KNOW A GOOD THING

These, also, were part of an opportune purchase made straight from our men's hosiery factory in Toronto. They are irregulars. Many splendid patterns are included. Socks for which you generally pay 50c to 75c the pair. On Sale Wednesday.

Cambric Dress Prints 29c

These are 36 to 38 inches wide, of good weight, and printed in fast washing colours. Many pretty patterns are included. White and light coloured grounds.

Flannelette Blankets - 1.98

These are the ever popular "Gigantic" Blankets. Mostly in white bordered with stripes of blue or pink. Large enough in size for the standard double bed.

Dominion Flannels - 25c

29 inches wide—a cotton cloth, closely woven, and with a surface smoothly combed to give an appearance of wool. Printed in pretty small patterns for children's wear.

NEW PATTERNS IN STANDARD FLOOR COVERINGS

Floor Oilcloths 49c Square Yard

Of standard quality, all perfects. Many new designs have just been put into stock. Patterns for kitchens, bedroom, hall, etc.

Printed Linoleum 85c Square Yard

Good, heavy Linoleum which stands up well and comes in a well assorted range of favourite designs to suit all fancies. A good time to make a selection.

Inlaid Linoleums $1.25

Dominion Inlaid Linoleums are always dependable. An Inlaid, well put down, will give good service for many years and with fair treatment always looks well.

RICHARD HALL Limited

CAMPBELLFORD FAIR OFFERS MANY ATTRACTIONS THIS YEAR

Wide Range of Exhibits, Horse Racing and School Fair Are Featured.

CHAMPIONSHIP SOFTBALL

CAMPBELLFORD, Sept. 22.—(By Examiner Staff Correspondent)—Campbellford's annual fall event, the Seymour Agricultural Society fair, which is scheduled for September 30, and October 1, not only gives evidence of being the usual success but offers this year many more attractions both in sport events and prize exhibits. Not only are the regular special awards listed this year but many more special prizes have been donated and several lines of agriculture, such as the cheese industry, encouraged.

As usual the booths and refreshment stands will be on the grounds besides many outside concessions. This year a midway operated by Harry Lottridge will be in evidence which will no doubt draw large crowds. The Campbellford Branch No. 103 Canadian Legion B.E.S. League will also have charge of booths on the grounds.

Horse racing will be featured with a purse amounting to $300 offered. All races will be mile heats with a purse division of 50, 30 and 20 per cent. Three classes will be shown with purses of $125, $100 and $75. The best three out of five heats to count. Each race must have at least four contestants. Softball will be the games feature this year with four champion teams contesting. In the men's class the Campbellford Clerks will clash with Bethel and in the ladies' contest Belleville will be matched against Keene.

Charles Macoun is superintendent of the horse class with William Duncan supervising the roadsters and a carriage class. These classes are heavy draft, general purpose, agricultural purpose, pure bred draft horses and roadsters. In addition the Boy's Foal class, which is open to Northumberland County, will be featured with nine prize awards ranging from $12 to $3. In the sheep and pig classes which are under W. H. Locke and Frank Lee respectively many classes are shown. Sheep include Cotswold, long wool, Leicesters, Lincolns, Dorsets, short wool, Shorpshires, Oxfords and South Downs. Pigs include Yorkshires, Tamworth and Berkshires.

Large Poultry Entry

Poultry lists include a great variety of classes which are under the direction of W. J. Abernethy and W. S. Milne. Prizes are given for cocks, hens, cockerels and pullets in each class, turkeys, geese, ducks and poultry single and hares and rabbits in pairs. The classes are American, Asiatic, Mediterranean, English, Polish, French, Continental, Games, Bantams, Miscellaneous, Ducks, Geese, Turkeys and Hares and Rabbits.

G. S. VanVolkenburg and J. A. Murray have a large list of produce to superintend. This includes grains and seeds all of which must be 1931 products and are listed ie. vegetables, including early and late potatoes, field roots, miscellaneous vegetables, orchard and garden produce, and apiary and dairy products.

In the cattle class Garnet Curle will be looking after the Shorthorns, Herefords and Aberdeen Angus while Robert Innes will handle Holsteins, Jerseys, Ayrshires and grade cattle.

Mrs. Charles Macoun and Mrs. John Locke are superintending several large classes which include domestic science, home baking, fruits and jellies, domestic needlecraft, ladies' fancy work, dining room furnishings, bed room furnishings, ladies' personal wear, library or living room (colored material), infant's wear, and in the fine arts class, oil paintings, water colors, pencil drawings, crayon drawings, and miscellaneous collections. Of the flower class which includes a large variety of blooms C. Palliser is the judge.

The championship school fair will also be staged in connection with this event, on the second day of the function. This will include the judging of exhibits, sewing competition, livestock naming competition and a parade of the schools.

The officers of the Association are: President, Dr. S. L. O'Hara; first vice-president, W. J. Abernethy; second vice-president, Robert Innes; secretary-treasurer, J. N. Stone.

EIGHTY-FIVE DELEGATES GATHER FOR BELLEVILLE PRESBYTERY

Rev. A. Crosley Hunter Describes Need for Aid in Parts of Prairies.

COMMITTEE IS NAMED.

QUEENSBORO, Sept. 22 (Examiner Correspondence)—The first meeting for the seventh year of the United Church of Canada, of the Belleville Presbytery met in Wellington on Thursday, Sept. 17 at 9.30 o'clock, with about 85 delegates present. The following ministers and laymen were made corresponding members, Rev. F. L. Brown, Toronto, superintendent of Home Missions for the Bay of Quinte and Toronto conferences; Rev. G. C. R. McQuade, of Oshawa; Rev. A. J. Terrill, Almonte; Mr. H. C. Martin, Stirling, treasurer of Presbytery; Rev. R. A. Whattam, Toronto, representing the Prohibition Union and Rev. G. A. Williams, Field Secretary for the M. and M. Fund of the conference.

Rev. C. S. Reddick, of Bloomfield, the chairman, presided, and opened the meeting by singing, "Jesus the name high over all." Mr. Reddick read the scripture from St. John ch. 8, and Dr. Taylor of Wellington offered prayer.

The roll was revised by calling the different charges in the Presbytery after which Rev. G. W. W. Rivers of Madoc, secretary of the inductions committee, reported that there were eleven new ministers in the Presbytery this year, Revs. J. A. McDonald Coe Hill; J. R. Trumpour, Eldorado; J. M. Fraser, Bancroft; W. F. Fletcher, Odessa; W. G. Fletcher, Ameliasburg; W. A. Edwards, Flinton; E. W. Caffley, Plainfield; H. H. Hillis, Wellington; H. H. Mutton, Foxboro; R. D. Mullin, Rednersville and Theopolis Smith, Monteagle, all of whom had been inducted except the last two mentioned.

The following tellers were then appointed Revs. C. Brethen, Trenton; J. E. Beckel, Napanee; W. G. Fletcher, Ameliasburg; Mr. A. M. Fraser and Mr. Bickle.

Rev. Wendell P. Woodger, of Grace Church, Napanee, was elected chairman on the third ballot, the runners up were Revs. E. A. McCutcheon, the Tabernacle Church, Belleville and A. E. Jones, King Street Church, Trenton.

Rev. J. E. Beckel, of Bay circuit, Napanee was elected secretary, on the second ballot to succeed the Rev. G. C. R. McQuade who has moved out of the Presbytery. The runners up were Revs. H. W. Foley, Selby and E. S. Reddick, Bloomfield. On motion the acting secretary was authorized to cast a ballot re-electing Mr. Harold Martin, of Stirling treasurer.

The following composed the nominating committee which struck the list of standing committees for the year, Rev. Wendell P. Woodger, Rev. A. E. McCutcheon, Rev. J. M. Wooten, Mr. Alpine Woods and Mr. Stillman Gay.

On motion of Rev. F. M. Wooten and Dr. Taylor a hearty vote of thanks was tendered Rev. G. C. R. McQuade, the retiring secretary. Several members spoke briefly supporting the motion.

Mr. Clarence Mallory, Bloomfield was elected lay delegate to the conference executive committee.

Rev. R. A. Whattam in a brief address said, "Alcohol is a very great evil and many people are definitely discontented with the liquor traffic. In the liquor year 1929-30 over 400,000 Ontario citizens had purchased permits and their average expenditure was $120. For $120 at age thirty each of these citizens could have purchased an Ordinary Life Policy for $7,500 payable to the family in case of death. This would cover approximately half the homes in Ontario with additional protection of $3,000,000,000."

Revs. E. W. Rowland and F. G. Joblin with Mr. Harold C. Martin, all of Stirling were appointed a finance committee with the former two auditors.

Situation in West

Rev. A. Crosley Hunter of Toronto, who spent several weeks in Southern Saskatchewan and who has just returned presented the need of the people in the dried out area, he said, "That in 1928 the C.P.R. had freighted out of that area 52,000,000 of wheat and to-day it is desolate. In 1928 the yield per acre was sixty bushels and in 1931 there was nothing." Mr. Hunter stated that in the year 1930 the government had spent $1,400,000 in relief and in the first six months of 1931 the sum of $17,000,000 had been given. "There are," he said, "125,000 families who will starve this winter if help is not sent, but it will be given." "Twenty-four hundred people in one municipality are all dependent on relief and not more than 5 per cent of the taxes will be paid." One medical doctor received only two dollars in a month and told the people he would have to leave. Schools closed before the end of last year and will not open this term. Mr. Hunter described one congregation which had asked for the loan of clothes over Sunday to send their children to chuch. He stated, "There were 15,000 fewer automobile licenses sold in 1931 than in the corresponding period last year." Clothing is being sent and it is probable that a car load of vegetables and fruit will be forwarded from the Belleville Presbytery. The matter has been left in the hands of the M. and M. Fund committee.

Rev. G. A. Williams stated that it would require at least $326,000 extra this year from the people in Ontario, Quebec, the Maritimes and British Columbia and outlined the church's supreme challenge to its people, that the extra givings of the United Church people be on the following basis. That officers of the church and professors give ten per cent of their salary for one year beginning July first. That ministers receiving $3,000 and upwards give ten per cent for one year, that field secretaries give ten per cent for nine months, that ministers receiving from two to three thousand dollars give ten per cent for six months, that ministers receiving less than $2,000 give ten per cent. for three months and that laymen give ten per cent for three months. This amount to be in addition to the givings of former years.

On motion of Rev. G. W. W. Rivers a vote of thanks was extended to Rev. C. S. Reddick for the very efficient way in which he had filled the office of chairman during the past year.

The report of the committee on Religious Education provided for Institutes for young people to be held at strategic points and boys' conferences at Napanee under the leadership of Rev. W. P. Woodger, at Picton led by Rev. F. M. Wooten, at Tweed led by Mr. W. S. Gordon, at Trenton led by Rev. C. B. Brethen and at Belleville led by Rev. H. B. Neal.

The trustees of the parsonage at Cordova Mines were given permission to sell same and apply the proceeds to the debt on the parsonage at Marmora.

The trustees of the Hay Bay Church were given permission to borrow $500 to pay for improvements done on the property.

The time and place of next Presbytery meeting was left in the hands of the chairman and secretary.

REVISED PLANS

(Continued from Page 1)

completion because we realize that it will provide some employment. However, the operations are not usually under the Commission. We are trustees and not a spending body. We do not feel that we should be saddled with the details of construction."

City Engineer Ill.

Mayor Denne: Mr. Parsons is home sick and if the Commission would go ahead and get tenders, boss the job and turn the building over to the Council it would be a great help.

Mr. Eastwood: Very well; the architect may go ahead with the plans, and the Commission will hold a meeting next week so that there may be no delay. The members of the Commission do wish to help you.

The plans were accepted on Ald. Cotton's motion seconded by Ald. Holland; and the sub-committee was appointed by a motion moved by Ald. Holland and seconded by Ald. McNabb.

The new lavatories will be built on Charlotte street with a frontage of 44 feet and depth of 22 feet. The building will consist of a basement and one storey, and will include a rest room for women.

Other Work in Progress

Mayor Denne informed the Council that the laying of cement on Armour Road was begun Monday morning.

Ald. Macdonald: How many men has the city engaged now?

Ald. Hamilton: About 150.

Ald. Macdonald: That is about one-third of the number of married men we had listed as unemployed.

Ald. Hamilton: As a matter of fact there are too many on every job now.

Ald. Phelan: What about pulling up the street railway? That would give work to some.

Ald. Hamilton: We don't want to start that until we are ready for it. You would have streets torn up and unfinished too long.

Ald. Macdonald: I thought we were going to start work on Bolivar and Sherbrooke streets. That has been side-tracked for a year.

Ald. Hamilton: That is not a big job, and we are getting around to it, but we have men at work on London street, on Aylmer street south, and we are building a sidewalk on the south side of Charles street and on Robinson street. There are also men working on the Dalhousie street bridge. They are nearly finished there.

The Appeal to Ottawa.

Ald. Tuggey: What about speeding up going to Ottawa?

Mayor Denne: From what they told us in Toronto, there is not much chance of getting any buildings; but I'm willing to do anything we can.

Ald. Tuggey: Why should the property owners have to bear so much of the cost. They are being taxed to death now. The government takes the gasoline tax, they collect from us for old age pensions, mothers' allowance and so on.

Mayor Denne: Now you are talking about the Ontario Government.

Ald. McNabb: They've got the drop on the municipalities.

Ald. Tuggey: Why should they have the drop on the municipalities?

Ald. Fitzpatrick: The government is spending a great deal of money.

Ald. Tuggey: Yes, and they're collecting a great deal, too. They've got lots of ways for getting money by other methods of taxation. Now it all seems to be reverting back on the municipalities and the man who owns property.

Mayor Denne: The municipalities have got to assume a share of the cost of relief work.

Ald. Tuggey: We are assuming a share; but I claim we are paying too big a share right now.

Ald. McNabb asked the Mayor if there was any more business before the meeting, and Ald. Tuggey's contention was terminated by adjournment.

Ald. Holland reported that John Murphy had resumed his work at the incinerator and Walter Whitehead had been re-engaged. He had also appointed Mr. Withers to night duty because of the heavy run of refuse from gardens, and also because of complaints against the burning of surplus refuse on the river front south of Simcoe street.

Cigarette vending machines are to be placed in London busses.

G. N. PATTERSON IS DEAD IN PORT HOPE

Veteran Coal Dealer and Former Member of Council Passes Away

PORT HOPE, Sept. 22.—George N. Patterson, coal merchant and a former member of the town council, serving in the capacity of deputy reeve, passed away suddenly Saturday afternoon at the family residence on King street. He had been ailing for the greater part of the summer, but his death on Saturday was most unexpected. He was in his 81st year.

Born at Campbellcroft, he was respected in that section and also in Port Hope. Previous to coming to Port Hope he farmed on the family property and was connected in the grain business. Coming to Port Hope about forty years ago, he opened a coal, wood and building supplies business on Cavan street and for some years has been associated in business with his son-in-law, A. G. Dawson. He is a former member of the harbor board, and has always taken a great interest in municipal affairs.

Hold Manoeuvres

The officers of the Durham Regiment held a tactical exercise in the territory between Welcome and Perrytown Saturday afternoon. The manoeuvres of a withdrawal were theoretically worked out with Major A. V. Thorne and Capt. J. A. V. Fraser as directing staff officers.

Fair President Given 2 Special Donations

Two donations to the Peterborough Exhibition have been received by Mayor Denne as president, one for $250 from Mr. W. G. Morrow and the other for $25 from Rev. Paul Costello.

In sending these cash contributions to the Exhibition directorate, both donors wrote that they wish to show their appreciation of the practical success of the Exhibition as an aid to agriculture in this district, and especially to assist in the excellent results which were accomplished this year.

Mayor Denne, on behalf of the Exhibition Board, has thanked Mr. Morrow and Rev. Father Costello for their contributions, and especially for the personal interest they have taken in the welfare and progress of the Exhibition.

Weddings

GARDNER—MILLER

WARSAW, Sept. 22 (Examiner Correspondence) — A very pretty wedding took place in Warsaw United Church on Wednesday afternoon, Sept. the sixteenth, at half past two o'clock, when Lyall Marie, youngest daughter of Stuart Miller, and the late Mrs. Miller was united in the holy bonds of matrimony to Maitland Gardner, youngest son of Mr. and Mrs. Robert Gardner, of Norwood.

The bride entered the church with her father who gave her in marriage, while Mrs. George Taylor played the wedding march from Lohingren.

The ceremony was performed by Rev. Gordon W. Gardner, pastor of Trinity United Church, Bobcaygeon, brother of the groom, assisted by Rev. J. W. Wilkinson, pastor of Warsaw United Church.

The bride was attired in a dainty gown of pink chiffon and silk lace, with picture hat and accessories to match, and carried a bouquet of pink and white asters, was attended by her sister, Miss Verna Miller, who was gowned in mauve, with picture hat, and carried a bouquet of mauve and white dalhias. Russel Gardner, Phm.B. of Norwood, brother of the groom was groomsman.

During the signing of the register, Miss Olive Cullen, cousin of the bride, sang "Because you came to me."

The church was prettily decorated with white and pink streamers, and white and pink asters.

After the ceremony a reception was held at the bride's home and supper was served to members of the immediate families of the contracting parties.

The happy young couple left by motor amid showers of confetti for a honeymoon trip of a few days. The bride travelled in a navy suit with black hat, gloves and wore a handsome neckpiece the gift of the groom.

The bridesmaid received a scarf, the soloist a compact, and the ushers, Messrs. Earl Humphries, cousin of the groom, and Gordon Miles, cousin of the bride, a silver ever-sharp pencil each.

German talkies are having long runs in Norway this season.

HOME TOWNERS

TIDBITS INTERESTING AND HUMOROUS FROM CAMPBELLFORD

A very severe electric storm swept this section of the country late Sunday evening lasting for over two hours, accompanied by a torrential downpour of rain. No damage was reported however but the moisture came as a blessing to the farmers, putting the ground in shape for ploughing and filling the wells.

The work of cleaning out the creek west of the river is going ahead fast, the town gang making a good job of it. Both bottom and sides are being dug out and cleaned and the creek generally got in shape for the spring rise of water.

Mr. A. D. Bennett left for Spencerville on Friday for the week end and will return on Tuesday. He will be accompanied home by Mrs. Bennett who has been visiting at that place for the past week.

Mr. Peter Ewing of Warkworth was a Saturday visitor to town.

Mr. Leslie Clegg returned to his home in Hamilton on Saturday after a weeks' visit with his mother, Mrs. H. Clegg.

Mr. and Mrs. W. B. Horkins of Toronto were the week-end guests of the latter's parents, Mr. and Mrs. T. J. Horkins. Mr. Horkins while here addressed the Campbellford Rotary Club.

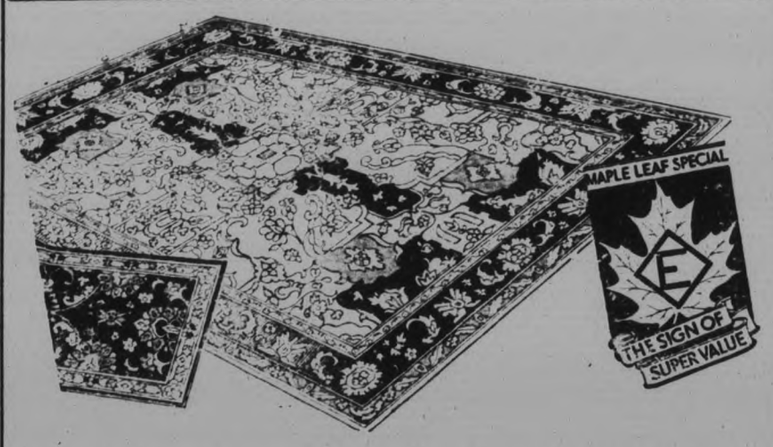
Messrs Gordon and Cecil Bertrand motored to Toronto on Sunday to visit their brother, Sam Bertrand, who is in the Toronto General Hospital recovering from an operation on his arm.

Miss Edna Brady, graduate nurse of Cleveland, Ohio, is spending her vacation with her father, Mr. J. W. Brady, Rannie street.

Mrs. Ida Angus, nurse-in-training at Cobourg, is on a three week's vacation, the guest of her parents, Mr. and Mrs. J. I. Adams.

Mrs. John Nancarrow, who suffered a fall last week sustaining minor injuries, is much improved in health although still confined to her bed.

Residents of town will be glad to hear that the condition of the Rev. R. C. Tait, who for the past few days has been in a critical condition in Kingston hospital, shows a little improvement.



Wednesday's Maple Leaf Special Offers New Value in

Seamless Axminster Rugs

ROOM SIZE AND SCATTER SIZE — IN MATCHING PATTERNS

THE CANADIAN DEPARTMENT STORES LIMITED

HENRY MERRIAM

(Continued from Page 1)

Dr. Sutton, of Norwood, the first witness, said that Merriam was dead when he reached the scene of the accident on the forenoon of September 11. The neck was badly bruised and swollen and the left leg was broken. The injury to the neck was sufficient to cause death. He did not examine the skull for a fracture.

Arthur Vine, of Claremont, 25-year-old section-hand and workmate of the victim, testified that Merriam came to the gang in March of this year. The gang was living in a boarding car. They left Indian River on the morning of the accident, and after loading some old rails on a flat car, the train on which they were riding reached Norwood at about 10.30 a.m.

Train Backing Up.

The train was moving east, backing into the station with the caboose first. The train was coming through the station for the second time that morning. It had come in before to take out an empty car. Witness and deceased were on the platform. The brakeman was inside the car. Other men of the gang were riding on flat cars, stated witness.

As the train was entering the station Merriam said: "We'll get a drink." He stepped down the step on the side near the station buildings. The conductor got off on the other side. "There was a pump at the station," replied witness in answer to a question by the crown attorney. "The water in the caboose was kind of warm; it had been put on the train at Havelock."

After further questioning, Mr McElderry told witness: "I am instructed you and he were tussling on the platform."

"We were not," replied Vine.

"Did you have any tussle with Merriam that morning?" "No, sir."

Describing the accident, Vine said the train was going too fast to jump off. "After Merriam jumped I went down the steps to see how he had made out. He appeared to take two steps and then fell down and rolled in between the platform and the train. I ran back and found him lying against the rails. I got hold of him and tried to lift him and then waited for the other fellows to come."

Vine, who packed Merriam's clothes to be sent to his parents, said he did so on the instructions of the foreman. Closely questioned by the crown attorney, he denied any knowledge of money in the pockets of the clothing or what became of the young man's bank book.

Thomas Small, who would not commit himself to give an estimate of the speed at which the train was going just previous to the fatality, related how he had gone out on the platform of the caboose after having a playful argument over a cup of water with Merriam. He later climbed from the caboose onto a flat car on which he was sitting when he saw Merriam fall between the platform and the wheels of the train as he attempted to jump off. "I waved to the engineer to stop," exclaimed witness. "He did not see me. The 'brakie' went to pull the air, but the fireman had already applied the brakes."

Merriam Well Liked.

"No one in the gang had anything against Merriam. He was well liked and he and Vine were good pals," Small said later.

He could give no explanation why Merriam should desire to jump from a moving train to get a drink of water when there was water in the caboose, unless it was that the water in the caboose was too warm. After the accident the train went five rail lengths until it stopped. A rail was 39 feet long, he explained.

E. Morgan, of Claremont, foreman of the section gang of 16 men, was on a load of rails at the time of the accident. The rails were on a flat car near the engine. When the train came through the station witness judged the speed to be from 12 to 15 m.p.h. He suggested that Merriam fell because he held on to the train too long after jumping. Questioned concerning instructions given about the packing of Merriam's clothes, witness said it was understood that some of the boys were to do the packing, and he thought he did notify Vine to pack the clothes.

William Woods, fireman of the train, was sitting on the left hand side of the engine. "I saw Merriam at the back of the van," he stated, "just as he was falling. He was grabbing for the back of the van just before he went under the boxes. I saw he was in trouble and immediately called to the engineer to stop."

Witness could not say whether Merriam was running at the time he was grabbing the rail or whether he was being trailed. His feet were not on the platform, but were on the ground beside the rails.

The speed of the train at that time, he thought, would be from 15 to 17 m.p.h. It was going too fast for anyone to jump off, he thought.

John F. Brown, brakeman, was at the rear end of the caboose at the time of the accident with Vine, Conductor Jay Bedford, of Havelock, and Merriam. He did not hear any discussion about a drink of water.

Merriam went onto the bottom step. He had on a white jacket. "I saw it swing out," said witness, referring to the white jacket, and describing a wide sweep with his arms. "I reached for the air. The emergency brake had already been applied from the engine."

Conductor Bedford jumped off the north side of the caboose at approximately the same moment Merriam attempted to jump. He thought the train was travelling at 15 m.p.h., "or maybe a little more." Small, he said, was sitting on a flat car. "I saw him give a stop sign and I repeated it to the engineer. The train stopped in four car lengths. There was no nonsense going on of any sort while he was on the platform."

Evidence was also given by Mr. Merriam, who produced a boot and left hand mitt worn by his son on the day of the fatality. He was permitted, he said, through the courtesy of the coroner, to go to the scene of the accident with the jurymen, and had come to the conclusion that his boy was not jumping off the train to get a drink of water, as footmarks showed that he had run down the platform past the pump.

Referring to his son's effects which, he said, were missing, Mr Merriam stated that his boy was in the habit of keeping records. These were missing, while only 11 cents in cash was found in his possession.

Other witnesses who testified were Stanley Fennell, Robert Hannon, John McConnell, Howard Adams and Eldon Pirie, trainman.

BILL ABOLISHING GOLD STANDARD

(Continued from Page One.)

not the slightest cause for anxiety about the money you have in banks or your money in savings banks. Avoid a panic.

We mean to do our duty. You can do yours by not getting rattled, by carrying on calmly and steadily with your daily occupations in confidence. Britain will emerge from the present crisis—as she has emerged from graver emergencies in the past—a stronger and more prosperous nation than before.

Laborite In Ministry

Newspapers affirmed and denied a report that a movement was under way to draft leaders of the Labor Opposition into the national ministry, now composed of Conservative, Liberals and minority Labor members.

The Daily Mail said on what it termed first-hand authority that Premier Ramsay Macdonald was negotiating with Rt. Hon. Arthur Henderson, his former colleague, to make Mr. Henderson Home Secretary and to find places for other former Labor ministers. The appointments were said to depend on the Conservatives.

The Daily Herald, Labor party organ, said it was informed on the highest authority that such a plan was not being contemplated.

The possibility of an early election loomed once more on the strength of a meeting of back bench Conservatives who declared unanimously in favor of an immediate appeal to the people on a protective tariff issue. They pledged unqualified support to Mr. Mcdonald in the event that he led the way.

The Daily Express, firm believer in a high tariff, said the Premier was prepared to call an election this fall with a protectionist program on the basis of growing support among the Liberals for such a move.

WAR GRAVES IN FLANDERS

(Continued from Page 1)

identification was not so difficult as sometimes thought. There were, however, some graves that held the remains of unknown warriors and on these were the words, "An Unknown Hero—Known Only to God."

Mr. Horkins also stated that all graves and cemeteries, whether Canadian, Australian, South African, Imperial or German, were looked after in the same way, declaring that the British are to be highly complimented on the work they are doing. "The trip was a comfort and a joy," he said, and he thought that nothing could improve or add to the beauty of the cemeteries in France."

The speaker visited the Canadian war cemetery, called Adanac, and the relic of the German gun, Big Bertha, which did so much damage to Paris during 1916.

On the return trip Mr. Horkins also visited England, spending a few days in London and viewing the historic sites and then journeyed to Ireland, the land of his forefathers, visiting Dublin, Limerick, Killarney and Cork, returning home on the same boat as the Rotary delegation from the European trip.

A vote of thanks was moved by the chairman, Vice-President H. N. Carr, which the club heartily endorsed. Mr. Horkins was born in Campbellford, leaving twenty years ago to take up his life work as a lawyer in Toronto.

Obituary

GEORGE STEVENS.

BLAIRTON, September 22 (Examiner Correspondence). — Shortly before ten o'clock on Sunday morning a figure familiar to many of the residents of this district in the person of George Stevens, died at the family residence in Belmont Township.

Three years ago Mr. Stevens suffered a stroke from which he never fully recovered. He was quite active, however, until last Tuesday, when illness set in, which it is believed, culminated in a second stroke with fatal results.

Mr. Stevens was 74 years of age. Born and raised in this and neighboring districts, he travelled extensively in his early years, partially in the interests of his health. His later life was spent with his brothers on their farm here, but he always maintained a keen interest in world affairs.

Mr. Stevens, who was unmarried, is survived by two brothers and one sister.

The funeral service was held at two o'clock on Tuesday afternoon, with interment in Maple Grove Cemetery.

SEYMOUR RESIDENT SUFFERS FIRE LOSS

Barn and Season's Crop Owned by Percy Wood Destroyed by Fire.

CAMPBELLFORD, Sept. 22 (By Examiner Staff Correspondent).—Lighting up the surrounding countryside for miles around the barn on the farm of Percy Wood on the Irish Line of Seymour township, was burned to the ground last evening, destroying all this season's crop. The blaze, which is thought to have started from spontaneous combustion, was first noticed by a young son of Mr. Wood, who went into the hay loft to fork the evening feed down to the cattle and found the upper portion of the barn in flames. He immediately notified his mother, the father being away from home assisting a neighbor with some work, and help was called, the neighbors doing all they could to prevent the spread of the fire. Only a favorable wind prevented the house from being fired; the two buildings being in close proximity. All stock was saved. Help was also called from Campbellford, many cars responding to the alarm. Damage was partly covered by insurance.

Keene Girls Win Softball League Championship

BRINTONS DROP THREE GAMES TO KEENE OUTFIT

City Girls Beaten 16 to 6 in Final Game of the Season.

ONE HOME RUN

Mary McCarthy Pitches Great Game for the Winners.

Keene are champions of the Girls' Softball League for 1931, winning their third game in a row in the final playoffs with Brintons by the score of 12 to 6 at the Bowl last night. A huge crowd, most of them pulling for the out-of-towners, was on hand and saw Brintons bow to a team that beat them in every department of the game.

The losers played ragged ball in the field, and had trouble connecting with Mary McCarthy's slants in all except the fourth inning. The visitors had good twirling and steady support while three doubles and a homer, with four singles gave them a big edge offensively.

They scored once in the opening stanza on a walk, an error and an infield out. A double by Dot Gainor, an out and a passed ball gave them another in the second. They crossed the platter four times in the third on a free base, three boots and H. Nelson's single. Another error and M. Brown's two-bagger gave them their seventh run in the fourth.

Hitless For Three Frames

After being held hitless for three frames, Brintons ran in three runs in the fourth on a walk and hits by D. Millar, I. Sturgeon, E. Hodson and M Macfarlane. They got their other three in the next on two free passes, an error and R. Curtis' long two-baser.

Keene scored twice in the fifth. H. Nelson started off with a single, and Dot Gainor slapped a homer to deep left. G. McCarthy singled but died on third. Iny the sixth they finished their scoring, shoving three across on a walk, two miscues, a singles by V. Dickson and R. Gainor's double

Mary McCarthy had her opponents popping up most of the time, while she held them to five hits, four in one frame. She fanned two and issued six bases on balls, but with good backing was seldom in danger. Ollie Prest, on the mound for Brintons, twirled a good game, allowing eight hits and five walks, as she struck out two. With better support, the game would have been much closer. She also fielded her position in good style.

The winners' infield played snappy ball, with I. Short and Dot Gainor looking good on hard catches. G. McCarthy and R. Gainor went nice in the outfield. For the other team, M. Snowden, O. Prest and G. Fields, handled some tough ones, although the latter's peg was poor.

Dot Gainor led the Keene maidends with the willow, having a double and a four-bagger in four trys. H. Nelson was next with two singles, while M. Brown and R. Gainor each had a double. R. Curtis, with a double in three appearances led the Carpetmakers, none of whom got two hits.

The box score:

Keene—	AB	R	H	PO	A	E
M. Brown, 2b	4	1	1	1	0	1
I. Short, 3b	3	2	0	3	1	0

Renault Is No Match For Larry Gains

WINS DECISION AT TORONTO

LARRY GAINS, BRITISH EMPIRE HEAVYWEIGHT CHAMP. Jack Renault, veteran French-Canadian heavyweight was decisively outpointed by Gains in their Toronto battle last night, the latter taking eight of the ten rounds.

BRITISH CHAMPION DECISIVE VICTOR IN TEN-ROUND BATTLE

Although Showing Improvement Over Last Fight, Gains Displeases Fans.

WINS EIGHT ROUNDS.

TORONTO, Sept. 22. — Larry Gains, British heavyweight champion, disposed of any claims Jack Renault might have had to the honors when he outpointed the French-Canadian veteran in the ten-round main bout of the Shamrock Club show at the Coliseum last evening. Gains beyond any doubt showed considerable improvement over his last Toronto bout, but it was evidently not enough to satisfy the fans, many of whom booed his boxing in the closing rounds. Irrespective of individual opinions on that score, however, there was no possibility of a dispute over the Toronto man's right to the decision.

Gains, broader in shoulders and with added weight, is a far more dangerous boxer than formerly, but he failed to at any time to have his experienced opponent in real distress. Renault, an old "war horse" with twelve years of boxing experience, was ring general enough to box his way out of difficulty every time Gains really stung him, which was at least once in every round. The records show that he has never been knocked out, and it was asking too much of Gains to accomplish something best heavyweights of the past decade have failed to do. Renault was stopped once, but it happened that he was injured in a fall out of the ring on that occasion. That was in a bout with the late Billy Miske in 1921.

Renault in Good Condition

There was no doubt but what Renault was in splendid condition for the bout. He was as strong at the end of it as in the first round, and, moreover, carried a right-hand punch which was a constant threat, and which made it impossible for Gains to take too many punches. Renault landed few clean blows to the jaw, but he did jar Gains on more than one occasion with terrific smashes to the ribs.

Gains, as was expected, was close to physical perfection. He had trained hard for the match and his showing proved it, for he was able to increase his speed whenever it wished, and to "take the play" from Renault when the latter attempted desperate rallies in each of the last two rounds.

From the standpoint of real boxing skill there was no question as to Gains's superiority. He won eight of the ten rounds, Renault securing an even break in the fourth and sixth rounds, but being outpointed in every other session. The loser was at his best when the boxing was done at close quarters. At times in the middle rounds he appeared to be out-manoeuvring Gains in drawing him in and then pummelling his ribs. Later, however, the British Empire titleholder changed this situation to his own advantage, working his arms inside Renault's guard and shooting his own right to the body.

At long range it was "all Gains." He was at his best when sharpshooting with his punches. On such occasions long, stinging lefts started hostilities, and the colored man followed quickly with two-handed attacks which usually placed Renault on the receiving end of three or four jolting blows. He knew enough not to let these flurries bother him, and always came back coolly in attempts to land his own powerful right.

FIGHTS LAST NIGHT

NEW YORK—Victorio Campolo, Argentine, stopped Umberto Torriani, Italy (2); Leo Mitchell, Long Beach, Calif., knocked out Joe Shelby, New York (5); Izzy Kaplan, Meridan, Conn., stopped Gus Worman, England, (4); Barney Baker, Boston, outpointed Frank Labianco, New York (5); Solly Wepner, New York, outpointed Steve Hayden, Bridgeport, Conn (5).

SPORTS By JIMMY THOMPSON

LIONEL CONACHER

Canada's greatest all-round athlete, is to-night being signally honored when Montreal Maroons play Toronto Maple Leafs in a professional box lacrosse game. It is "Lionel Conacher Night" and the "Big Train" associates, past and present, far and near, are gathering to pay tribute to the athlete who for years has stood out in hockey, football, baseball, wrestling, boxing, lacrosse and what-have-you. Conacher has been a standout all season in box lacrosse, having scored the vast majority of the goals counted by the Montreal Maroons. It is a poor night when he doesn't get at least six goals. Conacher is going to go into the wrestling game too, having announced various engagements to fill in the odd moments when he is not playing lacrosse or hockey. Perhaps he may be another Sonnenberg or McMilan, who like himself were former gridiron stars. Nothing he does but he does well. He once swopped punches with effect with Jack Dempsey. I hear he may be writing his life story soon. It will be a pretty piece of reading.

CUB PITCHERS GIVE 27 HITS TO THE GIANTS

New Yorkers Have No Trouble in Taking 15 to 7 Decision from Chicago.

REDS DEFEAT BRAVES.

Wesley Ferrell Stops Yankees' Streak and Cleveland Indians Win 5-1.

(By Gayle Talbot, A.P. Sports Writer.)

The Boston Red Sox and their new manager, John "Shano" Collins, fast are proving themselves the surprise package of the American League. It seems now they will finish in fifth place, which is exactly three places higher than their most optimistic supporters would have predicted a month ago.

If they do, Collins may regard his season in the majors as a howling success. He took over a team that consisted of a high class pitching staff and one very fine outfielder, Earl Webb, and in the closing month of the campaign he has a club that is playing some of the best ball in either league.

Sox Get Double Win

In vaulting from eighth place to fifth, the Sox have won 11 of their last 13 games. A double victory over St. Louis yesterday, 2 to 0 and 9 to 2, gave them five in a row, their longest winning streak of the year.

Bill Durham, a frail right-hander, pitched his third victory and second shut-out in ten days as he let the Browns down with three hits in the first tilt. Ed Morris allowed only four blows in the nightcap and won when his mates jumped on Sam Gray for all their runs in the sixth and seventh innings.

Durham has allowed only one run in his last three games, including one 13-inning struggle.

The New York Yankees fell back into a tie with Washington for second place in the American League when they dropped a 5 to 1 decision to Cleveland while the Senators were trimming the Chicago White Sox, 5 to 3.

Wes Ferrell turned in his 21st triumph as he held the Yankees to nine widely scattered hits, while his support bunched eight off Charlie Ruffing. It broke a 10-game winning streak for Ruth, Gehrig and Co. The Senators beat Ted Lyons, last year's ace of the White Sox staff, by bunching their eight hits in four frames.

Tapering off in preparation for the World Series, the Athletics divided with Detroit, winning one game, 3 to 2, and losing another, 6 to 5. Jimmy Foxx hit a home run in each game, his second coming with the bases filled in the seventh inning of the nightcap and tying the score.

Kauffman Goes Strong

Tony Kauffman, St. Louis Cardinal relief pitcher, held Brooklyn hitless for 4 2-3 innings while the National League champions came from behind to win in ten innings, 11 to 10. Jimmy Collins' triple after Jim Bottomley had walked gave the Cards the verdict.

The Cincinnati Reds took their third straight from the floudering Boston Braves, 3 to 2, when they fell upon Seibold for four hits and two runs in the eighth inning. Red Lucas chalked up his 14th victory.

The Phillies pecked away at four Pittsburg pitchers to take their series opener, 6 to 4. Bill Harris, the Pirates' rookie sensation, lasted only four innings. Jim Elliott held the Pirates well until the eighth, when Ray Benge relieved him.

Roger Hornsby's pitching staff received a fine drubbing as the New York Giants made 27 hits good for a 15 to 7 win over the Cubs. Hal Schumacher went the route for the winners, while five Chicago flingers had little success.

Wrestling Last Night.

MONTREAL, Que.—George Godfrey, Leiperville, Pa., 255, defeated Raoul Simon, 235, France, two falls out of three (Simon first, 16.35; Godfrey, second, 3.40 and third 5.50). George Zarynoff, 230, New York, drew with Charles Strack, 220, Stillwater, Okla., 20.00; Cyclone Reese, 198, Boston, drew with Farmer Barney, 205, New York, 20.00.

THRTY-TWO QUALIFIERS

Mrs. Glenna Collet Vare Matched Against Jean Armstrong in First.

OVER TRICKY COURSE.

(By Francis B. Cass, Associated Press Staff Writer.)

BUFFALO COUNTRY CLUB, Williamsville, N.Y., September 22.—The 32 qualifiers in the 35th women's national golf championship settled down to serious business today as the first round of match play began.

Mrs. Glenna Collett Vare, who is attempting her sixth triumph and fourth consecutive championship, played Jean Armstrong, Chicago youngster, who made a creditable showing in the 1931 western championship.

Mrs. Vare, who shot an 82 yesterday in the qualifying round to be deadlocked with Maureen Orcutt of Englewood, N.J., Canadian champion; Mrs. Opal S. Hill, Western champion, and Mrs. Harley Higbie of Detroit, for the medal, Mrs. Vare's round was typical of her championship game, except for spurts of poor putting, and she is not expected to have any trouble in subduing Miss Armstrong.

Virginia Van Wie of Chicago, twice a finalist in the national championship, and Mrs. Marion Turpie Lake, of Flushing, L.I., southern and Long Island champion, were looked to furnish the day's pyrotechnics.

Miss Van Wie is right at home on this 6,475-yard course, which favors strong iron players. The Chicago girl is noted for her iron play, and matched agains Mrs. Lake, who is straight and steady, their match is expected to be the thriller of the first round.

One of the other four qualifying leaders, Miss Orcutt, met Jane Broadwell, who recently won the Westchester Country Club championship. Miss Broadwell is one of the leading younger players in the MetroPolitan district and can be relied upon to give a good account of herself against Miss Orcutt, who next week defends the Canadian championship.

Mrs. Hill, who took up golf seven years ago for her health and has risen to great heights in the royal and ancient game, had as her opponent Ann Brooks, powerful and bespectacled Nyack, N.Y., girl, who this year captured the Westchester invitation tournament.

A young girl who has met and defeated her mother the past three years for the West Virginia State championship, Miss Fritzi Stifel of Wheeling, encountered Mrs. Higbie.

Great Britain's threat, Enid Wilson, winner of this year's British championship, matched shots with Martha Brewer of Weston, Mass.

Miss Wilson entered the tournament with the set purpose of taking the Robert Cox Cup back to Great Britain with her. The cup has left United States shores only once in its 32 years' existence.

WINTER PLANS ARE DISCUSSED

Boxing, Running and Hockey Planned by All Saints' A.C.

COACH NEEDED.

A large turnout of members attended the first meeting of the year for All Saints' Athletic Club in their club rooms last night, and ambitious plans for the fall and winter months were discussed to some length. Boxing, running and hockey were the main sports planned by those present, and from th enthusiasm shown, the A.S.A.A. is in for a bigger year than they enjoyed last year.

After the minutes were read, they discussed the club's standing from the financial end of it, and agreed that with the equipment purchased, they had kept out the "red." A number of the members are interested in boxing, having done considerable with the club trainer last year. It was decided to continue in this sport, and a committee was appointed to take care of boxing and make a report on it at the next meeting.

With many of them running, a harrier branch of the A.S.A.A. was formed, with a committee to handle it. The runners have been at it for some time, and are ready to enter any road races locally. Hockey will be left over until a later date, although it was taken for granted that another strong team, perhaps two, would wear the club's colors again this winter.

A good all-around coach, with a knowledge of the various sports is being sought, and when he is obtained, the club's activities will commence at once. A meeting has been called for at the club rooms at 7.30 next Friday night, with boxing being the main topic to be discussed.

You will find many things in the Classified Ads. of The Examiner.

VARSITY ORPHANS WILL FIELD STRONG GRID SQUAD THIS FALL

Six Teams Will Make Up Senior Rugby Football Union Campaign.

PRE-SEASON DOPE.

(By Jack Hambleton, C.P. Staff Writer).

TORONTO, Ont., Sept. 22.—With the senior Ontario Rugby football union scheduled to open on October 3, a last minute drive for conditioning is in progress, and when Windsor trots onto the gridiron at Sarnia it is most unlikely there will be fireworks. The two border teams open the union's engagement, with all teams getting down to work one week later. Prospects for a big season look very good.

And, as in the case of the interprovincial and intercollegiate leagues, the forward pass may play a prominent part in the final standings. Balmy Beach, Dominion champions last year, lost to Montreal A.A.A., 16-0 on Saturday in an exhibition tussle, and the pass, it must be admitted, was not a tremendous success. The Winged Wheelers completed only one attempt out of five, while the Beach made one out of three.

But Balmy's defeat is no real indication of the team's strength. The Beachers never swing into their true stride until well on in the season, and were handicapped somewhat Saturday in not having several players who were still performing on the baseball diamond.

Lost Several Players.

The Beach have lost several players, but still have Snyder, Harris, McKenzie and many others of last year's championship aggregation. Ab Box, their smart kicker, will be in action.

Only six teams are in the loop this year, Camp Borden having withdrawn. It leaves the line-up as follows: Eastern Section—Balmy Beach, Kitchener-Waterloo, University of Toronto. Western—Sarnia, Windsor and Hamilton.

Either Sarnia or Windsor may be at the head of the Western group. Windsor have played in previous years under American rules, and the forward pass should not worry them a great deal. The team is much stronger than its showing last year indicated.

Sarnia is almost certain to be in the hunt. The club has been battling for the major awards for some years, and the team has been strengthened considerably. They were knocked out of the competition last season when they dropped a game to Kitchener-Waterloo — a game which, by the way, the experts had thought could not be lost.

Kitchener-Waterloo is somewhat of an unknown quantity. Little has been heard of their present prospects, and the silence is ominous. All pre-season predictions have been conspicuous by their absence, and rival coaches are wondering just what may be happening around Kitchener. The team, however, is understood to be built up on a good share of last year's fighting squad and a fair supply of smart juniors.

Hamilton Tiger Cubs have not yet picked a team—but the entire group of candidates have been working with the Big Four team, and between the two the Mountain City have a pair of smart squads. The big team itself has been divided into two sections, "A" and "B", and it is not unlikely the "B" squad will carry the colors into the O.R.F.U. battle.

Field Strong Team

University of Toronto has not been markedly successful on the gridiron but this year promises to be different. Eighty players turned out for the early Varsity practices, and those unable to make the intercollegiate team should certainly have a royal chance to wind up with the Orphans for a while at least.

Most of the six teams in the loop have spent part of this week at practice games, and the forward pass has been drilled into them. There is, however, still considerable doubt about the flip and until the rules have been further clarified most of the coaches will hesitate to use the spectacular play, relying more on the heavy line work and equally spectacular kicking.

It has been epointed out that M.A.A.A. coached by Frank Shaughnessy, who perhaps is as conversant with the forward pass as any coach in Canada, couldn't make it work very well against the Beachers. Once the difficulties are ironed-out, however, fans on the O.R.F.U. circuit may expect to see the ball soaring overhead by both the kicking and throwing route.

Lacrosse Notes

There will be a lacrosse practice this evening at 5.15 at the Exhibition Grounds in preparation for the pending game in Kingston, and every player should be on hand.

TACOMA FLIERS' NEW GOAL

NOME, Alaska, Sept. 22 (C.P.)—Plans for a flight of upwards of 20 hours from Nome to Tacoma, Wash., were made to-day by Cecil A. Allen and Don Moyle, California aviators.

They acted on instructions from Richard Fenton, their business manager, in preparing to attempt to reach Tacoma, home city of John Buffelin, lumberman and sponsor of their flight, from the Orient.

YESTERDAY'S STARS

Chick Fullis, Giants — Clouted homer and four singles against Cubs.

Ray Benge, Phillies—Stepped in as relief pitcher in eighth, and stopped threatening Pirate rally.

Red Lucas, Reds — Scattered Brave's nine hits to win, 3—2.

Jimmy Collins, Cardinals—Tripled in tenth to drive in run that beat Robins 11-10.

Jimmy Foxx, Athletics—Hit 28th and 29th homers, second with bases filled, in double header against Tigers.

Bumps Hadley and Fred Marberry, Senators—Held White Sox to eight hits to win 5—3.

Ed Durham and Ed Morris, Red Sox—Beat Browns in both ends of double-header, allowing only seven hits all told.

Dick Porter and Luke Sewell, Indians—Divided four hits between them and drove in four runs against Yankees.

HASTINGS WINS BOWLING GAMES

Huycke is Victor Over Matheson of Havelock in First Match 13-12.

ON HOME GREENS.

HASTINGS, Sept. 22 (Examiner Correspondence).—Before a large gallery of interested spectators Hastings won three out of four games in the scheduled Trent Valley League games on the local greens.

Dr. Thomson dropped his first game to Simons by a 13 to 4 count, while Huycke took an extra-end game from Mathieson, 13 to 12.

P.C.I. Play Under New Rugby Rules

Rugby enthusiasts might spend their time advantageously studying these new rules. It will increase their knowledge of what is taking place out on Canadian gridirons this fall. P.C.I. teams will play under these new rules.

1.—The convert, after a touchdown, has been abolished. In its place, the team scoring the touch will scrimmage at a point not closer than the 5 yd. line. One point will be given if the team in one down successfuly (1) crosses the goal line, or (2) kicks a placement, or (3) completes a forward pass across the goal line.

2.—The forward pass may be thrown on any down from any point on the field.

A complete pass is one that is caught by any eligible player.

Eligible players, (1) all opponents, (2) end men on attacking line of scrimmage, (3) any player more than 1 yd. behind line of scrimmage when ball is snapped.

Restrictions: (1) 7 men must be standing still on line of scrimmage when ball is snapped. Therefore the 2nd men of these 7 are eligible to receive the pass and the four others behind the line.

An incomplete pass is rescrimmaged with loss of one down.

Restrictions (1) If pass be thrown from within opponents' 25 yd. line and is not successfully completed by the attackers, the defenders have possession on their 25 yd. line.

(2) If the pass be thrown into goal and not completed by the attackers the defenders have possession on 25 yd. line.

(3) If on last down, opponents get possession on the spot where the ball was last put into play.

The out-of-bounds rule does not apply to forward passes.

If a pass goes out of bounds whether touching an opponent or not, it is considered incomplete.

CASUAL COMMENT

Back in the spring, eight girls' teams began their softball schedule, one that kept them at it three and four nights a week all through June, July and August. Three teams entered the playdowns the first of September, with Keene and Brintons finally meeting in the play-offs. And last night, Keene proved themselves to be the best team in the league by winning their third straight game.

• • • • • • •

They are champs of the Girls' Softball League, holders of the silver trophy, and will be banquetted at the Elite Cafe. They deserve it all, as they battled hard to pull up during the second half of the schedule, and were given just an outside chance of getting anywhere by the wise guys. Well, they took that chance and are sitting pretty in the canary's perch to-day.

• • • • • • •

Brintons, who looked great all through the schedule, sort of folded up at the last, showing little fight or pep. And the fact that the fans were mostly pulling for Keene seemed to bother them too. However, they did all right and lost to a team that has been playing softball several years together.

• • • • • • •

It was a big success, that league, and provided real entertainment for hundreds of fans weekly. Girls' softball died out in Peterborough some years ago, and this year's comeback proves the fans want the game. The players, too, enjoyed it all the time. In fact, we imagine there'll be a flock of folks who won't know what to do with their evenings now that it is all over.

• • • • • • •

Our guess is that the coaching of Jack Dane had considerable to do with the surprising finish put up by the Keene damsels. He kept them on their toes and working hard, and they came through okay.

• • • • • • •

A number of inquiries have been received here as to when the Cobourg All-Stars are coming to play Westclox. We haven't heard anything definite, but understand the Cobourg girls have disbanded. If that's the case, they'll hardly get together again for a trip here, although the two teams would draw a good crowd some Saturday afternoon if they didn't wait too long.

• • • • • • •

The All Saints' Club is planning on a busy fall and winter in sports. They met last night with a big turnout, and made plans for running and boxing, and probably hockey as well. At their next session, Friday evening at 7.30, they'll go into the boxing end of it in more detail.

• • • • • • •

That club has a number of good exponents of the mitt game, and perhaps they'll be seen matched against the Foster A.C. scrappers in some of the local ring shows put on this winter. The game is returning to popular favor in this city after being in the doldrums for several years.

• • • • • • •

Quite a few rugby followers watched the P.C.I. bunch working out at Stevenson Park yesterday evening, and they seemed to think well of Ernie Legon's lineup. The Garnet and Grey will have some tough competition this year, but they look as if they could take care of it.

• • • • • • •

Although the boys won't be on ice for another three months, the men behind the teams are getting together already and talking hockey. From the early start and the ambitious plans, local puck followers are likely to have bigger and better hockey games than have been seen here since the Petes were known throughout Ontario.

SEVERAL TOSSERS TAKE PART IN HORSEHOE TOURNAMENT

Harry Gravelle and Wallace Nichols, of Bridgenorth, Among Winners.

RINGER CONTEST

Two singles matches and two doubles in the Horseshoe Tournament drew large entries and attracted good crowds of spectators a the Exhibition last week. The tournament was under the direction of Walter Fitzgerald, and included a singles and a doubles, a consolation singles and consolation doubles, and a ringer contest.

Harry Gravelle, of Bridgenorth, won the first singles, with his fellow villager, Wallace Nichols, taking the consolation event. In the doubles, Albert White of Bridgenorth and John Crowe of Peterborough, took first honors. Two local men, Richard Evans and Edward Johnson, finished on top in the consolation doubles. J. Doughty led in the ringer contest, getting ten out of a possible twenty.

Twenty competitors faced each other in the first round of the tourney singles. Padgett defeated Cole, and Dorin won out over Evans. Hollingsworth bowed to Doughty, and Fairbairn to Tully. Barrett took the game with Kingsbury, and Gravelle defeated Crowe, while Johnson was winning over Calder. White lost out to Nichols. Campbell to Coughlin, and Driscoll emerged victorious over Fowler in a nip-and-tuck match.

In the second round, Dorin beat Padgett and Doughty won over Tully. Gravelle and Barrett put up quite a battle with the latter losing out. Johnson was the victor in his match with Nichols, and Coughlin set Driscoll back. Johnson and Coughlin had to fight it out in the semi-finals and the former took the match. Gravelle had to beat Dorin and then Doughty, each of whom had a bye, before he could get into the finals. He and Johnson staged a fine exhibition of barnyard golf as played by experts, before he defeated Johnson 50 to 45 to get the championship.

Singles Consolation.

In the singles consolation event, eighteen started the first round, and eight went into the second, one having drawn a bye. White, Crowe, Tuly and Doughty came through this round, with Nichols having a bye. In the semi-finals, Nichols defeated Doughty and Crowe and then two a bye. The two finalists, John Crowe and Wallace Nichols, had a large gallery around them as they fought it out, and the Peterborough man bowed to Nichols of Bridgenorth, 37 to 29, after several rallies.

There were sixteen shoe-tossers, eight teams, entered in the doubles tourney. Padgett and Doughty defeating Nichols and Gravelle, while Dorinand Reynolds were eliminating Evans and Johnson. Wilson and Breckenbridge lost to Coughlin and Driscoll, and White and Crowe were successful over Cole and Dorin. In the semi-finals, Doughty and Padgett fell to Dorin and Reynolds, while White and Crowe were trimming Coughlin and Driscoll. These two winers then faced off in the finals. Thomas Dorin of Peterborough and Albert Rynolds of Smith had their own following who cheered them on, but Albert White of Bridgenorth and John Crowe of this city put them out 55 to 20.

Six team entered the consolation doubles, Evans and Johnson emerging victors over Nichols and Gravelle, Coughlin and Driscoll winning over Doughty and Padgett and Cole and Dorin who defeated Wilson and Breckenbridge drawing a bye in the semi-finals. They met Evans and Johnson in the finals. After a long drawn out fight, Richard Evans and Ed Johnson were declared the victors 50 to 37.

Ringer Contest.

The ringer contest drew a great deal of inteerst and showed some fine tossers. Out of a possible twenty, Doughty had ten ringers, White was next with nine, and Dorin had eight. Three men, Gravelle, Breckenbridge and Coughlin, each had six, and five throwers, Evans, Johnson, Driscoll, Crowe and Cole, all had four around the peg. Nichols and Wilson each ahd three, while Dorin had two. Several others who entered this contest failed to get a single ringer. Following the different matches, the winners were presented with cash prizes.

When the American training ship Annapolis recently arrived in the Thames it attracted much attention. London newspapers printing pictures of the sailors at work.

FOX NEWS COMEDY ACT

LOCALS WILL MEET TORONTO

Petes to Meet Rogers-Majestic in Toronto on Saturday.

Business of importance was transacted at the meeting of the Peterborough and District Football Association last evening, with President Stewart in the chair. The full quota of the executive, with club representatives, were present, with the exception of Brinton Club.

Communication from the Rogers-Majestic Club of Toronto were read. They stated that they would be able to play the Petes on Saturday, September 26, and would meet them on Danforth Avenue to conduct them to the grounds. All playing members selected must notify the secretary of their club that they will be able to participate or notify the association secretary, on or before to-morrow (Wednesday). — The team will leave the C.N.R. sheds at the corner of Charlotte and Aylmer Streets at 11 a.m. prompt, on Saturday, the transportation being provided by the P. and D. F. A.

The Caledonians' Club have kindly granted the use of their pants and sweaters, also the football.

Selected Eleven.

The selection committee, composed of seven members, picked the following team to play against the Toronto eleven: Joe Daynes (C.G.E.) goal; D. Green (Brinton) and E. Hakin (C.P.C.), full backs. J. Buchan (C.P.C.), W. Robb (Caledonians), and George Blowers (Caledonians), captain, halves; N. Downer (C.P.C.), Jack McMaster (C.G.E.), Ben McMaster (C.G.E.), W. Brown and G. Jrooks (Deloro), forwards. Reserves, T. Craig (Caledonians), and T. Boon (Brinton). Alternate, W. Rankin (Caledonians).

Trainer—Jack Adams.

President Vincent Stewart and Stanley Gillespie, secretary, will travel with the team.

On Saturday, October 3, the final of the Phelan Charity Cup between C.G.E. and C.P.C. on King Edward Park. Kick-off at 2.30. Referee, J. C. Russell. Linesmen, D. McGregor and W. Harrington.

Alexander Ross, Scottish, signed for the Canadian Packing.

There are two cup competitions to be played, one cup final, and two league games before the schedule is completed. In all probability it will be another ten weeks before the close season is declared.

"Many Happy Returns"

SOME DAY you will be 65—and your friends will wish you *"Many Happy Returns"*. As a man grows older, continued financial independence does help to make each succeeding birthday a "happy return".

An Excelsior *"Endowment At 65"* Policy allows you to invest money each year in protection for your family—and automatically provides you with financial independence at age 65.

Let us send you a descriptive booklet, and rates at your present age. Just sign and mail the coupon.

CURVE LAKE FAIR IS SET FOR NEXT WEEK

Annual Indian Fair to be Held on October 1 and 2.

The annual Curve Lake Fall Fair will be held this year on Thursday and Friday, Oct. 1 and 2, with a special program which promises to make this year's event one of the most successful ones ever attempted. A large entry list is promised, which includes a showing of farm stock, garden vegetables, Indian-made baskets, bead work, sewing, canned goods, baking, carving, etc.

Thursday will be given over to the entering and placing of exhibits, while the judging of farm stock and other exhibits will take place on Friday. On Friday morning a snappy ball game is to be held between the locals and an outside team. On Friday afternoon there will be all kinds of field sports and water sports, commencing at 1 p.m., the high light of which will be a boat race among the Old Timers, ranging in ages from 60 to 75 years. A dance will be held each evening in the Town Hall.

Obituary

BABY ARGUE

BETHANY, Sept. 22 (Examiner Correspondence)—The death occurred on Thursday, Sept. 17, of the infant twin daughter of Mr. and Mrs. Cecil Argue. Burial was made at Fallis' cemetery.

MISS J. WELSH

STIRLING, Sept. 22 (Examiner Correspondence)—The death occurred on Tuesday after a lengthy illness of Miss J. Welsh, aged about 70 years.

The late Miss Welsh had spent all her life in the vicinty of Stirling and leaves to mourn her loss four brothers, Michael, Dennis, John and Ned and also one sister in Montreal. Obituary

FRANK McFARLANE

MARMORA, Sept. 22 (Examiner Correspondence)—On Sunday afternoon at 4 o'clock, Frank McFarlane, eldest son of the late Mr. and Mrs. Matthew McFarlane died at Belleville Hospital in his 57th year.

Deceased who was unmarried, was of a modest retiring nature, whereby he possessed many friends who will deeply mourn his departure. Surviving him are four brothers and five sisters, namely, John, Marmora Township; James, Marmora; Michael, resident in England; Joseph, Timmins; Mrs. Ben Revoy, Shanick; Mrs. J. Reid, Midland; Mrs. F. Jennings, Toronto; Mrs. C. Dobson, Toronto and Mrs. G. Kennedy, Toronto.

The remains were removed to Marmora on Sunday evening. The funeral arrangements to be made later.

JOHN YOUNG

(Contributed)

The funeral of John Young, eight year old son of Frank Young, Ennismore, who died Monday, September 14, in St. Joseph's Hospital, was held Wednesday morning at 9 a.m. from his home to St. Martin's Church, Ennismore, and hence to St. Martin's cemetery for burial.

The pall-bearers were Joe Sullivan, Ray Killen, John James Collins and Max Kennedy.

The pupils of St. Mary's School, which he had attended, showed their love and esteem for their little classmate and companion by taking a very special part in the funeral ceremony. They formed a guard of honor on both sides to the church door through which the remains passed followed by the chief mourners. Then they entered the church under the leadership of their teacher, Miss Reta Cavanagh and took their places in a body. After the High Mass, sung by Rev. Fr. McAuley, the pupils preceded the remains from the church and again formed as a guard of honor. They also led the funeral to the cemetery, in procession, led by Rev. Father McAuley. The rosary was said on the way as a last tribute to their very dear classmate and companion whom God had called from their midst.

D. H. Webster Named Hydro Commissioner

LAKEFIELD, Sept. 22 (Examiner Correspondence).—D. H. Webster has been appointed Hydro Commissioner by the village council to fill the vacancy left by the death of E. R. Tate.

BEDTIME STORY

THE MYSTERIOUS WHISTLE

(By Thornton W. Burgess)

When eyes are fooled and ears deceive,
'Tis hard to know what to believe.
—Farmer Brown's Boy.

Farmer Brown's Boy had climbed high on the mountain side, higher than trees grew, higher than he ever had been before, for back home there were no such high mountains. On the edge of a great rock slide he had stopped to rest and get his breath and marvel at the wonderful view spread before him. Peak on peak the mountains towered as if seeking to touch the blue, blue sky, some of them with glistening white caps of snow. Rocky crags were all about him. High above him Talons the Golden Eagle sailed in majestic circle. He saw no other living creature. A feeling of awe took possession of him. Never had he felt quite so utterly alone.

Presently Talons disappeared in the distance and the feeling of loneliness was greater than ever. Up on these bare rocks there was no life. He was sure of it. He spoke aloud just to hear his own voice.

"I feel as if I were on top of the world," said he, "yet this old mountain goes on up and up and there are other peaks higher still. I feel as if I were the only one alive in all the Great World."

At that very instant there was a sharp, clear piercing whistle. "Hello! There must be some one else up here after all!" exclaimed Farmer Brown's Boy in surprise, and looked eagerly in the direction from which the sound had come. But though he looked and looked he could see no one.

"That is queer," he muttered, and whistled in reply. There was no response, so he put two fingers in his mouth and whistled. It was the clear, loud whistle with which he often had called Bowser the Hound when the latter was far away. Again he waited in vain. He began to have a funny feeling. He certainly had heard a whistle. He was positive of it.

"It must be that some one is trying to have fun with me by hiding among the rocks," thought he. "I'll just mind my own business and pretend I am not interested."

So Farmer Brown's Boy sat down on a rock and pretended to be interested only in the wonderful view, but all the time he was searching the rocks with his eyes for that unseen whistler. For a long time he did not move and there was no sound. At last he got to his feet undecided whether to climb higher or go down to camp. As he did so he heard that whistle again, clear, sharp and piercing, and he was sure that it came from behind a jumble of

"That is queer," he muttered, and whistled in reply

rocks some distance along the very slope he was on.

"All right, Mr. Who-ever-you-are, if you are hiding over there I'll soon find you," said he, and started for the rocks.

It was farther to them than he had thought, for the air was so clear that it was hard to judge distances, and distant things seemed very near. But at last he reached that jumble of rocks and searched all through it in vain. There wasn't a rock big enough for a man, or even a boy, to hide behind that he didn't examine. Such a funny look as there was on his face!

"Hello!" he shouted. "A joke is a joke and you've had yours, so come on out and get acquainted."

The only reply was the echo of his own voice. He began to have a queer feeling. "If that fellow is so bashful what did he whistle for in the first place?" he muttered.

Once more he shouted, and as before the echo of his own voice was the only reply. "All right for you. If you don't want my company I won't force it on you," said he, and began his downward climb toward camp. Not until he was nearly to the bottom of the rock slide did he hear anything more. Then again came that clear whistle and this time it was answered by another farther away. It was mysterious, very mysterious indeed.

"I'm coming back here tomorrow morning early and if that fellow, or those fellows, try any more such tricks I'll find them," he promised himself.

MARMORA

Born—on Saturday, Sept. 19, to Mr. and Mrs. Manley Lavender, a daughter.

IN DAYS GONE BY

Items Taken From Old Fyles of The Examiner

SEPTEMBER 22, 1921.

R. B. Bennett of Calgary is Minister of Justice in the new cabinet sworn in yesterday....Fifty district members of the Ontario Medical Association are holding a meeting here to-day...The local war veterans are planning on holding a fitting celebration on Armistice Day ....About twelve hundred were killed and thousands injured in a chemical explosion in Mayence, Germany....John Moloney, clerk of Eninsmore Township and active in municipal life for many years, died last night....The Public Library will open Sunday afternoons during the cold weather....No more movies, only stage shows, will be shown at the Grand Opera House here.

SEPTEMBER 22, 1911.

The Moral Reform Board of the Methodist Church, meeting in Toronto, passed a motion to attempt to have all red light districts moved from Canadian cities....Yesterday's polling throughout Canada shows a decisive defeat for the Liberal Government....A new deadly siege gun has passed the German military tests....Premier-elect Borden will maintain for the present the existing tariff rates with the States....John McEntee, formerly of this city, was struck and killed by a train at Porcupine last night.... There is considerable discussion locally as to whether milk should be delivered in bottles, or in cans as at present.

SEPTEMBER 22, 1901.

Toronto police characterize Christian Science as a fake, and the cause of many deaths through neglect....One of the town's oldest residents, Mrs. Wm. Lech, died of heart failure this afternoon....The entire plant of the Peterborough Underwear Company has been sold to Messrs. W. A. and A. H. Stratton....A shower-bather at a cost of one hundred and fifty dollars has been installed in the new gym at the Y.M.C.A.....The Roseneath Indian Brass Band ran an excursion here on the steamer Rainbow, yesterday.

GILLETT'S

cleans the bathroom in half the usual time

■ Full strength for Sink Drains ■ Full strength for the toilet bowl ■ In solution for general cleaning

GILLETT'S Lye "Eats Dirt"

Flake Lye

* Lye should never be dissolved in hot water.

ONE tablespoonful of Gillett's Lye dissolved in a gallon of cold* water provides an ideal, safe solution that quickly cleans everything in the bathroom.

Use it to wash walls, the floor, in the sink and bathtub . . . and remember, when you use Gillett's Lye, each is disinfected as well as cleaned with the one operation.

Once each week, pour full strength Gillett's Lye down the closet bowl and it will always be clean and free-running.

• • •

Gillett's Lye has dozens of other handy household uses. Send for the new FREE Gillett's Lye booklet describing the many ways it will help you with all your cleaning.

What To-day Means To You

"VIRGO"

If September 22nd is your birthday, the best hours for you on this date are from 7.30 a.m. to 11 a.m. and from 5.15 p.m. to 7.45 p.m. The danger hours are from noon to 2 p.m., and from 8 p.m. to 10 p.m.

September 22nd, viewed astrologically, will be a mildly favorable day but does not hold forth any spectacular or eventful expectancy. Normalcy will be the keynote, and under such influences speculation and risk should be avoided, and nothing out of the ordinary should be attempted.

A child born on this September 22nd will be intellectual, studious, well informed, and an excellent and interesting conversationalist. In early years, its opinions will be quite extreme. Age will mellow and moderate its views however. It should not marry young, as its standards of value will, with increased age, undergo a complete metamorphosis.

You, if born on September 22nd, are happy-go-lucky. You take life as you find it, and make the most of it. Come rain, come shine, you never worry nor do you ever become unduly elated. Ambition does not grip you, and very little satisfies you. Indolence is not, however, one of your vices. Indifference is your outstanding weakness. Only on infrequent occasions, do you give a thought to Life's problems, and then you snap out of it as quickly as possible.

Your freedom from worry, and your ability in making the best of what may be a bad job, endears you to many, and your friends are legion. The congeniality of your disposition is infectious, and, by your attitude, you are often able to relieve the cares of others, and enable them to glimpse the silver lining of many dark clouds.

If a woman, you are naturally shy in the society of men but once you have thawed, you prove yourself to be a sympathetic companion and a dependable friend. You are not a nagger, nor a gossipmonger. Your heart is capable of a strong and passionate love, and your horoscope denotes that you will make some man supremely happy.

Both men and women are not exceptionally neat or tidy, neither are they fussy. They may not be, from the world's point of view, successful. They are destined however, to be content and happy.

ADVERTISE IN THE EXAMINER

FIND 3 BODIES IN BURNED HOME

Police Believe Man Murdered Housekeeper and Daughter, Then Suicided.

INQUEST ORDERED.

BROOKS, Alta., Sept. 22. (CP)—A double murder and suicide was the conclusion reached by police to-day in investigation into discovery of three bodies in a burned dwelling at Rainier, 18 miles south of here, early to-day.

Sergeant Cawsey, Alberta provincial police, reported that investigation disclosed Fred Leike, railway employee, had slain his housekeeper, Mrs. Elizabeth Irwin, and her two-year-old daughter Kathleen, set fire to his home and then shot himself fatally. An inquest into the deaths will be conducted by Dr. C. Anderson of Brooks, Sept 28.

RIBS BROKEN IN AUTO CRASH

Toronto Woman is Accident Victim in Crash at Cobourg.

RELIEF WORK PLANNED

COBOURG, Sept. 22.—Two fractures, ribs and a broken finger were sustained by Mrs. C. E. Neil, 247 Queensdale Ave., Toronto, when a car driven by her husband collided with one driven by J. H. Connors, Belleville. The accident occurred at the intersection of King and George streets.

Plan Work.

Dealing with the proposed $25,000 expenditure in sewer construction to aid unemployed, a committee of the council was held Saturday to receive the report of the clerk and F. J. McArthur, M.P.P., with regard to what assistance the government would offer. It is expected that the government will pay half the cost if the total estimate does not exceed $22,000.

Observe Anniversary

Hatfield Hall school, Cobourg, celebrated its second anniversary with a birthday party on Saturday evening. Mrs. Boyle, wife of Rev. T. S. Boyle, president of the board of trustees, cut a large birthday cake decorated with green and white candles. The Bishop of Ontario proposed the toast to the school.

THE TRUTH *about* MOTOR OIL

SOME oil companies are seeking to increase sales of motor oils by claiming greater mileage.

Most motor cars, regardless of the type of motor oil used, should have their crank-cases drained and oil renewed every 500 miles. Some types of automobiles, however, which are equipped with certain oil filters or purifiers and crank-case ventilators, can safely run 3,000 miles on one filling of motor oil. The manufacturer of your car specifies how often the oil should be changed and to get best results you should follow the manufacturer's advice.

Red Indian Motor Oil can safely be used for mileages of from 500 to 3,000 miles when these mileages are recommended by the automobile manufacturer. In addition to being a superior oil of the highest lubricating quality, Red Indian Motor Oil has the following extra advantages:

1. MINIMUM CARBON DEPOSIT
Preventing loss of power through accumulation of carbon in the cylinders.

2. HEAT RESISTING FILM
Does not break down or use up under high speeds.

3. FREEDOM FROM WAX
Keeping valves from sticking and oil system from clogging.

TARZAN AND THE JEWELS OF OPAR NO. 86

By Edgar Rice Burroughs
(Metropolitan Newspaper Service)

Mohammed Beyd, head of the Arab guard that was riding with Werper, had nursed his hidden infatuation for Lady Greystoke since first the wife of Tarzan had fallen into the hands of Achmet Zek. While his austere chieftain lived, Mohammed Beyd had not even dared hope for a realization of his imaginings. Now, though, it was different—Allah was indeed good to him; only a despised dog of a Christian stood between himself and possession of Jane Clayton. How easy it would be to slay the unbeliever and himself hold the woman captive.

And Werper, he thought, still had the jewels of Opar on his person. With these also in his possession—ah what joy! Yes, he would kill Werper, retain all the jewels and keep the Englishwoman. With these thoughts in mind he wheeled his horse to the side of the animal on which the captive was mounted. He turned his eyes upon her as she rode along at his side. How beautiful she was. "Do you know," he asked, leaning toward her, "where this man is taking you?" Jane Clayton nodded affirmatively.

"And are you willing to become part of a sultan's harem?" he continued. Jane Clayton drew herself up to her full height and turned her head away; but she did not reply. She feared lest her knowledge of the ruse "M. Frecoult" was playing upon the Arab might cause her to betray herself through an insufficient display of terror and aversion. "You can escape this fate," went on the Arab; "Mohammed Beyd will save you," and he reached out and seized her arm.

"You beast!" she cried. "Leave me or I shall call M. Frecoult." Mohammed Beyd drew back with a scowl. His sinister lips curled above his flashing teeth. "M. Frecoult?" he jeered. "There is no such person. The man's name is Werper. He is a liar, a thief and a murderer. In all the Congo country there is none so vile. He led Achmet Zek to plunder your home. He followed your husband and planned to steal his gold. He has played upon you to win your confidence. Now you are bound for a sultan's harem."

O.B.A.A. Throws Out Protest By Milton

OAKVILLE, Sept. 22. — At a meeting of the sub-committee of the Ontario Baseball Amateur Association, held last evening in the offices of the Hilmer Coal Company here, the most important item to be dealt with was the protest lodged by the Milton Club against Player Dorland of Rodney. The committee found that Player Dorland was eligible to play with Rodney, and accordingly disallowed the protest

Guelph juvenile club and officers were indefinitely suspended for using a player who was over age and playing under an assumed name

The St. Louis Club of Sudbury, wishing a home game in the junior finals, the winner of the Toronto-Columbias-Gal: Robinhoods game at Oakville to-morrow will journey to Sudbury to play on Saturday.

Rodney and Gibbard Furniture now meet in the intermediate B final with the Executive Committee ordering the first game at Napanee on Wednesday, with the return game at Rodney on Saturday.

GARNER NICHOLLS IS BAILED FOR TRIAL

Charged With Ramming a Canoe Containing Three Boys.

With the evidence of only one witness taken Garner Nicholls permitted himself to be bailed for trial by Police Magistrate Langley this morning on a charge of ramming a canoe containing three boys on Chemong Lake on the evening of August 20 with intent to do bodily injury to the occupants of the canoe.

Fred Jopling of Bridgenorth, the lone witness, told of hearing the shouts of the boys as they struggled in the water after being thrown from the canoe. He had assisted in the rescue. After the accident he reported Nicholls as saying that he didn't now how he had come to strike the canoe.

Bail was fixed at $2,000 and bondsmen were Fred Jopling and C. G. Kingan. The case will be tried at the next General Sessions of the Peace.

CITY ENGINEER ILL
Ald. Hamilton, chairman of the Board of Works, informed the city council last night that City Engineer Parsons had recently suffered a breakdown in health and his physician had intimated that Mr. Parsons needed a rest from the duties of his office.

MARMORA CROWD GIVEN DOUBLE BILL

Lucille Elmore Revue and Talk by Dr. E. T. Bailey Prove Real Treats.

MARMORA, Sept. 22.—(Examiner Correspondence.)—A double bill was given by the Canadian Chautauqua entertainers at the Town Hall on Monday evening, the Lucille Elmore Revue Company carrying out the suspended afternoon program in addition to furnishing the prelude to the advertised evening lecture by Dr. Elwood T. Bailey.

Miss Elmore has been fittingly described as the vest pocket comedienne. A more versatile artiste has never been seen locally. In her revue, "The Land of Make Believe," in which she is assisted by Clair Foster, a clever pianist, and Josef Serpico, distinguished Italian violinist, Miss Elmore plays numerous roles. She gives true to life delineations of the grandmother of yesterday and the grandmother of to-day, performs as a mechanical doll, lives up to her reputation as being the best lady ventriloquist on the North American continent, is an excellent male impersonator and typifies in costume and song the women of Holland, Ireland, Spain, besides impersonating a Canadian soldier. The other two members of her party fit well into the program with pianoforte solos, violin solos and vocal numbers.

A Challenge.

Dr. Elwood T. Bailey in his lecture sounds a ringing challenge to his audiences for better business methods, truer society acts, and more genuine religion. He claims at the outset to be neither a preacher or a teacher but a business man who has seen the vision of what life should mean to all individually. After many trite remarks upon the situation of the individual in society he launches out into his subject "All Aboard." In this lecture every human life is likened by him to an engine and the best characteristics of life he eloquently touches upon under the simile of road bed, rails and spikes.

Thrice in his lecture he diverted from the usual outline to refer to the example shown by the late Jimmy Rice, thus making his points the more emphatic. Not only did the lecturer prove himself to be an eloquent speaker but he was also humorous and dramatic at times.

The hall was again crowded with a most appreciative audience.

Spain will spend $86,000,000 on public works before next January.

IMPROVEMENT IS MADE BY C. P. R. IN ITS TIMETABLE

Better Service Will Be Given Travelling Public to Toronto After Sept. 27.

LOCAL SPEEDED UP.

Requests of the Transportation Committee of the Chamber of Commerce for better railway connections with Toronto have been granted by the Canadian Pacific Railway according to announcements yesterday. Several improvements on the present schedules will go into effect with the regular Fall time tables on September 27.

The afternoon Canadian Pacific train which leaves Toronto at 5.10 p.m. and at present arrives in this city at 8 o'clock will be speeded up twenty minutes to arrive here at 7.40 o'clock. This improved connection was asked as a greater convenience to Peterborough business men spending the afternoon in Toronto.

To permit the attendance of Peterborough people at theatres, hockey games and other evening affairs in Toronto before returning to this city at night, the night train will leave Toronto at 10.40 p.m. instead of 9.30, the present time of departure. The train will also provide a direct connection with the Chicago train arriving in Toronto at 10.35 which has been lacking. It will arrive here at 1 a.m.

Another important change has been scheduled for the early train to Toronto.

It will leave at 5.25 a.m. and arrive in Toronto at 7.40 o'clock in time to connect with the 8.45 o'clock train to Windsor, Detroit and Chicago. This connection has been impossible under the present schedule.

No changes have been made in the schedules of the morning local to Toronto leaving here at 7.15 a.m. or in the afternoon local leaving here at 3.50 p.m. and arriving in Toronto at 6.15 p.m.

The changes that will be made in the new fall schedule of the Canadian National Railway with the institution of its Fall schedule on September 27 were not available this morning. The Transportation Committee of the Chamber of Commerce has asked the C.N.R. to again put on the gasoline train between Peterborough and Belleville this winter for the convenience of local shippers of perishable products and others who find the present service unsatisfactory. No reply has been received yet.

SIMPLE RITES BARR FUNERAL

Ex-Serviceman Dies in Hospital From Fever Contracted in Local "Jungle."

LEGIONAIRES PRESENT.

Simple and impressive tribute was paid at the funeral this afternoon to the memory of Archibald Barr the lonely wandering ex-service man who passed away in Nicholl's Hospital on Saturday last from typhoid fever contracted in the local "jungle".

Arrangements for the funeral were undertaken by Captain James Abrahani, past president of the Canadian Legion B.E.S.L. Post No. 52. There were fifty other ex-service men present at the funeral, also representatives of the Caledonian Society with their vice president A. Clark, and members of the Women's Auxiliary of the Legion including Mrs. (Colonel) Joseph Mills, president and Mrs. A. Kent.

Ex-service men who bore the casket to the graveside were Comrades A. Gash, P. Golds, F. Ebdon, R. Haddow W. Russell, A. Heron, P. T. King and T. Davies. Band Sergeant W. McLarnon sounded the last post and reveille.

Rev. Dr. C. V. McLean conducted the funeral service at Bellegheim's Funeral Home and spoke with deep sympathy of the manly fortitude and courage which Barr had displayed while in hospital and of his service to his country in the firing line with the Highland Light Infantry.

Relatives Present

The deceased man's brother John and his wife were present from Thorold and also a sister Margaret. He also leaves three other brothers and two other sisters. One brother is in Tonawanda, New York while the remainder of the family, including Barr's parents reside in Glasgow, Scotland.

The body lay in simple state, the Union Jack being draped over one end of the casket. There were numerous floral tributes including one from the local branch of the Legion. After the service those present filed past the casket. All the ex-servicemen wore Flanders poppies in their coat lapels.

Barr's brother John stated to The Examiner that his brother's correct name was Archibald and not David or Daniel as was supposed. He thought that the wrong name originated due to the fact that his brother was known by the nickname of Dan.

MARRIED

GUNN—SIMPSON. — On Monday, September 21, 1931, at St. John's Anglican Church, Peterborough, by Rev. E. R. James, Eulah Enid, younger daughter of Mr. and Mrs. Karl Simpson, Peterborough, to William George, youngest son of Mr. and Mrs. Daniel Gunn, Peterborough.

Schooner Completes Seventh Arctic Trip

NEW YORK, Sept. 22.—Completing the seventh trip to the Arctic the schooner Effie M. Morrissey bearing the members of the Northcross-Bartlett expedition arrived yesterday at New Brighton.

Captain Bob Bartlett, of the schooner, who accompanied Peary on his trip in 1897, reported that the ice back off the lower end of Greenland which usually forms a barrier against icebergs is open and there is nothing to prevent bergs from stepping south into the northern routes of travel. Members of the expedition said it was probable icebergs would be plentiful this winter in the North Atlantic steamship lanes.

EPISCOPALIANS ON PROHIBITION

Resolution Drawn Up Urging Congress to Authorize National Referendum.

Budget Opposition Routed.

DENVER, Sept. 22.—Prohibition and the sterilization of criminals and insane persons, two controversial social problems, have made brief appearances on the stage of the general convention of the Protestan. Episcopal Church.

Whether the two issues will ever be brought up in the House of Deputies or the House of Bishops was problematical today, the end of the first week of the convention.

A resolution providing that the church urge congress to authorize a national referendum on prohibition was read in the House of Deputies late yesterday and immediately referred to the committee on world peace, industrial stability and lawlessness. The resolution was placed before the convention by the diocese of Central New York, of which the Rt. Rev. Charles Fiske is bishop.

The deputies also received a resolution from Henry S. Booth, lay delegate from Detroit, calling for the approval of the church of the sterilization of "all criminals, insane persons and those seriously defective in mind." It was referred to a committee without comment.

Opposition to the 1932 budget of $4,225,000, recommended by the National Council of the church was routed under a barrage of oratory in the House of Deputies.

POLICE SEEKING TEN PRISONERS

Kitchen Crew of Reformatory Overpower Guards, Flee in Prison Cars.

KIDNAP 3 OFFICIALS.

GRANITE, Okla., Sept. 22.—Ten convicts from the State Reformatory here were trailed to-day while the woman warden probed circumstances surrounding their escape last night.

Mrs. G. A. Waters, the Warden said none of the 770 other prisoners had made any attempt to flee and that she could advance no reason for the break of the fugitives.

"They just wanted a wild adventure," she said.

All the escaped prisoners, serving terms of from two to thirty years, were members of the kitchen crew. They seized knives and cleavers, overpowered three guards and took them along in their flight in two motor cars belonging to prison officers.

The kidnapped men, Sergt. J. N. Baugham, L. D. Jones, and James Wilson, later were released.

Weddings

CLANCY—PETT.

The wedding was solemnized on September 5th in St. Bridget's Church, Toronto, by the Rev. Father Healey, of Elsie Pett, of Toronto and Michael Clancy, son of Mr. and Mrs. C. Clancy of Peterborough.

Attendants were Miss Ruby Pett and Mr. Clare Fitzgerald.

Mr. and Mrs. Clancy will live in Hamilton.

SIMS—KINGSMILL.

The wedding took place in Chicago on August 29th, of Lorraine Kingsmill of Chicago and Earle Sims, pressman of the American Bank Note Company of Chicago, and formerly of Peterborough.

The bride, who was given in marriage by her father, wore a gown of ivory satin with a veil of ecru lace, en train, caught with orange blossoms and lily of the valley. She carried a bouquet of roses.

The bridesmaid, Miss Anna Aidens, was dressed in pale blue, with pink hat and shoes and bouquet of pink roses.

Edward Kingsmill, brother of the bride, acted as best man.

After the ceremony, over one hundred guests were entertained at 8100 Mainstee Avenue. Following a short honeymoon, Mr. and Mrs. Sims will live at 8113 Mainstee avenue, Toronto. They received many useful and costly gifts from a large circle of friends.

The fishwives of Cullercoats, England, who have raised $8,365 for the Royal National Life Boat Institution in 10 years, have contributed $995 this year, their record amount.

SHAFT RECALLS CRASH OF R-101

Plain Altar Tomb is Unveiled Above Graves in Cardington Churchyard.

SIMPLE CEREMONY.

LONDON, Sept. 22. (C. P. Cable) The memorial to the officers and men and passengers including oLrd Thomson, who lost their lives when the giant dirigible R-101 crashed in France last October, was unveiled to-day above the graves of the victims in Cardington churchyard. There was little ceremony, workmen merely removing the surrounding boards revealing a plain altar tomb, approached by steps.

The Royal Air Force insignia and motto is carved on one end and on the other is the inscription: "Here lies the bodies of 48 officers and men who perished in His Majesty's airship R-101 on the fifth of October 1930". On the sides of the tomb are carved the names of the victims in alphabetical order.

R-100, sister ship of the lost vessel, is to be disposed of by the Government after lying idle, half dismantled, since her return from the voyage to Canada in July-August, last year.

SAFETY LAWS ARE PREDICTED

Registrar Sees Curb on Use of Auto as Result of Accident Toll

BECOMING MENACE.

LUCERNE-IN-QUEBEC, Que., Sept. 22. (CP)—The appalling toll of human lives taken annually in automobile accidents along Canadian highways will have the eventual effect that public opinion will demand safety legislation that will perhaps curb the use of motor vehicles, J. P. Bickell, registrar of motor vehicles of Ontario, concluded in an address delivered before the annual convention of the Canadian Good Roads Association which opened here to-day.

Operators of motor vehicles must awake to the need for greater care on the highways, said Mr. Bickell. They must become conscious of present day conditions or before long there will be brought into effect at the insistent demand of the thinking public, laws and regulations which will considerably curb the use of motor vehicles. Life is too precious to permit the awful waste which in recent years has been occasioned by the use of motor vehicles.

The automobile, in some ways one of the greatest boons to civilization, is rapidly assuming the position of the greatest menace to civilization, Mr. Bickell declared. Safety devices have been evolved to compensate for the greater power and superior potential speed of the automobile of to-day, yet accidents continue to mount.

The speaker was of the opinion that the human element remained the greatest factor in the terrific loss of life, that the driver rather than mechanical defects is responsible.

SCHOOL FAIR

Five Schools With Teachers Are Represented in Parade at Downeyville.

DOWNEYVILLE, Sept. 22 (Examiner Correspondence)—The annual school fair was held here on Thursday with a fairly good attendance.

In the morning it rained and therefore not as many were there as should have been.

There were five schools represented in the parade with their teachers: S.S. No. 15, Mr. Dennis Garvey, teacher; S.S. No. 4, Mr. James Carroll; S.S. No. 6, Miss Hazel O'Neill; S.S. No. 12, Miss Mollie Duffy and continuation school, Miss Alma Scully.

Results

The pupil having the highest standing and winner of the T. Eaton cup was Joseph O'Leary, S. S. No. 4, while Bernadine O'Neill, S.S. 6, and Miss Marie Collins, S.S. No. 12 won sets of books.

Public speaking contest—Marie Collins, S.S. No. 12; Bernadine O'Neill S.S. No. 6.

Recitation—Edward Perdue, S.S. No. 6; Eileen Tracey, S.S. No. 12.

Reading—James Guiry, S.S. No. 6; Lila Tracey, S.S. No. 12.

First aid for girls—Tootsie Morrissey, Nita Perdue and Marie Herlihy, S.S. No. 6; and Lila Tracey Ethel Winn and Rita Winn, S.S No. 12.

First aid for boys—Orville Perdue, Gerald O'Neill and Raymond Perdue, S.S. No. 6; Joseph Duffy Francis Winn and Lionel Tracey, S.S. No. 12.

Grain and weed judging—S.S. No 4, Joseph Flynn and Carl Scully; S.S. No. 12, Louis O'Connell and Joseph Duffy.

Girls—S.S. No. 12, Marie Collins Reta Winn; S.S. No. 4, Mourine Garvey, Ileen Herlihy.

The directors for different schools were Orville Perdue, S.S. No. 6; Ralph O'Neill, S.S. No. 15, Alvin Perdue; S.S. No. 4, Francis Winn; S.S. No. 12.

Mr. Downey, public school inspector of Peterborough was present, also the trustees of the different schools.

You will find many things in the Classified Ads. of The Examiner.

Find 2 More Guilty In Kidnapping Case

DETROIT, Mich., Sept. 22.—Vincent Lamonna and Charles Minchella were found guilty on the charge of kidnapping Jackie Thompson, five-year-old son of a wealthy Detroit real estate operator, by a jury in Recorder's Court last night.

Jackie was kidnapped in September, 1929, and a month later was returned to his parents after his father, Henry Thompson, paid the kidnappers $17,000 ransom. James Fernando, a used car dealer who was acquainted with Thompson, subsequently was convicted of kidnapping Jackie and is serving a 30 to 50 year sentence. Fernando testified against Lamonna and Minchella.

The pair are to be setenced next Monday by Recorder's Judge W. McKay Skillman.

WAGE CUTTING WRONG POLICY

Tom Moore Claims Reducing Standard of Living is No Solution.

AT TRADES CONGRESS.

VANCOUVER, B.C., Sept. 22 (C.P.)—"What we need in this country is a consuming wage, not a reduced wage. Cutting wages will only aggravate the situation; it is no solution."

So spoke Tom Moore, veteran president of Trades and Labor Congress last night, when he and 300 delegates to the 47th meeting were guests of the city at a dinner.

"Never was there a time when need for tolerance and understanding was more needed, and it won't solve our problems by staying in our tents and growling at each other. We have been accused of co-operating with capitalism. What we want capital to do is to assume its proper duty in relation to our social life.

"You won't solve the question by reducing wages. If that were possible Great Britain and Germany would be on the top of a wave of prosperity right now. Instead, they are the centre of a world financial crisis. Reducing the standard of living is not a solution. What mass production needs is mass consumption."

IN MEMORIAM

DEAL—In loving memory of Harold Jack Deal, who died Sept. 22, 1930.

Far and oft our thoughts do wander
To a grave not far away,
Where they laid our darling baby
Just one year ago to-day.
—Ever remembered by Mother and Father.

IN MEMORIAM.

CHATTEN. — In loving memory of Mrs. J. W. Chatten, who was killed September 22, 1927.

I think of her in silence,
And her name I oft recall;
But there's nothing left to answer
But her photo on the wall.
—Inserted by her Daughter, Mrs. H. Drury.

ALL-DAY PARADE HELD BY LEGION

Convention Not Likely to Ask Futher Payment on Veterans' Bonuses.

PROTEST INTEREST RATES.

DETROIT, Mich., Sept. 22.—The American Legion, assembled in national convention here, took time out to-day to display its strength and color in an all-day parade, while controversial issues rested with committees which will make their reports tomorrow and Thursday.

Resolution on prohibition, including some proposing a stand for modifications and others asking a nation-wide referendum, were in the hands of the resolutions committee, which was called to meet to-night. As a result of President Hoover's address yesterday, in which he discussed the condition of the national treasury, and of speeches by other leaders, including the National Commander, Ralp T. O'Neill, official today agreed that action for further payments on the veterans' bonus is extremely unlikely. Legion officials from all parts of the country told newspaper men they believe nothing further in the way of cash payments will be asked by the convention. A protest against the present interest rate of 4½ per cent on bank loans had strong support, however, including that of Commander O-Neil.

JOBLESS ARRIVE IN NORTH AREAS

North Bay Council Suggests Cultivation of Small Green Areas.

ANXIETY GROWS.

NORTH BAY, Sept. 22. — The following resolution, urging the Government to take step to remedy the conditions resulting from the invasion of Northern Ontario by armies of unemployed, was passed unanimously at last night's Council meeting:

"Whereas the growth of unemployment is making an almost unbearable load for North Bay ratepayers, and whereas similar conditions are seriously affecting the financial standing of many Ontario municipalities; whereas thousands of unemployed are being brought into Northern Ontario by road construction work which at best will be only temporary; whereas by living on small areas of garden land a self-sustained independence may be had.

"Now, therefore, be it urged upon the Government of Ontario that steps be taken to investigate this question and to formulate a plan of relief therefor."

Copies of this resolution will be sent to Premier Henry, Hon. Charles McCrea, Hon. William Finlayson, Charles Harrison, M.P.P., and to all municipalities in Northern Ontario for their endorsation.

ARCHBISHOP WORRELL IS NEW PRIMATE

11 VILLAGES SHOW INCREASE IN POPULATION

Lakefield and Bancroft Take the Lead in Population Increases.

BRIGHTON LARGEST.

Havelock, Madoc, Millbrook and Norwood Show Decreases.

In the preliminary announcement of the population census for the villages of Central Ontario only four out of fifteen in this district show a decrease in population over the year 1921. The other eleven villages show quite substantial increases, Bancroft and Lakefield heading the list with increases of 146 and 142 respectively.

Population is on the decline in Havelock, Madoc, Millbrook and Norwood.

The returns are subject to correction, as additions on account of closed houses and absentees have yet to be made.

The Dominion Bureau of Statistics points out that it is the duty of anyone who has reason to believe he or she has been omitted from the census to notify the bureau immediately to this effect, when an investigation will be made.

Villages	1931	1921
Bancroft	914	768
Brighton	1,581	1,411
Colborne	1,014	932
Deloro	331	279
Frankford	814	786
Hastings	740	730
Havelock	1,162	1,268
Lakefield	1,331	1,189
Madoc	1,056	1,058
Marmora	995	948
Millbrook	662	717
Norwood	753	765
Omemee	516	510
Stirling	936	844
Tweed	1,268	1,339

TRUCK DRIVER BADLY BURNED

Vehicle Catches Fire While D. Darling Filing Tank With Gasoline.

FLAME MENACES BUILDING.

YOUNG'S POINT, Sept. 23 (Examiner Correspondent).—D. Darling of the local cheese factory was badly burned last night when the truck he was driving caught fire, while he was filling the tank with gasoline.

The blaze caused a great deal of excitement, as for a time there was serious danger of buildings in the vicinity becoming also ignited. A willing band of villagers helped to push the burning vehicle down the roadway and into the lake.

Cottage Is Bombed In Niagara Falls

NIAGARA FALLS, Ont., Sept. 23—An empty cottage, owned by Sam Marabello, this city, was completely destroyed early this morning by an explosion and fire, believed to have been caused by a bomb. There was a terrific detonation which was felt over a wide area. The walls were blown out and the roof fell. The fire was so furious that in a few minutes, the frame house had disappeared. Two adjoining houses were considerably damaged by the fire, the total loss amounting to $7,500. The city police and fire chief are investigating.

SEES MONEY AS CAMPAIGN ISSUE.

SPOKANE, Wash., Sept. 23. — Senator William E. Borah, of Idaho, expressed the opinion today that if an international money conference is not called "the money question will be one of the issues of the next presidential campaign."

The Senator described the discontinuance of gold redemption by the Bank of England as "rather startling," but asserted the gold standard has failed.

GLASGOW HAS NEW CHIEF CONSTABLE.

GLASGOW, Scotland, Sept. 23.—(C. P. Cable.)—The Glasgow Magistrates have unanimously appointed Captain P. D. Sillitoe, at present Chief Constable of Sheffield to be Chief Constable of Glasgow, the highest constabulary office outside of London.

The new Chief Constable of Glasgow is 43 years of age and he started his police career as a constable in British South Africa.

Primate-Elect

MOST REV. C. L. WORRELL

Archbishop of Nova Scotia since 1925, who was to-day elected Primate of all Canada by the House of Bishops of the General Synod of the Church of England in Canada.

LABORITES LOSE ANOTHER VOTE

Derwent Caine, Son of Late Novelist Joins National Gov't Supporters.

TOTAL NOW 14.

LONDON, September 23 (C.P. Cable). — The number of Labor supporters of the National Government in the House of Commons was increased to 14 to-day when Derwent Hall Caine, elected in Everton, Liverpool, in the last general elections, decided to support the Government.

Mr. Hall Caine, who is a son of the late novelist, like nearly half of the Laborite supporters of the Government, won a former Conservative constituency for the Labor Party in 1929. He was elected by a majority of 1,567 over Miss Beavan, Conservative.

"It is the first essential of social progress that the nation should be financially solvent," Mr. Hall Caine wrote in explaining his decision to leave the Labor Opposition benches.

The 14 Labor supporters of the Government in the House include Prime Minister MacDonald and the other Labor Cabinet ministers.

GREATER SALES FOR YEAR.

LONDON, Sept. 23.—(A.P.)—Directors of the Austin Motor Company to-day recommended a 100 per cent. dividend on the ordinary shares. In the fiscal year ended July 31 the company's sales in the home market exceeded those of the previous year by 26 per cent.

BROCKENSHIRE PAYS PENALTY FOR HIS CRIME

Windsor Youth Walks Calmly to Death Room in Don Jail.

TRAP SPRUNG AT 7.57 A.M.

Dies With Prayer on Lips—Shot Toronto Constable Last Fall.

TORONTO, Ont., Sept. 23 (C.P.)—John Brokenshire is dead. The 23-year-old Windsor boy who shot and killed Constable Roy A. McQuillin, of the Toronto Police force on Dec. 11 last, paid the supreme penalty in the death cell of the Don Jail here this morning at 7.57 a.m. Twelve minutes later he was pronounced dead by the jail physician, and the body claimed by his parents.

Brokenshire faced death calmly. He walked the 20 paces from his cell to the white-washed room in which he died with never a quiver. The death march started at 7.56, with jail officials and Brokenshire's religious advisers, Capt. Wallace Brunton, of the Salvation Army, and Rev. T. W. Barnett, of St. Clement's Church, accompanying the condemned man.

Prayer on Lips

The group entered the death cell and the black mask was placed over Brokenshire's head. As the hangman, Sam Edwards, tightened the noose, the youth distinctly and simply said: "God be merciful to me, a sinner." They were his last words. As Dr. Barnett finished The Lord's Prayer, the trap was sprung and Brokenshire disappeared from sight.

"He was a brave lad," said Dr. Barnett. "I was with him all night and all day yesterday. He never whimpered. He made his peace with God; arose this morning, washed and cleaned himself, and walked bravely to death."

When Brokenshire was told yesterday that his last hope of reprieve had vanished, he said, "I expected it." Mr. Barnett stated "Then this morning at seven o'clock he knelt at his bedside and prayed. He said he had no hard feelings toward anyone and, having made his peace with God, was prepared for death.

Brokenshire, while supported by two wardens of the jail, walked steadily down the corridor to the death cell. His eyes never moved and he continued to gaze straight ahad until the mask hid his face from view.

Murdered Constable

The crime for which John Brockeshire paid supreme penalty today was the murder of P.C. Roy A. McQuillin, of the Toronto police

5,000 SCIENTISTS OVER WORLD STAGE CENTENARY IN LONDON

Gen. Jan Christian Smuts is Installed President of Association.

Greatest Meet in History.

LONDON, September 23 (By Thomas T. Champion, C.P. Staff Writer). — Five thousand scientists from all parts of the earth greeted General the Right Hon Jan Christian Smuts to-day when he was installed president of the centenary meeting of the British Association for the Advancement of Science.

General Smuts, distinguished soldier and former Prime Minister of the Union of South Africa, accepted the high honor as a tribute to the Dominions. "Is it too much to hope," he added in his speech this afternoon, "that from this great gathering of science will go forth a new message of hope to this Empire and to a world distracted and laboring in unprecedented troubles?"

The installation was coupled with the reception of the foreign scientists who are joining with scientists of the Empire in the great centenary meeting, providing an unexcelled opportunity for examination of the progress of science and examining the roads that lie ahead. The ceremony was held in the Royal Albert Hall, which is being devoted to the Faraday Centenary Exhibition.

Faraday Honored

General Smuts also inaugurated the Faraday Exhibition marking the centenary of Michael Faraday, the great pioneer in the discovery of electro-magnetism.

Curiously enough in its 100 years the British Association has never before assembled in London. The scope of this year's program how-

Canadian Dollar Declines ½ Cent

NEW YORK, Sept. 23.—(CP)—The Canadian dollar opened at 7½ per cent discount on local foreign exchange markets today and was quoted at 92½ cents in United States funds, a loss of ½ per cent from yesterday's close.

FIRE DESTROYS THOMPSON HOME

House and Contents Owned by Mrs. Emma Thompson Falls Prey to Flames.

PARTLY INSURED.

ROSENEATH, Sept. 23. — (Examiner Correspondence.) — The frame residence of Mrs. Emma Thompson situated about three miles from Roseneath was totally destroyed by fire yesterday afternoon. The owner of the building was away at the time and her son who was plowing in the field was the first to notice the blazing home. Putting in the alarm several of the neighbors and many from Roseneath village hastened to the scene but little could be saved from the inferno, the house together with most of its contents falling prey to the flames. The loss was partly covered by insurance.

Fills High Office Rev. S. Matheson Recently Vacated

Head of Church of England in Canada, Though a Maritimer of Many Years' Standing, Was Born at Smiths Falls 78 Years Ago.

SPENT EARLY PART OF HIS CAREER IN ONTARIO AT GANANOQUE, BROCKVILLE AND KINGSTON

Previous to Election, Synod Again Refuses to Give Final Approval to Canon Providing for Naming of Primate by Whole Body.

TORONTO, Sept. 23.—(CP)—The House of Bishops of the Church of England today proceeded under the hitherto prevailing system to elect as Primate of all Canada Most Rev. Clare L. Worrell, Archbishop of Nova Scotia, Metropolitan of the Church Province of Canada, and a Senior Metropolitan, acting Primate since the resignation from the primacy a year ago of Archbishop S. H. Matheson. Upon entering the Synod Assembly Hall here late this morning, he was greeted with applause, was asked by the chairman to bestow his first blessing as Primate upon the assembly. Felicitations and tribute to the new head of the church were voiced by Archdeacon F. C. C. Heathcote of Vancouver, prolocutor of the Lower House, Canon H. J. Cody, of Toronto, and L. A. Hamilton of Toronto, in behalf of the laity.

Senior Prelate

Archbishop Worrell, who has been acting as Primate for the past year, is now the Senior Prelate of the Anglican Communion in Canada. He became Bishop of Nova Scotia in 1904 after 23 years of service in the church. This summer he celebated his 78th birthday.

Though a Maritimer of many years' standing, Archbishop Worrell was born at Smith's Falls, Ont., July 20, 1853, and spent the early part of his career in this province. He was educated at Trinity College, Toronto, and ordained Deacon in 1883 and Priest in 1884, after serving as Curate of Gananoque.

Educationist

The Primate is experienced as an educationist as well as Priest. From 1882 to 1884 he was Curate of Holy Trinity Church, Brockville, and Headmaster of Brockville High School. After brief periods in Williamsburg and Morrisburg, he was Professor of English Literature at the Royal Military College, Kingston, from 1891 to 1904, at the same time serving churches in that vicinity.

In 1877 he married the late Charlotte Ward, daughter of Major-Gen. T. W. Ward, F.R.S. They had one son and three daughters. He was married again in 1917 to Miss Annie H. Abbott of Halifax. Archbishop Worrell takes an active interest in the social life of Halifax, is a Past President of the Canadian Club, and a member of the Halifax, Commercial, and Overseas Clubs.

Final Approval Fails

TORONTO, Ont., Sept. 23 (CP) The Church of England General Synod to-day previous to the election by the House of Bishops of Most Rev. C. L. Worrell Archbishop of Nova Scotia, as Primate, refused again to give final approval to a change in the basis of constitution, in such a way as to make im-

UNION QUESTION TO BE RESUMED

Free Churches Accept Archbishop Lang's Invitation to Appoint Representatives.

SUSPENDED IN 1925.

(By Thomas T. Champion, C.P. Staff Writer).

LONDON, Sept. 23 (C.P. Cable).—Conversations between the Anglican and Free Church representatives concerning union are to be resumed.

The Federal Council of the Evangelical Free Church to-day accepted the invitation of His Grace Most Rev. Cosmo Gordon Lang, Archbishop of Canterbury, to appoint representatives for such conversations.

The earlier negotiations were by consent suspended in 1925, the opinion then being they had made as much progress as seemed possible at the moment. The results then arrived at will form the basis of the resumed discussions.

In accepting the Archbishops invitation, the Free Church's Council expresses its disappointment at the "inadequate consideration" given by last year's Lambeth Conference of Anglican Bishops to the work of the four years' joint conference with the Free Churches. The Lambeth Conference had thus not made easier the renewal of the conversations, the Council added.

C.P.R.Y. Selects Madrigal Singers

The Peterborough Madrigals are scheduled to give two concerts in Toronto during the week-end. On Friday night the Madrigals will broadcast from C.P.R.Y. from nine to ten (Standard Time) during the Canadian Pacific Railway hour and on Saturday night they are scheduled to give a concert in the auditorium of the new Eaton store at the corner of College and Young streets.

The Madrigals for the past few years having brought great honor to Peterborough and the concerts which they are to put on this week end will broadcast their name to all parts of Canada. Friday night's broadcast is a Canada-wide hook up and it is the first time that any musical organization in this city has been so honored.

The C.P.R.Y. programmes on Friday night have been classed as some of the the best provided by a Canadian radio station. Canada's leading musicians have been heard and the Madrigals' booking is something that will demonstrate to the citizens of Peterborough just what the outstanding musicians of Canada think of her musical organization. While in Toronto the Madrigals will be the guests of the C.P.R. at the Royal York.

Market Closing On All Exchanges

TORONTO EXCHANGE.

TORONTO, Sept. 23.—(CP) — Unexpected strength developed in the Toronto Stock Exchange market to-day. Perahps the most impressive advance was that scored by stocks which this morning were added to the "free trading list." Most active of these were Walkers and . . . Oil. Both issues dropped sharply at the opening when the artificial support of pegged prices was removed but they were firmer in the second hour and in the afternoon advanced even more vigorously. Walkers clos-

RUSSIAN TROOPS ARE MOBILIZING ALONG BORDER

Chinese Fear Secret Understanding Exists With Japan.

WOULD DIVIDE SPOILS.

As Japanese Forces Move Toward Harbin Chinese Leave.

PEIPING, China, Sept. 23 (A.P.)—Foreign official dispatches from Harbin reported to-day that Chinese troops were evacuating that city in anticipation of its occupation by Japanese forces, reported to be advancing northward from Changchun.

A report that Russian troops were mobilizing on the north Manchurian border was regarded by Chinese in Harbin as strengthening their belief that a secret understanding exists between Japan and Soviet Russia for a division of spoils in Manchuria.

The dispatches confirmed a report that bombs were thrown at the Japanese Consulate and other Japanese buildings in Harbin Monday night, but that there were no casualties, and only slight damage.

16,000 in China

It was estimated here that Japanese troops now occupying Manchuria number 16,000, excluding police, railway guards and reservists.

Resolutions urging war with Japan and tightening of the anti-Japanese boycott were passed at a mass meeting in Peiping to-day as part of the nation-wide "Humiliation Day" exercises.

Students wearing black arm-bands paraded the streets shouting anti-Japanese slogans, but no disturbances were reported.

The faculties of the principal universities here have addressed a telegram to the faculties of a number of Japanese Universities condemning the action of the Japanese military. Although Japan might gain a temporary advantage, she would suffer morally and spiritually the telegram declared.

SETTLERS HEAD BACK TO BRITAIN

More Returning Than Emigrating—First Time in History Except During War.

MANY LEAVE U. S.

LONDON, Sept. 23 (C.P. Cable).—For the first time in history—except during the war—more people are returning to Great Britain from the Dominions than are emigrating to them, the "Overseas Settler," organ of the Overseas Settlement Committee, pointed out to-day.

During the year ending June, 1931, there was an outward balance of settlers from Britain to the Dominions of only 200, and the outgoing persons exceeded returning ones only in the case of New Zealand. Figures from all the other Dominions showed an inward balance.

In the same period the total British emigration to all parts of the Empire was 38,000, compared with 83,000 in the preceding year.

And many Britons who settled in the United States since the war are returning to Britain, the "Overseas Settler" added.

Fliers Check Plane For Dash To Tacoma

NOME, Alaska, Sept. 23.—Further overhauling of the monoplane Clarina Madge in preparation for the first attempted non stop flight from Western Alaska to the United States, held Cecil Allen and Don Moyle, California aviators, on the ground here to-day.

The start of the hop, upwards of 2,000 miles to Tacoma, Wash., on Puget Sound, originally was planned for this morning, but last night Moyle said another day would be needed for work on the plane.

CLOTHES LINE THIEVES AT WORK IN SOUTH END

Clothes-line thieves are at work in the south end of the city. More than one housewife has awakened recent mornings to discover that clothes left out to dry overnight had been stripped from the lines.

Three thieves raiding one clothes line on South George street last night were discovered and chased away. In their haste they left a bicycle which may lead to the identity of the thieves. Provincial Police are working on the cases and hope to make a clean-up of the thieves soon.

Bolt Hits Farmer Lockjaw Develops

CORNWALL, Ont, Sept. 23.— (CP).—Struck by lightning last Tuesday, Floyd Shaver, an Aultsville farmer, is now in Cornwall General Hospital, suffering from lockjaw, which set in as a result of infection. Shaver was struck by lightning while at work in a stable and fell unconscious. Irvin Smith, a relative, came to his assistance and he soon regained consciousness. By the end of the week he had practically recovered from injuries sustained in his face and head as a result of the fall. On Sunday, however, his jaws became constricted and he was removed to the institution where it was found he suffered from lock jaw. His condition is considered serious.

PATIENT SUICIDES.

TORONTO, Sept. 23 (C.P.).—Mrs. Frances Tracy, of Alliston, Ont., a patient at the Toronto General Hospital, ended her life at that institution to-day by strangling herself with a strip of bed clothes.

Mrs. Tracy had been in all-health since last winter, according to officials at the hospital, and she was admitted there on September 7, in the hope that a rest would help her recover her health.

German lace makers are preparing to meet a world demand for light and delicate laces to be used in connection with voiles, crepes, and other flowing materials.

Hard Cider Used As Burglar Guard

COBOURG, September 23 — Awakened by something falling, Jas. Fee, a farmer living near Cobourg, secured his revolver and entered the cellar, finding four tramps, three of them quite drunk. They had crawled through the open window, and had located some jugs of cider. Mr. Fee did not hold them, and they made a hasty exit. The cider, Mr. Fee says, was nearly five years old, and was too strong for a beverage. He is elated over the way the cider prevented the toughs pilfering his house, and intends to keep a supply on hand.

U. S. INDUSTRIES ANNOUNCE CUTS IN WAGE SCALE

U. S. and Bethlehem Steel Set Slash at 10 Per Cent for October 1.

G.M.C. FOLLOWS SUIT.

Organized Labor Proclaims Its Resistance to Impending Action.

NEW YORK, Sept. 23. — Announcement of impending wage cuts in steel, motor, rubber and copper industries was subject today to a variety of interpretation.

Organized labor proclaimed its resistance. Some financial writers attributed to unnamed business leaders the belief that the step would hasten a revival of business. Formal statements of corporations concerned merely stressed unsatisfactory present conditions or new standards of value.

United States Steel took the initiative and announced a ten per cent cut affecting 220,000 employes, Oct. 1. Bethlehem Steel followed suit. It will reduce wages 10 per cent, October 1 for 50,000 employes. Youngstown Sheet and Tube ordered a corresponding cut.

The General Motors Corporation announced a 10 to 20 per cent reduction for 25,000 salaried employes. Some 150,000 employed on an hourly wage basis will not be affected.

Five Day Week

The United States Rubber Company announced a five-day working schedule starting October 1. This will mean a reduction of about 9 per cent in wages to 25,000 employes. The hourly scale will not be touched, but no one will be given more than five days work.

The American Smelting and Refining Company and the Utah Copper Company announced 10 per cent wage reductions effective October 1.

A forecast of resistance came from Matthew Woll, vice president of the American Federation of Labor, after the announcement by United States Steel, he said:

"I can only express great regret and profound disappointment at the action of the United States Steel Corporation. The disappointment is particularly justified because this action is in sharp contradiction with that of the same corporation some time ago in reducing dividends, but declining to cut wage scales. At that time the attitude of the United States Steel Corporation was received with satisfaction by all who believed that any dislocation of wage schedules would be a most disturbing factor, economically and socially."

Central School H. A. Plans Winter Work

Members of the executive of Central Home and School Association met at the home of the president, Mrs. Wilfred Boorman, McDonnel Street, for a special meeting last evening. At a short business session plans were made for the forthcoming winter activities, and the society is looking forward to having a successful season.

The presentation of certificates to the successful entrance pupils will take place in the Legion Hall on Friday, October the second.

At the conclusion of a pleasant meeting dainty refreshments were served by the hostess.

Borden Represents King At Christening

LONDON, Sept. 23 (C.P. Cable) —The Court Circular published today, dated last evening, says: "The Right Honorable Sir Robert Borden, representing the King, stood sponsor on behalf of His Majesty at the christening of the infant son of the Earl and Countess of Bessborough, which took place in Ottawa, Canada."

TWO CANADIAN ENTRANTS LOSE IN U. S. TOURNEY

Mr. Charles Eddis and Miss Ada Mackenzie Fail to Stay in Running.

BRITISH HOPES HIGH.

Mrs. Glenna Collet Vare Plays Splendid in Defense of Her Title.

BUFFALO COUNTRY CLUB, Williamsville, N.Y., September 24 (C.P.) — Elimination of the two Canadian entrants has failed to halt the invading challenge in the United States women's national golf championship.

Mrs. Charles Eddis, Toronto, met defeat in the second round to-day when she failed with her approach shots, while opponent, Mrs. Glenna Collett Vare, Philadelphia, was playing splendidly off the tee and on the green. The United States star, holder of practically every title in this country at some stage of her career, won 4 and 3.

Miss Ada Mackenzie, prominent Toronto golfer, fell by the wayside yesteday, but British hopes are still flying high, following the smashing triumph of the youthful Enid Wilson to-day over Mrs. L. C. Nelson, Dayton, Ohio, by 4 and 2.

Miss Marjorie Kerr, who accompanied the British champion, to compete here and at Toronto afterward, caused somewhat of a sensation by eliminating Ann Brooks, Nyack, N.Y., 2 and 1.

Two of the favorites, Helen Hicks and Mrs. Leona Pressler, had to go extra holes to gain their third round places.

Miss Orcutt disposed of Bernice Wall, of Oshkosk, Wis., 5 and 4.

Virginia Van Wie of Chicago, another of the favorites and a finalist to Mrs. Vare in 1928 and 1930, also won her match in easy fashion, defeating Frances Williams of Lehigh, Pa., 5 and 4, while Mrs. Leo Federman, of New York, took the measure of Mrs. Helen Payson Corson, of Philadelphia, 2 and 1.

ISSUES WARNING ON ROAD OUTLAY

C.N.R. Expert Claims Revenue End Not Producing Enough.

SEES 10 CENT GAS TAX.

LUCERNE-IN-QUEBEC, Que., Sept. 23. (CP)—Canada has invested in highway systems over $900,000,000 and is adding to that investment at the rate of $55,000,000 per year but collecting highway revenue only to the extent of $41,000,000 per year. These figures were presented to to-day's session of the Canadian Good Roads Association by S. W. Fairweather, head of the Bureau of Economic of the Canadian National Railways, who warned the country against plunging too deeply into highway expenditures without making adequate plans for a return on the investment.

Mr. Fairweather believed the license fees on private cars too high and therefore the first principle had been over exploited. The second principle dealt with by the gasoline tax and graduated license fees according to car weights had been under-exploited, he believed. He saw possibility of a gasoline tax of 10 cents a gallon and registration fees on heavy transport trucks as high as $500. The third principle had been almost neglected as a source of revenue, said Mr. Fairweather. That concerned the charges upon companies operating express and passenger routes on the highways.

"Monopoly rights for busses have been granted with no compensation.

Mixed Takes Place Of Port Hope Train

Adopting an economy measure that Canadian National Railway officials recently hinted would be put into effect on some parts of its lines in the Dominion, the C.N.R. morning train from this city to Port Hope leaving at 8.07 a.m. will be cancelled and a mixed freight and passenger train will be substituted on September 27.

The new train will leave at 8.15 a.m. and arrive in Port Hope at 8.35 a.m. This change is the only one to be made locally on the C.N.R. as the railway goes from its summer to winter time-tables.

Pawn shops in the Netherland East Indies are doing a record business.

CHINESE URGE MOBILIZATION OF ALL TROOPS

Resolution Adopted By 100,000 in Nanking is Sent Nationalist Gov't.

COUNTRY IN MOURNING.

Japan's Proposal for Arbitration on Situation is Rejected.

NANKING, China, Sept. 23 (C.P.).—A mass meeting attended by about 100,000 persons adopted resolutions here to-day, calling upon the Nationalist Government to order a general mobilization in view of the occupation of Southern Manchuria by Japanese troops.

Army and navy officers and leaders of the Kuomintang, the dominant political party of China, as well as students and citizens, addressed the meeting, which was orderly despite the fiery speeches and fervid pleas of action.

A spokesman for the Nanking Kuomintang addressed the Assembly as "My dying comrades," and declared that as long as a single inch of Manchuria was unrestored to China, every person in the country was ready to offer his life to the nation's cause.

Madame Shao Yuan-Chun, wife of the President of the Legislative Yuan of the National Government, declared the women of China were ready to stand beside their brothers and husbands. She urged the Government to prepare immediately for armed resistance to Japan's encroachments, asserting the women of China would organize a Red Cross.

Nation In Mourning.

Flags flew at half staff over most of China to-day in observance of a nation-wide period of mourning over the Manchurian situation. It was designated as national "Humiliation Day."

Meanwhile the Government categorically denied it had entered any direct negotiations with Japan concerning Manchuria since laying the case before the Council of the League of Nations.

Finance Minister T. V. Soong, who also is chairman of the flood relief commission, refused a shipment of $4,000 worth of supplies brought from Japan on the steamer Amagi Maru for the benefit of the tens of millions of people suffering from the extensive floods.

In a message to Baron Ryutaro Fukao, chairman of the Japanese flood relief commission, Soong said: "You will doubtless understand that recent events in Manchuria have made it impossible for the commission to accept these supplies."

Proposal Rejected

TOKYO, Sept. 23. —(AP)— The Japanese legation in Nanking today advised the foreign office here that China had rejected Japan's proposal for arbitration of the Manchurian question.

The refusal was based on the Chinese position that the original suggestion for arbitration, as it came from Chinese sources, was unofficial and lacked the consent of the Nanking Government.

Meanwhile, press dispatches said Japanese military authorities had cancelled the movement of troops from Southern Manchuria toward Harpin. This was in harmony with the decision yesterday of the Japanese cabinet against the movement of Japanese troops north of Changchun, the northern terminus of the Japanese controlled South Manchurian Railway.

GANDHI'S POINT STIRS DEBATE

Claims Gov't Action is Proof of Unbending Attitude in India.

MEASURE FOR BEST.

LONDON, Sept. 23 (C. P.). — Mahatma Gandhi's protest against the linking of the Indian rupee with the British pound was a subject of controversy to-day in the Federal Structures Committee.

Gandhi said he was surprised and grieved at the action of Government officials in India in suspending the statutory obligation to sell sterling or gold against rupees on account of the financial crisis in Great Britain.

"What pains me," he said, "is the fact that the decision was taken over the heads of the legislatures, and in my view it is a striking proof of the unbending attitude of the Government in India.

Other members of the committee replied that the measure was in the best interests of India, and helped to co-operate in tiding Great Britain through a difficult financial period. Sir Samuel Hoare, Secretary of State for India, has asked the delegates to support the stability of the rupee.

1ST GRAIN SHIPMENT

PHILADELPHIA, Pa., Sept. 23.—The British freighter Glentworth has sailed with 268,253 bushels of wheat consigned to Rio de Janeiro as the first shipment of grain from this country under the wheat-coffee trade agreement recently consummated between the United States and Brazil through the federal farm board.

Automotive-vehicle registrations in Spa . are increasing.

Hospital Patient Jumps to Death

TORONTO, Ont., Sept 23 (CP)—Marion Benjamin 27, a patient at Western hospital here, threw herself from a third floor window to her death yesTuesday. Her skull was fractured in the fall.

NORWOOD FAIR CHANGES DATE

Fall Fair Held Two Weeks Earlier on Account of Plowing Match.

SEPTEMBER 28-29.

To avoid conflicting with the International Plowing Match which will be held here during the second week in October, the directors of the Norwood Fair have changed their dates from October to September, advancing their opening day by two weeks.

Mentioning this fact this morning, J. J. Duffus, chairman of the Peterborough Plowmen's Association said, "Our association hopes that the public will generally take note of the fact that the Norwood Fair is next Monday and Tuesday, September 28 and 29. Their directors desired to co-operate with the Plowmen's Association and relinquished their customary date. The plowmen appreciate this act very highly, and we hope that the public will show their appreciation of this friendly and helpful spirit by attending the Norwood Fair in even larger numbers than usual."

In the ordinary routine of the local fairs circuit Norwood has been the second last, usually falling on a Wednesday between the Warkworth and Campbellford Fairs. Their directors have departed from their old custom to promote the success of the big plowing match during the second week in October.

SEEK MADMAN IN MURDER CASE

District Attorney States Mrs. Collings is Above Suspicion in Mystery.

DETECTIVES SURPRISED.

NEW YORK, Sept. 23 (C.P.). — Convinced that Mrs. Benjamin P. Collings is "relieved of all culpability" for her husband's strange death in Long Island Sound, District Attorney Alexander B. Blue of Suffolk County to-day pressed search for a madman, who he believes murdered the Samford, Conn., engineer.

Detectives and New York police were watching for a man, whose name, Mr. Blue said, was known. His man, described as a recently paroled lunatic from a New York institution, was missing from his usual haunts.

Three certain youths also were sought on the possibility that one might be the youth who boarded the cruiser Penguin with an older man and attacked Mrs. Collings after throwing her husband into the sound.

Blue's announcement that Mrs. Collings was above suspicion came as a surprise to his staff of detectives. Previously he had expressed doubts about her story.

New York Relief Bill Becomes Law To-Day

ALBANY, N.Y., September 23 (C. P.) — New York State's unemployment relief program is expected to become law to-day. Governor Roosevelt plans to sign the Bill increasing income taxes to raise the $20,000,000 fund and the Administrative Bill.

Whether he will announce to-day the names of his commission of three which will handle the relief money was not certain. He hoped to leave before night for his Hyde Park home in preparation for his trip to Warm Springs, Ga., and there was a possibility the names of the "big three" might not be announced to-day.

LONDON STOCK MARKET OPENS QUIET TO-DAY

Tendency Towards Recovery Noticeable in Some of British Government's Securities.

GILD-EDGE LOANS.

Home Industries Show Considerable Strength on Prospects of Improved Business.

LONDON, September 23 (C.P.).—There was no rush to sell as the London Stock Exchange re-opened this morning after having been closed two days as a result of the Government's suspension of the gold standard.

On the whole the atmosphere was cheerful, and, while British Government securities generally were off two and a half to five points, quotations were largely nominal and a tendency toward recovery was noticeable later in some of these issues.

Home industrials showed considerable strength on the prospects for improved business under the new monetary conditions. Gilt-edged securities were generally lower as a consequence of the higher bank rate.

VESSELS ASKED TO HUNT FLIERS

Wreckage of Cramer's Plane Indicates Pair May Be on Uninhabited Island.

MAY SEARCH ORKNEYS.

LONDON, Sept. 23. (AP)—Hope that Parker D. Cramer, United States airman, who was lost on a flight from Detroit to Copenhagen, remains alive lingered to-day.

On the request of the United States Embassy, the British Broadcasting Company appealed to ships in North Sea waters and residents of the barren Orkney and Shetland Islands to keep a sharp watch for Cramer and his radio operator, Oliver Pacquette.

The radioed message said that the wreckage of Cramer's plane recently salvaged by the British trawler Lord Trent, indicated the possibility that the men might have taken refuge on one of the uninhabited islands.

The Daily Mail pointed out that what was taken for a flying suit was found in the cockpit of the plane by the master of the Lord Trent, demonstrating to the newspaper that the pilot mgiht have been able to discard the suit and leave the machine before it crashed.

The embassy acted on orders from Washington in response to a plea of William H. Cramer, brother of Parker, who believes that the fliers may be marooned on a remote island and will remain there unless rescued. The State Department asked the Embassy whether a search of the Orkneys by airplane would be feasible and what would be the cost.

GARDENER SHOT DOWN

WINNIPEG, Man., Sept. 23. (CP) With a shot-gun wound in his abdomen, John Dawson Holliday, 63-year-old market gardener of East St. Paul, Man., was found dead last night 250 yards from his home. His shot-gun was beside him.

Provincial police and Dr. N. A. Laurndeau, provincial coroner, are investigating.

WINTER IN GERMANY

MUNICH, Bavaria, Ger. Sept. 23. —(AP)—Winter has come early to southern Germany. It has been snowing for days in the Bavarian alps and a light fall occurred today in Munich, Augsburg and other lowland points.

Production of electric current in the Far East is greater than a year ago.

Italian Premier Reviews New Cadets

MUSSOLINI ATTENDS HUGE MILITARY AND NAVAL MEET

Signor Benito Mussolini, Italian Premier, is seen reviewing the naval cadets during the giant meeting of the naval and military cadets in Rome, Italy, on September 9.

Gandhi's Disciple Is Not Mentioned In Mother's Will

LONDON, Sept. 23.—(A.P.)—Miss Madeline Slade, daughter of an English Admiral, who forsook her high position to become a disciple of Mahatma Gandhi, was not mentioned in the will of her mother as published to-day.

Lady Slade bequeathed an estate of about $50,000 to another daughter, Mrs. Edward Vernon. Miss Slade said that she had requested the ommission of her name from the will and that it met with her wholehearted approval.

"Many years ago when I first became a disciple of Mr. Gandhi," she said, "I took a vow of celibacy and non-possession. Therefore it goes without saying that inheritance of worldly wealth from my mother's estate would be contrary to my code of living."

Miss Slade's father was the late Admiral Sir E. J. Warren Slade.

LAKEFIELD FAIR HAS BIG ENTRY IN EVERY CLASS

Harry Direct and Todd Grattan Win the Two Horse Races.

MANY SPECIAL PRIZES.

Mr. and Mrs. John Kemp Are Oldest Married Couple on Grounds.

(Examiner Correspondence)

LAKEFIELD, Sept. 23.—Following of extreme heat and humidity with thunderstorms threatening, the afternoon was fair and comfortably warm with a strong west wind chasing away the rain the Lakefield Fair went over with what many said was the best fair ever held here.

The attendance was not quite up to last year but was, nevertheless, very good and apparently enjoyed the attractions provided. The list of entries far exceeded previous records and nearly all the classes were filled. The poultry was exceptionally large, but probably the high spot was touched in the remarkably large number of horses and cattle entered. The competition was keen and the judge was very busy. The sheep and hogs also were the best in some years as practically every class was filled.

The midway was very extensive and the number of attractions varied indeed.

The horse racing was good and the local devotees of this popular sport and the citizens generally were pleased and prowd when a local horse, Merry Direct, owned by

ALBERTA, SASKATCHEWAN, B.C. WILL JOIN ONTARIO IN ACTION AS ASSIZES OPEN IN TORONTO

Twenty Companies Will Be Accused Before Grand Jury.

SEQUEL TO WHITE PROBE.

Price to Ask for Indictment—Waive Lower Court Proceedings.

TORONTO, September 23. —Immediate prosecution of the motion picture corporations named in the Peter White report as forming a combine contrary to the Combines Investigation Act, will be undertaken by the Province of Ontario, Attorney-General W. H. Price announced yesterday, following a three-day study of the report made to him by I. A. Humphries, K.C., Solicitor to the Department, and R. H. Greer, K.C.

The Provinces of Alberta, Saskatchewan, and British Columbia will join with Ontario in the action, which will be brought before the Assizes on October 5. Proceedings will be opened by way of indictment without the necessity of Lower Court proceedings. Separate proceedings may be instituted by the Province of Quebec.

Prosecute Individual.

The Attorney-General did not indicate in his prepared statement whether it was the intention of the Government to prosecute corporations or individuals, or both, but it was intimated by R. H. Greer, K.C., who was retained by the Government to report on the Peter White recommendation, that the Province might institute proceedings both against corporations and individuals.

The parties to the alleged combine named in the White report are divided into four sections, viz., exhibitors, producers, distributors and motion picture distributors and exhibitors of Canada.

Parties to Combine

In his findings the Commissioner stated: "I also find that B.C. Paramount Theatres, Ltd., Paramount Theatres, Ltd., and Radio-Keith-Orpheum (Canada) Ltd. not named in the order-in-Council, are parties to the combine.

"There are a number of companies which might be properly included in this list but as their corporate entities are so closely identified with Famous Players, I can see no good purpose that would be served by naming them in this interim report. There are also a number of individuals with respect to whom I hold the same view."

In issuing his statement of the Government's decision, Attorney-General Price said he was not prepared to comment in any way on the case.

"As I am prosecuting in these cases it is not my intention to prejudge them" said Col. Price. He explained that the lengthy consideration of the evidence taken at the White investigation did away with the necessity of bringing the case before the lower courts and working upwards to the high court where it will be tried.

The Attorney-General said he had no doubt that the provinces of Saskatchewan, British Columbia and Alberta would agree to a joint action in Toronto rather than separate proceedings. He was not sure of the attitude of Quebec, however.

Havelock Hunters Bag Black Bear

HAVELOCK, September 23 (Examiner Correspondence). — A large black bear was shot five miles north of here on Monday evening at six o'clock by William McMillan of Rush Point. The bear had been seen in George Newton's orchard in the morning, but had wandered over to an old orchard on the McKay ranch, and was having his supper right on time when shot. When measured bruin was six feet five inches long, and weighed 173 pounds. Harry Petherick was with Mr. McMillan at the time and the two men had all they could do to carry the carcass to their home.

"NOW REMEMBER my advice when you bath baby".....
Said the Nurse—

"BABY is doing nicely; his weight is right, his colour is good, and he is taking his food regularly. All you've got to be careful about is his skin, to prevent chafing or irritation. He needs a soap that is more than merely cleansing in action—he wants one that is mild, soothing and absolutely pure. I always recommend Infants Delight. Besides being pure, it contains boracic and is decidedly antiseptic without being at all harsh. In addition, it is very healing. By using Infants Delight, you have the advantage, not only of washing baby in a thoroughly pure soap, but also of giving him what amounts to a boracic sponge."
Infants Delight has been used with satisfaction by over a hundred thousand Canadian mothers. Try it for YOUR baby; your doctor will recommend it.

For Sensitive Adult Skins

Infants Delight has long been acclaimed the tenderest soap for babies' skins. Its suitability is just as great for sensitive adult skins, as many a woman has discovered.

SEYMOUR SCHOOL ASSOCIATION STAGES SUCCESSFUL EXHIBITION

T. Eaton Trophy Won By Irene Curle—Richie Dewey and Ilene Stephens Follow.

BEST EVENT IN COUNTY.

CAMPBELLFORD, Sept. 23 (By Examiner Staff Correspondent).—Designated by Walter H. Smith, B.S.A., agricultural representative of the County of Northumberland, as not only the best fair in years at Campbellford, but the best this year in the county, the Seymour School Fair Association's annual event proved more than a success yesterday, when with ideal weather conditions prevalent, a large crowd of interested spectators gathered at the Exhibition Park, Campbellford, to witness a very pleasing display by the schools of the township and view an extraordinary fine exhibit of natural products and art craft. Official judges were W. H. Smith, B.S.A., and Walter Reynolds, B.A., and A. A. Martin, school inspector, acted as instructor.

Schools competing in the contests with their teachers were: S.S. 1 (Shea's), Miss Luella Matthews; S.S. 2 (Petericks), Miss Dorothy Barnum; S.S. 3 (Connelly's), Earl Fairman; S.S. 4 (West's) Angus Todd; S.S. 5 (English Line), Miss Mildred Curtis; S.S. 6 (Meyersburg), Miss Jennie Dillworth; S.S. 7, (Masson's), Miss Clare Curtis; S.S. 10 (Trent River), R. W. Umphrey; S.S. 11 (Burnbrae), Miss Jean Craighead; S.S. 12 (Flemming's), Miss Eva McKelvie; S.S. 18 (Union), Miss Helen Bateman.

Eaton Award

The T. Eaton silver trophy for the pupil having the highest number of points was won by Miss Irene Curle of S.S. 4. Second place in this list went to Ritchie Dewey of S.S. 2, while Ilene Stephens of S.S. 5

Paralysis Claims Life at Hamilton

HAMILTON, Ont., Sept. 23.—(CP)—Infantile paralysis claimed the life of Ernest Stevens, age four, here, and civic health officer re-doubled their vigil that there might be no spread of the dread malady. The health officer announced one other suspected case was under surveillance.

Indian Leader at The Spinning Wheel

Seemingly oblivious of the great task before him, Mahatma Gandhi, spiritual leader of 360,000,000 people of India, is perhaps the world's most unassuming leader. He is now in London conferring with British statesmen regarding the destiny of his country. Here is a picture taken on his trip to England showing Mahatma working at his tiny spinning wheel aboard ship, while Mrs. Nadu and Pandit Malaviya, two of his disciples, watch.

Like Nothing Else You've Ever Seen or Tasted...

CRACKELS ... new 3-Grain Cereal which combines flavour and food value of Wheat, Oats and Corn.

SEVENTEEN years the Quaker Oats scientists searched for a new cereal ... one that would be lighter, crisper than any other. At last they discovered Crackels!

Crackels combines the body building protein of wheat, the energy producing parts of oats, and the rich sweetness of corn. Baby pillows of golden brown ... they float in a bowl of milk or cream. They stay crisp to the last spoonful, and have a delicious *lasting* flavour ... that's Crackels!

Children are fascinated. Give them Crackels by the handful right out of the box. Or serve in bowls of cream or milk, or with fruit, honey or syrup. They're novel as croutons in soup, and delicious in place of nuts in homemade candy.

Packages have air tight inner seal to keep Crackels fresh and crisp. All grocers have them. Order a box today. They will delight your family.

Product of The Quaker Oats Company, world's largest cereal millers, Peterborough, Ont., and Saskatoon, Sask.

QUAKER CRACKELS

1911

SCHOOL FAIR HELD IN HAVELOCK PROVES ONE OF DISTRICT'S FINEST

Garden School Showing is Especially Praised by J. B. Nelson.

KEEN COMPETITION.

HAVELOCK, September 23 (Examiner Correspondence). — All roads in Belmont led to Havelock Park Grounds yesterday, the occasion of the annual school fair, which has for a number of years been an established fact in the early fall. Ideal weather conditions contributed in no small measure to the success of the fair, and from 9 a.m. vehicles of all kinds, from the horse-drawn wagon to the more pretentious motor cars were to be seen wending their way to the grounds, where active boys and girls were soon busy placing their exhibits. One rule of the fair which is rigidly adhered to, is that the exhibitor must handle his own exhibits, and a great deal of ingenuity is sometimes used in making the dispaly as attractive as possible. Carefully scrubbed vegetables, tastefully arranged flowers, neatly penned writing examples, were soon in place, and the youngsters were then free to ramble around the grounds, some of them to brush up on their knowledge in preparation for the forthcoming judging competitions, and school drill.

Schools Parade.

Promptly at 1 p.m. the school parade was called. Eight schools were in the parade, and in some cases the judging was very difficult, as there was keen competition and the youngsters were most anxious to make a good showing. School Section Number 2 at Preneveau carried off first prize this year, as in the two previous years, and is now the proud owner of the shield donated by the Canadian Pacific Recreation Club for the best parade, the school to become the permanent holder of the shield if won for three consecutive years.

The shield donated by the Boys' Agricultural Society to be awarded to the school scoring highest points in grain judging competition goes to S.S. No. 1, and will be the property of the school until next year. This is the first year for this shield. It will become the property of any school winning it three times in succession.

The Junior Institute Shield goes to S.S. 12 at Cordova for this year. The same rule applies to this shield, which was donated this year, to be awarded to the school scoring the highest in judging school lunches.

Theda Barrons, S.S. No. 12, carried off highest marks for public speaking.

The reading contest was won by Pauline Steenburg, of S.S. No. 5.

Prize-winners.

First prize winners in other classes were:

Recitation, Anna McNeilly. Solo, Marjorie Blackburn. Spelling match, Geraldine Dafoe. Sweet corn Graydon Harris. Mangels, Sylvia Outwater. Turnips, Edward Simpson. Beets, Goldaline Dafoe. Carrots, George McGregor. Parsnips, Clarence Pollock. Onions, Geraldine Kelsh. Wheat, Edward Hay. Oats, Wesley Steenburg. Barley, Roy Hay. Potatoes, Dooley, James McGowan. Cobblers, Harold Smith. Market potatoes, Orval Johnston. Fruit collection, Doris Colleton. Asters, Lloyd King. Sweet peas, Doris Hay. Flax, Victoria Carriere. Zinnias, Roy Outwater. Cosmos, Doris Buchanan. Marigolds, Kenneth McDooley. Verbenas, Luella Deschane. Bouquet for living-room, Christy Steenburg. Barred Rock cockerel, Harold Smith. Barred Rock pullet, Harold Smith. White Leghorn cockerel, Muriel Breckenridge. White Leghorn pullet, Donald Hubble. Dairy fed calf, Christy Steenburg. Market lamb, Christy Steenburg. Exhibiting lamb, C. Steenburg. Exhibiting calf, C. Steenburg. Primer writing, Raymond Clemens. First writing, Isabelle McGregor. Second writing, Evelyn Briggs. Third Book writing, Debra Longmuir. Fourth Book writing, Hazel Buchanan. Primer drawing, Daisy Kelsh. Second Book drawing, Maggie Edwards. Third Book drawing, Vera Johnston. Fourth Book drawing, Luisette Steenburg. Open class nature study, Laura McGregor. Second and under scrap book, Jack Harnden. Collection native nuts, Dorothy King. Noxious weeds, Wesley Steenburg. Primer and First, story with cuttings, Robert Little. Book mark, Christy Steenburg. Wooden pointer, Garfield McArthur. Article from twigs, Wesley Steenburg. Bird house Christy Steenburg. Wire splice, George McGregor. Farm gate Floyd King. Patch, Second Class, Hazel Buchanan. Apron, Olive Barrons Holder, Lois King. Bag, Anna McKellar. Muffins, Victoria Carriere. Maple cream, Lois King. Cookies, Debra Longmuir. School lunch, Emma McNaughton. Weed naming, Austin Keeler. Potato judging, Ruth Adams. Grain judging, Kenneth McNeeley. School lunch, Laura McGregor.

Mr. Nelson expressed himself as well pleased with the fine showing of the schools, and the interest manifested. He stated that all the exhibits were of a very high order, and spoke especially of the garden club showing, which he stated was particularly fine. The school winning the C.P.R. Recreation Club Shield for scoring highest average points, and the winner of The T. Eaton Cup will not be announced for a few days, until all points are verified.

LIGHTNING HITS LINDSAY MAN

R. Dixon Had Novel Experience During Monday's Electrical Storm.

LAND BIG MUSKIE.

LINDSAY, Sept. 23.—(Examiner Correspondence).—R. Dixon, of this town had a novel experience during the electrical storm on Monday. He was eating his meals at his home, and was seated directly opposite a window outside of which was an unground fire escape. While in the act of cutting a piece of meat, and when his knife had touched the fork, a bolt of lightning came through the window, smashed an electric toaster and went on to his knife and fork, forming a ball of fire on his plate. Continuing its madcap hurrying pace, the bolt struck the stove, but did little damage. Mr. Dixon was knocked from his chair, but escaped unheart.

Mr. and Mrs. W. Mulligan of Bobcaygeon, while out fishing on Pigeon Lake Tuesday morning, succeeded in landing a lunge which tipped the scale at twenty-three pounds.

A resident of Mariposas is a sadder but wiser man today, but it cost him $220.00 to learn that it is pretty hard to beat a gambler, especially at his own game. The farmer, who is fifty years of age, visited the fair at Oakwood and patronized some of the "games" which are operated by parties associated with the Sheesley's Shows, which are under canvas at Lindsay fair grounds. The man was winning for a while, and becoming intoxicated with his success, started to plunge, with the result that the sum of $220.00 was extracted from him. The case is in the hands of Provincial Constable Nelson.

MARIONETTE SHOW THRILLS CHILDREN

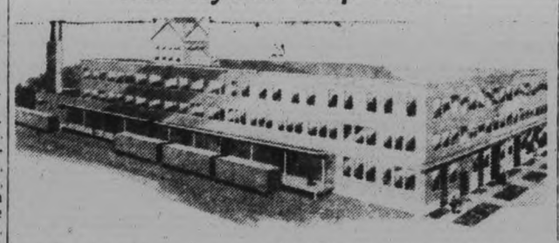
Chautauqua Players Wind Up in Marmora With Splendid Presentation.

MARMORA, Sept. 23. (Examiner Correspondence). — Wonderment came to the eyes of scores of children at the Town Hall on Tuesday evening when the only road company of Sue Hastings' Marionettes under supervision of Don Sommers put on a delightful program featuring Peter Rabbit in Farmer McGregor's garden, Red Riding Hood and a few specialty puppet acts. Before the curtain on the miniature stage rose, the children looked with expectancy to the arrival of Jerry, the puppet announcer. The Marionettes thrilled both adults and juveniles by their clever acting. In their presentation, Mr. Somers was very ably assisted by Russell Beachler. Winnifred Parker and Frances Pettyjohn. With the addition of Charles Dasch, these four artists also make up a splendid company of the Peerless Players who the same evening gave the concluding program of the Chautauqua festival in presenting "Old Crusty takes the air."

The cast of this three act comedy was as follows: William Dickens, Russell Beachler; Miss Patience Davis, Miss Frances Pettyjohn; Adam Davis, Don Somers; Clarice Davis, Winnifred Parker; Dan Thomas, Charles Dasch.

Old Crusty was a cantankerous old chap but with a heart of gold. He liked to have things his own way but so did his daughter and she usually won out. She fell in love with a young aviator who started things moving. Old Crusty had no particular liking for the young man at first but they got to understand each other after a time and when old Crusty takes the air, matters mend easily. The old maid sister comes into this story and in this case she is likeable, trying to keep thing running smoothly. The acting throughout was of the quality which enables the play to be ranked among the best given under Chautauqua auspices. At the conclusion of the program Mrs. Carscadden the director was able to secure enough names to bring the prospective 1932 Fall Chautauqua to Marmora.

New Aylmer Soup Plant



This is the new plant of the Aylmer Soup Company at Vancouver, which is to supply British Columbia and Alberta.

GOOD ROADS ASSOCIATION OPENS EIGHTEENTH ANNUAL CONVENTON

Hon. D. A. Stewart Believes Commercialized Traffic Pays Too Little for Use of Roads.

MACAULAY ATTENDS.

LUCERNE-IN-QUEBEC, Que. September 23 (C.P.). — With seven of the nine Provinces of Canada officially represented, the eighteenth annual convention of the Canadian Good Roads Association opened auspiciously yesterday. Hon. J. E. Perrault, Minister of Highways for Quebec, as president, called the first session to order, and after a brief address of welcome, in which he expressed his pleasure at Quebec Province being chosen for two consecutive years as the scene of the convention, called upon Hon. Grank Oliver, advisory officer of the Board of Railway Commissioners for Canada, as the first speaker.

Hon. Mr. Oliver touched shortly upon a subject which he said would undoubtedly receive considerable attention at later sessions of the convention when he said that the combination of the motor vehicle and the improved highway had produced conditions not anticipated at their inception, with commercialized road traffic not only offering serious competition to the railways, but almost crowding the private automobile off the big highways.

Not Taxed Enough

Hon. D. A. Stewart, Minister of Highways for New Brunswick, the second speaker, touched upon the same topic and expressed the view that commercialized traffic was paying too little for the use of the highways.

Hon. Leopold Macaulay of Ontario after remarking that he had been commissioned by Premier Henry to discover the Quebec Government's secret of a third of a century continued office holding, expressed the conviction that at the present time a political moratorium should be declared and that all governments and citizens should work together in the dealing with the unusually serious problems of the times.

BROCKENSHIRE

(Continued from Page One.)

force, on the evening of Dec. 11, 1930.

Brockenshire, with a companion Harry Clarkson, had stolen an automobile in Windsor. The pair drove to London and exchanged the car for another stolen machine, thence continuing the journey to Toronto. About seven o'clock in the evening, McQuillin was on St. Clair street. He sighted the stolen car and with Constable Roy Halliburton, gave chase in a police machine. On Scarlet Road, on the outskirts of the city, the two policemen caught up with Brockenshire and Clarkson. McQuillin halted them and stepped to the running board of the London car. "Have you got a driver's permit?" he asked Brockenshire. The latter fumbled in his pocket, drew a gun and fired six shots into McQuillin's body, killing him instantly. Halliburton ran to the back of the stolen machine and fired his gun through the window. One bullet struck Brockenshire, but in the melee both men ran.

Then began the dramatic chase. Every available police officer in this district was called out to search for the slayer. Shortly after midnight, Clarkson was captured in Humber Heights Cemetery. He had a gun but did not resist arrest. There was no trace of Brockenshire.

Shot in Capture.

Twenty hours afterwards, word came to the police that the slayer was near Oakville, 20 miles from the scene of the crime, and the search centred in that district. Eventually, two officers sighted the youth in an orchard. One of them, Constable Harry Warton, shot him when Brokenshire reached towards his pocket as though reaching for a gun.

He had bled profusely from his wound, and was a pitiful object of fright and exhaustion when eventually captured.

Brokenshire absolved his companion of all blame in the shooting. Clarkson went on to face trial for carrying concealed weapons.

Brokenshire was unable to face trial at the Winter Assizes, owing to his physical condition, but at the Spring Assizes he was convicted, and sentenced to death. Clarkson was sentenced to five years imprisonment.

Appeals were made to the Supreme Court of Ontario, and when they failed, appeals for clemency were forwarded to the Minister of Justice. After consideration by the Cabinet, the appeals were refused, and yesterday Brokenshire was told the sentence would be carried out.

Expresses Sorrow.

Last night, he wrote to Mrs. McQuillin, wife of the murdered constable, expressing his sorrow at committing the crime for which he was executed.

On the night McQuillin was shot a "surprise party" had been arranged by his wife and two children, and they were awaiting his arrival when word came that the constable had been shot.

The execution was performed by Sam Edwards of Toronto. The body was claimed by Brokenshire's father and mother, and it is expected interment will be made at Windsor.

LAKEFIELD FAIR

(Continued from Page 1)

W. H. Peacock took first place in the 2:15 class.

The following are the results of the horse racing:

2.15 class. Time 1.58.

Merry Direct	1	1	1
Furie Mildred	2	2	2
Alayne	3	3	3
Keendale	4	4	4

Merry Direct owned by W. H. Peacock; Furie Mildred owned by J. Akey; Alayne, owned by C. H. Morrison; Keendale owned by C. Fife.

In the 2.23 class six horses entered: Betty Winger owned by G. Dunford; Amdexter owned by A. T. Johnston; Gipsy Wilkes owned by J. A. Akey; Caucus Star owned by A. Elmhirst; Lillie the Great owned by H. Dunford; Todd Grattan owned by J. Sutherland.

The following were in the money:

Todd Grattan	1	1	1
Caucus Star	4	2	2
Amdexter	2	3	3

Welsh Brothers Rodeo

Between the heats Welsh Brothers provided several acts with their wild west show. The main show is in London, Ontario and a portion was brought to the village. The rodeo made a great hit last year and scored even greater success this year.

The local interest was strong in the Specials, which were won this year however with less competition than usual. The strong west wind which blew away the storm threatening and which dried the grounds made the work of announcing, even with a large megaphone almost impossible, as the high wind carried the sound away.

Oldest Married Couple

T. C. Yonge's special for the oldest married couple on the grounds was won by Mr. and Mrs. John Kemp, who will celebrate the sixty-first anniversary of their marriage this fall.

The youngest baby on the grounds winning Mr. Glass' Special was Margaret Moore, aged five months and ten days, daughter of Mr. and Mrs. Willie Moore.

Wellington Dunford with his wife and their eight children won the hundred of flour donated by Mayor Denne of Peterborough.

An entirely new feature this year and one which will probably be further developed next year was the parade, which officially opened the afternoon's program. The school parade was open to all the schools in the county, but only Pine Grove entered besides the Lakefield school. The latter was divided into two sections, one wearing sashes of blue and gold and the other of the school colors of black and gold. Pine Grove wore their colors of green and white, with the girls wearing dainty little Dutch caps. Mr. T. W. Chaplin, principal of the Lakefield Public School, was in charge of the blue and gold group of the locals, and Mr. C. C. Stenner captained the black and gold group.

The procession was headed by two decorated motor cars; the first driven by Mr. D. H. Webster, and the second by Mrs. T. W. Chaplin, both being prettily decorated in the national colors; then Ralph Moore of the Cadet Corps, then the Citizens' Band, the High School Cadets and the children of the schools.

The prizes were won as follows: Lakefield blue and gold group, first, with the black and gold group second, and Pine Grove, third. The judge awarded the prize offered by J. K. Hughes between the two automobiles as he considered them equally attractive.

The singing contest for boys and girls was carried on during the afternoon; the girls' prize was won by Edna Robinson, and the boys prize by Kenneth Beavis.

Slow Car Race

The slow car race has come to be a real feature at the Lakefield Fair and the competition was very keen, being won by Roland Darling, the time being 12 minutes.

Miss Martha Garvey won the contest for being the most proficient motor car driver in the ladies' contest, the competition was very keen and the judging difficult as several were almost equally good.

Mr. J. A. Carl, who is an indefatigable sportsman, remained till the very last for the race of men of sixty years and over. Mr. Carl won again this year over a smaller field than last year.

The bicycle race was the last event and was witnessed by a depleted crowd, but it was quite well worth while, as the four entries made good time and gave the spectators a real race.

The list of exhibitors was larger and covered a wider territory than ever before, and the competition was keen in every line. The oldest exhibitor was Miss Annie Gow, who is ninety years old and who entered some of her own handwork, which was remarkably well done, reflecting great credit on the aged lady.

The program was a lengthy one and it was close to six o'clock when the final event was concluded and the tired directors decided to call it a day.

In the evening an entertainment was given in the Town Hall which inaugurated the talking pictures in Lakefield, and this their initial appearance drew a fine crowd and completed a full day's program of pleasure and profit.

SEYMOUR SCHOOL

(Continued from Page 1)

gained third place. The last two prizes were two books, written by Canadian authors.

The Strathcona exercises were more than interesting and showed the fine instruction given the pupils by their teachers. Arrayed in their school colors and with their banners heading the parade, a fine array of young Canadians drew endless applause from the large crowd that witnessed the display. Winners of this section of the contest were the pupils of S.S. 3, S.S. 18, and S.S. 2 taking second and third places.

Chorus Contest

One of the features of the competition was the chorus contest, the schools singing patriotic songs en masse. These were exceptionally well executed and showed the musical talent latent in many of the country pupils. First place honors went to S.S. 5; second and third places being given to S.S. 7 and S.S. 10.

The livestock naming contest was a popular event and portrayed the interest taken by the young lads in the affairs of the farm. This contest consisted of a team of two boys naming the diffierent breeds from pictures supplied by the Department of Agriculture.

S.S. 1 won first place, Garland Irwin being the only member of this team; S.S. 6 came second with Stewart Hoey and Frank Lain as contestants; S.S. 5 run for third place with James Ostofi, Fred Midgley and Don Clark as the team, and S.S. No. 10 took fourth honors with James Brown and Ralph Varcoe lined up as judges.

An extra large number of exhibits were on display this year, showing the increased interest of the pupils in this event. In all, sixty-five classes were shown, the majority of which carried four winners and were filled.

Very much to the fore in this display were tomatoes and apples; some fine specimens being shown. Vegetables were also good, and grains although not prolific were of extra fine quality and gained high awards. Much interest was taken in baking and some splendid examples were displayed, while the school work including drawings from the different classes were well executed and showed in many cases real skill. Needlecraft was also of merit; Jean Scott of S.S. 6 taking first award in this. The poultry classes and eggs were of a very high order and evidenced the interest taken by the children in this sphere of farm life.

Special prizes were offered by the Seymour West Woman's Institute for the best health poster made by the children. In order of merit these awards went to: 1, S.S. 3 (Connelly's), $4; 2, S.S. 4 (West's), $3; S.S. 12 (Flemmings), $2.

As the school event of the season leading up to the Champion School Fair to be staged next Thursday in connection with the Seymour Agricultural Society's Fair at Campbellford, this proved to be a premier success and reflects not only credit on the pupils but on all teachers who have worked hard with the children to raise the enthusiasm that was evidenced throughout the whole proceedings.

Miss Teresa Moher Wins Eaton Trophy

At the Douro school fair held recently, Miss Teresa Moher, of S. S. No. 4, Douro, became the winner of the beautiful trophy donated by the T. Eaton Co., to the pupil winning the greatest number of points at the fair. Vincent Condon and Joseph Hayes, both of S. S. No. 4, Douro, are winners of second and third prizes, which are handsome sets of books written by notable authors, and awarded by the T. Eaton Co.

As in former years R. G. Towns has offered two handsome silver cups, one to the school with the greatest aggregate in points, the other to the school with the highest average. S. S. No. 4, Douro, once more claims those cups for other year.

Turnips as large as footballs were grown by H. Lawrence of Coopersale, England, this year.

Man Thin as Rail—Iron Adds 10 Pounds

"I was tired, run-down and thin as a rail. Since taking Vinol, I sleep well, feel better and have gained 10 pounds."—R. A. Cromberg.

Thin, run-down, nervous men or women need the help of iron, lime and cod liver peptone as contained in Vinol. Even the first bottle brings new pep, a good appetite and sound sleep. Aids digestion and makes red blood. Tastes delicious. Get a bottle of Vinol to-day. The results will amaze you. McDermid & Jury, Druggists, McDermid Drug Store and E. L. Payne, Druggist.

"MY NERVES ARE IMPROVED"

"MY TROUBLE was irregular periods. Lydia E. Pinkham's Vegetable Compound has helped me to become more regular.

"It has decreased the pain considerably. I am sleeping better too. I can honestly state my nerves are improved.

"The pains I used to get in my back are practically gone." Miss Sally Brown, 327 Queens Street South, Hamilton, Ontario.

Lydia E. Pinkham's VEGETABLE COMPOUND

District Churches

WELLMAN'S CORNERS

BURNBRAE, Sept. 23 (Examiner Correspondence)—Overflow crowds attended both morning and evening services at Wellman's Corners United Church on Sunday when Rev. J. J. Black of Collier St. United Church, Barrie, and a former minister of Burnbrae St. Andrew's conducted the services. Evening services at Rylstone and Burnbrae were withdrawn and the Revs. H. A. Bunt and D. A. McKenzie occupied seats on the platform with Rev. Mr. Joblin, pastor of Rawdon charge and Mr. Black. The visiting speaker gave two wonderful addresses, driving home his points with ar earnestness and zeal which made every one in the audience take thought of the wonderful truths he was telling.

In his morning address Mr. Black received some of his earlier associations in the community and the lasting effect that his early ministry had made on his work in later years. He spoke feelingly of that day when people would accept Christ as the saviour on the cross without hesitation or question.

At the evening service he again gave a new light to an old topic taking as his theme, "The Prodigal Son," but he spoke more particularly to the glorious freedom of mankind which could be used for good as well as evil and also of the fact that the elder son who stayed at home was as much a prodigal by his mean selfish nature as the brother who sinned in the far country.

The Wellman's choir with Mrs. Carl Clancy as pianist rendered splendid music which added greatly to the enjoyment of the services. Two anthems and a quartette, Mrs. G. Watson, Mrs. B. McGee and Messrs. G. Watson and A. Todd featured the morning service while in the evening another quartette sang, Mrs. F. Thain, Mr. G. Watson, Messrs. R. McGee and A. Todd. A duet, "Take up thy Cross" by Misses Mina and Lucille Dracup was very sweetly given. In the anthem solo and duet parts were taken by Miss Hoover, Mrs. C. Clancy, Misses L. Dracup and Mrs. G. Watson and A. Todd.

SAINT THOMAS' ANGLICAN CHURCH, HAVEST THANKSGIVING SERVICE

MILLBROOK, Sept. 22.—(Examiner Correspondence). — "Ontario little knew what it was doing to western Canada when it took your rector from us," stated Rev. H. R. Ragg, rector of Saint Paul's church, Winnipeg, in prefacing his sermon at the special harvest thanksgiving service in Saint Thomas' church on Sunday afternoon: "yet I thank God he has come to so beautiful a parish, where I am sure he is loved as much as we loved him in the West."

A warm personal friendship between Rev. Mr. Simpson, rector of the parish of Cavan, and formerly a field secretary of the Church of England Religious Education Board in the west, and Rev. Mr. Ragg, who was one of the clerical delegates to the General Synod meeting in Toronto last week, led to the presence in the parish on Sunday of the western clergyman, who preached at the special Harvest Thanksgiving service in Trinity Church, the Marsh, in the morning, and a similar service in Christ Church, Bailieboro, at night, worship in Saint Thomas' church being in the afternoon on Sunday.

Speaking on the work of the Anglican church in Canada, from the text: "His dominion shall be also from one sea to the other; and from the flood to the world's end," Psalm 72:8 (prayer book version), the minister told of the twenty-six dioceses in Canada half of which are self-supporting, while the remaining thirteen receive financial support as missions. "Canada is a country of immense distances; I drove seventeen hundred miles to attend the Synod, and yet that is only half the way between Toronto and Vancouver; hence you see we have to treat with problems of immense size."

Time permitted of brief mention of the General Board of Religious Education with its special field among the young people, and in closing the sermon dealt with the tremendous need in the great west, and the challenge to prayer. "Money alone is not worth much unless it has behind it a solid church upon its knees, armed with the Spirit of the Living God. Let us remember our big job is to give the world the spirit of Christ and the Christian faith is a solemn trust for us to pass on."

Special prayers were offered by the visiting clergyman for the rector's wife, Mrs. (Rev.) Simpson, who has been for some weeks seriously ill. Mr. I. Lunney, organist of Christ Church, Bailieboro, presided at the organ in the absence of Miss Collins, who is visiting relatives in Montreal.

ROSENEATH UNITED CHURCH.

(Examiner Correspondence.)

ROSENEATH, Sept. 23. — Rev. D. R. Clare of Norham occupied the pulpit in the United Church on Sunday evening. Taking his text from the Acts of the Apostles, chapter 26, verse 29, "And Paul said, I would to God that not only thou, but also all that hear me this day, were both almost and altogether such as I am, except these bonds." His words were full of power and influence, telling the story of King Agrippa, and the beautiful spirit and character of Paul, who is one of the master minds and master characters of the first century. Character counts, said the speaker. What our churches need is some one to lead us out of selfishness. Many of us Christians have a dark corner that we don't want any one to see, therefore we want men and women touched with the spirit of Jesus Christ, and get a practical vision of the gospel, when we can secure supreme joy and free salvation. We will find a great joy if we surrender and enlist in the army of Jesus Christ.

There will be no service next Sunday owing to the anniversary services at Centenery, when Rev. S. A. Kemp, of Havelock, will address the congregations at 11 a.m. and 7.30 p.m. The annual fowl supper will follow on Tuesday evening, Sept. 29; as always in past years this event is looked forward to as a huge time anticipated.

FINAL PLANS MADE FOR STREET FAIR

Wednesday Night Feature at Wee Golf Course—Booth Heads Appointed.

CAMPBELLFORD, Sept. 23. (By Examiner Staff Correspondent). — Final arrangements have now been made for the street fair which will be run by the Campbellford Branch No. 103, Canadian Legion, B.E.S.L., on the evening of October 1, on the south end of Front street, Campbellford. This affair is being staged, as last year in connection with the Campbellford Fall Fair.

On the Wednesday, September 30, the Legion will have charge of Scott's Wee Golf Course in the evening when a gala night will be staged. This course has been loaned for the occasion by Dr. H. T. Scott, chiropractor, who will be in charge of the arrangements. Chief G. C. Bromley being the committee of one to arrange for the music.

Officers for the evening of the street fair as appointed by G. H. Free, chairman of the managing committee are: Refreshments, E. H. Armstrong, Roy Connor; Bingo, N. A. MacColl, R. Ramsden; twenty-five cent horse game, C. B. Williams; blanket wheel, Mayor J. M. Bygott, Councillor J. R. Battisby; twenty-five cent wheel, C. Holmes; ten cent wheel, Robert Denham; ten cent horse game, Cory Zufelt; fish pond, Mrs. G. A. Ironside; goose game, Chief G. C. Bromley, A. F. McKee; buying committee, J. D. McEachern, A. T. Linton, H. Carr.

The committee handling all arrangements is comprised of G. H. Free, chairman, A. G. Thompson and G. A. Ironside. The above heads of booths will select their own help from among the members of the branch. Music will be provided by the Northumberland Regimental Band under the baton of Bandmaster W. Pearson.

HOME TOWNERS

SIDBITS INTERESTING AND HUMOROUS FROM CAMPBELLFORD

The barber shop recently operated by Mr. Chas. Speedie on Front street, has been purchased by Mr. Wilfred Pourier, formerly of Toronto, who opened up business this week.

Mr. Neil Dickson, government auditor, was in town on Monday, calling on friends.

Mr. and Mrs. S. J. Dunbar had as their guests for the past week Mr. and Mrs. R. E. Dunbar and little daughter Ruth, of Timmins, Ont.

Mr. Fred Dinwoodie, of Govan, Sask., is the guest of his parents, Mr. and Mrs. F. M. Dinwoodie, Rear stree.

Harvest Services At Christ Church Oct. 4

CAMPBELLFORD, Sept. 23 (By Examiner Staff Correspondent). — The annual harvest festival services will be held in Christ Church, Campbellford, on Sunday October 4th, when the Rev. Thomas McKim M.A., of Colborne will be the preacher for the day. Special music will be rendered by the choir at both services under the direction of W. Pearson, organist and choirmaster.

In FLINT, MICH. The DURANT HOTEL

He wanted a $500 signature

and we got it for him

WE may not be able to repeat this stunt, but here is how it happened. A famous English author was stopping at a United Hotel. He felt the manager had gone out of his way to make him comfortable, and often expressed a desire to show his appreciation. One day the manager asked if he would mind autographing one of his books, for a friend. Mind? Ofcourse not! Though he seldom signed his books, the author gladly sent the manager's friend a $500 autograph. We're not in the autograph-getting business. Bless you no! But it is our business to make *every guest* as happy and appreciative as our author friend! And we think *extra service* counts even more than our larger rooms... and popular priced dining places.

Visiting Flint this year? There's a warm welcome for you at The Durant Hotel. This metropolitan hotel is convenient to shops... theaters... and city sights. The supreme cooking of 5 master chefs is responsible for all the luncheon clubs meeting at The Durant. When motoring to Flint, remember these *extra conveniences* of The Durant Hotel: Located on Dixie Highway... popular Coffee Shop ... handy garage.

REDUCED RATES AT THE DURANT

	1 PERSON	2 PERSONS
64 Rooms	$3.00	$4.50
68 Rooms	3.50	5.00
78 Rooms	4.00	6.00
20 Twin-Bed Rooms	$5, 6, 7, 8.	
10 Parlor Suites	$8, 10, 12.	
20 Display Rooms	$5, 6, 7.	

Extra service at these 25

THE GOOD ROADS ASSOCIATION.

The Canadian Good Roads Association is to-day completing its eighteenth annual convention, held this year at Lucerne-in-Quebec.

This organization, a pioneer in the movement for the improvement of highways through Canada, includes members from all the Provinces in the Dominion, and has done a great deal to bring about better road facilities.

It does not, however, confine its activities merely to pressing for road improvements, the agenda for the present convention including such important subjects as greater security on the highways, the elimination of dust, the construction of economic bituminous pavements on secondary roads, the elimination of level crossings and the development of tourist traffic.

These topics are all more or less closely linked with the good road movement.

With the improvement in road surfaces has come not only a much greater volume of traffic but naturally a marked increase in the rate at which that traffic moves, bringing with it a responsibility in regard to the safety of those who use the highways.

It is fitting, therefore, that an organization whose efforts have played a prominent part in improving road conditions should devote a portion of its deliberations to a consideration of how these facilities can more safely be used by the public.

A WISE DECISION.

Although the Ontario Government refused to approve of this work as part of the city's unemployment relief scheme, the building of a rest building on the Market Square is to be proceeded with, thanks to effective team-work and co-operation between the City Trust Commission and the City Council.

The decision is satisfactory for the double reason that the building itself is required and its erection will provide a measure of employment for some of the city's workless members of the building trades.

Accommodation of this nature has been planned for some time, and there is no doubt that no more opportune period for undertaking the work could be found than the present, particularly in view of the fact that a large number of men unusually active in the building trades are at present unemployed.

The City Council and the City Trust Commission, in co-operation in the immediate erection of this much-required building, have shown themselves alive to the situation, as has the former body in hurrying through its relief program and getting it under way as soon as possible.

While it will be obviously impossible to give full employment to all the heads of families who have registered, the civic relief work can be so distributed as to provide at least some working time to these men and thus take the edge off the unemployment crisis.

AN EFFECTIVE LESSON.

A motorist who pleaded guilty in police court yesterday morning to a charge of reckless driving was not only fined $100 but his operator's license was suspended for five months.

The second part of this penalty will appeal to most people as likely to prove a more effective deterrent against similar conduct on the part of other drivers than the monetary punishment.

Fines in the main have failed to check reckless driving, but there is good reason to believe that suspension of the privilege of operating a motor car is a much more efficacious method of impressing upon the driving public the necessity of being careful.

At once it rids the highway for some time of a driver who has shown himself unfit to be entrusted with the responsibility of handling an automobile, and at the same time it teaches all other motorists that unless they regard the elementary principles of care, courtesy and common sense they are likely to find themselves deprived of the right to drive at all.

The Examiner has always been of the opinion that the license system could be usefully employed to curb recklessness on the highways if the power to suspend drivers' licenses were effectively used, and it is gratifying to note that Magistrate O. A. Langley is adopting this weapon in a commendable effort to bring about safer driving conditions.

A TIMELY WARNING.

The statement of J. P. Bickell, registrar of motor vehicles in Ontario, that life is too precious to permit the awful waste which in recent years has been occasioned by the use of motor vehicles, and that unless there is a speedy improvement laws and regulations considerably curbing the use of such vehicles will be brought into effect, should not pass unnoticed by car owners.

Mr. Bickell's position brings him closely into touch with this whole question; the records of all accidents in Ontario come to his department, and no one is qualified to speak with greater authority in regard to highway accidents and the factors that cause them than is the Ontario registrar.

A warning from him that increasing accidents may bring about drastic legislation is, therefore, a matter of great importance to motorists generally.

When the man who is entrusted with the registration of all motor vehicles in Ontario declares that the automobile is rapidly assuming the position of the greatest menace to civilization, the statement should be startling enough to cause drivers to realize that there is manifest need for more careful handling of motor cars.

Mr. Bickell's view is not that of a man with a prejudice against this modern means of quick transportation; but is rather an expert opinion from an official whose duties bring him closely in touch with the whole question.

"DOGS, CEASE BARKING!"

They love silence in Peterborough, Ontario. It is to be a city of silences—specially ordained silences as the result of the enforcement of a city ordinance which prohibits all "unnecessary noises." Among the latter the barking of a dog is particularly specified. The people of Peterborough will no longer hear the voices of their dogs—for they must have some dogs in Peterborough, otherwise the special clause in the ordinance would not have been adopted.

How the dogs are to be made silent, however, is not specified. You can hardly eliminate a dog's bark as you would a bad tooth or a splinter in the foot. It is unthinkable that the dogs are to be banished from the purlieus of the Peterborough folk. It is impossible to command silence from them. The owner of a dog could not possibly be held responsible for the fact that his dog elected at some moment to give tongue—either as a method of rejoicing, or to indicate his hunger, or his desire to go for a walk, or his detection of unwelcome strangers at the front door.

Peterborough has bitten off more than it can chew. It might as well pass an ordinance forbidding the birds to sing, the cats to mew, the errand boys to whistle, the sidewalks to crack under frost and thaw, or the crows to cease from cawing, or the hens from cackling, or the cocks from crowing. The dogs of Peterborough should become famous in our song and story. Here is a theme worthy of any Canadian poet with salt.—Montreal Star.

LEADERSHIP AND ITS INFLUENCE.

A rather remarkable tribute to the strength of the British character in asserting itself to meet emergencies, is contained in the current issue of the weekly market review by Walter W. Price, of New York City. It is entitled, "Leadership and It's Influence in Times of Distress." As it is written by an American it is particularly significant. He says in part:

"In the final equation, the one real triumph of man, individual or national, lies in the strength of human character and the revelation of the extent of that character invariably shows itself in the stress of great crises. The drama which was enacted yesterday in the English House of Commons will be recorded in the pages of history, and it will bring to succeeding generations the inspiration that moral heroism in times of peace ranks with the heroism upon any field of battle, and is just as inspiring, if not more so. When men whose sincerity is unquestioned, can put behind them party personal reputation and subject themselves to the charge of moral cowardice; when in their responsiveness to abandon other considerations save the consideration of their country's needs that fibre of character which they, in such times of stress record, reveals the situation from which nations derive their greatness and their glory. Men are prone to bemoan the absence of leadership. Very often their own ego blinds them to the existence of the very thing they think is lacking. The people of this country failed to grasp the greatness of both Washington and Lincoln until those men had long since passed. When the world sees, as they have seen in England, that such sacrifices have been made; when they see a nation subjecting its wealth to a tax of 25 per cent. to maintain its credit and pay its debts without equivocation; when they have seen two conspicuous figures like J. Ramsay MacDonald and Phillip Snowden completely put behind them the efforts of their lives, sacrifice the labors of years solely in the interests of their country, and triumphantly subject themselves to jeers and scorn, (the anguish of which brave men feel more acutely than others), they bring to this harassed world a new hope; the hope of disinterested service to country; the hope in elimination of uncertainty of aim, and the concentration of thought and labor in their final conception of the real problem before them; the hope and the realization of the fact that ability and loyalty have not passed away and that the voices of those in authority do not reflect an imbecility or a machiavellism. In a not dissimilar crisis William Pitt, after decisive action had been taken, proudly said that England had saved herself by her own energy from the example of which the whole world might profit."

British people all over the world have recognized the greatness of British statesmen and public men in this emergency. The leaders of the three parties, Conservative, Liberal and Labor, recognizing that the status of the pound sterling was threatened, and British credit imperilled throughout the world as a result, lost no time in abandoning partisan warfare and uniting in a patriotic effort to insure the stability of the national finances. It was an example that was not lost upon the people of the various British nations, but it is gratifying to see that this unselfish leadership is recognized and appreciated in the United States. There is no doubt that in future days the self-denial of these leaders, particularly the members of the Labor party who, by their allegiance to duty forfeited their standing among their own supporters, will be looked upon as an outstanding example of patriotic leadership in a great national crisis.—Brantford Expositor.

EDITORIAL NOTES AND COMMENT.

According to the weather they have been having, the annual exhibitions this year should be called summer fairs.

The American Legion greeted President Hoover with cries of "We want beer" when he visited the Detroit convention. What's the matter with the supply at Windsor?

Undoubtedly those officials in charge of the sale of tickets for the world's series are wondering just where is this depression that most people are talking about.

With the Canadian dollar down in the United States, Canadians will be inclined to do the bulk of their buying at home where the dollar represents 100 cents.

If Babe Ruth gets a renewal of his contract at his present salary it may be accepted as an indication that the worst of the depression is over.

This would be a perfect September if it were not for those Empress Eugenie hats.

One thrifty man admits that he deliberately sat on his old derby and made a new hat for his Mrs.—Stratford Beacon-Herald.

All of us are more or less foolish, but some of us insist on proving it.—Montreal Star.

WHITE FAWN

by Olive Higgins Prouty

(Continued from yesterday.)

"You're a funny girl." Then, after a pause, "Do come to the dance tonight. I'll see you have a good time, though I know that isn't necessary, and I'll take you home afterwards. Telephone your mother you've changed your mind."

"I think I won't but it's awfully nice of you."

"Well, then," pursued young Haverford, who so seldom pursued, 'let me take you home from here, and I'll cut the dance myself, as I intended to, as I ought to. I have my car outside."

"But I'm to be called for at eleven by our chauffeur."

"Well, you can tell him you don't need him, can't you?"

"I suppose so, but—please—I think I'd rather not." She was very definite.

Young Haverford shrugged. "Oh, well, all right," he said. He was not used to being turned down.

Fabia was unaware she had turned him down. Unaware, too, that she was passing by an opportunity that any debutante in Boston that fall would have jumped at. Tuck Haverford was the lion of the Boynton dinner-party. He was usually the lion of any dinner-party he accepted. They were few, such were the rigors of training. An injury received in practice had laid him off the football battlefield for the last fortnight. But the very fact that June was a celebrity made Fabia thankful she had an excuse to side-step an evening with him. She simply could not endure any more tests to-night. She wanted to be alone, to escape. Memories were rushing in upon her with terrific force now, and they burst like blood rushing into veins through which circulation has been temporarily suspended.

She drew a great sigh of relief, once safely in the back of the limousine, the door closed upon her. At last she could face what had happened this afternoon. At last—she was very tired. She had slept but three brief hours in thirty-six.

McKay had to shake her gently, to wake her up when they arrived at the front door. In her own room, without turning on the light, she slipped out of her dress, crawled into bed, and almost instantly fell into a deep, long sleep.

INSTALMENT 13

It was a hand stroking her forehead that woke Fabia up. She was conscious of the stroking for a long time before she opened her eyes. She had been dreaming about the young doctor. Something dreadful had happened to her evidently, and he was taking care of her. "I don't know why I did that," he said tenderly. "Are you all right?" She couldn't answer him for some reason, so he began stroking her forehead. How gentle his hands were, and cool and smooth. She pretended to be asleep because she loved the touch of his hands so. That was strange, for she hated the young doctor.

When finally she opened her eyes her mother was saying, "How sound asleep you were! I hated to wake you."

"What time is it?"

"It's after twelve. You must get dressed now, I'm afraid. There's the Campbell luncheon to-day, you know."

"I'll get right up." (After twelve) She was due at Mr. Haverford's office at two. Well, there was plenty of time.)

Her mother smoothed the rough, tossed shock of hair. "Did you have a good time last night?"

"How can you ask, mother? You'd think I didn't care a thing about Thad. I had an awful time, and I knew I should. But it wasn't because of Thad that I had an awful time. I might as well be honest. I don't know how to talk with these college boys, mother. Oh, what is the use of my coming-out? I know I shan't like it. I wish you wouldn't make me go through with it. I don't get any pleasure out of it at all."

"I'm not having you go through with it, as you say, for pleasure."

"I thought people went to parties for pleasure."

"Not always. Often the pleasure is incidental. In fact, I think if you consulted your pleasure less, you'd be happier. I think you must learn to look upon coming-out more professionally, Fabia."

"More professionally?"

"Yes, less as a pastime, more as a job—your job, this fall, and treat it with the seriousness that a job requires."

"That's funny," said Fabia, slowly. "Some mothers think girls treat coming out too seriously. We've talked about it lots at school. I'd have sworn you'd be one of the mothers who'd be against making a business of coming-out."

"If it's looked upon as a mere form of amusement, I would," agreed Lisa, "or if it has no other object than to establish a girl's social staus. But if it's valued as a course of training that will better equip her for the life she'slikely to lead, I think it deserves serious attention."

"Oh," sighed Fabia, "if I could go just to a few things, mother. Just to things I like—not be at it constantly, always, every day and every night. Next week is simply packed."

"If you'd taken up a course of study this fall, say at Radcliffe or some other institution, you'd go into it thoroughly, Fabia, and meet all its requirements, even if they weren't to your liking."

"But if I found the course dull and stupid, then I'd drop it."

"Not until you'd given it a fair trial, and even then I doubt if you would if you believed there was something in it you wanted."

"That's just it! That's just the difference. A course of study has some object, some knowledge I might want, but coming-out is so senseless. It leads nowhere—just going to party after party. What am I getting out of it?"

"Well," replied Lisa with a sigh, "the conclusion that an existence devoted only to social activities is not satisfying to you is worth something."

"I knew that already."

"Then there are the positive advantages—the practical training in art you've never studied. You're learning the technique now—what an artist learns, I suppose, when he studies drawing, such as loyalty to a former invitation if accepted; constant observance of your wardrobe; graciousness at all times with all people. Later, you will acquire a style in your art, I hope—poise, self-confidence, independence. It comes only with time and experience. Does it really all sound senseless to you, Fabia, and not worth your serious attention?"

"Oh," murmured Fabia, "you can make anything sound reasonable if you want to. That's the trouble I always have arguing with you. I never get anywhere." Then, after a pause, "But you're supposed to have mastered the art, mother, and you never went through coming-out."

"That's the very reason I'm so anxious that you should!" exclaimed Lisa. "You've been away at school so long. You know so few girls and boys of your own age. You're different from June. You're like me, Fabia. At your age—I too, knew few." She was speaking urgently now. "I too, had had very little experience, and when your father began paying attention to me, I was blinded—dazzled by him and his family. I want you to know all kinds and varieties of people—come into contact with as many little tin gods as possible—and gold ones, too—so that you'll never be dazzled nor blinded by either."

Fabia sat perfectly silent for a moment, then she asked bluntly in a low tone, "Mother, are you in love with father?"

After a short pause Lisa replied lightly: "Am I not Grandmother Vale's daughter-in-law? Of course I'm in love with her son, if I married him, silly child." She gave a little laugh.

"You're joking! Tou're making fun!" complained Fabia. "It doesn't seem as if you'd have to do that if you really were in love with father."

Lisa replied, "I meant to suggest, Fabia, that it's a Vale tradition to be in love with the man you marry, and so it is not to be questioned."

"Oh! A tradition! Well, if I ever love any one, it won't be because it's a tradition!"

"Don't feel too bitter about traditions. They're excellent when they've good ones. They often become ideals, and"—she sighed—"we need traditions and ideals these days, to keep us on the right road."

"Do you need them, mother, to keep you on the right road?"

"Why, of course! I suppose you thought I couldn't possibly have temptations of any sort. I used to think that about my mother at your age, I remember."

"Yes, I used to think it, too," said Fabia.

At two o'clock, Fabia was seated in Mr. Haverford's private office.

"Won't you take off your coat? It's warm in here," he had remarked when he had risen to shake hands.

"No, thanks," she had replied, glancing around the high, bare, eggshell colored walls. "My coat is more appropriate for your office. I'm dressed underneath for that luncheon, in velvet and lace."

"You're supposed to be at the luncheon."

"Yes. I telephoned the Country Club on my way in here I couldn't make it. But my mother thinks I'm there."

Morris Haverford was flattered to be treated as if her were a contemporary—a co-spirit to be trusted with little acts of deceit, expedient when dealing with the older generation.

"I'll never give you away," he promised. Then abruptly, "How do you like this coming-out game?"

"It isn't a game. It's a job. I've got to be more professional about it to like it, I guess."

"That's an original idea."

"It isn't mine. It's my mother's. I didn't have a very good time at a party last night, but mother says a good time isn't the purpose of a party when you're coming-out."

"That's interesting, too. Your mother is a very clever woman. She ought to know." Then, after a pause, "Will you tell me your story now?"

"I've decided to drop the case."

"But why? Yesterday—" He felt absurdly disappointed.

"I've changed my mind since yesterday."

"Would you care to tell me why?"

"Because the man who ran over Thad had a reason for not stopping.

"He is a doctor, and he was on his way to an operation. He explained the whole thing to me after I saw you yesterday."

"What is the doctor's name and address?"

"I'd rather not tell."

Morris Haverford leaned back in his chair and looked at Fabia closely.

"You seem to want to protect this man who ran over your dog. I have a feeling that I ought to protect you from some sort of imposition."

"I don't want to protect him," Fabia retorted. "He's a perfect stranger to me. I don't want ever to see him again. He's a cheap, ordinary young doctor of some sort. I simply want to forget about the whole thing as soon as possible."

"But before you saw this young doctor—"

"I feel differently now." She rose as if it was settled. "How much do I owe you, please?"

"How can you possibly owe me anything?" exclaimed Haverford, rising also, but against his will. He could not let her slip away as quickly as this. Then he had a sudden inspiration. Why not? He had in years past been equal to such an opportunity.

"What are you doing the rest of the afternoon?" he inquired. "What do you say to a show somewhere?"

"With you, you mean?"

It was Morris Haverford who flushed now. Was he getting to be one of those old fools who supposed a young girl would care for his company?

"Do you really mean you want to take me to a show?" Fabia was inquiring, still with that surprised look in her eyes.

"That's what I meant," he laughed, his face a deep crimson now. (Why should a man be cursed with such a feminine affliction?) "But don't think of it, please. Of course you've something else to do."

Fabia observed the flush. She had hurt his feelings somehow! "I haven't a thing to do," she said. "I'd love to come with you."

OPPOSE JAPANESE TROOPS

Marshal Chang-Hsuch-Liang, Manchurian General of North China, whose capital city, Mukden, fell before Japanese troops.

What To-day Means To You

"VIRGO"

If September 23rd is your birthday, the best hours for you on this date are from 9 a.m. to 11.10 a.m., from 2 p.m. to 4 p.m., and from 8.10 p.m. to 10.45 p.m. The danger hours are from 11.45 a.m. to 1.50 p.m., and from 6.10 p.m. to 8 p.m.

The planetary aspects of September 23rd are excellent for all business purposes, except buying propery, handling leases, etc. The signs favor the young more than the middle-aged, and the former will derive inspiration from the prevailing influences. Travel, perhaps abroad, is also indicated. Any such trip will be beneficial in results.

Children born on this September 23rd will have restless temperament and sceptical natures. They will putter at several things before discovering the niche in which they fit. Once, however, this is accomplished, their work will become an obsession, and they will successfully forge ahead. Not very affectionate, but intensely loyal.

You, if born on September 23rd, have a very versatile mind and are, without a doubt, interested in many subjects. You, however, never express a definite opinion on any matter, until you have mastered it. You never voice half-baked ideas. You do not devote much time to outdoor amusements—not as much as you should in the interest of your health. You are very studious, a great reader and a deep thinker.

Your attitude to life is a serious one, and, lacking a sense of humor, you can often see only grayness and drabness, when others would find some small factor capable of brightening even sombre hues. You are energetic, and often overtax yourself, to the detriment of your physical condition. In matters pertaining to business, you are ultra-prudent and slow. You rarely, however, make a mistake. You are careful about details and like to do everything yourself. As an executive you do not shine. In a position, however, where study, research and analysis are required, you excel.

You are susceptible, and your heart is responsive. Often a victim of infatuation, you must avoid marriage founded on any such basis. You must not commit yourself irrevocably just because you think you are in love. You must know you are in love, before taking the definite step. Otherwise, unhappiness and misery will ensue.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them inserted.

SATURDAY'S RACE

To The Editor of The Examiner,

Dear Sir,—After reading the article in your paper stating the drivers at Saturday's races refused to come out and finish the race, I wish to say it is not true, as my horse and driver went out to finish the race and then informed that the race was declared finished. Mr. Payette and Mr. Rountree refusing to race, saying it was after sunset.

There is a sunset rule, but surely the judge, and Mr. McCullough, of Toronto, president of the Canadian National rules must have known that the sun did not set at six o'clock on Saturday afternoon. Now why was the race declared finished, disappointing the large crowd who was anxious to see it raced off, also spoiling the chance of my horse, Laura G, bettering her position in the race, and proving to the public the good horse we know her to be.

This is my first visit to your beautiful city, which has impressed me very much, and I am sorry to go away feeling that I was unfairly dealt with by the judges of your race program.

Yours truly,
N. Neely,
Imperial Race Stables, Sarnia.

THE SHEESLEY SHOWS

To The Editor of The Examiner,

Dear Sir,—For the best agricultural show Peterborough ever had upon its Exhibition Park, the Directors deserve all praise and for that success I heartily congratulate them.

But for the Sheesley army of operators there should be, in my opinion, the strongest condemnation.

The Sheesley Midway operators appeared to be a collection of clever workers such as we read about from the happenings in Chicago, New York and Detroit, expert in making their clever schemes quite above board. Even the police would believe their stories rather than the victims, and one victim was threatened with arrest by the directors special officers, also one of the swindlers caught him by the arm and threatened him. He was playing practically a lone hand for about three hours, holding up the robbery business brought to Peterborough Exhibition and protected by the Directors.

I understand one man was wheedled out of fifty dollars.

It is calculated that at least $75,000 was removed from this neighborhood by the Sheesley crowd. How much does that help business in this time of deep distress?

A. H. Allen.

MARKET CLOSING ON EXCHANGES

(Continued from Page 1)

ing unchanged at 4 and B.A. Oil, after having sold a slow as 9, rising to ½ to ¾ points above its low where it was only a small fraction under the pegged prices.

Bell Telephone, while not as active as Walkers and B.A. Oil, was another example of a stock to show strength.

All other issues were stronger, the internationally listed stocks previously placed on a free trading basis, rising with New York and selling for the most part at prices somewhat advanced of those for the same issue in New York on account of the difference in exchange.

Dominion Stores scored a gain of 2½ points, Brazilian and C. P. R. were both up over a point. Ford of Canada, after making a new low at 13½, rebounded to 15, a net gain of 1¼ points. Nickel rose approximately ¾ of a point; Noranda gained 1. Imperial Oil gained ½ point; Int Pete 1.

STANDARD EXCHANGE

TORONTO, Ont., Sept. 23. (CP) Interlisted stocks on the free trading list, reflecting a strong upward movement on industrial boards, maintained advances in a firm manner on the Standard stock and mining exchange market to-day. Lower-priced issues displayed little buoyancy, offered quotations holding at the minimum while bids were light.

Noranda, International Nickel and Dame closed up 75 apiece from last night, the former issues showing outstanding strength on the opening. Lake Shore and McIntyre firmed a few cents each and other golds were steady. B.A. Oil was added to the free list but sold down 40. Imperial and International Pete were up 40 and $1.15 respectively and Petrol Oil and Gas advanced a couple to 20.

WALL STREET.

NEW YORK, N.Y., September 23 (C.P.). — A violent upsurge of share prices spent its force before the close of to-day's market. Advances of 3 to 15 points, with rails making the most sweeping gains, were generally reduced by 1 to 3 points as trading slackened in the last hour. A few issues came back to the top in the final dealings. Delaware and Hudson fell back about 3, after gaining 16. Union Pacific fell back about as much, after rising 13¼. New York Central's extreme gain of 7 was reduced, then regained. U.S. Steel lost about half an extreme rise of 4¼, and American Telephone slipped back a couple of points after rising more than 7. The market closed with a string tone. Sales were about 3,000,000 shares.

DIVIDEND DECLARED.

NEW YORK, Sept. 23.—(C.P.) — Northwestern Pacific Railway Co. to-day declared a quarterly dividend of 75 cents on the common stock, against $1.25 paid previously. At the same time directors voted salary reductions of its officers ranging from 10 to 25 per cent, effective Oct. 1.

FOREIGN EXCHANGE.

NEW YORK, N.Y., September 23 (C.P.). — Prime commercial paper 2 per cent.; foreign exchange weak. Cable rates (Great Britain in dollars, others in cents): Great Britain 4.12, France 3.94, Italy 5.06, Germany 23.50, Canadian dollar at 8 per cent. discount.

Short Selling Ban Rescinded To-Day

NEW YORK, Sept. 23. —(CP)— The ban on short selling by the board of governors of the New York Stock Exchange Monday was rescinded today. The reports to the business conduct committee on short positions by members however are to continue as ordered, and it was believed in Wall Street that this check upon their activities would make the bears cautious.

After a collision in Islington, England, in which six people were injured an automobile crashed through the door of a saloon and stopped at the bar.

Canadian Dollar Closes At 93 Cents

NEW YORK, Sept. 23.—(By the Canadian Press.) — The Canadian Dollar firmed somewhat as banks closed to-day and came back to 93 cents in United States funds, at the rate at which it was quoted at the close yesterday.

RAIL ISSUES SURGE UPWARD IN ACTIVE NEW YORK SESSION

Trading Confidently Resumed in London With Good Effect on Wall Street.

WAGE REDUCTION PLAN.

NEW YORK, Sept. 23 (C.P.) — In the swift succession of spectacular economic developments in the past three days, an important section of Wall Street saw pronounced progress in competing major economic readjustments necessitated by the depression.

Share prices, particularly rails, were sent hurling upward, in the most brilliant market recovery since the war debt moratorium of June. Stock Exchange officials lifted the ban on short selling, once more providing a relatively free and open market, after two days of the most stringent control since the Great War. Trading was confidently resumed in London, with a good effect both here and in Paris.

Many shares surged up 3 to 15 points. Price averages indicated an average gain of more than 4 points in leading issues by 1 p.m. Violent advances occurred in the rails, Santa Fe, Norfolk and Western, Union Pacific and Lackawanna sweeping up 10 to 15 points. Such issues as American Telephone, New York Central, New Haven, American Tobacco "B," and Allied Chemical gained 6 or more. Issues selling up 4 or more included U. S. Steel, Consolidated Gas, American and others. Trading was active, and others. Trading was active. Some Conservative brokers naturally regarded such an advance as too rapid.

Wage Reduction Plan

The wage reductions initiated in the steel industry, which may effect some 1,000,000 workers if generally accepted, and the talk of reductions in railway wages, threatening the pay of some 1,300,000 workers, could not, of course, be regarded as of wholly favorable import even by those bankers and economists who believe that a general wage revision must precede recovery.

While acknowledging that the immediate effects of such reductions may for a time curtail retail purchases of automobiles, radio sets, and other important lines of merchandise, this school of thought, of which Albert H. Wiggin, head of the Chase National Bank is a leading exponent, holds that measurers artificially to stem the tide of deflation which began two years ago has merely slackened and thus prolonged its flow.

These observers assert that the shrinkage in commodity prices, security values and dividends must penetrate throughout the economic structure before our economy is again in balance.

Heavy Fine Handed Creamery Company

TORONTO, Sept. 23. — (C.P.)— Fines amounting to $175 were imposed in the "Health Court" to-day by Police Magistrate Patterson on the City Creamery Co., Ltd., of Toronto, on three charges in violation of the Dairy Products Act. Assistant Crown Attorney C. L. Snyder asked for a heavy penalty as a warning to other creameries in the province. The charges to-day involved the misgrading of cream, falsifying statements and failure to make tests as required. Samples of cream produced at various points in Western Ontario were cited as exhibits at the trial to-day. Creamery Inspectors James A. Hill and R. Johnston, of London, Ont., and Thomas C. Adams, of Toronto, were called to give evidence in connection with the case.

FRUIT AND VEGETABLES.

TORONTO, Sept. 23 (C.P.). — Wholesale prices on Canadian fruits and vegetables as reported to the Canadian Press by White and Co., are as follows:

Pears, 6-qt. bskt. 20-25c.
Plums, 6-qt. bskt. 15-20c.
Peaches, 6-qt. bskt. 20-35c.
Cucumbers, 11-qt. bskt 10-15c.
Tomatoes, 11-qt. bskt. 12½-15c.
Beets, 11-qt. bskt. 15c.
Carrots, 11-qt. bskt. 15-20c.
Wax beans, 11-qt. bskt. 20-25c.
Apples, 6-qt. bskt. 12½-15c.
Canteloupes, 16-qt. bskt. 20-30c.
Blueberries, per basket $1.50-$2.
Cabbages, per dozen 40c.
Apples, per bushel 60-75c.

CHICAGO GRAIN.

CHICAGO, Ills., Sept. 23.— (C.P.)—Responding to strength shown by securities and by cotton, grain prices averaged higher early to-day. Liverpool wheat quotations advancing more than expected counted also as a bullish factor. Opening ⅛-1 cent up, wheat afterward held near the initial range. Corn started irregular at ¼ cent decline to ¼ cent gain and later showed firmness.

TO INSTALL BISHOP.

LONDON, Ont., September 23 (C.P.). — With all the pomp and dignity of the Catholic Church the Rt. Rev. John Thomas Kidd, D.D., LL.D., will be installed as Bishop of the See of London at an impressive ceremony to be held this evening at 8 o'clock in St. Peter's Cathedral.

It is the first time in the history of the present cathedral that an installation of the bishop has been held in the edifice.

Guest Speaker

Prof. W. Galdstone Watson of Pine Hill Theological Hall, Halifax, formerly of Weston, who was guest speaker at the opening ceremonies of Emmanuel College, Toronto.

English Financier Returns To England

LIVERPOOL, Eng., Sept. 23. —(AP)—Montagu Norman, governor of the Bank of England, returned today on the liner, Duchess of Bedford from a five-week visit to Canada, ostensibly to improve his health.

Having wirelessed for a tender to meet him, he dashed for the London Express as soon as he reached the landing stage and began dictating letters to a secretary before the train left the station.

Livestock-Produce Quotations

TORONTO LIVESTOCK

TORONTO, Ont., Sept. 23 (CP) Cattle receipts, 375. Left-overs totalled 1300 head. No good or choice cattle offered. Trade is slow on common to medium butchers with prices from $3 to $5.50. Fed calves sold up to $9. Good butcher cows brought $3.50 to $4. Store cattle trade was dull with few early sales.

Steers up to 1,050 lbs., good and choice $5.75 to $6.; medium $5 to $5.75; common $3 to $4.75; steers over 1,050 lbs., good and choice $6 to $6.25; medium $5.25 to $5.75; common $4.50 to $5; heifers good and choice, $5.75 to $6; medium $4.75 to $5.50; common $3 to $4.50; fed calves good and choice $8 to $9; medium $6.50 to $7.50; cows good, $3.50 to $4; medium $3 to $3.50; common, $2.25 to $2.75; canners and cutters $1 to $2; bulls, good $3.25 to $4; common, $1.75 to 2.50; stocker and feeder steers good, $4.50 to $4.75; common $3.25 to $4.50; milkers and springers $30 to $70.

Cattle receipts 367. Calves steady at $8.50 to $9.50 for good and choice vealers. Stockers sold from $2.75 to $4.50.

Good choice veal $8.50 to $9.50; common and medium $5 to $8; grassers $2.75 to $4.50.

Hog receipts 861. Hogs were unsettled with packers bidding $4.75 F.O.B. for bacon, $5 off truck and $5.50 weighed off car.

Sheep receipts 2207. Lambs unsettled with no early sales. Bids $6.50 to $6.75 for good ewes and wethers.

TORONTO PRODUCE

TORONTO, Ont., Sept. 23.—(CP) —The United Farmers Co-operative company today supplied the Canadian Press with the following quotations on produce delivered at Toronto:

Eggs, extras, doz. 25c; eggs, firsts, doz. 21c. Cream churning No. 1, lb. 20c. Creamery butter, No. 1 solids lb. 21c. Potatoes No. 1 in bags 35c-40c.

Export beef cattle 1000 lbs. and over $6.25-$6.50.

BUFFALO LIVESTOCK

EAST BUFFALO, N. Y., Sept. 23. —(CP)—Hogs 1,400; above 160 lbs. steady to 10 lower; lighter averages slow, weak to 25 lower; desirable 180-200 lbs. 6.00-6.05; few decks 210-225 lbs. selections 6.15 and 6.25; 160-170 lbs. 5.65-5.95; below 150 lbs. 5.00-5.50.

Cattle 175; grassed steer trade not established; one load plain kinds 5.10; steady; cutter grades 1.50-2.75.

Calves 100; vealers unchanged 11.50 and down.

Sheep 600; lambs generally steady; good to choice 7.57; medium kinds and fat bucks 6.50; throwouts 5.50; sheep scarce, steady.

Notts County 1, Oldham Ath. 0.

Third Division—Northern Section
Hartlepools United 2, Southport 1.

RUGBY

Rugby Union
Bridgend 20, Glamorgan 0.
Devonport 8, Royal Naval Col. 6.
Royal Military College, Sandhurst 10, Harlequins 7.

Rugby League
Salford 34, Wigan Highfield 0.

Britisher Advances To Quarter-Finals

BUFFALO COUNTRY CLUB, Williamsville, N.Y., Sept. 23 (C.P.). — Enid Wilson, British championship hope, advanced to the quarter finals in the U.S. women's open golf tourney to-day, winning from Mrs. L. C. Nelson of Dayton, Ohio, 4 and 3.

Jane Brooks of Nyack, N.Y., sensation of yesterday's round when she eliminated Mrs. O. S. Hill, Kansas City, Mo., was herself eliminated to-day by Marjorie Kerr of Great Britain. The score was 2 and 1.

STORMS STRIKE IN NEW ENGLAND

Violent Winds and Cloudbursts Play Havoc Over Whole Country.

TEMPERATURES SOAR.

BOSTON, Mass., September 23 (C.P.). — New England was recovering to-day from a combination of cloudbursts, violent wind and electrical storms and soaring temperatures which rode in and out again with the last days of summer.

Northern Vermont suffered greatest from the cloudbursts and storms while Southern New England sweltered in temperatures that ranged from 90 to 92.

In Vermont, at Orleans and Barton, traffic on the Canadian Pacific Railway was held up for three hours by washouts that followed a cloudburst. Highways and bridges in Caledonia and Orleans County were inundated by overflowing rivers and streams.

At St. Johnsbury, Vt., a violent wind and electrical storm disrupted telephone service, littered streets with fallen branches and uprooted trees. Streets in outlying districts were inundated to a depth of two inches in many sections.

New Hampshire had heavy rains and many localities were visited by severe electrical storms. At Durham, N.H., two University of New Hampshire football players were stunned when a lightning bolt struck the middle of the practice field. At Manchester the temperature leaped from 63 at 8 a.m. to 80.

Maine escaped the heat, but the thunderstorms crippled power and light lines in separated parts of the state. Bethel experienced the worst electrical storm in many years.

Boston's maximum temperature for the day was 92, two degrees below the record for the date.

Big Increase Shown In Cable Business

NEW YORK, Sept. 23. —(C.P.)—The ill wind that forced England off the gold standard has blown good for the Trans-Atlantic Cable and Telephone Companies.

A leap in the volume of messages under the ocean and through the ether above it was reported to-day by telegraph and telephone concerns.

In two days, the unsettlement and international interest attendant on the British financial situation have resulted in a 20 to 25 per cent. jump in the volume of the trans-Atlantic messages handled by one company. An increase of more than 20 per cent. in all types of messages handled was reported by another, while press business increased more than 40 per cent.

5,000 SCIENTISTS OVER WORLD

(Continued from Page One.)

ever forced such a break with tradition, especially in view of the difficulty of finding accommodation elsewhere for so great a company.

General Smuts was installed in the presidential chair by Professor F. O. Bower, the retiring president. Tonight, General Smuts makes his presidential address— a "scientific world picture of today," before the assembled delegates in Central Hall, Westminster, and three overflow halls will also be packed, for great public interest has been aroused.

Appears In New Rule

Accepting the task of setting the keynote for the greatest gathering of world scientists ever seen, General Smuts appears in a new role today. To the military abilities and true statesmanship which took him to a prominent position in the gathering of world statesmen that framed the peace treaty and created the League of Nations, General Smuts adds a keen perception of the entire scientific effort of today.

In his presidential address General Smuts will confine himself to no particular branch of science. Rather he will show the transformation science has undergone in late years and will indicate the all-important possibilities opened up as science tends away from the purely materialistic to research in which the link between mind and matter, between life and the earth itself will be sought.

FILLS HIGH OFFICE

(Continued from Page 1)

mediately operative an already adopted canon providing for the election of the church's primate by the Synod, instead of the House of Bishops.

If such a change is to be made effective at this assembly of the synod, a unanimous vote upon the enabling motion was necessary. As occurred on the opening night of the Synod more than a week ago, the Lower House this morning withheld this unanimity.

While it now apears definite that synodical election will become finally effective at the next triennial assembly of the synod both the enabling motion and the implementing canon are yet to be approved by the Upper House. This it is understood, will be forthcoming despite some disagreement over certain aspects of the legislation.

Late this morning, both Houses met in joint session to resume discussion of the Anglican National Commission's recommendation for inter-denominational co-operation in ministering to sparsely settled districts of Canada.

MONTREAL LEADERS SHOW LIGHT GAINS

Firmer Tone Prevails During Morning Session—C.P.R. Gains 7-8

MONTREAL, Sept. 23.—(C. P.)—(C.P.)—A better tone continued on the Montreal stock exchange throughout the morning. A few leadin gissues showed fractional gains above yesterday's final prices.

Brazilian Traction rose to 10⅛ where it was ⅝ above yesterday's closing quotation. Canadian Pacific Railway recovered some ground, selling up to 17½ at noon for a net gain of ⅞ over the final figure yesterday. Nickel advanced ⅝ to 9⅞. Winnipeg Electric advanced 1⅛ to 5⅛, and Cement gained ⅛ at 5. B C. Power "A" reacted slightly, dropping ¼ at 26⅝.

Brazilian, Nickel and Canadian Pacific are on the unrestricted list. Such other stocks as Montreal Power, Chasinigan, Dominion Bridge, Textile and McColl Frontenac held unchanged from yesterday.

HELPS MEXICO

MEXICO CITY, Mex., Sept. 23. (AP)—Recovery in the quotation of bar silver as a result of Great Britain's suspension of the gold standard brought considerable satisfaction to-day to Mexico, largest silver producing country in the world.

Coal From China For Nova Soctia

HALIFAX, N.S., Sept. 23.—"Bringing coals to Newcastle," a Norwegian motor freighter is en route to Halifax with a cargo of Chinese anthracite for sale to householders of this province and New Brunswick.

The cargo is 4,000 tons of coal mined in the Province of Tinkin, French Indo China. It has been imported into Western Canada before, but records indicate this will be the first shipment to be distributed in the Maritime Provinces.

LEVEL CROSSING FIGURES GIVEN

Statement By Frank Oliver Shows Toll Was 115 With 475 Injured in 1930.

GOV'T GRANT INADEQUATE.

LUCERNE-IN-QUEBEC, Que., Sept. 23 (CP)—The Dominion at present has some 28,000 level crossings scattered along railways from coast to coast, despite expenditure of $15,189,000 over the past 21 years towards elimination and amelioration of this menace to traffic, according to Hon. Frank Oliver, advisory officer to the board of railway commissioners for Canada, in a paper before the convention of the Canadian Good Roads Association here to-day.

In 1930, a total of 431 railway crossing accidents in Canada took a toll of 115 lives and 475 injured Mr. Oliver stated. Through the efforts of the Board of Commissioners much had been done to improve railway crossing conditions, Mr. Oliver continued.

Subways and tunnels had been built where feasible and financially possible, and highways diverted to avoid crossing the right-of-way. Where it had been found impractical to remove the crossing, signal lights bells had either "wig-wags" or gates had been installed.

Crossing accidents on provincial highways formed less than one-third of the total for 1930, the great majority of crossing fatalities occurring on country roads.

The annual Government grant of $200,000 to the board for the railway crossing fund was inadequate, the speaker said, and it would be impossible to entirely remove all level crossings in the Dominion.

Old City Of York Open To Gen. Smuts

YORK, England, Sept. 23 (C.P. Cable).—The freedom of this ancient city, the birthplace of the British Association for the Advancement of Science 100 years ago, will be accorded to General the Rt. Hon. Jan Smuts of South Africa, the incoming president of the British Association on Saturday. The second centenary of the British Association will open here next year.

DIVORCE ACTION IS ON DOCKET

First Divorce Action to be Heard in City Comes Up Next Week.

SESSIONS START TUESDAY.

What will constitute the first divorce action to come for trial in Peterborough is listed for hearing at the sessions of the Supreme Court of Ontario which opens at the Court House here Tuesday next before Mr. Justice Wright.

Ethel Watkins of this city is plaintiff, while Frank Ernest Watkin and Agnes Horton (otherwise known as Agnes Watkins), both of the village of Alfrenda, in the State of New York, are cited as defendants.

Plaintiff's claim is for the dissolution of the marriage between her and the defendant, and for the custody of their child, Mary Earlene Watkins. The parties were married in this city on March 24, 1913.

From the date of the marriage until the plaintiff left the home of defendant because of alleged cruelty of the defendant and his neglect, the parties lived together in the Township of South Monaghan and in the Township of Otonabee. In September, 1925, it is claimed, the defendant refused and neglected to support his wife, and removed to the State of New York.

It is further claimed that on or about December 19, 1927, the defendant and his co-defendant Agnes Horton went through a form of marriage at Whiteville, in the County of Allegany, New York.

W. F. Johnston is solicitor for the plaintiff.

FRED ROY ATTENDS BOSTON GATHERING

Local Photographer Gives Interesting Address at Meeting—Good Photography Exhibition.

BOSTON, Mass., Sept. 23 (Special to The Examiner).—Fred L. Roy of Peterborough, Ontario, is one of the principal speakers for the convention of photographers from all over New England, New York State and Nova Scotia which opened at the Hotel Bradford in this city Tuesday for three days.

Mr. Roy's subject is "The Problems of a Small Town Photographer." Some of the best photography ever seen in the East is on exhibition at the convention, and all the wonderful things that have recently been achieved in photography and in the mechanism and chemistry of photography will be explained and discussed in detail.

Other speakers include George Edmondson of Cleveland, Ohio, one of the foremost photographers in the country, and Helen Lewis Fetzer of Toledo, Ohio. The program for the convention of the organization, the New England Photographers' Association, also includes business sessions, election of officers and annual banquet.

WHAT IS HAPPENING TO THE SERVANT PROBLEM?

HAVE YOU ever considered that the average wife of today gets along better with one servant than the average woman of the '90's could manage to do with several?

You may jokingly say, "She has to." But the real reason is, she can.

The real answer is the automatic refrigerator, the modern stove, the washing and ironing machine, the electrical devices, the countless labor-savers that actually replace servant power.

It is the many improved staples, the convenient packaged goods, the glassed and canned foods, the prepared foods that save so much time and labor.

It is better marketing facilities—convenient stores with a wide variety of merchandise, including fresh, healthful foods, in season and out.

It is modern advertising — crammed with usable news for the woman in the home—making possible rapid progress by developing new markets for goods, and new goods for markets. Advertising, that tells you what to buy, and where to buy it.

Advertising makes it easier to live, more healthful to live, pleasanter to live. Yes, and more economical!

Read the advertisements for practical living news.

ANCIENT ESKIMO HOMES DOOMED AS THE ARCTIC BECOMES MODERN

Igloos of Baffinland Make Way for New Heated Houses.

ANCHORED TO GROUND

(Special to The Examiner)

OTTAWA, Sept. 23 (S.N.S.)—The igloos of Baffinland are doomed to disappearance. The Arctic is going modern for the Eskimos have discovered a more comfortable type of dwelling, one that remains warm all winter and is cool in summer. The insulated frame house has made its appearance in the Arctic, according to reports received at the Department of the Interior.

When Dr. L. D. Livingstone of the Northwest Territories and Yukon Branch of the Department left his home in Ottawa to live a year among the natives, he took with him materials to build a three-room frame house. And having spent other years as medical attendant and investigator among the natives he prepared to spend a comfortable winter this time. He took along steel cable to anchor his house down and among his other supplies was a large amount of gypsum, which was used as insulation when the doctor's house was built by the Eskimos, who are excellent carpenters, by the way.

Throughout the winter when the thermometer hovered constantly between thirty-five and sixty below zero and gales blow from the west over the post at Pangnirtung, the natives knew that Dr. Livingstone's house was warm. A small stove that used six tons of coal during the ten months of winter not only kept the centre room warm but also the other two, one on each side. And up in the small attic of this palatial Arctic dwelling fruits and vegetables were kept, the first time Dr. Livingstone believes that it was possible to keep such food in winter in the Arctic without its freezing.

The house struck the Eskimos as more comfortable than their own ice houses, big as they may be. Here was no leaky roof, no cold floor. And if hunting is good this winter there will be more insulated houses embodying the latest in modern heating engineering improvements on Baffin Island.

Weddings

SHERWIN—WALDIE.

FENELLA, Sept. 23 (Examiner Correspondence).—A very pretty wedding was solemnized on Wednesday, September 16, at 4 o'clock, at the home of the bride's parents, Mr. and Mrs. Archie Waldie, Fenella, when their only daughter Jessie, was united in marriage to Clarence, son of Fred Sherwin and the late Mrs. Sherwin, Roseneath. Rev. R. W. Paton, M.A., of the Roseneath-Fenella charge, officiated. The dainty little bride, who entered the drawing-room on the arm of her father, was beautifully gowned in white georgette, in ankle length, fashioned in jacquette style, with tiered overskirt and rhinestone ornament. Her embroidered net veil was caught up in a juliette cap, with wreath of orange blossoms. Shoes and hose were in white also. She carried a shower bouquet of pink and white asters, and maidenhair fern, with streamers of pink chiffon. Miss Christena Waldie, Grafton, cousin of the bride, was bridesmaid. She wore brown georgette with touches of sand lace, and brown cut velvet, brown shoes and hose, and carried a sheaf of gladiolus, and maidenhair fern, with pink chiffon streamers. George Waldie, brother of the bride supported the groom. The wedding march "Lohengrin's Bridal Chorus" was rendered by Mrs. N. C. Leach. The ceremony was performed under an arch of evergreen, twined with bridal white ribbon, pink and white asters and banked with a profusion of autumn flowers and foliage.

Following the ceremony and reception, a buffet supper was served. The immediate bridal party, with the officiating clergyman, and the parents of the bride and groom sitting at table the decorative scheme here, being carried out in pink and white, with asters. The toast to the bride was proposed by Rev. R. W. Paton, and responded to by the groom.

Later in the evening Mr. and Mrs. Sherwin left amid showers of confetti on a motor trip to Peterborough and points west. Mrs. Sherwin wearing a gown of blue georgette, blue broadcloth coat with trimmings of sand lapin fur, blue velvet French colonial turban, with gloves, bag, hose and shoes in harmonizing tones.

Guests present from a distance included Mr. and Mrs. Walter Sherwin, Orono; Mr. and Mrs. Bruce Parker, Peterborough; Mr. and Mrs. Robert Waldie, Mr. Thomas Waldie, Miss Christena Waldie, Mrs. Ethel Brown and children, Grafton; and Mr. and Mrs. J. Sedgwick, Miss Francis Sedgwick and Mr. John Boyd, Trent Bridge. Many guests were present also from the vicinity of Roseneath and Fenella.

HANCOCK—FALLS.

BAILIEBORO, September 23 (Examiner Correspondence).— A pretty wedding was solemnized in Bailieboro United Church on Saturday, September 19, at three o'clock when Ethel Geraldine, daughter of Mr and Mrs. Robert Falls, Bailieboro, became the bride of Gordon Clifford, eldest son of Mr. and Mrs. C. J. Hancock, of Smith Township.

The bride entered the church in the arm of her father to the strains of Mendelssohn's Wedding March, played by Mrs. W. E. Thompson, cousin of the bride. The bride was gowned in eggshell silk net, with an eggshell veil worn in coronet style caught with orange blossoms and pearls, and carried a bouquet of Sweetheart roses. The bridesmaid, Dorothy Falls, sister of the bride, wore a Nile green silk net gown with an Empress Eugenie hat to match, and lace mittens, and carried Ophelia roses. The best man was Clarence Hancock, brother of the groom. The ushers were Keith Barnard and Arthur Hancock.

A reception for seventy guests was held at the home of the bride's sister, Mrs. Edmund Morrison. Mrs. Falls, mother of the bride, and Mrs. Hancock, mother of the groom, received.

The bride and groom left later on their honeymoon to Detroit, the bride wearing a brown travel tweed suit with green Empress Eugenie hat and green shoes, carrying a black cronga coat with greyy wolf collar.

Guests from a distance were Mr. and Mrs. Thomas Lord, Laurel, Mr. and Mrs. Wright and Mrs. Young, of Toronto, Mr. and Mrs. Robert Richardson of Whitby, Mr. and Mrs. Morris Jaynes of Cobourg, Miss Rhoda Cheyne and Miss Helen Whittington of Peterborough, Mrs. Charles Perrin of Oakwood, Miss Norma Staples and Miss Gwen Hunter of Toronto, Mr. Clarence McIlmoyle of Toronto, Miss Nellie Bullock of Stoney Lake, and Mr. Roland Scott of Peterborough.

During the signing of the register Mrs. Robert Richardson of Whitby sang.

Obituary

CLARENCE BRISBIN.

FENELLA, Sept. 23 (Examiner Correspondence).—The funeral service of the late Clarence Cephas Brisbin, only son of Mr. and Mrs. Cephas Brisbin, Fenella, was held on Friday afternoon, from the residence of his parents. His death occurred on Wednesday morning, September 16, as the result of an accident suffered on the previous Monday, when he was thrown from a horse he was riding. Clarence had passed his seventeenth birthday a short time previous to his death.

He is survived by one sister, Mrs. Ray Eagleson, Coldsprings.

The service was conducted by Rev. James Leach, Harwood, the family pastor, who spoke words of comfort and encouragement to those who mourned. Rev. R. W. Paton, M.A., of the Roseneath-Fenella charge, and Rev. George Campbell, of Camborne, also assisted in the service. Many beautiful floral tributes from relatives, friends, and neighbors covered the casket and were banked high around it. Previous to removing the casket, these offerings were carried by three young companions of the dead youth: Hilton Jewell, Gordon Sandercock and Murray McFiggin. The casket was borne by his six cousins: Lyle Curtis, Murray McCullough, Delbert Mitchell, Oscar Davey, Hayden Buttars and Keith Brown. The funeral, which was one of the largest ever known in the community, was attended by relatives and friends from several centres.

SAMUEL RICHARD LEGGOTT

LAKEFIELD, Sept. 23. — The funeral of the late Samuel Richard Leggott was held on Monday afternoon, following a short family service at the house, the cortege proceeded to St. John's Church. Rev. W. J. Creighton officiated and spoke words of comfort to the bereaved family, referring to the upright character of the deceased, both in his capacity as a citizen and a Christian.

The pall-bearers were Messrs. Wallace Anderson, W. J. Charlton, T. Crawford, G. A. Graham, W. G. Morrison and J. H. Sherin.

Interment was made in the Lakefield cemetery. The funeral service at the grave was under Masonic auspices with W. Bro. D. H. Webster, Master of Clementi Lodge, in charge. For the past fourteen years the late Mr. Leggott held the office of chaplain in Clementi Lodge.

Mr. Leggott had been a resident of Lakefield for nearly thiry years and for nearly all that time had been prominently identified with electrical work. He was the owner of the private electric plant which served the community for years until the coming of the Hydro and then was the local manager of the Hydro, and was exceedingly well known and highly thought of and his sudden passing early on Saturday afternoon was a shock to everyone. He had not been in good health for some time and in the early summer had a serious operation and apparently making a satisfactory recovery and his death came as a terrible shock to his family and friends.

Mr. Leggott is survived by his widow, one daughter, Etta, at home, and two sons, William J. of Oshawa and Inspector S. T. Leggott of Belleville. A brother, Rev. T. W. Leggott of Stayner and a sister, Mrs. Noble of Toronto, also survive.

The deceased was a valued member of St. John's Church and was regular and faithful in his attendance and had for some time held the office of sidesman. He gave his best services to the community and was a type of citizen hard to replace and one whose passing means a serious loss to Lakefield.

MRS. MARY BROWN.

(Examiner Correspondence.)

ROSENEATH, September 23. — The funeral of the late Mary Peters, widow of the late William Brown, of Alnwick township, whose death ocurred suddenly on Tuesday, Sept. 15th, was held on Thursday afternoon, the service at the house and graveside were conducted by the Rev. R. W. Paton, M.A., of the Roseneath United Church.

Her death will be regretted by a wide circle of friends and her grief-stricken family of four children: Irwin, Roy and Winnifred at home, and Gordon at Detroit.

Many floral tributes paid silent but beautiful homage to the loved memory of a loving mother and friend.

The pall bearers were neighbors of deceased, namely Messrs. H. McCracken, G. Greason, J. Webb, G. Parker, D. Varcoe, W. Waldie.

Interment was made in the family plot in Merrill's cemetery.

Back Stiff and Sore

An Effort to Get Up

Toronto, Ont.—"For many years I had trouble with my kidneys. I had pains like lumbago in the lower part of my back and would be so distressed that my work was a burden to me. I could hardly wait for the day to end," said Richard Fowler of 11a Stafford St. "It was an effort for me to get in and out of bed, my back would be so stiff and sore. I saw **Dr. Pierce's Anuric Tablets** advertised and began at once to take them and by the time I had taken one bottle my kidneys were all right, my back limbered up, the pains disappeared and my kidneys and back have given me no more trouble." All druggists.

CATTLE, GRAIN, PRODUCE

TORONTO PRODUCE.

Buyers were showing very little interest in butter of any kind offered by local brokers yesterday, though the latter were asking steady prices of 21c for high scoring No. 1, and 20¾ for ordinary lots of No. 1, creamery solids. It might have been possible to clear some lots of No. 1 at 20½c and No. 2 at 19½c, but brokers were not anxious to trade on this basis.

Cream.

Cream prices were unchanged at 21c for special, 20c for No. 1 and 17c for No. 2, f.o.b. country points. In some districts prices were 1c better, but generally 20c was in effect for No. 1 fat.

Cheese.

Cheese prices were about steady at 11½c for new large, 11¾c for twins and 12c for triplets, while prices to retailers were steady at 13c for new large, 13¼c for twins and 13½c for triplets.

Eggs.

There were further reductions in prices for eggs. Country shippers were offered 1c less for extras and retailers were quoted 1c less on seconds, while brokers reduced quotations on extras another ½c per dozen. Brokers were quoting mostly short held supplies at 26c for extras 23c for firsts and 16c for seconds, graded and in free used cases ,but would probably have offered another 1c per dozen for fresh supplies. Country shippers were quoted 23c for extras, 21c for firsts and 14c for seconds delivered, ungraded, cases returned. Retailers were offered extras in cartons at 31c, extras loose at 29c, firsts loose at 26c and seconds loose at 18c per dozen.

TORONTO LIVESTOCK

TORONTO, Ont., Sept. 22.—(CP)—Cattle receipts 822. Left overs totalled 1600 head. Good quality cattle were very scarce. Common to medium butchers sold slowly from $3 to $5.50 cwt. Good butcher cows were steady at $3.50 to $4. Butcher bulls sold up to $4. With bologna bulls mostly selling at $2. Store cattle trade was very slow.

Steers up to 1,050 lbs. good and choice $5.75 to $6; medium $5 to $5.75; common $3 to $4.75; steers over 1,050 lbs. good and choice $6 to $6.25; medium $5.25 to $5.75; common $4.50 to $5.25; heifers good and choice $5.75 to $6; medium $4.75 to $5.50; common $3 to $4.50; fed calves, good and choice $8 to $8.25; medium $6.50 to $7.50; cows good $3.50 to $4; medium $3 to $3.50; common $2.25 to $2.75; canners and cutters $1 to $2; bulls good $3.25 to $4; common $2 to 3; stocker and feeder steers good $4.75 to $5; common $3.50 to $4.50; milkers and springers $30 to $70.

Calf receipts 175. Good and choice calves were strong at $8 to $9.50. Trade was slow on common calves.

Good and choice veal $8 to $9.50; common and medium $4.50 to $7.50; grassers $2.75 to $3.50.

Hog receipts 784. Hogs were unsettled with bids 25 cents lower at $4.75 f.o.b. for bacon $5 off truck and $5.75 weighed off car.

Sheep receipts 670. Lambs opened strong at $7 cwt. for good ewes and wethers and $5 to $5.75 for culls. Good light sheep sold up to $3 cwt.

Good ewe and wether lambs $7; medium $6 to $6.25; bucks $5; culls $5 to $5.50; good light sheep $2.50 to $3; heavies $2 to $2.50; culls $1 to $1.50.

MONTREAL PRODUCE

MONTREAL, Sept. 23. — Prices were mainly unchanged on the Produce and Dairy Market here yesterday.

Eastern Townships No. 1 pasteurized butter, in car lots, was quoted at 19¾c to 20c a pound, to retailers solids were 22c and rints 23c a pound. Receipts were 2,833 boxes.

Ontario cheese was quoted at 12c to 12½c and Quebec cheese was 11¾c to 12c a pound. Receipts were 5,665 boxes.

Fresh Ontario or Prairie eggs, in car lots, were unchanged, extras being quoted at 30c, firsts at 25c and seconds at 18c a dozen. Carlot prices of British Columbia extras were 32c to 33c a dozen. Quotations to retailers were unchanged and receipts totalled 1,850 cases.

Montreal potatoes lost 10c at 40c to 50c per 80-lb. bag. New Brunswick Cobblers now arriving in increasing amounts, were quoted at 65c per 80-lb. bag.

BUFFALO LIVESTOCK

EAST BUFFALO, N. Y., Sept. 22. —(CP)—Hogs 800; fairly active to packers; generally steady; bulk desirable 180-200 lbs. 6.10; few 6.15; load 220 lbs. with medium end 6.10; selections quoted to $6.20; 160-170 lbs. $5.75-$6; below 150 lbs. $5.25-$5.50.

Cattle 100; plain grassed steers predominating; nothing done; undertone weak; cows unchanged; cutter grades $1.50-$2.75.

Calves 100; vealers steady; good to choice $11 to mostly $11.50; common and medium $7.50-$9.

Sheep 550; lambs active, steady; good to choice $7.75; medium kinds and fat bucks $6.50; throwouts $5.50 mostly; inferior kinds $5 and below.

LIVERPOOL QUOTATIONS

LIVERPOOL, Sept. 23. — Closing wheat spot No. 1 Manitoba 79¾c; No. 2 Manitoba 77¾c; No. 3 Manitoba 72⅝.

Hams, long cut 12 to 16 lbs. 91s; short cut 12 to 14 lbs, 83s 6d; extra skinned 90s; Picnics 5 to 8 lbs. 51s 6d.

Bacon—Cumberland cut 32 to 40 lbs. 72s; Canadian Wiltshires 94s; clear bellies 14 to 20 lbs. 54s 6d; long clear middles 28 to 35 lbs. 67s 6d; short clear backs 20 to 25 lbs. 56s 6d; shoulders—square 12 to 16 lbs. 49s.

Lard—prime western in tierces 47s 6d; American refined in boxes 47s 6d.

Cheese Canadian finest white, new 67s; colored new 68s.

Linseed oil, raw, 20s.

Petroleum No. 1, 10d; No. 2 11d.

Rosin—Types "F" and "G" 11s 6d.

Turpentine spirits 51s 6d.

CHICAGO GRAIN.

CHICAGO, Sept. 23.—Abundance of United States corn rather than scarcity of British gold played the star role in the grain markets yesterday. Sudden huge deliveries of 2,021,000 bushels of corn were made to settle outstanding September corn contracts, and this unexpected circumstance tumbled quotations down 2 cents a bushel to below the season's previous bottom level. Wheat sympathized with corn weakness, but averaged higher, responsive to comparative strength shown by the stock market and to harvest delays in Canada.

Corn closed irregular, 1½c lower to ¼c advance; wheat, ⅛c to ½c up; oats at ¼c decline to ¼c gain; and provisions unchanged to 12c down.

WINNIPEG GRAIN.

WINNIPEG, September 23. — Inspired by heavy buying credited to southern houses, wheat prices again advanced in the market here yesterday. Values at the close were 1¾c to 1⅞c higher than Monday's closing levels.

The October future closed at 55¼c, December ended at 55⅝c to 55⅞c, each recording a gain of 1⅝c while the May delivery closed at 59¼c to 59⅝c to show a gain of 1½c.

Lower quotation of the Canadian dollar was believed to have encouraged the wave of buying orders during the mid-session.

Broomhall reported North American flour and wheat shipments at 2,600,000 over the previous week. Broomhall further reported buying of Canadian wheat on Monday due to the drop in the quotation of the dollar.

A fair demand was quoted for durums. Spreads on the top grades were two cents over the previous close. Cash interest in coarse grains was indifferent at spreads generally unchanged.

Fraserville

The pupils of Cairo S.S. No. 9, attended the school fair at Ida on Thursday, taking part in the parade and physical culture, the children winning a number of prizes for their fine exhibits.

Miss B. Graham of Chicago and Mrs. H. Gainer of Bailieboro spent the week-end at the home of Mrs Percy Moncrief.

Mr. and Mrs. G. F. Clarke and son Finlay of Peterborough were guests of Mr. and Mrs. W. Hanbidge on Sunday.

Mr. and Mrs. Albert Bowles of Springville attended Fraserville anniversary on Sunday morning and were guests of Mr. and Mrs. R. Moncrief.

Mr. and Mrs. George Bebee and sons of Bailieboro were guests on Sunday of Mr. and Mrs. Ray Finlay.

Mr. and Mrs. J. Lang, Miss Esther and Mr. Karl Lang of Bailieboro were guests of Mr. and Mrs. W. A. Wood on Sunday.

Mr. and Mrs. G. N. Moncrief and daughters Jean and Doris were guests on Sunday of Mr. and Mrs. Percy Moncrief.

Miss Mary Lackey, R.N., of Peterborough is the guest of her parents, Mr. and Mrs. James Lackey.

Pupils of South Monaghan S.S. No. 5 were given a holiday on Friday. This allowed the pupils and their teacher to attend Peterborough Exhibition.

Miss Mary Wood is attending Peterborough Normal School, motoring in and home every evening.

Mr. and Mrs. Harold Bebee and family of Bailieboro were guests of Mr. and Mrs. Ray Finlay on Sunday.

Among those strangers of congregation who attended Fraserville anniversary service were Mr. and Mrs. W. Gainer and daughter, Eileen. Mr. H. Gainer, Mrs. G. Nurse, Mr and Mrs. C. Barnard, Mrs. J. Jewison, Mr. and Mrs. C. Dawson, Mr and Mrs. Gerald Dawson and son. Misses A and M. Barnard, F. and W. Watt, and V. and I. Dawson. Messrs. F. and J. Barnard from Bailieboro, Mr. and Mrs. W. A. Pritchard, Mr. and Mrs. Leslie Pritchard, of Cavan; Mr. and Mrs. James Might, Esther and Gordon Might of Millbrook; Mr. E. Dawson, Miss Mildred Dawson, Messrs. Robert Dawson and Billie Howson of Bensfort; Mr. and Mrs. Rowland of Cavan and Messrs. Fred and Bruce Elliott of Springville.

Downeyville

Dr. and Mrs. Joseph Carroll of Columbus, Ohio have returned home after a pleasant visit with the former's mother, Mrs. Thomas Carroll.

Mr. and Mrs. William Merron of Rochester, N.Y. are at present the guests of Mrs. Merron's relatives here.

Mr. Lorne Carroll of Rochester, N.Y. spent a few days the guest of Mr. and Mrs. Martin Carroll, Jr.

Mr. and Mrs. Peter Murray and Mr. and Mrs. Martin all of Rochester, N.Y. spent a few days the guests of the former's parents, Mr. and Mrs. Neil Murray.

Miss Agnes Piggott of Buffalo, N.Y. is at present the guest of her sister, Miss Delphina Piggott.

Miss Marguerite Clancy has returned to Ottawa after a pleasant visit with her mother, Mrs. Michael Clancy.

Miss Violet Duffy has returned to Marmora after a pleasant holiday with her parents, Mr. and Mrs. John Duffy.

Miss Lizzie Carroll who has spent the summer the guest of her sister, Mrs. Edmund Herlihy returned to her home in Rochester, N.Y. last Sunday.

Miss May Heenan of Lansing, Mich., accompanied by her mother, Mrs. James Heenan of Lindsay called on friends here Friday.

Mr. and Mrs.. Daniel Healy of Lindsay spent Sunday the guests of the latter's parents, Mr. and Mrs. Edward Hoolihan.

Mr. and Mrs. William Flynn of Toronto spent the week-end the guest of the former's mother, Mrs. Michael Flynn.

Miss Delphina Piggott spent a few days the guest of friends in Peterborough.

Mr. and Mrs. Edward Mortimer and family of Muskoka spent the week-end the guests of the latter's parents, Mr. and Mrs. Alfred Dewan.

Mrs. Joseph Larkin of Calgary, Alta., is at present the guest of her father, Mr. William O'Brien also her sister, Mrs. Michael Garvey.

Miss M. Costello has returned to Coppercliff after a pleasant visit at her home here.

Mr. Ralph O'Connell has returned to Toronto after a visit with his parents, Mr. and Mrs. Vincent O'Connell.

Miss Evelyn Scully has returned to Toronto to resume her studies at St. Joseph's College.

Mr and Mrs. Martin Herlihy and family spent Sunday the guests of friend in Peterborough.

Miss Kay Garvey has gone to Cobourg where she has secured a school.

ROSENEATH.

Rev. R. W. Paton, M.A., was the special speaker at the United church, Meyersburg, on Sunday morning and evening, when that church celebrated its 40th anniversary.

Mr. and Mrs. Alfred Sherwin, Misses Elsie and Olive Sherwin, Mr. and Mrs. L. E. Down, Mr. and Mrs. H. Baxter, Mr and Mrs Austin Sherwin, and Mr and Mrs. E. George, were among the guests at the Sherwin-Waldie wedding on Wednesday last.

Mr. and Mrs. Walter Sherwin and Son, Milford, of Orono, and Mr. and Mrs. Bruce Parker of Peterborough, were recent visitors with Mr. and Mrs. Alfred Sherwin and family.

Misses Kathleen and Helen Barrie and Bessie Turner, spent the week end at the former's home, at Birdsall's.

She has an income of $100 a month on which to retire

Here is what a $100 a month Imperial Pension Bond will do for you:

When you reach age sixty

it guarantees an income as long as you live of $100 a month plus profits. This income is guaranteed to continue for ten years in any event even should you not live to receive it that long. Instead of the income you may if you wish take a cash payment of $16,670.

Should you not live to age sixty

it guarantees the payment to any person you name of all the money you have invested plus profits.

Should you wish to retire before age sixty

it guarantees the payment to you any time after three years of its full cash surrender value plus profits. Or you may have a monthly income payable as long as you live.

There is no medical examination required to secure this Imperial Pension Bond. It is the simplest method, offering the largest possible return, for guaranteeing that you will have a comfortable income on which to retire.

We will gladly send full particulars on request.

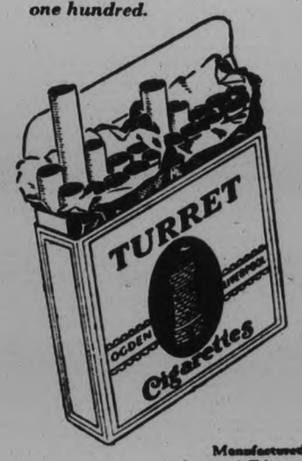
The World's Record Trout

The largest known specimen of brook trout taken by an angler was that caught by Dr. J. W. Cook, Fort William, Ont., in the MacDonald Rapids of the Nipigon River, and weighed 14½ pounds. This record brook trout was caught in the presence of ten witnesses.

The RECORD SPEAKS for ITSELF

12 for 15c.
20 for 25c.
—and in flat tins of fifty and one hundred.



This is indeed a record breaking trout—one to make fishermen smile with pleasure . . . as Turret's record of high quality makes smokers smile with satisfaction.

Millions of Canadians have found in Turret the Cigarette which is mild and fragrant, yet perfectly satisfying.

After all, nothing can replace good, honest tobacco; grown and ripened right out in the field under nature's own sunlight—nothing artificial about that—and the high quality is "inbred".

Quality and Mildness

ARTICLES OF INTEREST TO THE FARMER

FARMERS TO BECOME GREATEST PRODUCERS OF RAW MATERIALS

Science Turning More and More Land for New Discoveries.

PASTURELESS COWS

(By Michael O'Mayo)

If you believe that all the adventure, romance and wonder in this world gains splash headlines, you are mistaken. For it often happens that modern magic is hidden in unexpected places and that the most important events escape the make-up artists of the front pages.

Consider, if you please, the prospect of pastureless cows. Fantastic and plumb ridiculous?? Not at all. The chemists of at least one milk company and of several American Universities have actually concocted canned foods for cows. They've discovered that dehydrated foods make for contented cows and that Bossy prefers these foods to the grass provided by Old Lady Nature. So that it may well happen that the cows of the future will revel in foods purchased from a chain store (possibly on the instalment plan) and that only golfers and their caddies will cavort in green pastures beside the still waters.

Skyscraper Farms

If cowless pastures and pastureless cows are possibilities then consider, also, the prospect of farming in city skyscrapers. Dr. H. E. Barnard informed the Institute of Chemistry, the other day, that "thirty men working in a factory the size of a city block can produce in the form of yeast as much food as 1,000 men tilling 57,000 acres under ordinary agricultural conditions."

Yeast, says this scientist, is the basis of many and varied foods. And he went so far as to predict that it will soon be possible to manufacture proteins in a factory and that when that happens more foods will be produced in three or four large cities than all the farms in Canada.

Food From Sawdust

And what are we to think of the magic that transforms sawdust into food? Some weeks ago several German chemists informed their confreres that they had succeeded in making sugar from wood, or to be a little more specific, sugar from sawdust.

About the same time another German wonder-worker announced that he had produced fatty foods of high vitamin content—from coal. The wonder of the tar-barrel continues, you see.

Absurd as it sounds, we can expect advertisement in our farm journals announcing "the best sawdust fed bacon" or notices in our leading cafes requesting us to revel in "delicious tid-bits straight from the finest Drumheller."

Artificial Coal

Mention of coal reminds me that a lot of folks are worried concerning the early exhaustion of our coal reserves. They need not be anxious for another German wizard, Dr. Frederick Bergius, has discovered how to make coal from cabbages and turnips. It seems that this great chemist takes eleven pounds of cellulose (a chemical derived from plants) mixed it with water and placed the solution in an air-tight vessel. This he heated to 640 degrees and after twenty-four hours of this sealed cooking he had eleven pounds of coal.

Seemingly he has achieved the impossible by doing in twenty-four hours the work Old Lady Nature does in twenty-four centuries.

So that if food comes from coal it is equally possible to produce coal from food. Synthetic coal "straight from the farm" may well be a popular advertisement of the future.

Farm Factories

These and other facts lead us to believe that the world of tomorrow will be radically different from the world of to-day. More and more food is being produced in skyscrapers in cities, whilst more and more industrial raw materials are being created on the farms in the country.

Golf balls from milk, newsprint from cornstalks, combustible gas from straw stalks, gasoline from peanut shells, paint from apple peels—here are some of the samples of modern magic coming from the test-tubes of the world's chemists.

The farmer, it seems, is far more than a producer of wheat, and bacon, and eggs; he is the world's greatest producer of raw materials needed by factories and workshops. Perhaps—who knows?—the historic roles of city and country will be reversed in the not distant future.

Some Arithmetic Regarding the Hen

Take 84 pounds of grain plus 1 hen and you have 12 dozen eggs. With grain selling at 1½ cents per pound and eggs selling 30 cents per dozen this means a value of 3.60 for the grain, or a profit of $2.32 over the cost of the feed, or, selling grain at a price of $4.28 per cwt. Here are some more facts The hen which lays 25 eggs means a loss of 64 cents over the cost of feed for one year; the hen which lays 50 eggs means a loss of 1 cent; the hen which lays 100 eggs means a profit of $1.25; the hen which lays 150 eggs means a profit of $2.49; while the hen which lays 200 eggs brings a profit of $3.74. Moral—Watch the danger line and get rid of the boarders.

HORSES SAFE FROM SEIZURE

Anything That Will Deprive Farmer of Means of Living Cannot be Attached.

MONTREAL COURT RULING

MONTREAL, Sept. 23.—(Examiner Correspondence).—Of interest to farmers all over Canada is the reiteration recently by Mr. Justice Walsh in the Superior Court, Montreal, of the provision in law that in affecting seizures, care must be taken not to attach horses, their harness or in fact anything that is likely to deprive the defendant of means of livelihood.

This was the tenor of a judgment rendered by Mr. Justice Walsh when he maintained an opposition by William Mishesky, farmer and woodman of St. Faustin, Terrebonne, Que., contesting the right of Myer Block to seize his horses and their harness.

Block claimed $250 from the farmer as the balance of a promissory note dated February, 1929, and payable to Jacob Finestone. This was a renewal of two other notes payable to the latter. Finestone died more than two years ago and Block was named one of his executors. It was in that capacity that he brought the action against the St. Faustin farmer and had the courts attach his horses and equipment, a thing which according to Mr. Justice Walsh could not be done in law.

CANNED PRODUCTS WELL SUPERVISED

No Adulterated Preservative or Artificial Coloring Allowed Under Laws.

Commercially canned products either fruits or vegetables have an advantage from the technical standpoint of being canned at perfect maturity and within a few hours of harvesting. At one time the canning of fruits and vegetables was almost entirely done in the home, to-day the modern housewife gets her winter supply of fruits from the products of the up-to-date canning factory.

The pure food laws of Canada provide that canned fruits and vegetables must be sound products made from sterilized, clean, sound, properly matured and prepared fresh fruit or vegetables by means of heat, and kept in suitable, clean containers, closed automatically or otherwise, and marked as to conform in name to the particular fruits or vegetables used in their preparation. No adulterated preservative or artificial colouring may be used in commercially canned fruits or vegetables. They may contain only pure water, sugar and salt as preservatives.

All canned products manufactured in Canada are produced under the strict supervision of the Commercial Canning Inspection Service of the Dominion Fruit Branch. Under this service four grades for quality are provided, and these are respectively, "Fancy," "Choice," "Standard and "Second." The terms used to describe each grade indicate clearly and concisely the nature and character of the product which qualifies for the grade.

Cobourg Student Wins Scholarship

COBOURG, Sept 23.—George W. Field, collegiate student, has been awarded the Moses Henry Aikens scholarship, which is conditional on the student entering Victoria College for the coming session. Murray Dines, son of Mr. and Mrs. W. Dines, Coldsprings, won the Alberta college scholarship to the student obtaining highest entrance marks. It is worth $265.

Get Remand.

Charged with vagrancy, Calvin Flewelling and Clifford Storey, address unknown, were remanded for a week when they appeared before Magistrate W. H. Floyd. Their arrest followed an attempted robbery at Colborne.

More than 200 delegates and representatives were present at the sixth annual meeting of the western section of Cobourg presbytery of the W.M.S. in Baltimore United church.

ACTION TO AVOID LOSSES THROUGH SHIPPING FEVER

Ship Only Cattle in Vigorous Condition, Able to Stand Trip.

DISEASE HAS NO CURE

In Case of Inoculation Give Treatment at Least 2 Weeks Before Moving.

With a view to preventing losses from "Shipping Fever" among cattle in transit Hon. Robert Weir, Federal Minister of Agriculture, calls the attention of shippers and railway employees to its causes, and states that it can be almost entirely prevented through the excercise of proper care in handling and feeding.

Although all fatalities of cattle in transit and in the stock yards are not actually due to this particular malady, it is undoubtedly responsible for a large percentage of them.

No Cure

There is no cure for this disease, which is caused by a peculiar germ. These germs are not under normal conditions disease producing. They exist as harmless organisms in the bodies of healthy animals, in the soil, and elsewhere in localities frequented by animals, and are widely distributed in nature.

So long as cattle are in good condition and in normal vigour the germs remain harmless, but when the vitality of the cattle is lowered through the hardships of travel these germs change from their harmless state to one producing disease and death.

Cattle of normal vigour usually resist this infection, and it pays to protect them against unfavorable influences, such as fatigue, exposure to bad weather, and changes in the routine of feeding and watering.

It is not safe to ship unthrifty cattle as they provide one of the most favorable means for germs to become disease producing when they are subjected to the hardships of travel.

These losses can be materially reduced, if not entirely prevented, by taking the following precautions:

Ship only cattle in good vigorous condition.

Take plenty of time in driving cattle across country to prevent fatigue, and give them sufficient time to rest before loading.

Upon arrival at the yards withhold water until the cattle have rested, then allow a small quantity; do not let them fill up. Feed clean well-cured hay and before loading water again.

Do not overcrowd in cars and in cold weather bed the cars well.

Feed and water at proper intervals en route, and allow plenty of time for the cattle to rest whenever they are unloaded.

Too much care cannot be exercised in providing sufficient rest spells to prevent fatigue, and regular feeding and watering are essential if these losses are to be prevented.

Upon arrival at destination the cattle should be given special care until they have recovered from the lowering of their vitality, which is inseparable from shipment.

Inoculation Effective

Cattle can be rendered highly resistent to this infection through inoculation with a product obtained from the tissues of affected cattle, in a way similar to that commonly practiced to protect them from blackleg. They must, however, be treated on the farm and held for at least two weeks before being moved. The treatment at first makes them more susceptible to this infection, but this state is gradually changed to one of high resistance which lasts for approximately twelve months. It is due to this peculiarity that it is not advisable to treat cattle in stock yards.

Aylmer Soup Plant Opens In Vancouver

HAMILTON, September 23. — A genuine note of optimism was sounded to-day by Norman L. Drynan, General Sales Manager of Canadian Canners Western Limited, Vancouver, who is at present visiting the head office, of Canadian Canners in Hamilton.

Mr. Drynan announced that the new Aylmer Soup Plant at Vancouver, which will supply British Columbia and Alberta with Aylmer soups, is now in operation.

"I think it will be agreed that there can be no doubt of our confidence in the future of Canada, and Canadian business," said Mr. Drynan, "when in a time of so-called depression we can make such large extensions as we have done in the past year in Vancouver."

The new Aylmer soup plant at Vancouver is, of course, in addition to the main plant at Simcoe, Ont., from which all eastern Canada Manitoba and Saskatchewan, are supplied.

PETERBOROUGH MARKET QUOTATIONS

RETAIL.

Fruits.

Oranges, 25-50c doz.; grapefruit, 5 for 25c 2 for 25c; pineapples 10-20 cents each, $1.50-$2.05 dozen; bananas 25-40c dozen; lemons, 19-25 cents a dozen; cocoanuts, 5c and 10c each; pears, 50 and 60c doz.; cooking figs 2 lbs 25c; apricots, 25c lb; peaches, 6-qt. bkt. 45c; 11-quart basket, 60-85c; canteloupes, twenty-quart basket, 39-45c; cherries, 11-qt. red, 85-90c; 6-qt. black, $1.19; watermelons, 35c each; plums, 11-qt Lombards, 50c; damsons, 50 cents 11-quart basket; pears, 35c doz.; huckleberries, $1.35-$1.50 basket; transparent apples, 3 lbs. 25c; black currants, 25c qt.; grapes, 15c lb.; 6-qt. basket, 35c.

Vegetables.

Potatoes, 3 pecks for 25c, 90-pound bag for 50c; sweet potatoes, 5 pounds for 25c; carrots, 5c bunch; green onions, 5c bunch; cabbages, 5-10c each; red cabbage, 5c each; Canadian cabbage 5c each; leaf lettuce, 5-10c bunch; spinach, 2 lbs. 15c; cucumbers, 11-qt. bkt., 25c; cauliflower, 25-35c; parsnips, 30c peck; asparagus, 3 bu 25c; sweet potatoes, 2 lbs. 25c; cooking onions, 10 lbs. 19c; Spanish onions, 4 lbs. 25c; head lettuce 10-15c; parsley, 5c bunch; tomatoes, 11-quart baskets, 25 cents; celery, 10-35c; green peppers, 10c; mushrooms, 70c lb; sage-savory 5c bunch; turnips, 20c peck; radishes, 5c bunch; new beets, 5c bunch; wax beans, two pounds for 25c; green peas, 4 qts. 25c; beans, 3 lbs 25c; squash, 15c each.

Nuts.

Mixed, 25c lb; shelled walnuts 35-60c pound; broken, 39 cents a pound; shelled almonds, 45 cents lb; walnuts, 25c lb; peanuts 15-25c lb; filberts, 25c lb.; almonds 25c lb; new Brazil nuts, 25c lb.; shelled, 50c lb.

Creamery butter, 21-25c lb.; dairy butter, 18-21c lb.; lard, 17-20c lb.; eggs 15-21c doz.; new cheese 13-25c lb.; clover honey, 5-lb can 43c; comb honey (clover), 20-25c; comb honey (amber) 10-15c; sections, 19c each; shortening, 15c lb

Fish.

Salmon, 28c lb; finnan haddie 15-25c lb.; whitefish, 15c lb; fillet haddie, 19c lb; fresh and smoked fillets, 20-25c lb; fresh lake herring, 12c lb; smoked kippers, 2 pairs 21c; flounders, 12c lb; codfish, 12c lb.

Meats.

Beef, 10-25c lb.; veal, 15-25c lb.; bacon 25-45c lb.; chicken, 30-35c lb.; turkey, 35c lb.; lamb, 15-25c lb.; pork, 15-25c lb.; sausage, 20c lb.

WHOLESALE

Flour

Bread flour, 24-lb. bag, 67-75c; pastry flour, 24-lb. bag, 50-70c; 98-lb. sack bread flour, $2.39-2.65.

Grain

Fall wheat, 40c bushel; spring wheat, 35c; oats, 20-25c; barley, 45c; peas, 75c; rye, 35c; buckwheat, 50c; alsike, $4.

Hogs

Live hogs, bacon, $4.65 cwt. f.o.b.; select graded, $1 over per cwt.; dressed hogs, head on, $9; head off, $10.

Hay, Bran, etc.

Hay, baled, $12 per ton; straw, $7-$8; bran $18-$20; shorts $20 ton.

Hides and Wool.

Cow hides, 2-3c a lb.; horsehides, $1.25-$1.50 each; veal skins, 5-6c lb.; lamb skins, 10-15c each.

Wool, fine, coarse, and medium, 7c lb.; rejects, 4c lb.

Growing, Selection, Preparation Of Grain, Seed For Exhibition.

By Herman Trelle
(Copyright, 1931.)

HOW AND WHEN TO CUT A WINNING SAMPLE.

At this date the writer has just returned home from a 2500 mile circle tour of observation taking in the length and breadth of Canada's Great Central Plain agricultural area. Sizing up conditions from the worst, comprising the central south, lying mostly in Saskatchewan, and graduating to the best, which in general contour takes the shape of a gigantic crescent with its extreme tips pointing south to the American boundary and extending northward along Alberta's side of the Rocky Mountains; but in the broad strip of partially wood park land which extends all the way across the north of the Western Provinces. In no locality did the writer find a condition of quality productivity where winning samples for the World's Grain Show could, by good luck or little concentrated effort, fall easily into the lap of the prospective exhibitor. Even away up in the supposedly charmed land known as "The Great Peace River Country." Mother Nature is portioning out her "milk and honey" very sparingly. So Mr. Prospective World Exhibitor, we must just knuckle down to the most gigantic, and surely the most profitable and spectacular game of "hide and seek" that Mother Nature ever played with a bunch of seed growers, and see what we can find. This year of all years it is going to be a tricky, ticklish proposition, but the sacrificing, patient observer who sticks to his guns will be sure to win a crown for his determined efforts.

Hide and Seek

Following up the line of thought in the first article, many changes can take place in deciding the field and weather conditions which will necessitate changes in your decisions accordingly. What was looked for on the high land may be found in the hollow. What was thought to be in an open exposure you may be surprised to find in the shadow of a tree belt. (And, by the way, one must have beautiful trees if one wishes to be a consistant grower of beautiful seeds). What you thought you observed in a South or West exposure you may run into on a North or East slope. Then your choice spot may run into rain. Cheer up! The spots that are ideal just after a rain are the best. Pick more than one spot and you are bound to hit it right in one of them.

Just watch the frosts. Herein lies your final and best chances. Beat the frosts. Study your slopes and land exposures. Observe the reactions of the different types and ages of soils. Fertilizers are not necessary. Watch the thermometer, and perhaps more the barometer. Keep a diary. See how it reads in past years under the same conditions as to time.

Look for the bright agreeably colored, choice patches in the best and upright standing fields. When the heads start stooping over too much it is a bad sign. Mark these choice places with good plain uprights that you can see. Take note of your observations. Impurities that affect a quality breeding test should be rogued out long before hand. A quality breeding exhibitor should know all about this all important purity problem. If he does not it will be good advice to think twice before he waste much time with a mixed congolomerated mess of a field, trusting to chance in a great Grain Show. Last moment roguing should only be in mass with the binder or mower or sickle and scythe or in some cases (and the best of all at times) the family butcher knife. In this quick and final mass roguing one can only improve color by cutting out the poor patches, and uniformity and pumpness by getting rid of the marginal growth, or over-size or shrunken patches. This will help so much in later preparation work.

Wait 'Till Final Cutting.

This mass roguing should all be left until just before the final cutting of the choice patches. Plants are like human beings. A sudden change in protective clothing along with a surprise change in weather will bring on a cold.

The best signs to cut by: If weather conditions continue sunny and dry chances of a better sample are improved if the berry is allowed to ripen so hard that it takes considerable pressure with the thumb-nail to make a dent in the kernel. This stage will NEVER be reached until the straw is also ripe. The best possible stage, therefore, and the best sign to decide harvesting is when you make sure that both the kernel, and the head, and the straw, (above the third joint from the top), are dead ripe. This stage ALWAYS comes a few hours before one can see a faint dullness in the color of the head. When this stage is reached the exhibitor obtains his best possible sample, with maximum weight and most brilliant and lasting color. When this stage passes by the head begins more and more to droop, and very small spots like mildew appear on the head. Then the first signs of loss of color will begin in the kernel. This is ALWAYS to be looked for on the first morning after the head, and the kernels therein are really dead ripe. Wheat harvested soon after this dead ripe stage gives, what the writer considers, a very superior sample even though there may be a very slight sacrifice in lustre.

Oats should be cut when the head has a perfect ripe color (not necessarily the straw) and stands erect. Then examine minutely the lower kernels on the spikelets where the green tips on the seed end should just faintly be detected. After this the color changes very quickly.

Now you are ready for the harvest. This should be done with the binder. Be sure it is dry, or best a sunny afternoon between 2 and 4 o'clock. It is then done safely and quickly. Do not make the bundles large. Tie as close to the heads as practical to hold the straw together. Figure on 60 to 100 sheaves. In case of wheat each will provide for 4 to 6½ pounds of nice grain. Oats will provide about a pound and a half lighter yield, and barley about the same as oats. It will be explained later how most the tedious work of hand-picking may be eliminated by having plenty of volume to work on.

Never Take Chance.

If it is decided to leave the sheaves in the open field be sure to have ample and safe covering for protection from the night dew or sudden changes in weather. The writer never takes any chances with a beautiful and hard earned sample. He takes the sheaves into a well ventillated shed or granary, away from direct exposure where they may be placed in open stook formation on the dry ground or floor, or if there is still danger of excessive moisture evaporating from the straw, he hangs them up, heads down.

Now, Mr. Prospective Exhibitor, you may relax for a day or so, perhaps feel relieved, and thank good Mother Nature for the generous way in which she has co-operated with you.

From now on you have more or less the controlling hand, but watch your step. The cat will not be in the bag until you tie the string on for the great World's Grain Exhibition next year.

Fifteen Boy Scouts from London recently took an air trip to Paris.

LET BEES CLEAN STICKY COMBS BEFORE STORING

Unless Cleaned They Are Often the Cause for Robbing.

MESSY TO HANDLE

Place on Hive With Empty Super Between for Few Days.

(Experimental Farms Note)

Sticky, wet honey combs from which the honey has been extracted are known as "Wet Combs". And since such combs are not only messy to handle but also favor the growth of the yeasts which are responsible for the spoilage of honey, it is advisable to store them away for the winter clean and dry. To do this the beekeeper gives them back to the bees, which clean them in a much more thorough way than he could possible do.

Apart from the stickiness and the trouble from yeasts, wet combs unless stored in an absolutely bee-tight honey-house, are often responsible for much trouble from robbing, to say nothing of the trouble which sometimes arises when they are given back to the bees next season.

There are several methods of having the bees clean up the wet combs. One is that of placing the supers or boxes of combs taken off a hive back on the same hive for its bees to clean. In doing this, there should be a blank space made by placing an empty super body between the hive and the tiered supers that the honey may be removed entirely from them; otherwise the bees may deposit it in their centre combs.

A second method employed is what is known as the Deadman method. This requires the use of a specially constructed floor board so made that it will support a hive of bees and one, two or three piles of wet supers, the entrance to which is secured only through the hive.

Then there is the method of setting out supers in the open, piled crisscross. This is the method which is used at the apiary of the Central Experimental Farm, Ottawa and though it is considered the best to get dry clean combs, it can be used only by those who have no American Foul Brood. In using this method set out one super of wet combs a day for each colony working on them.

BARLEY GIVES GREATER PROFITS IN FEEDING LAYERS THAN CORN

Feed Scratch Grain Morning and Evening—Mash in Hoppers Always.

MILK IMPORTANT

The cost of feed consumed and the price of eggs are two important factors determining profits in egg production. Poultry raisers are therefore vitally interested in the selection of feeds and methods of feeding as well as the production of well matured pullets capable of heavy egg production during the fall and early winter when egg prices are high.

At the Fredericton Experimental Station, the laying hens receive scratch grain which is fed in the morning and evening in deep clean litter and a dry mash fed in hoppers which are open at all times. Grit and oyster shell are fed in open hoppers. Green feed and milk are supplied daily and fresh water is always available to the birds.

The scratch grain during the winter months usually consists of 200 pounds cracked corn, 200 pounds feed wheat and 100 pounds of whole oats. The heaviest feed is given in the evening and the amount fed per bird averages about 1½ pounds daily for ten birds. This amount may be varied according to the condition of the birds and egg production.

Mash Mixture

The mash usually fed consists of 100 pounds corn meal, 100 pounds wheat middlings, 100 pounds bran, 100 pounds crushed oats, 50 pounds beef scrap, 15 pounds bone meal 5 pounds charcoal, 5 pounds salt and 10 pounds cod liver oil.

Milk is fed at the rate of one quart for twelve birds daily. If a constant supply of skim-milk or buttermilk is available, the amount of beef scrap in the mash may be reduced somewhat without seriously affecting egg production.

Owing to its low price and its availability on many farms, barley is making up a greater part of the ration than ever before. Tests show that where cod liver oil and suitable green feed are supplied, barley is a satisfactory substitute for corn. At the Fredericton Experimental Station winter production was slightly higher where corn was fed but profit per bird was greater where barley was fed.

Figures Prove These Cows Paid

An average profit of $133.29 over cost of feed for a herd of eight dairy cows is reported by the Dominion Experimental Station at Summerland, B. C. The average lactation period completed was 322 days; the average milk yield 10,202.5; the butter fat average 5.73; the butter fat average for the year was 584.6 pounds; and the total average value of the product $257.91 per head. The total average cost of feed per head, including meal, ensilage, roots, hay and pasturage, was $124.32, or $1.22 per 100 pounds of milk produced. The Summerland Station is building up a herd of Jerseys which are showing up exceptionally well in R.O.P. for cattle.

KING'S WHARF

Mr. Thomas Twomey is at present the guest of friends in Peterborough.

Mr. Leo O'Neill also Misses Loretta and Veronica O'Neill spent Sunday the guests of Miss Mary Twomey in Ennismore.

Mr. Carl Collins has gone to Lindsay to resume his studies at the Collegiate Institute.

REGISTRATION ACT IS FAVORED BY DURHAM COUNTY APIARISTS

American Foulbrood is Found in Only Three Places Visited.

DECIDED IMPROVEMENT.

MILLBROOK, Sept. 23.—(Examiner Correspondence).—Local apiarists, generally speaking, are favorably inclined toward the Registration Act as an aid to the beekeeper, judging by the experience of the official inspector for this section of the county, Olla Williamson, since it has been definitely established that the greatest ally of disease is the careless or indifferent bee owner from whose yards even the most skilled and efficient apiarist is sure to find his colonies infected if located in the same neighborhood.

Briefly the registration law provides that all beekeepers must be licensed through the Department of Agriculture by application to the Provincial Apiarist, F. Eric Millen O.A.C., Guelph, and strictly prohibits the moving, selling or even giving away of bees or used apiary supplies without a certificate that they are free from disease; the permit is free, but must be secured from the department.

Fee is Small.

Application for the certificate of registration must be made on or before April 30 each year, and the fee is one dollar per apiary with a maximum fee of five dollars to the individual beekeeper if owning more than five apiaries, the definition of an apiary being officially given as "one or more colonies kept in one location during the honey-producing season."

Advantages listed as resulting from the act include: Advertising, since compulsory registration brings the beekeeping industry before the public and gives the business a definite status; disease control, for careless and indifferent owners must either reform their ways and get down to real work or get out altogether; accurate data, readily secured; and finally, ease of communication because beekeepers can be more readily reached when all addresses are filed.

The information gained by the department through the questions asked on the back of the registration form, which all applicants must answer in full, is treated as confidential, and is used only for statistics compiled in bulk with no individual names printed in the official report. Beekeepers who fail to register are warned that prosecution will follow under Section 2a of the Foul Brood Act, the penalty being not less than five dollars and not to exceed ten dollars and costs.

First Appearance Not Welcome.

According to findings by the inspectors, whose visits in some beeyards were not at first very welcome, beekeepers are more and more coming to realize that it is the soundest economy to buy only inspected bees, and to refuse altogether the purchase of used supplies, if colonies are to be kept free from disease, particularly that greatest menace, American foul brood, and thus reduce by a considerable amount, some apiarists claiming by fifty per cent., the expense of the honey-producing business.

Eradication of bee diseases and the inauguration of clean-up areas were furthered by the passing of the Foul Brood Act, which came into force, with all its amendments, on March 11, 1925, the appointment of official inspectors for all bee-yards being a natural sequence, their powers including the right to visit all apiaries within the section appointed for individual survey, and "if the inspector finds that foul brood exists in a virulent or malignant type he shall order all colonies of bees so affected, together with the hives occupied by them, and the contents of all such hives, and all attainted appurtenances that cannot be disinfected, to be immediately destroyed by fire under his personal supervision." As it is impossible for the inspector to examine combs in an immovable frame or box-hive, the act gives him power to order their removal to movable frame hives within a reasonable time, and in default to order the destruction of such hives and the bees dwelling therein.

Mr. Williamson, whose territory covers Cavan and Manvers, while Messrs. Inch and Brown have Darlington, Clarke and Hope in their charge, found American foul brood in only three places visited in the course of his official duties this season, with a consequent destruction of the fifteen infected colonies, showing how effective is the working of the act and the practical attempt at a clean-up area.

All bee owners must expect a visit from the inspector, whether the apiary is on a large scale or only a single colony is kept, and if American foul brood is found the Government sign is put up on that infected colony, condemning it for destruction. Opposition has been met with, but usually by reasoning with the owner the inspectors have been able to win his co-operation so that often he will turn in and help the inspector to dig the hole in which the bees and equipment are to be burned.

The hole is made two and one-half feet deep, and as many feet square as necessary to accommodate the number of colonies to be burned, inspectors having found it wise to have plenty of material to keep the fire going, since once a lot of comb, dead bees, etc., are dumped in there is danger of smothering out the flame unless there is an abundance of fuel to keep it burning briskly. The necessity for the hole is readily seen when the fact is recognized that any comb, etc., remaining after the burning will be covered up thoroughly when the cavity is filled in, and so no diseased material left on the surface of the ground.

Once Seemed Impossible.

Mr. Williamson, like some other inspectors, had personal experience of the working of the act two years ago when American foul brood infected his own bee-yard, and over one hundred and fifty dollars worth of bees and equipment were put in a hole in the ground and burned. Before the passing of the act and the inauguration of a clean-up area in seven adjacent counties in which Peterboro, Durham, Northumberland and Hastings are included, so many colonies were infected with the foul brood it looked as if any attempt to wipe out the disease was practically an impossible task.

And yet, quoting from official figures, in Peterborough County, for instance, in 1925, when the Foul Brood Act came into force, the number of colonies examined was 1,256, the number diseased 120 and the same number destroyed. The next year, out of 1,235 examined only nine were found infected and destroyed. In Northumberland County, 1,502 were investigated, with 282 having foul brood. By some misunderstand eleven were treated and 271 destroyed. The following season, 3,061 were examined and but 86 had the foul brood and were burned, 53 out of the 86 being found in the area where the eleven colonies were treated the previous year. In Durham County, 631 were examined, 32 found diseased and burned, and the next year, 1,926, only one colony had the foul brood and was destroyed. The latest official figures available show the improvement continuing through the years.

Of course, such drastic methods would not prove continuously effective unless kept up, and through the co-operation of the Government, a quarantine has been placed on these seven counties, and no colonies may be moved in whether the owner comes from a disease-free area or from an infected section. The quarantine does not prohibit the bringing in of package bees or new supplies, but refers only to colonies of bees and used apiary equipment.

Owing to the cold, wet spring, local apiarists have only half a crop of light honey this year. Whether the dark honey will register better results has hardly yet been fully determined. The visit of the inspector usually takes place in May or June, at the beginning of the honey flow, and if funds permit a second inspection is made in the fall, this depending on the size of the Government grant. This year, apparently, the second round of visits has been annulled.

Apiarists in Olla Williamson's territory whose colonies were examined this season include: F. McMahon, William Finnimore, H Russell, H. Attwood, W. E. Ball, R O Larmer, Walter Moncrief, W B Williamson, Richard Wood, Fred Lewers, Eric Hunter, Melville Strong, Malcolm Ward, B. Houtan J. Mason, Jos. Sanderson, T Shields, J. T. Handley, R. Graham, J. White, Newton Fee, Roy Lough, D. L. Armstrong, L. Moncrief and G. Veals, in Millbrook and Cavan; Mrs. Reynolds, Walter Rowan, Robert Morton, Harold Russell, A. W Wilson, Chas. Gillespie, Jas. Biggs Morton Davis, G. Chapman and G Garrett, in Manvers Township.

From many standpoints the public generally should have a constructive interest in the bee industry, since honey is an ideal sweet for children and is endorsed by the medical profession and by food experts practically everywhere as one of nature's most healthful foods, also, bees are the best pollinating agents for fruits, grains, flowers and vegetables, experience having proved that in orchards, for instance, where hives are kept during the bloom period, the fruit yield is much in excess of those areas where these busy pollen-distributing workers were absent.

One hundred and nineteen inspectors were appointed for Ontario once the clean-up campaign was started with the passing of the Foul Brood Act, the American variety being the main point of attack as it is the most widespread, destructive and difficult disease with which beekeepers have to deal with. Generally speaking, the bees will clean up European foul brood themselves, unless in the case of very weak colonies, the introduction of vigorous Italian queens and the provision of abundance of good winter stores being preventive measures.

Making beekeeping increasingly lucrative is a live topic with all apiarists, one suggestion gaining favor being the effort to displace hot dogs in popular favor by inducing tea-rooms to display such signs as these: "Stop round the corner at Betty's Tea Room for hot biscuits and honey"; "Stop half a mile down the road for hot waffles and honey, the ideal breakfast."

Another idea in the educative campaign for the use of more honey is the endeavor to persuade the various service clubs, like the Rotary, the Lions or the Kiwanis, to place honey and hot biscuits on the menu of their weekly luncheons and so create an appetite that will carry over into the homes

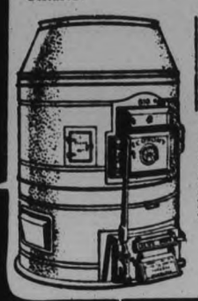
"Heats on the Coldest Day"

Pease

"ECONOMY"

FURNACE

A furnace must be efficient if it is to give quick heat in any part of the house without undue fuel consumption. That the "Economy" does this for thousands of owners is evidenced by hundreds of letters we have received. A typical letter is the following from Mrs. Angus Gillis, 550 St. Clarens Ave., Toronto, Ontario:



"We have our flat to heat as if is rented and we have not had any trouble heating our house on the coldest day since the Pease furnace was installed. We are well satisfied with this furnace."

There are several reasons for this high degree of efficiency. They include the double casing which prevents loss of heat in the cellar and an exceptionally large-surfaced heat radiator which reduces to a minimum the wastage of heat up the chimney. Get further details from us and ask for our tender.

GOODFELLOW & WELCH, Peterboro

THE CANADIAN DEPARTMENT STORES LIMITED

TELEPHONE 3000 Shop with Confidence—"Goods Satisfactory or Money Refunded" GEORGE ST., PETERBOROUGH

This Fall it's a SUIT!

These Are Very Moderately Priced at

6.95

Here's another example to prove that "It Needn't be Expensive to be Smart at the C.D.S." In tweed pattern, with sleeveless blouse in contrasting colors. Finished in straight lines, with belt and two pockets. Odd sizes only.
—Third Floor C.D.S

Growing Girls' Shoes, Pair

3.45

Wonderful value! In assorted styles, in black and brown calf or patent leather. Straps, Ties and Fancy Gore Pumps to choose from. Collegiate with rubber lifts. Width B, C and D and sizes 2½ to 7.

Misses' and Children's Shoes, Pair

1.50

Mostly of patent leather, in an assortment of styles. All have leather soles and rubber heels, some with cushion insoles. Sizes 8 to 2.
—Basement C.D.S

Extra Value!

MEN'S LEATHER WINDBREAKERS

A warm Windbreaker with one-piece leather back, plush lined with moleskin sleeve lining, and finished with dome and button fasteners. Sizes 36 to 46. **5.50**
—Main Floor C.D.S.

Little Boys' Coats Each 4.25

12 only to sell at this extra low price—therefore, we advise early shopping. Made from plain and fancy tweeds in plain and lovat shades. These have sateen shoulders, with half tweed lining. Made in double-breasted style, with half belt on back. Sizes 24 to 28.
—Main Floor C.D.S.

Smart Fall Dresses for the Little Miss

Made from all-wool flannel, twill and Botany serge. Ties, belt, collar and cuffs in contrasting colors. With Peter Pan and sailor collars. In navy blue and red. **2.98, 3.98, 4.98**
—Third Floor, C.D.S.

Costume Slips, **1.95**

Rayon Taffeta Costume Slips in Princess style, with narrow shoulder straps. In an extra long length. White, peach, pink, Nile, sand and black. Sizes 34 to 44.
—Second Floor C.D.S

Rayon Striped Cotton Brassieres, **59c**

Of rayon striped cotton material, in back-fastening style, lightly boned in front for diaphragm support. Sizes 36 to 44 in the group.
—Second Floor C.D.S

Infants' Wool Jacket **89c**

Infants' Crochet Wool Jacket in white with blue trimming on collar, sleeves and finished with scalloped border and ribbon ties.
—Third Floor C.D.S

Infants' Flannelette Gowns **69c**

These have bias binding around the neck and cuffs and tucks down front. Peach and blue trimmings.
—Third Floor C.D.S

Infants' Flannelette Gertrude, **49c**

Neatly finished around neck and armholes, button on shoulder style, in white only. Finished with scalloped hem. Sizes 16, 17 and 18.
—Third Floor C.D.S

Eatonia Baby Pants, Pair **25c**

Heavy quality rubber in assorted colors of pink, flesh and white. Sizes small, medium and large.
—Third Floor C.D.S

Men's Linen Handkerchiefs, **3 for 50c**

A low price for these generous size Handkerchiefs with hemstitched hems, ½ and 1-inch. In white only.
—Main Floor C.D.S

Linen Towelling, Yard **12c**

A good firm quality Pure Linen Towelling with colored borders of lilac, red, yellow, green and pink. An outstanding value!
—Second Floor C.D.S

36-Inch Prints, Yard **16c**

In a splendid variety of small patterns, suitable for quilt linings, aprons and house dresses. Pink, green, blue and yellow designs to choose from.

DEATH BLOW IS DEALT TO TIERS IN NEW FASHIONS

Symplicity is the Keynote in All Autumn Styles.

REVOLUTION IN STYLES

Simplicity the keynote of autumn fashions deals a death blow to tiers and all suggestion of fluffy ruffles. Smartness is introduced by a subtle arrangement of bias cuts, sometimes complicated but never detracting from the simple personality of the regular outline of the frock.

For dances, for dinners and other formal affairs what could be lovelier than these charming gowns of satin, opaque silk and thick crepe, cut to emphasize the beauty of the fabric and the individuality of the wearer. Many people wise in the ways of the fashion world, and these include Peterorough ladies' wear houses, are looking to this new vogue as the beginning of a revolution in style, as sweeping as the Empress Eugenie reform in the millinery mode.

Extreme in the Back.

As in keeping with the simplicity of line, the decollet-age remains rather conservative in front, but may be very extreme in the back, sometimes cut almost to the waistline. The separate scarf to match the dress is a logical partner of the low decolletage and is a graceful addition to the costume. The cowl neckline, so popular in the past season, has been carried over for the autumn ,as stylists have found it too flattering and becoming to relegate to the category of fashion "has beens."

A twist of self material is a trimming widely noted in collections of the smartest evening dresses. It may be introduced at the neckline or may form shoulder straps. Rhinestones and fur touches are other trimmings noted on new evening dresses.

Colour contrast is an important theme for evening and offers infinite opportunity for variation. Some of the smartest contrasts are pink, black and white, black and rose, and a combination of the fuschia shades. The all-black evening gown continues to gain favor and will be chosen by well-dressed women who wish to emphasise the simplicity and charm of the silhouette.

Gaining in Popularity.

Jacket costumes for evening are gaining in popularity by leaps and bounds. Satin is a wise choice for these newes additions to the formal mode although many jacket outfits are carried out in metal cloth and lame. For restaurant dining and the thearte, these becoming little costumes are earning for themselves an important place on the roll call of fashion.

The informal dinner gown or the formal afternoon frock follows the autumn rule of covered shoulders, with tiny cap sleeves or cape-like effects of lace. Transparent velvet crepe Elizabeth, and gold lame are among the fabrics chosen for these graceful dresses.

Evening wraps are long and sweeping and reach within a few inces of the bottom of the dress. Lafge flattering collars of luxurious furs and voluminous sleeves form a striking contrast to the slim lines of the tight wrap-around skirts.

THE RHYMING OPTIMIST

By Alice Michaelis

THE CHALLENGER.

At last there dawns a day when strength drifts out,
When every energy and impulse wane,
When high desire is gone and creeping doubt
Brings futile fears and shadows in its train.

Then rise in man's soul to meet that hour
A force surpassing any he has known,
A calm security, a certain power
Not to be turned aside or overthrown.

This is its part to nerve his outstretched hand
Until it grasps, unfalteringly, the cup
Life offers him; defying, to withstand
The menace of the portion he must sup.

Supreme despite defeat, man then must be
Himself a challenge to Divinity!

QUEENSBORO

Miss Flossie V. Everson, of Belleville, youngest daughter of Rev. J F. Everson of Queensboro, who nursed Stanley Stasiak, Polish Lion who died in Belleville General Hospital, on Sunday, Sept. 13th from septicaemia caused by a fall during a wrestling bout in Toronto, accompanied the body and Mrs. Stasiak to Cambridge, Mass., where the funeral was held on Thursday.

FASHION SERVICE

Still another new and lovely style designed to give the figure slimness and grace.

So many charming materials can be used for this model. The original in black crepe satin chose eggshell lace for the tiny vest and cuffs. Pinkish-beige satin would be equally smart for its trim.

Then you'll like it in rust colored sheer worsted print with plain blending shade contrast.

Dark green canton-faille crepe is effective with eggshell trim.

Style No. 2943 may be had in sizes 16, 18 years, 36, 38, 40, 42 and 44 inches bust measure. Size 36 requires 3½ yards of 39-inch material with ⅜ yard of 35-inch contrasting.

Don't envy the woman who dresses well and keeps her children well-dressed. Just send for you copy of our Fall and Winter Fashion Magazine.

It shows the best styles of the coming season. And you may obtain our Pattern at cost price of any style shown. The pattern is most economical in material requirements. It enables you to wear the new frocks at little expense—two frocks for the price of one.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of pattern 15 cents.

Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book 15 cents.

STIRLING

The neighbors of Miss Mary Ryan met before her approaching marriage to Wilfred Forestell and presented her with a handsome clock.

The community in which Mr. and Mrs. Forestell are residing also had a miscellaneous shower for Mrs. Forestell (formerly Mary Ryan) and many dainty and useful gifts were bestowed.

Mr. and Mrs. Elgin Jackman, of Stirling were visitors at Mrs. William Bennetts on Thurlow, Sunday.

Miss Alice Fleming spent Friday with her sister, Mrs. Arthur Stephenson of Zion.

Mr. and Mrs. Roy Belshaw were showered by their Stirling neighbors and friends on Friday evening. About 45 were present. Short addresses were made by Mr. Richards, Mr. B. Belshaw and Mr. Bedford. These were responded to by the groom. The gifts were opened by the bride and among others were several pairs of Kenwood blankets, a great deal of China, linen and cut glass, also a splendid walnut occasional chair. Lunch was afterwards served.

Week-end guests of Mr. and Mrs. Joe Whitehead were Mr. and Mrs Ernest Lee and Grace, of Campbellford, also Mr. and Mrs. E. Bush and Don.

Mr. and Mrs. Bert Bedford, Marion and Tom were Campbellford visitors last week.

Miss Alice Calon, of the high school staff, spent the week-end at her home in Toronto.

Miss Mabel Mumby spent the week-end with her cousin, Miss Pearl Belshaw.

Miss K. Harkness and Mrs. B. Coulter motored to Brockville recently.

On Friday evening Mr. Trundy, leader of the Troubador orchestra, entertained many friends at Crowe Lake pavilion, at a closing dance. Among those present from Stirling were, Mr. and Mrs. Bob Bastedo, Mr. and Mrs. Joe Whiteside, Mr. and Mrs. A. Murduff, Allen Meiklejohn, Clinton McGee, Tom Ward, Bill Jones, Mary Haggerty and Bessie Conley. Many attended from Campbellford and Madoc. Lunch was served at midnight.

A bale of quilts and clothing for the needy was packed at Mrs. George Weaver's last week. It was sent to Napanee and will be distributed from that place.

Mrs. George Carlisle has been visiting Mrs. W. Smith.

Mr. Lony, proprietor of Stirling House, has been ill for some time but is slowly convalescing.

Mrs. Fred Joblin has been visiting in Castleton.

Mr. and Mrs. E. Hannah and baby Jean spent Sunday in Stirling.

The ladies of St. Paul's Church held a bacon and egg supper on Friday evening in the church parlors. Over $60 was realized.

Miss Luella Matthews spent the week-end with her sister, Mrs. Harper Rollins.

To Wed Port Hope Boy

INTERESTING ENGAGEMENT ANNOUNCED

Miss Eleanor Elizabeth Richardson, daughter of Mr. and Mrs. John T. Richardson of Russell Hill Rd., whose engagement to Mr. Ian Hugh Cumberland, son of Mr. and Mrs. H. C. Wotherspoon ,and grandson of the late Barlow Cumberland, Esq., of Port Hope, has just been announced. The wedding will take place quietly in October.

COULD YOU AT 30 RUN AS FAST AND AS FAR

Not many men at 30 to-day, especially city men, can run five miles straight away, in any time. Yet, on January 28th, 1930, Dr. Robt. G. Jackson, at 72, did this in forty-seven minutes, before 6 a.m. It's only a matetr of keeping the blood normally alkaline, or non-acid, which he does by eating alkaline Roman Meal, the only alkaline-forming grain food, because the only food cntaining flax-o-lin. Because of a diseased heart twenty-three years ago, Dr. Jackson was given only four months to live. Now he can suspend his body between two chairs, resting on heels and head, with 180 pounds on his abdomen—a great feat at any age, but at 73 marvellous! Write for free booklet, "HOW TO KEEP WELL," and other literature, also sample of Roman Meal and Kofy-Sub, the new alkaline beverage, to ROBT. G. JACKSON, M.D., 502 Vine Ave., Toronto 9, Ont.

Havelock

Mr. Charles Armstrong, proprietor of the Armstrong House had the misfortune to dislocate his shoulder on Thursday evening and as a result is confined to his room. He was sitting in a chair in the hotel lounge, tilted back as was his custom, when the leg of the chair slipped and he fell backwards to the floor. He suffered a severe wrench and shoulder dislocation. He is also suffering from shock. Mr. Armstrong is in his 79th year.

Miss Cordie McColl also met with a rather painful accident in the school playground, while playing softball after school on Wednesday The ball struck the left thumb, twisting it back and dislocating the joint. The injury was dressed by the family physician, and though the hand is in a splint Cordie is able to attend school as usual.

Mr. Frank Hooper who has been seriously ill at Toronto General Hospital is said to be slightly improved. His many friends wish for him a speedy recovery.

A delightful outdoor card party was held on the lovely lawn of Mrs Clarence Huble on Friday afternoon, twelve tables being played. Euchre and bridge were the order of the day, the prizes going to Mrs. Sexsmith with highest bridge score, and Mrs. T. C. Jamieson with highest in euchre. Afterwards a dainty lunch was served by the Institute members under whose auspices the party was held. Small buttered biscuits, drop cakes, and a delicious cup of tea were much enjoyed, and the guests departed expressing hearty appreciation for a pleasant afternoon. This is the second of a series of card parties which the Institute is holding. No more will be held now until after the regular meeting in October.

King's Wharf

The harvest is nearly over and in general the crops are very poor, not like they were promising to be early in the season. Buckwheat is being cut now but on account of the high winds and rain it has to be cut one way. It seems a very fair crop, better than other grains.

Mr. and Mrs. Patrick Perdue spent Saturday the guests of the former's parents, Mr. and Mrs. Simon Perdue in Peterborough.

Miss Mary Winn is at present the guest of friends in Peterborough.

Mr. and Mrs. Joseph O'Neill and Mr. and Mrs. Dixon of Toronto spent the week-end the guests of Mr. and Mrs. William O'Neill.

Mr. Martin Devine of Lindsay is at present on a visit here.

Mrs. Thomas Ahearn and children of Toronto spent a few days last week the guests of her father, Michael Fitzpatrick.

Rev. Father Perdue, C.S.B. of Amherstburg, Ont., accompanied by his father, Mr. Simon Perdue of Peterborough also Mr. Thomas Perdue of Ennismore spent Wednesday the guests of Father Perdue's brother, Mr. and Mrs. Patrick Perdue.

Miss Alice Guiry, Reg.N., of New York city is at present the guest of her brother, Mr. and Mrs. Joseph Guiry.

Miss Nora Harrington of Toronto spent the week-end the guest of her parents, Mr. and Mrs. Michael Harrington.

Miss Camilla O'Neill has gone to Detroit, Mich., where she has secured a position.

Born—To Mr. and Mrs. John McLaughlin, last week, a daughter.

Mr. and Mrs. Herbert Hennessey of Ennismore spent Sunday the guests of Mr. and Mrs. Thomas Sullivan.

WIPE AGE AWAY

Marchford Magnesia Masque Takes Years From Your Age in 24 Hours.

This marvelous new Magnesia Masque facial treatment is very simple, very inexpensive. It does away with cold creams, massage creams, bleaches, lotions, astringents and skin tonics of all kinds. It combines in itself the power of all these tonics and beauty treatments. It penetrates pore deep and cleanses the skin of all impurities and excess oil. It heals and soothes, cools and smoothes. After treatment the sagging lines lift and "age is wiped away."

You'll notice its youthifying effect in 24 hours. Used regularly night and morning for a few weeks, Marchford Magnesia Masque removes blackheads, red spots and other skin blemishes and closes enlarged pores. The skin becomes soft and youthful. All trace of oily shine disappears.

Marchford Magnesia Masque is a scientific preparation of Magnesia—long known as an anti-acid and oil-absorbent—for this special purpose of soothing, healing and youthifying the skin. It may be used freely upon face, neck, arms and shoulders. It is positively harmless. Use it night and morning, massaging with the tips of the fingers. You will literally "wipe age away." Your druggist can supply you.

INSTITUTE VISITS BANNOCKBURN

Visit is Paid Bannockburn Institute by Madoc Branch.

DELIGHTFUL PROGRAM

MADOC, Sept. 23. — (Examiner Correspondence)—The members of the Madoc Women's Institute to the number of about forty were entertained by the Bannockburn Institute on Tuesday at the I.O.O.F. Hall. After singing of the Institute Ode, Mrs. James Bailey, president of the Bannockburn Institute, presiding, a graceful address of welcome to the visiting branch was given by Mrs. Donley and briefly replied to by Mrs. C. Whytock on behalf of the Madoc members. The roll call for both branches was responded to by naming the birth month. July was the most popular month, and the nine or ten July members were asked to come forward and were presented by Mrs Bailey with a box of home-made candy, which, by unanimous vote, went to Mrs. James Hunter, as the oldest, or rather the youngest member present, and the program was placed in the hands of the Madoc president, Mrs. Whytock.

A very interesting travel talk was then given by Mrs. F. Harrison on her trip from St. Petersburg, Florida, to Havana, Cuba, and was listened to with flattering attention. Owing to the absence of a piano, the visitors had to omit the instrumental music prepared. A short time was spent in singing some of the old folk songs, after which an article recently published was read by Mrs. Nickle on the discovery of radium near Wilberforce in Haliburton.

Mrs. W. E. Connor presented to the Madoc members an account of urgent need, and after a short discussion, it was decided to call a meeting of the executive committee on Thursday to consider the question.

A pleasing feature of the evening was the presentation to the Bannockburn president, Mrs. Bailey, of a gorgeous sheaf of gladioli, made by Mrs. Whytock on behalf of the Madoc members. Taking Mrs. Bailey entirely by surprise, words were not readily available, but Mrs. Bailey proved equal to the occasion and expressed her thanks and pleasure at the gift in suitable manner. The National Anthem closed the program, and a very pleasant and sociable time was spent over the lunch so bountifully served by the members of the home institute, and the hour was late before "good-byes" were reluctantly said, and many were the expressed hopes for future meetings between the institutes.

Born—To Mr. and Mrs. William Hart, on Wednesday, September 15, 1931, at their residence on Elgin street, Madoc, a daughter.

Died—On Friday, September 17, 1931, infant daughter of Mr. and Mrs. William Hart, at the family residence, Elgin street.

LIFFORD LINE

Mrs. Norton Mills and daughter, Miss Jane spent the week-end the guests of the former's niece, Miss Jean Stinson.

Miss Myrtle Lemay of Toronto is spending a few days with her sister, Mrs. W. Whiteside.

A number from here including Mr. and Mrs. James Neals, Mr. Archie Wilson, Mr. Richard Wilson and Mr. Hiber Preston attended the Peterborough Industrial Exhibition last week.

Mr. W. W. Staples, M.P.P. was a guest of Mr. A. W. Wilson, on Thursday afternoon.

Anniversary services will be held in the Presbyterian Church at Ballyduff on Sunday, October 18th when Rev. Mr. Williams of Millbrook will be the special speaker for the occasion, having delighted the Ballyduff congregation with an able discourse a few weeks ago.

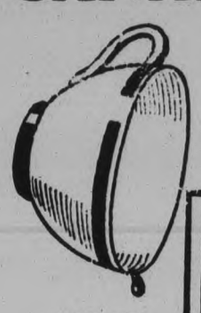
Mr. and Mrs. James H. McGill of Millbrook visited relatives here last week.

Miss Tamblyn, teacher at Lifford, spent the week-end at her home near Orono.

Mrs. Allan Irwin, Janetville was a recent visitor at the home of her brother, Mr. A. W. Wilson.

Born—On Monday, September 14, to Mr. and Mrs. Robert J. Burn, Janetville, a son, James Roy.

CANADA *learns how* DELICIOUS good Coffee can be



"GOOD to the LAST DROP"

A FAMOUS COFFEE came to Canada from Dixie — a master-blending of finest coffees imported from many tropical countries. Maxwell House became the Southland's preference. Today it is most people's favourite coffee. Have *you* tried it. If not, buy a tin today. By all means learn how really enjoyable delicious coffee can be. In 1 lb. and ½ lb. tins.

Freshness Guaranteed by Vacuum Pack

Maxwell House Coffee is always packed in a vacuum tin in the great Canadian Maxwell House plant. This splendid modern packing method protects all the mellow fragrance and flavour. When you open a tin of Maxwell House the coffee is exactly as it was when it left the grinder.

The parish magazine of All Saints' Church contains in a recent issue the following paragraph: "The many friends of Miss Dorothy Worboy will be glad to learn that she has been accepted as a candidate for training in the Church of England Deaconess and Missionary Training House, Toronto. She leaves us on Sunday, September 27th, and her place will be hard to fill. She has been a faithful member of the choir, and has acted as assistant organist for several years; a Sunday School teacher and a member of the Dramatic Club and the Tennis Club. In the Anglican Young Peoples' Association, she was not only a past president of our own club, but she was also past president of the local District Council, a member of the Dominion Executive and one of the editors of the A.Y.P.A. Monthly. Yes, indeed, her place will be very hard to fill but we are glad because it is promotion into the greatest work in the world, and she is responding to the challenge for whole life service for Christ and His Church." Miss Worboy was presented with a fountain pen and piece of china from the staff of the Hall Store, where she has been a valued member of the staff for the past three and a one-half years.

• • •

Mr. J. Clayton, of New Liskeard, is visiting his daughter, Mrs. J. E. Gunane, of 310 George street.

• • •

Miss Genevieve Driscoll of 462 Park street is celebrating a birthday anniversary to-day.

• • •

Miss Lily M. Davis, of North Toronto, spent last week-end with her cousin, Miss Alice I. Carver, 302 Charlotte street.

• • •

Miss Jessie Hodgson, of Collingwood, is spending a few days with Miss Margaret McCabe, Burnham street.

• • •

Miss Doris Bannister left yesterday for Kingston, where she will attend Queen's University.

• • •

Miss Sadie Melrose of Guelph, and Mrs. Kenneth Ellis (formerly Miss Irene Melrose), of Arlington, Massachusetts, formerly of Peterborough, and her son David, were guests during the week of Mr. and Mrs. A. G. Melrose, 339 Weston street.

• • •

The many friends of Mrs. Robert Glover, of Union street, will regret to learn of her illness in Nicholls Hospital.

• • •

Mr. Thomas Rennison of Havelock is a pupil at the Peterborough Normal School this year.

• • •

Mr. Ralph Adair, son of Mr. and Mrs. C. B. Adair, Homewood avenue, has gone to Kirkland Lake, where he has accepted a position with the Lakeshore Mines.

• • •

The members of the B.Y.P.U. of Murray Street Baptist Church, enjoyed a jolly weiner roast on Monday evening at the Canal. During the evening, Mr. Fred Ward, who is president of the district B.Y.P.U. and was also formerly president of the local society, was presented with a pen and pencil set. Mr. Ward leaves soon for Hamilton to enter McMaster University.

• • •

Mr. Kenneth Darling, son of Mr. and Mrs. Herbert Darling of Smith township, has gone to Guelph to take a course at the Ontario Agricultural College.

• • •

The city and district Field Day of the ladies of the Peterborough Golf Club, held yesterday at the links, was extremely successful, with fine weather all day for a very interesting program of competitions. The contests started at ten o'clock sharp in the morning, in charge of Mrs. B. D. Hall, with four green assistants: Mrs. H. Wightman, Mrs. Lionel Scott, Mrs. C. B. Westbrook and Miss Daisy Davidson. After a brief luncheon interval, the players teed off at one o'clock. Tea was served in the afternoon from a table done very strikingly as a reproduction of the fourth hole of the golfing green, complete with miniature players, caddies, tees and golf bags. A grass cloth formed the foundation of the scene. Tea was poured by Mrs. H. A. Morrow, assisted by Mrs. Reg. Turner, Mrs. H. M. Yelland, Mrs. G. S. Cameron, Mrs. D. Lawrie and Mrs. J. F. Strickland. For the competitions, a large gallery followed the players all day and the games were keenly contested by lady golfers from Port Hope, Lindsay, Oshawa and Peterborough. The silver cup which forms a new trophy for this year of the Ladies' Golf Club, and which is a very handsome prize donated by Mr. and Mrs. Chris. Graham, was played for, for the first time, and was won by the Peterborough team, each of the eight ladies on the team also receiving a tiny facsimile of the large trophy. The cup, which remains in the possession of the winner for one year, will be competed for annually in the District games. The local players captured it by sixteen points, Lindsay coming second with thirteen points, Oshawa with eleven and one-half, and Port Hope with eight and one-half. The driving competition, in charge of Mrs. E. H. Wood, was won by Mrs. Eric Phillips of Oshawa, with consolation won by Mrs. Forest of Port Hope. The prizes for approaching and putting on four greens went to Miss E. Flavelle of Lindsay, Mrs. Forest of Port Hope, Mrs. Robins of Port Hope and Mrs. O. Degraw of Peterborough. Other prize-winners were Miss Hildegarde Schultz of Port Hope (1) and Mrs. R. Grant of Peterborough (2), for the best gross score; Mrs. Perkins of Lindsay, best net score; Mrs. Eric Phillips of Oshawa, best gross score going out; Mrs. R. Grant of Peterborough, best gross score coming in; Mrs H. C. Sootheran of Peterborough, best net score going out; Mrs. Perkins of Lindsay, best net score coming in; and Miss Hildegarde Schultz of Port Hope, for the aggregate on three blind holes. The prizes were presented by the honorary president of the Ladies' Golf Club, Mrs. J. A. Aylmer, and the District Manager, Miss E. Flavelle of Lindsay, spoke briefly, congratulating the Peterborough ladies on the success of their field day. It was announced that the District games of next year will be played in Oshawa on the second Tuesday in September. Local players on yesterday's team were Mrs. H. C. Sootheran, Mrs. R. Grant, Mrs. Gerald Wood, Mrs. F. L. Roy, Mrs. O. Degraw, Mrs. C. G. Graham, Mrs. J. A. Aylmer and Miss Lenore Lyle. Port Hope players were: Mrs. Forest, Mrs. Fraser, Mrs. Bryden, Mrs. Robins, Mrs. Grant, Miss Hildegarde Schultz, Miss Henrietta Schultz and Miss Fraser. Lindsay players were: Mrs. Laidley, Mrs. Sylvester, Mrs. Perkins, Mrs. H. D. Wilford, Mrs. Williams, Miss Norah Edwards, Miss Naomi Edwards and Miss E. Flavelle. Oshawa players were: Mrs. Eric Phillips, Mrs. Smith, Mrs. Caldwell, Mrs. Rooney, Mrs. Morphy, Mrs. Gordon, Mrs. Dickson and Mrs. Bull.

Woman Is Injured In Auto Accident

CAMPBELLFORD, Sept. 23.—(Examiner Correspondence.)—Driving off the Brighton-Campbellford highway at Salt Creek, near Codrington, late last night, Charles C. Harris of Toronto struck a stumppile on the side of the road and turned completely over into the ditch, wrecking his car.

Mr. Harris was badly shaken up, and the other occupant of the car, his wife, was seriously bruised and injured. Mr. Harris, who is a former manager of the Campbellford branch of the Bank of Montreal, was coming here with his wife to visit relatives when the accident occurred. Both were removed to a neighboring hospital and later Mrs. Harris was taken to Smith's Private Hospital at Campbellford.

BURRELL ACQUITTED

BRANTFORD, Sept. 23. (CP)—A verdict of not guilty delivered last evening gave freedom to Harry Edwin Burrell, Hamilton. He was charged with manslaughter before Mr. Justice Garrow in the fall assizes, following the fatal injury of Mrs. Katherine Landrigan, Detroit, on the Hamilton highway on Aug. 17.

Nearly 80,000 people are now employed in the wool industry of Italy

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

Have you ever known a great leader of society whose every word was law, in the matter of etiquette?

• • • • • • •

I don't mean, personally.

• • • • • • •

One I have in mind was the world's greatest social leader, a courtier and wit. His name was Lord Chesterton, and to this very day his dictates are followed, although he lived centuries ago.

• • • • • • •

The reason for this is because what he said was grounded in truth as well as in courteous grace. His letters to his son set forth many of his ideas. A fundamental principle was that politeness is classified kindness of heart. However much persons may rebel against the edicts of etiquette, no one can object to following such a principle.

• • • • • • •

Let us look just for a moment at one or two of the acts which give polish to manners. A youth rises when an older person enters a room, and always should remain standing until the person is seated.

• • • • • • •

If the person is a woman, he rises invariably or is considered lacking in courtesy. The reason for this is really kindness of heart. It indicates a wish for the other person to have a choice of chairs so that she, or he (if the difference in ages is considerable) may be comfortable.

• • • • • • •

It is kindness to open the door for another, and to let the woman (or older person) go through it first, for by so doing, the younger person, supposedly more agile, can see that the entrance is made in safety.

• • • • • • •

If there is any doubt about what is on the other side of the door the younger person goes through first and turns to assist the older one.

• • • • • • •

Children sometimes rebel against what they think are useless rules. If they can be helped to think things out, they will discover for themselves that kindness is the root of all courtesies, which make the social graces.

• • • • • • •

If they wish to express themselves, or as they say, be natural, they can be trusted to do the right thing provided they have kind hearts. They cannot fail, when being natural, to be thoughtful of the comfort of others.

• • • • • • •

They will express the kindness of their natures. If being natural means being thoughtless of others, the child is revealing a poor side to others, who will judge him by his actions.

• • • • • • •

Popularity can never be his, and every young person, whether admitting it or not, wants to be popular.

What One Girl Wore

By Betty Brownlee

We saw two of the new hats that we thought especially becoming to their wearers last week at a fashionable tea.

The first model, which we have sketched for you to-day, was a typical result of the Eugenie influence. Very sophisticated, of course, it was developed of hatter's plush and featured a sharp dip over one eye. Coq feather in front achieved a very saucy effect.

The black satin illustrated was most flattering. The Watteaus brim terminates in a large bow at the back, and the hat is worn very much to one side of the head.

You can't select one of the new hats in a hurry. Take your time and be sure you find the type that is most suitable to your face.

FOUNDER OF CANADIAN GREY NUNS MAY BECOME CATHOLIC SAINT

That Body of Yours

By James W. Barton, M.D

HOW THE SUN'S RAYS SHORTEN AILMENTS.

In this civilization of ours we must live indoors a good part of the time at our work. Many remain indoors when there is no reason to do so, and when the air is comfortable and the sun bright.

Naturally as a race, we are missing many of the benefits of the rays of the sun.

In an endeavor to bring sunshine and its benefits into the home, to babies, to invalids and others, many 'sunshine' lamps are on the market and research men have been experimenting to see whether all the benefits claimed for these lamps are real, or whether the lamp just 'seems' to help because the individual thinks it is helping him.

Dr. P. Woringer, Berlin, made observations on patients with measles, chickenpox, and on those vaccinated with cowpox vaccine. Measles developed among children of a tuberculosis centre previously the children were exposed daily in bathing suits to the sun's rays. The rash was more intense, more severe, on the exposed parts than on the nonexposed parts of the body.

In children during the few days after measles and chickenpox had started in them, but before the rash appeared, one half of the body was exposed to the rays of a quartz lamp while the other half was covered with a black cloth. In those with measles the eruption developed as much as two days sooner on the exposed half than on the nonexposed half of the body. In children with chickenpox, the little sores (vesicles) developed early, and were more numerous on the exposed side; only one or two little sores appeared on the nonexposed side two days later.

Infants were vaccinated on both arms and then one arm was exposed to the rays. The vaccination sores developed earlier, and were larger on the nonexposed arm.

What does this teach us?

That the sun's rays, the rays of the quartz lamp, makes the resisting forces in the body work harder and faster, and the youngsters get rid of the ailment that much sooner.

Dr. Woringer says that if the sun's rays will do this in ailments where there is an eruption, why can't it do it when the ailment is of the kind that doesn't have an eruption.

You and I are going to increase our resistive power to ailments, the more our bodies are exposed to the rays of the sun.

HEALTH TAUGHT IN HIGH SCHOOL

Girls in Junior Years Receive Tuition From Nurses.

THREE CHARACTERISTICS

MONTREAL, Sept. 23 (By The Canadian Press)—At a joint nursing and education section of the American Public Health Convention held in this city recently, Miss Etta A. Creech, R.N., Cleveland Heights, Ohio, gave a summary of her methods in teaching health matters in the high school at Cleveland Heights, Ohio, where the teaching of health is a required subject for all girls throughout their junior year. The teacher is a full-time member of the faculty, subject to the usual professional requirements, and is also a nurse. While correlated with the physical education and the medical departments, the course is not subordinate to them, the teacher being responsible directly to the principal. In this school health has gained a fixed and respected place in the curriculum.

The first semester is devoted to personal hygiene under such topics as food values, weight, care of the skin, the complexion, care of hair, eyes, nose and throat, posture, care of the feet, clothing, exercise and rest, and the prevention of disease. The second semester is devoted to home nursing and infant care. Class work consists of assigned reading, recitation, discussion, demonstration and practice, with emphasis on individual note-books.

The teacher of health, she explained, should recognize three characteristics of high school girls: their interest in appearance rather than health, their keen intellectual curiosity, and their existing store of information or misinformation about health. The teacher should avoid radical or dogmatic statements, realizing that controversial medical questions have no place in a public high school.

MARMORA

Miss Lulu Gray has returned to Oshawa hospital on Special night nurse duty.

Miss Dorothy Gray spent last week in Oshawa with her sister Miss Lulu Gray.

relief from CHRONIC

BRONCHITIS

RAZ-MAH will stop that hacking, irritating, spasmodic cough. G. GRAPE KUCHEN

Two cups flour, two tablespoons shortening, one tablespoon sugar, four teaspoons baking powder, one-half teaspoon salt, one cup milk. Mix well together and spread in a deep pie tin, building up the edges around the tin to keep in the juice. Pulp a quantity of grapes putting in a deep layer on dough, cover with one-half cup each of sugar and cracker crumbs or dried cake crumbs. Bake about 40 to 50 minutes, then pour over one cup of thin cream or rich top milk returning to oven and bake ten or fifteen minutes to set milk. Let cool and serve. A delicious dessert.

FRESH GRAPE RELISH

Select bunches of grapes of uniform size and ripeness. They should not be overripe. Without removing the grapes from the stem, pack the bunches closely in clean glass jar, being careful not to crush the fruit. Make a syrup in the proportion of 1½ cups of white sugar to one cup of white vinegar, boiling it for five minutes. Pour the hot syrup over the grapes to fill the jars and then seal them. Purple, white and red grapes may be preserved in this way. They keep their shape and color and are excellent served as a relish or used for garnishing.

GRAPE SPONGE PUDDING

Make grape juice by washing purple grapes, then mash or pulp them and cook slowly till soft, then strain. Take one cupful grape juice, one cupful water, boil and thicken with two heaping tablespoons cornstarch and pinch of salt, wet with a little water. Add half cup sugar and stir constantly until thick. Let cook in double boiler, while beating the whites of two eggs, mix well. Serve cold with custard sauce made with yokes of two eggs, two heaping tablespoons sugar, one level tablespoon sifted pastry flour, quarter teaspoon salt, one pint hot milk. Cook until thick, stirring constantly.

GRAPE JAM

4 Pounds of grapes, 3 pounds of sugar. Wash and stem the grapes and weigh the grapes and sugar. Press the pulp from the skins and cook the pulp gently until very soft. Press through a sieve to remove seeds. Add the sugar and cook gently until thick. The time should be about ten minutes. Pour into hot sterilized glasses and seal with paraffin wax. (Tested by The Chatelaine Institute.)

FOUNDER OF CANADIAN GREY NUNS MAY BECOME CATHOLIC SAINT

Sister Maria Sacrificed Much to Establish a Hospital for the Poor.

BORN OCT. 17, 1701

MONTREAL, Sept. 23 (By The Canadian Press)—It is not often that charitably minded persons have to fight to get the right to do service to others. Yet that was the case with Sister Maria d'Youville, who was the founder of the Grey Nuns in Canada.

A short time ago application was made to the Sacred Congregation of Rights at Rome to have her made a Saint. All but the last step has been taken. At the last vote she was entitled to be called Blessed. The only step that now remains is to decide on canonization, in which case she would rank as a Saint.

Maria Marguerite Dufrost de Lajemmerais was born at Varennes, on the south shore of the St. Lawrence, on October 15, 1701. Her father, Christophe de Lajemmerais or La Gesmerais, a Breton gentleman, came to New France in 1687 and served as ensign under De Denonville against the Iroquois. He died leaving a widow and six children, of whom Maria Marguerite was the eldest. The widow re-married an Irishman, Timothy de Sylvain or Sullivan.

Wasted Wife's Funds

On August 12, 1722, Maria married a Montrealer, Francois Madeleine d'Youville, who extravagantly wasted his own and his wife's funds and brought himself and her to poverty. He died suddenly on July 4, 1730, leaving two sons and many debts. Three children had already died, and another was to be born and die shortly after birth.

The widow sought consolation in devotion to religious and charitable works, while not neglecting to provide for the education of her boys.

She associated herself with three other devout women, but as they became noted for their efficiency in hospital management and the care of the poor and sick, jealousies sprang up around them. Groups who themselves were badly mismanaging the general hospital of the city feared that the authorities would give that work to these lay workers, and stirred up many rumors and scandalous charges against them, so much so that in 1738 the four women, after they had just opened a new house in which to care for poor and infirm people, were stoned by the public.

Residence Burned

In 1745 their residence was burned down and their enemies made no secret of their rejoicing. A fine house was given them in its place by a charitable resident, but the governor of the place immediately seized it for his own use. A poorer but still a suitable residence was found for them by a woman of moderate means and abundant charity, and there they carried on their work for several years until the general hospital had finally got into such a desperate condition that the authorities sent for Mme. d'Youville and her associates to ask them to take charge of it and put it on its feet again. This they did with such good effect that the population of the city rallied to their side and backed them unanimously a few years later, when a last attack was made on them, this time from Quebec.

The Quebec authorities in an attempt to fuse the Montreal hospital with Quebec General Hospital had begun to move out furniture when orders came from France to cease the destitution. The Montreal hospital was then restored to the group of lay women who were operating it, headed by Mme. d'Youville. In June, 1753, she and her fellow workers, now numbering nine or ten, received letters patent as an authorized religious community, and adopted as their public title the term, originally given them in mockery, of "Grey Nuns." Sister Maria, head of the new community, the former Mme. d'Youville, died on December 23, 1770.

Finger Print on Plaster Cast Reveals Murderer

Prints Fatal to Strangler in Vienna

Not long ago the body of a young girl was found in a woods in the environs of Vienna, Austria. He had been choked to death. The police made use of "negacoll" an extremely plastic modelling material by which amazingly accurate masks are secured. A "negacoll" bust of the victim was identified by his relatives after the body was buried.

Examining the cast closely, the police discovered a reproduction of finger prints evidently those of the murderer. The print was compared with the finger print records on file at police headquarters and there a similar print was found. The name and history of the owner was laid bare. He was arrested not long afterwards and convicted of the murder.

So finger prints are being used in every country to protect society from criminals.

Prints on Things you Eat Are Dangerous to You

It is not only to criminals that finger prints are dangerous. They are full of peril to honest people. For, if you are lifting a chocolate or a biscuit to mouth as you read, your prints may be preparing the way for your visit to a sick bed, the victim of a germ disease. This is not mere sensation. It is the cold truth. Your fingers may be covered with germs which you have picked up from articles which other fingers have touched during the day. Those other fingers may have been germ laden.

Germs Breed Rapidly

When those germs on the chocolate or biscuit reach your mouth they may breed with amazing rapidity and spread through your system to attack it at some weak point. Do you know that the Life Extension Institute lists no fewer than 27 disease germs which may be spread by human hands?

We cannot see these germs, yet they are everywhere. Where is the way to safety? Here it is—simple and available to all: wash with Lifebuoy Soap many times a day (and always before a meal) because Lifebuoy contains a germicide.

Safety in Lifebuoy

Safety in Lifebuoy! Yes, and more—much more! A beauty soap, too, as fine as can be made because it is based on two exquisite palm oils noted for their beautifying effect on the human skin. The soft, luxurious lather of Lifebuoy penetrates deeply into the pores, cleanses them and invigorates the skin. No perfume in Lifebuoy—but a pleasant safety scent that vanishes after use.

Body odour too! Many offend at work, or at a party, without knowing it. A Lifebuoy bath keeps you safe for many hours. Children need the frequent wash with Lifebuoy, they handle pet animals and other children's playthings so joyously and carelessly! Little cuts and scratches are kept free from infection by the Lifebuoy germicide.

See what a benefit Lifebuoy can be to everyone—grown ups, young people and children. Keep a cake always on the washbasin and for the bath. Get a supply from your dealer today.

Macks Defeat Tigers For 105th Victory

PASS FORMER MARK OF GAMES WON BY PHILADELPHIA TEAMS

Browns Close Season in Boston With 5-2 Victory Over Red Sox.

PIRATES WIN 3-2.

(By Hugh S Fullerton Jr. A P Sports Writer)

With one game left today before the year's intersectional play in the Major leagues ends the last east-west series in the big circuits has merely proved what the earlier ones indicated. The Eastern clubs of the American League and the western teams of the National, which have outshone their rivals from the other sections all year, wound up with the most thorough triumph yet.

Playing on the home grounds of the strongest sections, the American League's eastern half won 40 games and lost only 14 while the Westerners of the National League turned in 38 triumphs to 18 defeats. The Chicago Cubs, which had lost nine straight games to the clubs of their own sector before beginning their stand against the east made the best individual showing. They won eleven games and lost only two. Boston, Philadelphia and New York shared the American League honors, the Red Sox winning eleven games and losing four and the A's and Yankees each recording ten victories to three defeats.

105th Victory

When they closed their intersectional stand with an 8 to 6 victory over Detroit yesterday, the Athletics, once said to be weaker than the pennant winners of the past two seasons, accomplished a feat that no other Philadelphia club ever had done before. It was their 105th victory of the season, one more than the great AA's of 1929 could win all season. They still have five games left and the possibility of tying the American League record of 110 victories.

George Earnshaw, who won his 21st game of the year, and Roy Mahaffey gave the champions some wobbly pitching, but three Detroiters more than made up the difference by issuing 13 walks and Jimmy Foxx started the A's off with a lead that never was overcome when he hit his 30th homer of the season with two on in the first inning.

Washington snatched the opportunity offered by an open date in the New York schedule and took undisputed possession of second place in the standing with a 7 to 2 victory over the Chicago White Sox. Six runs in the first inning on five hits off Faber and Thomas plus an error and a walk settled the game.

Oston's great spurt was checked in the last inning of a battle with the St. Louis Browns but the Red Sox managed to hold onto fifth place. Leading 2-0 going into the ninth, Milt Gaston weakened, the Sox committed two errors and Wiley Moore, who was tossed into the breach could not get the side out until five runs had crossed the plate to give the Browns a 5 to 2 victory.

Pirates Down Phillies

After wasting a number of opportunities in the regular route, the Pittsburgh Pirates finally beat out the Phillies 3 to 2 in the thirteenth inning of the National League's best battle. Heinie Meine held Philadelphia to five hits while the Pirates made ten and got the benefit of 13 walks and six sacrifices but 20 Pittsburgher's were left on base. One of the passes followed by Traynor's single and Piet's fly produced the winning run.

Brooklyn closed the National League season so far as St. Louis is concerned by downing the champion Cardinals 6 to 3 in their final encounter. Paul Derringer's streak of wildness in the seventh with Orsatti's error and O'Doul's timely single gave the Robins three runs to put them ahead and Jack Quinn, relieving Mungo, held the cards in check to the end.

The other National League clubs had an off day.

YESTERDAY'S STARS

Heinie Meine Pirates — Held Phillies to five hits in 13 innings and won 10th game, 3-2.

Frank O'Doul, Robins—Drove in pair of runs against Cardinals with double and two singles.

Jossie Bluege, Senators — His double with bases filled in first inning was high spot of six-run attack on Whitesox.

George Blaeholder, Browns — pitched effectively in pinches to beat Redsox 5-2.

Jimmy Foxx, Athletics—His 30th homer with two on aided in defeat of Tigers.

JACKIE FORBES REFEREE MATCH

Listed as One of the Best Wrestling Arbiters in This Country.

HERE SEPTEMER 28TH.

It is not to be wondered at that local sports enthusiasts are all het up over next Monday night's return wrestling match between Alex Kasaboski and Frank Hart. The last meeting between these two will never be forgotten by those fortunate enough to witness that epic encounter.

Right from the start it was full of action, full of the action and thrills that one reads about in story books but hardly ever expects to see in actual competition. And indications are that the return encounter between these bitter and well matched mat rivals will be even more exciting than their first meeting here.

And for this reason: Hart thinks he was "jobbed" out of that last match. It was so apparent to everybody at the ringside that his shoulders were not touching the mat, as the rules call for, that he cannot help thinking that "there was something rotten in Denmark" in connection with the match. And everybody who witnessed that sensational duel and its unusual ending is inclined to agree with Hart.

Hence the decision to stage the return match on a Monday night, for on that night, Jack Forbes, Canada's premier referee and one of the best wrestling arbiters in America, will be available and the Ontario Athletic Commission has promised to send him up here to officiate.

Former Champion.

Forbes was formerly amateur and lightweight wrestling champion of Canada and there is nothing about the game that he does not know, as everybody will agree who saw the efficient maner in which he handled the bouts the last time he was here. Thus it is assured that there will be no disappointing ending to Monday night's match at the Brock Street Rink and, once and for all, the question of supremacy between Kasaboski and Hart will be settled.

The fact that Alex has agreed to weigh in at 172 pounds is all in Hart's favor as the former's best weight is 175 pounds and the few pounds he will have to take off will weaken him, probably enough to help Hart beat him.

However, Kasaboski has not been beaten here yet and who ever does take him into camp will know he has been to the wars. And Monday night's scrap should be a whole war by itself, not to mention some excellent preliminaries being arranged by Matchmaker Charles Hallat for the Peterborough Boxing and Wrestling Club, of which more anon.

FIGHTS LAST NIGHT

NEW YORK—Tommy Loughran, Philadelphia, outpointed Joe Sekyra Dayton, O. (10). Charley Retzlaff, Duluth, Minn. stopped Dick Onken, Germany (2).

INDIANAPOLIS—Midget Wolgast Philadelphia, outpointed Johnny Edwards, Huntingdon W. Va. (10).

FARGO, N. D.—Kid Rippatoe, Sioux City, Ia. and Howard Shiek, Fargo, drew (4).

ATLANTA — Maxie Rosenbloom, New York and Battling Bozo, Atlanta, drew (10).

COLUMBUS—Jack O'Dowd, Detroit and Chet Shandel, Akron, O. drew (10).

NEW LEADERS OF RUGBY AT UNIVERSITY OF TORONTO

NEW LEADERS OF RUGBY AT UNIVERSITY OF TORONTO.

The University of Toronto seems to have a fair sort of team. Dr Harry Hobbs, the newly-appointed coach, has affairs running smoothly and is taking things easily both with the new forward pass and the heavy work. In the layout ABOVE is shown some of the action at the Varsity Stadium. (1) Dr. Hobbs, the new coach, demonstrating just how the hand should be held when about to grasp the ball in the new forward pass. One of the last season men who has been up to the college seniors this season is dutifully listening to instructions. (2) The new captain of the 1931 squad, Bob Galloway. He is a medical student.

R. DRIMMIE LEADS LIST IN PLAY-OFF AVERAGES

Helen and Jean Nelson Are Top Hitters on Keene Aggregation.

PLAY-OFF AVERAGES.

With the final game of the Girls' Softball League over, it is interesting to see how the fair ones fared with the willow during the play-offs. As no box score was kept of many of the games throughout the summer, it is impossible to know the leading hitters for the year. However, the top clouters in the play-off games are likely to be well up in the batting averages for the season. R. Drimmie led them all with the wonderful average of .500, and she was far ahead of the rest of her team. Helen Nelson and her sister Jean had good marks to lead the Keenesters, while F. Pavy had a fine .455 for the series.

This is how they batted in the semi-final and final play-offs:

	Games	At Bat	Hits	Aver.
Keene.				
H. Nelson	6	30	13	.433
J. Nelson	6	30	12	.400
V. Dickson	6	25	9	.360

Cardinals' Share Is Split 30 Ways

ST. LOUIS, Mo., Sept. 23 (C.P.)—The Cardinals, 1931, National League champions, held a meeting and voted to split into 30 equal shares their winnings in the coming world series with the Philadelphia Athletics, title winners in the American League.

Each one of the 25 players, Manager "Gabby" Street, Secretary Clarence Lloy, Coach Clyde Wares, Trainer Harrison Weaver, and Assistant Trainer Kirby Samuels, will come in for one-thirtieth of the team's "take," which will be either 60 or 40 per cent. of the competing teams' pot from receipts of the first four series games. The team winning the world championship gets the 60 per cent. share.

The players also voted $500 to Groundskeeper Bill Stocksieck.

Wrestling Last Night.

New York—Kola Kwariani 216, Russia, threw Tommy Draak, 210, Germany in 13:55; Herb Freeman 220, New York, drew with Steve Znoski 215, Poland 30:00; Hans Steinke 240, Germany, drew with Gino Garibaldi 205, Italy 30:00; George Calza 218, Italy, threw Ivan Zernyhora 210, Russia 21:19; Sammy Stein 200, Newark, threw Mike Romano 202, Italy 20:02.

SPORTS by JIMMY THOMPSON

CLIFF CHILCOTT

often known as the "Midget Hercules" or "The Mighty Little Man" of Canadian sport, has had one of the most adventurous careers. Early in his teens he enlisted for overseas service, and after war was over he crossed the ocean twice as a Canadian representative at the Olympics, first as a high and fancy diver, and later as a wrestler. He includes a trip to the Arctic circle in his history, being marooned on the ice fields for several months with the Colonel MacAlpine party. He has also pulled sweep oar for Toronto Argonauts. Cliff has always reached the top in everything he attempted, despite the handicap of what looked like in his infancy to be paralysis for life. Now he is going to try coaching, at the Oshawa Ontario Collegiate.

INTER-COUNTY BOX LACROSSE

Fall Schedule Features Twin Games With Campbellford Running Two Teams.

TEAMS WELL MATCHED.

CAMPBELLFORD, Sept. 23. (By Examiner Staff Correspondent). — The Inter-County Box Lacrosse League starts its fall schedule this week with Campbellford clashing in two bouts with the Norwood aggregation. This league at present is comprised of four teams, Madoc, who start their scheduled games next week, the Norwood Combines and two teams from Campbellford, the Maroons and Tigers. A double schedule has been drawn up with the exception of the first and last weeks when single games will be played.

To make the teams even and to give the fans a better brand of the game Campbellford have split their strength into two outfits, playing them as separate units. Norwood will be able to put into the field a good team with a large district to draw from and Madoc have many young players in their burg, who with the coaching of some of the real old time lacrosse players who reside in that town, will place a snappy opposition in the field.

The schedule:

Sept. 22—Campbellford Maroons at Norwood.

Sept. 26—Norwood at Campbellford (Maroons).

Sept. 29—Madoc at Campbellford (Maroons); Campbellford Tigers at Norwood.

Oct. 2—Campbellford Maroons at Madoc; Norwood at Campbellford (Tigers).

Oct. 5—Norwood at Madoc; Campbellford Maroons vs. Campbellford Tigers.

Oct. 9—Madoc at Norwood; Campbellford Tigers vs. Campbellford Maroons.

Oct. 13—Madoc at Campbellford (Tigers).

Oct. 16—Campbellford Tigers at Madoc.

LEAFS DEFEAT MAROONS 10-7

Toronto Clinches First Place in International Box Lacrosse League.

PLAYERS HONORED.

TORONTO, Sept. 23. — Toronto Maple Leafs triumphed over the rugged Montreal Maroons here last night by 10 to 7, and thus clinched first honors in the International Professional Lacrosse League. The defeat also jeopardized Maroons' play-off chances, as they must now whip Canadiens in the last scheduled game of the regular season.

Last night's tilt was the most sensational yet seen here, and eighty-five hundred fans went wild with anxiety and delight or chagrin as the speeding players maintained a terrific pace and furnished spills and thrills galore. No mercy was shown by either team, and checking was more strenuous than usual.

It was "Lionel Conacher Night," and a gala one, as that. Previous to the start of hostilities the rival teams and the officials and players of the Brampton Excelsiors, holders of the Mann Cup, assembled in mid "ice," where Hon. George S. Henry, Premier of Ontario, on behalf of Toronto and Montreal sportsmen, presented a silver tea set to Conacher. Corbett Denneny then gave him a lounging robe, the gift of the Leafs, while Peter Campbell presented wallets to the Brampton players.

CANUCK CHAMP ENTERS SECOND ROUND MATCH

Maureen Orcutt Playing at Top Form in U. S. Women's Tourney.

MRS. C. EDDIS OUT.

Youngsters Matched Against Veterans in To-day's Play.

(By Francis B. Cass, Associated Press Staff Writer)

BUFFALO COUNTRY CLUB, Williamsville, N. Y., Sept. 23. — Youngsters in years but veterans in experience were pitted against seasoned players today in the second heat of the race for the National Women's Golf Championship.

Outstanding for the time being among the youthful players was Jane Brooks of Nyack, N. Y. who supplied the first big thrill of the tournament when playing Mrs. Opal S. Hill of Kansas City, Mo. western champion, in a match that ended on the 17th green with Miss Brooks winning 2 and 1.

Miss Brooks today faced an equally formidable opponent in Marjorie Kerr of England, who with Miss Enid Wilson, the British champion, is making a bid for the United States title. Miss Kerr won a protracted match on the twentieth green from June Beebe, young Chicago girl.

The bespectacled Nyack golfer will be especially keen for victory for it has not been her fortune to get past the second round in any title event. In 1927, her best showing, she lost to Marie Jenny, former metropolitan district champion, six and five, in the second round.

Plays Superb Golf

Another of the younger players, Maureen Orcutt of Englewood, N.J. who is the Canadian champion, met Bernice Wall of Oshkosh, Wis. as her second round opponent. Miss Orcutt played in a sensational manner in her first round match with Jane Broadwell of Springfield, Mass. and appears to be playing at the top of her game in spite of the fact she has been inactive practically since the British Women's open championship early in the summer.

One of the matches brought together Helen (Billy) Hicks, of Hewlett, L.I., and Marion Hollins of Santa Cruz, Cal., who won the championship in 1921. Both are playing well and their match should be close.

Two youngsters fought it out for the right to advance to the quarter finals when Virginia Van Wie, Chicago girl who was a finalist in 1929 and 1930, and Frances Williams of Lehigh, Pa., former women's eastern champion, squared off. Miss Van Wie disposed of Mrs. Marion Turple Lake of Flushing, L.I., who holds the Southern and Long Island titles, and Miss Williams took the measure of Betty Ubernathy, a fellow Pennsylvanian from Oakmount.

Mrs. Eddis Eliminated

Mrs. Glenna Collett Vare of Philadelphia, the defending champion, met Mrs. Charles Eddis of Toronto, one of the three visiting players who survived the first round. Miss Wilson's opponent was Mrs. L. C. Nelson of Dayton, Ohio.

Mrs. Leone Pressler of San Gabriel, Cal., who won a breath-taking match from Martha Park of New York City, tackled young Fritzi Stifel of Wheeling, W.Va., who upset Mrs. Harley Higbie of Detroit, one of the qualifying round leaders. In the other match, Mrs. Leo Federman of New York City matched shots with Mrs. Helen Payson Corson of Philadelphia, a former Canadian champion.

SCHAAF VS. GRIFFITHS

CHICAGO, Ills., Sept. 23 (C.P.)—The answer to Ernie Schaaf's stirring knockout victory march through the American heavyweight ranks may be heard at the Chicago Stadium tonight when he stacks his new reputation against Gerald Ambrose "Tubby" Griffith in a 10-round battle.

Russia's flax crop is expected to be 25 per cent greater than in 1930.

LOUGHRAN WINNER OVER JOE SEKYRA

Philadelphia Heavyweight Earns Points Decision in New York Bout.

NEW YORK, N.Y., Sept. 23 (CP) —Tommy Loughran, Philadelphia heavyweight contender, has found his fifth straight victory the most difficult.

With easy victories over Max Maer, Ernie Schaaf, Tuffy Griffiths and Victorio Campolo just behind him, Tommy found himself up against the Dayton, O., trial horse, Joe Sekyra, in the Queensboro Stadium last night, and just did manage to jab out a close verdict on points in ten rounds.

Sekyra, who whipped Charley Retzlaff in his last start here, made an aggressive fight of it all the way and hurt Loughran in the seventh round with a heavy right to the jaw. Tommy finished fast however to win the ninth and tenth rounds and with them the decision.

Loughran weighed 183, Sekyra, 177.

Retzlaff stopped the German heavyweight, Dick Onken, in the second round of the ten-round semi-final.

TWEED

Mr T. Collins, of the Royal Bank staff, Toronto, spent the week-end with his parents Mr. and Mrs. William Collins.

Mr. James Ryan, Mr. Max Geraldi attended the Peterborough Industrial Exhibition on Friday and Saturday.

Mrs. William Richardson, Mrs. J. S. Lewton, Mrs. Albert Baker and Mrs. Wallace attended the district meeting of the Rebecca Lodge in Frankford, on Thursday.

Mr. and Mrs. Alex Geraldi have returned to Montreal after two weeks spent with the latter's parents, Mr. and Mrs. George Robertson.

Rev. Father Keeley, of Marmora, and brother, Dr. Frank Keeley of Cleveland, visited Mr. and Mrs. M. McAvoy.

AMERICAN GOLFERS DOMINATE CANADIAN LADIES' TOURNEY

Miss Mackenzie's Victory in 1926 Last Time Canada Claimed Title.

KEEN COMPETITION.

(By John C. Porter)

TORONTO, Sept. 23 (Special to The Examiner).—Now that all the male golfers of Canada have just about decided on what mantelpieces various silverware will stand this winter the various women are just beginning their big week of golf.

On Monday some hundreds of them will put their noses to the golfing grindstones to see who is going to be the holder of the Canadian open which takes place at Rosedale Club, Toronto.

Hundreds of households have to look forward to a certain lack of management these next few days, but doubtless all that will be forgiven in due course. It does seem that a great number of the good lady golfers are married.

Then again on looking closely at the list of winners of the Canadian ladies' open we can find only a single Mrs. and that was 'way back in 1922 when Mrs. W. A. Gavin appeared to "just get by" two up, after what must have been a stirring battle with Miss Alexa Stirling, now Mrs. Fraser of Ottawa.

It is certainly about time the title was brought back to Canada again this year or it will begin to look like the Canadian open for men.

Not since 1926 when Miss Ada Mackenzie won it has the championship claimed any but a United States woman for a boss. It is now held by the long-hitting and tall Miss Maureen Orcutt of that country.

Miss Hicks' Display

To our way of thinking the best golf ever to win it in the last few years was that played by Miss Helen Hicks, the bubbling, boyish, young golfer who won it at Hamilton in 1929. Not only was her golf of a superbly brilliant character in every round but she was called upon to make Miss Glenna Collett (now Mrs. Vare) a victim in the semi-finals.

Miss Hicks found herself in the depressed position of being two down with two holes to play. It didn't bother her a bit, she didn't even garage her usual broad and cheerful grin. She just gritted her teeth and stepped into a pair of birdies to tie the match. Then she went on and applied the needed par to defeat Miss Collett at the 20th hole.

That day Miss Collett's card read 75. And that was with every stroke holed out. They had to be, the match was so close.

Miss Hicks' card was 72—39 out and a devastating homeward journey of 33! If that's not wonderful golf for women to play we'll never see any.

All that, of course is ancient history and the kind that is not likely to repeat itself soon.

This year the open at Rosedale is going to bring some sturdy competition. Many fine golfers from the United States are expected. The contingent will doubtless include Mrs. Vare, Miss Orcutt, Miss Hicks and a few others who are right in the front rank of the world's golfers. Miss Enid Wilson, the British champion, is also expected to compete.

What of Canadians?

And how will the Canadian ladies fare? Every years their own championship is getting harder to win back, but it would seem they are in a better position to do it this year than for some time past. Not only are there some fine younger golfers coming to the fore, but some of the reliable camaigners have got their games down to a pretty keen edge.

Most noteworthy perhaps is Miss Ada Mackenzie. Three times winner of the event and dangerous in any tournament, she has been playing more golf this year and as a consequence better golf. And when Miss Mackenzie is at her best few can match her long drives and he general steadiness through the green.

There are a number of others who are playing fine golf right now and on top of that Rosedale should prove advantageous to those who know the course. It will require plenty of long hitting from the ladies, but unlike many courses it lacks really lengthy holes—the discouraging 500 and 600 yarders. Most of the long drivers among the women will find little difficulty getting on the long holes in par figures. What is going to count is ability to pitch shondly to Rosedale's greens, because the greens at this club require plenty of "it" on the ball.

It is quite useless to predict where the title will go. It's almost impossible to guess how eyen the men will finish, but when it comes to upsets the women win. So we won't try to predict a winner among the ladies next week. We hope she comes from Canada, but we's afraid she won't.

SPORTS By JIMMY THOMPSON

YOUNGEST KING OF TENNIS.

Ellsworth Vine, when he defeated George Lott, of Chicago, in the final this year. Ellsworth Vine, 20-year-old tennis star, won the National singles championship of the United States—the youngest player ever to do so in the history of the game. Last year Vine showed great promise by his sensational play, but before the season was over the critics had forgotten him because he was very erratic. This year he has come back with a determined vengeance and is now being hailed as the No. 1 ranking player in the States. Vine has every known lawn tennis stroke in his repertoire—and that includes great courage. Before a game with Frederick Perry, the great English star, Vine was told that Perry was unbeatable at net play, so he elected to play the baseline. Perry was undaunted, however, and before long Vine changed his tactics and moved up to the net. It was apparently a suicidal move, but to the amazement of the fans and critics alike, Vine outstroked and outplayed the British sensation. By his striking colorful play, Vine seems destined to fill the vacancy that Bill Tilden left in the amateur game.

CASUAL COMMENT

With the compiling of the batting averages in the play-offs of the Girls' Softball League, we find some pretty high figures. D. Drimmie of the Sixth Line outfit certainly smacked the ball frequently in the five games she figured in, getting eleven hits in twenty-two times up. It gives her an average of .500, showing she had more than a rabbit's foot when she stepped to the plate.

• • • • • • •

Freda Pavy, of the Brintons, didn't do so badly either, getting .455 in five games. For Keene, the velson sisters, Helen and Jean, led the way with .433 and .400 respectively. Verna Dickson had .360 which included a bunch of home runs.

• • • • • • •

Those figures give an idea of what the gals do when they come up swinging. And they also show why the girls' loop draws such crowds. It's because the fans like to see plenty of action with lots of base hits and runs. While these averages just cover the play-off games, they are a sample of what the clouters were doing all season.

• • • • • • •

About eighteen of the Keene girls were guests to Louis Yeoes at the Elite Cafe the other night for winning the loop race. They were a happy bunch and enjoyed the dinner a great deal. Already, two or three of their regular players have left to resume college work, so it was just simply a case of HAVE to win the play-offs in three straight games, or playing with a badly crippled team.

• • • • • • •

Incidentally, Louis Yeotes handed out over seventy boxes of chocolates through the summer to home run hitters in that league. Twice he ran short and had to send away for more as the girls continued to lift the ball out of the field. Hardly a game passed but at least one player called in to Lou's afterward and claimed the sweets.

• • • • • • •

See where the Kingston Ponies dropped $453.00 for the summer just past. However, if they had just played C.O.B.L. games, they would have finished ahead, as their loss comes from exhibition games with American teams. In fact, one item, their guarantees to visiting teams, not Central League outfits, is close to five hundred bucks.

• • • • • • •

The Ponies were against entering the Central League this spring, saying it cost too much, and that they could make more by playing exhibition games with Yank crews. The fact that they were in money on the former loop, and "in the red" on the other idea should convince them differently next year.

• • • • • • •

Our senior club will be holding a meeting shortly to check up on the financial standing, and we expect they will find themselves a little out. It was a poor year for the Petes and their attendance was off at the last. Besides, complete new equipment for the whole team took away the shekels by the bucketful. But they'll have it all for next year.

• • • • • • •

With Jack Forbes, who handles most of the grappling affairs for the Athletic Commission, being third man in the ring here next Monday evening, Frank Hart will be sure of a square deal when he meets Kasaboski in the main squirm event at the Brock. He had a legitimate squawk the last time, but there'll be no alibi if he loses to Alex again.

• • • • • • •

Osborne, who refereed here the last pro show, is a good boxing umps, but he didn't know wrestling. He was supposed to brush up on the rules beforehand, but must have lost his book. Or possibly he was in a hurry to get home that evening. Anyway, ruling like he made don't do the mat game a bit of good. A number of local fans are firmly convinced that he robbed Hart of the match, as the Dutchman was going strong when the second fall (?) occurred.

CANOE COMPANY STARTS MAKING WINTER GOODS

Three Months' Work Necessary to Meet the Growing Demand for Goods.

SMALL INDUSTRY.

The Peterborough Canoe Company will work at full capacity for at least three months turning out winter sporting equipment. The Examiner was told this morning by W. A. Richardson, president. These winter goods, which include skis, tobogans, dog sleighs, etc., have been manufactured by the Canoe Company for a number of years with each season bringing an increase in sales over the previous year; in fact the volume of business booked to date is much heavier than ever before.

"The making of skils and tobogans," stated Mr. Richardson, "has developed to such an extent that it is now equivalent to a real industry and I know that if a new factory were to come from the outside and bring the same amount of employment it would be welcomed by those who help to build Peterborough industrially.

"The winter work is seasonable but it fills in well with our more regular lines—boats, canoes, etc.—and if operated as a separate business would be equivalent to a factory employing about twenty men the year round.

"The boat business is also seasonable as far as sales are concerned, but few people realize that boat construction is continued throughout the winter months. There is of necessity a short slack season, but our winter lines fill in and create fairly steady employment for men who would otherwise be laid off as is the custom in practically all other boat shops.

"Another good feature about our winter work is that it necessitates money being spent in this part of the country for material, as a large percentage of the lumber that we use—ash, birch and maple—is purchased from the farmers and cut up in the small mills in this district.

LEGION DIFFERS ON PROHIBTION

One Group Insists Body Follow Old Policy and Keep Out of Issue.

DETROIT, Mich., Sept. 23.—The American Legion National Convention went into business session today with the controversial issues of prohibition and bonus payments in the foreground.

The bonus question was pushed into prominence last night by a statement from the National Commander, Ralpt T. O'Neil, in which he renewed his promise that there will be full and free discussion of the issue. It was the first utterance on the subject by a Legion leader since President Hoover's address at the opening session Monday, in which he called attention to the condition of the National Treasury and asked that no burden be added to it.

The convention was divided into two camps on the prohibition question. One group insists that the Legion follow the policy of past years and keep the issue out of its discussion, while another favored a vote on at least one of the numerous resolutions which have been presented. The latter group was not in agreement as to whether the convention should be asked to advocate repeal of the 18th amendment, a nation-wide referendum of libralization of the enforcement acts to permit maufacture of beer.

TWO GROUP WINNERS ANNOUNCED IN CLUB'S DOUBLES SCHEDULE

Sorensen and Rutherford Rinks Have Unbroken Records of Five Wins.

TWO FINALS UNSETTLED.

Play in the doubles schedule has progressed to the point where the winners in two groups are already known and where only a couple of rinks are still in the running in the other two groups. I Group 2, the rink of George Sorensen and George Rutherford are the winners with an unbroken record of 5 wins. In Group 3, J. H. Sedgewick and P. Hooper have a similar record. These two rinks are the winners in their groups. In group 1, H. Coleman and S. Lowe have four wins as have Cullen and Archibald. Should these two rinks each win their remaining game, they will be tied for the leadership of their group. In Group 4, a similar condition exists as G. Coleman Jr. and Ray Brown, and J. McDonald and W. Greenslade each have four wins. Coleman and Brown, however, have had one loss. Should McDonald and Greenslade win their remaining game, they will then win the group leadership. As soon as all the group leaders have been determined, they will play off for first and second places.

Last Night's Games

The following is the result of the play in the doubles schedule last evening:—

G. East won from R. Hendry; W. Wood from K. Sloane; R. J. Martin from L. Loftus; E. M. Wall from T. M. McDonald; G. Coleman Sr. from J. Harrison; J. Sedgewick from Nelson Routly; G. Cairns from C. Seymour; E. R. Disney from R. F. Downey; W. J. Oke fgrom A. Barton; G. Coleman Jr. from R. Dyer; B. Coleman from T. O. Donaldson; James McDonald from G. Hutchinson; N. Routly from J. T. Braund; C. Taylor from P. Sexsmith; M. Bredin from A. Brown.

Singles Schedule

Three games were played last evening in the singles schedule. G. Low won from B. Coleman in a game that ran to 24 ends. W. Wood won from L. Loftus and H. B. Cowan won from Dr. Braund.

Colon, Panama, has placed a tax on showings of talkies.

Schmeling Planning To Meet Headliners

PARIS, Sept. 23. — (A.P.— Joe Jacobs, American manager of Max Schmeling, world's heavyweight boxing champion, said to-day that Schmeling would sail in November for the United States to make an exhibition tour and that he would fight Mickey Walker either in Miami or Los Angeles in February.

Jacobs said Schmeling then would take on Jack Dempsey in June at a place to be picked later.

Jacobs said he was sure Gene Tunney, who retired undefeated in 1927, was returning to the ring and that "we'll accommodate him."

GOLF NOTES

MACDONALD CUP.

Quarter finals Peterborough Country Club. Match play, no handicaps, stymies must be played. Round to be played on or before Monday, Sept. 28th.

P. A. Johnson vs. Dr. E. Wood.
S. J. Payne vs. C Rogers
A. H. Stratton vs. S. J. Black.
C. H. Browne vs. Terry Hall

Toronto Man Named Head Of Oddfellows

WINNIPEG, Sept. 23. — Joseph Powley, Toronto, was yesterday installed as Grand Sire and Commander-in-Chief of the Independent Order of Oddfellows. During the past year Mr. Powley has filled the post of Deputy Grand Sire, and his promotion to the highest office in the order followed as a matter of course at the meeting of the Supreme Grand Lodge here.

After a stiff election contest, which required a second ballot, W. F. Jackson, Fort Scott, Kansas, was elected Deputy Grand Sire. Other candidates were: Thomas G. Andrews, Oklahoma City; A. L. Yantis, Shelbyville, Ill.; George L. Hershman, Crown Point, Ind.; H. Dorsey Etchison, Frederick, Md.; A. Pittenger, Duluth, Minn.; John N. Mark, Oil City, Pa.; and James R. Davis, Tacoma, Wash.

J. Edward Kroh, Baltimore, Md., was re-elected Garnd Secretary, and William H. Cox, Mayville, Ky., Grand Treasurer ;and Edgar B. Pohiman, Baltimore, Assistant Grand Secretary, were also returned to office for another term.

King George of Greece recently took his mother, his brother, Prince Paul, and his three sisters, including Queen Helen of Rumania, to the theatre in London.

Timetable Changes Effective
Sunday, Sept. 27

Important changes in passenger train schedules will be made on September 27th.

Full information now in hands of agents.

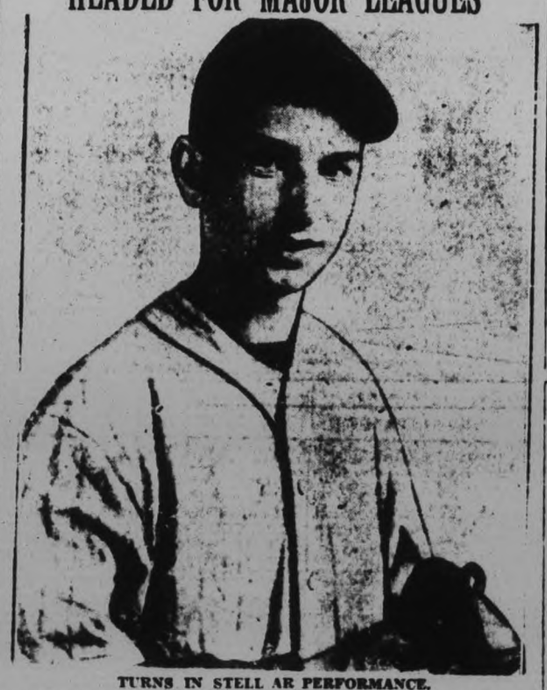
HEADED FOR MAJOR LEAGUES



TURNS IN STELL AR PERFORMANCE.

Sammy Salsberg, who pitched a no-hit, no-run game for St. Andrew's Playground against Merritton in the final game of the O.B.A.A. playdowns, to give the Saints the Ontario provincial bantam title, is only 14 years old, and it is his first year in organized baseball. He was picked up from a street team by Harold Sniderman, supervisor of St. Andrew's, early in the spring, and right from the start was a sensation. In the five games that he hurled in the provincial play-offs he whiffed 101 batters, and also made a record for one game by striking out 24 Merritton batters in the initial contest of their series.

HERBERT LEAL GETS HONORS

Awarded Medal for Attaining Highest Marks on Entrance Examinations.

HUNGERFORD FAIR.

TWEED, Sept. 22 (Examiner Correspondence)—Hungerford Township School Fair was held at Tweed Consolidated School recently, with Joseph Wilson, Agricultural Representative of Stirling, in charge, while Mr. Sheldon conducted the judging.

The children sang several songs, led by Miss Lois Richardson. Six pupils entered the public speaking contest. Mr. Wilson stated that Tweed Consolidated school had the greatest number of entries of any fair held this year.

Herbert Leal was presented with the gold medal given by the local School Board for attaining the highest marks on the entrance examinations.

Those taking part in the speaking contest were Kathrine Hunter, whose subject was "The Welland Canal"; Enid Connor, "Pauline Johnston"; Jean Leworthy, "Improvements in Canada"; Lois Ketcheson, "Pauline Johnston and Her Poems"; Anna Kleinsteuber, "The Story of Rubber" and Alfred Carman, "The Canadian National Exhibition. The contestants were named by the judges as winning in the following order: Miss Ketcheson, Miss Connor, Miss Hunter, Miss Kleinsteuber, Miss Leworthy and Alfred Carman.

Presentation Made

Miss Marjorie Elliott, a member of St. James' Sunday School choir and A.Y.P.A. was honored by her fellow members on Sunday morning when she was presented with a beautiful combined prayer and hymn book. Mrs. J. J. Luffman reading an appropriate address while Mrs. W. Leal made the presentation. Rev. W. L. Wright spoke a few words expressing regret that Miss Elliott is leaving Tweed for Peterborough where she will attend the Normal School.

W.M.S. Meets

The monthly meeting of the W.M.S. of the United Church was held in the church parlors with Mrs. Tummon in charge when the devotional leaflet was given by Mrs. Hicks.

Mrs. Grier favored the gathering with a solo and a reading. "The Ever Present One" was given by Mrs. Barnett. Mrs. Foster took charge of the business session when Mrs. Cook made mention of the bale of clothing which is to be sent this week and told of the great need for warm clothing in Saskatchewan.

At the close of the meetin, the ladies of Mrs. Tummon's and Mrs. Bradshaw's groups served tea.

Right Hon. J. G. Coates, former Prime Minister of New Zealand, and at present leader of the Opposition, joins the Government in forming a National Government of New Zealand. He will act as Leader of the House of Representatives.

BURGESS BEDTIME STORIES

THE WHISTLER IS DISCOVERED
(By Thornton W. Burgess)

To every riddle you will find
An answer if you be not blind.
—Old Mother Nature

When Farmer Brown's Boy got back to camp he said nothing about the mysterious whistler of the rock slide high up on the mountain. You see, he suspected that some one at camp might have been playing a joke on him, for he was a tenderfoot and knew it, and tenderfeet are often the victims of jokes. But early the next morning, with a lunch in his pocket, he started up the mountain again.

"I'll find out whether or not they were playing a joke on me," he vowed to himself. "If that whistler is there when I get there I will know that it is no one from camp, for I am the only one who has started out yet."

After a long, hard climb that made him puff he reached the rock slide, and no sooner had he appeared in sight of it than he heard that same mysterious, clear, sharp whistle, but though he looked instantly in the direction from which the sound had come he saw no one. The mystery was as great as ever.

"I'll just hide and keep out of sight for a while and perhaps the whistler will show himself," he decided.

So he found a snug place among the tumbled rocks where he was out of sight but from which he could see in all directions. As he crept in there he thought he heard a faint far-away whistle, but of this he wasn't sure. Time slipped away and he had been there a long time without seeing a living thing save Talons the Golden Eagle, who passed high overhead. He had about decided that he was wasting time when, with the suddenness of a jack-in-the-box, there appeared on a rock just a little way from him one who at first glance he mistook for an old friend.

"Why, Johnny Chuck, where did you come from?" he exclaimed under his breath. Then he realized his mistake. This was not Johnny Chuck, although he looked much like him. To begin with, he was nearly twice the size of Johnny Chuck. He wasn't as brown as Johnny. His coat was more gray, a mixture of black and white hairs. The top of his head and face were black with a whitish patch in front of the eyes. His fur seemed to be much thicker than Johnny's. His tail was like Johnny's, but somewhat thicker. But in shape he was quite like Johnny Chuck and he sat up in the same way. Altogether he looked very like a great big Johnny Chuck, but handsomer, much handsomer.

"Why, Johnny Chuck, where did you come from?"

Farmer Brown's Boy held his breath lest he startle this new acquaintance. "You must be Johnny Chuck's cousin. Yes, sir, that is just who you are," he muttered, and this was a good guess, for Johnny Chuck is a Marmot and this also was a Marmot.

By this time all thought of the mysterious whistler had left Farmer Brown's Boy. He was too much interested in this little stranger to think of anything else. Very cautiously he moved, so as to ease a leg that was becoming cramped. Instantly that same sharp, piercing whistle sounded again, so loud that it was startling. At the same time the stranger vanished as suddenly as he had appeared.

Farmer Brown's Boy blinked. He stared unbelievingly at the rock on which the stranger had been sitting only a second before. He knew that he had discovered the mysterious whistler, yet he was finding it difficult to believe.

"He did it. I know he did it," he kept saying over and over to himself. "I didn't suppose there was any animal who could whistle like that. No wonder I didn't see anybody yesterday. Well, sir, I am going to stay right here and you and I are going to get better acquainted."

So it was that the mystery was solved and Farmer Brown's Boy first met Whistler the Hoary Marmot, first cousin to Johnny Chuck of the Green Meadows.

(Copyright, 1931, by W. T. Burgess)

What Is He Worth?

Well, he's worth . . . the absurdity of the question makes you smile . . . You wouldn't part with him for any amount of money . . . He's too precious!

Remember, then, that his strength, his appearance, his success and happiness depend upon his health. And his health depends largely upon you.

Be sure to guard your child against constipation and the evils which result from it. Baby's Own Tablets are a safe and effective laxative. They reduce simple fever, allay colic, relieve croup, prevent constipation, help to relieve the distress which accompanies the cutting of teeth and generally promote the health and comfort of children.

For your own peace of mind, and for the sake of your child, don't be without Baby's Own Tablets in the house. 25 cents at any druggist's. 161

Mr. C. L. Bickell of Toronto spent the week end in the village with Mr. and Mrs. Charles Lake.

Mr. Richard Stewart spent the week end at Mount Julian, Stoney Lake.

Miss Yvonne Stuart of Toronto was a week-end visitor at her home in the village.

Mr. Gordon Porter, B.A., spent a few days last week before returning to resume his theological studies at Queen's University.

Mr. Harry Sherin was at his cottage at Mount Julian last week end.

Mr. and Mrs. T. W. B. Marling spent a few days last week at "Point o' Rocks", Clear Lake.

Mr. Cameron Payne was the guest of Mr. Harry Sherin at his cottage at Mount Julian last week end.

Mrs. Harold Martin and children of Peterborough were guests of Rev. and Mrs. R. J. Burton last week.

Miss Mae Mahood was the guest of Misses Thomson at Kawartha Park for a few days last week.

Mrs. John Sanderson was the guest of her parents, Mr. and Mrs. W. G. Stone in Burleigh last week.

Mr. Sam Spence left on Tuesday for Kingston where he will resume his studies at Queen's University.

Mr. Chester Andrews of Flinton is the guest of his sister, Mrs. Lawrence Charlton.

Mr. and Mrs. G. G. Connell and Miss Claire were at Kawartha Park last week end.

Rev. T. W. Leggott of Stayner is in the village, called here by his brother's death.

Mr. Frank Madill spent last week at Stoney Lake.

Mr. and Mrs. J. H. Sherin were in Toronto last week for a few days.

Mr. and Mrs. W. J. Leggott and children of Oshawa are visiting the former's mother, Mrs. S. R. Leggott.

Mr. and Mrs. J. H. Payne attended the anniversary services at Bethel church on Sunday.

Mr. and Mrs. S. T. Leggott of Belleville are in the village with Mrs. S. R. Leggott.

Mr. Frank Pullen of Oakville is visiting Mr. K. Tate at "Bendennis."

Mr. and Mrs. George Welbourne were guests of Mr. and Mrs. W. N. Welbourne in Cobourg last week.

Mrs. H. G. Park, Misses Camilla and Frances Park and Mr. Joe Park were in the village on Thursday calling on friends.

Mr. Charles Lake spent a day at Cedar Lake last week.

Mr. Frank Payne has returned from a week's holiday spent at Stoney Lake.

Mr. Victor Lancaster spent last week end with friends at Mount Julian.

Mr. E. J. Millage spent a day last week on a fishing trip to Cedar Lake.

Mrs. Noble of Toronto is in the village, called by the death of her brother, Mr. S. R. Leggott.

Mr. Sam Spence was the guest of friends at Stoney Lake last week end.

Mr. Harry Stabler of Toronto spent the week end at his home in the village

BETHANY

Mr. and Mrs. Alex Monk and son Karl attended the Peterborough Industrial Exhibition on Friday.

Mr. and Mrs. Carlton, of Toronto visited their son Roy and his bride on Thursday.

Mr. Harry Reynolds was a visitor to the Peterborough Exhibition on Friday

Mr. Wellie Fallis was a visitor to the Peterborough Industrial Exhibition on Friday.

Mr. William Porteous, of Nestleton is a guest of his sister-in-law, Mrs. Charles Porteous.

Mr. William Woods, of Millbrook called on his sister, Mrs. C. Porteous on Thursday evening.

Born—On Wednesday, Sept. 16, at Ross Memorial Hospital, Lindsay, to Rev. Mr. and Mrs. Scott, a daughter (Audrey Winnifred).

PUPILS HONOR VICE-PRINCIPAL

Delightful Evening is Held in the Millbrook Continuation School

PRESENTATION MADE

MILLBROOK, Sept. 23.—(Examiner Correspondence).—A delightful social gathering was held at the Continuation School on Thursday evening, the event being specially arranged in honor of the assistant principal and his bride, Mr. and Mrs. S. W. Cawker, whose marriage took place late in the holiday months, and who since their arrival in the community have occupied Mrs. G Hetherington's cosy bungalow on Tupper street.

The initiation stunts for the freshmen students were a feature of the evening, creating the usual merriment, games, music and dancing for which the school orchestra played completing the program.

Presentation Made.

The presentation of a handsome electric reading lamp and bronze book ends in sail-ship design to Mr. and Mrs. Cawker was the outstanding event of the gathering, Jack Stinson reading the appreciative address after Principal Jordan had invited the guests of the evening to a central position in the assembly hall, the gifts being arranged on the library table.

A march of all the pupils, with Mr. and Mrs. Jordan and Mr. and Mrs. Cawker bringing up the last of the long line from an adjoining class-room, was the novel method adopted to bring everyone into place previous to the presentation, the scholars, who were all "in the secret" of what was to follow, forming a big semi-circle round the space reserved for the guests whom they were about to honor.

Mr. Cawker replied briefly, thanking the donors on behalf of his wife and himself, and the singing of "For They Are Jolly Good Fellows" brought this part of the evening to a fitting close, the service of refreshments somewhat after the manner of a basket social, with a special treat of ice cream as the last item on the menu, bringing a very enjoyable occasion to a happy close

Young Women Meet.

The initial gathering of the Young People's Society of St. Andrew's Church after the holiday season was held on Friday evening, the meeting taking the form of a jolly weiner roast at the Grove, thirty or more being in attendance.

The gathering was scheduled for 6.30 p.m., the "roast" forming the regular tea of the young people, camp-fires being built for cooking the weiners and making the coffee, while games of various kinds filled out the hours happily once the abundant supper had been enjoyed.

For the balance of September the Y.P.S. meetings will be on Monday evenings at the church, and will be merged in the practices of the junior choir, which is being formed under the supervision of the church organist, Miss Estelle Hetherington.

The first Monday in October will have the election of officers for the Y.P.E. as the main feature of the meeting, and plans will then be laid for the winter's activities. B. B. Dawson was president for the past year—in fact, has been re-elected every year since the Young People's Society was re-organized following the coming of Rev. Mr. Jones to the pastorate, and Miss Dorothy McDowell, secretary.

Trent River

Mr. and Mrs. L. Cuttle Mr. and Mrs. P. G. Cherry of Toronto, were week-end guests at "Maple Inn" Cook cottage. They were successful in landing 10 fine black bass.

Messrs. Swabb and Stener have returned to Cleveland, Ohio, from holidaying at the "Cook cottage."

Mr. and Mrs. H. Palmer, Miss Glenna and Master Keith Tomlinson of Toronto were week-end visitors with Mr. and Mrs. Thos. Tyler.

Mrs. Inkster of Bobcaygeon is a guest with her son, Mr. W. C. Inkster and Mrs. Inkster.

Miss Maybelle Inkster, Reg. N., left Saturday for Montreal to resume her duties after a three weeks holiday at the parental home.

Dr. and Mrs. O. C. Watson have returned to Campbellford from spending the season at their summer home.

Mr. and Mrs. A. L. Riendeau and daughters left last week from "Dunwanderin" for their home in Campbellforrd.

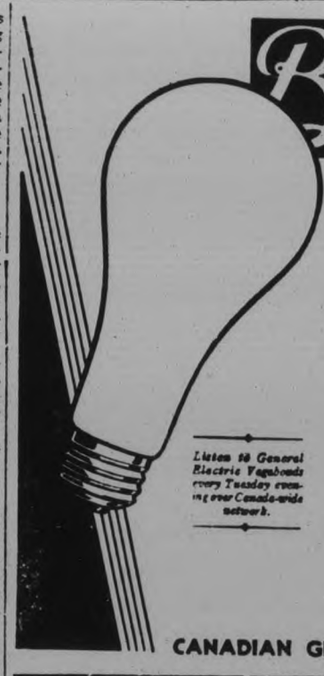
The date for the anniversary services at the United Church has been set for Sunday, October 11, with Rev. J. E. Glover of Smithfield in charge, followed by a fowl supper on the following night, to be held in the dining hall.

Mr. and Mrs. Douglas Redner and daughter, Betty, of Rednersville, were recent visitors with Mr. and Mrs. Frank Davidson.

Recent visitors with Mr. and Mrs. Will Davidson were Mr. and Mrs. Joseph Bell, Mr. and Mrs. Robert Deck of Peterborough.

Mr. and Mrs. W. W. Redden and son Rufus attended Peterborough Exhibition Friday.

Mr. and Mrs. Cecil Spooner and Mrs. Spooner, Sr., arrived Friday from Toronto at "Kare Free."



Banish glare with **EDISON MAZDA LAMPS**

PLAN AIR MEET FOR PETERBORO' DURING OCTOBER

Officials of Toronto Flying Club Co-operating With Chamber of Commerce.

DATE IS NOT SET.

Peterborough is to be the scene of a small air meet next month according to a report from the Chamber of Commerce to-day. It is to be staged in a further endeavour to arouse interest in aviation in this district.

The meet is being staged under the direction of the local Chamber of Commerce officials with the cooperation of the Toronto Flying Club. The members of the club have volunteered to send a half dozen machines to the city and endeavour to attract aircraft from other sections of Ontario will be made.

Although the meet was originally planned for the latter part of the present month it was found necessary to postpone it on account of the fact that the period is tied up with other meets and displays of aircraft at other points in Ontario. The exact date has not been set but it will fall late in October.

Landing Field Not Decided

The landing field which will be used for the meet is also undecided. The land on the farm, four miles out on the Port Hope highway, which is the site that has been proposed for a civic airport, has been considered but will be unavailable for such use in view of the fact that it is to be used in the International Plowing Match.

It is expected that the meet will include inter-club competitions, formation flying and stunt flying in its activities. Efforts to have a reappearance of the autogiro are being made. A commercial plane may be provided to take passengers at reasonable rates.

Well Known Instructors

Most of the pilots who will take part are well known club instructors and proficient pilots. They will be entertained in this city officially with a luncheon during their visit.

Two prominent pilots have visited Peterborough in preparation for the meet, Col. D. G. Joy, district inspector of the Department of National Defence, and Jack Young, instructor of the Toronto Flying Club who followed Norbert Millar of Peterborough over the line by a matter of a few seconds in the Tip Top Air Derby, both inspected the farm on the highway and declared that it would make excellent accommodation with the removal of some existing fences.

Make Excellent Airport

Both men also expressed the opinion that the land would make an excellent airport for the city and could be made ready for immediate use with the expenditure of little money. The landing field at present is satisfactory only with winds in a certain direction but runways in different directions could be provided by the removal of the fences, they pointed out.

Col. Joy was of the opinion that Peterborough would soon feel the benefit of an airport if one were established. Once the word got about that accommodation for planes was to be had at Peterborough, air-plane tourists from the United States and the other cities of Canada would come here and use Peterborough as a gateway to fishing and hunting lands, he said. Officials from the American headquarters of Peterborough industries would use the airport as a convenience in their business trips, he claimed.

F. G. Stinson, manager of the Chamber of Commerce, pointed out that there are now fourteen municipal centers in the province with their own airports. They are Belleville, Brantford, Chatham, Haileybury, Kenora, Kingston, Kitchener, London, Ottawa, St. Catharines, Toronto, Walkerville and Woodstock.

A Little Marital Harmony

Harmonizing to the tune of marital bliss are Mr. and Mrs. David L. Hutton, pictured at the piano at the Hutton home in Los Angeles. Maybe you know the bride better by the name of Aimee Semple McPherson, famous evangelist and pastor of the Angelus Temple, where the third and new husband has been officiating as her voice instructor and leading baritone of the Temple choir.

Y.W.A. RALLY SEPTEMBER 28

X. L. Mission Circle of St. James' United Church Hold Regular Meeting.

GOOD PROGRAM.

The E.L. Mission Circle members were graciously welcomed last night at St. James' parsonage by the enthusiastic committee in charge of the September meeting.

Miss Jessie Martin, the president, occupied the chair, and a very successful and interesting program was carried out. The service opened with the hymn, "Prayer Changes Things," in which all joined, and was followed by a message from Mrs. A. I. Brown, Presbyterial President. This message contained some very helpful ideas for future working plans, as well as kindly advice and good wishes to the girls. The corresponding secretary, Mildred Fife, also read a note of thanks for flowers sent to Miss Edith Wright during her illness.

A scripture reading, founded upon St. Mark's story of "Jesus walking beside the Sea of Galilee," and how upon seeing the two brothers, Peter and Andrew, fishing, He called to them saying "Follow Me and I will make you fishers of men," "and they straightway left their nets and followed Him." The instant obedience of the fishermen was the point emphasized in the lesson, after which the appropriate hymn, "Fishers of Men" was sung.

A short business session included the announcement of the second Fall Rally of the Y.W.A.'s and Circles of Peterborough Presbyterial, which will be held in George Street United Church, on Monday evening, September 28. The reception of the balance of donations for the supply committee made a fine bale ready for headquarters. Membership fees and envelopes were also received. Nearly thirty members responded to the roll call.

A letter to Miss Jean Gillespie, missionary to Japan, was signed by all the members present and sent upon its way. The X.L. girls had chosen Miss Gillespie and her work as their special object of prayer this year, and after the reading of the letter, three of the girls, Jean Hammond, Muriel Moorhouse and Marjorie Hogan led in a short service of prayer.

"Good-bye Summer" was sung to remind the girls that vacation was left behind and that real business must begin now for a successful conclusion of 1931.

In a comprehensive though brief synopsis, Mrs. W. S. Sloan of St. James' W.M.S., gave from the Study Book the chapter on "Current Thought and Christian Schools" in Japan, dealing particularly with the influence of the West on Japanese thought.

Following along the same thought was the reading on "Sunday Schools in Japan," contributed by Nina Andrus.

As an incentive to whole-hearted co-operation the girls of the Circle joined in the chorus of a revised edition of "The More We Get Together."

Also much enjoyed was the piano solo rendered by Aileen Rose. The closing devotional exercises consisted of a hymn, and the Benediction pronounced by the pastor, Rev. A. E. Moorhouse.

A delightful social time followed when the committee in charge, Mrs. Moorehouse and the Misses Muriel Moorhouse, Florence Cripps, Dorothy Drysdale and Zoe McDonald served delicious refreshments.

Refusing Baronetcy Leads To Divorce

WATERLOO, Iowa, Sept. 23. (CP) Richard Wolseley, who preferred to run an elevator here rather than return to England to claim a baronetcy has been divorced from the woman who cared for his mother until her death.

Judge G. W. Wood granted the decree from Lady Wolseley, the former Miss Marian Elizabeth Baker of Devonshire, England.

Wolseley testified his wife harassed him in letters and cablegrams with the result that, he said his health was seriously impaired.

Fliers Aboard Ship Pass Rescue Scene

S.S. STAVANGERFJORD, at sea (by radio), Sept. 23. (AP) — The Stavangerfjord, with Willy Rody Christian Johanssen and Fernando da Costa Viega, trans-Atlantic airmen, aboard passed the scene of the fliers' rescue to-day but failed to sight their wrecked plane.

The plane was thought to have sunk after the fliers, having clung to the wreckage for seven days were picked up off the Newfoundland coast Monday.

The spot where they were picked up is about thirty miles southeast of the regular steamship lane this season.

The fliers, who were transferred to this vessel yesterday from the motorship Belmoira, which rescued them, were doing well to-day.

Houses Fly Aloft In Montreal Gale

MONTREAL, Sept. 23 — (C P) — Wind of high intensity swept over suburbs of Montreal yesterday, hurling summer residences in the air, uprooting trees, and blowing down light and telephone wires. No one was injured, but property damage amounting to thousands of dollars was caused.

The Town of Cartierville and portions of Bordeaux, Ahuntsic, Sault aux Recollets and Laval des Rapides were plunged into darkness when power lines were blown down along the O'Brien Boulevard, Cartierville. Twenty-eight poles were wehcked along the boulevard.

TOWNSHIP OF NORTH MONAGHAN.

NOTICE IS HEREBY GIVEN, That at a Meeting of the Council of the Township of North Monaghan to be held at the Court House, in the City of Peterborough, on MONDAY, the 19th Day of October, 1931, at 2.30 p.m., a By-Law will be taken under consideration and passed for Stopping Up and Leasing to the Brinton-Peterborough Carpet Company, Limited of that part of Braidwood Avenue, in said Township, particularly described as being all that part of Braidwood Avenue lying East of a line drawn from South to North at right angles to Southern limit of said Avenue from a point thirty-five feet Westerly from the North-East angle of Lot Number Fifty-Eight on registered plan Sixty for said Township.

DATED 8th September, 1931.

BRUCE JOHNSTON,
Township Clerk.

IN THE SURROGATE COURT OF THE COUNTY OF PETERBOROUGH.

IN THE MATTER OF THE ESTATE OF DAVID NELSON KING, Late of the City of Peterborough, in the County of Peterborough, Hotel Proprietor, Deceased.

NOTICE IS HEREBY GIVEN, Pursuant to R.S.O. 1927, Chapter 96, that all Creditors and others having Claims against the Estate of the said DAVID NELSON KING, Deceased, who died on or about the 23rd Day of June, A.D. 1931, are required to deliver or send by post prepaid, on or before the 20th Day of October, A.D. 1931, to the undersigned Solicitor for the Executors of the said Estate, their names and addresses and full descriptions and particulars in writing of their Claims and Statement of their Accounts and the nature of the Securities (if any) held by them duly verified by statutory declaration.

AND TAKE NOTICE, That after the said 20th Day of October, A.D. 1931, the Executors will proceed to distribute the assest of the Estate amongst the parties entitled thereto, having regard only to the claims of which they shall then have had notice and the said Executors will not be liable for the said Assets, or any part thereof to any person or persons of whose claims notice shall not have been received by them at the time of such distribution

Dated this 16th Day of September, A.D. 1931.

TARZAN AND THE JEWELS OF OPAR NO. 87

By Edgar Rice Burroughs

(Metropolitan Newspaper Service)

87

"I, Mohammed Beyd, am your only hope." And with this assertion to provide the captive with food for thought, the Arab spurred forward toward the head of the column. Jane Clayton could not know how much of the fellow's words were true; but it had the effect of dampening her hopes. It caused her to review with suspicion every past act of the man upon whom she had been looking as her sole protector in the midst of a world of enemies and dangers.... At night her separate tent was pitched between those of Mohammed Beyd and Werper.

Two sentries guarded her tent and thus it had not been deemed necessary to confine her in bonds. To-night she sat quietly before it watching the rough activities of the camp. She had eaten the nondescript meal a slave had brought. The girl's gaze wandered across the trampled jungle clearing but she no longer saw it. Instead, she visioned a distant bungalow and scenes of happy security which brought to her eyes tears of mingled joy and sorrow, blotting out the quarreling, uncouth men and the squalid surroundings about her.

Copyright, 1931, by Edgar Rice Burroughs, Inc. All rights reserved.

She saw a tall, broad-shouldered man riding in from distant fields, she saw herself waiting to greet him with an armful of fresh-cut roses from the bushes that flanked the little rustic gate before her. All this she knew was gone, wiped out by the torches and bullets and hatred of these hideous and degenerate men. With a stifled sob she turned back into the tent and throwing herself upon her cot sobbed forth her misery until kindly sleep brought her relief.

While she slept a figure stole from the tent that stood to the right of hers. It approached the sentry before the doorway and whispered a few words in the man's ears. The latter nodded and strode off through the darkness in the direction of his own blankets. The figure passed to the rear of Jane Clayton's tent and spoke again to the sentry there and this man also left, following in the trail of the first. Then he who had sent them away stole silently to the tent flap, untied it and entered noiselessly within.

NEILL'S
The Store of Better Values

We would be very glad to get a baby carriage for a family whose household possessions were entirely destroyed by fire some time ago. Please telephone The Examiner.

STREET TEMPORARILY CLOSED.

Aylmer street south of Romaine is closed for re-grading and rolling as part of the general improvement that has already brought the new curbing to Lake street.

CITY POURS CEMENT.

The Board of Works are advancing into the second block of pavement in Ashburnham, and are making satisfactory time in the laying of the concrete base.

PRUDENTIAL MANAGER HERE

C. G Lanning, divisional manager of the Canadian division of the Prudential Life Insurance Association, whose territory extends from Halifax to Vancouver, is visiting John I. Allen, superintendent of this district, during the present week.

TWIN CUCUMBERS

Now is the time when the amateur gardener reaps strange agricultural freaks. One of the latest is this class is "Siamese" twin cucumbers grown in the garden of A. G. Melrose, 239 Westcott street. Both cucumbers are perfectly formed, but are joined together at the top.

CHAIRMAN OF CONCERT

Wm. McLaren, 534 Chamberlen street, was chairman of a concert on the Cunarder "Ascania" on his trip to England where he is spending a month renewing old memories and acquaintances and visiting friends and relatives. He also did a Harry Lauder imitation as his contribution to the program. The concert was in aid of the Seamen's Charities Fund. Mr. McLaren is a local representative of the Prudential Life Association.

SECOND RASPBERRY HARVEST

The second harvest is now being picked from more than one raspberry garden in this locality. The raspberries are not as plentiful on the bushes as in July and the berries are smaller, but seem sweeter to the taste. This is not the first autumn that berry bushes have borne fruit twice, warm September days usually being followed by a small second crop.

Peace River Railroad May Be Completed

VANCOUVER, B. C., Sept. 23. — Completion of the Provincial Government owned Pacific Great Eastern Railway from its present terminus at Quesnel to Finlay Forks, approximately 210 miles north to the Peace River block, and the employment relief measure, was presaged in a statement given out here last night by Premier S. L. Tolmie of British Columbia, and followed a conference by Premier Tolmie, Hon. R. W. Bruhn, Minister of Public Works; Hon. Y. W. Jones, Minister of Finance and Hon Gideon Robertson, Federal Minister of Labor.

ANCIENT VALUE OF THE BEAVER IS AFFIRMED

Sacred Legends of the Redman Affirm Ancient Value.

VERSION OF CREATION.

It is the birthright of every Canadian to know more than a little about the life and habits of that busy, natural engineer, the beaver. The mystery that surrounds the early history of this interesting and industrious rodent is largely connected with mythology and folklore as understood by the Red Indian of North America.

He it is who has given us chronicals and mythological suppositions of the origin and qualifications of this comparatively small animal who has it in his power to fell giant trees, dam up flowing rivers and construct places of abode for himself, the symmetry of the architecture being one of the wonders of all ages.

Indian Legends.

Legends of the beaver, as related by Indians and Eskimoes, give to the beaver gigantic proportions and ability to perform herculean work. In the Algonquin legends of New England the giant beaver is cited as having created noises very like thunder with the clapping of his tail as he performed his architecturor engineering feats. The Micmac Indians recognized the site of a beaver dam which once flooded the Annapolis valley, and hearsay has it that the bones of the beavers who built this dam may still be found thereabout, the teeth measuring six inches across. The Indians believed that the supernatural beaver abounded in the vicinity of Lake Superior, but scientists do not agree with this supposition. There are traces of a larger animal in fossils that have been discovered, the origin of which is largely connected with the beaver, and undoubtedly enough has been determined scientifically to ally that animal with the beaver.

For over two centuries the hunting of beaver in America has yielded fortunes to the fur traders and those who control the traffic. It is only natural that Canada should be called the home of the beaver because of the enormous number of beavers found in the rivers and marshy places, but Canada was not the only home of the beaver as records show, because the beaver was found in Europe, the greater part of Asia, and in northern Africa.

A Pretty Tale.

It was a pretty tale the Red Indian conceived when he reasoned that in the beginning the world was covered with water and the great Manitou peopled the watery world with the beaver, the musquash and the otter. They were placed there for an express purpose; to prepare the world for the introduction of man. These animals had much to do, and therefore they were endowed, according to Indian mythology, with gifts of speech, and it is said that they used their gifts of speech even as sinful man does to-day, and very often Manitou became vexed and he caused the evil-doer to be slain.

In order to carry out their prodigious task these animals were credited with gigantic size. Manitou made the earth, it is said, out of a quantity of mud brought to the surface by diving beavers. With reference to the gift of speech accorded these mythological beasts it is interesting to note that the beaver in its natural state chatters excitedly and incessantly with his fellow workers as he carries on the business of hewing trees and preparing dams.

Following the death of the departed animals the Indian weaves a beautiful story and the departed animal spirit is supposed to return to earth in the form of a man. Some of the Algonquin tribes claim descent from the great original beaver.

Quaint Indian Tradition.

The good spirit Manitou, according to Indian tradition, was good to humans, and in order to make him chief among all living things, "Smoothed with his hand the giaknt beasts, making them gradually smaller." Although man was chief among the living things, he as well as the animals, was accountable to Manitou, and animals who had departed for the happy hunting grounds had power to control the fate of man. Records show that the hunters before starting on the chase almost always included a promise of reverence to be paid to his victims. For example, the luckless hunter who in any way dishonored the bones of the slain beaver, suffered in his future achievements in the hunting field because of having displeased the spirits. He paid the penalty for his disrespect, the beavers at once became wary, and he laid his traps in vain.

The commercial value of the Canadian beaver was of primary importance in Canadian history. Canada existed almost entirely at times on her collection of beavers and strange as it may seem, when the time came to design a national coat of arms the beaver and all it represented was overlooked. It was not until later in the history of Canada that it was shown together with the maple leaf, on the Canadian coat of arms, as a national item of interest.

Weddings

GRAHAM—GOLLOHER.

The wedding was solemnized by the Rev. Dr. A. I. Brown on Monday of Joseph A. Graham and Miss Mary Jane Golloher, both of Norwood.

Chemong Bridge

The Editor The Examiner,
Peterborough, Ont.

Dear Sir: A short time since you published two open letters addressed to me by the Honourable Mr. Gordon in respect of this matter.

I duly replied to Mr. Gordon's letters through the mail and also addressed a letter to the Warden of the County on the same subject.

I notice that the matter is now being taken up also by Mr. Duffus and the Reeve of Ennismore and in view of the interest being shown I would be obliged if you would give publicity to my reply to Mr. Gordon's second letter and also to my letter to the Warden. These deal with the procedure to be followed to bring the matter to the Government's attention.

Copies of the letters referred to are enclosed.

Yours truly,
E. A. Peck.

Hon. G. N. Gordon, K.C.,
Peterborough, Ont.

Dear Mr. Gordon: I duly received yours of the 11th instant.

I think the application for the carrying out of the proposed work is a municipal one and should be made to the Provincial Government by the County of Peterborough, in co-operation, of course, with the Townships interested and all parties desirous of assisting.

I had an opportunity of discussing the matter, on Saturday, with the Warden and also some of the members of the County Council and am placing your letters to me of the 8th and 11th in the hands of the Warden and I understand he is going to call a special meeting of the County at an early date to deal with the matter.

I am not prepared to accept your modest statement that any efforts on your part would not have much weight with either Government and am glad to accept your offer of support in the effort to obtain a grant for this purpose.

Yours truly,
E. A. Peck.

Mr. Chas. S. Tanner, Warden,
Lakefield Ont.

Dear Mr. Tanner: With further reference to my conversation with you on Saturday regarding application for construction of permanent road-way across Chemong Lake I am taking the liberty of enclosing Mr. Gordon's two letters to me on the subject and I presume the matter will receive the early attention of the County Council, as my view is that the application in the first place should come from the County the bridge, in question, being a county bridge.

Yours truly,
E. A. Peck.

BALDWIN HOLDS REINS OF GOV'T

Press Sees in Premier's Rest Preparation for Early Election.

LABOR WATCHING, READY

LONDON, Sept. 23 (A.P.)—Rt. Hon. Stanley Baldwin, Leader of the Conservative Party, was at the helm of the British Government for the first time since 1929 to-day.

As Lord President of the Council, Mr. Baldwin became Acting Prime Minister yesterday, when Ramsay MacDonald left for a secret destination in the country to recuperate from the strain of keeping the pound sterling afloat on the world's money markets.

Mr. MacDonald's friends and associates were not alarmed over his condition, and felt that a few days of golf and rest would restore him to tip-top shape as they have on previous occasions, when overwork dictated temporary retirement from official cares. He himself is understood to be puzzled by the ups and downs of his physical condition.

The Daily Express quoted him as having told a colleague recently that on his customary early morning walks he often meets those who tell him how pale and haggard he is, and other who congratulate him on looking so well.

"A Shifty Lot"

"The first fellow telephones his friends that I seem at death's door," the Prime Minister was quoted, "while the other spreads the news that I am as fit as a fiddle, and they are both right. It only shows what a shifty lot we politicians are."

Some newspapers professed to see in his departure a connection with the growing movement for an early appeal to the electorate on a Protective tariff issue. The Herald, Labor organ, for instance, said he was being offered a bewildering variety of advice and was slipping away to take counsel with himself on a decision.

Other newspapers wrote of the election as an assured fact, and claimed to be able even to set the date. They reiterated that Mr. MacDonald was willing to go to the people with a tariff policy on which it was said he was sure of the support of the Conservatives and half of the Liberals headed by Sir John Simon.

David Lloyd George, Liberal leader, was understood, however, to be hostile to an election and was said to have prepared a scathing manifesto against it if it becomes an issue. The Labor faction was considered to be watching the turn of events and was ready for eventualities.

TROOPS KILL 4 IN MOB.

SRINAGAR, India, September 23 (C.P.). — Four Moslems were killed and six were wounded to-day when troops fired on a rioting mob. The Government forces also suffered some casualties before order was restored.

Butler Commands His Final Charge

QUANTICO, Va., Sept. 23.—As a spectator at the last charge he will command, Major General Smedley D. Butler to-day came to the end of his official duties with the marines.

It was his farewell party, so he was designated to sit on the sidelines as 2,000 men and officers whom he has led s aged a spectacular attack on the marine corps base here.

Their charge, reminiscent of many he has led in foreign lands, marked the end of Butler's 33 years of colorful service as a soldier of the sea. One week from to-morrow he becomes a civilian for the first time since he was a boy, but his duties ended to-day

Centreton

Mr. and Mrs. J. R. Brewster were visitors to Cobourg on Wednesday.

The Thanksgiving Harvest Home service will be held in St. John's Church at Centreton on September 27, at 3 p.m. when special music will be given.

Mr. and Mrs. O. G. Johns, of Cobourg, were recent guests of Mr. and Mrs. J. R. Brewster

Mrs. F. Harden, Mrs. E Lonsberry and Mr. A. Webb, of Cobourg, called on Mrs. M. McAuley on Friday evening.

Mr. and Mrs. Johnson McKenzie and family were visitors to Cobourg on Saturday.

Mr. James Baxter was the recent guest at the home of Mr. and Mrs. John Baxter.

Rally Day services are being held in Centreton United Church on Sunday, September 27, at 10:30 a.m.

M. W. Etchor, of Cobourg, spent Sunday with his parents Mr. and Mrs. F. Etchor.

Miss Edith Webb of Grafton, was the guest of her sister, Mrs. H. McAuley, on Sunday.

Mr. and Mrs. F. Etchor, Miss M. Fleming and Mr. William Etchor of Cobourg, called on Mr. James Baxter and family, on Sunday.

Mr. W. Wilton, of Grafton, was a visitor to the village on Sunday.

Mr. F. Trip called on Mr. James Baxter on Sunday.

Mr. and Mrs. William Score returned home on Sunday after visiting relatives in Toronto and Cobourg.

Misses M. Lockhart and R. Richardson called on Mrs. H McAuley on Thursday night.

Rev. M. F. and Mrs. Hawley are visiting friends in Toronto.

Among those who attended the funeral of the late Clarence Brisbin of Fenella on Friday were Mr. F. Wolfraim and Miss Maud Wolfraim, Mr. and Mrs. R. Curtis and son Bruce, Mrs. Johnson McKenzie and Miss Mabel McKenzie.

Mr. and Mrs. A. Wolfraim, Mr. Jack Throop and Miss Eleanor Wolfraim, of Castleton, were guests of Mr. F. Wolfraim, on Sunday.

Born—To Mr. and Mrs Stanley Etchor of Cobourg, on Monday, a son.

Madoc

Miss Helen Ludbrook, who recently left Madoc for Peterborough, has been fortunate in having secured a position on the staff of teachers at the Peterborough Conservatory of Music.

Two rinks of bowlers from Madoc attended the Scotch Doubles Tournament in Stirling on Wednesday afternoon. The rink composed of H. Kellar and P. Gunn won two games and lost two. The other rink, Dr. Wyper and J. A. Watson, won three games and in the finals which gave them second prize which were silver pitchers. The first prize which were tea services were won by a Norwood rink.

Friday evening's jitney tournament on the Madoc greens was, as usual, well attended. The prizes were won by Mrs. H. Kellar and Mrs. S. S. Ashley.

Miss Rita Gillen, daughter of Mrs. Denis Gillen, who was recently operated on in Belleville General Hospital for appendicitis, is reported to be progressing favorably.

Miss Margaret E. Walsh of Madoc High School won the highest total in Middle School Examinations, with nine subjects written and all passed, eight with honors. She is this year's winner of the J. R Cooke Scholarship of fifty dollars.

Mr. Percy Nayler had the misfortune to have his collar-bone broken during a game of box lacrosse at the rink in Madoc. He was attended by Dr. Eagleson.

The Young People's Society of Trinity United Church held their opening meeting for the fall and winter on Monday last, with Rev Captain R. C. Scott of the Marine Mission or the B.C. coast as the guest speaker.

BORN

DINSDALE.—On Tuesday, Sept. 22, 1931, at Kingston General Hospital, to Mr and Mrs H. H. Dinsdale, 354 Park Street North, Peterborough, a son.

IN MEMORIAM

PARRINGTON.—In loving memory of John B. Parrington, who died Sept. 23, 1930.

Deep in our hearts is a picture
Worth more than silver or gold
It's a picture of our dear Father
Whose memory never grows old
—Ever remembrd by his loving Wife and Family.

HOME EDITION

VOL. LXVII., No. 71 PETERBOROUGH, ONTARIO, CANADA, THURSDAY, SEPTEMBER 24, 1931 PRICE THREE CENTS

CHIEF POLICE SUGGITT IS ASSESSED $500

CANADA AGAINST HAVING CONTROL OF WEST INDIES

Lord Oliver States Colonies Also Have No Desire for Move.

ANXIOUS TO BOOST TRADE.

Suggested By Rumors of Possible Sale of Islands to U. S. By Britain.

LONDON Sept. 24 (C.P. Cable)—While the British West Indies are desirous of greatly increasing their trade with Canada; none of the principal units are desirous of being "governed" by Canada nor does Canada desire to "govern" them Lord Olivier declared in a reply today to the suggestion of Sir Harry Armstrong ,former British Consul-General at New York, the British West Indies could usefully be placed under the jurisdiction of Canada. Sir Harry's suggestion was prompted by rumors of the possible sale of the West Indies to the United States in liquidation of Britain's debts to the United States.

Advantages Seen

Lord Olivier, who is as well acquainted with the British West Indies, politically and commercially, as is anybody, and who has done a great deal of work on their behalf in Great Britain, says the advantages of closer commercial connection and intercourse between the West Indies and Canada are already warmly appreciated by both, and were provided for in the Canada-West Indies Trade Treaty of 1925.

"Those colonies which unlike Jamaica, are not closely dependent upon the United States market have manifested a desire for increased preferential trade with Canada than the Colonial Office is prepared to permit," Lord Olivier continued.

"None of the West Indian colonies, the principal units of which are showing increasing local vitality and independence, are desirous of being governed by Canada nor does Canada desire to govern them. They could not with advantage and convenience be incorporated in the Canadian Constitution as a Province. So far as they advance towards combination or federation their trend is towards the constitution of a West Indian Dominion. Sir Harry over-estimated the administrative savings possible by further constitutional simplifications."

JOBS FOR ALL IS OBJECTIVE SET

Alderman McNabb is Planning "Every Man a Job" Week" in October.

CO-OPERATION NEEDED.

Alderman McNabb told The Examiner this morning that he is arranging for a meeting of representatives of the local service clubs for the purpose of organizing a community effort to get jobs for unemployed men.

The Rotary, Kiwanis and Kinsmen Clubs and the Chamber of Commerce will be asked to appoint deputies to co-operate with the City Council in this undetraking which Ald. McNabb believes can be made a real success if the citizens generally will give it their full sympathy and aid.

Although the discussion of details has not yet been approached, it is expected that an appeal to the citizens to examine their premises and to have necessary work done now, such as the cleaning of lawns and gardens, removing leaves and other accumulation from eave troughs, painting, shingling, and so on. Many a chimney needs repair, and other people have rooms that are still without hardwood floors which their owners can afford.

By having a central office where such work could be listed, possibly as a result of a complete house-to-house canvas, it is believed that a great deal of work could be provided [illegible] the remaining weeks before [illegible]old weather sets in.

Trainmen Take Cut In Miles Per Month

BELLEVILLE, Sept. 24—Trainmen with years of service, who have been laid off through decrease of freight handling and curtailment of passenger service, will be brought back into service through the action of their fellow-employees in taking a cut in miles. The mileage for trainmen has been 4,300 miles for a 30-day period, and this has been reduced to 3,500. This new order will effect a number of trainmen at this terminal.

Nautilus Fit Only For Shipbreakers

OSLO, Norway, Sept. 24 (AP) Professor Harold U. Sverdrup, a member of the Wilkins expedition into Arctic waters, said today it would be impossible for the submarine Nautilus to return to America under her own power.

Commenting on orders from Washington that Sir Hubert should deliver the submarine to an Atlantic seaboard port, he said he considered she was fit only to be sunk or sent to shipbreakers.

Asked about the cruise under Polar ice, Prof. Sverdrup said: "Though I am bound to silence I may safely say the trip was awful."

NEW PRIMATE IS INSTALLED AT ST. PAUL'S

Most Rev. A. U. De Pencier Officiates as Celebrant of Holy Communion.

NO SERMON.

Bishops of Ottawa and Montreal Act as Masters of Ceremony.

TORONTO, Ont., September 24 (C.P.). — Most Rev. Clare L. Worrell, Archbishop of Nova Scotia, was installed as Primate of All Canada, in a service conducted in St. Paul's Church here to-day.

There was no sermon. His Grace Most Rev. A. U. DePencier, Archbishop of New Westminster, officiated as celebrant of the Holy Communion. He was assisted by the Archbishop of Rupert's Land Most Rev. I. O. Stringer. The Bishop of Toronto read the epistle.

The installation of the new Primate followed the recitation of the Nicene Creed. Right Rev. D. T. Owen, Bishop of Niagara, read the certificate of election, which was presented to the Primate-elect by the presiding Archbishop.

The Bishops of Ottawa and Montreal acted as Masters of Ceremony in the chancel.

The benediction was pronounced by the newly installed Primate.

YIELD OF WHEAT SHOWS BIG DROP OVER LAST YEAR

Decrease Exclusive of Russia, China Set at 225 Million Bushels.

SMALLER ACREAGE.

France, Germany, Spain Show Biggest Drops—America 100,000,000 Bushels.

OTTAWA, Ont. Sept. 24. (CP)—World wheat production in 1931 exclusive of Russia and China, is estimated to be 225 million bushels less than in 1930, according to a statement issued by the Dominion Bureau of Statistics to-day. To the foregoing amount will have to be added any deficiency in the 1931 Russian crop as compared to production in 1930. It is generally recognized that Soviet production this year is less than in 1930.

The decline in world wheat production in 1931 is due to smaller spring wheat crops in North America, drastic reductions in early estimates of the European crop, an estimated decrease of 57 million bushels in the Indian wheat crop and reduced prospects from the Argentine and Australia as a result of major reductions in acreage.

The largest reductions in estimated yields have taken place in France, Germany, Spain and Czechoslovakia.

North American wheat production is currently estimated at about 100 million bushels under last year as a result of light spring wheat production in Canada and the United States Asiatic production is reduced by the large decrease in 1931 wheat production in India, officially estimated as 347 million bushels compared to 390 million bushels in 1930. While it is too early to estimate southern hemisphere crops, on the basis of average yields per acre total out-turn should be about 80 million bushels less than in 1930 on account of greatly reduced acreages in the Argentine and Australia.

LINER ON INITIAL VOYAGE

BORDEAUX, France Sept. 24—(AP)—The 40,000-ton liner Atlantique, designed for service on the South Atlantic by the French Line to-day completed a trial trip from Havre with 300 guests, including several South American diplomats. It will leave on its first voyage to Latin America Sunday.

Is Found Careless And Negligent In Handling of Rifle

Judgment is Delivered in the Case of Garnet Drain Vs. James Suggitt, Chief of Police of Etobicoke Township, York County—Gets Full Claim.

CASE AROSE OUT OF HUNTING ACCIDENT IN BURLEIGH TOWNSHIP LATE LAST FALL

Finding that James Suggitt, chief of police of Etobicoke Township, County of York, was careless and negligent in the handling of his rifle when he accidentally shot Garnet Drain, 17-year-old son of W. F. Drain, Burleigh Township, Judge L. V. O'Connor gave judgment for the boy of $500, the full amount of a claim tried in the County Court here.

The shooting accident occurred on November 6 last in Burleigh township during the deer hunting season. Suggitt and a party of four other York County residents had young Drain as guide, and it was while they were out on the deer trail that the shooting took place.

Much Evidence of Drinking

Evidence of W. F. Drain and other residents of Burleigh was to the effect that the Toronto party was continually drinking and the accident was the result of Suggitt's condition following a lengthy drinking bout. Judge O'Connor states in his judgment, "There was considerable evidence given to the effect that the defendant and his party had been drinking the night before the accident in question, and that the defendant had also been drinking on the morning of the accident. The defendant and his witnesses deny that the defendant had been drinking. I do not feel that it is necessary to deal with that feature of the case."

Drain testified that Suggitt had been using his rifle on the trail as though it were a walking stick. Judge O'Connor found that Suggitt must have been carrying the gun at the full cocks and laying the rifle down it slipped. The only excuse offered by Suggitt for allowing the rifle to slip from his hands were that his fingers were cold.

Evidence was also submitted that Suggitt had promised the injured boy that he would pay all medical bills and make up a purse for him. Suggitt denied this. The Judge finds that "the great preponderance of evidence clearly establishes that the defendant did make such a proposition."

The action was tried on April 20, J. A. O'Brien being solicitor for the Drains and W. F. Huycke acting for Suggitt.

See Drastic Action For White Star Line

LONDON, Sept. 24 (A.P.)—Sir Walter Runciman, presiding to-day at a meeting of directors of the White Star Line, told his associates that drastic measures must be taken in the shipping company is to continue to operate.

"It must be obvious," he said, "that the company cannot continue operations unless something drastic is done, for it is losing money all the time. What steps we will take I am unable to say at the moment, but strenuous efforts are being made to protect the good will of the line."

The company's accounts for the year show a debit balance of $167,000.

Mystery Surrounds Crowland Stabbing

WELLAND, Ont., Sept. 24.—Luther Merritt, Wright street, Crowland, was stabbed in the right side of the chest last night under what are described by Crowland police as mysterious circumstances. The wound is a flesh one and not believed serious. According to Merritt's narrative, as given to Police Chief Daniel T. Boyd, Merritt was walking across a field on a visit to a friend when an unknown man, apparently a foreigner, attacked him with a jack knife. Merritt said he knocked the man down.

Earl Of Clarendon Ill With Malaria

PRETORIA, South Africa, September 24 (C.P. Cable via Reuters)—Both the Earl of Clarendon Governor-General of South Africa, and Lady Clarendon are suffering from malarial fever.

The Earl and Lady Clarendon recently returned from a shooting trip in Swaziland, and before much time had elapsed were forced to take to their beds.

The Earl of Clarendon is well known in Canada. He had some years of experience as a fruit farmer in Ontario, and this was probably responsible for his appointment to the Overseas Settlement Committee some years ago.

LAST YEAR'S LEADERS IN SEMI-FINALS

Enid Wilson and Mrs. Glenna Collett Vare Advance in U. S. Tourney.

FOR WOMEN'S OPEN TITLE.

Maureen Orcutt-Virginia Van Wie Match is Feature of Day's Play.

BUFFALO COUNTRY CLUB, Williamsville, N.Y., Sept. 24. (CP)—Finalists in last year's title event the British champion, and the New York state title holder advanced to the semi-final round in the National women's golf championship to-day.

Enid Wilson, British titleholder, conquered Marjorie Kerr also of Great Britain 4 and 3; Mrs. Glenna Collett Vare, of Philadelphia, the champion, defeated Mrs. Leo Federman of New York City 5 and 4; Virginia Van Wie of Chicago, last year's runner-up subdued Maureen Orcutt, of Englewood, N.J. 2 and 1; and Helen Hicks of Hewlett, L.I., won over Mrs. Leona Pressler of San Gabriel, Cal., 1929 finalist by a score of 4 and Miss Wilson scored an easy victory over her countrywoman and travelling companion Miss Wilson stood four up at the turn and contended herself with keeping Miss Kerr at that distance for the rest of the way.

The Orcutt-Van Wie match was the feature of the day's play. Both were out in 41, women's par for the first nine holes, to be all even. Miss Van Wie won the 12th and 17th holes to capture the match, the other holes on the inward route being halved as the result of remarkable approaching and putting.

Mrs. Vare had no trouble in disposing of Mrs. Federman who trailed by six holes at the turn. Mrs. Vare was out in 39, two under par.

Miss Hicks who was put in 40, also had a margin of four holes on her opponent, Mrs. Pressler, as the half way mark. The hard hitting Long Island girl took things easy after that and was never in danger.

BANDITS GIVEN 12 YEAR TERMS

Lash Added for Pair Who Stole Lithographing Company Payroll.

TWO REMANDED.

TORONTO, Ont., Sept. 24 (C.P.). — Leo Halsall and Lindsy Weeks, convicted on a charge of having held up and robbed E. D. Grant of the $2,500 payroll of the Harris Lithographing Co., on June 12 last, were to-day sentenced to twelve years in Portsmouth Penitentiary and ten strokes of the lash, by Magistrate Browne in Police Court.

George McIntosh and Frank Sheehan, arrested on the same charge, were remanded for sentence. Sheehan surrendered to the police this morning.

Kingston Resident 105 Years To-day

KINGSTON, Ont., Sept. 24.—Kingston's oldest resident, J. W. Martin, to-day celebrated his 105th birthday. Despite his advanced age, Mr. Martin is in full possession of his faculties, and to-day as able to receive the congratulations of many friends.

LABORITES ARE SURE ELECTION IS NOT FAR OFF

Party to be Asked to Make Gov't Bank Control Spearhead of Platform.

EASY VICTORY FORESEEN.

Half Liberals Assure Premier of Support on Any Course Taken.

LONDON, September 24 (C.P. Cable). — The Labor Opposition organ, The Daily Herald, assumed to-day an early general election was virtually certain. The conference of the Labor Party next month would be asked to make Government control of banks and finance the spearhead of their election policy, and hostility towards a protective tariff one of the main plans in the Labor platform, The Daily Herald said.

Referring to the strong movement among Conservative "backbench" members of Parliament for an immediate election in which the National Government would go to the people on a program of national reconstruction including tariffs, The Daily Herald denounced the Conservatives for "driving Prime Minister MacDonald into a humiliating position of subserviently leading them in a tariff election." The Daily Herald referred to the Prime Minister as the "prisoner Premier of the Tories."

Labor would sweep the country in the event of an election, The Daily Herald claimed. At the same time private Conservative members of Parliament claim the National Government would obtain an overwhelming majority, the estimates going so far as to give it 400 out of the 615 seats.

Liberals Divided

The Liberals appear to be sadly divided on the question of an early election. About half the Liberal members of the House have assured Prime Minister Macdonald of their support in any steps he may consider desirable. Rt. Hon. David Lloyd George was understood to be annoyed at this section. The other wing of the party—the free trade wing—is opposed to an election on tariffs, so the general discussions of the possibility of such an election took it for granted a preliminary step would be reconstitution of the cabinet and probably the replacement of Sir Herbert Samuel, Liberal free trader, by Sir John Simon, Liberal who will agree to tariffs in an emergency, in the home office.

In the lobbies of the House today discussion turned to conditional arrangements whereby Parliament would adjourn within a fortnight and not reconvene until February. Such a program of course would be killed by the adoption of Conservative pleas for dissolution about Oct. 5 or 6 and an immediate general election.

The Conservatives who press for an election on tariffs believe the confidence shown at the reopening of the London stock market is the greatest support for their argument. They are also able to point to the decisions of the London and Manchester chambers of commerce in favor of protective tariffs in the emergency.

HIGHWAY BRAWL ENDS IN ARRESTS

Frenchy Belanger and Companion Found on Scene—Victim Disappears.

GARAGE MAN ATTACKED.

TORONTO, Ont., September 24 (C.P.). — Following an early morning brawl opposite a barbecue on the Dundas Highway to-day in which one man was beaten by two others, county police held two men, one of whom is Albert "Frenchy" Belanger, former flyweight champion of the world, and until recently Canadian flyweight champion.

Just as the barbecue was about to close for the night, two men, alleged to have been intoxicated, set upon a third and beat him. The cries of the victim drew the attention of a nearby garage attendant and his wife, who were also attacked by the two men. The pair, however, eluded the two and managed to lock themselves in the garage while a call was put in for the police.

When the police arrived the man in the ditch had disappeared and Belanger and his companion whose name was withheld, were taken to the police station for questioning.

$15,000 Damage Case Settled Out Of Court

Settlement out of court has been reached, it is learned, in an action for $15,000 damages and costs which was launched in the Supreme Court of Ontario by Laetitia M. Roxburgh, executrix of the last will and testament of John E. Roxburgh, late of the village of Norwood against Samuel Buck and Wilfred Buck.

The action arose as a result of an automobile accident in which John E. Roxburgh was fatally injured on December 15, 1930. The car was driven by Wilfred Buck and was owned by Samuel Buck and was Peck, Kerr and McElderry were solicitors for the plaintiff and Gordon and Elliott solicitors for the defendants.

SCENE QUIETENS IN MANCHURIA

Situation Turns to Diplomatic Stage With Promise of Long Dispute

JAPAN WOULD ACT ALONE.

(By Glenn Babb)

SHANGHAI, Sept. 24 (A.P.)—The military phase of the dispute between China and Japan in Manchuria apparently was drawing toward an end to-day and yielding the limelight to the diplomatic stage, which promises a long and bitter argument.

Japan apparently was girded to defend her position that the issue is purely a Sino-Japanese affair, not permitting of intervention by other powers.

China, however, continued her efforts to rally the Occidental powers behind her cause. Replying to the proposal of the Council of the League of Nations that both countries withdraw their troops from the area of conflict in Manchuria, the Nanking Government expressed the hope that the League would proceed further in seeking a "just settlement."

The news of United States Secretary of State Henry L. Stimson's appeal to China and Japan was received joyfully in the Chinese capital, where it was interpreted as placing the onus upon Japan.

Nanking rebuffed Japan's efforts to open direct negotiations for settlement of the controversy, China taking the stand that since her case had been laid before the League and bar of world opinion she would await the verdict.

Japan States Case

TOKYO, Sept. 24 (A.P.) — The Japanese Government issued a statement to-night explaining to the world its position in Manchuria and emphasizing that Japan entertained absolutely no territorial ambitions in Manchuria. This position, said the Government, it had often stated previously.

Still Seizing Books Of Picture Companies

TORONTO, Ont., Sept. 24 (C.P.)—Provincial and City Police to-day continued to seize papers and documents of moving picture companies for the purpose of obtaining evidence for the prosecution of the alleged film combine. Three more offices were visited this morning and truckloads of material carried away.

More than a carload of evidence including papers of many kinds were taken in yesterday's raids, and one of the problems facing authorities is to find accommodation for the mass of material seized. It will take a large staff of clerks to go through the matter pending the prosecution of the principals in the combine alleged by Peter White, K.C., to be in existence.

Market Closing On All Exchanges

STANDARD TRADING.

TORONTO, Ont., Sept. 24 — (C.P.)— Entirely at the mercy of a fickle Wall street market inter-listed stocks included in the limited free trading moved irregularly to a lower close on the Standard Stock and Mining Exchange market to-day. Due to large blocks of shares overhanging the market the minimum price restriction remained in force for the balance of the list, with closing prices unchanged from last night. Rate of turnover was below that of yesterday.

Oils were the only group to display buoyancy, Imperial, International Pete and B. A. Oil finishing steady to slightly higher. Higher-priced gold stocks were under pressure with few bids in the market for the restricted issues. McIntyre dipped $1.50 to below $18. Dome reacted below $10 for a loss of 60 and Lake Shore eased a few units to its former minimum. Noranda and Nickel held firm in the forenoon but receded fractionally in late trade.

(Turn to Page 5)

VISCOUNT BYNG TO QUIT OFFICE END OF MONTH

Former Governor-General of Canada Headed Metropolitan Police Since 1928.

ACTIVE PUBLIC CAREER.

Is Given Credit of First Welding Canadian Corps in France.

LONDON, Sept. 24.—(C. P. Cable) —Viscoun Byng of Vimy, former Governor-General of Canada, today definitely announced he would retire from the chief commissionership of the Metropolitan Police at the end of this month.

The retirement will mark the close of Lord Byng's active public career.

Lord Byng is 69 years of age. He has been Commissioner of Metropolitan Police—and head of Scotland Yard since 1928, and during his term of office has effected a fairly sweeping reorganization of London's famous police force.

General Julian Hedworth Byng, first Viscount, was well known to Canadians long before he became Governor-General of the Dominion. To General Byng generally goes the credit of first welding the Canadian corps in France, during the Great War, into the perfectly coordinated fighting machine that was taken over by General Sir Arthur Currie.

Seen Wide Service

After service in the Red Sea, South Africa and Egypt, General Byng, began in the Great War as commander of the 3rd cavalry division, which he took to France. He was commander of the cavalry corps in June, 1915, but two months later was sent to the Dardanelles and became responsible for the Suvla area, from which he skillfully withdrew his IX army corps in the following December. He was almost immediately called back to the western front to take over the XVI. army corps.

In May, 1916, General Byng took command of the Canadian Army Corps, which he commanded for a year. The Dominion troops under his orders distinguished themselves heroically on several occasions, but most notably in their epic capture of Vimy Ridge on April 9, 1917. General Byng commemorated this battle when he chose his title after being elevated to a viscountcy.

In June, 1917, General Byng became commander of the III army and retained the post until the end of hostilities. Towards the end of November he carried out the brilliantly successful surprise attack on the Cambrai front. After the war, in addition to being raised to the peerage, he received a grant of $150,000 from the British Government for his services.

Lord Byng succeeded the Duke of Devonshire as Governor-General of Canada in June, 1921.

PARADES DRAW POLICE ACTION

Demonstrations Over England on Cut in Dole Continue to Spread.

NO ARRESTS NECESSARY.

LONDON, September 24 (C.P. Cable). — Demonstrations by unemployed, and by civil servants who protest against the reductions in the dole and in salaries respectively, continued in various parts of the country yesterday.

Every policeman in Glasgow was called out as 50,000 persons marcheded in protest against the cuts in the unemployment benefits. The municipality's refusal to make further allowances for the winter was also a cause of discontent. The effigy of the local magistrate was burnt, but throughout the demonstration no arrests wee found necessary.

A procession of 6,000 persons who intended to march to the Town Hall in Liverpool was broken up by the police without any violence being shown on either side.

A demonstration by 5,000 unemployed in the famous "hull ring" at Birmingham passed without incident.

HIGH POST FOR HON. W. L. HALL

HALIFAX, N.S., Sept. 24 (CP)—The Halifax Chronicle this morning states that Hon. W. L. Hall, Attorney General of Nova Scotia, will be appointed to the Supreme Court of Nova Scotia. Mr. Hall's name has been mentioned prominently for elevation to the bench to fill the vacancy created when Chief Justice Harris died and Mr. Justice Chisholm succeeded him.

SIX-HOUR DAY FOR RELIEF WORK BEING CONSIDERED BY ALDERMEN

Will Not Be Able to Give Full Work to Every Unemployed Man.

BREAK FOR "KEY" MEN.

Adoption of the six or seven hour day as a means of spreading unemployment relief work more evenly over the list of men who have registered is being considered by several aldermen who intend to propose it at the next meeting of the Board of Works or of the Council.

They desire to deal with nothing but realities, and as mentioned a few days ago one of the hard facts that is now recognized by members of the Council is this, that their hopes of giving continuous employment to every man until the cold weather sets in must be abandoned. Questions of engineering, foremanship, finances, and finally the discovery of work that can be done simply prevent the wholesale operations which some of the aldermen suggested at the last meeting of the Council, and which it was then understood would be carried out.

Industries have adopted the shorter day in these straitened times, and as the present work is entirely devised to meet an emergency, it is thought that the same attitude might be taken in the allotment of the city's work without causing hardship to any of the men who have applied for this employment. One of the aldermen asked The Examiner to mention this contemplated change in method in order that the members of the Council generally would have time to consider it before the next meeting.

Break for "Key" Men.

One of Ald. Tuggey's complaints is that certain men have been continuously employed on the city's work while others have been forced

(Turn to Page 5)

Valentia Farmer Suffers Fire Loss

LINDSAY, Ont., Sept. 24 (Special to Examiner).—Fire last night destroyed the large barn owned by W. A. Perrault, one mile west of Valentia, together with 250 bags of potatoes, some pigs, some baby beef and this year's crop. The loss is partly covered by insurance.

GIRL GIVES LIFE TO SAVE MOTHER

Steps Between Couple as Stepfather Fires Gun Point Blank.

SUICIDE EFFORT FAILS.

DETROIT, Mich., Sept. 24. — A 20-year-old girl who threw herself between her mother and stepfather as they quarreled in their home early today was shot and killed by the stepfather, who then made a futile effort to end his own life.

The girl, Rose Hohagyr, a stenographer in a downtown hotel, was killed instantly by Joseph Resnek, the stepfather, who was arrested as he fled from the house. He fired five shot at himself as he fled, none of the bullets striking him.

Resnek, who said he was estranged from his wife, admitted the shooting. He said he wanted to kill his wife because she drove him from their home.

Mrs. Resnek said she had parted from her husband because he drank heavily.

LEAGUE DEMAND TO CHINA, JAPAN BACKED BY U. S.

Chinese Accept Council's Proposal to Withdraw Both Nation's Troops.

HANKOW STIRRED UP.

Reports of Understanding With Soviet Denied in Japanese Dispatches.

GENEVA, Sept. 24. (AP) — The United States Government's note announcing it would throw its weight behind the movement to restore peace beween Japan and China in Manchuria was received by the council of the League of Nations to-day.

It was interpreted in League quarters as meaning the United States is leaving the door open to possible association with the council or will co-operate in any other procedure to solve the dispute.

The council's committee of delegates from five nations immediately went into private session to consider the situation in the light of United States attitude. The note was delivered by Ambassador Hugh Wilson to the President of the Council, Alejandro Lerroux, of Spain.

A second communication was received from the Chinese Government saying Nanking accepts without reserve the council's proposals to withdraw the troops of both nations from the embattled zone and to do nothing to aggravate matters.

New Developments

SHANGHAI, Sept. 24. (AP)—The military situation in Manchuria was shoved into the background to-day by other developments in the controversy between China and Japan.

An authoritative Japanese spokesman here advised that an official foreign despatch at Peiping said Chinese troops were evacuating Harbin in anticipation of its occupation by Japanese troops had been sent to Manchurian city.

The spokesman further asserted that reports of Russian mobilization in Siberia, recounted in the same Peiping despatch, were unconfirmed rumors. A third point of the Peiping report denied by the spokesman was that a secret understanding existed between Japan and Russia for a division of spoils in Manchuria.

The Peiping despatch also was contrary to action of the Tokyo cabinet in deciding that no Japanese troops would advance farther north than Changchun.

The "Save the Nation From Perishing" association was formed at Hankow by representatives of the Kuomintang, dominant political party of China, the Chamber of Commerce, Labor unions, the Peasants' Guild, and educational associations.

Boycott Japanese

A policy of non-cooperation with Japanese was announced by the association. All Chinese were urged to refuse to deal with Japanese or furnish them the necessities of life.

Japanese authorities took precautions to protect their Hankow community. Four Japanese gunboats were lying in the river harbor and arrangements had been made to concentrate all Japanese residents within the Japanese concession, should such a move prove necessary.

Meanwhile, the Hankow branch of the Kuomintang had started agitation for retrocession of the Hankow Japanese concession, which embraces 41¼ acres and dates from 1866. Anti-Japanese parades were frequent there. Demonstrators shouted the Chinese equivalent for "declare war against Japan."

A boycott of Japanese goods was in operation at Hankow and strikes were developing among Chinese workers in Japanese factories.

Gasoline Explosion Destroys Motor Yacht

TWO ESCAPE FROM BLAZING PLEASURE CRAFT ON LAKE

When a gasoline stove exploded aboard the motor yacht, Playfair, shown here, a mile off Clarkson on Lake Ontario, the craft was swept by fire and sank. Hugh P. MacKechnie, inset, owner of the boat and Harold Laurie, made their escape from the blazing yacht in a small dinghy, from which they were later rescued.

QUIZ SUSPECT IN MURDER CASE

Questioning Last Hours on Man Believed Implicated in Collings' Death.

NO ARRESTS MADE.

NEW YORK, N.Y. Sept. 24 (CP) Timothy Quinn 40, a stevedore was subjected to prolonged questioning to-day in connection with the killing of Benjamin P. Collings, who was bound and thrown from his yacht in Long Island Sound two weeks ago.

District Attorney Alexander G. Blue of Suffolk County said Quinn was not under arrest and would not be detained, although the questioning was continued after the District Attorney made the statement.

Quinn was found at the home of his broher, a Queens' physician, by Long Island city police who said he had been arrested three times on suspicion of murder and had escaped from several insane asylums.

The police said Quinn was thoroughly familiar with the north shore of Long Island and had been seen in the vicinity several times during the last three weeks. They said he was an expert boatman and until recently owned a canoe. He was described as a man of great physical strength. The police took him to Hunter's Point police station and Blue question him there.

Blue has been proceeding on the theory that one of the assailants, described by Mrs. Collings as a middle-aged man, was a lunatic.

Suffolk County authorities were undecided whether they would call Mrs. Collings to testify at the inquest which will be resumed tomorrow. She has signified her willingness to appear if called.

Borden Represents King At Christening

LONDON, Sept 23 (C.P. Cable) —The Court Circular published today, dated last evening, says: "The Right Honorable Sir Robert Borden, representing the King, stood sponsor on behalf of His Majesty at the christening of the infant son of the Earl and Countess of Bessborough, which took place in Ottawa, Canada."

India's present acreage devoted to sugar is the largest in the world.

Kingsford-Smith After New Mark

WYNDHAM, Australia, Sept. 24. (AP) — Wing Commander Charles Kingsford-Smith, conqueror of the Atlantic and the Pacific, left to-day in the aeroplane Southern Cross Jr. in an attempt to lower the flight record between Australian and England.

The record of 8 days, 21 hours and 25 minutes is now held by C. A. Mollison, who smashed C. W. A. Scott's time by more than two days. Kingsford-Smith first set the mark in 1929 at 13 and one half days.

LABOR CHARGES PLEDGES BROKEN

Point to Steel Industry's Agreement With White House on Wages.

TROUBLE BREWING.

WASHINGTON, D.C., Sept. 24 (A.P.)—A charge of bad faith and unsound policy was raised against wage-cutting steel corporations today by organized Labor.

While President Hoover and his advisers remained silent but seriously intent, William Green, President of the American Federation of Labor, took the initiative with a public assertion that the steel industry had broken its two-year old pledge to the White House.

The Labor leader quoted a statement made by Julius Klein, Assistant Secretary of Commerce, that "There will be hell to pay throughout the United States in the event of a general wage reduction." This, Green said, was a logical and sound conclusion.

Outcome Uncertain

All Federal economic experts, however, are not agreed as to the final outcome. From one side have come predictions that the wage reduction will strengthen business, increas employment. In the other camp are expressions of regret and forecasts of a decreased buying power on the eve of a business recovery.

President Hoover himself has indicated his chief concern focuses upon the maintenance of United States living standards, almost certain to be affected by a general wage lowering.

Exactly what was said at the White House was that the President's anxiety to maintain the standard of living has been consistent and is unaltered.

It was to the President's action, in November, 1929, of securing anti-wage-lowering pledges from industrial leaders that Green referred in his charge that the steel industry had violated its given word.

Pacific Relations Parley Postponed

SHANGHAI, Sept. 24.—(A.P.)—The dispute between China and Japan over the latter's occupation of Southern Manchuria causd the indefinite postponement to-day of the fourth biennial conference of the Institute of Pacific Relations, which had planned to convene at Hangchow, near here, October 21.

Institute authorities said they felt the disturbed relations between the two counries would make it impossible for Japanese and Chinese delegates to meet in a friendly spirit

As the postponement was announced, a majority of the delegates from Great Brjtain, Canada and other Dominions as well as from United States already en route to the Orient to attend the meeting.

Hon. George S. Henry To Speak At Napanee

KINGSTON, Sept. 24 (Special to The Examiner)—The Premier of Ontario, Hon. George S. Henry, will be in Napanee on the evening of Sept. 30th, and among the speakers at the reception and banquet to be tendered to Wor. Bro. W. S. Herington, K.C., grand master of the Grand Lodge of Canada in the Province of Ontario, A.F. and A.M., by Union Lodge, No. 9, the mother lodge of the grand master.

U.S. DESTROYERS WILL BE BUILT

Is Willing to Forego Some Cruiser Rights to Aid Disarmament.

HELP FEBRUARY PARLEY.

WASHINGTON, D.C., Sept. 24.—(C.P.).—The United States is ready to forego some of her cruiser rights under the London Treaty to aid world disarmament.

Construction of 11 destroyers on which bids were opened recently, is considered necessary, however, to replace obsolete types and help relieve unemployment.

Secretary of State Henry L. Stimson, indicating acceptance in principle of Italy's proposal now before the League of Nations for a year's naval holiday, specifically excepted the destroyers from any such agreement.

Because of United States interest in disarmament, he said, she was willing to forego some of her cruiser building rights in the belief an arms truce at this time would favor the success of the disarmament conference at Geneva in February.

Stimson made public the statement of Hugh R. Wilson, the United States representative, before the third committee of the League Assembly. It contended the cruiser level of the United States was "considerably below" the London treaty quota.

Failure to increase naval strength for a year, Wilson said, would cause "embarrassment and a dislocation of construction plans."

Transport Truck Is Damaged By Fire

(By Examiner Staff Correspondent)

CAMPBELLFORD, Sept. 24. — Catching fire on the Stirling road near Campbellford yesterday afternoon the two ton truck belonging to the Beattie transport was partially destroyed, the chasis being entirely burned with the driver's seat, despite efforts to save it. Driven by Harry Meiklejohn, who was testing the engine after some repairs, his attention was first called to the fire by a passer-by who saw the flames. Jumping out of the cab, the truck run into the ditch and turned over. It is thought that faulty ignition started the blaze.

H.B. Ship May Spend Winter In Ice Pack

POINT BARROW, Alaska, September 24 (C.P.). — An enforced winter in the Arctic ice pack today faced the Hudson Bay Company's trading steamer Baychimo, held in the ice 40 miles south of here, a message from the vessel said.

Leaving Point Barrow on Tuesday after being endangered for several days by the ice, the steamer proceeded south only ten miles before newly-frozen four-inch ice was met.

A stiff fight through this ice delayed the vessel, the message said, and within a short time the wind changed to the south-west, bringing the large pack ice in to shore.

The Baychimo was one of three vessels to reach this port during the six-weeks-long period when the port is free from ice. Winter conditions are approaching rapidly here.

Fliers After Record Newark, Cuba Return

NEWARK N.J., Sept. 24—Intent upon lowering the record established by Captain Frank M. Hawks for a flight to Havana, Cuba, and return, Captain Ugo V. D'Annunzio and Lou Reicher took off from the Municipal Airport at 2.45 a.m. (Eastern standard time) to-day.

They carried 300 gallons of fuel and hope to make the flight within 10 hours. Captain Hawks' time for the flight which he made July 23 was 14 hours and 31 minutes actual flying time for the round trip.

Captain D'Annunzio is a son of Gabrielle D'Annunzio, Italian poet and aviator.

FIRM TONE IS EVIDENT AT LONDON

Trading Opens This Morning in an Atmosphere of Confidence.

INDUSTRIALS ACTIVE.

Austin Motors is Firm Feature on Strength of Its Dividend Notice.

LONDON, September 24 (C.P.).—With most of the members smiling, trading on the London Stock Exchange opened to-day in an atmosphere of confidence and the market generally was called steady.

A number of buying orders had come in for industrials, oils, rubbers, and gold mining shares, all of which advanced over yesterday. Gilt-edged stocks did not maintain yesterday's close in all cases owing to some selling orders.

Austin Motors was a firm feature on the strength of its dividend announcement. Leading trans-Atlantics in sympathy with Wall Street moved more than a point higher. Hydros were at 14¾. Nickles at 12⅝, Tractions at 14. and Radio at 21.

Following the easing of sterling exchange in New York and other centres yesterday, rates on the exchange market moved against London. New York cables were quoted unofficially at $3.97 to $4.00 against $4.10 yesterday, Paris 100.25 francs as against 104 francs, Brussels 28.50 belgas against 29.30 belgas, and Amsterdam 9.68 guilders against 10.25 guilders.

DROP TO 92 CENTS.

NEW YORK, N.Y., September 24 (C.P.). — The Canadian dollar dropped 2 cents below yesterday's closing quotation on local foreign exchange markets to-day, and was quoted at 92 cents in United States funds.

SINKS BELOW $4.00.

NEW YORK, N.Y., September 24 (C.P.). — The British pound broke through the $4.00 level to $3.90 at the opening of trading in the foreign exchange market to-day. The quotation for cable transfers represented an overnight drop of 21 cents and the lowest at which actual dealings have been transacted since Great Britain suspended gold payments.

OSHAWA PLANT CUTS SALARIES

General Motors Reduces Salaries Ranging From 10 to 15 Per Cent.

COST OF LIVING LOWER.

OSHAWA, Sept. 24—Oshawa executives and office employees of the General Motors of Canada Limited received notice of reductions in their salaries, ranging from 10 to 15 per cent. The news was received here philosophically, although not without some natural disappointment. In a message addressed to the employees of the local offices, R. S. McLaughlin, President of the Company, drew attention to the fact that a careful study of present conditions leads to the conclusion that during the last two years the cost of living has been reduced by 15 per cent. This means that the salary of two years ago has a correspondingly greater buying power to-day than it had at that time. The volume and profits of the company have materially depreciated during the same period, while the shareholders of the corporation have suffered a depreciation in the value of their holdings.

The reduction which is now going into effect means that those affected will have an opportunity of sharing in the sacrifice made by those wage-earners whose earnings in the plant have depreciated, without any curtailment of the number of working hours, and it is believed that the adjustment will be realized as both fair and equitable.

The scale of reductions is given by Mr. McLaughlin as follows: On all salaries up to and including $3,000, 10 per cent.; on salaries higher than $3,000 up to $10,000 inclusive, 12½ per cent.; on salaries higher than $10,000, up to $15,000, inclusive, 15 per cent. On the two salaries of $20,000 paid at the plant, a correspondingly larger reduction is being made.

Hound Bites Referee In Tillsonburg Game

TILLSONBURG, Sept. 24.—In a sudden-death game played at Straffordville yesterday afternoon, Tillsonburg defeated Aylmer by 15 to 13, in one of the most hectic games this season, and thus earned the right for the third successive year of going into the finals of the Tri-County League. They will meet Straffordville on their home diamond on Saturday afternoon for the first game.

An unusual incident occurred in the fifth inning when a stray hound ran on the diamond at third basebase and started for the home plate in a leisurely manner. Umpire Doan behind the bat went out to hurry the canine along by taking him by the collar. The dog promptly snapped his teeth on the umpire's hand.

Plans are under way for the estalishment of Japan's first automobile factory.

Noted Film Actor Is Seriously Ill

HOLLYWOOD, Cal., Sept. 24 —Jack Pickford, film actor and brother of Mary Pickford, is seriously ill at his home, his physician said to-day.

Pickford, who has been ill for several weeks, was said to have suffered a relapse and to be in a semi-conscious condition.

The illness began with a severe cold.

LIBERAL, TORY FORCES UNITE

Parties in Manchester Will Pick One Candidate to Oppose Laborite.

36 SEATS AT STAKE.

MANCHESTER England, Sept. 24 (C.P. Cable)—Conservatives and Liberals have decided not to oppose each other in the municipal elections that are to be held here, as throughout the country, on November 1. The parties in each ward will decide which candidate will support the other in concerted opposition to the Labor candidate.

Labor will defend 16 seats in Manchester this year, most of them having been won by narrow majorities a year ago. The Conservatives are defending 13 and 7 other seats are Liberal. With only two candidates running in each ward, Labor's opponents claim Labor will be utterly routed—and observers also see the pact promising the extinguishing of Liberalism as a distinct body in municipal politics.

Wales' "great drive" of sheep to dipping pools included 500,000 animals this season.

"FROM CONTENTED COWS"

PROUD MOTHER OF 15 CHILDREN WILL RAISE MORE, GOD WILLING

Largest Family in Manitoba Healthy and Happy on 20-acre Farm.

HAS NOT LOST ONE.

(Special to The Examiner.)

WINNIPEG, Man., Sept. 24. — The famous old lady of nursery rhyme days, who had so many children she didn't know what to do, should visit the home of Alex. Bohemier, and see the largest family in Manitoba—seven girls and eight boys—every one of them a healthy type of young Canada.

For years now they have taken the "largest family" prize at the annual Caterers' Picnic at Grand Beach. The youngest is 16 months and the oldest 16 years. Here is how they stack up by years: 16 months, 3, 4, 5, 6, 6, 7, 8, 8, 9, 11, 12, 13, 15, 16. As for the sexes — almost equally divided. So Mr. and Mrs. Bohemier will not quarrel about which sex dominated the other, and so produced a predominant male or female family.

And they all live, happy, well-fed, contented and super-abundantly healthy on a 20-acre farm. If 20 acres of Manitoba soil will nurture 17 persons, what would the population of Canada be on the same basis? China or India would have nothing on Canada in regard to teeming millions of population.

As two pressmen drove into the yard, they were met by Etienne, an alert-looking 14-year-old boy.

"How many of the family are at school?" he was asked.

The boyish brow puckered up, and he shrugged. "I don't know. Let me see. One, two, three, five, seven, nine. Yes, nine, M'sieu, are in school."

"Don't you go to school?"

"No?" with fine scorn. "I have finished at the village school. I have passed my entrance. To-day I go with my uncle to St. Boniface College."

An eager young face full of keen anticipation for the new world soon to open before him. The boy was to be dedicated to the priesthood of his church, it was learned.

The mother had joined the party by this time. "Etienne is a bright boy, he should do well at college."

In the little parlor the members of the family not at school soon gathered around the strange visitors from the strange far-off world. Jacques, aged 3, whose nose had been put out of joint 16 months before by the arrival of little Paula, was still hungry for his mother's caresses. Though a sturdy little cherub he was not far from his mother's skirt. And out in the kitchen Monique, the oldest girl, aged 15, was making the dishes fly as she prepared dinner. She knew her work, if the savory smells from her little kingdom meant what they said.

"None ever is sick, and none dead" the mother explained proudly.

Hair-cutting for so large a family? Dad did it all, even to mother's bob. Dad is a man of parts; one has to be to raise a family of 15 children on 20 acres.

"And are you going to raise any more?"

"It is as the good Lord decides," the mother answered with the simple and fine faith of the French-Canadian forebears.

And that family's life is characterized by a fine old world spirit of friendliness, hospitality and politeness, particularly to each other. Obedience was also inculcated into them, for the children came and went at the mother's bidding. And the courteous "M'sieu" was invariably appended to every remark made to the guests.

Their personal relations exemplified a time-honored old phrase: "All of each, and each for all."

That's how the Bohemier family is.

Village Pipe Bands Popular In England

LONDON, September 24. — (C.P.) — The craft of making Pan-pipes, lageolets, recorders, piccolos and other wind instruments is spreading among the villages of England, and the introduction and fostering of this village craft is being welcomed by those who are interested in the revival of folk-dancing in the countryside. A summer school was held at Oxford, recently, when the makers of the wind instruments, which were almost archaic in their simplicity, played tunes on them that delighted all listeners. About 50 enthusiasts attended the summer school to learn the craft of making the instruments.

These musical instruments were not for sale; those who were making them did so for their own enjoyment and, in many cases, in order to teach the craft in country schools in different parts of England. A party of 30 children from Cotswold villages came to Oxford, and gave the members of the summer school a concert of tunes composed by themselves and played on pipes which they themselves had made.

"A pipe costs only two pence-halfpenny to make and it takes from one to two hours," Miss James, who was in charge of the school, told a reporter. "They are made from dried bamboo and then decorated in bright enamel colors. We already have ten bands in the Cotswolds, and about 25 in other parts of the country. The tune of these bamboo pipes is very lovely—they have a range of rather more than an octave. Russian, Armenian and Sicilian peasants all make such instruments, and it was when I saw the goatherds of Sicily doing it that it was brought home to me that we might do the same in this country."

Miss James, who hopes to form these makers of pipes into a society with an official title, has been invited by the London County Council to lecture on the subject in the autumn.

B. F. CHILTON IS NEW MANAGER

Started Over 28 Years Ago With Bank of Ottawa in Ottawa.

BORN IN TORONTO.

B. F. Chilton who has recently taken over the managership of the local branch of the Bank of Nova Scotia, comes here from Weston, Ontario, of which branch he was manager since September 30, 1929.

Commencing his banking career with the former Bank of Ottawa in the Capital over 28 years ago, Mr. Chilton has had a wide and varied banking experience in the intervening years having served throughout the Ottawa Valley for a number of years before receiving his first managership at Fort Coulogne, Quebec, in the year 1912, a position he held until 1915 when he was transferred to Powassan. He has also served at Alexandria, Renfrew, Bracebridge and Cornwall.

Mr. Chilton was born in Toronto and spent his early days in Ottawa. He was educated in the public schools and Collegiate Institute of that city.

Campbellford H.S. Field Day Oct. 2nd

CAMPBELLFORD, Sept. 24 (By Examiner Staff Correspondent). — The annual field day of the Campbellford High School will be staged on Friday, October 2, on the High School grounds at 1.30 p.m. when sports will be indulged in by the pupils and contests held for the school champions in the different events.

This is a public event and should draw a large crowd of spectators to see the children in action. Judges will be drawn from among the business men of the town. The program will be under the direction of Principal E. H. Greig assisted by his staff of teachers.

More than $18,000,000 will be spent on a new electricity project in Scotland.

CAMPBELLFORD WINS 1ST GAME

Tigers Draw First Blood From Combines 14-9 at Norwood Rink.

FANS WELL PLEASED.

CAMPBELLFORD, Sept 24 (By Examiner Staff Correspondent). — Flashing home with a 14-9 win over the Norwood Combines the Campbellford Tigers drew first blood in the Inter-County Box Lacrosse League by winning the first schedule game. The bout which was staged in the Norwood Arena drew a large attendance of fans and from every angle was a good send-off for the first box lacrosse league to be instituted in this part of the country.

The game was heavy and hard fought but despite this fact only two penalties were registered. Norwood played a strong defensive game and showed their ability to stop the repeated onrushes of the Maroons who as usual went forward with fast drives working through on the wings. The net-minders however soon got wise to these tactics and some severe checking ensued with the visitor's forward line being repeatedly driven back.

Whitton and Ingram were the tally makers for the Maroons, "Buster" dropping in eight counters and Ingram six. Three twenty minute periods were played. Alex Kemp of Norwood handling the game.

The line-up:

Norwood—Goal, Rogers; 1st defence, Hayes; 2nd defence, Stevenson; centre, Scriver; 2nd home, Jacks; 1st home, Gould; subs, Dodds, Fenton, Webb, Rusaw.

Campbellford—Goal, Fox; 1st defence, Maybee; 2nd defence, McArthur; centre, Whitton; 2nd home Ed. Bush; 1st home, Ingram; subs, Free, Farrell, Nicholas, Garrison.

Referee—A. Kemp, Norwood.

40TH ANNIVERSARY HELD BY CHURCH

Rev. R. W. Paton Gives Fine Addhess on Special Occasion in Meyersburg.

NORHAM, Sept. 24 (Examiner Correspondence).—Although the inclemency of the weather helped mar the attendance on Sunday, the Meyersburg Church held a very successful anniversary on September 20 and 21—it being the fortieth anniversary of the church.

The church was very artistically decorated with flowering plants and cut flowers while at both services the choir rendered excellent services with their well-selected and well rendered anthems.

Rev. R. W. Paton of Roseneath was the special speaker of the day and was much enjoyed.

In the evening his subject was "They began to make excuse." In a vivid word picture he explained the ancient feasts prepared by the king for his subjects and the mode of invitations. He emphasized the fact that those who began to make excuse lost their opportunity and others were invited in their place.

The King of kings has spread a wonderful feast of the gospel for his subjects and all are invited. The feast is characterized by its abundance and its excellency.

Many of the present-day begin to make excuses. There are excuses of having to attend to worldy possessions, of family cares, of pleasures and many others. He urged all to accept the invitation.

On Monday evening an ice cream social was enjoyed in the church. Rev. D. R. Clare was chairman. The following program was given. Selection by the choir; prayer; duet, Mrs. Harry Wilson and Miss Florence Clare; recitation, The Marriage of Pat, Brimscobe, Mrs. Oscar Laver; trio, Mrs. Harry Wilson, Miss F. Clare and Rev. D. R. Clare; lecture, experiences in Siberia, Rev. F. G. MacTavish; trio, Misses Florence and Ida Clare and Rev. D. R. Clare.

Mr. MacTavish gave a most interesting address on his trip to Russia and his stay at Vladivostok during the year 1918. He gave a very vivid picture of conditions at that time and the lecture was listened to with rapt attention. Mr. MacTavish had a number of curios and pictures which added to the interest.

An abundance of ice cream and cake and a social hour brought to a close an enjoyable evening.

Tweed School Wins First Aid Contest

STIRLING, Sept. 24.—In the schools competition at the Stirling Fair on Wednesday the winners of the first aid contest were: 1, Tweed Consolidated School, S. H. Connor, teacher; 2, S.S. 10, Sidney, Isabel Graham, teacher; 3, S.S. 14, Huntingdon, Mary Townsend, teacher. The competition was for dressing scalp wounds, broken forearm and also artificial respiration.

School parade winners: 1, S.S. 10, Sidney, Isabel Graham; 2, S.S. 4, Sidney, M. Purvis, teacher; 3, S.S. 10, White Lake, Alice Heaseman, teacher; 4, S.S. 1, Rawdon, E. McInroy, teacher; 5, S.S. 14, Rawdon; 6, S.S. 11, Rawdon, Vera Wright, teacher.

Strathcona exercises: 1, S.S. 13, Sidney, Irene Grills, teacher; 2, S.S. 24, Sidney, Harry Faulkner, teacher; 3, S.S. 3, Marmora, E. Prentice, teacher; 4, S.S. 10, Huntingdon, Alice Heaseman, teacher; 5, S.S. 16, Thurlow, May Stevenson, teacher.

Stirling boys' softball team won the Fair directors' cup, defeating Ivanhoe and Bethel.

CANADA'S OLDEST CHURCH RE-OPENED

New and Modern Atmosphere Marks First Service in St. Paul's.

HALIFAX, N. S., September 24. (Canadian Press) — St. Paul's, the mother of the Church of England in Canada, and the oldest Protestant edifice in the Dominion, was re-opened last Sunday after eight weeks during which it had been undergoing repairs. The congregation returned to find the entire interior renovated. Floors that had been trod for 181 years were replaced—steel beams and reinforced concrete were there in place of the old structure; walls were redecorated in gray, woodwork in French ivory, ceilings with a tinge of yellow and the chancel in a warm shade of buff. There was a new and modern atmosphere under the weather-beaten cloak of pine and oak.

In the large congregation who assembled for service on Sunday were Lieutenant Governor Frank Stanfield and Mrs. Stanfield, Brigadier Contsantine, Officer Commanding Military District No. 6 and Mrs. Constantine.

The church was erected on the Parade in 1750, by His Majesty King George the Second, who in the deed of endowment, dated the fourth of January, 1760, is called the "royal founder."

Material for the building, consisting of pine and oak, was brought from Boston, Mass., then a part of the British dominions, and the church was built at the expense of the Crown by grants from His Majesty for that purpose, and also by money granted by His Majesty in this province for use of the government.

The pine and oak, when the outside covering was removed in recent years, was found to be in as good condition as when placed there nearly two centuries ago. The storms of winter during that long period had beaten upon it, but had not affected it. The additions of later years had, however, shown signs of decay and required renewal, which was done in 1926.

Within the walls of St. Paul's the greatest naval and military heroes worshipped, and some of them lie buried within its sacred precincts. Beneath the church are twenty vaults, in which are interred Lt.-Governor Lawrence, 1760, Captain Evans of the Charlestown, 1781, Baron Kniphausen, a general in the British service, 1786; Baron de Seitz, a Hessian officer, 1782; Lord Charles Greville Montagu, a son of the Duke of Manchester, 1784; Governor Parr, 1791; Sir John Wentworth, Chief Justice; Jonathan Belcher, Lieut.-Governor George Stracey Smyth of New Brunswick; Chief Justice Bryan Finucane, 1785; Lieut.-General Gardner, 1806; Hon. Richard J. Uniacke, 1830; Bishop Charles Inglis, 1816, and other distinguished persons.

NORHAM.

Messrs. Richard and Peter Van Blaricorn of Los Angeles are visiting Mrs. Lewis Denike and other relatives in the vicinity.

Rev. F. G. MacTavish was a guest of Rev. D. R. Clare on Saturday.

On Saturday afternoon the Mission Band of the Norham Church packed a box of articles which they hope will bring Christmas cheer to more needy boys and girls.

Mrs. Robert Martin and children who have spent the summer with her parents, Mr. and Mrs. H. Aylesworth, returned to their home in Toronto this week.

Mr. and Mrs. Murney McCann attended the Rotary carnival in Trenton.

Mr. Ralph Campbell spent the week-end in Campbellford.

Mr. and Mrs. P. Windover, Mrs. Mary Windover and Mrs. Dingman visited Mrs. Tweed of Brighton on Sunday.

Rev. D. R. Clare was on the Roseneath charge on Sunday.

Rev. A. McLauchlin of Grafton who had preached in Campbellford on Sunday was a guest at the parsonage on Sunday evening.

Mrs. Harry Wilson and Fern and Miss Helen Runnels were in Peterborough on Saturday.

Rev. R. W. Paton and sister, Miss Mary aPton of Roseneath were entertained at the parsonage on Sunday.

Physics Research Makes Great Stride

Prominent Place Given to Research Now as Compared With Half a Century Ago

LONDON, September 24. — (C.P.) — "There is far more in physics than is dreamt of in our theories," Sir J. J. Thomson, distinguished mathematician and physicist, stressed in his presidential address to-day to the mathematical and physical science section of the British Association for the Advancement of Science. "Nature herself," he added, "is more suggestive of ideas than the most imaginative of us."

"The ideas which revolutionize science are just those of which our theories give no indications. Theories are the very life-blood of Physics, most of the researches in our laboratories originate in an attempt to test a theory; theory, however, may be injurious if it makes us concentrate our attention exclusively on the particular problem it suggested, and to treat as an annoyance, to be avoided by a change in method, any anomaly in the experiment which interferes with our progress to the goal; the anomaly may be the outcrop of a vein rich in new phenomena.

"I do not think that there is any danger of the supply of new physical phenomena being exhausted, and of Physicists joining the ranks of the unemployed. Rather do I believe that as each successive Centenary comes round the President of Section A will be able to say that the growth of Physics in the century which has just passed is comparable with that in any of its predecessors.

The sectional president confined his address to a review of the growth in opportunities for education and research in physics, during the past 50 years. It could be claimed now that some science is taught in all schools, and a good deal of science in a great many of them. "This is a great advance and has practically all been made in the last fifty years," he said. "It cannot, however, be said that even now science occupies in our systems of education a place commensurate with its ever-increasing influence on human thought and with its importance in the progress of civilization."

Automobile registrations in France again are increasing.

British South West Africa is placing a sales tax on cigarettes.

One hundred twelve coaches carried 13,000 children to a picnic in Birmingham, England, recently.

COFFEE—Very fine Coffee can be bought to-day at a ridiculous low price. You will find one that will please you in our three grades. Try them in turn. Half lb. 13c, 17c, 28c

SCOURING POWDER—Sifter can 5c

PAROWAX—For sealing fruit jars or used in washing 10c

CERTO—Improves your preserves and saves time 29c

VINEGAR—Made by Canada Vinegar Co. Gal. 40c

Orange Marmalade Large Jar - 25c

INTERLAKE TOILET PAPER—Large roll of the best unbleached paper 3 for 25c

BROOMS—A 4-string tie, well made Broom of green corn 25c

CANNED PEAS—Sweet and tender 3 Tins 25c

CREAMERY BUTTER—Fresh made. Lb. 22c

OVALTINE — A dainty, delicious and comforting beverage. Tin, 50c, 75c, $1.25

OXO CUBES—Small tin 10c Large tin 25c

Pea Meal Bacon Choice Back, per pound SLICED 24c 23c

McCORMICK'S BISCUITS — Jersey Cream Sodas 2 Pkgs. 21c

SELOX—The speed Soap 2 L. Pkgs. 25c

MAGIC BAKING POWDER—Lb. tin 34c

ZEBRA STOVE POLISH—Gives a lasting shine. Large tin 13c

WATERGLASS—Egg preservative. Small tin 14c Large tin 19c

HIP-O-LITE at 14c

SUNLIGHT SOAP 5 Bars 24c

Pic-Nic Hams Sugar Cured, Smoked Shankless Lb. - 17c

"NOW, don't worry, this won't hurt a bit. You'll feel a hundred percent better when I'm through. You look terrible with a week's growth of stubble on your face and I'm not going to put off shaving you a single day longer. * * * * No I *won't* wait. You're going to have some visitors today and you look like the wild man from Borneo. Didn't I tell you it won't hurt? I've got a new Gillette blade in the razor. One of the doctors told me it's the finest blade he ever used. Come on, now, let's go, we've got to get those whiskers off."

• • •

Nurse is right, absolutely right. The patient is due for a pleasant surprise. The new Gillette blade is amazingly keen and smooth. It's made to shave tender skin lightly and cleanly without a bit of razor smart or burn. Prove to your complete satisfaction that shaving can be thoroughly comfortable and fairly enjoyable. Buy a package of new Gillette blades on our money-back guarantee and try them. You must be thoroughly satisfied, or return the package to your dealer and he'll refund the purchase price.

LEVEL CROSSINGS.

While the number of such accidents may seem small when the total of motor cars in commission and the fact that there are 28,000 level crossings in Canada are considered, it is nevertheless disconcerting to find that there were 431 level crossing mishaps in Canada last year and that 115 people were killed and 475 injured as a result.

Two-thirds of these accidents, Hon. Frank Oliver, advisory officer to the Board of Railway Commissioners, declares occurred on county roads, and only one-third on provincial highways.

These figures would seem to indicate that in the case of many crossings the motorist will continue to have to protect himself.

Obviously it will be impossible to wipe out 28,000 crossings, and while some particularly dangerous crossings in various sections of Canada have been eliminated and others have been protected, the care exercised by the man at the wheel will be the only safeguard against accidents at thousands of points where roads and railways intersect.

The motor car was not in sight when the greater part of Canada's railways were built; the main thing considered was to get the steel through, and the result is a menace to safety that can in most cases be defeated only by strict adherence by motorists to that hackneyed advice, "Stop, look and listen."

MAKE THEM PAY THE SHOT.

The warning of S. W. Fairweather, head of the Bureau of Economics of the Canadian National Railways, against too heavy investment in Canadian highways without obtaining a worth-while return from that investment, puts into words what many people have been thinking.

As a country we are building up an expensive chain of highways, and through them setting up a new system of transportation and thus taking away business from Canadian railways, one of which is publicly owned and represents a heavy financial drain.

And worse than that, we are not making those engaged in the highway transportation business pay an adequate revenue for using the roads the public has built.

Mr. Fairweather's solution appeals as reasonable.

He would, first, reduce the license fee on private automobiles.

Then he would increase the gasoline tax and raise the registration fee on heavy transport trucks, and levy heavier charges upon the companies operating express and passenger routes on the highways.

It seems a peculiar situation that, while the railways are being slowly starved to death, we should be granting bus companies monopoly rights on highways without any compensation having been received in return.

THE WINDSOR SITUATION.

Rev. Ben Spence, who is always able to view with alarm where the liquor question is concerned, has been causing quite a commotion because large numbers of the many thousand delegates attending the American Legion convention at Detroit have been patronizing the Windsor liquor stores and beer houses somewhat freely.

It is difficult to see how Mr. Spence or anybody else could expect that with thousands of men assembled from all parts of the United States in the comradeship that always exists at a convention of this nature there would not be a considerable amount of drinking.

That condition would have existed in regard to the American Legion gathering no matter where the convention had been held and no matter what source of supply had to be depended upon.

Undoubtedly there has been a large amount of liquor consumed in Windsor, some of it under circumstances that clashed with Ontario's liquor laws, but there was not much that the provincial authorities could do about it.

To have closed the stores during the period of the convention would have been a virtual insult to the whole American Legion; such a course was not called for and could not have been explained.

If Mr. Spence wants something to worry over he should be able to find it in the fact that a decade of prohibition has apparently made no difference in the American thirst.

SPEND THEM AT HOME.

There is no need of Canadians sitting around worrying because the value of the Canadian dollar in the United States has dropped in the last few days.

They have the remedy in their own hands, as the Stratford Beacon-Herald points out; merely spend the dollars in Canada where they are known and liked and where they are not discounted.

That will serve two very useful purposes.

In the first place, there will be full value for the dollar spent, and secondly, Canadian dollars will be scarcer in the United States and therefore more valuable.

The more our dollar may be discounted across the border the more our people should resolve that their purchasing shall be confined as far possible to Canadian articles.

Spend the dollar at home where it represents one hundred cents of value, is the best policy with which to meet the present situation.

Apparently our neighbors do not choose to accept our currency at par, so they should be spared the trouble of handling it at all.

It is worth while remembering that the Canadian dollar still stands for a dollar's worth of purchasing power in Canada.

Most of the people who talk about hard times don't know anything about it.—Galt Reporter.

TOURISTS AND CANADIAN LAWS.

The Daily Drovers' Journal of Chicago is not in sympathy with American motorists who object to a strict enforcement of Ontario traffic laws against tourists, on the ground that the latter spend hundreds of millions of dollars a year in Canada, the bulk of it in this Province. The paper hears that speeders are fined as much as $75, but although it opines that many Americans must find the limit of 35 miles irksome, it condemns the "typical American" attitude which expects the courts and law enforcement generally to take cognizance of monetary considerations. If the Canadians choose to enforce their laws, it says, more power to them.

Those American publications and motor clubs which are laboring under the impression that Ontario police are watching for tourists, determined to molest them at every possible opportunity, have been badly misinformed. If anything, American motorists are allowed more latitude on the roads than are Canadians, because they are guests, and because they cannot be expected to be as familiar with local regulations as residents of the Province. It is the policy of the Provincial Police, as well as of most municipal forces, to arrest tourists only when their offences are flagrant, or calculated to endanger themselves and others. It is doubtful if any American motorist has been fined $75, or any such sum, unless his offense was serious enough to have brought him similar or harder punishment at home. In Brantford, for example, Chief Stanley has stated that it is the policy of the police department to show every consideration and courtesy to visiting motorists. No notice is taken of technical infractions of the rules of traffic, unless to give friendly advice. Only for flagrant violations of the law are they arrested.

In any event, the Chicago Daily Drovers' Journal, in common with many high-class publications across the line, takes a fair view with regard to the principles of the matter. It will be a sorry day for Canada when her courts and her police allow monetary consideration to interfere with an impartial enforcement of the laws. Because Americans spend a great deal of money in this country that is no valid reason why they should be accorded immunity from laws designed to protect the safety of Canadian citizens.—Brantford Expositor.

NO GRANT FOR BUILDING.

The secretary of the Ontario Government's relief committee has, we are informed by The Peterborough Examiner, given "positive refusal" to even consideration of plans which had been made in that municipality of two building projects, one involving an addition to the Collegiate Institute and the other an addition to he Nicholls Hospital. He has also declined to entertain the suggestion that the Government, through its unemployment relief program, should assist in the erection of a rest station.

This action has been taken because the Provincial Government will not include any building in municipal unemployment relief programs. Why not? There are some communities well served with roads, which seem to be the principal source of employment favored by the Government, but in great need of new public buildings or additions to existing public buildings. Other communities have all the sewerage and water works that they require, but need such public buildings as schools, hospitals and the like. Apparently, they cannot obtain assistance in erecting such institutions out of the public chest and must build them independent of unemployment relief grants if they are to be added to the facilities of the community.

But are not bricklayers, masons, carpenters, plasterers, electricians, roofers and members of all other building trades as much in need of assistance at this juncture as pick-and-shovel men? Why should the Government attempt to impose upon municipalities works that are not badly needed, while denying them other works which are really required? The test of the work which is undertaken in connection with unemployment relief ought to be its need by the municipality, along with the number of men who will be given employment. Is it not much better that the grant should be expended upon the erection of public buildings that are really needed and that will always prove of service than upon the construction of other works that are not so sorely required and that may be of dubious value to the community?

The authorities responsible for the administration of the unemployment relief fund have yet to issue any statement which furnishes a valid explanation of why such discrimination should be practised in regard to expenditures under that fund. If they will not grant their approval to building projects, the public should be informed as to the reason for such refusal. Certainly it is better by far that municipalities should start work upon projects that promise to prove of service and value in the future than that the money should be used to carry on other projects which do not hold the same promise.—Brockville Recorder and Times.

EDITORIAL NOTES AND COMMENT.

Cobourg burglars were routed by hard cider. That's a burglar alarm with a real kick.

Many of Ontario's villages are showing a decrease in population. The trend is toward the large centres and small communities grow smaller still.

The scale on which the international plowing matches will be conducted next month will prove a surprise to most people in this district.

The Canadian dollar at home will still buy 100 cents worth. The moral is, "Keep it at home."

Times have changed. According to the Lindsay Post, the Grand Trunk Railway alone carried 2,400 people on the last day of the Lindsay Fair 15 years ago. The automobile has altered all that.

Rural school fairs are doing much to keep farm children interested in agriculture. Any movement in that direction deserves general support.

How many people are there who would consider Colonel and Mrs. Lindbergh's trip a vacation?—Christian Science Monitor.

A woman editor in the United States asserts that women brag more than men. The insinuation no doubt is that they have more reason to brag.—St. Catharines Standard.

While Kaye Don was trying to raise Miss England from the depths, Phillip Snowden was laboring to render mother England a similar service.—Quebec Chronicle-Telegraph.

(Continued from yesterday.)

INSTALMENT 14

Upon her return from the theatre, Fabia went immediately to her mothers room.

"Mother" she said, "I didn't go to that luncheon this afternoon."

Lisa was silent, her eyes lowered upon a half-written page on her desk.

"I came to tell you right off because I hate to deceive you for any longer than I have to. I'm sorry, mother."

"So am I."

"Oh, mother, please don't act like that. It's because I want to please you so that I didn't tell you before the luncheon. I thought after our talk this morning it would be so much kinder if I told you afterwards. I had an engagement that I felt was more important than the luncheon, mother. I'll tell you about it now. I'll tell you everything. And mother, I won't try to get out of any more engagements after this. I'll go to every tea and luncheon and dinner-party there is. If it kills me, I will. See if I don't!And if I'm not a success at the dances—if I have a perfectly horrid time—"

"Why then, you needn't go to them," said Lisa. "We'll be wise, of course. I won't expose you to embarrassment. Lots of girls omit the dances as the season progresses. But oh, Fabia, never deceive me again. It isn't kind to me in the long run. I'll try to make it easy for you to be honest with me—but be honest, anyway."

"I will, mother, I will!" eagerly Fabia assured her mother. This was the mother she knew and worshipped. "Lots has happened I need to tell you."

"Did you have a good time at the theatre this afternoon?"

"How did you know?"

"June was there with a group of her friends. She came in a few moments ago very much excited about you and Morris Haverford."

Lisa's non-committal "Oh, yes," following her impersonal "Hellow," was evidence that whoever was calling she did not intend to speak the name.

Fabia listened with arrested attention. Why was her mother's manner so guarded? It was a brief call. Her mother made only a few remarks in a low, calm, controlled tone.

"How lovely! I think he might. We can try, anyway. I'll do my best. Oh, I don't know. Let me see. I think Center M. Yes. All right. Goodbye." When she hung up the receiver, she did not turn to Fabia and tell her who had called her, as would be so natural. Instead she said, "Draw up a chair Fabia, and sit down," just as if there had been no interruption at all, and just as if her lips were not tinged with a smile, and her eyes with a glow that had not been there before the telephone rang.

"Not now. I must go and get ready for dinner."

"Oh, there's plenty of time. When did Morris Haverford invite you to the theatre?"

But she could not talk to her mother now. She had been on the verge of pouring out the whole story about Morris Haverford, and the young doctor, and the two kisses (and the frightening possibility, growing hourly in her consciousness that she had responded to the last kiss), but if her mother had something to hide, then how could she reveal her hidden secrets? Her mother has asked her to be honest, and she wanted to be—oh, she didn't want to deceive—she didn't want to conceal—but wasn't her mother deceiving, concealing? She turned away. "I'll tell you later," she said.

There were five at dinner that night, June, Fabia, Lisa, Rupert and Barry Firth. Both June and Fabia liked to have Barry Firth drop in for dinner. He added a festive element to an occasion usually lacking in anything light or bright if only the family was present. Rupert believed dinner conversation should not be monopolized by the children or conducted for their pleasure. Their affairs were never discussed at the table.

Barry Firth radiated geniality wherever he went. Dogs liked him, children like him, maids, chauffeurs, caddy-boys, office boys, bell-boys—all liked him. He had a word for each one, or a nod, or smile. This geniality was more than manner-deep. Barry felt the good-fellowship he showed to the world at large, and to the world in particular. Barry entered into any form of merry-making or festivity with enthusiasm. There was something indestructibly boyish about him. He still loved tops, agate marbles, and jack-knives, almost as much as Rupert Junior and Murray Lisa had discovered—the contents of whose pockets always interested him. There was, besides, a quality of impishness about him, at times, a love of prankish games and surprises that was more like a ten-year-old boy than a man past middle-age. Also, there was his quiet love of beauty—music, poetry, sunsets, sunrises, stars, trees, a forest mantled in snow, a meadow in the spring with a trout-brook running through it.

There were usually cocktails when Barry Firth came to dinner. To-night June as soon as she observed her father was in a cheerful mood (due to the cocktail or Barry Firth or to both), announced to the assembly her news about Fabia and Morris Haverford.

"Morris Haverford took Fabia to the theatre! We girls were terribly excited when they came in at the end of the first act, and sat down three rows in front of us."

"You know him, don't you?" asked Rupert, turning to Barry Firth. "Youngest member of the firm of Carter, Morgan, Henshaw and Haverford?"

"Yes, I know him slightly. We've played squash several times. Splendid fellow."

"Well, well, Fabia!" Rupert went on turning now to this daughter of his, whom for the first time he seemed tobe observing. "Come—tell us how it happened."

Fabia had never heard that tone of approval and pride in her father's voice before when addressing her. It was very pleasing.

"Oh, I don't know," she said with a little shrug. "He just asked me."

"Just asked you? But when, how?" exclaimed June.

June was tremendously impressed. Barry Firth across the table, was raising his glass of water to Fabia." Here's to your first conquest!" he was saying. Who would imagine that going to the theater with Mr. Haverford would create a sensation like this? Of course, if they knew the truth, there would be no sensation at all.

At that moment the maid announced quietly to Lisa, "Miss Fabia is wanted on the telephone. Mr. Morris Haverford."

"Excuse me, please, mother," said Fabia, and left the room. When she returned, she remarked as she sat down, "He just wanted to know if I'd got home all right."

"Didn't he bring you home?" asked June.

"No. He took me in a taxi to where I'd parked my car. I wouldn't let h m come home way out with me here in the country. We had quite an argument."

"But why were you in your car? Didn't he call for you?"

"No. We met."

"You met?" ejaculated June.

"You met?" echoed Rupert.

"The plot thickens," laughed Barry.

"Where did you meet?" pursued Rupert, and the tone of approval had somewhat faded.

"I wouldn't tell them if I were you," lightly Barry Firth threw out, smiling across at Fabia, his eyes seeming to say, "I'm backing you."

"I'm not going to," said Fabia.

Before her father had a chance to repeat his question, Barry Firth turned to him and said, "I admire her refusing to be questioned. It was getting to be a regular catechism."

Fabia shot him a grateful glance. Again the maid announced, "Miss Fabia is wanted on the telephone." There was no name this time."

"Mother," said Fabia from the threshold a minute or so later, "am I invited to the ushers' dinner before the ball next Friday at the Somerset?"

"Yes, you are, Fabia."

"Well, somebody's asking if he can take me to the dinner and have the supper dance with me, and bring me home after the ball. I said I'd go and see if I was invited. He's on the line. What shall I say?"

"Who is it?" asked Lisa.

"Tuck Haverford."

"Tuck Haverford!" gasped June. "Tell him you'd be very glad to," said Lisa quietly.

Fabia left the room.

"Do you mean to say," demanded Rupert, "you're letting that girl go alone with this boy, and come home alone with him, and not even in her own car?"

"It seems to be the custom," Lisa replied. "We know the boy's family, Rupert."

"I don't approve of it at all."

"Oh, you're frightfully old-fashioned father," said June. "It's been done for years. Besides, Tuck Haverford! Fabia, you old peach!" she broke off when Fabia reappeared, and she got up and ran to Fabia, flinging her arms around her in delight.

"You're made, darling," she went on. "Everybody's crazy about Tuck Haverford. How did you do it, you clever thing? My, but I'm proud to be your kid sister!"

"Here's to a second conquest!" sang out Barry Firth, again raising his glass. "Two in one family! I call that going some."

"Oh, by the way," remarked Barry, during a pause a quarter of an hour later, "I stopped in at Herrick's on my way out, and engaged three seats at the theatre to-night. I didn't know but what I could persuade you and Lisa to go with me, Rupert."

"Why how lovely of you, Barry!" exclaimed Lisa.

"I chose the Victor Herbert revival"—he gave its name. "Very well done, they say. Worth seeing if you haven't already."

"We haven't," Lisa assured him. "Not for twenty years, that is. What other lovely surprise!"

"The seats are pretty poor. All they had were three in the front row, and three in Centre M."

Center M! Fabia became alert. So it was Barry Firth, just as she had thought, who had called up her mother before dinner. This had all been arranged between them.

"Let's go, Rupert," Lisa was saying. "I'm sure you'd enjoy it. Let's accept Barry's surprise-party."

"Sorry, Lisa. Thanks, Barry, but I think I won't go out to-night. I'm tired. Take June or Fabia."

"But June goes to the first Eliot to-night, and Fabia ought to go to bed early, I think."

"No, I oughtn't," said Fabia shortly, gruffly. "I slept twelve hours last night. And I've nothing to-morrow or Monday. I'll go."

She'd go! She'd go and get down to the bottom of this thing, however much it made her suffer.

(Continued Tomorrow)

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them inserted.

HIGHWAY ROBBERY

To the Editor of The Examiner.

Sir:

It is time the public conscience was aroused to the terrible, fraudulent practices carried on within the Exhibition grounds.

One saw on the right hand and on the left people being literally robbed, before they had any idea of cruel and inhuman tricks that were being played upon them by these monster sharks of humanity.

Do the president and directors of the Exhibition know of this highway robbery, and no redress from the police? If so, the moral sense of these authorities must be at a terribly low ebb, to tolerate such a state of things. It is all very well to say the people ought to know better to trust such sharks, but laws are passed so that the people may be protected against themselves. These practices are clearly illegal. That being so, the only redress would seem to be an appeal to the Attorney General's Department at Toronto.

Yours,

JUSTICE.

Millbrook

Members of the executive who attended a meeting of the Public School Teachers' Federation at Cobourg on Saturday included Miss Jean Burnham, Principal B. B. Dawson, and R. I. Sutton, of Cavan. The annual convention has been arranged for October 8-9, at Cobourg, details of the program being under consideration on Saturday.

An error was inadvertently made in the notes on the school fair held here last Friday when Allen Browne, who played a mouth organ solo before the grandstand during the afternoon, was mistakenly listed as a pupil of Cork school, instead of Fairview where he attends. Miss Dorothy Hall, teacher.

Mr. and Mrs. Offa Williamson and Mr. and Mrs. J. L. Byam are enjoying a motor trip to Ottawa, Montreal, and other points east, this week. Mrs. McCready of Peterborough, Mrs. Williamson's aunt, is looking after the home during her niece's absence.

Music at evening worship in St. Andrew's church on Sunday, September 20, was supplied by the Young People's Choir, and included three selections throughout the service.

The annual Rally Day service will be held on Sunday, September 27, the Sunday school meeting with the congregation at 10.30 a.m., and in the evening there will be a special missionary service, when a number of characters will take part in the sacred drama, "The Church on Trial," the pastor, Rev. W. W. Jones, presiding.

Postmaster T. H. Collins was in Montreal last week attending a reunion of his old battery, the 66th, of which he was a member and went overseas during the world war. Miss M. L. Collins accompanied her brother to Montreal, the trip being made by motor, and both were guests of Mr. and Mrs. Walter Collins during their stay in the city.

Mrs. I. Lunney of Bailieboro presided at the organ in St. Thomas' Anglican church on Sunday evening at the special Harvest Thanksgiving service, in the absence of Miss Collins, the regular organist.

Rev. H. R. and Mrs. Ragg of Winnipeg were guests of Mrs. C. M. Westmacott over the week-end. Rev. Mr. Ragg, who is rector of All Saints' Church, in the western city, being the special preacher in the parish of Cavan for the harvest thanksgiving services on Sunday, taking the service at Trinity church, the Marsh, in the morning, at St. Thomas, Millbrook, in the afternoon, and at Christ Church, Bailieboro, in the evening. The Winnipeg rector is in the east attending the sessions of the General Synod at Toronto.

The local rector, Rev. Mr. Simpson, took the services at St. John's church, Ida, in the morning and at Trinity church at night.

Mr. and Mrs. Percy Bingham, whose marriage tok place last month were guests of honor at a community gathering in the Bewdley pavilion recently, when they were presented with a miscellaneous shower, including many beautiful and useful gifts. Mr. Percy Hanna acting as chairman and reading the appreciative address.

Music, cards, and dancing filled out the evening happily, and dainty refreshments were served. The bride, before her marriage, was Miss Olive McClung of Bewdley. Mr. and Mrs. Bingham are residing in apartments at the Waverly building, Millbrook.

Rev. S. T. and Mrs. Tucker and their daughter, Miss Gladys, of Dorchester motored to the village on Tuesday and were the guests of Mr. and Mrs. G. E. Burnham, leaving again late Wednesday afternoon for Orono where Mr. Tucker was invited to baptize the little daughter of Mr. and Mrs. Rolph, Barbara Anne. Rev. Mr. Tucker moved to Orono as pastor of the United Church after leaving the Millbrook circuit.

On the return journey Miss Gladys Tucker remained in Toronto where she will continue her studies at the University in household science for the third year.

The quarterly communion service was observed in St. Andrew's United Church at morning worship on Sunday, a reception service preceding the Lord's Supper when one new member was enrolled, following the solemn ritual, and members of two families, Mr. and Mrs. W. A. Reid, and the Misses Phyllis and Lois Reid, and Mr. and Mrs. F. A. Kidd and Miss Phyllis Kidd, were received and welcomed by the pastor and the session, through transfer of their membership from churches where they worshipped in former places of residence, Madoc and Peterborough, respectively.

The pastor, Rev. W. W. Jones, B.D., was in charge of the service on Sunday; Rev. Robert McKnight, of Regina, Sask., who is spending some time with relatives in Ontario, offering the closing prayer and the benediction.

FAVORS TARIFFS

LONDON, Sept. 24 (A.P.)—The London Chamber of Commerce informed Premier Ramsay MacDonald to-day that its members, by a vote of 4,106 to 341, had expressed themselves in favor of the imposition of tariffs. The vote was a tabulation of replies to a questionnaire.

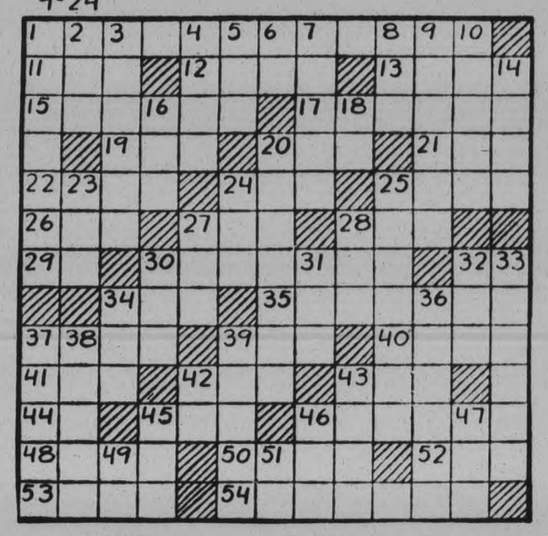
Today's Cross-Word Puzzle

By EUGENE SHEFFER

9-24



HORIZONTAL.

1—What State was the scene of the Battle of Bradywine and the "Whiskey Rebellion"?
11—Chief linguist stock of Indo-China.
12—Rip.
13—Girl's name.
15—In what State was a trading post established at Astoria in 1811?
17—What celebrated French historical painter named "Oedinus and the Sphinx" and Joan of Arc?
19—Lick up.
20—Seat of a bishop's authority.
21—Unit.
22—Cloth measures.
24—Possesses.
25—Collection of facts.
26—Sound made by the cow.
27—Important Babylonian god.
28—Small compact mass.
29—Symbol for ytterbium.
30—Who, besides, Joseph Robinson, is the Democratic Senator from Arkansas?
32—Like.
34—Kind of early ship.
35—Pervert in meaning.
37—Who is the author of the play from which the opera "The Chocolate Soldier" was written?
39—Small bird.
40—What emperor of the Holy Roman Empire was called "the wonder of the world"?
41—Covering for the head.
42—Vase with a pedestal
43—Bird of the cuckoo family.
44—Part of "to be."
45—One who teaches golf.
46—What large tributary of the Missouri meets it 18 miles south of Omaha?
48—What large university is at New Haven?
50—Swift Malaysian vessel.
52—Substance appearing at the poles in electrolysis.
53—Ice in the form of white crystals.
54—What is the largest known mountain on the globe?

VERTICAL.

1—The system of what Alexandrian astronomer was displaced by that of Copernicus?
2—Sense organ.

Livestock-Produce Quotations

BUFFALO LIVESTOCK

EAST BUFFALO, N.Y., Sept. 24.—Hogs, 1,500; fairly active; mostly to packers; generally 15c under Wednesday's average; spots off 25c; bulk desirable 180-200 lbs. $5.80 to $5.90; mostly $5.85. Few 220 lb. selections $6.00; 160-170 lbs. $5.50 to $5.75; below 150 lbs., $5.00 to $5.25.

Cattle 250; holdovers 150; grass steers. Trade not fully established; few small lots about steady $5.50; cows unchanged; cutter grades $1.50 to $2.75.

Calves 325; nearby vealers active, steady; good to choice $11.00 to $11.50; common and medium $7.50 to $9.00.

Sheep, 625; lambs fully steady; good to choice largely $7.75; medium kinds and fat bucks $6.50; throwouts $5.50; inferior kind downward to $4.50.

TORONTO PRODUCE

TORONTO, Ont., Sept. 24 (C.P.)—The United Farmers Co-operative Co., to-day supplied the Canadian Press with the following quotations on produce delivered at Toronto:—

Eggs, extras, doz. 25; firsts, doz 21c. Creamery churning, No. 1, lb. 20c; creamery butter, No. 1, solids, lb., 21c. Potatoes, No. 1, in bags, 35c.

Lapland is feeling the effects of Germany's troubles for Germany has reported that it cannot accept all the iron ore from Lapland mines which was contracted.

SEVERE DROP TORONTO LIST

Opening Strong, Several Issues Registering Setbacks at the Close.

FOLLOWS WALL STREET.

TORONTO, Ont., Sept. 24.—(CP)—Toronto Stock Exchange market turned abruptly about face today. The market had been strong in the early morning. It was off slightly from its best but steady at midday. It declined sharply in the afternoon and closed weak, in direct contrast to Wednesday when prices left off at their best for the day.

Wall Street fluctuations governed the trend. There was also some local selling by those who had taken advantage of Wednesday's appreciation to unload securities in the belief the present level of prices would not hold.

Again, as previously this week, action centered in the internationally listed issues and those stocks which the governing committee had placed on the "free trading" list. The remainder of the market remained pegged. Prices in this section were unchanged. Turnover almost nil.

Brazilian Traction, which had risen approximately ½ point during the morning, not only lost its gain, but dropped a point from last night's close, selling off to 10. C. P. R. went down to 17 to show a net loss of ½ point. Bell Telephone rose to 124, then declined abruptly to 121. The revised pegged price. Ford of Canada, Steel of Canada, International Nickel, Noranda encountered losses of from ¼ to ½ point each. Mining Issues, including Dome, Lake Shore, McIntyre went lower, the latter losing about 2 points.

Oils weakened with the rest of the market. B. A. Oil and Imperial Oil finished with small losses and International Petroleum gave up a small initial gain.

MARKET CLOSING ON EXCHANGES

(Continued from Page 1)

WALL STREET

NEW YORK, Sept. 24. (CP)—The stock market fell back swiftly to-day in a secondary reaction of severity which virtually cancelled yesterday's violent upswing. The decline gained momentum after midday. Such issues as U.S. Steel, American Telephone, North American, Allied Chemical, New York Central, Baltimore and Ohio and Santa Fe tumbled 6 to 10 points. The closing tone was weak. Sales were around three million shares.

GAS OVERCOMES WOMAN REVIVED BY POLICE

TORONTO, Sept. 24. (CP)—Half an hour's work by two police officers to-day saved the life of Mrs. Mary Tucker, 46, after she was working in her apartment.

Abraham Torno Loski, the landlord, smelled the gas which was escaping from an open jet in the kitcher stove, and open investigation found Mrs. Tucker lying on the floor unconscious.

Patrol Sergeant Bevan and Constable Armstrong answered a hurried call and immemdiately started resuscitation work. Mrs. Tucker was removed to General Hospital where her condition is not reported as serious.

Bring Your PRINTING Problems to Us

EARLY DECLINE IS CONTINUED AT NEW YORK

Feeling Persists Gold Standard May Be Abandoned Elsewhere Than in London.

WEAKNESS IN RAILS.

Allied, U. S. Steel and Eastman Among Issues to Suffer Setbacks.

NEW YORK, N.Y., September 24 (C.P.). — This was a day of softer second thought in Wall Street.

Security prices were revised downward sharply, after yesterday's violent unswings which reflected the first violent burst of enthusiasm over the lifting of some of Wall Street's more oppressive worries.

Share prices started to slip right after the opening, gathering momentum on the downgrade Most of yesterday's advance was lost by midday.

Rails fell almost as rapidly as they soared yesterday. Santa Fe virtually cancelled yesterday's 10-point gain, and Norfolk and Western lost much of its 15-point upswing. New York Central, Southern Pacific, and others lost 5 or more. Utilities were weak. Among wider losses, American Telephone, Consolidated Gas, and North American lost 4 to 6. Similar losses appeared in U.S. Steel, Eastman, and Allied Chemical. Losses of 2 or more were numerous.

While the British situation had been the most unsettling element of uncertainty hanging over the market, possible repercussions in other countries began to have an unsettling influence to-day. Advance in the Swedish bank rate to 6 per cent. and heaviness of Scandinavian currencies, led to a feeling that the gold standard may be abandoned elsewhere than in London.

In the meantime, the added responsibilities upon New York as the world's chief money centre were reflected in an abrupt stiffening of the money market, and widespread expectations that the New York Federal Reserve Bank will increase its rediscount rate from the extremely low level of 1½ per cent., possibly to 2 per cent. This would not generally be viewed in Wall Street as an adverse development.

HABERDASHERY COLORS QUIETER

Smaller Designs Are Observed In All Fall Furnishings.

NOVELTIES IN NECKWEAR

Neat, natty, refined, tasty are all terms which might be used to characterize the patterning and color schemes in Fall haberdashery which is now to be seen in Peterborough stores.

The shirts of the season are for the most part in small patterns or in solid pastel tones. Where patterns are employed they are largely neat conventional figures, closely placed stripes of the narrowed measures or panel combinations of stripes and figures worked out in sedate effects. These are shown mostly in collar-to-match of demi-bosom shirts of which the former has gained in popularity over the latter. For dress wear the collar-to-match shirt will contend with the plain white shirt this season.

Loud Tie Not Well Placed.

The ties of the season also follow simpler designing motifs. The former "loud" tie is not well placed in the fall edicts. The leading textures are Repps, Mogadors, English Twills, Spitalsfields and a wide variety of novelty weaves and designing treatments.

There is a decided tendency, too, toward quieter effects in pajamas and the shirts and shorts. The trend this fall in pajamas is more subdued patterns and color treatments. In underwear, shirts are mostly plain knit and mesh textures with pattern emphasis confined to the shorts in a great variety of treatments.

Fancy waistcoats for business and street wear is a venture for this fall that promises considerable adoption by colleeg men and the more dressy business man.

Sir Francis E. Smith To Visit Toronto

TORONTO, Ont., Sept. 24.— (C.P.)— Toronto will have a distinguished visitor to-morrow in Sir Francis E. G. Smith, a member of the British Law Society, and chairman of the Clergy Medical and General Life Insurance Co., of London. He will be accompanied by James E. Goudge, a director of the company, and Andrew H. Rowell, of chief actuary.

It is understood the object of the visit is to inspect improved landed property with a view to making loans of British capital and a general review of properties in which such capital is invested.

Great Britain's coal output in a recent week was 3,636,000 tons.

7 Per Cent. Discount On New York Markets

NEW YORK, N.Y., September 24 (C.P.). — The Canadian dollar was quoted at a discount of 7 per cent. on local foreign exchange markets at the close of banking hours to-day.

The dollar opened at 93 cents, one cent below yesterday's close, then dropped to 92 cents before coming back a cent.

NOVA SCOTIA HAS 5 CLUBS

Wee Ships Carry On With All Dash and Spirit of Seafaring Forefathers.

EVENTFUL SEASON.

(By George C. Murray, Canadian Press Staff Writer).

HALIFAX, N.S., September 24.—Proud days were those when Nova Scotia men spread their canvas o'er the seven seas and bred a class of skippers who filled a large place in history of the "new world." Proud days are these, too, when the fair maritime province has a fleet of fishing vessels outstanding on the Grand Banks and a fleet of yachts—commanded and sailed by Bluenoses whose blood is fired with all the keenness, dash and spirit of their forefathers.

Everybody has heard of Nova Scotia ships and sailormen, but Bluenose yachts and yachtsmen are not so well known. Yet in Nova Scotia there are five flourishing yacht clubs. The Royal Nova Scotia Yacht Squadron at Halifax is nearing its 60th anniversary, and its history goes away back of that, for it is the successor of the old Halifax Yacht Club which flourished when yachting was one of the major sports in the old garrison city a hundred years ago. Next in importance is the Chester Yacht Club, which draws a large number of members from the small army of Americans who each year invade the beautiful little south shore town. And there are three clubs on the Island: Royal Cape Breton Yacht Club at Sydney; Northern Yacht Club across the harbor at North Sydney; Bras d'or Yacht Club at Baddeck.

While there is rivalry on Sydney Harbor, ideal for yachting, and on the Bras d'Or Lakes, the competition between Halifax and Chester sailors has made for interest that is excelled by few clubs in America. These two little fleets have weekly club races which keep the crews together during the season, and the inter-club races are events of importance in sporting circles.

Having set sail earlier than ever before, they are now on the last lap of their most successful season. In August the Chester fleet sailed to Halifax and during a week of keen racing won three handsome trophies. The Prince of Wales' Cup presented by the late King Edward when he was visiting Halifax as the Prince of Wales, and competed for annually at Halifax, was won by the Atlanta. Hayseed IV copped the Wenonah trophy and was awarded also the Coronation Challenge Cup on standing in the two races. The only competition of consequence from the Halifax boats was from the Highlander, owned by W. R. MacAskill, internationally famous marine photographer, which placed second in one race, third in the other, and was second in points for Coronation Cup.

Next week the Halifax boats sailed to Chester and there followed another series of races with fine weather every day. In a desperate struggle for possession of the Chester Bay Challenge Cup the Highlander soundly trounced the Chester boats that had beaten her at Halifax, and brought home the trophy.

BOND OF UNION.

DETROIT, Mich., September 24.—Addressing the convention of the American Legion on behalf of the veterans of his country this morning Hon. W. D. Herridge, Canadian Minister to the United States, extended greetings and thanks to the Legion for the aid given Canadian veterans in this country.

Speaking of Americans who had been members of the Canadian Army during the early years of the war, he declared that there could be no closer bond and no surer guarantee of continued friendship between the two countries than the mutual associations of the war.

OTTAWA FEELS QUAKE

OTTAWA, Ont., Sept. 24.— A local earthquake was registered at the Dominion observatory Wednesday. It was announced this morning. Starting at 5.48 p.m. E.S.T., the record continued for two minutes, with the distance to the epicenter estimated at 125 miles.

MISS BONDFIELD IMPROVES.

TUNBRIDGE WELLS, Eng., Sept. 24 (C.P.). — Miss Margaret Bondfield, former Minister of Labor, who is suffering from a nervous breakdown, to-day received permission from her physician to visit her constituency at Wallsend to-morrow.

RUMOR NORMAN TO RESIGN.

LONDON, Sept. 24 (C.P.).—Rumors that Montagu Norman, governor of the Bank of England, would resign were current in financial circles to-day, but it was said at the bank that nothing was known there of such reports.

MONTREAL LIST FIRMER TO-DAY

Brazilian Traction Sells at a Gain of 3-8 During Noon Session.

NICKEL UNCHANGED.

MONTREAL, Que., Sept. 24 (C.P.)—Security prices showed more firmness on the Montreal Stock Exchange this morning.

Brazilian Traction had a high for the morning of 11¾, but was selling at 11⅝ for a gain of ⅜ at noon. B.C. Power advanced a full point to 27. Canadian Pacific Railway advanced by fractions to a high of 19, where it was a full point better than yesterday, but then eased back to equal yesterday's close of 18.

Nickel moved within a narrow range and was unchanged at 10⅝ around mid-day. Montreal Power moved up to 38¼ and then eased back to 38 unchanged. Shawinigan, Steel of Canada, National Breweries, Dominion Bridge and Canadian Car were unchanged.

SIX-HOUR DAY FOR RELIEF WORK

(Continued from Page One.)

to accept the handout of one week's work in every three weeks. The administration's reply to this criticism is that only "key" men have escaped the intermittent system of emergency employent. The opinion of Ald. Tuggey and some of the unemployed is that the period of depression has given the so-called "key" men an agreeable "break," and that for them the prevailing conditions have been reversed, that is, instead of less employment than usual, they have been steadily employed through all seasons without the customary winter idleness.

It has also been mentioned that the work is not so involved that some of the new men are unable to pick up its few details in the experience they have already had. The management of the emergency work generally wish to retain their essential crews without change, adding the unemployed to this nucleus body on the rotating system that has been followed for months. They perhaps hold that no matter what changes they experimented with some persons would still be dissatisfied, and that they might as well bear with Ald. Tuggey's grievance as with the criticism of some one else.

Members of the Council who are sincerely concerned with the condition of the unemployed have been anxious for the extension of the available work so that all the men on the list would share alike. And that is the objective which prompts the six-hour day idea. Whether it will be adopted or not depends upon the Council's action when this matter is introduced.

THEATRES

AT THE REGENT

"BODY AND SOUL"

This is the type of production where a misunderstanding colors the entire theme of the tale. Dimly sensed by the audience, another, quite unlooked-for angle, inserts itself at the finale. And then the curtain rolls down, or rather, "The End," flashes across the screen, just when the looker-on is beginning to think better of the lady than he or she did at first.

Charles Farrell has the major role as Mal Andrews, an aviator of the Great War, who, secretly, helps his pal, Jim Watson, in a solo flight in which the latter strafes an enemy balloon and accounts for two Fokker planes. It has been said that Farrell is going along in the talkies on the reputation earned in silent pictures and there is just a little element of uncertainty in his acting that makes it somewhat weak. But he is a likeable tall figure, nevertheless, who falls for the blonde lady very completely.

The prominent lady in the picture is Elissa Landi, who has a dual personality as a light of love and a proper female. While the exotic Myrna Loy is "the other woman," who makes a late but effective entrance.

The story, a little halting at the first, progresses to quite a pitch of high interest and holds several surprises in its unwinding. It is an entertaining production of wartime soldier lads, their dangers and their joys.

There is an extremely funny comedy with a silly ball player as the central figure, and there is a Krazy Kat bit in "Svengarlic," as well as the usual interesting short reels.

The picture, "Body and Soul," is presented under the auspices of the Alumnae of St. Joseph's Hospital, who are selling tickets for the production.—Jeanette.

FOREIGN EXCHANGE.

NEW YORK, N.Y., Sept. 24.—(C.P.)—Prime mercantile paper 2 per cent; foreign exchange irregular. Rates, Great Britain in dollars, others in cents): Great Britain 3.91; France 3.94; Italy 5.14; Germany 22.70; Canadian Dollars at 7 per cent. discount.

May Oppose Tariffs

Sir Herbert Samuels, leader of the British Liberal Party in the illness of Lloyd George, and holder of the portfolio of Home Secretary in the National Government, may throw a monkey wrench into the economic machinery by opposing a tariff.

FLIGHT ABANDONED.

MIAMI, Fla., Sept. 24. — Lou Reichers, aviation editor, and Captain Ugo V. D'Annunzio, son of the Italian poet, discovered a tail skid of their airplane was broken here at 9.40 a.m. E.S.T. and cancelled their attempt to lower Captain Frank Hawks speed record from New York to Havana.

Labor disputes in the Philippines are continuing.

SYNOD SUGGESTS GOV'T PRESENT RED CROSS WHEAT FOR CHINESE

Committee is Instructed to Compile Revised Hymn Book for Next Session.

LONG DISCUSSION.

TORONTO, Sept. 24 (C.P.) — A suggestion that the Federal Government present to the Red Cross, as a gift or on long term credits, a generous amount of Canadian wheat to relief, flood, famine and other distress in China, was endorsed by the General Synod of the Church of England here to-day.

It would be a move deeply appreciated by the people of China, the resolution declared, and would gain the support of the Canadian people.

The Synod discussed at length whether it would be advisable to undertake under present conditions the expense of publishing a new hymn book which would include a number of hymns, such as "O Valiant Hearts," not now available.

It developed that the expense of publication would be borne by the publishing house, but it was pointed out that the present book would have to be discarded and the parishes would be put to the expense of buying the proposed new books.

Magistrate Jones of Toronto remarked that no new book had been issued since 1905 and it would be three or four years before any outlay would be necessary to purchase the new books.

The Synod finally voted to instruct the committee to proceed with compilation of a revised book and submit a draft to the next assembly of the Synod three years from now.

It was announced that the upper house of the Synod had placed the necessary seal of approval upon the proposed change in the constitution calling for election of the Primate by the Synod as a whole.

Half Wheat Threshed Over Saskatchewan

REGINA, Sask., Sept. 24.—Nearly half of the wheat in the province is threshed according to telegraphic reports received over the week-end by the statistics branch of the Saskatchewan Department of Agriculture. Fairly heavy rains were reported in many districts in the north and lighter showers in the southern districts which interfered with threshing operations. In many places several good drying days will be required before threshing can be resumed.

MINISTERS NEEDED BADLY IN NORTH.

HALIFAX, N.S., Sept. 24.—Stirring descriptions of conditions and need for ministers in the Canadian north were given by Rev. W. G. Brown of Saskatoon, Moderator of the General Assembly of the Presbyterian Church in Canada, at the 55th annual meeting of the Women's Missionary Society of the church's eastern district. Delegates from all parts of the Maritime Provinces are attending the meetings, which opened last night.

The Home Missions Board of the Presbyterian Church this year faces a deficit of $180,000, Mr. Brown told the gathering.

Better to eat

YOU'VE NEVER really tasted the full deliciousness of bran flakes until you try Kellogg's PEP Bran Flakes. Here's a whole-wheat goodness with the famous flavor that only Kellogg can give. Taste a mouthful. And you'll vote them the *best bran flakes* you ever ate.

Better for you

There's health in every spoonful too. The rich nourishment of whole wheat and just enough bran to be mildly laxative. Great for a cooling lunch on warm days. Ideal for children at bedtime and after school. In the red-and-green package. Made by Kellogg in London, Ontario.

Kellogg's PEP BRAN FLAKES

LITTLE HEADWAY IN MATRIMONY

Episcopalians Pass, Then Rescind Move Requiring Medical Certificates.

SPIRITED DEBATE.

DENVER, Colo., September 24 (C.P.). — Conservatives held the matrimonial fort at the Protestant Episcopal Convention to-day.

The Liberals were routed during consideration by the House of Deputies of a report of the Committee on Revision of the canon on marriage and divorce. The report was offered as a substitute for the report of the joint commission in marriage and divorce.

The deputies first adopted and later rescinded a provision which would have required parties to a proposed marriage to show medical certificates testifying to their physical and mental health. The first vote was 240 for and 215 against. When the subject was reconsidered through a two-thirds vote, few voices were raised against its withdrawal.

Approval was given a provision calling for the establishment of an ecclesiastical court in each diocese to consider marital cases.

Eight Impediments Adopted.

Eight of nine impediments to the marriage listed in the proposed canon were adopted without debate.

One, which prohibited marriage in the event of "impotence of either party, undisclosed to the other," was approved, but only after a spirited debate, during which the Rev. Z. J. Phillips, Washington, D. C., presiding officer, had difficulty in maintaining order. The Rev. Robert Johnston, Washington D.C., offered an amendment to strike the words "undisclosed to the other," but his proposal was voted down after prolonged argument.

One section of the proposed canon remained for consideration to-day. The final section concerns the remarriage of divorced persons. Sections of the proposed canon already approved are little different than the existing church laws on divorce and marriage, with the exception of the establishment of ecclesiastical courts and the proposal for premarriage instruction.

WILL TERMINATE ORDINANCE

SIMLA, India, Sept. 24. (AP). Sir George Schuster, Minister of Finance, announced in the Legislative Assembly to-day that operation of last Monday's ordinance suspending the statutory obligation to sell sterling or gold against rupees will be terminated.

The Indian Government will take measures to control exchange transactions, he said, so that sales of foreign exchange can be limited to actual requirements for purposes of trade, for fulfilment of obligations made before last Monday and for reasonable domestic requirements.

German Reparations Revision Is Favored

GENEVA, Sept. 24 (A.P.)—The League of Nations financial committee in a report published to-day endorsed the recommendations of the Wiggin Bankers' Committee for the revision of German reparations and inter-governmental war debts.

The committee also recommended that the council send financial exprts to Vienna to assist in the financial rehabilitation of Austria and urged the necessity of raising 250-000,000 shillings (about $35,000,000) by foreign credits for this reconstruction.

M. SCHLOCHOW HAS RETIRED

Brother of Professor Sloane Closes Most Successful Musical Career.

OUTSTANDING MUSICIAN.

The retirement of Max Schlochow brother of Professor Daniel G. Sloane of this city, from musical activities in which he has made a respected name for himself in Germany, is recorded in a recent issue of "The Last News" of Strasbourg, Alsace.

An account highly laudatory is given by the Strasbourg paper in reporting Mr. Schlochow's retirement. In a sketch of his life it is revealed that he is a native of Mulhouse, having been born in the great industrial center in 1865. He studied at the Lyceum of Strasbourg in his earlier years then went to Colmar as a professor in 1886. Three years later he left teaching to devote himself to music.

Preparing in the courses of the High School of Music in Berlin he returned to Colmar and established himself as a professor of music and an organist. There he made a name for himself, founding a mixed choir that won wide repute. Later he returned to his birthplace, Mulhouse, to take charge as organist in the church of St. Etienne. He continued to teach singing and music.

The war interrupted his work but in 1919 he was nominated professor at the Fustel Lyceum in Coulanges and at the Lyceum of young ladies in Strasbourg.

Mr. Schlochow's brother, Professor Sloane in this city, has also gained a wide reputation as a musician and a teacher in the time which he has spent in Canada.

Arable land in Scotland this year is the smallest recorded since 1866.

Japan's autumn cocoon crop is 23 per cent less than in 1930.

VICTOR RADIO
Performance Week
Sept 25-Oct 3 At All Victor Dealers

A really conclusive test of radio value

Here is the opportunity to judge radio on nothing but facts — facts which establish the highest standards radio has ever been called upon to face.

THROUGH the breadth and rigidity of the "7-Point" test, Radio Performance Week provides you with the means for choosing your radio safely and wisely. Here is a real test . . . tangible . . . severe . . . conclusive — an infallible yardstick for measuring all the essentials of radio satisfaction and value.

The "7-Point" test eliminates the influence of exaggerated claims. It eliminates the glamor of extravagant phrasing. It eliminates everything but facts — *hard and fast facts.* Performance, *and only performance,* can meet the rigid requirements of this test.

Use Radio Performance Week . . September 25-October 3 . . . to remove all doubt in choosing your radio. We believe that critical application of the "7-Point" test will establish one radio as outstanding in quality, beauty, value and performance — Super-Heterodyne Victor Radio . . . the *advanced* Super-Heterodyne!

Your Victor dealer is featuring special demonstrations every day during Performance Week. Visit him today. Consider facts . . . then decide.

The 7-Point PERFORMANCE TEST
consists of these all-important questions

1. Is the tone convincing, life-like, enjoyable?
2. Will the set separate the powerful from the weak stations with no overlapping? Can it tune out "local" with a hair-breadth turn of the dial?
3. Has it sufficient power to reach out into vast distances and bring in the station you want with good volume — clearly, precisely, without distortion?
4. Is there smooth control of volume from maximum to minimum? Can you tune in without noise or blasting?
5. Is the cabinet beautiful, modern, and designed to harmonize with the home furnishings? Is it acoustically-correct?
6. Does the tone control device give you complete mastery of the musical scale, from highest treble to deepest bass?
7. Has the manufacturer vast experience, scientific and engineering resources? Is his name known for dependability?

Scientists now tell us that coffee is a fresh food, like milk or butter.

PERISHABLE!

In the same class with butter and milk . . . *because coffee contains a delicate oil which in a comparatively short time becomes Rancid!*

A STARTLING NEW FACT about coffee! Like the cream you put in it, coffee is a *fresh food*, scientists have discovered. Like other fresh foods, coffee is *perishable.*

Fresh, coffee is an invigorating, delightful drink, an actual aid to digestion. *Stale*, it is often a cause of headaches, indigestion, sleeplessness.

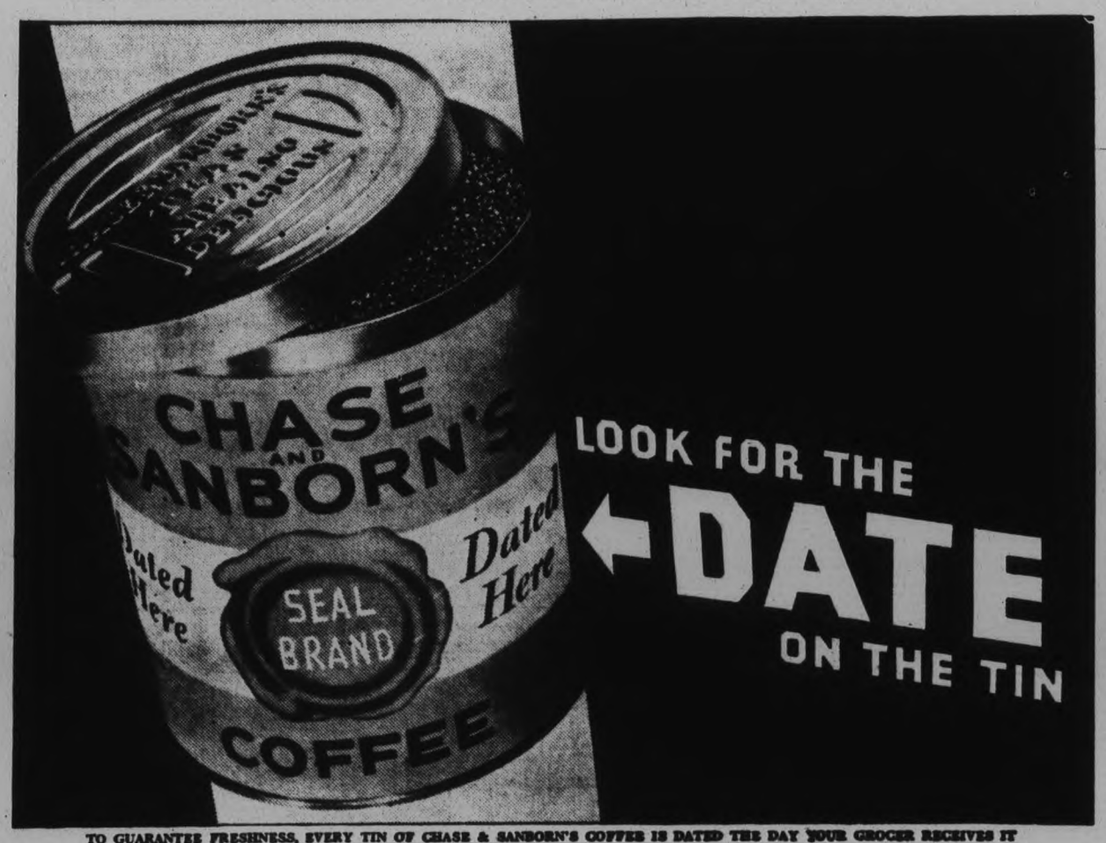
To protect precious flavor and aroma, Chase & Sanborn's Coffee is now rushed to your grocer by the same Dominion-wide delivery system that delivers fresh Fleischmann's Yeast daily. Every tin is DATED the day your grocer receives it. You can't buy a tin of this dated coffee that is more than ten days old.

• • •

SCIENTISTS say that in every pound of coffee there is about half a cup of delicate oil. Fresh, this oil carries the flavor and aroma you love. But in a comparatively short time it becomes rancid—toxic—indigestible—flat. The date on a tin of Chase & Sanborn's is your protection against these dangers.

• • •

For *guaranteed* freshness . . . for flavor which has made it Canada's favorite coffee for over 50 years . . . buy a half- or one-pound tin of Chase & Sanborn's—today. See what a difference *freshness* makes in flavor and aroma.



TO GUARANTEE FRESHNESS, EVERY TIN OF CHASE & SANBORN'S COFFEE IS DATED THE DAY YOUR GROCER RECEIVES IT

HOME TOWNERS

TIDBITS INTERESTING AND HUMOROUS FROM CAMPBELLFORD

Executors of the Brown estate, which is rented by Percy Wood, who suffered the loss by fire on Monday of his barn and crop, have decided to build a new barn on the property. Arrangements for this will go ahead immediately. The approximate damage sustained by the fire was $4,000.

The Rev. M. L. Hinton and son Earl of Castleton were visitors to town on Tuesday attending the Seymour Schools' Association annual fair.

Mr. and Mrs. Claud H. Harris of Toronto, formerly manager of the local branch of the Bank of Montreal are visiting friends and relatives in town.

The dance staged by the Anglican Young People's Club on Tuesday evening proved very successful, with a good crowd in attendance. Music was supplied by Mrs. J. M. Benor, Fred Dorie and J. K. Frederick.

Mr. R. M. Dickson, who has been for some time on the staff of the Canadian Bank of Commerce has been transferred to the bank at Blenheim. He is succeeded by Mr. C. L. W. Fraser, who comes to Campbellford from Almonte.

Kidnapping Suspect Remanded For 8 Days

STRATFORD, Ont., Sept. 24. — James "Red" Shortt of London, arrested in Toronto some days ago and alleged to have been the second figure in the kidnapping of a traffic officer near Walkerton and robbery of a Mitchell garage about a month ago, was brought to Stratford and appeared before Magistrate Makins this morning. He was charged with robbery while armed and of kidnapping highway traffic officer M. R. Hodgson. He was not asked to plea or to elect trial but was remanded to jail for eight days. He was accompanied here by Inspector Ward of Criminal Investigatic Department. According to police Shortt has made a written confession of his part in the affair.

John L. Pilgrim of Bradford, England, has just completed his 173rd crossing of the Atlantic.

Two-year-old heifer — 1, H. D. Coones; 2, J. and F. Mann; 3, Geo. Mullen and Sons.

Heifer calf under 9 months—1, H. D. Coones; 2, H. D. Coones; 3, J. and F. Mann.

DURHAM CATTLE.

Aged bull—1, Clinton McCall.

Two-year-old bull—1, S. Slater.

One-year-old bull—1, W. Elmhirst and Son; 2, A. B. Mann.

Bull calf—1, W. Elmhirst and Son; 2, W. Elmhirst and Son; 3, A. B. Mann.

Milch cow—1, W. Elmhirst and Son; 2, W. Elmhirst and Son; 3, F. Fairbairn.

Two-year-old heifer — 1, M. H. Pimmett; 2, W. Elmhirst and Son; 3, M. H. Pimmett.

One-year-old heifer — 1, M. H. Pimmett.

Heifer calf—1, W. Elmhirst and Son; 2, M. H. Pimmett.

AYRSHIRE CATTLE.

Aged bull—1, Gordon Mann.

One-year old bull — 1, Gordon Mann; 2, Gordon Kidd.

Bull calf—1, Gordon Mann; 2, Earl Roseborough; 3, Gordon Mann.

Milch cow—1, Gordon Mann; 2, Earl Roseborough; 3, Gordon Mann.

Two-year-old heifer—1, Gordon Mann; 2, Gordon Mann; 3, Gordon Kidd.

One-year-old heifer—1, Gordon Mann; 2, Gordon Mann; 3, Earl Roseborough.

Heifer calf—1, Earl Roseborough; 2, Gordon Mann; 3, Gordon Kidd.

JERSEY CATTLE.

Two-year-old bull—1, Allan Hubbel; 2, S. S. Staples; 3, W. H. Downs.

One - year - old bull — 1, S. S. Staples; 2, Allan Hubbel; 3, A. B. Mann.

Bull calf—1, S. S. Staples; 2, Allan Hubbel; 3, A. B. Mann.

Milch cow—1, S. S. Staples; 2, Allan Hubbel; 3, Allan Hubbel.

Two-year-old heifer — 1, S. S. Staples; 2, Allan Hubbel; 3, W. H. Downs.

One-year-old heifer — 1, S. S. Staples; 2, A. B. Mann; 3, Allan Hubbel.

Heifer calf—1, S. S. Staples; 2, S. S. Staples; 3, Allan Hubbel.

HOLSTEIN CATTLE.

Aged bull—1, Earl Roseborough.

One-year-old bull—1, C. E. Moore and Sons; 2, C. E. Moore and Sons.

Bull calf — 1, C. E. Moore and Sons; 2, Earl Roseborough; 3, H. D. Coones.

Milch cow—1, Earl Roseborough; 2, C. E. Moore and Sons; 3, J. and F. Mann.

Two-year-old heifer — 1, Earl Roseborough; 2, C. E. Moore and Sons.

One-year-old heifer — 1, Earl Roseborough; 2, J. and F. Mann; 3, J. and F. Mann.

Heifer calf—1, Earl Roseborough; 2, C. E. Moore and Sons; 3, J. and F. Mann.

GRADE CATTLE (Beef Class).

Milch cow or with calf—1, Elwood Dunford; 2, A. B. Mann; 3, Howard Bullock.

Two-year-old heifer — 1, M. H. Pimmett; 2, Lewis Fry; 3, Allan Mann.

One-year-old heifer — 1, George Mullen and Sons; 2, George Mullen and Sons; 3, M. H. Pimmett.

Heifer calf—1, Frances Gardiner; 2, Lewis Fry; 3, Gordon Carveth.

Fat cow, steer or heifer—1, J. Blakeley and Son; 2, Elwood Dunford; 3, Lewis Fry.

One-year-old steer — 1, George Mullen and Sons; 2, George Mullen and Sons.

Steer calf—1, Leslie Harrison; 2, Howard Bullock; 3, M. H. Pimmett.

LEICESTER SHEEP.

Aged ram—1, H. C. Garbutt; 2, Thomas Beatty; 3, A. B. Mann.

Shearing ram—1, Thomas Beatty; 2, G. F. Fairbairn.

Tup ram—1, H. C. Garbutt; 2, G. F. Fairbairn; 3, T. Beatty.

Aged ewe that has raised lamb—1, T. Beatty; 2, H. C. Garbutt; 3, A. B. Mann.

Shearling ewe—1, T. Beatty; 2, G. F. Fairbairn; 3, G. F. Fairbairn.

Ewe lamb—1, T. Beatty; 2, T. Beatty; 3, G. Fairbairn.

OXFORD SHEEP.

Aged ram—1, C. H. Curtis; 2, S. Elmhirst; 3, H. C. Garbutt.

Shearing ram—1, H. C. Garbutt; Tup ram—1, S. Elmhirst; 2, S. Elmhirst; 3, S. Elmhirst.

Aged ewe that has raised lamb—1, C. H. Curtis; 2, H. C. Garbutt; 3, S. Elmhirst.

Shearling ewe—1, C. H. Curtis; 2, C. H. Curtis; 3, S. Elmhirst.

Ewe lamb—1, S. Elmhirst; 2, S. Elmhirst; 3, S. Elmhirst.

SHROPSHIRE.

Aged ram—1, C. H. Curtis

Shearing ram—1, Max Humphries; 2, C. H. Curtis.

Tup ram—1, C. H. Curtis; 2, Max Humphries; 3, C. H. Curtis.

Aged ewe that has raised lamb—1, C. H. Curtis; 2, C. H. Curtis; 3, Max Humphries.

Shearling ewe—1, C. H. Curtis; 2, C. H. Curtis; 3, Max Humphries.

Ewe lamb—1, C. H. Curtis; 2, C. H. Curtis; 3, Max Humphries.

SOUTHDOWN

(Or Any Other Short Wool Breed).

Aged ram—1, C. H. Curtis; 2, C. H. Curtis.

Shearing ram—1, Max Humphries; 2, Max Humphries; 3, C. H. Curtis.

Tup ram—1, Max Huphries; 2, C. H. Curtis; 3, Max Humphries.

Aged ewe that has raised lamb—1, Max Humphries; 2, C. H. Curtis; 3, C. H. Curtis.

Shearling ewe—1, Max Humphries; 2, C. H. Curtis; 3, Max Humphries.

Ewe lamb—1, Max Humphries; 2, C. H. Curtis; 3, Max Humphries.

YORKSHIRE PIGS

Aged boar—A. B. Mann.

Aged sow, that has raised pigs—1, A. B. Mann; 2, Roland C. Darling.

Boar, 5 months old and under one year—1, Walter Bowles; 2, Walter Bowles; 3, C. A. Curtis.

Breeding sow, over 5 months and under nine months — 1, Walter Bowles, 2, Gordon Mann; 3, Elwood Dunford.

Class O—Tamworth hogs.

Aged boar—1, Roland C. Darling.

HEATING SYSTEM IS COMPLETED

St. James' United Church Has Installed a New Heating System.

GIVEN FIRST TESTS.

The new heating system of St. James' Church is practically completed, and gives evidence of the efficiency that was expected of it. Early last week it was submitted to its first test, and the final stage of installation by Adamson and Dobbin with the insulation of the steam mains and pipes. When water was turned into the boiler for the first time, and fires lighted, steam pressure was registered within forty minutes. The complete system provides for 5,600 square feet of radiation, and included in the equipment are two Trane Unit Heaters which are used only in the Sunday school auditorium to speed up radiation. These apparatus are almost identical in appearance and operation with an automobile radiator except that the fan is behind the radiator instead of in front of it, thereby blowing air out through the room. This air is warmed in passing through the heat coils but the main purpose of the equipment is to set the air in motion so as to hasten radiation.

Plans for the work were prepared by Hornsby and Allen, architects, and the contract for the pow pressure steam system which was especially designed for the church was let to Adamson and Dobbin.

Obituary

MRS. DORIS HOLE

STIRLING, September 24 (Examiner Correspondence)—The death occurred suddenly at her home in Toronto of Doris K. Hole, formerly Doris Duncan, eldest daughter of Mr. and Mrs. John Duncan, of East Toronto.

The late Mrs. Hole came to Canada from Leicester, England, twenty-four years ago and resided with her parents in Stirling. She was a great church worker and a member of the Forward Baptist Church. As soloist in the choir, she sang on the Sunday immediately preceding her death.

The funeral service was conducted by Rev. F. A. Robinson and Rev. W. Hughes, B.A., many beautiful floral tributes marking the esteem in which the deceased was held.

MRS. JACK JOHNSTON.

HAVELOCK, Sept. 24.—(Examiner Correspondence.)—The death occurred here on Tuesday evening, Sept. 22, of Mrs. Jack Johnston, mother of Mrs. Alex Watson, Mr. Pete Johnston, of Havelock, Mrs. Will Purdy of Cordova Mines, and Mr. Staney Johnston, of Windsor.

Deceased who was in her eightieth year had been ill for a number of months and her death was not unexpected. Her husband predeceased her a number of years ago.

MRS. HECTOR FAULKNER.

HAVELOCK, Sept. 24.— (Examiner Correspondence.)— The death occurred at Mrs. Cummings' nursing home Wednesday afternoon at 3.30 of Olive Faulkner, beloved wife of Hector Faulkner, and daughter of Mr. and Mrs. Phillip Woodcock, of Peterborough. The deceased, who was in her thirtieth year, had been ill for about ten days, death being the result of acute appendicitis.

She leaves to mourn her loss besides her husband, one son, Phillip, her parents, Mr. and Mrs. Woodcock, two brothers, Phillip of Peterborough and James of Toronto, and three sisters, Mrs. P. Bosley, Mrs. R. Windover, and Mrs. H. Viner, all of Peterborough.

CATTLE, GRAIN, PRODUCE

MONTREAL PRODUCE.

MONTREAL, Sept. 24.— Butter prices were lower, and cheese and potato quotations were down slightly, while egg prices held steady on the produce and dairy market here yesterday.

Eastern Townships No. 1 pasteurized butter, in carlots, lost ¼c at 19½c to 19¾c a pound. To retailers, solids and prints were unchanged at 22c to 23c a lb, respectively. Receipts were 460 boxes.

Quebec cheese declined ½c at 11¾c to 12c, while Ontario cheese was unchanged at 12c to 12½c a lb. Receipts were 1,748 boxes.

New Brunswick potatoes dropped 10c at 55c to 65c per 80-lb. bag. Montreal potatoes were firm at 40c to 50c per 80-lb. bag.

Carlot prices of fresh Ontario or Prairie eggs were unchanged, extras being quoted at 30c, firsts at 25c, and seconds at 18c a dozen. British Columbia extras, in carlots, were steady at 32c to 33c a dozen. Quotations to retailers were unchanged, and receipts totalled 1,243 cases.

TORONTO PRODUCE.

TORONTO, Sept. 24.— The best bids for choice creamery solids on the local market yesterday were 20½c for No. 1 and 19½c for No. 2. Brokers were asking 20¾c to 21c for No. 1 and 19¾c to 20c for No. 2, and there was little action, as far as trading was concerned. Buyers were taking only enough to meet immediate requirements, and, as mentioned, were endeavoring to secure supplies at lower levels. The Montreal market on Tuesday was steady at 19¾c to 20c for No. 1 solids in carlots.

Cream.

Cream quotations were steady at 21c for special, 20c for No. 1 and 17c for No. 2 f.o.b. country points.

Cheese.

Trading in cheese was slow at the unchanged prices of 11½c for new large, 11½c for twins and 12c for triplets. Retailers were quoted 13c for new large, 13¼c for twins and 13½c for triplets.

Eggs.

There was a better demand for eggs, receipts clearing well, and brokers were able to secure slightly higher prices on the first two grades at 26c to 27c for extras, 23c to 24c for firsts and 16c for seconds, graded and in free used cases. Supplies were as heavy as usual, but a better consumptive demand was capable of absorbing them. Country shippers were quoted steady prices for ungraded eggs, delivered, cases returned, at 23c for extras, 21c for firsts and 14c for seconds. Retailers were offered extras in cartons at 31c, extras loose at 29c, firsts loose at 26c and seconds loose at 18c per dozen.

WINNIPEG GRAIN.

WINNIPEG, September 24 — Continued higher prices for all Winnipeg wheat futures at the opening here yesterday was the signal for a considerable release of wheat in country elevators and the consequent hedging brought about a partial relapse in the two-day advance. Values at the close were 1c to 1¼c lower than Tuesday's close.

October closed at 54¼c, down 1c; November, a new month, closed at 54⅜c; December, at 51⅝c to 54⅝c, a drop of 1¼c, while May ended at 53⅛c, down ⅝c to ¾c. There was little wheat worked for export trade.

Broomhall reported the weather in Argentina had turned warmer, dissipating fears of frost. A general rain still is needed to bring a return to normal conditions. Reports from Russia indicate seeding of winter wheat up to September 18 was 43 per cent. completed. Collection of harvested grain had not come up to expectations.

Cash wheat spreads were fractionally better, while coarse grains were indifferent.

Futures:

Wheat—	Open	High	Low	Close	Prev. Close
Oct.	55⅝	55⅝	54⅛	54⅛	55¼
Nov.	55	55¼	54⅜	54⅜	
Dec.	56½	56¾	54⅝	54⅝	55¾
May	59⅞	59⅞	58⅝	58½	59¼
Oats—					
Oct.	28	28⅞	27⅞	28	28
Dec.	28⅛	28⅝	28⅛	28⅛	28⅛
May	30¼	30⅝	30¼	30⅜	30

CHICAGO GRAIN

CHICAGO, Sept. 24. — Led by stocks and cotton, the grain markets joined the general procession yesterday toward higher prices. Previous sellers of grains became uneasy, and there was plenty of buying from other sources, more than enough to take the slack out of all the cereals. Widespread sentiment prevailed that bear factors in the grain trade had been overemphasized for at least the present.

Wheat closed unsettled, ⅝c to 1⅛c up, corn unchanged to ⅛c advance, oats unchanged to ⅛c higher, and provisions varying from 10c setback to a rise of 12c.

Ennismore

Mr. and Mrs. J. J. O'Donoghue and family of Toronto spent the week-end with the latter's mother, Mrs. M. Cadigan.

Mr. and Mrs. F. Bolton of Douro were guests of Mr. and Mrs. V. Murphy on Sunday.

Messrs. P. Twomey and Simon Mahoney of Detroit are visiting friends here.

Mr. and Mrs. P. Flood and Mr. and Mrs. J. McKee of Toronto spent the week-end with friends here.

Stirling

Mr. and Mrs. Norman Rosebush were Sunday guests of Mr. and Mrs. R. W. Meiklejohn.

Miss Shirley Moise is confined to her bed through illness.

Mr. Ned Potts is spending a few days in Montreal.

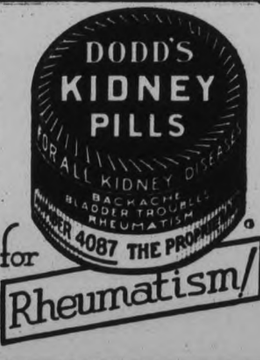
Mr. Allen Meiklejohn and Charley Allen are spending a few days in Toronto.

Mrs. Martha Wescott is visiting Mrs. Nora Wescott for a few days.

Mr. Arthur Duncan is spending a few days in Toronto.

Mr. and Mrs. J. Whitehead and Charles Allen spent Sunday in Campbellford visiting Mr. and Mrs. A. Hay, Mr. and Mrs. F. Rutherford and Mrs. G. Kyle and I.

Mr. Ned Potts had the misfortune to cut his foot while in bathing at Oak Lake.



Thieves Loot Store Three Are Captured

PARRY SOUND, Ont., Sept. 24 (C.P.)—Tearing out brick and mortar in the rear of a grocery store here last night, thieves succeeded in entering the building and robbing the shop of $24. They made their escape to the C.N.R. yards at South Parry, where three of them were later apprehended and lodged in the Parry Sound jail, while the fourth mmber of the gang is still at large.

The names given to the police were Lorne Allen, Keith Monroe, and John Rennie. They refused to divulge the name of the fourth man.

3 Minutes' Work Nets $10,000 Loot

CHICAGO, September 24 (C. P.). — Seven robbers brandishing shotguns and revolvers invaded the Parkway State Bank at 1930 North Clark Street shortly after noon to-day, and looted it of $10,000.

The raid was accomplished in the span of three minutes.

Three members of the band stood guard at the entrance to the bank, while a fourth remained at the wheel of a sedan. The rest menaced three employees and two customers with their weapons.

Lakefield School Fair Prize-List

LAKEFIELD, Sept. 24 (Examiner Correspondence):—

Bury Brockenshire In Toronto Cemetery

TORONTO, Sept. 23 (C.P.).—John Brockenshire, executed to-day for the murder of Constable Roy McQuillin, was buried this afternoon in Mount Pleasant Cemetery. At the request of his parents, the service was conducted by Rev. T. W. Barnett, jail chaplain, who spent the night prior to the execution with the condemned youth.

Former reports had said that the body would be removed to Windsor for burial.

Terribly Itchy Pimples Disfigured Face. Cuticura Healed.

"My trouble began with the skin on my face turning red and being itchy. Later pimples broke out and they were very hard, large and red. They were terribly itchy and every one of them festered and scaled over. My face was disfigured by them. The trouble lasted for about three months.

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and after using two cakes of Cuticura Soap and two boxes of Cuticura Ointment I was completely healed." (Signed) Miss Jean Petrie, Diamond City, Alta.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold everywhere. Sample each free. Address Canadian Depot: J. T. Wah Company Limited, Montreal.

Bridgenorth

BRIDGENORTH CIRCUIT

Mrs. J. A. McElhiney and daughter Elizabeth left for their home in Ottawa on Saturday evening.

Rev. R. D. Wright, M.A. of Gilmour Baptist Church preached in the Bridgenorth United Church on Sunday evening while Mr. Fred Bell preached in Fairview Church in the afternoon. Both speakers delighted their audiences.

Mrs. A. H. Easton, of Belleville, is visiting her daugher, Mrs R. J. Merriam, at the parsonage.

Rev. J. V. McNeeley, M.A., of Keene United Church, will speak at the anniversary services at Fairview on Sunday, Sept. 27, the services being at 10.45 a.m. and 7 p.m. All other services will be withdrawn on that Sunday.

Friends of Mrs. D. E. Merriam of Fenelon Falls, who was hurt when the car she was riding in went into a deep ditch near Frazerville, turning over several times, will be pleased to learn that she has been able to leave Nichol's Hospital and has returned to her home.

Rev. R. J. Merriam attended the inquest into the death of his son held in Norwood on Monday evening.

The evidence proved that while two men stood with Henry on the platform of the caboose from which he fell, neither of the witnesses saw him fall or take the fatal step.

The jury's verdict stated that he came to his death by accident in stepping from a moving train.

Police of Londonderry, Irish Free State, have entered a complaint against boys scaling walls to enter the police barracks to play.

21ST BATTALION HOLDS RE-UNION IN BELLEVILLE

Peterborough Club is Well Represented at the Big Event.

4,000 SERVED WITH UNIT.

The 21st Battalion Club of Peterborough is being well represented at the 13th annual reunion of veterans of this unit, in Belleville today. Some 50 or 60 members will attend.

All indications point to a record crowd. The Club will appear for the first time wearing their new caps and will parade through Peterborough before going to Belleville. Sufficient cars have been made available to the club for this occasion. It is hoped that the Original Brass Band will form together again in Belleville. It is possible that they will meet the Peterborough contingent outside Belleville and escort them through.

The 21st has clubs functioning at Kingston, Ottawa, Peterborough, Belleville, Toronto and Oshawa, and preliminary steps of organization have been taken at Cornwall. During the next year it is hoped to establish clubs at other points in this part of Ontario.

Two Senior Clubs

The club here and the one in Kingston are the senior in point of years. Their formation, in 1918, resulted from the desire of groups of the original personnel, unfit for further service, to perpetuate the traditions of their Battalion and the memory of comrades who gave their lives; to endeavor to assist, collectively as well as individually, each other in becoming restablished in civilian life; to be attentive to the dependents of the fallen, and to preserve those friendships created on active service. Consequently, ex-members of the 21st in Kingston, where the unit was mobilized and disbanded, and here are credited with having started a movement responsible for the splendid peacetime organization of the 21st.

It was in No. 9 Platoon "C" Company, that the majority of Peterborough's first contribution to this battalion served, and its commander, the late Capt. Lou Shepherd, of Alexandria, who, as O.C. "B" Company in the summer of 1916, was killed on the first day of the second phase of the Battle of the Somme, long will be remembered as one of the most efficient and beloved officers of the unit. As time went on officers and others, of equally fine calibre, from this city and district, were identified with the 21st, so it is not surprising that Peterborough, from the last year of the war, should have a 21st Battalion Club.

Oliver White was the first president, and he held office for two years. His successors, equally loyal to what the club stands for, were Walter Harris, 1920-22; Lieut.-Col. Gordon Hall, 1923-26; George Melton, 1927-29, and Jame Houghton, 1930-31. The Peterborough Club, with these and other officers, including Cecil Newman, who has been secretary-treasurer since he returned from overseas, continues in a flourishing condition, fulfilling the objects that prompted its formation.

In January, 1928, the 21st Club here unveiled the bronze tablet in the Armouries in memory of their deceased comrades. On three occasions, in 1921, 1925 and 1929 reunions have been staged in this city.

After six months' training at Kingston, the 21st Battalion landed in England in May, 1915, and, following more intensive preparation for its duties at the front, it disembarked at Boulogne, France, on September 15th, that year. Serving with distinction in the Fourth Canadian Infantry Brigade until the end of the war, it participated in practically every battle in which the Canadian Corps was engaged, and in addition, did 62 tours in the trenches, from the Ypres Salient to the Somme. The 21st was in the advance at Mons in November, 1918, and marched into Germany with the Army of Occupation.

4,000 Served With Unit

About 4,000 officers, non-commissioned officers and men comprised its strength from 1914 to 1919, and greatly to be deplored is the fact that of these 835 were either killed in action or died of wounds, and scores of others have "passed on" since the Armistice by reason of disabilities occasioned by service.

The non-fatal casualties are classified: From enemy fire, 93 officers, 2,189 other ranks; gas, 10 and 125; injuries, 8 and 263.

Reinforcements numbered 4,099, but as many casualties returned to duty after recovering from wounds, hundreds a second time, and some oftener, the number who served with the 21st is approximately 4,000.

Few units have as favorable a record in respect to those who became prisoners of war. Only 12 of the 21st were captured by the Germans, and most of them were taken when wounded.

From a list of 18 battle honors to which this unit was entitled, commencing with Mount Sorrell, the following are emblazoned on its colors: Somme, 1916, 1918; Fiers-Courcelette; Arras, 1917, 1918; Vimy, 1917; Hill 70; Passchendaele; Amiens; Cambrai, 1918; Pursuit to Mons; France and Flanders, 1915-1918.

Bridgenorth Fair Second At Lindsay

(Special to Examiner)

LINDSAY, Ont., Sept. 23. — The following was the results of the horse shoe pitching contest at Lindsay Central fair yesterday: First, $25, Taylor and Smith of Blackstone; second, $15, Nichols and Gravelle of Bridgenorth; third, $10, Hicks and Hicks of Valentia.

SCHOOL PUPILS ENTERTAINED

St. Paul's Y.P.S. at Stirling Are Pleasing Hosts for Occasion.

VARIED PROGRAM.

STIRLING, Sept. 24 (Examiner Correspondence)—The members of St. Paul's Y.P.S. entertained the staff and pupils of the high and public schools, together with ex-students on Monday evening, when more than one hundred and fifty were in attendance.

The guests were welcomed by the president, H. Hulin and Rev. E. W. Rowland extended greetings from the church. Reeve Montgomery spoke a few words and Charles Linn responded on behalf of the school board, as did Mr. Spinks, principal of the high school for the staff and Mr. Snowden for the public school staff.

Miss Bessie Conley favored the gathering with a solo, "The Four-Leaf Clover" and Tom Furnival followed with a cornet solo, "The Firefly" accompanied by Mrs. E. Rowland. Maurice Bell and Kenneth Staples gave a banjo duet, "Queen City March" and Mrs. Francis Jeffrey sang, "Rock Me to Sleep in my Old Rocking Chair." A contest was conducted by Fred Joblin, which was guessing the number of seeds in a pumpkin. This was won by Miss Grace Pitman and the lucky door prize went to Miss Muriel McKee.

The orchestra played for community singing followed by a newspaper contest in which the groups of twenty were given names of well known newspapers, prizes in stunts going to The Globe, with Rev. E. Rowland and Mrs. A. E. Dobbie as winners. Their stunt took the form of a debate, "Resolved that the President (H. Hulin) should have his face lifted."

The Rosebush Orchestra assisted by M. Bell and K. Stapley gave a selection, "Love's Mirror."

Lunch was served at the close.

St. Andrew's Guild

The society met on Monday evening in the basement of the church, when Mrs. Anderson, 3rd vice president took charge of the meeting, Mrs. Baker acting as leader. The scripture lesson was read by Mrs. J. Whitehead.

Psalm 23 was recited by Leslie Eggleton. A. D. Mackintosh gave a talk on "Our Happiness." Mrs. James Montgomery read a paper on "The failings of the young people."

A recitation was given by Phyllis Mitchell and Mrs. A. Murduff sang a solo. Rev. A. N. Reid gave a talk on "The Transforming Power of an Ideal." "Workmen must have patterns, blueprints and models. A block of marble means nothing to a man who is not an artist. A man must build himself. We must build our souls out of truth and spiritual grace. Jesus says, 'Learn of Me.' We must love and know Jesus. Pilate said, 'I find no fault in Him.'

Hastings

Mrs. William Hill has returned home after a pleasant visit with friends in Rochester.

Mr. Joe Gould of the Royal Air Force is spending a few holidays with friends in town.

Born—To Mr. and Mrs. M. A. O'Shea, a daughter, at St. Joseph's Hospital, Peterborough.

Miss Luretta Whatley of Peterborough was a visitor in town during the past week.

GAS HEARINGS TO HALT.

CALGARY, Alta., September 24 (C.P.). — Further public harings on the proposed provincial gas regulations are unlikely and future negotiations likely will be carried out independently between operators and other parties concerned, it was intimated here last night by D. Austin Lane, secretary of the Alberta Oil and Gas Association. Mr. Lane said the meeting of independent operators scheduled for this week would be cancelled.

CANADIAN DEPARTMENT STORES LIMITED

NEW HATS WORN TIPPED SLIGHTLY OVER ONE EYE

Dresses Show Slenderness Below Waist Line and Width Above.

VELVET CONSPICUOUS.

Carrying out the diagonal theme in the new silhouette which is fickle fashion present decree, new fabrics are putting in an appearance in ladies' wear departments of Peterborough modists stores. Another interesting sidelight on the vogue for diagonals is the angle at which the Empress Eugenie hats are being worn, tipped slightly over one eye.

One of the important fashion themes to be introduced this fall is the modern influence. Designers of the new dresses have ceased to copy the costumes of other days and are turning their attention to the possibilities of this modern era. This means that the dresses of 1931 are tuned to the style requirements of the modern woman. The new clothes are obviously new and the silhouette includes many striking points of interest.

The hemline if it is flared at all, is flared in a restrained fashion and dispense with all suggestion of godets and ruffles. When pleats are introduced they are used to give a straight line and create no suggestion of fulness. This rule hold, good for daytime dresses of both silk and cloth and combines excellently with the fashion of molded waistline and hips.

Elaborate seamings, so long an outstanding feature of the mode, are continued for the new season. These are carried out in diagonal line, at the hips, diamond and square shaped motifs are criss cross effects.

Another interesting version of the silhouette is the wrap-around skirt, a natural result of the same influence in the new coats for fall. These skirts are usually carried out in light weight woollens, heavy crepes and ribbed silks.

With all the slenderness of line below the waistline, it is interesting to observe the tendency towards width above. In daytime and afternoon dresses this width is attained by sleeves that are wide above the armholes in dolman-like or raglan shapings, and in frocks that combine two colors—one forming the upper section of the blouse.

For sports wear, for street wear, for business, for practically every daytime occasion the choice of the best dressed women will be woolens this season. They will be seen in coat dresses, two piece frocks, jacket dresses and one piece models.

The tailored afternoon frock of silk crepe has been practically replaced for fall by dresses of sheer weave light weight woolens, although one sometimes finds smart dresses of silk and woolen combinations.

Velvet is most conspicuous this season in sheer transparent, uncut, ribbed, checked and costume versions. The two-color idea is carried out in striking fashion by the use of velvets in black and white, black and flesh and black and beige.

There is no question about satin as a high fashion for fall. During the present time many of the city's smart shops are featuring it for both daytime and evening wear.

The black frock for afternoon wear will be sponsored in woolens as well as satins, while the suit dress is one of the newest daytime creations for fall and promisees to become a popular favorite.

MILLBROOK W.A. WILL PACK BALE

Saint Thomas' Church Auxiliary Lays Plans for Coming Season.

MILLBROOK, Sept. 24 (Examiner Correspondence) — The opening meeting of the Women's Auxiliary of Saint Thomas' Church, following the holiday season, was held at the home of the president, Mrs. C. M. Westmacott on Monday evening, with a good attendance and a spirit of enthusiasm for the year's work.

The devotional period was in charge of the president, and the reports of the officers were most encouraging, Miss Annie Armstrong, Dorcas secretary, giving the information that the request for the annual bale had been received from Toronto, the requirements being the same as last year—part of an outfit for an Indian boy in the mission school at Chapleau, Ontario.

The bale will be packed, and shipped in April. Letters were also received from the head office in Toronto asking for clothing, in good condition, for the needy in Saskatchewan, and Mrs. Bonneville kindly consented to act as convenor for this work, all supplies to be left at Mrs. Westmacott's home, where they will be overlooked to see that everything is mended, cleaned, and in proper repair before the bale is packed and sent on to the W.A. House in Toronto, from whence shipment to designated points will be made.

Dr. Cartwright, who addressed the W.A. Deanery meeting at Bobcaygeon on Tuesday, told of the supplies literally pouring in to the W.A. headquarters, yet assured the delegates that all will be urgently needed in the coming winter.

Mrs. J. E. Allen reported for the Women's Guild, that collections will be made this month for the voluntary giving toward the local church funds, the Guild this year having decided to avoid sales, entertainments, etc. and ask for freewill offerings for this important need in the church's life.

Mrs. H. W. Jordan is again superintendent of the Junior W.A., her report telling of twenty-three already enrolled, and the work started with good prospects for the current year's activities.

A letter in the "Living Message," with the story of two new missionaries in the Arctic, was read by Mrs. J. E. Allen and the secretary, Miss Rose Macnamara, read the chapter from the study book, "Out of Bondage."

The usual pleasant social hour was enjoyed at the close.

FRIENDS HONOR HAVELOCK GIRL

Miss Marjorie Pincombe is Presented Beautiful Pendant at Surprise Party.

HAVELOCK, Sept. 24. (Examiner Correspondence). On Tuesday evening Sept. 22 a very delightful evening was spent by a number of Havelock young people at the home of Mr. and Mrs. Pincombe, King street, the occasion being a surprise party and presentation to their daughter, Miss Marjorie Pincombe, on the eve of her departure for Midland, where her parents intend to take up residence very soon.

The young people, about thirty, arrived at the Pincombe home shortly after nine o'clock and the door was opened by Marjorie herself, who was quite surprised, not having had any idea that the party was in the offing.

Progressive euchre was the order of the first part of the evening, and proved to be a most enjoyable pastime. Miss Mildred Redden won the ladies prize, with the highest score, and Mr. Ernie Sutton carried off gentleman's first prize. Miss Irene Anderson, and Mr. Fred McKenzie were awarded the consolation prizes.

Just before the lunch was served, Marjorie was presented with a beautiful gold and topaz pendant, and short address on behalf of her friends and schoolmates who were present, Marie Bedford reading the address and Evelyn Leng making the presentation. In a few well chosen words Marjorie expressed her appreciation of the demonstration and gift, and a sumptuous repast was then served. Afterwards a couple of hours dancing were enjoyed and the guests departed with very best wishes for the welfare of their former schoolfellow.

(Millions use Rinso. Thousands write us letters like this.)

"Rich, active suds and washday no trouble," says Mrs. F. A Nichols

"Washday is no trouble since I changed to Rinso. No scrubbing or boiling—yet I hang out a sparkling white wash. I'll never wear out my clothes scrubbing them again. I use Rinso for the floors, walls, sinks, dishes. Its suds are so rich and active, even in our hard water, they save me hours of work every day."
MRS. F. A. NICHOLS, JR.

"Rinso is safe," *say women everywhere*

You can trust your finest cottons and linens to Rinso. *Millions do.* It's safe — and *so* economical.

Cup for cup, Rinso gives twice as much suds as light, puffed-up soaps, even in hardest water—it's so compact.

Rinso is equally marvellous in tub or washing machine. Recommended by the makers of 38 famous washers. Get the BIG household package and use Rinso in tub or washer—for the dishes and for all cleaning.

Guaranteed by the makers of LUX—Lever Brothers Limited, Toronto.

"CANNING BEES" ARE HELPING POOR

Movement by Women Preserving Fruits Spreads in Ontario.

TORONTO, Ont., September 24.—"The way in which the women of Ontario have applied the idea of 'canning bees' to preserve food for the families of the unemployed should be an inspiration to all, and an example to the men who monopolize Government positions," said the Globe in a recent editorial.

"The Globe some days ago recorded the fact that the women of Missouri had organized volunteer groups who were busy conserving on a large scale fruits and vegetables which will be needed this winter. S. C. Tweed, M.L.A., publicly urged Ontario women to do likewise. The response has been a striking contrast to the dilatory methods of governments.

"In various centres women's leaders are busy. Housewives are donating spare jars as well as giving their services for the actual work. In some cases foods are supplied free by volunteers; in others vegetables, fruits and supplies are being purchased at present low prices. But the work is going forward, whatever the particular method used.

"It is interesting to compare the different technique of men and women in times of emergency. The men have been arguing about putting the unemployed to work on the trans-Canada highway for the past 14 months. Yet nothing has been done. No sooner do women approve an idea than they get busy and apply it. Men like to do their talking before they start work. Women start work before they start talking."

POSTAL ORDERS NOT PAYABLE IN CANADA.

LONDON, September 24 (C.P. Cable). — The British Postmaster-General issued instructions to-day that British postal orders issued after September 22 will not be payable in Canada.

More than 3,600,000 pounds of freight were carried by French air lines last year.

• • •

Mr. Fermain Holland, son of Alderman and Mrs. D. J. Holland, has returned to Kingston to commence his third year studies in the course in Commerce and Finance at Queen's University.

• • •

Mr. Kenneth Goheen, son of Mr. and Mrs. G. A. Goheen, Dalhousie street, has gone to Hamilton to commence his third year studies in Economics, at McMaster University.

• • •

Mr. Jack Roberts, son of Mr. and Mrs. F. Roberts, Thomas street, is in Kingston today, making arrangements with the University to take his second year course for the Bachelor of Commerce degree in extra-mural work, at home. He will return to Kingston next year, for his third year at Queen's.

• • •

Miss Helen Porter of Lakefield is returning to Kingston soon, to resume her studies at Queen's University, in he second-year course.

• • •

The Misses Dorothy and Barbara Foster, twin daughters of Mr. and Mrs. V. S. Foster, Gilmour street, have returned to Oberlin, Ohio, to continue their studies at Oberlin College.

• • •

Mr. Arnold Spencer, son of Mr. and Mrs. James A. Spencer, Stewart street, has returned to Kingston to commence his studies in the third year of the course in Commerce and Finance at Queen's University.

• • •

Mrs. C. Brooks of 525 George street, with Mrs. Walter Allen, Miss A. Johnston, Miss C. Garvey and Miss T. Huggins, all of Perry street, spent Tuesday in Toronto.

• • •

Mrs. W. C. Moore of Ottawa is visiting her brother, Mr. T. W. Meredith, Lansdowne street.

• • •

General arrangements for the very successful City and District Field Day held at the golf links on Tuesday, were in charge of Mrs. C. G. Graham. Mrs. Reg Turner was in charge of arrangements for tea, and ladies on the various committees were as follows: Trophies and Prizes, Mrs. J. H. Vernor and Mrs. H. C. Scotteran; Match, Mrs. F. L. Roy and Mrs. E. S. Martin; Greens, Mrs. B. D. Hall and her assistants, Mrs. H. Wightman, Mrs. Lionel Scott, Mrs. C. B. Westbrook and Miss Daisy Davidson; Schedule, Mrs. E. H. Wood, Mrs. E. S. Martin, Mrs. B. D. Hall, Mrs. L. A. Potvin; Driving, Mrs. E. H. Wood and Mrs. L. A. Potvin.

CONSTIPATION MADE LIFE DAILY MISERY. TROUBLE GONE NOW

Constipation, Headaches, Dizziness Also Ended By "FRUIT-A-TIVES."

"For a number of years my life was daily misery from Constipation. I often had sick headaches, too, and sudden dizzy spells from Indigestion. I tried everything I had ever heard of but got no relief until I took 'Fruit-a-tives.' I never have Constipation now, and my other troubles disappeared." — Mrs Odilon Martel, Lac Megantic, P.Q.

A host of people praise "Fruit-a-tives" as quickest, surest relief for constipation, headaches, indigestion, dizziness, nervousness. Why? This famous Canadian doctor's discovery combines 6 of the finest herbal tonics with a special secret extract of apples, oranges, prunes, and figs — Nature's own remedies to make and keep you well. No harmful drugs.

Get "Fruit-a-tives" from druggist to-day. New health, vigor quick. Results guaranteed or your money promptly refunded.

FASHION SERVICE

2849

If you were a girl in your teens you'd adore this snappy coat type model with such a grown-up air.

It's so straight and slim with its graceful skirt that swishes about when its wearer moves.

Bone buttons from neck to hem add further distinction to this rust-red sheer worsted now so fashionable in the mode. The white pique collar and cuffs show stitching in the red shade.

It's decidedly practical and so up-to-the-minute.

Style No. 2849 is designed for the miss of 8, 10, 12, 14, 16 and 18 years. Size 8 requires 2¼ yards of 39-inch material with ½ yard of 35-inch constrating.

Tweed in lightweight mixture is sheer wool collar and cuffs. Or smart in dark brown with pastel red maybe you'd prefer a monotone tweed in green diagonal mixture. The side bodice sections, both front and back, could be cut cross-wise, creating a very smart effect.

Don't envy the woman who dresses well and keeps her children well-dressed. Just send for your copy of our Fall and Winter Fashion Magazine.

It shows the best styles of the coming season. And you may obtain our pattern at cost price of any style shown. The pattern is most economical in material requirements. It enables you to wear the new frocks at little expense—two frocks for the price of one.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of pattern 15 cents.

Our large Fashion Book shows how to dress up to the minute at very little expense. It contains most attractive Paris designs for adults and children, embroidery, etc.

Be sure to fill in the size of the pattern. Send stamps or coin (coin preferred).

Price of book 15 cents.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

Following requests for games for children which help to train the eye and hand, the following are given in the column to-day.

• • • • • • •

They are not necessarily confined to youthful minds and abilities. Both adults and little folks can enjoy playing some of them together or either group alone.

• • • • • • •

In almost every instance where eye and hand gain together the games are active.

• • • • • • •

One of the first games of this sort to appeal to boys is marbles. While this trains the eye, especially, a certain manual agility must be mastered also in order to win.

• • • • • • •

One of the first to appeal to little girls is rolling hoops and this is a sport rather than a game in which winning by superiority is stressed.

• • • • • • •

It can become such a game, however, if a definite distance is set for rolling the hoop, and each time the hoop deviates from a chalk line drawn from the starting point to the goal counts against the player.

• • • • • • •

When the little folks get expert, a circle can be drawn and the hoop must be guided around it with the stick in order to win.

• • • • • • •

Each bag trains both eye and hand. This is given zest if the bags are made in amusing shapes, for instance the bags can be bean shaped, like large kidney beans or lima beans and a stout bean pot be used instead of a board.

• • • • • • •

Filling the pot with beans would constitute the game. The one who got the most in during a round of turns would win. This is different from the usual game of bean bag in which aboard with different sized holes are in the board, the largest scoring least and the smallest most.

• • • • • • •

Moreover it is a game that requires no purchase of equipment. An iron pot can be substituted for the bean pot if the mother does not have a regulation bean pot sufficiently large.

• • • • • • •

If the opening is large the distance between it and where the players stand to throw the beans should be decidedly increased.

• • • • • • •

Pass-ball is a game that is enjoyed by little tots and grown men and women, alike.

• • • • • • •

This sport becomes a game only when the spirit of contest enters it. Players lose every time the ball is not caught. The beginning of this excellent game for training eye and hand is found in the use of softballs rolled along the floor to very small youngsters.

• • • • • • •

Later on the soft and harmless ball can be thrown and caught to the delight of the children.

THE RHYMING OPTIMIST

By Alice Michaelis

CONSTANT

Soon spring is past,
The year, grown old,
On wintery blast
Flings autumn's gold.

From summer's glade
Bloom dies away,
The roses fade
On lips once gay.

Each joy has wings,
Youth's reign is brief.
Of all glad things
Old Time's a thief.

Yet hand in hand
And heart to heart
Together stand
We two, apart.

Something above
Bird, beast and grass,
The soul has love
Which does not pass.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Sourness, Gas and Pain. How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestion aids and instead get from any druggist some Bisurated Magnesia and take a teaspoonful of powder or four tablets in water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

MISS DICKINSON GIVES RECITAL CONSERVATORY

Pupil of Dorothy Allan Park is Assisted By Frederick Skitch of Port Hope.

SKILLFUL PIANIST.

(By Jeanette)

Miss Jean Dickinson of Port Hope, a pupil of Mrs. Dorothy Allan Park, gave a delightful song recital last evening in the art room of the Conservatory of Music, with a good-sized audience that included a large number of Port Hope people. Miss Dickinson was assisted by Frederick Skitch, pianist, also of Port Hope, whose solo music made a very pleasant addition to the vocal program and whose accompaniments were extremely effective for a pleasing recital of songs that were mainly of a light and delicate type.

The whole program occupied less than an hour and a half, and thus left its audience as enthusiastic at the close as they were at the commencement. Their applause, which brought the singer back for two encores, at the finish, was an earnest expression of their appreciation of the music.

Miss Dickinson wore a lovely gown of shell-pink gleaming satin, that was very effective against a setting of palms and flowers. Several large bouquets were presented during the evening, among them one from the Port Hope Music Club, of which she is president, and another from her associate members of the choir of St. Paul's Presbyterian Church at Port Hope.

The singer's light, fine soprano voice has delicate, mild cadences that were displayed to excellent advantage in several of her pretty numbers, and her expressive, graceful presentation of a varied selection was attractive in the extreme. The light, fine quality of the half tones in the upper register and the expressive, appealing softness of the lower register were especially good.

"In Summertime on Bredon," by Graham Peel, perhaps exhibited this delicate, pure quality most effectively, in a very charming little "story" song. There was much expressive rendition, also, in a trio in French that included a tender old carol, a song by Poldowski called "L'heure Exquise," and "Le Baiser" ("The Kiss"), by Thomas.

Two songs by Brahms formed the introductory numbers; "Sunday," and "The May Night," with companions in the plaintive, well-sung melody of Straus' "Devotion," and Franz' "In Autumn."

The charming music of" Linden Lea," by Vaughan Williams, was another favorite number, and there were some lovely low tones in "Blow, Blow, Thou Winter Wind," by Roger Quilter.

The last trio of songs included a brief, odd bit called "Sylvelin," by Christian Sinding, and "Love Went a-Riding," by Frank Bridge. A double encore brought two bright, brief selections: "Gathering Daffodils," and Quilters "O Mistress Mine."

Mr. Skitch, who is a youthful and skilful pianist of only twenty years, played three solo numbers, also a fetching encore. Possessed of a light, brilliant touch, a warm smooth tone and a buoyant delivery, his music was extremely effective. He played two of Chopin's brilliant and temperamental compositions: the Grande Valse, opus 42, with its swift and yet dreamy music, and the captivating Black Key Etude, opus 10, No. 5, with its jolly atmosphere and brisk mood. Debussy's Claire de Lune was the third programmed number and there was a delightful little encore that was very interesting with the fetching title of "Le Cavolier Pantastique" (Goddard).

You will find many things in the Classified Ads. of The Examiner.

ST. GEORGE'S CLUB HOLDS 1ST MEETING

Anglican Church Club Office Re-elected at Annual Meeting.

St. George's Men's Club held its first meeting of the season in the church basement on Tuesday evening. There was a good attendance and Mr. A. J. Cole, president, occupied the chair. All the retiring officers were relected to office as are as follows:

Hon. Pres.—Rev. J. L. Hughes.
President—Mr. A. J. Cole.
Vice Pres.—Mr. Albert Cuff.
Secretary—Mr. Arthur Sims.
Treasurer—Mr. Raymond King.

It was decided to enter two teams in the Peterborough Carpet Bowling League, under skips A. Sims and J. Harrington.

Tuesday evenings each week will be kept for meetings of the club and new members will be welcomed.

British Contenders Meet To-day in U.S. Tourney

EIGHT OF FAVORITES SURVIVE TRIAL TESTS IN 35TH TOURNAMENT

Maureen Orcutt and Virginia Van Wie to Meet In Headline Feature To-day.

PLAY IN QUARTER FINALS

(By Francis B Cass, Associated Press Staff Writer)

BUFFALO COUNTRY CLUB, WILLIAMSVILLE, N.Y., Sept. 24—With the home stretch almost in sight and the field reduced to a mere handful, the race for the title of Premier Woman Golfer of the land swung into the quarter finals to-day.

Eight of the leading golfers of two nations, England and United States, have survived the trial races in the 35th annual women's golf championship, and to-day were opposed to each other in the quarter final round.

England will see one championship aspirant forced out of the race to-day—ousted by a countrywoman. Enid Wilson, rangy English champion, meets Marjorie Kerr, also of England. Miss Kerr provided one of the upsets of yesterday's play by eliminating Jane Brooks, girl conqueror of Mrs. O. S. Hill. Miss Wilson played better golf yesterday than she had to date, shooting a par 40 for the outgoing nine and then defeating her opponent, Mrs. L. C. Nelson of Dayton, Ohio, 4 and 2.

Day's Headliners

Maureen Orcutt, Canadian champion, and Virginia Van Wie, Chicago girl finalist in 1929 and 1930, meet in what is regarded as to-day's headliner. Both Miss Van Wie and Miss Orcutt played sensational golf in disposing of their rivals yesterday, and are showing real championship calibre.

The second ranking match of the day brought together Helen Hicks, hard hitting star of the metropolitan district, and Mrs. Leona Pressler of San Gabriel, Cal. Miss Hicks has had no easy row to hoe in the tournament, but has managed to keep in front, despite the challenges of Marion Hollins, a former champion, and Mildred Hack, Chicago district luminary. Miss Hicks was carried an extra hole yesterday by Miss Hollins, but pulled her match out of the fire with a sparkling approach which rested close to the pin while Miss Hollins' second was trapped. Mrs. Pressler yesterday eliminated Fritzi Stifel, West Virginia State champion, in the longest match of the day. The Californit woman won out on the 21st green, but had to display all her golfing technique before overcoming the Virginian.

The ranking titlist, Mrs. Glenna Collett Vare, teed off with Mrs. Leo Federman of New York City, as her opponent. The five times champion so far has made short work of all the title seekers who have opposed her. Mrs. Federman yesterday eliminated Mrs. Helen Payson Corson of Philadelphia, former Canadian champion.

YESTERDAY'S STARS

Earl Averill, Indians—Made four hits in double-header with Detroit to take American League leadership with 206 safeties.

Lloyd Brown and "Firpo" Marberry, Senators—Held Yankees to five hits to win important battle for second place in American League.

Robert (Red) Worthington, Braves—Slashed a single to score two runs and beat the Red Sox 4 to 3, in exhibition game.

I wonder just how many race followers throughout the land gnashed their teeth when they heard of George Crowe, father of nine children, confiding a five dollar bank note to the cashier's wicket at Thorncliffe the other day, and getting back $2,432, being one of the two fortune-favored individuals who had tickets on the daily duet, which paid the longest price of the year in Canada. Crowe says it was luck, plain luck. No one will begrudge him the money. For three years he had been out of work and for several years previous to that he worked only occasionally, war disabilities having rendered him constantly subject to illness. "I have had my luck now, and I'm going to stay away, though the money will not last very long, nor go very far in a big family like mine. But let somebody else have the chance of picking winner, I'm through," he says. Crowe's tickets were on Roche'Or and The Dipper. Ho Hum!

GRIFFITHS BEATEN BY CLOSE DECISION

Ernie Schaaf of Boston Captures His Ninth Straight Victory.

(By William Weekes, Associated Press Sports Writer).

CHICAGO, Ills., Sept. 24. —Ernie Schaaf, the latest Boston heavyweight sensation, to-day had his ninth consecutive victory, but instead of his ninth straight knockout, it was on the books as a hairline decision over Gerald Ambrose "Tuffy" Griffiths of Sioux City, Ia.

Schaaf earned the unanimous decision of Referee Eddie Purdy and the two judges, but the preponderently pro-Griffith crowd of more than 14,000 which watched the Chicago stadium's first offering of the season, disagreed to such an extent that the booing continued for nearly fifteen minutes. The protege of Jack Sharkey fought a methodical battle and it was his bruising body punching that gained the officials' favor.

First Of Play-Offs Won By St. George's

TORONTO, Sept. 24—St. George's got the jump on Bell Telephone in the third round of the O.B.A.A. play-downs when they beat them yesterday 7 to 1 at the Maple Leaf Stadium. It was a real battle for five innings until the break came, when "Bubs" Brinton lifted one over the left field fence with Verral and Flake on the runway. The Bells were leading at the time 1 to 0, and the run looked mighty big. From then on the winners took command, and while the losers fought valiantly Earl Cook was too good for them.

Cook was in top form after a shaky start, allowing two hits and passing three in the first three frames, but settled down after this, giving but two single from then on to the finish. He had great speed, which, mixed with a sweeping curve, proved too much for his opponents. He sent eight back via the strike-out route and was never in any real danger. The "Hellomen," apart from their lone counter in the second stanza, made their strongest bid, an infield error and two force-outs giving them a couple of scoring opportunities, but could not come through.

EXCHANGE ARMS DATA.

MOSCOW, Sept. 24. — (A.P.)— Soviet Russia has exchanged with Italy and Poland data on respective armed forces, in preparation for next year's disarmament conference and also has consented to a direct exchange of similar particulars with Finland.

As the result of road transport development 99 stations of one railway in England have been closed.

WASHINGTON INCREASES HOLD ON 2ND PLACE IN AMERICAN

Nose Out McCarthymen 3-2 in First of Four-game Series.

INDIANS SPLIT BILL.

(By Gayle Talbot A. P. Sports Writer)

Walt Johnson's Washington Senators, inspired by the thought that those fat fortnightly pay cheques will cease coming around after the current week, have won the opening round of their "money" series with the New York Yankees.

By nosing out the McCarthymen, 3 to 2, in the first of four games yesterday, the Senators increased their hold on second place in the American League to one game and a half. As a result, they will need to win only one of three remaining games to beat out the Yanks for the coveted runner-up position.

Means Extra Money

While the general public might not become particularly excited over a joust for second place, taking the stand that a club finishing out of first place has nothing to look forward to except next season, the players have a bastly different attitude. It means several hundred extra dollars to each member of the outfit that finishes second when the time comes for the annual division of world series spoils.

As it turned out, Vernon Gomez, Yankee southpaw, made what might prove a costly error in yesterday's game. He messed up Ruddy Myer's sacrifice bunt in the sixth inning, and before he could Orient himself the Senators had scored all of their three runs and had the game on ice. Gomez was trying for his 21st victory.

Lloyd Brown allowed the Yankees but five hits in the first seven innings, and Firpo Marberry blanked them completely the last two. It was Brown's single through the box that opened the Senators' winning rally in the sixth.

Indians Split With Tigers

In the only other scheduled games played in either major league, the Cleveland Indians and Detroit Tigers divided a double-header. The Tigers took the first, 9 to 7, knocking Willis Hudlin from the hill in the sixth inning, but the Indians came back to win the second, 6 to 2, behind Clint Brown's good pitching and gain an even break.

The highlight of the two contests was the hitting of Earl Averill, Cleveland centerfielder. Collecting four hits, two in each game, the Indian's ace ran his total for the year to 206 and passed Lou Gehrig of the Yankees, erstwhile leader of the American League, who has 205 safeties.

The Boston Braves proved themselves better for the day than their home town rivals, the Red Sox, by taking a 4 to 3 decision in an exhibition game. The National Leaguers, with Ed Brandt on the mound, jumped on Danny MacFayden for two runs in the third and two more in the sixth to win. Red Worthington's single drove in the winning runs in the sixth.

Philadelphia and Pittsburgh were rained out in the only game scheduled in the National League.

Preparations Made Barnyard Tourney

Preparations are going ahead for the horseshoe pitching contests that will be among the more important sidelights at the great International Plowing Match and Farm Machinery Demonstration to be staged here next month. All eyes will focus on Peterborough as the horseshoe pitching headquarters for the Dominion during the four days of the match.

For the purpose of organization a large meeting is being called in the Duffus Building to-morrow night, under the chairmanship of Art Mofatt of this city. Committees will be formed to handle the various arrangements for the extensive horseshoe contests that are scheduled and the horseshoe pitchers of the district who are invited to attend will hear an address by one of the Province's horseshoe officials, Pearson, agricultural representative at Belleville. Mr. Pearson is a member of the Royal Winter Fair horseshoe committee.

Special Prizes.

The contests at the Plowing Match will commence with tournaments open only to residents of Peterborough, Northumberland and Durham and Victoria counties on Tuesday. Special prizes have been arranged for singles and doubles in these contests. It will be interesting to note in this connection that the championship horseshoe team of Ontario comes from Durham county.

The contests on the remaining three days, October 13-16, will be international in scope, open to all.

The International contest is being staged under the auspices of the Royal Winter Fair.

Two gold and two silver medals are being offered to winners of the doubles by the Royal Winter Fair authorities. Among other prizes for the week, shoe and other equipment are being supplied by Diamond Calk Horse Shoe Company of Toronto, which has also contributed prizes.

Twenty-two public school boys of England are making a tour of Australia.

Unable to sell its lumber otherwise, a sawmill company in Singapore, Straits Settlements, used it to build 176 houses, which are now being offered for sale.

Major League Leaders

(Including games of Sept. 23).

NATIONAL LEAGUE

Batting—Hafey, Cardinals .350; Terry, Giants .349.

Runs—Terry, Giants 120; Klein, Phillies 120.

Runs batted in—Klein, Phillies 120; Terry Giants 113.

Hits—Terry, Giants 212; L. Waner Pirates 210.

Doubles—Adams, Cardinals 45; Berger, Braves 44.

Triples—Terry, Giants 20; Herman, Robins 16.

Home runs—Klein, Phillies 31; Ott, Giants 29.

Stolen bases — Frisch, Cardinals 28; Martin Cardinals 17.

Pitching—Haines, Cardinals won 11, lost 3; Derringer, Cardinals won 17, lost 8.

AMERICAN LEAGUE

Batting—Simmons, Athletics .391; Ruth Yankees .372.

Runs—Gehrig, Yankees 159; Ruth Yankees 144.

Runs batted in—Gehrig, Yankees 178; Ruth, Yankees 155.

Triples—Johnson, Tigers 19; Blue White Sox 15.

Home runs—Gehrig, Yankees 45; Ruth, Yankees 44.

Stolen bases—Chapman, Yankees 61; Johnson, Tigers 33.

Pitching—Grove, Athletics won 30, lost 3; Marberry, Senators won 16, lost 4.

STRAIGHT HEAT TROTTING WINS

Lou Entricken and Louis Botha Are Winners in Stirling Races.

SOFTBALL TOURNAMENT.

BELLEVILLE, Sept. 24.—In connection with the Stirling Fair yesterday, three races were contested, all being won in straight heats. Lou Entricken, owned by Henry Diment of this city, was the class of the field in the 2.23 class, while Louis Botha, owned in Smiths Falls, was an easy winner in the free-for-all. One accident marred the afternoon sport, when Howard McQuag, teamster of Red Peter, was thrown off rounding a turn, and the horse ran away for a mile. Neither driver nor horse was injured.

A softball tournament was also held, Stirling defeating Bethel in the first game 5—2 and winning the final from Ivanhoe by a 7—4 count. The fair recorded the largest attendance in the history of the association. The summary of the races is:

Free-for-All—

Louis Botha, H. S. Hunter, Smiths Falls	1	1	1
Dick Sunday, T. McCracken, Trenton	3	2	2
Lena Direct, W. Elmhirst, Indian River	2	3	3

Time—2.19½; 218; 2.16½.

2.23 Class—

Lou Entricken, H. Diment, Belleville	1	1	1
Sid Direct, J. Labarge, Bancroft	2	2	2
Frisco May, D. Welsh, Hastings	4	3	3
Red Peter, D. Welsh, Hastings	3	4	4

Time—2.18¼; 2.18; 2.17½.

Green Race—

Craggie G. F. Rush, Stocco	1	1	1
June S. W. Smith, Belleville	2	2	4
Willow Dale, A. McLaughlin, Frankford	4	4	2
Flossie Pointer, G. Garrison, Frankford	3	3	3

Time—2.29¼; 2.29¼; 2.29.

Starter—George O. Tice, Belleville. Judges—Thomas Montgomery, Ben Ketcheson, H. P. Panning. Timer—James Lagrow.

Swizerland has only 140 talkie theatres.

SWEDEN ADVOCATES THAT 1932 OLYMPIC GAMES BE POSTPONED

Financial Depression Makes Task of Raising Money Extremely Difficult.

NO COMMENT AT N.Y.

STOCKHOLM, Sept. 24—An opinion that the 1932 Olympic Games at Lake Placid and Los Angeles should be postponed because of the financial depression has been expressed in Swedish sporting circles.

Although no official action has been taken, it is the opinion here that such a move would meet with almost unanimous support of European nations, where the depression is most keenly felt. The cost of Swedish participation in the winter and summer games has been estimated at around $200,000.

NEW YORK, N.Y., Sept. 24 (CP) —A suggestion coming from Sweden through unofficial channels, that the 1932 Olympic Games at Lake Placid and Los Angeles should be postponed because of the current depression and the difficulty many European nations are having in raising money to send teams to United States has not stirred up much interest among athletic officials here.

Commenting on the suggestion from Chicago and Lake Placid, both Avery Brundage, President of the Amateur Athletic Union, and Dr. Godfrey Dewey, chairman of the Olympic Winter Games committee, expressed the same opinion. They quoted the provisions in the Olympic charter which say that "An Olympiad may not be celebrated but neither the order nor the intervals can be altered" and expressed the opinion that all European nations would manage to send teams to the games.

FIGHTS LAST NIGHT

Chicago — Ernie Schaaf, Boston, outpointed Tuffy Griffiths, Sioux City, Ia., (10); Larry Johnson, Chicago, outpointed Lou Scozza, Buffalo, N.Y. (8); Dave Maier, Milwaukee, stopped Tiger Thomas, Leiperville, Pa. (2); John Schwake, St. Louis outpointed Salvatore Ruggierllo, Italy (6); Hymie Wiseman, Des Moines, Ia., outpointed Solly Schumann, Chicago (5).

St. Louis—Midget Mike O'Dowd, Columbus, O., outpointed Mickey Genaro, Chicago (10); Johnny (Peewee) Kaiser, St. Louis, knocked out Babe Ruth, Louisville, Ky. (2); Dave Barry, Springfield, Ill., outpointed Jimmy Sayers, Lafayette, Ind. (3).

"I Grow it *for* You"

Under sunny Ontario skies, this fine Burley tobacco is cultivated specially for pipe smokers.

Its flavour is as distinctive as that of the luscious fruits grown in the same districts—and because it gives a cooler, sweeter, longer burning smoke, thousands of Canadians who desire to support their country's products have welcomed it.

— and don't forget, you get more tobacco for your money.

COBOURG HERE ON SATURDAY

Coach Legon's Squad in Fine Condition to Meet Lakeshore Gridiron Knights.

PRACTICE FORWARD PASS.

This afternoon will see the final work-outs for the P.C.I. teams in preparation for their initial games Saturday afternoon.

The Senior squad, under Coach E. Legon, has been hard at work most of the week that they may be in the best possible condition when they meet the Cobourg High School team at James Stevenson Park this Saturday.

The team has progressed rapidly since their first scrimmage a couple of weeks ago and the boys are working together in fine style leaving no doubt but that they will again be serious contenders for the group championship.

This year's outfit should compare favourably with last year's high scoring machine and with additional weight should prove a strong defensive aggregation. Saturday's game will give rugby fans the opportunity to view the forward pass under the new rules. The local team, although not strong supporters of the forward pass idea thrilled many with their well executed tosses last Fall and Coach Legon has the boys well drilled again in this department of the game.

Once more P.C.I. will field a fast team and although possessing line plungers of note, will depend greatly on their running plays to pile up the points.

Young and Richardson, two of the fastest and trickiest halfs ever developed at the school will be on the half line and opposing line men will have to be on their watch all the time to keep track of these performers. Doug. Fraser will handle the squad from quarter and Harry Marsh will be at snap. Waddell and Clayton will be at inside, with Armstrong and Clark at middle and Reynolds and Gardiner probable outsides. Dinneson will look after the flying wing position and high class alternates for line positions will be, Jopling, Lord, Breckenridge, Thirnbeck, Kirkwood and Wood.

P.C.I. DEFEATED BY GROVE 17-3

Scrappy Prep School Team Holds Lead From Start of Tussle.

SCORE 3 TOUCHDOWNS.

In an exhibition contest staged at Lakefield yesterday afternoon, the P.C.I. Intermediate rugby squad met stern opposition in the Grove School team and were forced to take the short end of a 17—3 score. The scrappy, determined Grove team held the upper hand from the start and with hard tackling and heady team-work ran up three touchdowns and a rouge by half time, to give them a 16—0 advantage. The local team found themselves after the rest, however, and managed to kick three points while holding the School scoreless. Neither outfit showed to any great advantage in the final quarter, but Grove managed to count a single on a rouge.

Disney, on the half line for the Lakefield squad, was a tower of strength to his team and besides accounting for the three touches, did some spectacular running on the backfield. Carson, Burgess, Stuart and Wright also showed up nicely in the play.

The P.C.I. squad were slow in getting started and their attack appeared weak when yards were needed. Their inability to get the right play away at the right time cost them several extra gains and the team appeared not to be working together. Dearborn was the P.C.I. stalwart, and was good for a nice gain practically every time he was called. Roy Tranter caught everything that came his way on the half line, and the highest punts of the homesters he took without a fumble. Westbye did the booting for the team and turned in a creditable performance, kicking three sure singles that could not be returned.

The game, being the first fray that either team had engaged in this season, was naturally not packed full of thrills. Both outfits had their weak moments and misplays were numerous, but considering that the teams have been practising scarcely over a week, both teams showed fine promise for the future weeks.

The tilt should prove exceptionally beneficial to the Garnet and Grey team in view of their first league fixture in Oshawa Saturday, and will give Coach Cummings an opportunity to smooth out the noticeable rough spots in yesterday's encounter. The teams:—

P.C.I.—Duncan, centre; Parnall, Wilson, insides; Johnson, Yeotes, middles; Glover, Waddell, flying wings; Mackay, McKone, outsides; Tranter, Hewett, half-backs; Wainman, quarter; Budd, Westbye, Dearborn, Darcy, subs.

Grove School. — Harris, centre; Wood, Bagg, insides; Gunn, Wright, middles; Stuart, flying-wing; Burgess, McDonald, outside; Carson, Disney, Atwood, half backs; McGray, quarter; Grey, Frewer, Magill and Anderson, subs.

Referee—Mr. E. Legon.

SPORTS

SOCCER, BASEBALL, GOLFING Day by Day AQUATIC, SOFTBALL, TRACK

CASUAL COMMENT

A bunch of local ball tossers down at the Exhibition last week got togeher and talked over World Series propects, and one thing and another. It wasn't long before they drifted around to the subject of luck in this game, which more than any other sport is packed with what the players term "the breaks."

• • • • • •

Well, before long the boys were having a hot argument, some claiming that the breaks went to the winning team because the team itself made them, while several fellows maintained that luck was something no one could control in baseball or anything else. The session ended a draw as it's almost impossible to settle this old question.

• • • • • •

But Ty Cobb thought differently. Away back in 1908, he, for the first time in baseball history, went from first to third on a sacrifice hit—so upsetting the infield that the ball was juggled and he scored. Going from first to home on an infield bunt and had the crowd half crasy, but the stunned players could only gasp "Luck!" They had the bad judgment to say it right to Cobb's face after the game.

• • • • • •

"Luck!" yelled Ty, "it certainly was not luck. I did it. I created my own luck, that's what I did. I knew I could go from first to third because I had a good lead, lots of speed and a tricky slide. Besides I knew the first baseman wouldn't be expecting the play and would be slow throwing. When I hit third, I saw the throw was to one side and I knew I could score before the third sacker could pull down the peg and get set to throw it home."

• • • • • •

"And you call that luck!" Ty laughed bitterly. "Well, I'll show you. I'll do it again and again while I'm in this league." And he did do it again and again, getting himself named as the greatest ball player of all time. So, it seems that luck is what you make it.

• • • • • •

The P. C. I. rugby schedules open this Saturday, with the senior team playing Cobourg here and the local intermediate squad journeying to Oshawa. Both Peterborough outfits have been hard at work all month and are in shape for the opening matches. Coach Legon is confident they will be up there again this year.

• • • • • •

There'll likely be a crowd of rooters over at Stevenson Park Saturday to see how the P. C. I. of this year compares with those of other years. It seems the local senior team is generally fast and tricky but shy of the poundage that is so important in this game. Still, if they have the speed and the brains, they can get through any line.

• • • • • •

Cy Horner, the Toronto boxer who made such a fine impression here last spring, has been winning quite a few scraps in the Queen City recently. But the other evening in Detroit he had some tough luck. Horner was boxing Schwartz, Golden Gloves welterweight champ, and was more than holding his own when they bumped heads in the third round, Cy getting the worst of it. The referee stopped the scrap.

• • • • • •

Speaking of boxing, All Saints Athletic Club meets tomorrow evening at 7:30 in their club rooms to discuss a stable of mitteers for the fall and winter. They have the material if they can get a good coach. Some of their scrappers have never shown in public but look like they could handle anyone their weight in the city.

• • • • • •

We hope to see several amateur cards put on between the different boxing clubs this winter, as there is plenty of future ringmen being developed, and the simon pure scrappers generally put on a real battle. Some two dozen or so boys are hard at it now getting in shape for future fights.

Wins Golf Cup

PERCY BOND

Druggist of Ontario recently staged a tourney for the golf championship of the various districts in the province. Cups, to be competed for annually by each district, were presented by Northrop and Lyman Company Limited, donators also of the Nalco All Ontario Trophy for the Provincial Championship. Results now to hand of the district tournaments name Percy Bond Peterborough, as winner of the cup for the Peterborough and Oshawa district. Mr. Bond holds the cup for the ensuing twelve months.

BALMY BEACHES ROUNDING INTO GRIDIRON SHAPE

Ponton to Field Squad Against Varsity Inter-Collegiate in Post-season Series.

FOR DEGRUCHY CUP.

TORONTO, Ont., Sept. 24.—(By the Canadian Press.)—Further development of the use of the forward pass, which will make its initial appearance in Canada football this season, signalling drills and tackling practice will compose the program of workouts for Toronto's three senior rugby teams, tonight. Following last night's heavy rain practice fields are expected to be in a sloppy condition unless a strong sun during the day dries the ground

Coach Alex Ponton of the championship Balmy Beach aggregation, reports that his squad is quickly rounding into shape and a strong team will be fielded against the Varsity Inter-Collegiate squad in the elimination round of the city championship playoffs for the De-Gruchy trophy on Saturday. Ab Box and Doug. May, two of last season's backfield stars, who were unable to make the trip to Montreal last Saturday when the Beaches were forced to bow to Montreal A.A.A. by a score of 16-0 will be seen in action Saturday, Coach Pontoin announces.

Close to 45 players are expected to be on hand to-night when Coach Buck McKenna sends his Argonaut squad through a stiff workout which will be composed mainly of signalling and tackling practice. The Scullers are in fine shape and are called to beat Varsity Orphans in Saturdays' championship game. Frank Turville the brilliant kicking half of the team is reported to be booting the ball farther than ever this season.

The final sorting out exercises of the University of Toronto's Inter-Collegiate and Ontario Rugby and Football Union squads will be undertaken by Coach Harry Hobbs at Varsity Stadium to-night. More than 80 players were out to the first practices but this number has been cut considerably and only about half that number are expected to attend to-night's workout.

Bowling Notes

Three games remain to be played in group 4 of the doubles schedule at the Peterborough Lawn Bowling Club to decide the winner of the group. To-night Geo. Coleman, Jr. and Ray Brown will play Cloy Taylor and H. Northrop. J. McDonald and Wm. Greenslade will play W. J. Oke and K. McCannon. The winners of these two games will play off for the group leadership. H. Coleman and Stan Lowe are the winners in group 1.

Singles Schedule

Play in the singles schedule will commence in earnest to-night. The following games are to be played: F. Biddle vs. C. S. Williamson; R. Dyer vs. B. Bolam; F. H. Dearborn vs. G. Sorensen; Jas. McDonald vs. P. Nichols; J. T. Braund vs. G. Tremain; L. Brown vs. Tom McDonald; K. McCannon vs. J. D. Fitzpatrick; Dr. Allen vs. W. Fletcher; C. H. Benson vs. J. E. Smith; A. McPherson vs. J. Penrose.

Four hundred anglers recently attended the Farndon, England, Church, then held a fishing competition in the River Dee.

Collegiate Field Events on Friday

The annual Field Day of sports for the Peterborough Collegiate and Vocational School will be held to-morrow afternoon at the Exhibition grounds starting at 2 p.m. This annual event is being held under the management of the P.C.I. and V.S. Boys' and Girls' Athletic Associations.

All friends of the Collegiate Institute and Vocational School are invited to be present. If weather conditions are unfavorable a postponement will be made.

PLOWING MATCH INTEREST KEEN

Further Prizes and Donations Are Being Offered Daily.

HOPE FOR NEW RECORD.

The local committee of Peterborough citizens and farmers in charge of the details in connection with the forthcoming great International Plowing event is gratified and encouraged by continuous increasing enthusiasm on the part of all citizens throughout this community, rural and urban.

Further, prizes and donations, unsolicited, are being offered daily. Men and boys who never plowed at a plowing match before are getting ready and anxiously awaiting the days on which the coaching demonstrations will be held in the various townships during the two weeks prior to the match.

Farmers are voluntarily offering their teams and tractors, all of which is ample proof that the citizens of Peterborough and Peterborough County are determined that the International Match at Peterborough will set a record that future municipalities will scarcely be able to duplicate.

As time progresses, everyone seems to be seized of the tremendous value that will accrue to agriculture and the improvement to an already marvelous community spirit, permeating Peterborough and the surrounding counties.

There are so many classes in the Inter-County Match which will be held the first three days, and the International contest the following three days, together with the fact that there are several classes for men who never plowed at a plowing match bfore, that surprises are in store, and trophies will be won by those who never dreamed that they would establish themselves as prize plowers.

There are encouraging features in the boys' classes, for the reason that all boys who plow are assured of a prize, in addition, every boy under 14 years of age who plows at the International Match and does not win a prize will be given $5 in gold by J. J. Duffus.

Lacrosse Notes

The lacrosse players will practice at the Exhibition Grounds at 5:15 this evening and again on Saturday afternoon at the usual time, and a full turnout is requested.

ADVERTISE IN THE EXAMINER

BIG STOVE ORDER COMES TO CITY

Adam Hall Foundry Gets Order to Make Stoves for Northern Camps,

PARTS ALREADY SHIPPED.

Providing full time employment for the entire staff of the Adam Hall Foundry, Limited, in Peterborough, is at present working on a government contract received through Crawley and McCracken for a quantity of camp stoves and heaters, for use in the proposed highway construction camps to be operated in the north country by the Provincial Government.

A portion of the order has been shipped to various distributing points. The entire order it is expected will be completed within a week's time. There is favorable prospect of further orders.

In a letter to J. F. Strickland, K.C., P.P., the Adam Hall Company acknowledge the part which Mr. Strickland played in bringing the order to Peterborough. The letter states in part: "The Adam Hall Ltd. plant is now working at full capacity and employing a large number of men. It is most gratifying to the stove manufacturer and their employment, also to the city in creating employment."

The De Laval Company of this city have also received an order recently through the instrumentality of Mr. Strickland. They write to him as follows: "We wish to hereby acknowledge your splendid cooperation in obtaining the contract and thank you for the great amount of help you gave us. There is no doubt in our mind whatever, but that without your assistance we would never have obtained the order."

The order referred to was for a pasteurizer and other equipment for the hospital at Woodstock. The equipment has been put under construction and delivery will be made within the next week or so.

HARMONICA HARRY VISITS PETERBORO

"The Hobo Entertainer" is Broke But Not Downhearted.

Pat Smith, sometimes called "Harmonica Harry" and other times known as "The Hobo Entertainer" is in town. He is looking for a dollar or two to allow him to go on with the show. Although he is finding it hard going, Pat is a regular trooper and never quits.

He does not hide the fact that he is a hobo and during his visit to Peterborough intends to pick up a few bits of change the best he can, giving in exchange some music on his harmonica and other impromptu entertainment. Pat himself says: "If you have no work you may need a good laugh, and if you let me know, I will make you laugh, if you haven't laughed since the stocks started to tumble. Some call me 'Harmonica Harry' and some call me 'The Hobo Entertainer' but I don't care what they call me as long as I get enough calls for work of any kind. I am broke but not downhearted."

Anyone interested in helping this enterprising gentleman who refused to be put down can find him at 125½ Lock street.

POSTPONE PARTY FOR MACDONALD

Premier Believes Carrying Out of Banquet Would Be Mistake at Present.

MANY TICKETS SOLD.

(By Thomas T. Champion, C. P. Staff Writer.)

LONDON, Sept. 24.—(C.P. Cable)—At the Prime Minister's own request the non-political banquet which Scotsmen proposed to tender him on his 65th birthday anniversary, Oct. 12, has been postponed.

"When I agreed as far back as July to be the guest of my fellow Scotsmen in London some time in autumn," the Prime Minister wrote, "the position of afairs in the country was different than what it has since become.

"Under the present circumstances I think it would be a great mistake to carry out the program as originally arranged. I shall retain all the pleasure and honor which the dinner would have given me and all the highly valued feelings which I have for those of my fellow countrymen, who were promoting the feast."

The committee hope, the Prime Minister will later reconsider his decision. About 400 persons had already bought tickets. Among the proposed speakers were the Archbishop of Canterbury; Charles G. Dawes United States' Ambassador; Col. John Buchan, Scottish novelist and Conservative Member of Parliament; Lord Inchcape and Sir Robert Horne with Lord Elgin as chairman.

A.Y.P.A. PRESENTS PLEASING CONCERT

Varied Program Staged in Parish aHl lof St. John's Church.

A concert, under the auspices of the Peterborough Local District Council of the A.Y.P.A. was staged Tuesday evening in St. John's Parish Hall. The branches of St. Luke's, St. John's and All Saints' were responsible for an interesting program of a varied nature. J. Morley and Jack Cuffe acted as chairmen.

Miss Lily Bacon played a delightful piano solo. A sketch, "Percival at the Ball Game," by Messrs. Herb Lee and C. Hope was most amusing. Jack Cuffe charmed his audience by two cleverly played piano solos. A quartette composed of Messrs. Jack Marshall, A. Williams, C. Hope and W. Hepburn rendered several well-known songs. All Saints' presented a novelty sketch in which a chorus, Misses Ivy James, Olive Elcombe, and Messrs. Vic Chandler and Gordon Young, all suitably costumed, sang "School Days," followed by a solo from Miss Ena Young, and another by Miss Gwen Lucas, both daintily dressed in long frocks. Mr. Jim Morley, as a fisherman, Miss Helen Risko, an old lady, and Miss Dorothy Worboy, old-fashioned, completed the cast. Miss Edith Wills gave a pleasing recitation. A shadowgraph, by Messrs. H. Lee and D. Bethune was another interesting item. Ken Brown was encored heartily after his xylophone solo. The quartette from St. Luke's sang again, finishing with "Abide With Me," in which everyone joined. Jack Marshall and his orchestra supplied the music for dancing. Refreshments were served by the city branches.

Sportsmen Appealed Game Preservation

HOT SPRINGS, Ark., Sept. 24.— C.P.) — Governor Doyle Carlton of Florida, last night appealed to sportsmen of the nation to co-operate with protective organizations and commissions in conservation of fish and game.

Speaking before a joint banquet of the American Fisheries Society and the International Association of Game, Fish and Conservation Commissioners, Governor Carlton expressed laws can be made rigid enough and enforced sufficiently to preserve wild life.

The American Fisheries Society, at the concluding session of its annual convention here yesterday, elected as president A. Rodd, Ottawa, chairman of the Fish and Game Commission for Canada.

MAN VISIONED AS OFFSPRING OF THE STARS

Gen. Jan Smuts Outlines Holistic Theory of the Universe.

SEEN AS PHILOSOPHER.

Claims World Seems to be Decaying, Regressing to Simpler Forms.

LONDON, Sept. 24 (A.P.)—A "Holistic" theory of the universe, in which "science is perhaps the clearest revelation of God," to-day gave General Jan C. Smuts attention as a philosopher as well as statesman and soldier.

The former Premier of South Africa has come to the conclusion from long study that material conceptions of space and matter are of the unity of mankind's evolution which he calls "Holism."

As President of the British Association for the Advancement of Science, he explained to the centenary meeting of that organization yesterday, his "scientific world picture of to-day."

"In other respect," he said, "it is a strange new universe, impalpable, immaterial, consisting not of material or stuff but of organization, of patterns, or wholes which are unceasingly being woven to more complex or to simpler designs.

Universe Decaying

"In the large it appears to be a decaying, simplyfing universe which atttained to the perfection of its organization in the far-distant past and is now regressing to its simpler forms—perhaps for good, perhaps only to re-start another cycle of organization.

"But inside this cosmic process of decline we notice a smaller but far more significant movement — a streaming, photoplasmic tendency, an embryonic infant world emerging, throbbing with passionate life and striving toward rational and spiritual self-realization.

"Instead of the armistic or the mechanistic or the mathematical universe we see the genetic, organic, holistic universe in which the decline of the earlier physical patterns provides the opportunitity for the emergence of the more advanced and rational patterns.

"In this holistic universe man is in every truth the offspring of the stars. The world consists not only of electrons and radiatrons but also of souls and aspirations. Beauty and holiness are as much aspects of nature as energy and enthropy.

"And evolution is perhaps the only way of approach to the framing of a consistent world-picture which would do justice to the immensity, the profundity and the unutterable mystery of the universe."

AUTO RUNS 59 MILES ON GALLON OF GAS

Automobile engineers who worked for years in an effort to reduce gasoline consumption have found the solution in a marvelous invention that fits all cars. An actual test made by one of the engineers showed 59 miles on a gallon of gas. Thousands of car owners have already installed this new invention. They not only report amazing gas savings but are also surprised to find quicker pick-up, instant starting, smoother running motors and more power. The Whirlwind Mfg. Co., Dept. 1394-S, Station C, Milwaukee, Wisc., for a limited time is offering a free device to those who will help introduce it. They also need men everywhere to make up to $100 weekly in their own territory taking care of local business. Write them at once for free sample and big money-making offer.—Adv.

BURGESS BEDTIME STORIES

THE WATCHMAN OF THE HEIGHTS

The watchman doth his vigil keep,
While others work or play or sleep.
—Whistler the Marmot.

Whistler the Marmot is the watchman of the heights. Far up on the mountain beyond the tree line, where there is only rock and low-growing plants to furnish him food, he makes his home, for he loves the clear air and the solitude. Do you know what solitude is? It is being alone, without near neighbors. People who love company cannot bear solitude, but Whistler prefers it.

But solitude is now and then broken by visitors, and from the time he was a wee fellow poking his head out of his home for his first wondering look at the Great World he was taught that such visitors as occasionally visited that rock slide were almost certain to be hungry folk who would like nothing better for dinner than a fat Marmot, and that eternal watchfulness was the price of security and a long life.

"Your eyes were given you for something besides looking for something to eat," his mother had explained. "We Marmots have extra good eyes. Yes, sir, better than anyone who wears fur with whom I happen to be acquainted, and Old Mother Nature didn't give us such good eyes for nothing. To some people she has given poor eyes, but wonderful noses and ears, but they live where the trees and bushes and plants make good eyes of little use. So they must depend on their noses and ears for safety. But up here where we live there is nothing to prevent seeing for long distances, so she has given us eyes for that purpose. But don't forget that the best eyes in the world are good for nothing if not used."

Whistler the Marmot is the watchman of the heights

"N'm. I won't forget," Whistler promised, and he never did.

"You've got good ears, too," continued Mother Marmot, "and they are important. Yes, indeed, they are important. They are not so important as your eyes, but still very important. You must never depend on your eyes alone. The good watchman both looks and listens. He lives longest who uses best his eyes and ears. Never, never forget that."

"I won't," promised Whistler.

"Then, too, we Marmots must stick together," Mother went on.

"What do you mean by sticking together?" asked Whistler, wrinkling his little brows.

"Warn each other of danger," replied Mother. "It isn't enough to think only of yourself. You must think of others. The safety of all means the safety of each. If you see an enemy you must warn others, so that they in turn will warn you when they see an enemy. That is what your splendid whistle is for. When you have whistled a warning you have done your duty, and then it is up to you to look out for yourself, and up to others who have heard your warning to look out for themselves. Each Marmot is a watchman, not only for himself, but for all others within hearing. To give warning is a duty you owe others and that they owe you."

All this Mother Marmot explained to Whistler when he took his first peep at the Great World. Instantly Mother hustled him into the house. "Hurry! Hurry!" she commanded.

"Why? I didn't see anything to be afraid of," complained Whistler, for he wanted to sit out there in the sun and look at the Great World.

"Neither did I, but one of our friends did, and that is enough. Always instantly heed a warning," replied his mother.

So it was that Whistler received his first lesson very early, and from that minute he determined to be the best watchman on the mountain, and in time that is just what he became.

He was known far and wide as the watchman of the heights, and not only other Marmots but other people learned to heed his sharp whistle when they heard it and to be on guard.

What To-day Means To You

"LIBRA"

If September 24th is your birthday, the best hours for you on this date are from 8.45 a.m. to 10.30 a.m., from 1 p.m. to 3.30 p.m., and from 8.06 p.m. to 10.10 p.m. The danger hours are from 11 a.m. to 12.50 p.m., and from 5 p.m. to 7.15 p.m.

Unexpected turns in the current of events will be productive of many surprises on September 24th, according to astrological indications. Professional people will take a step forward; employees will secure advancement. In each instance, the good fortune will come unexpectedly and suddenly.

A child born on this September 24th will have a difficult nature and an awkward temperament. It will not make advances, and will receive the advances of others with indifference. If, however, the outer shell should be penetrated, there will be discovered a kernel of constancy, truth and sincerity capable of an enduring and abiding love.

You, if born on September 24th, consider yourself strong-willed and determined. Those who know you will, however, consider you stubborn and obstinate. That you are self-assertive, no one attempts to deny. You form opinions quickly, and advance them in a most positive manner, even though you may not be so well-informed as the victims of your "say-so." You do not possess a judicial mind, and your vision is "one-track." This attitude is a serious handicap and militates against that success which you ambition for yourself.

Self-analysis, conducted on honest principles, will convince you that you are not always right. As it is, when failure overtakes you, other are blamed, it is not your fault. You are altogether too "cock-sure" of yourself. A little more mental modesty would do you a lot of good.

You possess, this cannot be gainsaid, many natural abilities. These enable you to grasp the essentials, and discard the "unnecessaries," of a problem. They do not save you at all times from error. You are very pronounced in your likes and dislikes. When you like people you will do anything for them, but when you dislike people, you will do anything to them. Your horoscope denotes many "ups and downs," with sustained success in middle age.

For Constipation

You do not have to experiment with ENO'S "Fruit Salt." Millions have, in the past sixty years, proved its worth as a non-habit-forming regulator. There is only one ENO. Resolutely refuse substitutes.

ACTS 14 WAYS AT ONCE

SUSPECTED TRIO ESCAPE POLICE

Leap on Tillsonburg Chief Overpowering Him as He Attempts Arrest.

USING STOLEN CAR.

WOODSTOCK, Ont., Sept. 24. — (CP)—When Chief of Police Reynolds of Tillsonburg attempted early this morning to arrest three men travelling in a stolen car and suspected of other thefts in the district, he was jumped into with both feet by one of the trio, all three afterwards making their escape though the chief managed to daze his assailant with his baton. The man's companions tore him loose from the still recumbent police officer's grasp and the trio made their getaway on foot. An all-night search of the countryside by provincial and local police failed to reveal any signs of the wanted men who are now believed to have left the district in another car, stolen in Tillsonburg while the search of the outlying districts was in progress.

ASSIGN JOBLESS ON QUOTA BASIS

Sections Where Unemployed Not Too Many Municipalities Can Look After Them.

STATEMENT FROM HENRY.

TORONTO, Ont., Sept. 24 (C.P.). In Southern Ontario centres where unemployed are not numerous, the Ontario Government believes they can be taken care of by their own municipalities, said Hon. George S. Henry, Premier of Ontario, to-day. M. Henry had been asked regarding a letter from J. A. Ellis, secretary of the Unemployment Relief Fund, to M. U. Ferguson, town engineer of Port Hope, Ont., to the effect there were already many unemployed in Northern Ontario and it was unlikely many would be required from Southern Ontario for highway construction work.

A. W. Crawford, deputy Minister of Labor, said to-day men for the northern work would be chosen as equitably as possible.

Mayor Peebles of Hamilton, Ont., has received a letter from Premier Henry, assuring him the unemployed in various municipalities would be assigned to work on northern highways on the quota basis.

ALL IS CALM AT COCHRANE

Mayor Mitchell States Jobless Chased Out in Riot Are Out to Stay.

5 TO APPEAR IN COURT.

COCHRANE, Ont., Sept. 24 (C.P.).—The minor uprising of the unemployed has subsided and everything was normal to-day. Some five men are held on charges of obstructing an officer, assault and holding an unlawful assembly, possibly appearing in court to-morrow.

Mayor Mitchell stated that once free of the men the town would not permit them to again establish themselves in the municipality. "We have our own unemployed to care for," he said, "and if we allow these men to stay there will be trouble all winter. We have been operating a bread line all summer and feel we have done enough."

With the town providing two meals a day and citizens providing clothes and shoes, large numbers of unemployed men gathered in Cochrane. There was no work for this floating labor, however, and yesterday the men staged a parade. Following a request to the Council for better food and clothes and some spending money, the men refused their food. A miniature riot resulted when the police, aided by a number of special constables, broke up the parade, and the specials chased a good proportion of the unemployed out of town.

TARZAN AND THE JEWELS OF OPAR NO. 88 By Edgar Rice Burroughs
(Metropolitan Newspaper Service)

Sleepless upon his cot, Albert Werper's imagination dwelt upon th charms of the young woman in the nearby tent. He had noted Mohammed Beyd's sudden interest in her and he began to fear that the Arab might forestall him in encompassing his base designs. Then a sudden resolution came to him. He rose, buckled on his cartridge-belt and revolver, stepped to his tent flap and looked out. Strange! There was no guard before the prisoner's tent! What could it mean?

Boldly he walked to the entrance and stepped within. Dimly the moonlight illumined the interior. Across the tent a figure bent over the cot. A man's figure, and he guessed the truth of the nocturnal visitor's identity. A sullen, jealous rage enveloped him. He took a step forward just as a frightened cry rang out. The girl awakened, recognized features of a man above her and Werper saw Mohammed Beyd seize her by the throat and bear her back upon the cot.

Cheated passion cast a red blur before the Belgian's eyes. No! Th man should not have her. She was for him alone. Quickly he sprang forward and threw himself upon Mohammed Beyd. The Arab tore the Belgian's fingers from his throat and wheeled upon him. Blow upon blow the two battled about the small interior, while the girl, wide-eyed in terror and astonishment, watched the duel in frozen silence. Again and again Werper struggled to draw his revolver. Mohammed Beyd was unarmed save for a long knife.

And now Fate ordained that he should draw it as he stood panting during the first brief rest of the encounter. "Dog of a Christian," he hissed. "Look well upon this knife in the hands of Mohammed Beyd. It is the last thing that you shall see or feel," and with that he rushed viciously upon the Belgian, his knife raised high above his head. Werper was still dragging futively at his weapon. The Arab was almost upon him. In desperation the European waited until Mohammed Beyd was all but against him.

Want New Highway Peterboro To Ottawa

Bancroft, Renfrew, and Eganville citizens, supported by their Boards of Trade and Chambers of Commerce, are advocating a motor road across country from Peterborough to Ottawa, as a great benefit to the northern country through which the road would pass, and a big delegation will shortly wait upon Hon. William Finlayson, Minister of Northern Development, to press the necessity of opening up the new road. This road, if approved, would pass through Burleigh Falls, Apsley, and on north via Bancroft, Cormac, Brundell, Combermere, Eganville, etc.

Consider Personnel Railway Probe Body

OTTAWA, Sept. 24. (CP)—With the appointment of a Royal Commission to study the railway situation in the offing, the Government is giving consideration to the personnel of the body. An early announcement is expected.

Sir Henry Thornton, chairman of the Canadian National Railways and E. W. Beatty, President of the Canadian Pacific Railway, despite a report to the contrary published yesterday may be members of the commission. In co-operative action in the study of railway conditions, the present feeling is that the heads of the two railways would be valuable members of the body.

END PILES QUICK
No Salves—No Cutting.

Your itching, bleeding, protruding piles will go when you actually remove the cause—bad blood circulation in the weak flabby parts—and not one minute before. Salves or cutting can't do that—an internal remedy must be used. HEM-ROID, prescription of Dr. J. S. Leonhardt, succeeds because it stimulates the circulation, drives out congested blood deals and restores the almost dead parts. HEM-ROID has such a wonderful record right in this city, that McDermid & Jury, Bond's Drug Store say, one bottle of HEM-ROID Tablets must end your Pile agony or money back.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

TWIN CUCUMBERS

Another "sister act" in the cucumber family has come to light. And these sisters certainly do stick together. Reading in yesterday's paper of two cucumbers growing partially joined a la Siamese fashion, Charles W. Clark, 260 Westcott Street, brought into The Examiner this morning two cucumbers that held together with a bulldog tenacity. They were both perfectly formed and complete in every way, but joined together from end to end with not a bit of light showing between them.

ONE FIRE CALL

A run was made at 12.05 last night by the fire department to Aylmer Street South, where some electric wires had caught fire.

TRAFFIC RE-ROUTED

Mark Street is getting more than its share of traffic these days, since Rogers and Douro streets are partially closed while a large gang of men plough up and repair the roads. The bus going through Ashburnham now leaves Hunter at Mark and goes through to Douro turning then to Rogers and continuing north. It returns the same way, and the usual heavy traffic on Rogers Street is similarly diverted up the recently renovated Mark Street, while a number of the leisurely class pass the time by watching the busy road gang at work.

A LOST BAG OF POTATOES

A bag of potatoes, apparently dropped from a passing vehicle at the corner of Water and London street yesterday, can be obtained by the owner from I. N. Bell, 114 London street. If not claimed, Mr. Bell will turn the potatoes over to the relief fund.

Weddings

DAWE—BEATTY

On Friday, Sept. 4, 1931 at Millbrook by the Rev. W. W. Jones, Lottie Rebecca, eldest daughter of Mr. and Mrs. H. G. Beatty, Peterborough to Rex Angustus, eldest son of Mr. and Mrs. F. C. Dawe of Bethany.

Obituary

JAMES R. DODWORTH

James R. Dodworth, prominently identified in musical and business circles in Pittsburgh and district and well-known in Stoney Lake and throughout this district where he had spent the past thirty-three summers, passed away at his summer home, Stoney Lake, yesterday, at the age of 61 years.

At the time of his retirement some ten years ago the late Mr. Dodworth was organist and director at Emmanuel Episcopal Church at Pittsburgh, where during his thirty years' service he had built a choir of men and boys famous throughout that section of the United States. On several occasions members of his choir made trips to their leader's home near Gilchrist Bay, Stoney Lake.

Born in Retford, England, Mr. Dodworth went to the United States when 21 years old, as a teacher of music including organ, voice and piano at Chicago.

He was married at Pittsburgh 35 years ago this summer, to Elizabeth Kenah, who survives him.

During his first year in Pittsburgh, the late Mr. Dodworth was organist at Trinity Episcopal Church. Apart from his musical ability he was engaged in business, and was president of the Pittsburgh Hanover Coal Company and the Allegheny Block Coal Company both of Pittsburgh. He was also President of the Night Hawk Peninsula Mines, Limited of Ontario, and the Callinan and McKay Exploration Company of Ontario.

In his younger days Mr. Dodworth was something of an athlete and was a member of the Keystone Athletic Club of Pittsburgh.

Besides his widow he leaves three sons, James R. Junior, Paul K., and William Stanley, all of Pittsburgh.

He was a graduate of the Royal College of Organists in London and the Royal Academy of Music, from which schools he received his Fellowship Degrees both in organ and piano work.

Funeral arrangements are not yet complete, but the body is to be conveyed to Pittsburgh for interment.

Protection Is Asked For Opening Of Mines

ESTEVAN, Sask., Sept. 24 (C.P.)—Following the apparent failure of repeated conferences, negotiations between the striking coal miners of this district and their employers are on the verge of breaking up. Despite the intervention of municipal and provincial authorities and of the Federal Department of Labor, the parties are deadlocked.

The operators say they are compelled to re-open the mines, using whatever labor offers itself. They have wired provincial and dominion officials asking for police protection in the event of a disturbance when the mines open up.

BIRTH.

O'NEILL. — At St. Joseph's Hospital, on Monday, September 21, 1931, to Mr. and Mrs. J. O'Neill, 801 Water Street—a son (Gerald Joseph Myles).

FESTIVAL HELD TWEED CHURCH

Rev. Mr. Wright Delivers Splendid Addresses in St. James' Church.

ON SUNDAY LAST.

TWEED Sept. 24 (Examiner Correspondence)—Harvest festival services were held in St. James' Anglican Church on Sunday, Sept. 20.

The church was very beautifully and tastefully decorated in keeping with the harvest season. The rector, Mr. Wright preached a very delightful and inspiring sermon.

At the morning service his text was taken from 14 chapter of St. Luke's gospel, the 10th verse. The fellowship was witness that "God" exists and that to-day, was a day when the existence of a "Father" it was a "Day of Thanksgiving," not only of the harvest, but because it was our duty, to be present in the church and no matter how menial a task was it was a joyous dignity to do it for our "Master," and not only at the harvest services but it was continuous obligation to the church and ourselves to wait on the "Master," as the servant waited on his master so must we wait on God, as the servant received his reward, so shall we receive our reward from the "Divine Master." And as we do here, so shall our influence be felt in the community. Holy communion was received by the congregation of the church.

Evening Service

The evening service was in a different vein. The text was taken from Exodus, chapter 34, verse 22. Mr. Wright's theme was more of a rejoicing strain. Rejoicing because of a "Johovah God."

And one of the first reasons of rejoicing was because of the ingathering of the products of the year, also a memorial of the time, when our forefathers dwelt in tents in the wilderness. As we are thankful and spending one day or hour as the case may be, in Moses time the people spent one week, and it was known as the "Feast of Tabernacles." They faced far more in coming together to worship. Sometimes they were set upon by, bandits, but it didn't deter them in their service of thanksgiving. They believed in a "Divine Providence," over all. So must we be thankful for our mental, moral and spiritual uplift, and rejoice that we are dependent on "God," and that the all prevailing hand of "God," is over all things that are worth while. And we must be guided by a "God" of love.

We must remember we are only stewards of the gifts coming from "God" the "Creator," so must give an accounting of our use of them. We must give our offerings to "God" in proportion to what we have. The rector closed his sermon with a beautiful prayer of thanksgiving.

Both services conveyed the thought that "God" must be supreme, in our daily life, as well as just on Sunday. And as we do here so it shall be meted out to us at the end of time.

A very lovely anthem was sung by the choir, and was appropriate for the occasion.

TOWNSHIP RATES STRUCK BY COUNCIL

Michael Kennealey Appointed Collector by Otonabee Body.

KEENE, Sept. 24—The Otonabee Council met on Monday with all the members present when a by-law to levy and collect certain rates in all the rateable property in the township received its several readings and was passed. The rate for the Township of Otonabee for the year 1931 is 36 mills, composed of the following: County rate, 22.52; Township rate, 5.50; general school rate, 5.35; public school trustees, 2.63.

A by-law appointing Michael Kennaley as the tax collector for 1931 was passed. Mr. O'Keefe asked to have the road leading down to his place ditched and a culvert placed to keep the road from being washed away. Mr Bolin and the overseer were appointed to have it fixed.

The following accounts were ordered paid: work on roads, Sam O'Brien, Peter Mather, $2.50; Ambrose Doris, $108; Robert Richardson, $70; E. Sargent, $3.50; John Edwards, $28.75; Max Robertson, $57; Angus Adamson, $57.50; James Wilson, $65; James Shearer, $72.88; David Kempt, $70.12; William Crowley, $115; John Casey, $33.75; Michael Scott $15; Davir Casey, $8.75; Michael Ross, $11.25; William Elmhirst, $2; James Barrens, $4; gravel, Richard Harrison, $5.26; Robin Thorne, $15.34; Gilbert Thompson, $15.38; Peterborough Utilities, electricity, $1.85; Workmen's Compensation Board, second payment, $90; Walter Garnett, sheep valuer, seven trips, $14; E. Dixon, sheep valuer, one trip, $2; James Barry, sheep killed and injured, $33; Walter Renwick, sheep killed and injured, $33.50; George Fife, sheep killed and injured, $18; Kenneth Eason, sheep killed and injured, $33.25; Michael Walsh, weed inspector, cutting weeds on lot 30, concession 9, $6; Thomas Rehill, cement $4; Mervyn Mather, trucking, $2.50; P. G. Towns, to Douro for work on boundary, $207.66; Drummond and Hall, scraper, $14; Peterborough Examiner Limited, tax bills, $8.06.

The council adjourned to meet on October 19

DEATH

In God's care

CAIN—On Tuesday, Sept. 22, 1931, Michael Cain, beloved husband of Leacen Irwin.

Swansea 11, Cardiff 7.

County Match

Devon 12, Lancashire 25 (at Barnstaple).

Rugby League

Hull 7, Batley 3.

Stop Armament Race Is Borah's Warning

MOSCOW, Idaho, Sept. 24 (CP) Senator William E. Borah, chairman of the Senate Foreign Relations Committee, warned to-day that unless the world turns away from an "armaments race" among nations, "we will seek greater depths of economic misery than we have heretofore known."

He appealed for revision of European post-war treaties which he said are "poisoning the whole life of Europe" with the result that "Europe arms and arms still further."

The Idaho Senator addressed a gathering at the University of Idaho inaugurating the $50,000 "William E. Borah foundation for the outlawry of war" established by Salmon O. Levinson, Chicago attorney.

Germany has an auto-tire-price war.

BOUT POSTPONED

NEW YORK, Sept. 24. —(CP)— The proposed heavyweight bout between Jack Sharkey and Primo Carnera scheduled for Oct. 1 to-day was postponed until Oct. 12 on the plea of Sharkey he had injured his hand.

TORONTO DIVORCE IS GRANTED

A decree nisi was also ordered in the petition of Edith Wright McKay, Toronto, for divorce from Thomas Herbert McKay, farmer, Otonabee township, Peterborough by Mr. uJstice Logie in Supreme Court yesterday.

The parties were married at Keene, Sept. 23, 1903, and there was one child of the marriage, now aged 26 years.

HOME EDITION

VOL. LXVII., No. 72 — PETERBOROUGH, ONTARIO, CANADA, FRIDAY, SEPTEMBER 25, 1931 — PRICE THREE CENTS

WARSAW YOUTH LEFT BLEEDING IN DITCH

GENERAL SYNOD FINDS SOLUTION TO CHIEF WORRY

Will Set Up Electoral College to Carry Out Election of Primate.

ADOPT REVISED CANON.

Move is First Phase of Taking Matter Out of House of Bishops' Hands.

TORONTO, Ont., Sept. 25 (C.P.).—A revised canon providing for the election of the Church's Primate and setting up an electoral college to carry out the actual election, instead of the General Synod Assembly, as previously proposed, was adopted by the Church of England General Synod at its final session here to-day.

The plan for the electoral college was endorsed by the Synod's upper house last night and given final approval by the lower house this morning. The revised canon, adoption of which completed the first phase of the move to take the primatial election out of the hands of the House of Bishops and turn it over to the general representation of the Church as a whole, constitutes the Synod's Executive Council as the electoral college.

No Revision Of Hymn Book.

The House of Bishops at the final session of the General Synod vetoed the approval of the lower house for the proposed revision of the Church hymn-book.

Without denying the merit of a revision, the bishops felt that issuance of a new hymnal at present would entail an undesirable expense to the Church. The plan will come up again, however, at the next assembly of the Synod.

With a bare quorum present, most of the delegates from distant points having already left, the Synod assembly was closed early this afternoon with the farewell blessing of the newly elected Primate, Archbishop C. L. Worrell of Nova Scotia.

YOUTH ADMITS LIFTING SPIKES

Tottenham Farm Hand is Remanded for Sentence Until Monday.

CLOSE CALL TO WRECK.

TORONTO, Ont., September 25 (C.P.). — Pleading guilty to a charge of removing spikes from the C.P.R. for the purpose of doing damage to life and property, Joseph L. J. Young, youthful farm hand at Tottenham, Ont., appeared in Brampton Police Court to-day, and was remanded until Monday for sentence.

Young's arrest and subsequent confession followed investigation by police of the apparent attempt to wreck the Canadian Pacific eastbound Vancouver express last Saturday near Humber Station.

Angle bars and spikes had been removed from a tie on the main line. Only the quick action of Engineer Troman, of C.P.R. train No. 28 from Sault Ste. Marie who felt his train bump over the loose tie an hour before the Vancouver express was due to pass over, and sent out section men to flag the speeding train, averted an accident.

Young is 27 years of age and a native of North Bay. His confession implicated two other men, whom the police are now endeavoring to trace.

The Weather

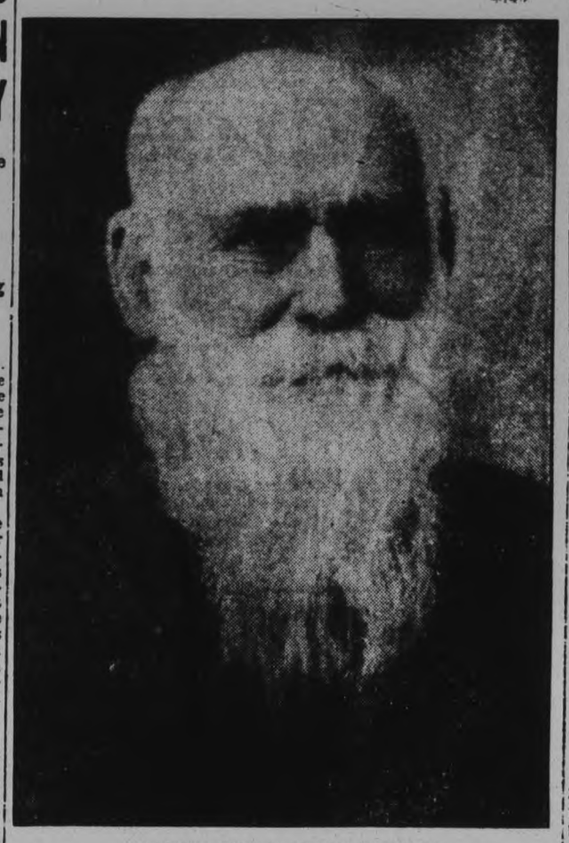
The temperature this morning was down to 35 degrees. This is close to the freezing point, but is not unusual. The first freezing night is generally in the last week of September. The leaves on the trees, as a rule, fall about October 10 to 15, and the first general freeze-up occurs about November 15th. These dates sometimes vary a little but it is remarkable how little.—W. P.

Train Jumps Track Engineer is Killed

EDMORE, Mich., September 25 (C.P.). — The engineer was killed and four other persons were injured to-day when a Pere Marquette combination freight and passenger train jumped the track here and the locomotive overturned.

C. J. Weemuth, of Grand Rapids, the engineer, was killed, and Joseph Gomber, fireman, received severe scalds which the physicians thought might prove fatal.

Celebrates 90th Birthday



CAMPBELLFORD'S GRAND OLD MAN

Frederick Dunwoodie is today celebrating his 90th birthday in Campbellford. Mr. Dunwoodie was born near Hamilton but moved along with his parents to Seymour township in 1848 before Campbellford was known by that name. He is the last of a family of ten.

LIEUT. GOVERNOR OF NOVA SCOTIA TAKEN BY DEATH

Hon. Frank Stanfield Found Dead in Bed—in Usual Health Yesterday.

TOOK OFFICE DEC. 3, 1930.

Was One of Outstanding Financiers in Eastern Canada —59 Years of age.

HALIFAX, N.S., Sept. 25. (C.P.)—Hon. Frank Stanfield, Lieutenant-Governor of Nova Scotia was found dead in bed this morning. He was sworn into office on December 3, 1930, succeeding Hon. J. C. Tory.

Yesterday he visited Truro, his old home and appeared to his friends and former business associates in his usual health. Senator John Stanfield is a brother.

Appointment of Frank Stanfield as Lieutenant-Governor of his native province crowned a business career during which he had become one of the outstanding financiers in eastern Canada. Born at Truro on April 24, 1872, the son of Charles Edwin Stanfield and Lydia Dawson Stanfield, he was educated at the common schools in Truro and entered his father's underwear mill at an early age. How he rose from factory hand to president and built up a flourishing business ten times greater than that of his fathers is a story in itself.

Widely Known

For many years Frank Stanfield devoted all his attention to industry and as his industry expanded his wise counsel was sought by other concerns and at the time of his appointment to the highest post in the gift of his province he was associated with numerous companies and corporations. He was a director

(Turn to Page 5 please)

British Industry Is Starting To Move

LONDON, Sept. 25 (C.P. Cable)—British industry is moving. Four Lancashire cotton mills, two which have been idle for four years, are re-opening. They will employ 1,500 workers. Two blast furnaces will be re-started at Barrow on Monday, and steel works will be re-opened a few days later.

Liverpool reports record sales of cotton. From Birmingham and other industrial centres comes word of a brightening outlook. Inquiries for coal have increased.

Continental countries are reconsidering their position in view of the depreciation of sterling. Scandinavia and Germany are reported to be considering abandonment of the gold standard. It is expected France will further modify her customs for protection of home industries.

Peterboro May Get Convention For 1933

A strong possibility that Peterborough may be the scene of the 1933 Convention of the Ontario-Maritime-Quebec Kiwanis Clubs was suggested by Vice-President Harry Boyle to-day. The Soo was successful in its bid for the convention next year, and Mr. Boyle stated that if Peterborough Kiwanians attend the convention in 1932 with the determination to bring it here, they will succeed in their object. He suggested as a slogan "Make Peterborough For Thee in '33." The "Thee" he explained was of Quaker origin, appropriate due to the fact that the Quaker plant is located here. Herbert McCannon suggested as an alternative slogan, "Make Peterborough Your Holiday Spree in '33."

MRS. G. C. VARE ENTERS FINALS FOR GOLF TITLE

U. S. Champion Defeats Virginia Van Wie 2 Up in To-day's Play.

ENID WILSON OUT.

Youthful Helen Hicks Plays Brilliant Game to Beat British Contender.

BUFFALO COUNTRY CLUB, Williamsville, N.Y., Sept. 25. (CP)—Mrs. Glenna Collett Vare of Philadelphia won her way to the finals of the National women's golf championship for the sixth time to-day when she defeated Virginia Van Wie of Chicago, 2 up, in one of the semi-final matches.

Hopes of Miss Enid Wilson, British champion, to add the United States women's National championship to her long list of titles, was shattered when she fell before Helen Hicks, youthful Long Island star, 2 and 1.

Miss Hicks will now meet Mrs. Helen Collett Vare, present champion in the final to-morrow.

The champion eliminated Miss Dorothy Van Wie, Chicago, 2 up, in their closely contested match.

Miss Wilson, who is moving over to Toronto for the Canadian championship starting on Monday, along with Mrs. Vare and other United States stars, can attribute her defeat to erratic approach shots. Her drives from the tee were generally more accurate and longer than Miss Hicks', but the Long Island girl was more accurate with her chip shots.

Their incoming cards:

Miss Wilson	33465544..
Miss Hicks	44475442
Mrs. Vare in	44746[illegible]41
Miss Van Wie, in	65365545645

Police Are Seeking Hit-and-Run Driver Who Injured Youth

Justy McKievor, of Warsaw, is in a Semi-Conscious Condition in St. Joseph's Hospital Suffering From Severe Head Injuries.

YOUTH IS CARRIED 50 FEET ON RUNNING BOARD BY CAR WHICH WAS TRAVELLING AT FAST SPEED

Struck by a hit-and-run motorist on the Lakefield road late last night, Justy McKievor, Warsaw youth, lies in St. Joseph Hospital in a semi-conscious condition due to severe head injuries.

Meanwhile Provincial and City police are seeking the motorist who hit McKievor, carrying him more than 50 feet on the running board of the car and then left him bleeding and unconscious in the ditch.

Police have only a dim description of the car to aid them in their search, although the contact with McKievor is thought to have been sufficient to dent the right fender of the car and leave other traces of guilt.

McKievor was riding south from Lakefield with Jack Leeson, Douro township. Leeson was driving the car and about a mile out from Lakefield he noticed that one of the tires was soft. He drew over to the right, and stopped. McKievor stepped out on the left side of the car to assist in the work on the tire.

In Cloud of Dust

Swiftly a car approached from the rear in a cloud of dust. McKievor stepped back to avoid it, but its right running board struck him. He was dragged along by the car some fifty feet and then was shaken free, rolling into the ditch.

The car did not stop, but sped on with undiminished speed.

Leeson ran to aid his injured friends, dragging him unconscious from the ditch. A few minutes later L. S. Killaly, 502 Weller street, with a party of Peterborough young people came upon the scene. Efforts were made to staunch the flow of blood from the gashes in McKievor's head.

He was conveyed back to Lakefield almost at once, where Dr. J. C. Smith attended him. Dr. Smith later ordered his removal to hospital here. His conditions is said to be serious but not critical.

At 2.30 this afternoon the hospital reported that the injured youth was still in a semi-conscious condition and was suffering keenly from shock. His head wounds were showing improvement.

Investigations of police have so far failed to get track of the motorist who had struck the young man and then raced away.

KINSMEN HEAR E. A. PECK, M.P.

In Spite of Depression People Are Enjoying Greater Portion of Comfort To-day.

LOOK ON BRIGHT SIDE.

A comparison between the latter years of the nineteenth century and the present day was last night made by E. A. Peck, M.P., who addressed the members of the Kinsmen Club at the Empress Hotel, in support of his contention that despite the economic depression through which Canada is passing in common with the rest of the world, people are, generally speaking, enjoying a greater portion of comfort and prosperity than hitherto.

The chair was occupied by G. Wilson Craw, vice president. Following the introduction of guests and the acceptance into the club of a new member in the person of Al Gray the speaker was introduced by Dr. J. Y. Walsh.

"We have been very fortunate in the past in having prominent men speak to us at our meetings here, and you will agree also that our speaker to-night is no exception to that general rule. Mr. Peck has represented this constituency in the Provincial House and is at present our Federal member. He is well-known in this community and does not really require any introduction," stated Dr. Walsh.

Mr. Peck extended his thanks for the introduction and also to the Kinsmen in general for their invitation to him. He was, he said pleased to have the opportunity of meeting the Kinsmen for the first time and of hearing the objects and high standards of the club. Although a young club, he reminded them, he was well aware of the achievements they had already attained.

Referring to the general depression, which he said seemed to exist in all branches of industry, Mr. Peck said that it was but a reflection of conditions that existed in Great Britain and in other parts of the civilized world. "The end can scarcely be foreseen," he said.

He urged them to look on the bright side of things and to remember that the present depression was not unprecedented. He could recall a much worse period in the history of Peterborough, when in the year 1878 soup kitchens were operated here.

He thought that after the winter was through the country would enter upon better times. "Do not be too depressed about existing con-

Student Admission Requirements To U.S.

The requirements for the admission of Canadians to the United States for the purpose of study were outlined in a communication received to-day by the Chamber of Commerce from the American Consul at Toronto. The communication was in reply to an inquiry made by the local organization.

The advice of Damon C. Woods, the American Consul, was as follows:

"I suggest that the student desiring to go to the United States obtain evidence establishing acceptance by the institution to which he intends to go, consent of parents or guardian to the intended journey to the United States for the purpose mentioned and financial arrangement for accomplishment of that purpose. Upon obtaining these documents they may be forwarded for examination to this office or the applicant may call in person, the latter being preferable. Thereupon, information concerning further requirements will be given."

Scotland has an anti-Communist drive.

Madrigal Singers Go On The Air To-Night

The Peterborough Madrigal Singers, composed of about thirty singers with voices ranging from the low contralto to the high soprano, will be featured in the Canadian Pacific Railway hour of music, between 9 and 10 o'clock tonight, standard time. With this group of favorite singers there also will be associated Rex Battle and his Royal York Concert Orchestra, who will play selections from light operas. Purcell and Arne, the great exponents of the English Madrigal will be drawn upon for the program, with such well-known songs as "Hymns and Shepherds." "In These Delightful Pleasant Groves," "Kind Fortune Smiles," "On Market Day," "Where the Bee Sucks," and "The Lass With the Delicate Air." Other composers will be Rimsky-Korsakoff, Grieg and Brahms, while French-Canadian folksongs will not be overlooked, including such popular examples as "It Is the Oar That Impels Us On" and "Canadian Boat Song."

The program will be broadcast over a coast-to-coast chain of Canadian stations linked together by the radio transmission system of the Canadian Pacific Telegraphs, and will be heard locally over CKGW.

Smoke Obscures Road Autoists Use Lights

UKIAH, Calif., Sept. 25 (C.P.).—Hundreds of men fought forest and brush fires sweeping Mendocino County to-day.

At least eighteen major fires were burning in the border lines of the county, and forest officials estimated property damage at $100,000. A school-house and nine houses were destroyed yesterday, and thousands of acres blackened by the encroaching flames.

At times the pall of smoke was so dense motorists were forced to use their headlights on the highways in the middle of the day.

INQUEST IS HELD INTO DEATH OF BUCHANAN BOY

Twelve-Year-Old Lad Met His Death by Stepping Into Hole in Mill Pond.

GALLANT WORK OF CHUM

Pond is Dangerous for Non-Swimmers, Several Witness Tell Jury.

In a tremulous voice, verging on sobs as memory brought the scene back to him, Kenneth Thompson, small for even his ten years, stood before a coroner's jury at Norwood yesterday afternoon and told how his chum Everett Buchanan, 12-year-old son of George Buchanan, of Dummer, had drowned last Friday morning while swimming in the Norwood mill pond.

"He stepped over his head," the little lad explained. "He just went down. Then he came up. I grabbed him. He pulled me down and the I jerked away from him. He didn't come again."

Everett, free early from school, had gone with three of his chums to find bathing suits in order to swim in the mill pond. He couldn't swim and with no life saving apparatus near the pond his young companions were unable to rescue him when he stepped out beyond his depth.

The two other boys who had been in the pond when the fatality occurred, Raymond Murphy, aged 12, and Danie. McNeil, 10, also told of the drowning and the attempt that Kenneth Thompson had made to save their chum.

Dangerous for Bathers

More than one witness described the dangers of the mill pond for children unable to swim. The jury in bringing in its verdict recommended that the village take steps to make it a safe place for bathers.

The verdict in full was: "We find that Everett Buchanan was accidentally drowned on Friday, September 18, in the mill pond near the mill dam by wading beyond his depth. We consider this to be a dangerous place for anyone to go who is not a swimmer and recommend that the village authorities by some means provide a safe place for bathers."

The inquest was conducted before Dr. H. G. Carleton, coroner, by Crown Attorney V. J. McElderry, K.C.

Constable Isaac Puffer stated that the pool in which the boy was drowned was formed by the water being dammed back. He considered it dangerous for children and especially for non-swimmers since

Larry Gains Wants Primo Carnera Bout

MONTREAL, Que., Sept. 25.—(C.P.)— Harry Levine, manager of Larry Gains, heavyweight champion of the British Empire, who is here with the colored Canadian boxer making ready to sail for England, said this morning that he was wiring Promoter Jimmy Johnston in New York asking him to substitute Gains for Jack Sharkey in the proposed bout with Carnera in Brooklyn, Oct. 12. Levine read in a local newspaper this morning that Jack Sharkey had refused to go through with the fight and decided to start negotiations with Johnston at once. He said that if he could get the match for Gains he would cancel to-morrow's sailing.

KING IS OPPOSED TO TERMINATING TENURE OF GOV'T

Reports Claim Monarch Wishes Economy Program in Force First.

PLAYS INFLUENTIAL ROLE.

Premier MacDonald Returns to London After Short Rest.

LONDON, September 25 (C.P.).—The King is understood to be opposed to the movement for early dissolution of Parliament and a general election. He was said on good authority to be averse to terminating the tenure of the National Government at least until it had put its economy program into effect and restored world confidence in the pound sterling.

The King has played an influential role in politics since the financial crisis was recognized some weeks ago. He rushed back from Scotland and personally took a hand in the formation of the emergency co-operative Government to succeed the Labor Ministry.

Prime Minister Ramsay MacDonald returned to London to-day after a very brief rest at an unnamed retreat in the country. It was stressed, however, the Prime Minister's return was merely incidental to his passage to Chequers, country home of Prime Ministers, where he will spend the week-end.

England has an auto-polo craze.

SHEESLEY SHOW CONCESSIONS ORDERED CLOSED IN LINDSAY

Action Taken By Exhibition Directors Following Several Complaints.

"SHADY" RACKETS.

LINDSAY, Sept. 25 (Special to The Examiner).—Directors of the Lindsay Central Exhibition last night clipped the wings of the unscrupulous gamesters with the Sheesley Shows.

In a hot session the directors ordered the management of the shows to clean up his concessions. He was given to understand that all shady concessions must be closed at once as a protection to the public. The police were given the fullest power to carry out the desires of the directors.

The "blow-off" between Sheesley Shows and the exhibition board came after reports had reached directors of wholesale fleecing of visitors to the exhibition. Heavy losses have been incurred by many who have been induced to play the rackets along the midway. One exhibitor alone is known to have dropped $250.

Market Closing On All Exchanges

STANDARD EXCHANGE.

TORONTO, Ont., September 25 (C.P.). — An upturn in Wall Street in the afternoon to-day was reflected in improved prices for interlisted issues on the Standard Stock and Mining Exchange market. Balance of the list remained in the discard with quotations holding at the minimum levels. Trading was light and the ticker at a standstill for long intervals between sales.

International Nickel was a leader on the up side, closing with an

University Honors Rt. Hon. Ferguson

LONDON, Ont., Sept. 25 (CP) In an atmosphere of quiet dignity in Convocation Hall at the University of Western Ontario this afternoon, the degree of Doctor of Laws honoris causa was conferred upon the Hon. George Howard Ferguson, Canadian High Commissioner to Great Britain and former Premier of Ontario.

HOME IS BURNED IN FRANKVILLE

Blaze at One Time Threatens to Wipe Out Part of Village.

EXTRA HELP CALLED.

BROCKVILLE, Ont., Sept. 25. — Assistance was summoned early this morning to fight an outbreak of fire in the village of Frankville, which was threatening to wipe out part of that community.

A volunteer fire brigade succeeded, however, in confining it to the doublehouse, with outbuildings, owned by Charles Sands, one half of which was occupied by him and the remainder by Stanley Walker.

Only a small amount of furniture was removed from the building one of the finest residential properties in the village.

Occupants of nearby dwellings also removed their possessions but the fire was confined to the one structure.

MUST ABOLISH TRADE BARRIERS TO HELP FINANCE

W. A. Fraser, M.P., Addresses Meeting of Campbellford Cheesemakers' Association.

INTERESTING TALK.

Cancellation of World War Debts Would Bring World Through State of Depression.

CAMPBELLFORD, September 25 (Examiner Staff Correspondence)—"We cannot hope to get over the present state of depression without the cancellation of all war debts and the breaking down of all trade barriers that prevent a proper exchange of commodities," declared W. A. Fraser, Federal member for the riding of Northumberland, addressing a meeting of the Campbellford Cheesemakers' Association and cheese factory patrons last evening in the Beaver Factory, Percy Township, on the subject of "The Causes and Cures of the Present World Conditions." The meeting, which numbered over two hundred, was presided over by W. V. Drewry, association president, A. Merrill, president of the Beaver Factory, welcoming the guests.

Mr. Fraser in his opening remarks, stated that he knew at the present time the world was in a dilemma which affected all peoples and businesses, the cause of which he traced primarily to the Great War.

What took place then has led up to the present state of affairs, he said, pointing out that during those four years of war practically the whole of Europe was devastated in its manood, its trade, and its finance. Consequently it was hard to keep up the production of food and munitions, with the result that the warring nations were forced to borrow money for the purchase of these products. This money was borrowed from the United States he declared, who had accumulated most of the world's wealth in gold

CHARGE IS LAID AGAINST A. MOSS

Comes Out of Recent Investigations Into Affairs of Sukloffs.

OPERATING ILLEGALLY.

As an outgrowth of his investigations into the alleged conspiracy of Norman Sukloff and William Sukloff, George Street merchants, to defraud their creditors, Albert E. Moss, representing the Trustees in Bankruptcy, will face a charge of illegally operating as a private detective.

Moss was in this city for four or five days investigating the Sukloffs' affairs, and it was as a result of his investigations that charges were laid against the two merchants.

An information charging that Moss "did for hire and gain operate as a private detective or investigator contrary to the provisions of the Private Detective Act being revised statutes of Ontario, 1927, Chapter 214," has been sworn out against him. R. C. McIntosh, representative of the International Private Detective Agency is the informant.

It is understood that the case will be heard before Police Magistrate Langley here on Saturday.

Hamilton Is Picked For 1932 Labor Meet

VANCOUVER, B. C., Sept. 25. — (CP)—With its officers for another year elected and next year's convention city chosen, the Trades and Labor Congress of Canada today enters upon the last sessions of its annual meeting here. The delegates will devote morning and afternoon to the consideration of business still before them and pave the way for the concluding session tomorrow.

Tom Moore, Veteran Labor leader, continues as head of the congress and P. M. Draper enters upon his 32nd year as secretary treasurer. James Simpson remains as a vice president, a position he has held continuously since 1903.

Hamilton Ontario, will be the 1932 convention city.

SEEK TO CONFISCATE DO-X

NEW YORK, N.Y., Sept. 25. (CP) Isaac Schafran and Jacob Thaler began suit in federal court to-day to have the German flying boat DO-X confiscated on the ground that the owners, operators and builders infringed on patents the plaintiffs held.

LABOR FIGURES SHOW 5,600,000 JOBLESS IN U. S.

Green Estimates Winter Total Will Jump to 7,000,000.

GOV'T OFFICALS SILENT.

Hoover Keeping Eye on Situation Over Slashing of Wages.

WASHINGTON, D.C., September 25 (C.P.). — A new estimate by organized labor of increased winter unemployment to-day lay before official Washington as it sought the nation's reaction to the wage reduction policy initiated by some major corporations.

William Green, president of the American Federation of Labor, who denounced the wage-cutters as short-sighted and unethical, estimated yesterday that 5,600,000 persons in the United States are now idle.

This represented an increase of 500,000 over his estimate of a month ago, and he described prospects for the winter as "even more serious." Expectant last month of the usual autumn gain in employment, he had forecast a winter total of 7,000,000, but in his more recent statement held "the usual fall gain in employment has not occurred this year."

Government Silent.

Meanwhile, the silence which has clamped itself upon official spokesmen since announcement this week of large scale wage reduction continued. It failed, however, to cover the disagreement among officials as to the wisdom or propriety of the wage-cutting policy.

President Hoover was keeping in close touch with the situation. It was said at the White House, however, that nohing would be said there for the present at least.

U.S. SENDS NOTE TO CHINA, JAPAN

Gov't Follows Advice of League—Asks Two to Withdraw Troops.

CONCERNED OVER CASE.

WASHINGTON, D.C., Sept. 26.—(AP)—A formal appeal from the United States that they withdraw their troops from the Manchurian danger zone to-day lay before Japan and China.

Coupled with this plea was a request that the two avoid acts which might interfere with moves to decide the controversy peacefully.

Secretary of State Henry L. Stimson last night dispatched cautiously worded identically notes to the two powers, expressing regret and concern over the situation.

This official action followed informal representations made to the diplomatic spokesmen here of China and Japan.

Acts on League's Requests

The League of Nations, which had requested United States to take action similar to its resolution urging peace and withdrawal of troops, has been kept advised of the state department's actions.

"In view of the sincere desire of the people of this country that principles and methods of peace shall prevail in international relations, the United States notes said, and of the existence of treaties, to several of which the United States is a party. The provisions of which are intended to regulate the adjustment of controversies between nations without resort to use of force, the United States Government feels warranted in expressing to the Chinese and the Japanese Governments its hope that they will cause their military forces to refrain from any further hostilities, will so dispose respectively of their armed forces as to satisfy the requirements of international law and international agreements and will refrain from activities which may prejudice the attainment by amicable methods of an adjustment of their differences."

Celibacy Urged As a Relief Aid

SARNIA, Sept. 25—Sarnia's unemployed, who have organized themselves, have advanced a number of suggestions for the relief of the jobless, but the prize goes to a suggestion that will be submitted to council by the men's committee Monday evening. This is to the effect that single men be asked to refrain from marriage as a means by which the present relief burden can be lightened.

FOUR NEW RULES SUGGESTED FOR SPEEDBOAT RACE

C. F. Chapman, Member of Harmsworth Commission, Calls for Changes.

REGULATIONS ANTIQUATED.

Provides for Paced Start—Wood and Don Agreeable.

NEW YORK, N.Y., Sept. 25—Charles F. Chapman of New York has called for a new deal in the regulations governing competition for the Harmsworth Speedboat Trophy.

A member of the Harmsworth International Commission, Chapman attacked the present rules on the grounds that they weer antiquated and at the same time suggested four major changes in the regulations.

Chapman would provide for a paced start, the boats to approach the starting line abreast and at lease 300 feet apart; lengthen the course from five to ten miles; provide that it be laid in open but protected water to permit of straight runs of at least three miles between turning buoys; and limit each competing nation to one boat.

Been No Bungle

Such rules, he maintained, would have prevented the recent fiasco at Detroit when Gar Wood and Kaye Don crossed the starting line ahead of time and were disqualified. Don's boat later capsized at is attempted to make the first turn.

Chapman's recommendations, which he believes would provide for a truer test of speed and a safer one for the contestant, will be presented formally to the International Commission when it meets in England shortly. Both Wood and Don have been informed of the suggested changs and have approved them in their major phases, Chapman adds.

BLAZE SWEEPS VALOIS VILLAGE

Nine Buildings Destroyed Despite Efforts of Forces From 8 Centres.

$75,000 DAMAGE.

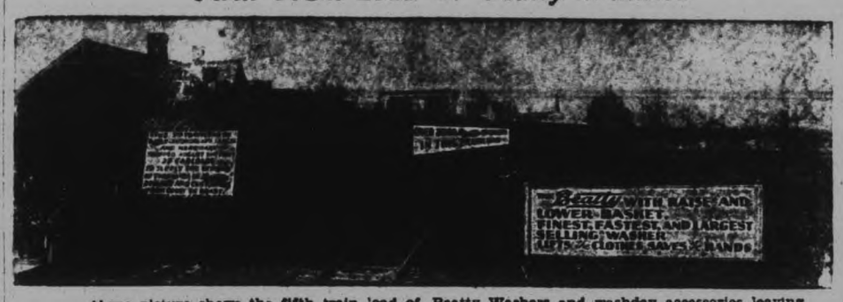
VALOIS, N.Y., Sept. 25.—Fanned by a high wind, fire swept through the business section of this Seneca Lake village late last night and roared on toward the homes of the 300 villagers. Firemen from eight nearby communities, hampered by lack of water, battled throughout the night to stop the flames as they licked their way along the main street, the main highway between Watkins Glen and Geneva.

Early this morning, nine buildings had been destroyed and many more were threatened. Estimates of damage placed the loss between $75,000 and $100,000.

The fire started in the hall of the Knights of Pythias Lodge. Several explosions were heard as the building burs into flames. The origin was not determined.

Bicycle thieves are busy in Belfast.

Fifth Train Load Of Beatty Washers



Above picture shows the fifth train load of Beatty Washers and washday accessories leaving the company's main plant at Fergus, Ontario. Beatty Brothers were the first company in Canada to ship a complete trainload of hardware across Canada and the only company to ship five train loads.

FRED DUNWOODIE CELEBRATING 90TH BIRTHDAY IN CAMPBELLFORD

She Prefers Jail To Her Husband

BROCKVILLE Sept. 24.—On a charge of abandoning her six children, upon which she was given suspended sentence last June, Mrs. Hattie Barnhart was yesterday sentenced to serve six months in the Mercer Reformatory. The woman was given a chance to look after her children in their home, but declared she preferred a jail sentence to living with her husband.

Only Surviving Member of a Family of Ten—Born Near Hamilton.

CAME TO SEYMOUR IN 1849

CAMPBELLFORD, Sept. 25 (Staff Correspondent). — Frederick Dunwoodie, ninth son of a family of ten of which he is the only surviving member is to-day celebrating his ninetieth birthday anniversary.

Still in possession of all his faculties and a remarkable degree of health, Campbellford's Grand Old Man now views life from the sidelines with a philosophic calm. As late as the summer of 1930 he worked in the harvest fields, and pitched sheaves with the best of men several years his junior. He could have tackled the job again this summer, he stated, but instead preferred to enjoy the comparative leisure in town, which is his full due.

An amiable old gentleman, with a once erect figure now slightly bent with age, and possessing a flowing white pointed beard, he is a familiar and respected man in this community. He has resided in Campbellford even before it was known by that name.

Has Wonderful Memory

He has a keen perception and a wonderful memory for dates and events far back in the dim past. His school days, for instance, are still dayso f pleasant recollection to him, and he can plainly recall the time when he attended the first school here. Mr. Nolan was the master, and the little school house was situated where property belonging to T. R. Horkins, a local merchant, now stands. It is the house in which Mr. Horkins was born.

Mr. Dunwoodie's earliest recollection of this place takes him back to the days when the post office of Campbellford was situated near the site now occupied by the Pulp and Paper Company, while the site on which the present town stands

HINDU - MOSLEM RIOT BREAKS OUT NINETEEN SLAIN

Fighting is Result of Moslem Plot to Dethrone Maharajah of Kashmir.

WANT AFGHAN RULER.

Business Comes to Standstill as Natives Defy Police Behind Barricades.

SRINAGAR, India, September 25 (C.P.). — Nineteen persons were killed in this vicinity in an outbreak of communal rioting last night when Moslems attacked Hindu pickets.

The Hindus replied with rifle fire after twelve of their number had been wounded and the Moslems dropped. Another mob of Moslems armed with swords and axes barricaded themselves in the native quarter and defied the police.

Business was brought to a standstill.

The London Daily Mail said the mortalities were the result of a Moslem conspiracy to dethrone the Maharajah of Kashmir, Sir Hari Singh, a Hindu, and replace him with Inayatullah, an Afghan, who once was Ameer of Afghanistan for three days. The latter was said to be waiting on the border for developments.

Srinagar has been the scene of several bloody clashes lately. Nine Mohammedans were killed and scores wounded in July when police interfered in a conflict with Hindus. The Maharajah took charge of the situation and was credited with restoring peace.

Sale Of U.S. Wheat To China Completed

NANKING, China, Sept. 25.—(A. P.)—T. V. Soong, Minister of Finance for the Nationalist Government, announced the formal completion to-day of the agreement whereby China will purchase from the United States' Farm Board 450,000 tons of wheat.

The grain will be used in relief for the millions of China's flood sufferers.

Soong said the Government is "very mu gratified at the satisfactory conclusion of this agreement, which will be of inestimable value in relieving distress in the flooded regions."

Lindbergh Awarded New Chinese Medal

NANKING, Sept. 25. — (AP) — Chiang Kai-Shek, President of China, received Colonel Charles A. Lindbergh at the National Government offices here today.

As a token of admiration of his distinguished record and in appreciation of his volunteer services in the cause of flood relief in China the National Government council voted to award Lindbergh, China's newly established aviation medal.

Lindbergh will be the first aviator, foreign or Chinese, to receive the medal. Chiang Kai-Shek is expect to present the decoration at a ceremony in the government offices tomorrow.

FORM NEW REBEKAH ORDER.

WINNIPEG, Man., Sept. 25 (C.P.). —An auxiliary order for girls between the ages of 12 and 18 years will be formed by the Order of Rebekah, it was decided yesterday. This decision was the outcome of a day devoted to consideration of suggestions and resolutions presented to the annual convention of the Independent Order of Oddfellows and the Order of Rebekah.

BEER QUESTION SEEN AS ISSUE

American Legion's Vote for Referendum Likely to Echo Into 1932 Election.

WIDE REACTION.

By John F. Chester

WASHINGTON, D. C., Sept. 25.—(AP)—A series of prohibition rumblings precipitated th the capital by word of a new federal beer inquiry, appeared likely today to echo into 1932.

With the American Legion's vote in favor of a referendum ending fresh impetus, reaction ranged from praise and condemnation to a proposal that a resubmission plank be placed in the 1932 Democratic platform, added was a forecast from a dry senator of a lively beer fight in the coming congress.

Senator Bulkley, Democratic anti-prohibitionist from Ohio, suggested that his party agree upon resubmitting the eighteenth amendment to the people rather than argue upon the merits of prohibition.

Forecasts Agitation

Senator Walsh of Montana, forecast agitation for beer legislation in the next congress, known as a constitutional authority, the Western Democrat, a dry, gave as his opinion that repeal or modification of the Volstead Act would not constitute nullification of the eighteenth amendment.

Meantime, there was fresh ferment in the disclosure by Secretary Hyde that the effect upon the farmer of legalizing beer would be ascertained.

A goverment official reported that some beer data already had been gathered by the Department of Agriculture. These figures, he said, indicated that a legalizing of brewing might do the farmer more harm than good in that the market for dairy products might be reduced. Data was shown of the increased sale of these products with the coming of prohibition.

CARTER'S LITTLE LIVER PILLS

Big Muskie Landed After Hard Battle

CAMPBELLFORD, September 25 (Examiner Staff Correspondence). — This is a real fish story and depicts a novel way of bringing home the catch. Two Akron, Ohio, fishermen who were fishing at Healey Falls, near Campbellford, had very little luck, so decided to locate for a spell in Bradley Bay, south of the town. Here the result of their move was quickly rewarded when they hooked a 17½ pound 'lunge. Not being used to the 'big fellows," the difficulty of landing their catch confronted them. After the "big boy" had bent their pole double and dislodged the reel, they managed to haul the whole outfit into the boat without playing the fish. Once there the difficulty was to keep it down, as a 'lunge will fight to the last gasp, so they stretched him in the bottom of the boat and sat on him, and rowed for the shore, where they received assistance in unloading their game freight, which was already winded.

WILL QUESTION MRS. COLLINGS

Huntington Early Astir as Young Widow is Summoned to Testify.

QUIZ DAUGHTER SATURDAY.

HUNTINGTON, N. Y., Sept. 25.—The young widow of Benjamin Collings was called across Long Island Sound today from her home in Stamford, Conn. to tell what she knows of her husband's murder. The town which has been pointing to today's inquest session for a week, was early a stir. A slaying as bewildering as that 16 days ago aboard the little cruiser Penguin doesn't happen very often hereabouts.

The fact that Mrs. Collings herself was to testify before Dr. William B. Gibson, the coroner, and face the questioning of District Attorney Blue whetted the townfolks' excitement The people wanted to see this slender, cultured daughter of New England. They wanted to hear from her lips the story of the two men who battered her husband over the head, trussed him hand and foot threw him overboard into the Sound, made her their prisoner, paddled her away in a canoe, attacked her and then, after a night of piracy, of kidnaping and of murder left her on another boat.

Already Mrs. Collings has told her story half a dozen times to police, to District Attorneys, to her lawyers and finally to Felix de Martini, private investigator. Today was to be the first time, however, for her to submit to public questioning.

Barbara Collings, ten who was aboard the Penguin when her father was murdered and her mother kidnaped was not to be questioned today, but may be put on the stand tomorrow.

Montreal Sleeper Removed From Train

Of service to the travelling public for a great number of years, the sleeper attached to the Lindsay-Montreal train that leaves Peterborough daily at 8.47 p.m. makes its last trip to-night. It is being taken off service by the Canadian National Railway Company due to lack of patronage Similarly the Kingston-Toronto sleeper is also being cancelled for the same reason, despite protests on the part of Kingston residents.

The 8.07 a.m. train from Peterborough to Port Hope also makes its final bow on Saturday morning as a passenger train, and will in future run as a mixed train leaving Peterborough at 6.45 a.m.

Fishermen of the Irish Free State will organize to protect their rights.

Southern Siam has a better highways campaign.

Timetable Changes Effective Sunday, Sept. 27

Important changes in passenger train schedules will be made on September 27th.

Full information now in hands of agents. M-102

MILLBROOK RECTOR CONDUCTS HARVEST SERVICE AT ST. LUKE'S

Thanksgiving is the Principle of Christianity Declares Speaker.

THE ANNUAL MIRACLE.

"If there is anything we may think o as acceptable to Him who has given to us freely I know of nothing more acceptable than thanksgiving," declared Rev. William Simpson of Millbrook addressing the congregation of St. Luke's Church at its annual harvest services last night. "Of all subjects, thanksgiving pertains most closely to the Christian."

"Our coming together to-night to unite in the common purpose of thanksgiving raises us above the animal and even the human. Our thanksgiving raises us to the divine.

"... whether the lower creatures can offer thanks to God. To man alone has that ability and privilege been given. The spiritual ability of entering into relationship with the unseen spirit is part of His gift to us. The lower creature can express satisfaction or dissatisfaction and joy and grief but not thanksgiving to God.

"Thanksgiving is a principle of Christianity. Our great purpose in gathering at this service is to devote ourselves entirely to giving to Him in return for what we have received from Him.

"We of this eastern country have much for which to thank God when we think of the other parts of our Dominion and other sections of the world to-day. Truly, hard times are with us but we must not blame our Creator for that. It is a lack of co-operation among ourselves that has brough that upon us."

The annual miracle—the harvest—is brought about by man in close co-operation with God, Mr. Simpson said. None are closer to God than the tillers of the soil, he contended. Before concluding his sermon he spoke of the symbolism involved in bringing the fruits of the land and placing them in the House of God at such harvest services. It is the offering of man to God in his thanksgiving, he said.

Rev. C. J. Bousfield, rector of St. Luke's, conducted the service. The interior of the church was decorated with the plentiful harvest offerings of the congregations arranged by the Chancel Guild. The beautiful anthem "Break Forth into Joy," and appropriate harvest hymns made up the musical part of the service.

Fenella Girl Wins Judging At C.N.E.

FENELLA Sept. 25 (Examiner Correspondence)—Miss Donna Talling, one of the girls on the Northumberland County team, that entered the judging competition in household science at the Canadian National Exhibition, Toronto, has been notified that, individually, she won first place in judging clothing. Over ninety girls were competing. A few weeks previously at Ottawa fair, Miss Talling obtained first place individually, over all competitors in judging nutritions.

KINSMEN HEAR

(Continued from Page 1)

ditions. I am not a young man as compared with conditions that existed when I was a boy our social conditions and power of production our pleasures and enjoyment has vastly increased over conditions of that time," he said.

He cited as examples the introduction since those days of the telephone and electric light, the advancement of surgery and medicine, the discovery of wireless, telegraph and the radio and the ease of rapid transportation over paved highways through the medium of the gasoline engine. All these things he said, are contributing to the comfort and enjoyment of modern day life and were denied to our pioneer ancestors.

"We have an accumulation of wealth and are really suffering from over production. Really there must be some way out of the present difficulty without abandoning our competitive system, to get across the things from those that have them to those that have not. A solution shall be found and we shall then enter upon the Millenium," he concluded.

A vote of thanks was accorded to the speaker on the motion of Rod Davis.

Dr. Honey president of the club introducing his guest Colonel D. J. Lawrie pointed out the debt of gratitude that the Kinsmen owed to the Colonel for the arrangements he had made for the accommodation of their street dance at the Armouries on short notice.

Drought has done considerable damage to the flax crop in Italy.

What a happy baby!

BABY'S happiness is so largely a matter of health and comfort. If he frets and cries, it's quite likely a rash, or a chafed skin or a stopped up nose is making him miserable. You'll be wise to prevent these little troubles with "Vaseline" Petroleum Jelly.

After the baby's bath, apply a light film of "Vaseline" Petroleum Jelly all over the delicate skin—head, too. Then with little cotton swabs on toothpicks, *very gently* apply to the baby's nostrils. This cleanses and lubricates them and tends to prevent colds.

These are safe, easy things to do. "Vaseline" Jelly has been used for babies by mothers and doctors and in great hospitals for more than half a century. And remember when you buy that the trade-mark Vaseline on the label is your assurance that you are getting the genuine product of the Chesebrough Manufacturing Co., Cons'd, 5520 Chabot Ave., Montreal, Canada.

FRED DUNWOODIE CELEBRATING 90TH BIRTHDAY

(Continued from Page 1)

was then known as Seymour Bridge village.

In those far-away days there was a bridge spanning the river, but not to be compared with the bridge that now transports heavy traffic from one end of the town to the other, across the waterway. The bridge Mr. Dunwoodie had early acquaintance with, was more often than not under repair, and travellers perforce had to ford the river with their vehicles. The river at that time was of course not of the present depth or width as the dam had not at that period been constructed.

Reminiscently Mr. Dunwoodie related to The Examiner how, on one occasion, he witnessed a drove of cattle from Belleville precipitated into the river when the bridge broke down under their weight. Fortunately none of the cattle were drowned.

Born Near Hamilton

Mr. Dunwoodie, a son of the late Mr. and Mrs. James Dunwoodie, was born at Wellington Square, near Hamilton, on September 25, 1841. His parents came to this country from Dumfrieshire, Scotland. They later took up land in Seymour Township in the year 1840, and spent the remainder of their lives in this district.

Their family consisted of ten children as follows: Mrs. Barbara Hunter, Robert, Mrs. Jean Reddick late of Cobourg, James, William Jean, who were all born in Scotland, and Adam, John, Fred and Gilbert, born in this country.

Mr. Dunwoodie's brother James was first reeve of Campbellford and was also reeve of Seymour Township for many years, while John also aspired to municipal honors, and was Reeve of Lakefield for some time. Five of Mr. Dunwoodie's brothers in common with himself ran sawmills or grist mills, although Gilbert, who died as a young man, was a medical student at Queen's University, Kingston.

It was on March 21, 1872, "a very cold day," states Mr. Dunwoodie, that he was married to Bessie Pollock. The marriage ceremony was performed at the Presbyterian Church, Lanark, Ontario, by Rev. Mr. Wilson, in which town the romance had begun six months after Miss Pollock had arrived from her native town, Southampton, England.

Mrs. Dunwoodie is still living and is past her eighty-first year. The marriage has been blessed by a family of six sons and three daughters. The eldest son, William of Montreal, is 58 years old, while Jack the youngest of the family is 38 years of age.

Their children are: William, Janet (Mrs. Govan of Indian Head); Robert of Govan, Sask.; Bessie, who died at the age of three and a quarter years; James, who died at the age of 28 years; Bessie, who died at the age of eleven months; Fred, and Roland of Govan, and Jack of Indian Head.

Prominent in Freemasonry, Mr. Dunwoodie was first initiated into the Order in the year 1867 at Manistee, Michigan. He is First Master and charted member of Govan (Saskatchewan) Lodge, which he founded; charter member of Clementi Lodge, Lakefield, and Past Master and charter member of Evergreen Lodge, Lanark.

Mr. Dunwoodie is a keen follower of sport, and is regularly to be seen attending all kinds of games in Campbellford. He has been something of an athlete in his day, and is even yet quick on his feet and able to climb. It was only in August last that he was to be seen up on a ladder 22 feet from the ground fixing the eavestrough on his house.

LINDSAY FAIR HAS BIG EXHIBIT

Mariposa Resident Flimflammed Out of $220 at Oakwood Fair.

BEAR SHOT IN HALIBURTON

LINDSAY, Sept. 24—(Examiner Correspondence)—The gates of the Lindsay Central Fair were thrown open yesterday, although the formal opening did not take place until to-day. The judging in the different departments took place yesterday, and naturally the attendance of visitors was small. Interviewed by The Examiner, Secretary Black announced that never in the history of the fair was there such a heavy exhibit in all departments. This was especially true of cattle and live stock in general. All that was required to make the annual event a big success was good weather and a big gate.

Hon. Mr. Challies, the new Provincial Secretary in the Provincial Legislature, officiated at the formal opening on Thursday.

Mr. Arthur Carew, of the Carew Lumber Company, while on a fishing expedition in Haliburton, shot a monster black bear. Bruin's coat was in such bad shape it was decided to bury him where he fell.

Archie Burns, who resides two miles north of Kinmount, found the pathway from the woods blocked by a very large bear a few days ago. Archie picked up his dog and started for home. The bear watched him for a time, then turned and walked away with an abnormal strut.

The police yesterday reported one case of theft at the local fair grounds. It occurred last night. While the police, together with Mr. Frank Rich, son of the president of the Oakwood Fair, were trying to locate the sharper who flimflammed the Mariposa resident out of $220.00 at the village show in the afternoon, a light-fingered individual relieved Mr. Rich of a gold watch and a sum of money.

Chasing a rat into a sewer at Scarborough, England, a dog was trapped in a drain, where it remained two days until rescued by workmen.

Hull, England, has just opened its new $1,300,000 North Bridge.

INQUEST IS HELD INTO DEATH OF BUCHANAN BOY

(Continued from Page 1)

there were many deep pools. However, many youngsters used it as a swimming hole.

According to Constable Puffer the drowning took place on Friday, September 25 between 10.45 and 10.50 in the morning.

Dr. N. F. Sutton, who was called to attend the boy, stated that methods to renew respiration had been continued for more than an hour.

No Safety Appliances

John R. Thompson, who was called to the scene of the drowning shortly after the boy's head had disappeared beneath the surface, stated that there was no rope or other safety appliance on the spot to aid in the rescue. He too considered the pool dangerous for children who could not swim.

C. F. Packenham stated that the shore of the pool shelved off sharply at the spot where the boy had been drowned. The depth of the water ranged from eight to twelve feet. He recommended that a boom log be kept in the pool to protect bathers.

Mrs. Elizabeth Tharby declared that she had seen the boys in swimming and had warned them away from the spot.

J. Nelson, principal of the school of which Everett Buchanan was a pupil, stated that the day of the drowning had been school fair day and he had let school out at 9.30 in the morning so that the children could arrange their exhibits in the armouries. The children were not formall dismissed, he stated, but he told several that they could go home. Everett Buchanan had not been exhibiting at the fair.

"I had previously made a rule and the children knew it that there was to be no swimming until after school hours," Mr. Nelson said.

The members of the jury were: Charles Brown, William Portway, J. F. Elliott, foreman; Richard Dean, Samuel Wildman, Edward Doherty and George Hamblin.

Lakefield

An entirely new feature at the Lakefield Fair this year was an exhibit by the Dominion Government's Department of Agriculture in charge of a representative, Mr. Ingle.

A health exhibit was also shown, under the auspices of the Woman's Institute, and sent for the purpose for the Department.

Mayor Denne of Peerborough was a visitor to the Lakefield Fair on Tuesday.

Mr. J. H. Davidson of Cobourg spent Tuesday in the village and judged all the horses at the Fair.

Dr. McElroy of Peterborough was in the village acting as starter of the races at the Fair.

Mr. and Mrs. J. W. Stuart of Peterborough were in the village on Tuesday attending the Fair.

Mr. Albert Finnie of Peterborough is visiting relatives in the village.

Mr. W. R. Potter of Peterborough attended the Fair on Tuesday.

Mr. G. A. Gillespie of Peterborough was a visitor to the Fair on Tuesday.

Miss K. E. Simpson of Toronto spent the week-end in the village with her mother, Mrs. T. A. Simpson.

Mr. Wallace Anderson of Warsaw was in the village on Monday attending Mr. Leggott's funeral.

Mrs. W. J. Beatty of Renfrew is the guest of Mr. and Mrs. John Sanderson.

Mrs. Robertson, who has been visiting her daughter, Mrs. McDougal, in Whitby, is now visiting her daughter, Mrs. H. E. Moore, in the village.

Mr. and Mrs. R. E. Smith of Goderich were week-end visitors of Dr. and Mrs. F. H. Lingwood while on their way to attend the annual convention of the Good Roads Association at Lucerne-in-Quebec, Montebello.

Mr. and Mrs. Andrew Wilson, of Young's Point, were in the village on Tuesday attending the Fair.

Constable J. Deannard of Peterborough was among those present at the Fair on Tuesday. Constable Deannard assisted Chief Webster in keeping the track clear and preventing accidents.

Mrs. W. G. Stone, Mrs. W. J. Beattie, Mrs. Melville Stone, Misses Irene and Madeline Stone, and Mrs. John Sanderson motored to Apsley on Friday and spent the day with Mr. and Mrs. W. J. Staples.

Mrs. W. E. Gillman was in Bobcaygeon on Monday.

Mr. Bruce H. Martin of Corbyville was a visitor to the village on Tuesday.

Mr. E. A. Peck, M.P., of Peterborough, was a visitor to the Fair on Tuesday.

Dr. Munro of Warsaw was in the village on Monday attending the funeral of Mr. Leggot.

Mr. J. W. Stuart of Peterborough attended Mr. Leggott's funeral on Monday.

Mr. and Mrs. H. R. Wagar spent the week-end in Toronto.

Miss Daubuz was in Peterborough on Wednesday.

On Monday afternoon two cars containing teacher friends from the staff of the Peterborough Collegiate Institute, some of them college friends, drove out to see Mrs. Stinson, of the High School staff. They had tea together at Reydon Manor.

Mr. J. J. Duffus of Peterborough was a visitor at the Fair on Tuesday.

Mr. Rufus Payne of Warsaw was in the village on Monday attending Mr. Leggott's funeral.

Dr. N. H. Sutton of Peterborough was in the village on Monday.

Miss Lauretta Northey of Peterborough is spending her vacation with her mother, Mrs. C. O. Northey.

Ask your Mirror to-night

Marchford Magnesia Masque, the magic New Facial, takes years from your age in 24 hours

Your most truthful friend is your mirror. Look into your mirror tonight. What do you see there? Does your mirror still reflect youth, buoyancy—a clear, glowing skin and a happy smile?

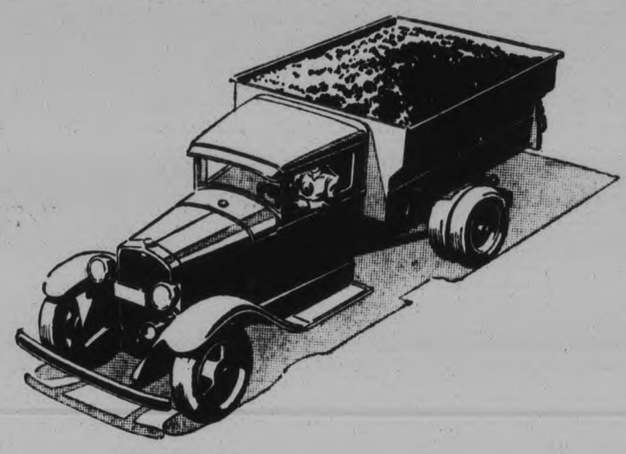
Or do you see any of these disturbing little "telltales"—near your eyes, at the mouth corners, under the chin? Remember—"Beauty is skin deep." Your face is as old as your skin. To "youthify" your face you must "youthify" your skin.

Magnesia Masque, the magical new "youthifier" begins by penetrating pore-deep and absorbing acid secretions and oily impurities. Magnesia has long been famous as an anti-acid and an oil-absorbent. This wonderful new preparation is based on magnesia for this special purpose of treating the skin. Once thoroughly cleansed and softened by Magnesia Masque the skin glows with renewed life. Drooping contours lift. The skin becomes firm and smooth. The little telltale lines disappear. Twenty-four hours will make a marked difference. Test it. Get some and try it tonight. Continue the treatment night and morning for a few weeks and skin blemishes such as blackheads, enlarged pores, dry scale, red patches and oily shine will all be gone, together with the lines and wrinkles which hint of age or fatigue.

Magnesia Masque is complete in itself. You will need no other creams, lotions or astringents. Simply massage your face night and morning with the tips of your fingers for a few minutes after applying Magnesia Masque. Your mirror will tell you how much younger you look. Costs less than one cent a day to use.

Your Druggist has it. Try this amazing treatment to-day.

MARCHFORD MAGNESIA MASQUE



A load of FORD COKE is a full load of heat

WHEN you buy a load of Ford Coke, you get concentrated heat, at a moderate price. It burns almost completely — without smoke or soot, and with surprisingly little ash. There's no dirt or waste to a load of this fuel. Ford standards insure its cleanliness and uniformity.

Freedom from soot makes a clean furnace, and that, in turn, gives efficient burning conditions. Ford Coke is not only economical—it is easy to use and control. No need to alter your present furnace. This fuel banks well, requires little attention, is easily controlled, and quickly provides abundant heat when required. Order a load of it now, and learn how little it can cost to heat your home.

Ford Charcoal Briquets are an ideal fuel for starting furnace and for grate fires

FRIDAY, SEPTEMBER 25, 1931

THOSE WORK CAMP JOBS.

Premier Henry's statement that workers from Southern Ontario will be selected on a quota basis for the highway construction camps, and that the larger numbers will be taken from those communities in which the total of unemployed is the greatest, indicates that unless other sections of highway are added to the scheme the situation in the older parts of the Province is not likely to be greatly relieved.

As a matter of fact, there are enough unemployed in the North at present to fill all the camps that have been authorized, and the numbers sent from the southern section of Ontario are likely to be small unless the present plans are considerably amplified.

When first announced this scheme of highway construction was hailed as an enterprise that would take care of all the transient unemployed and a large proportion of the single men in the Province who are without jobs.

A start around September 1 was expected, and there was general confidence that the whole situation would be materially improved.

However, there have been no speed records shattered in getting the undertaking under way, and reading between the lines of official statements, the truth becomes evident that only a fraction of the urban unemployed in Ontario's cities will find work on the Ontario section of the trans-Canada highways.

PROVIDING JOBS.

The community effort launched by the City Council with the object of finding jobs for the local unemployed is beginning to acquire momentum under the direction of Alderman J. A. McNabb and a representative committee will, it is expected, be at work shortly in this most worthy campaign.

Undoubtedly there are numerous odd jobs that if given out to some of the city's workless at this time would be of much assistance to men who have been without employment for some time.

The main thing is to get the effort under way, make the appeal to the citizens as effectively as possible and provide facilities by which the job and the man without one can be brought together.

Closely allied with this plan of temporary work for the unemployed is the system launched in a number of cities last winter by which the residents of particular districts provided a steady winter's work for an unemployed man in their neighborhood by having him do the odd jobs in his block for wages provided by a weekly contribution from the other residents.

That plan offers possibilities that Ald. McNabb's committee might be interested in; at least it is worthy of investigation with a view to launching a similar scheme here for the winter months, if it is considered practicable.

Reports from elsewhere are that the method worked out satisfactorily when given a fair trial.

UNFAIR COMPETITION.
